Plan of Operations

During the three (3) month period of operations ended June 30, 2004, Westsphere and its subsidiaries generated a net loss from operations of \$79,948, while a net loss from operations of \$9,865 was realized for the same period from the previous year. The total revenue earned during the second quarter of year 2004 increased by \$77,460 to \$1,379,134 from total revenue earned during the same period from the previous year of \$1,301,674. This increase in revenue was primarily due to increase in residual and interchange income, partially offset by a decrease in the sale of equipment and supplies. The increase in residual and interchange income was due to increase in placement of leased ATM, and partially from sale of equipment. The drop in sales of equipment and supplies was due to increase in placing ATM under the leasing program, and Westsphere's subsidiary Vencash focus on restructuring and reorganizing its infrastructure during this period.

Westsphere's gross margin during the second quarter of year 2004 remained the same at 42% from gross margin during the same period from the previous year of 42%. Westsphere's total administrative expenses for the second quarter of 2004 increased to \$647,243 from \$582,165 from the previous year. Most of such increase was caused by an increase in depreciation and amortization from the previous year 2003 from \$18,830 to a total of \$47,300 during the second quarter of year 2004, which was due to an increase in the placement of capital assets (ATMs) during the year 2003 and continue during the year 2004. Other expenses also increased from the period of year 2003 of \$129,171 to \$195,243 during the second quarter of year 2004, which was primarily due to promotional materials, repairs and maintenance, increase in travel expenses to promote new programs and an increase of salaries and benefits from \$250,047 to \$274,486 due to additional sales and marketing staff and administrative staff to handle the increase in volume of transactions and paperwork.

Westsphere and its subsidiaries currently generate sufficient cash flow to cover all of its consolidated operating expenses. The restructuring and reorganizing of Vencash's infrastructure, is expected to result in significant cost savings in the second quarter of this year. The goal is to review and enhance the current operations to a more efficient and effective manner. The restructure will reduce the general and administrative, and the salary and benefits costs. The savings start with Westsphere and its subsidiaries moved into new location to share office space and general and administrative costs. After the results of the operational review, the Company has eliminated five (5) positions since the restructure take place, which represent savings of approximately \$223,000 in annual salary. The Company has hired total of four (4) new employees at an annual cost of \$79,390. Two (2) employees for the information technology department of \$49,060 to primarily assist with the software, and the other two (2) employees for the administration and accounting department of \$30,330 as office helper. The Company is expecting to complete the restructuring and reorganizing its infrastructure toward the end of the third quarter of this year.

In order to grow Westsphere's businesses of ATM machines, financing/leasing and POS machines, Westsphere is dependent upon private placements, loans and/or joint venture arrangements. Westsphere's profit is expected to be generated by the surcharges collected from ATM machines, the sale of ATM machines, sale of POS machines and the

collection of finance/lease charges.

Changes in Financial Position

During the six (6) month period ended June 30, 2004, Westsphere's total assets decreased to \$1,562,693 from \$1,669,626 as at December 31, 2003. This decrease is primarily due to a decrease in accounts receivable and a decrease in mortgage receivable. Such decreases occurred due to the Company focus on collecting the over due receivables and mortgage receivable during the second quarter ended June 30, 2004. These decreases were partially offset by an increase in cash and prepaid expenses, which increased due to prepaid in ATM insurance of \$15,610 and cash advance to place in ATM machines total \$22,300. AS of June 30, 2004, Westsphere's current liabilities totaled \$432,888 and consisted of accounts payable of \$78,270 to suppliers for the purchase of ATM machines and POS machines with \$51,494 due for consulting services, \$117,517 due for return of surcharge and interchange fees, \$16,756 due for ATM insurance, and \$68,296 due for office expense, equipment leases, and various other general fees and charges, and accounts payable to related parties for \$61,203 due for officers and directors bonuses payable from year 2002 and \$39,352 due for consulting fee from an officer. Long-term liabilities as at June 30, 2004 consist of \$107,764 in convertible debentures, \$250,636 in shareholders loan, a bank loan in the amount of \$133,374 and non-current lease obligations of \$7,408.

Shareholders' equity as of June 30, 2004 was \$629,127, inclusive of an accumulated loss from operations of \$1,023,633, as compared to shareholders equity of \$668,999 as of December 31, 2003. The decrease in shareholders equity was due primarily to net losses of \$64,221 for the period. Total issued and outstanding share capital as of the period ended June 30, 2004 was 29,934,743 common shares as compared to a total of 29,564,640 common shares as of December 31, 2003.

Liquidity and Capital Resources

Summary of Working Capital and Stockholders' Equity

As of June 30, 2004, the Company had working capital of \$133,610 and Stockholders' Equity of \$629,127 compared with working capital of \$121,522 and Stockholders' Equity of 668,999 as of December 31, 2003. The Company's working capital has increased principally as a result of a decrease in accounts payable to related parties, which was caused by partially repayment of loan from officers and directors, and consulting fee payable to two officers are written off totaled \$35,725. Stockholders' Equity declined as a result of the operating losses for the period. Additionally, the Company anticipates a significant cost savings as a result of the restructure and reorganize of its group of companies infrastructure in the remainder of this year to obtain additional capital investment in amounts sufficient to fund operating losses and cash used as described in our financial statements.

Financing activities during the six month period resulted in the use of net cash of (\$14,378), which was caused by the repayment of \$34,980 in debt and the issuance of new debt in the amount of \$20,602. The Company's consolidated operations provided \$60,744 in net cash, compared to the use of net cash in the amount of negative \$29,852 during the same period from the previous year. This increase in cash flow from operations was the result no loss from the sale of assets (compared to a loss of \$30,983 during the period ended June 30, 2003), an increase in depreciation and amortization to \$47,300 (compared to \$8,989 in 2003), an increase in accounts receivable to \$78,752 (compared to a decrease of \$14,813 in 2003). The changes in cash flows were driven by the Company having placed more units in previous periods, which resulted in an increase of depreciation and accounts receivable.

Liquidity

The Company anticipates it has sufficient funds over the next twelve months to meet its operation needs. The Company currently has \$135,309 in cash and will not have to raise additional funds to meet its operational needs for the next twelve months. However, the Company intends to raises \$1 million to fund its plans for growth of its subsidiaries. Such amount would allow Vencash Capital to purchase and place an additional 330 automated teller machines. The Company does not anticipate commencement of any capital raising efforts until the 3rd or 4th quarter of the current calendar year. The Company has not yet made any determination whether it will attempt to obtain equity or debt financing or any other terms, which will be dependent on a variety of factors. As of the filing of this report, the Company has sufficient funds to meet its existing revenue shortfall for the funding of its consolidated operations. The Company anticipates revenues generated from its sales of equipments and supplies and residual and interchange income will greatly reduce the requirement for additional funding; however, we cannot be certain the Company will be successful in achieving revenues from those operations.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.
