FUSION NETWORKS HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. THE COMPANY

Fusion Networks Holdings, Inc. (the "Company") was incorporated under the laws of the State of Delaware in August 1999.

The Company is a holding company formed to acquire Fusion Networks, Inc. ("Fusion") and IDM Environmental Corp. ("IDM"). In March 2000, the respective shareholders of Fusion and IDM approved the merger of those companies with wholly-owned subsidiaries of the Company and, on April 13, 2000, the mergers were completed. As a result of the mergers, Fusion and IDM became wholly-owned subsidiaries of the Company. Following the mergers, the Company conducts all of its operations through Fusion and IDM and their respective subsidiaries.

Fusion was incorporated under the laws of the State of Delaware on June 30, 1999. Fusion is a provider of One-to-One Internet marketing software, portal technology, applications and content designed to enable corporate customers to develop effective Spanish, English and Portuguese-related Internet strategies. As a United States-based company with extensive development and pilot-testing operations in Latin America, Fusion Networks

Edgar Filing: FUSION NETWORKS HOLDINGS INC - Form 10-Q/A

provides "next generation" Internet tools and customer-oriented applications including personalized content, community services, e-commerce platforms, Internet portal design, customer relationship management and integrated One-to-One marketing. Designed to establish lasting relationships with Internet users throughout global Spanish, English and Portuguese-speaking markets, these integrated multimedia applications are currently in use and can be found within Fusion's existing portal network of <http://www.latinfusion.com>, <http://www.fusionlatina.com> and <http://www.fusaolatina.com>. Vital Content, a subsidiary of Fusion, provides customized web-enabled and multimedia content to Internet industry clientele.

IDM was incorporated under the laws of the State of New Jersey in 1978. IDM is a global, diversified services and project development company offering a broad range of design, engineering, construction, project development and management, and environmental services and technologies to government and private industry clients.

2. INTERIM PRESENTATION

The interim consolidated financial statements are prepared pursuant to the requirements for reporting on Form 10-Q. These statements include the accounts of Fusion Networks Holdings, Inc. (the "Company") and all of its wholly-owned and majority-owned subsidiary companies. The December 31, 1999 balance sheet data was derived from audited financial statements of Fusion (the acquiror) but does not include all disclosures required by generally accepted accounting principles. The Merger has been accounted for as a purchase with Fusion being deemed the acquiror for accounting and financial reporting purposes. Historical financial statements of the Company are the financial statements of Fusion with financial statements of IDM being included only from the date of the Merger forward. The interim financial statements and notes thereto should be read in conjunction with the financial statements and notes included in the Company's Form 8-K/A dated April 13, 2000. In the opinion of management, the interim financial statements reflect all adjustments of a normal recurring nature necessary for a fair statement of the results for the interim periods presented. The current period results of operations are not necessarily indicative of results which ultimately will be reported for the full year ending December 31, 2000.

3. EARNINGS (LOSS) PER SHARE

Earnings (loss) per share are based on the weighted average number of common shares outstanding including common stock equivalents. For the periods reported within these consolidated financial statements, weighted average shares for basic and diluted computations are the same due to losses reported for each of the periods.

4. OTHER COMPREHENSIVE INCOME (LOSS)

Statement of Financial Accounting Standards No.130 "Reporting Comprehensive Income" effective in 1998, requires the disclosure of comprehensive income (loss) to reflect changes in equity that result from transactions and economic events from nonowner sources. Due to the availability of net operating losses

Edgar Filing: FUSION NETWORKS HOLDINGS INC - Form 10-Q/A

there is no tax effect on any component of other comprehensive income (loss).

	-----	-----

5. INVESTMENTS IN EQUITY SECURITIES

As of March 31, 2000 all equity securities are deemed by management to be available for sale and are reported at fair value with net unrealized gains or losses reported within shareholders' equity as a separate component of other comprehensive income. Realized gains and losses are recorded in the statement of operations in the period in which they become known. The carrying amount of the company's investments is shown as follows:

	June 30, 2000	
	Cost	Market Value
	-----	-----
Investment in affiliate	\$ 25,500,000	\$6,657,000
Allowance for unrealized Gains (losses)	(18,843,000)	
	-----	-----
	6,657,000	6,657,000
	-----	-----

During 2000 the investment in MSGI suffered a significant decline in it's fair value. During the fourth quarter of 2000, the Company wrote down the value of their investment and recorded from the original cost a realized loss of \$ 12,750,000 and provided an allowance for an additional unrealized loss of \$ 10,980,000, which reduces the carrying value of the investment to \$ 1,770,000 at December 31, 2000.

