PART III NARRATIVE

State below in reasonable detail the reasons why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, N-CSR the transition report or portion thereof, could not be filed within the prescribed time period.

The Company needs additional time to finalize the consolidated financial statements to be included in its Form 10-K for the year ended December 31, 2002. As previously disclosed, during the fourth quarter of 2002, the Company changed its method of determining the cost of inventories from the last-in, first-out ("LIFO") method to the first-in, first-out ("FIFO") method. Prior to 2002, the majority of the Company's operations used the LIFO method of valuing inventory. The Company has concluded that the FIFO method will result in a better measurement of current inventory costs with revenues because the Company has realized, and expects to continue to realize, cost reductions in its manufacturing operations. The Company will apply this change by retroactively restating its financial statements as required by Accounting Principles Board Opinion No. 20, "Accounting Changes." The Company is in the process of completing the necessary changes to its consolidated financial statements to give effect to the restatement. The Company expects that the restatement will result in an increase to the accumulated deficit as of January 1, 2000 of approximately \$15.5 million. The Company expects that the restatement will impact each of Cost of Sales, Income from Operations and Net (Loss) Income by \$12.3 million positively in 2001 and by \$6.9 million negatively in 2000.

If answer is no, identify report(s). /x/ Yes // No

Yes  No

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

Yes  No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

See the Company's response to Part III above with respect to the expected impact on the Company's results of operations as a result of the change from the LIFO method to the FIFO method.

In addition, after consultation with the Staff of the Securities and Exchange Commission about the accounting for the Company's investment in Rengo Riverwood Packaging, Ltd. ("Rengo"), the Company's 50% owned Japanese joint venture, the Company will restate its previously issued 2001 financial statements to report its investment in Rengo using the equity method of accounting. The Company began to consolidate Rengo into its consolidated financial statements as of January 1, 2001. The consolidation of Rengo contributed \$48.3 million in Net Sales and \$3.1 million in Income from Operations in 2001.
