(unaudited)

NOTE 1 – ORGANIZATION AND GOING CONCERN

Organization

Kallo Inc. (the “Company” or “Kallo”), a development stage company, was incorporated in Nevada on December 12, 2006. The Company originally offered media, inks, printing, and graphic design services to the large format digital printing industry. The Company’s fiscal year ends on December 31st. On December 31, 2009, Kallo entered into an agreement with Rophe Medical Technologies Inc. and its shareholders (collectively “Rophe”) wherein Kallo acquired all of the issued and outstanding shares of common stock of Rophe. As a result of the Rophe transaction, Kallo changed its business focus from selling printing equipment to manufacturing and developing software designed to taking medical information from many sources, and then depositing it into a single source as an electronic medical record for each patient.

On December 10, 2010, the Company entered into a North American Authorized Agency Agreement (the “Agreement”) with Advanced Software Technologies, Inc., located in the Grand Cayman Islands (“AST”). Under the Agreement, the Company was appointed sales agent for AST and will be paid fees by AST for selling AST products. The Company has agreed to pay AST a total of \$213,000 for modification of the AST products to comply with the requirements of the Canadian Electronic Health Record market. The AST technology is being incorporated into the Company’s medical information software currently in development. Delays in announcing EMR specifications 5.0 by Ontario and Canadian regulatory bodies has caused a delay in the marketing plans for launching AST products in the Canadian market despite our EMR having been announced as the official EMR of the paediatric section – Ontario Medical Association.

Going Concern

The accompanying unaudited condensed consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The amounts of assets and liabilities in the consolidated financial statements do not purport to represent realizable or settlement values. The Company has incurred operating losses since inception and has an accumulated deficit of \$18,692,060 at September 30, 2013. The Company will continue to incur losses as it develops its products and marketing channels during 2013.

The Company has met its historical working capital requirements from the sale of common shares and loans from an officer/stockholder. In order to not burden the Company, the officer/stockholder has agreed to provide funding to the Company to pay its annual audit fees, filing costs and legal fees as long as the board of directors deems it necessary. However, there can be no assurance that such financial support shall be ongoing or available on terms or conditions acceptable to the Company. This raises substantial doubt about the Company’s ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2 – ACCOUNTING POLICIES AND OPERATIONS

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 8-03 of Regulation S-X related to smaller reporting companies. These unaudited condensed consolidated financial statements should be read in conjunction with the annual audited financial statements and notes, which are included as part of the Company's Form 10-K filed with the SEC for the year ended December 31, 2012.

Operating results for the periods presented are not necessarily indicative of the results that may be expected for the full year. Notes to the financial statements which substantially duplicate the disclosure contained in the audited financial statements for fiscal year ended December 31, 2012 as reported in the 10-K have been omitted. In the opinion of management, all adjustments, consisting only of normal recurring adjustments, considered necessary for a fair presentation, have been included in the accompanying unaudited condensed consolidated financial statements.

NOTE 2 – ACCOUNTING POLICIES AND OPERATIONS (continued)

Recently Adopted Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board (“FASB”) issued ASU 2011-11, “Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities”. The guidance in this update requires the Company to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. The pronouncement is effective for fiscal years and interim periods beginning on or after January 1, 2013 with retrospective application for all comparative periods presented. The Company adopted this new standard on January 1, 2013 and it had no material effect on the Company’s financial position or results of operations.

In February 2013, the FASB issued ASU 2013-02, “Comprehensive Income (Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income” which requires entities to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, entities are required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under US GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under US GAAP to be reclassified in their entirety to net income, entities are required to cross-reference to other disclosures required under US GAAP that provide additional detail on these amounts. This ASU is effective prospectively for reporting periods beginning after December 15, 2012. The adoption of ASU 2013-02 had no material effect on our financial statements.

In October 2012, the FASB issued ASU No. 2012-04, Technical Corrections and Improvements. The ASU clarifies the Codification or corrects unintended application of guidance and includes amendments identifying when the use of fair value should be linked to the definition of fair value in Topic 820, Fair Value Measurement. This ASU 2012-04 results in common principles and requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. GAAP and International Financial Reporting Standards. The ASU is effective for fiscal periods beginning after December 15, 2012. The adoption of ASU 2012-04 had no material effect on our financial statements.

In July 2012, the FASB issued Accounting Standards Update (ASU) 2012-02, Intangibles-Goodwill and Other-Testing Indefinite-Lived Intangible Assets for Impairment, to allow entities to use a qualitative approach to test indefinite-lived intangible assets for impairment. ASU 2012-02 permits an entity to first perform a qualitative assessment to determine whether it is more likely than not that the fair value of an indefinite-lived intangible asset is less than its carrying value. If it is concluded that this is the case, it is then necessary to perform the currently prescribed quantitative impairment test by comparing the fair value of the indefinite-lived intangible asset with its carrying value. Otherwise, the quantitative impairment test is not required. This guidance is effective for fiscal years beginning after September 15, 2012 and early adoption is permitted. The Company adopted this guidance on January 1, 2013, and it had no material impact on the Company’s financial statements or related disclosures.

Recent Accounting Pronouncements

In March 2013, FASB issued ASU No. ASU 2013-05, Foreign Currency Matters (Topic 830) Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity. The amendments in ASU 2013-05 provide guidance on releasing Cumulative Translation Adjustments when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. In addition, these amendments provide guidance on the release of cta in partial sales of equity method investments and in step acquisitions. The amendments are effective on a prospective basis for fiscal years and interim reporting periods within those years, beginning after December 15, 2013. The amendments should be applied prospectively to derecognition events occurring after the effective date. Prior periods should not be adjusted. Early adoption is permitted. If an entity elects to early adopt the amendments, it should apply them as of the beginning of the entity's fiscal year of adoption. The Company plans to adopt this guidance beginning January 1, 2014. The adoption of this Standard should have no effect on the Company's financial statements.