6. MERGER AGREEMENT

On July 26, 1999, Fusion and IDM announced that they had entered into a nonbinding letter of intent to form a new holding company with Fusion and IDM to become wholly-owned subsidiaries of the holding company through the merger of those companies with subsidiaries of the holding company (the "Merger"). On August 18, 1999, the Company, Fusion and IDM entered into a definitive merger agreement.

In March 2000, the Merger was approved by the shareholders of Fusion and IDM and the Merger was completed on April 13, 2000.

Edgar Filing: FUSION NETWORKS HOLDINGS INC - Form 10-Q/A

The stockholders of Fusion and IDM each received one share of common stock of the Company for each share of Fusion or IDM common stock held, resulting in the shareholders of Fusion owning approximately 90% of the common stock of the Company and shareholders of IDM owning approximately 10% of the common stock of the Company.

The Merger has been accounted for as a purchase with Fusion being deemed the acquiror for accounting and financial reporting purposes. Historical financial statements of the Company are the financial statements of Fusion with financial statements of IDM being included only from the date of the Merger forward. In connection with the Merger, the Company recorded goodwill of \$7,354,181. The purchase price and goodwill were determined as follows:

IDM common shares outstanding	3,922,893	
Estimated fair value of shares issued	\$2.47	(a)

Purchase price before merger costs	\$9,689,546	
Merger costs	450,000	

Purchase price	10,139,546	
IDM net book value	2,785,365	

Goodwill	\$7,354,181	=====

(a) The estimated fair value of shares issued was determined using the average closing market price of IDM's common stock for the 3 days prior to and 3 days subsequent to the public announcement of the letter of intent.

7. SUBSEQUENT EVENT

SALE OF SUBSIDIARY

On July 25, 2000, the Company entered into a letter of intent pursuant to which the Company agreed in principal to sell all of its stock of IDM to two principal officers of IDM. The Company completed the sale of IDM on August 18, 2000. Pursuant to the terms of the IDM sale, the Company received a promissory note in the amount of \$58,881 and were relieved of guarantees in the amount of \$300,000.

Based on the agreement in principal to sell IDM, the Company recorded a write-down of the goodwill associated with the acquisition of IDM in the amount of \$7,354,181 in the second quarter of 2000 and recorded the loss on the sale of \$1,320,847 in the third quarter of 2000.

In connection with the proposed sale transaction, the Company has presented the following condensed pro forma financial statements reflecting the sale of IDM as if the transaction had occurred at June 30, 2000. The pro forma financial position of the Company as of June 30, 2000 is reflected without IDM. The pro forma results of operations for the six months ended June 30, 2000 reflects the loss from continuing operations of Fusion only and a net loss from discontinued operations reflecting the results of IDM as of the date of the Merger through June 30, 2000 and includes the write-down of goodwill of \$7,354,181.

Edgar Filing: FUSION NETWORKS HOLDINGS INC - Form 10-Q/A

CONVERTIBLE DEBENTURES AND WARRANTS

On June 15, 2000, the Company sold \$4,000,000 of 6% Secured Convertible Debentures and 1,500,000 Warrants. The Debentures and Warrants were sold to three accredited investors. The Debentures and Warrants were sold for an aggregate offering price of \$4,000,000. A finders fee of 5%, or \$200,000, was paid in connection with the sale of the Debentures and Warrants. The Debentures and Warrants were sold pursuant to the exemption from registration set out in Rule 506 as promulgated pursuant to Section 4(2) of the Securities Act of 1933. The securities were offered without general solicitation in a privately negotiated transaction with three accredited investors.

The Debentures bear interest at 6% per annum, are due on June 13, 2001 and are secured by a pledge of the investment in affiliates of Marketing Services Group, Inc. The Debentures are convertible into shares of Common Stock of the Company at a fixed conversion price of \$1.75 per share. The Warrants are exercisable to purchase Common Stock of the Company at \$1.50 per share.

VISUALCOM PURCHASE

In August 2000, the Company entered into a letter of intent to acquire Visualcom, Inc., a Miami based Internet consulting company specializing in Strategic Consulting, I-Business Solutions, Internet Marketing and Internet Wireless. Under the terms of the letter of intent, the Company agreed to issue 2 million shares of common stock and 2.5 million five year warrants, exercisable at 110% of the average closing price of the Company's common stock over the seven trading days preceding closing, in exchange for all of the issued and outstanding shares of Visualcom. One million of the shares and one million of the warrants issuable under the letter of intent are issuable in escrow subject to release upon satisfaction of certain "earn-out" criteria. The letter of intent also provided that certain shareholders of Visualcom would purchase shares of the Company's common stock with the proceeds of that sale to be used to fund Visualcom operations pending closing. In November 2000, the Company and Visualcom signed a definitive Plan of Share Exchange and the Company completed the acquisition of Visualcom.

