Norwalk, Conn. December 20, 2005 FactSet Research Systems Inc. (NYSE: FDS), a major supplier of computer-based financial and economic data to the investment community, today announced results for its first quarter of fiscal 2006.

For the quarter ended November 30, 2005, revenues increased 21.1% compared to the prior year period to \$89.7 million. GAAP operating income for the quarter rose to \$27.4 million from \$25.8 million in the same period of fiscal 2005. GAAP net income advanced to \$19.2 million. Certain GAAP financial measures including operating income, net income and diluted earnings per share have been adjusted to exclude charges related to stock-based compensation, a gain related to the sale of company-owned real estate and an income tax benefit related to the closure of previously filed tax returns. A reconciliation between GAAP and non-GAAP financial measures is presented on page 7 of this press release. For a further understanding of this presentation, please refer to the section titled "About Non-GAAP Financial Measures" on page 3.

In the first quarter of fiscal 2006, the stock-based compensation pre-tax charge was \$2.5 million, while results from operations prior to fiscal 2006 did not include stock-based compensation expense. Tax benefits related to stock-based compensation of \$0.8 million have been excluded from non-GAAP net income and non-GAAP diluted earnings per share. The after-tax gain from the sale of company-owned real estate and the income tax benefit related to the closure of previously filed tax returns was \$0.9 million and \$0.8 million, respectively.

These non-GAAP financial measures also facilitate comparisons to FactSet's historical performance and to our competitors' operating results.

FactSet uses the following measures defined as non-GAAP financial measures by the SEC including non-GAAP operating income, non-GAAP net income, non-GAAP diluted earnings per share and non-GAAP cash flows from operations. The presentation of this financial information is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP.