NOTE 2 – ACCOUNTING POLICIES AND OPERATIONS (continued)

Recent Accounting Pronouncements (continued)

In July 2013, FASB issued ASU No. ASU 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. ASU 2013-11 requires an entity to present an unrecognized tax benefit as a reduction of a deferred tax asset for a net operating loss (NOL) carryforward, or similar tax loss or tax credit carryforward, rather than as a liability when (1) the uncertain tax position would reduce the NOL or other carryforward under the tax law of the applicable jurisdiction and (2) the entity intends to use the deferred tax asset for that purpose. ASU 2013-11 is effective prospectively for fiscal years and interim periods within those years, beginning after December 15, 2013 for public entities. Early adoption and retrospective application are permitted. We do not expect the adoption of ASU 2013-11 to have a material impact on our financial position or results of operations.

NOTE 3 – STOCKHOLDERS' DEFICIENCY

Common Stock

During the quarter ended June 30, 2013, the Company issued 16,100,000 shares of its common stock in consideration of \$805,000 and 200,000 shares of its common stock valued at \$5,000 to a consultant as compensation.

During the quarter ended September 30, 2013, the Company received cash of \$269,235 for shares to be issued and agreed to convert \$57,826 of short term loans payable into common shares. The related shares were not yet issued as at September 30, 2013.

On September 26, 2012, the Company entered into a investment agreement with Kodiak Capital Group, LLC (“Kodiak”) whereby the company issued 2,000,000 shares of its common stock in exchange for an option to sell up to \$2,000,000 worth of shares of the Company at a price equal to eighty percent (80%) of the lowest daily preceding five days Volume Weighted Average Price at the time of exercise and expires six months from inception. The Company recorded a stock subscription receivable (included in equity) in the amount of \$100,000 which was determined to be the fair value of the option on September 26, 2012. On October 24, 2012, Kallo filed a prospectus relating to the resale of up to 50,000,000 shares of common stock issuable to Kodiak for investment banking services pursuant to an Investment Agreement dated September 26th, 2012. The fair value of the option was valued using the following assumptions and estimates in the binomial lattice valuation model: Expected life of 6 months, volatility of 230%, dividend yield of 0% and risk-free interest rate of 0.13%.

The Investment Agreement will terminate when any of the following events occur:

- Kodiak has purchased an aggregate of \$2,000,000 of Kallo common stock or six (6) months after the effective date;

- Kallo files or otherwise enters an order for relief in bankruptcy; or
- Kallo common stock ceases to be registered under the Securities Exchange Act of 1934 (the “Exchange Act”).

On June 27, 2011, Kallo registered 10,000,000 shares of its Common Stock, par value \$0.00001 per share, under a 2011 Non-Qualified Stock Option Plan (the “2011 Plan”), to be offered and sold to accounts of eligible persons of the Company under the Plan at a proposed maximum offering price per share of \$0.15. This 2011 Plan is for persons employed or associated with the Company, including without limitation any employee, director, general partner, officer, attorney, accountant, consultant or advisor, is intended to advance the best interests of the Company by providing additional incentive to those persons who have a substantial responsibility for its management, affairs, and growth by increasing their proprietary interest in the success of the Company, thereby encouraging them to maintain their relationships with the Company. As at September 30, 2013, 7,233,334 shares have been issued under this 2011 Non-Qualified Stock Option Plan.

## NOTE 3 – STOCKHOLDERS’ DEFICIENCY (continued)

On September 6, 2012, Kallo registered 50,000,000 shares of its Common Stock, par value \$0.00001 per share, under a 2012 Non-Qualified Stock Option Plan (the “2012 Plan”) to be offered and sold to accounts of eligible persons of the Company under the Plan at a proposed maximum offering price per share of \$0.04. This 2012 Plan is for persons employed or associated with the Company, including without limitation any employee, director, general partner, officer, attorney, accountant, consultant or advisor, is intended to advance the best interests of the Company by providing additional incentive to those persons who have a substantial responsibility for its management, affairs, and growth by increasing their proprietary interest in the success of the Company, thereby encouraging them to maintain their relationships with the Company. As at September 30, 2013, no shares have been issued under this 2012 Non-Qualified Stock Option Plan.

## Stock Split

On February 8, 2008 the Board of Directors approved a three-for-one stock split effective February 25, 2008. All references in the consolidated financial statements and related notes related to the number of shares and per share amounts of the common stock have been retroactively restated to reflect the impact of this stock split.

## NOTE 4 – WARRANTS

Warrant activity for the year ended December 31, 2012 and the nine months ended September 30, 2013 is as follows:

	Number of Warrants	Weighted Average Exercise Price
Balance, December 31, 2011 (audited)	1,580,000	\$ 0.50
Granted	-	-
Cancelled	-	-
Exercised	-	-
Balance, December 31, 2012 (audited) and September 30, 2013 (unaudited)	1,580,000	\$ 0.50

Each warrant is exercisable for a period of one year from the effective date of a registration statement filed with the SEC. Such registration statement has been filed effective October 9, 2013.

The value of the stock purchase warrants granted in 2010 was valued at \$117,620 using the following assumptions and estimates in the Black-Scholes model: Expected life of 1.2 years, volatility of 100%, dividend yield of 0% and risk-free interest rate of 1.40%.

NOTE 5 – RELATED PARTY TRANSACTIONS

Included in short term loans payable is an amount due to a shareholder and director of the Company for the amount of \$1,450 (See Note 10) and \$9,856 (See Note 10) due to another director and officer of the Company and in accrued liabilities – other is an amount of \$4,203 due to directors and officers of the Company as at September 30, 2013. Other receivables include an amount of \$3,945 due from a director and officer of the Company for travel advances as at September 30, 2013.

