NOTE A - FINANCIAL STATEMENTS

The unaudited consolidated financial statements of the Company and its subsidiaries have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles of the United States of America (GAAP) have been condensed or omitted pursuant to such rules and regulations. The results of operations for interim periods are not necessarily indicative of the results to be expected for the entire fiscal year ending September 30, 2002. This form 10-QSB should be read in conjunction with the form 10-KSB that includes audited consolidated financial statements for the year ended September 30, 2000 and 2001, and the related consolidated statements of operations, stockholders' equity and cash flows for the years then ended and since inception (February 5, 1997).

NOTE B - BASIS OF PRESENTATION

The Company consolidates all companies in which it has a controlling financial interest. This generally occurs when the Company owns more than 50% of the outstanding voting shares of the company. The Company also consolidates 50%-owned companies in which it has voting control through agreements with other shareholders. Investments in Companies where the Company has significant influence through ownership of 20% to 50% of the investors voting shares or contractual arrangements are accounted for by the equity method.

The balance sheet as of September 30, 2001 and December 31, 2001, reflects the consolidated financial position of the Company and its subsidiaries (Subsidiaries) as follows: UltraCard, Inc. (UltraCard); cQue Corporation (formerly Centurion Technologies, Inc.); CTI Acquisition Corporation (CTI); Global CyberSystems, Inc. (Global); EforNet Corporation (EforNet); Global CyberSystems SA. (GCSA), Global CyberSystems PLC (GCPLC) and UltraCard China Inc. The statements of operations and cash flows for the three months ended December 31, 2000 and 2001 and for the period from inception (February 5, 1997) reflect the consolidated results of operations and cash flows of the Company and the results of the subsidiaries beginning on the dates the Company acquired control. All significant inter-company balances and transactions have been eliminated in consolidation. Minority interest represents the minority stockholders' proportionate share in the equity of the Company's consolidated Subsidiaries. The losses incurred by a subsidiary are allocated on a proportionate basis to minority interest until the carrying amount of minority interest is eliminated. Further losses are then included in the net loss of the Company.

NOTE C - LOSS PER COMMON SHARE AND SHARES OUTSTANDING

Basic loss per share is computed by dividing the net loss by the weighted average number of common shares outstanding during the period. The weighted average number of shares outstanding was 20,966,989 and 33,528,705 for the three months ended December 31, 2000 and 2001, respectively, and 14,148,744 since inception (February 5, 1997) through December 31, 2001. Diluted loss per share for all periods presented equaled basic loss per share due to antidilutive effect of the potentially dilutive securities. At December 31, 2000 and 2001, the Company had 5,371,869 and 8,346,042 in additional common stock equivalents.

At December 31, 2001, 3,356,000 shares of the Company's common stock were not included in the shares issued and outstanding on the consolidated statement of stockholders' deficit or loss per share computations. The excluded shares were as follows:

- Shares issued in lieu of finders' fees in connection with future findings -

Edgar Filing: UPGRADE INTERNATIONAL CORP /FL/ - Form 10QSB

- 1,365,000 (with 1,000,000 shares outstanding at September 30, 2001 and 365,000 shares issued during the quarter ended December 31, 2001).
- Shares held by the Company in connection with loan assumptions - 2,000,000 shares. In October 2001, the Company issued 2,000,000 to replace the 2,000,000 shares originally transferred by the Company's president to an unrelated third party as a collateral for \$1,210,000 notes payable. In October 2001, the Company assumed the president's liability on the loans and issued 2,000,000 shares. The original collateral shares were then transferred into the Company's name by the president.

NOTE D - MANAGEMENT PLANS

The Company is a development stage enterprise as defined under Statement of Financial Accounting Standards No. 7. The Company is devoting its present efforts into establishing a new business in the information technology industry and, is currently in the process of identifying markets and establishing applications for its technologies. Accordingly, no operating revenues have been generated. The Company's operations to date have consumed substantial and increasing amounts of cash. The Company's negative cash flow from operations is expected to continue in the foreseeable future. The development of the Company's technology and potential products will continue to require a commitment of substantial funds. The Company expects that its existing and expected financings will be adequate to satisfy the requirements of its current and planned operations until the end of the fiscal year 2002. However, the rate at which the Company expends its resources is variable, may be accelerated, and will depend on many factors. The Company will need to raise substantial additional capital to fund its operations and may seek such additional funding through public or private equity, debt financing or through strategic relationships with development partners. There can be no assurance that such additional funding will be available on acceptable terms, if at all. The Company's continued existence as a going concern is ultimately dependent upon its ability to secure additional funding for completing and marketing its technology and the success of its future operations.

The following summarizes the debt and equity transactions completed by the Company during the three months ended December 31, 2001/

16

Net losses aggregated \$12 million in the first three months of the current fiscal year ended December 31, 2001 compared with a \$5.1 million net loss for the corresponding period of the prior fiscal year. This increase in net loss is reflective of the increased cost of capital incurred by the Company from financings through short-term loan agreements. Interest costs of \$7.6 million have been recorded in the current quarter which is comprised, in the most part, of shares, warrants and notes issued for interest and penalties on short term loans payable. In addition, the Company has accrued \$1.1 million in licensing fees related to the UltraCard technology, which is reflected as a part of the Company's research and development expenditures. The balance of the expenditures of 3.3 million reflects the ongoing level of investment into the Company's technology, development of production specifications and the cost associated with the commercialization process of the Company's core technology.