PRIVATE PLACEMENT AND VISUALCOM CREDIT FACILITY

In September 2000, certain Visualcom shareholders acquired an aggregate of 359,574 shares of common stock of the Company for \$475,000, or \$1.321 per share. The Company utilized the proceeds from the sale to establish a credit facility for Visualcom with funds being advanced subject to forgiveness on closing of the acquisition of Visualcom by the Company.

BRIDGE LOAN

In October and November 2000, the Company secured a short-term bridge loan in the amount of \$500,000 from the sale of Convertible Bridge Loan Notes and 125,000 Bridge Loan Warrants. The Bridge Loan Notes are due on or before December 31, 2000 with interest accruing at 12% per annum. The Bridge Loan Notes are convertible into common stock, at the option of the holder, at market value on the date of closing. The Bridge Loan Warrants are exercisable for a term of five years to purchase common stock at \$0.845 per share with respect to 100,000 of the warrants and \$0.875 per share with respect to 25,000 of the warrants.

Stock of the Registrant at a fixed conversion price of \$1.75 per share. The Warrants are exercisable to purchase Common Stock of the Registrant at \$1.50 per share.

10. CONTINGENCIES AND COMMITMENTS

In May 2000 the Company entered into an employment contract with Mr. Gary Goldfarb to serve as President and Chief Executive Officer of the Company for an undisclosed period of time. The contract provides for a monthly compensation of \$18,750 per month. The contract also grants Mr. Goldfarb 1,000,000 five year stock options exercisable at the closing price of the Company's common stock on the effective date. The options will vest 25% on each of the first three anniversaries, the remaining 25% will vest at various times.

Item 2. Management's Discussion and Analysis Of Financial Condition And Results Of Operations.

This report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21e of Securities Exchange Act of 1954. Actual results could differ materially from those projected in the forward-looking statements as a result of the risk factors set forth in this report.

On July 26, 1999, Fusion Networks, Inc. ("Fusion") and IDM Environmental Corp. ("IDM") announced that they had entered into a nonbinding letter of intent to form a new holding company with Fusion and IDM to become wholly-owned subsidiaries of the holding company through the merger of those companies with subsidiaries of the holding company (the "Merger"). On August 18, 1999, the Company, Fusion and IDM entered into a definitive merger agreement. In March 2000, the Merger was approved by the shareholders of Fusion and IDM and the Merger was completed on April 13, 2000. The stockholders of Fusion and IDM each received one share of common stock of the Company for each share of Fusion or IDM common stock held, resulting in the shareholders of Fusion owning approximately 90% of the common stock of the Company and shareholders of IDM owning approximately 10% of the common stock of the Company.

The Merger has been accounted for as a purchase with Fusion being deemed the acquiror for accounting and financial reporting purposes. Historical financial statements of the Company are the financial statements of Fusion with financial statements of IDM being included only from the date of the Merger forward. In connection with the Merger, the Company recorded goodwill of \$7,354,181.

Fusion, and the Company, had no operations during the three and six month periods ended June 30, 1999. From July 1999 through May 2000, Fusion was involved in the development of its Internet portal network, with sites being launched in Bogota, Miami, Buenos Aires, Mexico City, Sao Paulo and Madrid, and additional sites planned to be launched in ten additional markets in North America, South America and Europe. Fusion's Internet portal network has been developed to deliver improved local Internet content to Spanish and Portugese-speaking markets.

In May 2000, the Company named a new Chief Executive Officer, Gary M. Goldfarb. After Mr. Goldfarb joined the Company, Fusion expanded its business focus to begin offering software and services, including One-to-One Internet marketing software, portal technology, applications and content designed to enable corporate customers to develop effective Spanish, English and Portuguese-related Internet strategies. Fusion's software and service offerings were developed in conjunction with Fusion's extensive development and pilot-testing operations in

Edgar Filing: FUSION NETWORKS HOLDINGS INC - Form 10-Q/A

Latin America, and include "next generation" Internet tools and customer-oriented applications including personalized content, community services, e-commerce platforms, Internet portal design, customer relationship management and integrated One-to-One marketing. Designed to establish lasting relationships with Internet users throughout global Spanish, English and Portuguese-speaking markets, these integrated multimedia applications are currently in use and can be found within Fusion's existing portal network of <http://www.latinfusion.com>, <http://www.fusionlatina.com> and <http://www.fusaolatina.com>. Vital Content, a subsidiary of Fusion, provides customized web-enabled and multimedia content to Internet industry clientele.