Transactions with related parties are measured at the exchange amount, which is the amount of consideration established and agreed to by the related parties.

## NOTE 6 – ROPHE ACQUISITION

On December 11, 2009, an agreement was entered into by the Company to acquire 100% of the issued and outstanding shares of Rophe Medical Technologies Inc. (“Rophe”) for cash consideration of \$1,200,000 and 3,000,000 of the Company’s common shares valued at \$0.122 per share (based on discounted market price per share at the date of acquisition) for total purchase price of \$1,565,000 (the “Rophe Acquisition”). The \$1,200,000 was initially payable as follows: \$50,000 within 30 days of the date of the agreement; \$200,000 on March 31, 2010; \$250,000 on April 30, 2010; \$233,333 on launch of Project 1; \$233,333 on launch of Project 2; and, \$233,334 on launch of Project 3. This transaction was closed on December 31, 2009.

Subsequently, the Rophe Acquisition payment terms were amended and 3,000,000 additional shares of restricted common stock were issued in 2009 as payment for \$400,000 with the remaining cash consideration as follows: \$35,000 by March 5, 2010, \$65,000 by March 31, 2010, \$233,333 on launch of Project 1; \$233,333 on launch of Project 2; and, \$233,334 on launch of Project 3. As at September 30, 2013, there is a payable in the amount of \$525. The 3,000,000 shares were considered issued as at the closing date of the acquisition and valued based on discounted market price per share at the date of acquisition and the total of 6,000,000 shares issued for the Rophe acquisition are restricted.

The total recorded acquisition price of \$865,000 was allocated to the copyrights obtained in the acquisition as they were the only significant assets of Rophe, which did not have any operations. The Company has not recorded the remaining contingent payment of \$700,000 due to the uncertainty of the launch of Projects 1, 2 and 3. According to the Canadian Intellectual Property laws in Canada, the life of a copyright is the author’s life, the remainder of the calendar year in which the author dies, and a period of 50 years following the end of that calendar year. As a result, the useful life of the copyrights are determined to be indefinite are not amortized but subject to testing for impairment. The Company reviews the value of the copyrights on an annual basis to determine if the value has been impaired.

## NOTE 7 – COMMITMENTS &amp; CONTINGENCIES

## Commitments

## Operating lease

The Company leases office facilities under non-cancelable operating leases. The Company’s obligations under non-cancelable lease commitments are as follows:

Year ending December 31, 2013	\$	28,289
Year ending December 31, 2014		15,265
Total	\$	43,554

## Capital lease

Minimum lease payments on capital lease obligations are as follows:

Within one year	\$	23,887
	\$	23,887

Software development

As discussed in Note 1, the Company has agreed to pay AST a total of \$213,000 for modification of the AST products to comply with the requirements of the Canadian Electronic Health Record market, of which \$NIL (Fiscal 2012 - \$24,000) was paid in 2013. The remaining balance of \$56,496 is due in 2013.

Contingencies

(a) On July 29, 2011, Watt International Inc. (“Watt”) commenced a third party claim against Kallo concerning monies that Kallo allegedly owed to Watt for branding and internet services provided by Watt to Kallo. Watt is seeking damages in the amount of \$161,673.67 plus unspecified “special” damage. Management is of the opinion that Watt has charged Kallo for services that Watt did not perform, and that Watt has duplicated charges for work that it performed and intends to defend itself vigorously in the suit. Management has recognized an accrual for the amount of the claim. An estimate could not be made of the unspecified “special” damage and hence no accrual was made thereof. Management is therefore unable to estimate the possible loss or range of loss in excess of the amounts accrued, if any.

## NOTE 7 – COMMITMENTS &amp; CONTINGENCIES (continued)

## Contingencies (continued)

- (b) On December 20, 2012, Mansfield Communications Inc. (Mansfield) filed a Statement of Claim against Kallo concerning monies allegedly owed by Kallo to Mansfield for media consultancy and communication services provided by Mansfield to Kallo. Mansfield is seeking damages in the amount of Canadian \$191,246.11 plus unspecified “special” damage. As a result of the claim, on January 11, 2013, Kallo has cancelled 500,000 common shares previously issued to Mansfield as partial payment for services during 2012. On January 30, 2013, Kallo filed a Statement of Defense. Management is of the opinion that Mansfield has charged Kallo for services that Mansfield did not perform, and that Mansfield has duplicated charges for work that it performed and intends to defend itself vigorously in the suit. Management has initially recognized an accrual for the amount of the claim. On October 31, 2013, Kallo signed a settlement agreement with Mansfield and agreed to pay Canadian \$55,000 if paid in full on or before March 31, 2014 or Canadian \$70,000 if paid in instalments between April and December 2014 or Canadian \$150,000 if the Company defaults on any of the instalment payments as mentioned above in full settlement of the above claim. As a result, management has adjusted the accrual for the claim to \$145,590, being the maximum amount payable to Mansfield.
- (c) The Company has calculated the estimated amount of withholding taxes on stock-based compensation based on valuation obtained from a third party. Should the amount payable be different from the estimated amount, the difference will be recorded in the period of payment. At this point, the Company cannot make an estimate of the potential loss that may arise from any liability for withholding taxes.
- (d) On November 17, 2010, Kallo had agreed to pay a past officer of the Company \$52,000 as past compensation for services rendered and that amount was fully accrued for. The amount was payable in instalments due between November 2010 and April 2011. The Company has not paid the last three instalments due between February and April 2011 for a total amount of \$30,000. On February 14, 2013, the past officer filed a claim with the Small Claims Court of Ontario requesting judgment against the Company for the total amount of Canadian \$25,000. An amount of \$30,000 has been accrued for as at September 30, 2013. The court will hold a mandatory settlement conference with all parties on December 20, 2013. Kallo management is confident of settling this at the settlement conference.