The Company's general and administrative costs of \$2.3 million represents an increase in the average quarterly general and administrative expenditure from the prior year attributed in the most part to the Companies current focus upon the development of it's core technology. This increase is offset somewhat by lower legal costs, and reduced compensation components related to equity grants to key employees . Research and development expenditures decreased from \$2.4 million compared in the corresponding prior period to \$1.8 million primarily due to minimal operations of cQue and dormant condition of EForNet. The other significant operating subsidiary cQue (formerly Centurion) and UltraCard China Inc. contributed \$57,000 and \$80,200 respectively of the total loss reflecting the focus of the consolidated groups efforts to complete the UltraCard technology. For the near future research and development expenditures are expected to increase to meet the Company's numerous potential market opportunities. All of the Company's research and development costs have been expensed as incurred.

Sales and marketing expenditures of \$107,000 represent a 70% decrease over the prior quarter reflecting the Company's focus upon product completion. Sales and marketing expenditures are associated with the Company's attendance at trade shows and industry awareness programs as the Company builds market awareness to establish and develop new markets and prepare for effective product launches for products which are nearing the first phase of completion.

LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2001 the Company had available cash balances of \$350,928. The Company is managing tight cash flows in providing funding for an aggressive research and development program at UltraCard in an effort to put into place the Company's first pilot project in China, comprised of 2,000,000 cards and 10,000 read write device.

During the quarter ended December 31, 2001, the Company raised approximately \$870,000 in smaller financings comprised of promissory notes with equity kickers (common stock and warrants) and equity penalties (common stock and warrants) for failure either to repay the notes or register shares owned by the noteholders. The Company is not in default under these notes as long as it complies with the equity penalty provisions. At December 31, 2001, the Company had total

Edgar Filing: UPGRADE INTERNATIONAL CORP /FL/ - Form 10QSB

indebtedness of approximately \$1,265,000 under these arrangements.

The Company's cash used in operations was \$3.3 million, which represents a decrease compared to the prior quarter of \$4.4 million. This decrease results from the increase in accounts payable and accrued liability levels.

Cash flows from financing activities of \$1.8 million in the current period represents a level consistent with the last two quarters of the year ended September 30, 2001. The Company has begun to focus its efforts upon financing initiatives which have a much larger magnitude than prior financings and such initiatives have much longer lead times. While these initiatives are in progress the Company is limiting the number of smaller more expensive financings to critical needs.

In July, 2001, the Company received from its President and Chief Executive Officer, Daniel S. Bland, funds in the amount of \$1,210,000 as a loan to the company. The Company's Board of Directors as of November 1, 2001, converted the \$1,210,000 loan into equity by issuing 2,000,000 shares of common stock to Bland in full satisfaction of the company's loan obligation to him. As part of this transaction, Upgrade assumed the obligations of Bland, as borrower, under Bland's loan agreements with International Mercantile Holding Group, Inc. (IMHG), the original lender of the funds. Under the terms of the loan agreements, repayment of the loan amount is secured by collateral in the form of 2,000,000 shares of Upgrade, which have been pledged by Bland to IMHG. Bland has assigned his residual rights in the 2,000,000 pledged shares of common stock to the Company. Upon repayment of the loan and return of the collateral, Upgrade intends to cancel the 2,000,000 shares of stock. The term of the loan is five years.

In order for the Company to meet the funding requirements of its investee companies and to meet ongoing operating requirements, it will have to raise additional financing. However the rate at which the Company expends its resources is variable, may be accelerated, and will depend on many factors. The Company will need to raise substantial additional capital to fund its operations and may seek such additional funding through public or private equity or debt financing, or through the licensing of its technology. There can be no assurance that such additional funding will be available on acceptable terms, if at all. The Company's continued existence as a going concern is ultimately dependent upon its ability to secure additional funding for completing and marketing its technology and the success of its future operations.

PART II Other Information

Item 1. Legal Proceedings

Upgrade, its president, Daniel S. Bland, and Chief Financial Officer, Howard Jaffe, are defendants in The Pathways Group, Inc. v. Upgrade International

Corporation et al., Superior Court of the State of California in for the County

of Sonoma, c/a 227650. The complaint, filed August 3, 2001, alleges breach of merger and collateral agreements between Upgrade and plaintiff, breach of oral argument, fraud, and negligent material misrepresentation, and seeks specific performance of the agreements, an injunction against exercising provisions pursuant to the merger agreement whereby Upgrade could obtain control of Pathways, and damages in excess of \$150 million. Specifically, the complaint alleges that Upgrade failed to provide interim financing to Pathways pending consummation of the proposed merger transaction, and prevented Pathways from

Edgar Filing: UPGRADE INTERNATIONAL CORP /FL/ - Form 10QSB