From the date of the Merger, April 13, 2000, forward, the Company's operations, and operating results, include IDM. IDM offers a broad range of design, engineering, construction, project development and management, and environmental services and technologies to government and private industry clients.

After joining the Company, Mr. Goldfarb recommended to the directors that IDM be sold in order to focus the efforts of management on the Internet services of Fusion. The Company evaluated a number of alternatives relative to IDM, including termination of operations, sale to third parties and sale to management of IDM. After evaluating the viability of the potential options relating to IDM and conducting extensive negotiations with management of IDM, on July 25, 2000, the Company entered into a letter of intent pursuant to which the Company agreed in principal to sell all of its stock of IDM to two principal officers of IDM. The terms of the sale of IDM have not been finalized and closing of the sale is subject to execution of definitive agreements and satisfaction of certain conditions.

15

Based on the agreement in principal to sell IDM, the Company, at June 30, 2000, recorded a write-down of the goodwill associated with the acquisition of IDM. If, and when, the sale of IDM is completed, the Company's operations will consist exclusively of the technology and software development operations conducted by Fusion.

Because the Company and Fusion were not operational until after June 30, 1999, no prior year comparative financial information is discussed herein.

Liquidity and Capital Resources

The Company is a holding company whose primary assets are the stock of Fusion and IDM.

At June 30, 2000, the Company had a consolidated working capital deficit of approximately \$0.4 million and a cash balance of \$3.3 million. Fusion had working capital of \$3.1 million and a cash balance of \$3.2 million compared to working capital of \$6.9 million and a cash balance of \$7 million at December 31, 1999. IDM had a working capital deficit of \$3.5 million and a cash balance of \$0.1 million. The decrease in working capital and cash of Fusion was attributable to losses incurred in connection with the roll-out of Fusion's portal network and development of various technologies which was partially offset by the sale of \$4 million of convertible debentures.

18

On June 15, 2000, the Company sold \$4,000,000 of 6% Secured Convertible Debentures and 1,500,000 Warrants. The Debentures and Warrants were sold to three accredited investors. The Debentures and Warrants were sold for an aggregate offering price of \$4,000,000. A finders fee of 5%, or \$200,000, was paid in connection with the sale of the Debentures and Warrants. The Debentures and Warrants were sold pursuant to the exemption from registration set out in Rule 506 as promulgated pursuant to Section 4(2) of the Securities Act of 1933. The securities were offered without general solicitation in a privately negotiated transaction with three accredited investors.

The Debentures bear interest at 6% per annum, are due on June 13, 2001 and are secured by a pledge of 1,500,000 shares of common stock of Marketing Services Group, Inc. The Debentures are convertible into shares of Common Stock of the Registrant at a fixed conversion price of \$1.75 per share. The Warrants are exercisable to purchase Common Stock of the Registrant at \$1.50 per share.

Edgar Filing: FUSION NETWORKS HOLDINGS INC - Form 10-Q/A

At June 30, 2000, equity securities held by Fusion total \$6,657,000 with approximately \$18,843,000 of unrealized loss and a decline in equity securities of the same amount from December 31, 1999. The decline in value was due to a reduction in the market price of the stock of Marketing Service Group, Inc. held by Fusion.

Both Fusion and IDM require substantial working capital to support ongoing operations.

Fusion had yet to realize any operating revenues as of June 30, 2000. Monthly expenditures averaged \$1.2 million per month during the six months ended June 30, 2000. Projected monthly expenditures for the following twelve months are approximately \$10.8 million, or \$900,000 per month. The decrease in the projected monthly expenditures is attributable to a decision to defer the opening of additional portal sites in favor of an increased emphasis on Fusion's offering of Internet software packages which are expected to produce more predictable revenue streams more rapidly and at less initial cost. There can be no assurance that actual expenditures will not exceed the projected expenditures over the next twelve months.

With respect to IDM, as is common in the environmental services industry, payment for services rendered are generally received pursuant to specific draw schedules after services are rendered. Thus, pending the receipt of payments for services rendered, IDM must typically fund substantial project costs, including significant labor and bonding costs, from financing sources within and outside of IDM. Certain contracts, in particular those with United States governmental agencies, may provide for payment terms of up to 90 days or more and may require the posting of substantial performance bonds which are generally not released until completion of a project. Operations of IDM have, in recent years, been funded through a combination of operating cash flow and the sale of equity securities and securities convertible into equity securities. At June 30, 2000, IDM had no bank debt and no significant long-term debt and were funding operations entirely through cash on hand and operating cash flow. Following the Merger, IDM's access to additional capital will be substantially limited to one-half of the exercise proceeds, if any, from options and warrants of IDM which were assumed by the Company pursuant to the Merger and such other resources as the Company may elect to make available to IDM. Management of the Company does not presently intend to utilize any of the Company existing or future capital resources to fund operations of IDM.