## NOTE 8 – LOAN PAYABLE

As at September 30, 2013, a loan payable of \$63,182 (2012 - \$109,044) to an arm’s length party bears interest at 6% per annum, is unsecured and is payable in monthly installments of principal and interest in the amount of Canadian \$7,232.50. Future scheduled repayments of principal are as follows:

Within one year	\$	63,182
	\$	63,182

NOTE 9 – CONVERTIBLE PROMISSORY NOTE

The convertible promissory notes were unsecured and bore interest at 3.25% per annum with all principal and accrued interest due and payable one year from the dates of execution of the Notes. The Notes were due as follows: \$20,000 on April 23, 2013, \$10,000 on July 5, 2013, \$20,000 on August 22, 2013. The Holders could, in lieu of payment of the principal and interest, elect to convert such amount into common shares of the Company at the conversion price per share equal to 30% discount to the average of the previous three lowest trading days over the last 10 trading days prior to the Conversion Date. All shares converted on or after six months from the dates of execution of the notes would have been issued as free-trading, unrestricted shares. The Company could prepay these Notes at anytime without penalty and without the prior consent of the Holders.

## NOTE 9 – CONVERTIBLE PROMISSORY NOTE (continued)

At the commitment date, the Company elected to initially and subsequently measure in its entirety the convertible promissory notes at fair value by comparing the effective conversion price to the fair value of the Company's stock. The Company recognized an initial derivative loss of \$203,868 related to the debts on inception dates and recognized a gain of \$87,200 related to change in fair values on the debts since their inception dates to the times of repayment of the notes. The number of common shares indexed to the derivative financial instruments used in the above calculation were 2,472,089 as at inception date.

During the period ended September 30, 2013, the Company repaid \$50,000 of the above promissory notes resulting in a gain of extinguishment of convertible promissory note of \$116,668.

Cash received from convertible promissory notes	\$	50,000
Derivative loss on inception date		203,868
Fair value of convertible promissory notes on inception date		253,868
Change in fair value (gain)		(53,101)
Fair value as at December 31, 2012		200,767
Repayment of convertible promissory note		(50,000)
Gain on extinguishment of convertible promissory note		(116,668)
Change in fair value loss (gain)		(34,099)
Fair value as at September 30, 2013	\$	-

## NOTE 10 – SHORT TERM LOANS PAYABLE

On July 9, 2012, the Company issued a promissory note to a director agreeing to pay the principal amount of \$30,000 plus interest at the rate of 6% per annum on July 31, 2012. Kallo did not pay on the due date and the director advanced a further \$24,839 which is non-interest bearing, unsecured and has no fixed repayment date. During the quarter ended September 30, 2013, the amount of \$57,826 was transferred to deposit for shares to be issued as the director has agreed to convert this amount into common stock of the Company, leaving \$1,450 outstanding as at September 30, 2013.

An officer and a stockholder have agreed to provide short term funding to the Company by paying some of its expenses. The advances are non-interest bearing, unsecured and have no fixed repayment dates. As at September 30, 2013, \$9,856 was owing to the officer and the stockholder.

As at September 30, 2013, the balance of \$18,977 represented short term funding provided by third parties which are non-interest bearing, unsecured and have no fixed repayment date.

## NOTE 11 – SUBSEQUENT EVENT

On October 31, 2013, Kallo signed a settlement agreement with Mansfield and agreed to pay Canadian \$55,000 if paid in full on or before March 31, 2014 or Canadian \$70,000 if paid in instalments between April and December 2014 or Canadian \$150,000 if the Company defaults on any of the instalment payments as mentioned above in full settlement of the claim discussed in 7(b) above under Contingencies.

---

Table of Contents

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF  
2. OPERATIONS.

This section of the report includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like: believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements, which apply only as of the date of this report. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from historical results or our predictions.

There is substantial doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay out our bills. This is because we have not generated substantial revenues and do not anticipate generating on-going revenue until we complete the development of our website and engage suppliers and customers to buy our products. We expect to incur operating losses in the foreseeable future and our ability to continue as a going concern is dependent upon our ability to raise additional money through investments by others and achieve profitable operations. There is no assurance that we will be able to raise additional money or that additional money or that additional financing will be available to us on satisfactory terms or that we will be able to achieve profitable operations. The consolidated statements were prepared under the assumption that the Company will continue as a going concern, however, there can be no assurance that such financial support shall be ongoing or available on terms or conditions acceptable to the Company. This raises substantial doubt about the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

For the last 4 fiscal years, starting January 2010, Kallo management and board of directors have raised funds through a personal and professional network of angel investors. This has enabled product and business development, continued operations, and generation of customer interest. In order to continue operations, management has contemplated several options to raise capital and sustain operations in the next 12 months. One of these options is an equity line of credit from Kodiak Capital Group LLC. Management's opinion is that this line of credit from Kodiak Capital Group LLC will enable continued operations for the next 12 months. There is no assurance that Kodiak Capital Group LLC will supply us with any money. In the event we do not receive any funds from Kodiak, we will continue to borrow money from or sell restricted shares of our common stock to our officers and directors in order to maintain operations. Our officers and directors are under no legal duty to provide us with additional financing nor have our officers and directors committed to provide us with additional financing.

Analysis of our business acquisition and operations cost indicate a reasonable requirement of USD \$2,000,000 or less. We have entered into an agreement with Kodiak Capital Group, LLC., a Delaware limited liability company ("Kodiak") whereby we have the right to "put" to Kodiak up to \$2,000,000 in our shares of common stock. In connection therewith, we have filed a Form S-1 registration statement with the Securities and Exchange Commission registering for sale up to 50,000,000 shares of our common stock. Based upon the current price of our common stock, we believe that if Kodiak purchases all 50,000,000 shares of common stock, we will only receive \$720,000. The reasonable funding requirement of US\$2,000,000 is estimated to fund our operations and capital requirements over the next 12 months. Management believes that the Company can be generating revenue in the next 6-12 months, and therefore will not require additional funding.

On November 20, 2012, we signed a memorandum of understanding with the Ministry of Health of the Republic of Ghana for the supply and implementation of a National Mobile Care program with Mobile Clinics and Clinical Command Centers integrated with the existing healthcare system and improve the healthcare delivery services to the

rural and remote population of Ghana at large for a total project cost for National implementation and Maintenance support for five years of US\$158,500,000.

1. The Ministry of Health of the Republic of Ghana and Kallo Inc. have agreed that a contract for the implementation of the Mobile Care projects will be signed when the following conditions have been satisfied:

-14-

---

Table of Contents

- a) Approval of the Credit Agreement by the Cabinet and Parliament of Republic of Ghana and the relevant KALLO INC. for the implementation of the projects;
  - b) Approval by the Ministry of Health of the detailed proposal for Mobile Care project submitted by Kallo Inc., dated 19 November 2012 which includes detailed technical specifications for the mobile clinics, training and maintenance support services.
  - c) The training program will include a certification process for Kallo Inc., affiliated Canadian and United States Of America Medical Teaching University and Applied Science Colleges.
    - d) Successful completion of "Value for Money" audit of the Contractor's proposal and negotiations;
    - e) Approval of the contract by the Public Procurement Authority of Ghana.
2. That the National rollout overview and supply and training schedules will be mutually agreed, upon the acceptance of the indicative terms and condition of the loan by the Ministry of Finance and Economic Planning of the Republic of Ghana;
3. That Party B's financial proposals attached herein to be used by the Ministry of Finance and Economic Planning for consideration and value for money assessment;
- a) That Party B's technical proposals shall be considered by a team of experts for assessment and negotiation
4. Any disputes between the parties shall be resolved through negotiation and mediation by the appropriate authorities
5. That within 30 days after the signing of the MOU, Party A shall notify Party B by a written document his requirements and specifications which shall include and not be limited to the following information:
- a) Feasibility study report
  - b) National geographic locations and demographic deployment schedules for Mobile Clinics and Clinical Command Centers
    - c) Different functional requirements of Mobile clinics for both rural and urban locations
    - d) Number of Mobile Clinics and Clinical Command Centers in each region
  - e) Current standards for medical equipment in hospital in Ghana, for example: the standard of radiation control of X-ray machine
  - f) Standards for electric appliances used in mobile clinics and for environmental protection, for example: power outlet and interface of electric appliances, busing standards for the protection for X-ray machine
  - g) Standards for waste-water treatment, medical waste treatment, operating-room and supply room of the Mobile Clinic
    - h) Human resources deployment in district level hospital for mobile clinic
    - i) Standards for contagious diseases isolation and sterilization in Ghana
    - j) Principle of accessory and spare-parts supply
    - k) Principle of medical consumables and medical equipment consumables

As at May 10, 2013, the following items have been satisfied:

- a) Approval by the Ministry of Health of the detailed proposal for Mobile Care project submitted by Kallo Inc., dated 19 November 2012 which includes detailed technical specifications for the mobile clinics, training and maintenance support services.
- b) The training program will include a certification process for Kallo Inc., affiliated Canadian and United States Of America Medical Teaching University and Applied Science Colleges.

- c) Feasibility study report
- d) National geographic locations and demographic deployment schedules for Mobile Clinics and Clinical Command Centers
  - e) Different functional requirements of Mobile clinics for both rural and urban locations
    - f) Number of Mobile Clinics and Clinical Command Centers in each region

## Table of Contents

- g) Current standards for medical equipment in hospital in Ghana, for example: the standard of radiation control of X-ray machine
- h) Standards for electric appliances used in mobile clinics and for environmental protection, for example: power outlet and interface of electric appliances, busing standards for the protection for X-ray machine

  - m) Principle of medical consumables and medical equipment consumables

## Plan of Operation

The following Plan of Operation contains forward-looking statements, which involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth elsewhere in this document.

Kallo mobile Care implementation plan for Ghana is based on the timelines of the Mobiles Clinic's delivery and training provided by Kallo.

Based on the Delivery plan of Kallo Inc. there is a lead-time of 5-6 months for production and delivery of the first 2 mobile clinics in Ghana from the time of confirmed purchase order along with payments through Bank.

In this period of 5-6 months from the date of purchase order confirmation to Kallo Inc. the following shall be completed for go live of the Mobile Clinics.

1. Establish geographical coverage for Mobile Clinics based on hospitals to population ratio in specific rural areas of Ghana
  2. Establish the Specialists support from Teaching Hospitals
  3. Establish Leadership for operational and administrative support
  4. Establish Governance Councils for operations, Education and Training

Kallo Mobile Care program with Mobile Clinics, Clinical and Administrative Command Centers deployed in an integrated model with the current healthcare delivery services will produce demonstrable impact in the community in terms of improved healthcare delivery within 12 months of implementation that would contribute to the flagship achievement by the current government to its merit.

As of the date of this report, the Kallo Mobile Care Program project-scope has been elevated to national discussions to include key stakeholders in healthcare delivery, National Disaster Management Organization (NADMO), National Security Agency (NSA), Ministry of Defence, Ministry of Health, Ghana Health Services (GHS), National Development Planning Commission (NDPC) and the local governments.