With the change in the Company's Chief Executive Officer in May 2000, a determination was made that the Company's management and other resources would best be used to focus on the growth of Fusion's business. In connection with that determination, management determined that alternatives relating to the termination or disposal of IDM should be evaluated. After reviewing each of the viable options, management entered into negotiations with management of IDM and, on July 25, 2000, entered into a letter of intent to sell IDM to management of IDM. The terms of the sale of IDM have not been finalized and closing of the sale is subject to execution of definitive agreements and satisfaction of certain conditions. If the sale of IDM is consummated, the Company will no longer reflect the assets or liabilities of IDM and it is anticipated that the Company will receive certain amounts from the sale of the stock and will be relieved of salary guarantees delivered pursuant to the Merger.

In order to fund operations at its current level, Fusion anticipates that it will require as much as \$9 million of additional funding over the following 12 months. Other than funds expected to be provided by operations and the potential receipt of funds from the exercise of outstanding warrants and options, the Company presently has no sources of financing or commitments to provide financing.

Edgar Filing: FUSION NETWORKS HOLDINGS INC - Form 10-Q/A

Certain Factors Affecting Future Operating Results

Beginning with the hiring of a new Chief Executive Officer in May 2000, the Company has substantially altered certain aspects of its operating plan. First, the focus of Fusion has been modified to adopt as its principal objective the marketing, sales and support of turnkey Internet software and service packages. Second, Fusion has begun to re-develop its integrated software as seven separate stand alone components, which are applications suitable for any Internet presence (Website or Portal) as well as working along with most third party applications. These "new" products are scheduled to begin Beta testing and roll out starting on September 15, 2000 with the last of these components scheduled for roll out by March 15, 2001. The Beta testing phase of each of these components is expected to last between 30 to 45 days. Third, a determination was made to abandon the Company's efforts to turn-around and grow the environmental services business of IDM.

Relative to Fusion's Internet software business model, new management determined that, in order to expand and accelerate the revenue and profit potential of the Fusion, Fusion should utilize, package and market the "next generation" Internet capabilities which it had developed in connection with the roll-out of Fusion's portal network to develop and offer turnkey web-site development and maintenance software and services. To that end, in August 2000, Fusion began actively marketing and providing a suite of "next generation" Internet tools, services and customer-oriented applications including integrated One-to-One Internet marketing software, portal technology, applications and personalized content, community services, Internet portal design and e-commerce platforms which will be sold separately as add-on applications, suitable for any website or portal, as well as an entire portal package, all designed to enable corporate customers to develop effective Spanish, English and Portuguese-related Internet strategies.

Fusion continues to operate its portal network of <http://www.latinfusion.com>, <http://www.fusionlatina.com> and <http://www.fusaolatina.com> as a virtual showroom of the capabilities offered by Fusion, as well as a channel for the sale of advertising, e-commerce and related online products and services .

Initial efforts with respect to the marketing of turnkey Internet software and service packages has produced, from July 1, 2000 to August 14, 2000, five agreements to create and maintain co-branded portals for customers. Each of those contracts provides for a revenue share in the range of 50% to 75% of the ongoing portal's revenues. Fusion will serve the future portals it licenses as an ASP (Application Service Provider) hosting, maintaining, updating and invoicing on behalf of its customers for a licensing fee of \$ 6,800 per month for the basic package. Additional implementation and customization fees will be charged, as specifications require at the time of deployment.

Relative to IDM, the proposed sale of IDM is expected to produce certain proceeds to the Company as well as a release of the Company's guarantee of salaries in the aggregate amount of \$300,000. Additionally, the sale of IDM would eliminate the Company's entire interest in any ongoing losses of IDM, and potential income of IDM.

This Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21e of the Securities Exchange Act of 1934. Actual results could differ materially from those set forth in the forward-looking statements. Certain factors that might cause such a difference include the following: uncertainty with respect to the market acceptance of Fusion's offering of turnkey Internet services and software; uncertainty with respect to the timing of collection of turnkey fees; the ability of the Company to finance continuing operating losses; the ability of the Company to complete

Edgar Filing: FUSION NETWORKS HOLDINGS INC - Form 10-Q/A

the sale of IDM and the terms of that sale; increases in competition in the Internet software and services market which may adversely impact revenues and profitability; and other factors generally affecting the timing and receipt of revenues and cost of operations.