## New Business Developments in Ghana

As a result of the recent prioritization of Ministry Of Health Short and Medium-Long-Term Programmes of Work and Performance Targets and Agreements on Key Health Indicators from the Office of the President, on April 23rd, 2013, the Minister Of Health of Ghana Hon. Sherry Ayittey wrote to the Minister of Finance of Ghana that the Ministry of Health had received, considered and approved an unsolicited Offer/Proposal from Kallo Inc. for the provision of Fixed

Facilities with funding from the Export-Import (EXIM) Bank of the USA. She stated in the letter that this Project deliverables are in line with policy and strategy guidelines and do reflect the aspirations of the Ministry.

-16-

---

Table of Contents

A Value for Money (VFM) assessment conducted by the Ministry Of Health on the Kallo Case Development and Deliverability has determined that the logic of the Project, for the level of investment involved is clear and supported by evidence. She further states that the anticipated project solution represents a best value for money option.

In the letter the Minister of Health has requested the Minister of Finance to negotiate and conclude the funding arrangement and the respective financing terms and conditions ahead of a joint submission to the Cabinet for consideration and approval.

The Ministry has identified project sites for this project as follows:

	Polyclinic		Total	CHIPS CPD
	Urban- Urban	Polyclinic Rural Rural		
Greater Accra	3	1	4	0
Ashanti Region	2	1	3	0
Central Region	2	1	3	2
Northern Region	2	2	4	2
Upper East Region	1	2	3	2
Upper West Region	0	0	0	1
Western Region	2	3	5	0
Volta Region	1	1	2	2
Eastern Region	1	1	2	0
Brong-Ahafo Region	1	0	1	1
	15	12	27	10

Our plan and focus during the next twelve months include both, selling our existing product as well as developing and possibly selling new products. Since changing to our current business, we have not generated any revenues.

#### Costs Associated with the Plan of Operations

Currently under the Plan of Operations, we have expenses towards 6 full time resources, including engineers, applications specialist, and project and operations managers. We have completed the product development phase for Electronic Medical Records system, Mobile Clinics, and Clinical Command Centers. Our efforts are focused in commercializing these technologies and generating revenue. The current capital requirement caters only to the resources, infrastructure, and business development expenses for these technologies. Management analysis of our business acquisition and operations cost indicate a reasonable requirement of USD \$2,000,000 or less for the next 12-18 months of operations. Kallo management anticipates that this infusion of capital will generate revenue from sales of the above-mentioned technologies. This will in turn sustain the company and enable further development of other Kallo owned copyrighted technologies.

#### Our Sales and Marketing Strategy for existing developed products

##### KALLO EMCURx (EMR)

As of the date of this report, we have achieved an EMR milestone for Specialists, by securing an accepted and signed installation order. Our specialist EMR product, EMCURx, is customized to satisfy the needs of specialists, regardless of their specialty. An advance payment of \$24,990 has been received as of September 30, 2013. Revenue from this installation will be \$30,000 with an anticipated gross profit of \$20,000. An updated and more powerful version of the

software will be available in early 2014 and installation will be completed then. Clinical user and administrative training will be completed afterwards to ensure seamless transition to a paperless digital medical clinic.

Our milestones during the next twelve months are:

-17-

---

## Table of Contents

1 – Developing our sales organization and marketing the third party products along with our software that bring the data from these products into an EMR system in the major metropolitan areas of Canada. We expect the cost to be \$300,000 and 12 months to complete this Milestone.

2 – Simultaneously with the build-up of our sales organization, we will build a product support team that will provide installation, training and customer support. We expect the cost to be \$500,000 and 12 months to complete this Milestone.

3 – Expanding our market from the larger metropolitan areas to the smaller rural and more distant medical facilities. We expect the cost to be \$250,000 and 12 months to complete this Milestone.

4 – Developing our Mobile Care business globally. We expect the cost to be \$ 700,000 and 12 months to complete the Milestone.

Within Canada, we will focus on having a direct sales force to market and sell EMR to walk-in clinics/doctor's offices, Independent Diagnostic Centers /Independent Health Facilities and hospitals. The revenue generation from EMR consists of product sales, implementation, integration, training, on-going maintenance, and professional services.

Outside Canada, we may establish commercial partnerships for all of our product candidates in order to accelerate development and marketing in those countries and further broaden our products' commercial potential.

To date, we have not generated any revenues from our operations.

## KALLO MOBILE CARE

We have successfully launched one of our copyrighted technologies "MOBILE CARE" - Mobile Clinics in November 2011, and have since then received several enquiries for this product from countries in Africa, Vietnam, North West Territories and Northern Ontario in Canada, USA, and the Middle East. We have not been contacted Sudan, Syria, or Iran. If we were contacted by Sudan, Syria, or Iran, we would not do business with them or with any entity located within their geographical boundaries since they are designated by the U.S. Department of State as sponsors of terrorism and are subject to U.S. economic sanctions and export controls. Based on the levels of interest from the local Ministries of Health, we have selected companies with business and technical strengths as our local representatives for sales and support in the region. Mobile Care is a state of the art clinical setup in a vehicle equipped with the latest technology in healthcare. More than just a facility, Mobile Care can instantly connect the onboard physician with specialists for on-demand consultation via satellite through its Telehealth system. This is truly a holistic approach to delivering healthcare to the remotely located. For many rural communities, the nearest hospital, doctor or nurse may be hundreds of kilometers away. In many cases, this gap can be bridged using Telehealth technology that allows patients, nurses and doctors to talk as if they were in the same room. Mobile Care is not the same thing as EMR referred to herein.

We expect to see sales revenues from Kallo's Mobile Care business unit in the next twelve (12) months. Kallo's Mobile Clinic is equipped with necessary medical equipment as per regional healthcare requirements. We also install our copyrighted software and third party software as required. Revenue is generated by charging for medical equipment, software licenses, installation implementation and training. This generates an ongoing revenue stream for service, maintenance, spare-parts, and consumables.

Our Development and Commercialization Strategy for new products

We intend to initiate sales of our products in our target commercial areas. Our target commercial areas are hospitals, clinics and doctors' offices. We expect to focus on marketing our current offering as well as completing product development for our product candidates in order to increase our possibilities for current and future revenue generation.

-18-

---

## Table of Contents

Our forward-looking plan envisions applying our copyrighted design and technology to develop three additional products, to bring to market integrated computer systems that address today's critical health management needs in epidemic control, medical information flow across borders and provision of health care in rural and remote areas.

In addition to our EMR, which is ready for production, we have prioritized the following products for completion of development and are listing them in order of priority.

A. M.C. Telehealth – Mobile Clinic Telehealth System – Developed and launched in November 2011.

B. EMR Integration Engine – Electronic Medical Record Integration Engine - Under development.

C. C&ID-IMS – Communicable and Infectious Disease Information Management System - Under Development

D. CCG Technology – Clinical-Care Globalization technology – Under Development

We do not at this time have a definitive timetable as to when we will complete these intense development efforts.

We are considered to be in the development stage, as defined under Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) 915-205. We have been in the development stage since our inception. We have had no substantial recurring source of revenue; we have incurred operating losses since inception and at September 30, 2013 had a working capital deficiency of \$1,468,566.

The development and marketing of new medical software technology is capital intensive. We have funded operations to date either through the sale of our common stock or through advances made by our key shareholders.

We have utilized funds obtained to date for organizational purposes and to commence certain financial transactions. We require additional funding to complete these transactions (including the acquisition of a service-based, valued-business enterprise and related expenses), expand our marketing and sales efforts and increase the Company's revenue base.

Limited operating history; need for additional capital

There is no historical financial information about us upon which to base an evaluation of our performance. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a business enterprise, including limited capital resources and possible cost overruns due to price increases in services and products.

To become profitable and competitive, we have to sell our products and services.

We have no assurance that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop, or expand our operations. Equity financing could result in additional dilution to existing shareholders.

Results of operations

Revenues

We did not generate any revenues during the nine months ended September 30, 2013 or 2012. From our inception on December 12, 2006 through September 30, 2013, we generated \$15,887 in revenues. We generated the revenues in 2007 when we were engaged in the business of selling printing equipment and related products. Since then we have not generated any revenues. We are in the process of completing the user training for our first installation of EMR for Specialists and will start generating revenues in 2013.

Table of Contents

## Expenses

During the three months ended September 30, 2013 we incurred total expenses of \$298,540, including \$143,135 in salaries and compensation, \$22,143 in depreciation, \$28,972 in professional fees, \$93,358 in selling and marketing expenses and \$81,029 as other expenses net of \$96 gain in change in fair value of convertible promissory note and \$70,001 gain on extinguishment of convertible promissory note whereas during the three months ended September 30, 2012 we incurred total expenses of \$658,973, including \$231,425 in salaries and compensation, \$22,143 in depreciation, \$151,622 in professional fees, \$103,003 in selling and marketing expenses, \$64,582 loss in change in fair value of convertible promissory note and \$86,198 in other expenses. Our professional fees consist of legal, consulting, accounting and auditing fees. The decrease in our total expenses for the three months ended September 30, 2013 from the comparative period is due to general cost savings undertaken by management as well as to a gain of \$70,097 on fair value changes and extinguishment in convertible promissory note in the current quarter compared with a loss of \$64,582 on the fair value changes in convertible promissory note in the previous period. Decreases due to costs savings include decreases of \$88,290 in salaries and compensation, \$42,584 in professional fees, \$9,645 in selling and marketing expenses and \$5,169 in other expenses.

During the nine months ended September 30, 2013 we incurred total expenses of \$1,326,297, including \$473,477 in salaries and compensation, \$66,427 in depreciation, \$419,453 in professional fees, \$267,426 in selling and marketing expenses and \$250,281 as other expenses net of \$34,099 gain in change in fair value of convertible promissory note and \$116,668 gain on extinguishment of convertible promissory note whereas during the nine months ended September 30, 2012 we incurred total expenses of \$1,713,771, including \$587,293 in salaries and compensation, \$66,427 in depreciation, \$461,692 in professional fees, \$225,341 in selling and marketing expenses, \$117,816 in change in fair value of convertible promissory note and \$255,202 in other expenses. Our professional fees consist of legal, consulting, accounting and auditing fees. Total expenses for the nine months ended September 30, 2013 are lower than the comparative period due to costs savings initiatives undertaken by management as well as to a gain of \$150,767 on fair value changes and extinguishment in convertible promissory note in the current quarter compared with a loss of \$117,816 on the fair value changes in convertible promissory note in the previous period. Decreases include \$113,816 in salaries and compensation.

## Net Loss

During the three months ended September 30, 2013 we did not generate any revenues and incurred a net loss of \$298,540 compared to a net loss of \$658,973 during the same period in 2012. The decrease in net loss is due to general cost savings undertaken by management as well as to a gain of \$70,097 on fair value changes and extinguishment in convertible promissory note in the current quarter compared with a loss of \$64,582 on the fair value changes in convertible promissory note in the previous period.

During the nine months ended September 30, 2013 we did not generate any revenues and we incurred a net loss of \$1,326,297 compared with a net loss of \$1,713,771 during the same period in 2012. The decrease in net loss is due to costs savings initiatives undertaken by management as well as to a gain of \$150,767 on fair value changes and extinguishment in convertible promissory note in the current quarter compared with a loss of \$117,816 on the fair value changes in convertible promissory note in the previous period.

From our inception on December 12, 2006 to September 30, 2013 we incurred a net loss of \$18,692,060, \$16,180,962 of which was general and administration, \$825,192 of which was software development costs, \$1,205,985 of which was selling and marketing, \$262,307 of which was depreciation, \$221,517 of which was interest and financing costs and \$3,903 of which was other expenses.

Liquidity and capital resources

As at September 30, 2013, the Company had current assets of \$200,315 and current liabilities of \$1,668,881, indicating working capital deficiency of \$1,468,566. As of September 30, 2013, our total assets were \$1,076,429 in cash, prepaid expenses, copyrights, equipment and our total liabilities were \$1,668,881 comprised of \$1,178,953 in

-20-

---

Table of Contents

accrued liabilities, \$20,000 in accrued officer salaries, Rophe Medical Technologies Inc. acquisition costs payable of \$525, obligations under capital leases of \$23,887, short term loans of \$30,283, deferred revenue of \$24,990 and loan of \$63,182.

Cash used in operating activities amounted to \$1,225,921 during the nine months ended September 30, 2013, primarily as a result of the net loss adjusted for non-cash items and various changes in operating assets and liabilities.

There were no cash used in investing activities during the current nine months period ended September 30, 2013.

Cash provided by financing activities during the nine months ended September 30, 2013 amounted to \$916,475 and represented proceeds from sale of common stock of \$805,000, proceeds from shares to be issued of \$269,235 net of repayment of convertible promissory note of \$50,000, repayment of loans payable of \$23,036 and payments under capital lease obligations of \$84,724.

The Company issued 16,300,000 unregistered shares of common stock for cash consideration of \$810,000 during the nine months period.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES.

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are not effective due to lack of segregation of duties in financial reporting and presence of adjusting journal entries during our last audit. There were no changes in our internal control over financial reporting during the quarter ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

As of March 14, 2012, we settled our dispute with Leonard Steinmetz, our former treasurer, principal financial officer, principal accounting officer, and a member of the board of directors. We agreed to resolve all of our differences by paying Mr. Steinmetz \$130,000 in installments as follows: \$25,000, beginning eight days from the receipt from the Occupational and Safety Administration (“OSHA”) of its notice approving the withdrawal of Mr. Steinmetz’s OSHA complaint with prejudice; \$10,000 to be paid on or before the last business day of each of the ten months following month of receipt of said notice from OSHA; and, a final installment of \$5,000.00 or before the last business day of the eleventh month. In addition, we agreed, that within 21 days of receipt of said notice from OSHA, we are to issue 500,000 restricted shares of our common stock to Mr. Steinmetz. On May 2, 2012, the Occupational and Safety Administration approved Leonard Steinmetz’s withdrawal of his complaint against us. All payments due to Mr. Steinmetz under the settlement agreement have been made.

On July 29, 2011, Watt International Inc. (“Watt”) commenced a third party claim against Kallo concerning monies that Kallo allegedly owed to Watt for branding and internet services provided by Watt to Kallo. Watt is seeking damages in the amount of \$161,673.67 plus unspecified “special” damage. Management is of the opinion that Watt has charged Kallo for services that Watt did not perform, and that Watt has duplicated charges for work that it

-21-

---

Table of Contents

performed and intends to defend itself vigorously in the suit. Management has recognized an accrual for the amount of the claim. An estimate could not be made of the unspecified “special” damage and hence no accrual was made thereof.

On December 20, 2012, Mansfield Communications Inc. (Mansfield) entered into a legal action against Kallo concerning monies allegedly owed by Kallo to Mansfield for media consultancy and communication services provided by Mansfield to Kallo (Mansfield Communications Inc., Plaintiff vs. Kallo Inc., Defendant filed a Statement of Claim in the Ontario Superior Court of Justice, Case No. CV-12-47061). Mansfield is seeking damages in the amount of \$191,246.11 plus unspecified “special” damage. On January 30, 2013, Kallo filed a Statement of Defense. Management is of the opinion that Mansfield has charged Kallo for services that Mansfield did not perform, and that Mansfield has duplicated charges for work that it performed and intends to defend itself vigorously in the suit. On October 31, 2013, Kallo signed a settlement agreement with Mansfield and agreed to pay Canadian \$55,000 if paid in full on or before March 31, 2014 or Canadian \$70,000 if paid in instalments between April and December 2014 or Canadian \$150,000 if the Company defaults on any of the instalment payments as mentioned above in full settlement of the above claim. Management has recognized an accrual for an amount of \$145,590, being the maximum amount payable to Mansfield.

As of November 17, 2010, we settled our dispute with Mary Kricfalusi, our former secretary, and a member of the board of directors. We agreed to resolve all of our differences by paying Ms. Kricfalusi \$52,000 in instalments as follows: \$10,000 upon execution and delivery of this agreement, \$2,000 to be paid 10 days following the signing of this agreement, \$5,000 on December 14, 2010, \$5,000 on January 14, 2011, \$10,000 on February 14, 2011, \$10,000 on March 14, 2011 and a final instalment of \$10,000 on April 14, 2011. The Company has not paid the last three instalments due between February and April 2011 for a total amount of \$30,000. On February 14, 2013, Ms. Kricfalusi filed a claim with the Small Claims Court of Ontario requesting judgment against Kallo for the total amount of Canadian \$25,000. An amount of \$30,000 has been accrued for as at September 30, 2013. The court will hold a mandatory settlement conference with all parties on December 20, 2013. Kallo management is confident of settling this at the settlement conference.

## ITEM 1A. RISK FACTORS.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.
