PROXY STATEMENT

FOR 2003 ANNUAL MEETING OF STOCKHOLDERS

To be Held on June 3, 2003

April 28, 2003

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Affiliated Managers Group, Inc. ("AMG" or the "Company") for use at the 2003 Annual Meeting of Stockholders of the Company to be held on Tuesday, June 3, 2003 at 10:00 a.m. Boston time at the offices of Goodwin Procter LLP at Exchange Place, 53 State Street, Boston, Massachusetts 02109, and at any adjournments or postponements thereof (the "Annual Meeting"). At the Annual Meeting, stockholders will be asked to vote upon the election of seven directors of the Company and to act upon any other matters properly brought before them.

This Proxy Statement and the accompanying Notice of Annual Meeting and Proxy Card are first being sent to stockholders on or about April 28, 2003. The Board of Directors has fixed the close of business on April 16, 2003 as the record date for the determination of stockholders entitled to notice of and to vote at the Annual Meeting (the "Record Date"). Only stockholders of record of the Company's common stock, par value \$.01 per share (the "Common Stock"), at the close of business on the Record Date will be entitled to notice of the Annual Meeting and to vote at the Annual Meeting. Holders of Common Stock outstanding and entitled to vote as of the close of business on the Record Date will be entitled to one vote for each share held by them. As of the Record Date, there were 20,988,220 shares of Common Stock outstanding and entitled to vote at the Annual Meeting.

The presence, in person or by proxy, of holders of at least a majority of the total number of shares of Common Stock outstanding and entitled to vote is necessary to constitute a quorum for the transaction of business at the Annual Meeting. Both abstentions and broker non-votes (as defined below) will be counted as present in determining the presence of a quorum. A plurality of votes cast shall be sufficient for the election of directors. Abstentions and broker non-votes will be disregarded in determining the "votes cast" for purposes of electing directors and will not affect the election of the candidates receiving a plurality of votes. A "broker non-vote" is a proxy from a broker or other nominee indicating that such person has not received instructions from the beneficial owner or other person entitled to vote the shares which are the subject of the proxy on a particular matter with respect to which the broker or other nominee does not have discretionary voting power.

Stockholders of the Company are requested to submit a proxy by phone or Internet, or by completing, signing, dating and returning the accompanying Proxy Card in the enclosed, postage-prepaid envelope. If you vote by telephone or the Internet, you should not return your proxy card. Instead, please follow the instructions on your proxy card. Shares represented by a properly completed proxy received prior to the vote at the Annual Meeting and not revoked will be voted at the Annual Meeting as directed on the proxy. If a properly executed proxy is submitted and no instructions are given, the proxy will be voted FOR the election of the nominees for director of the Company named in this Proxy Statement. If other matters are presented, proxies will be voted in accordance with the discretion of the proxy holders on such other matters.

A stockholder of record may revoke a proxy at any time before it has been exercised by filing a written revocation with the Secretary of the Company at the address of the Company set forth above; by filing a duly executed proxy bearing a later date; or by appearing in person and voting by ballot at the Annual Meeting. A stockholder of record who voted by telephone or the Internet may also change his or her vote with a timely and valid later telephone or Internet vote, as the case may be. Any stockholder of record as of the Record Date attending the Annual Meeting may vote in person whether or not a proxy has previously

been given, but the presence (without further action) of a stockholder at the Annual Meeting will not constitute revocation of a previously given proxy.

The Company's 2002 Annual Report, including audited financial statements for the fiscal year ended December 31, 2002, is being mailed to stockholders concurrently with this Proxy Statement. The Annual Report, however, is not part of the proxy solicitation materials.

- (1) Amounts represent hypothetical gains that could be achieved for the respective options if exercised at the end of the option term. These gains are based upon assumed rates of stock appreciation set by the Securities and Exchange Commission (the "SEC") of 5% and 10% compounded annually from the date the respective options were granted. Actual gains, if any, are dependent on the performance of the Common Stock. There can be no assurance that the amounts reflected will be achieved.
- (2) These options become exercisable over four years, with 25% becoming exercisable on each of the four calendar year ends beginning in the year of the date of grant.
- (3) These options become exercisable over four years, with 25% becoming exercisable on each of the four calendar year ends beginning in the year following the date of grant.

Aggregated Option Exercises in Last Fiscal Year and Year-End Option Values. The following table sets forth information concerning shares of Common Stock acquired on exercise of stock options during 2002, any value realized thereon, the number of unexercised options at the end of 2002 (exercisable and unexercisable) and the value of stock options held at the end of 2002 by the Named Executive Officers. The "Value Realized" column reflects the difference between the market price on the date of exercise and the market price on the date of grant (which establishes the exercise price for the option) for all options exercised, even though the executive officers may have actually received fewer shares as a result of the surrender of shares to pay the exercise price, or the withholding of shares to cover the tax liability associated with the option exercise. Accordingly, in such cases the "Value Realized" numbers do not necessarily reflect what the executive officers might have received should the executive officers have chosen to sell the shares acquired by the option exercise, since the market price of the shares so acquired may at any time be higher or lower than the price on the exercise date of the option.

**COMPENSATION COMMITTEE REPORT ON
EXECUTIVE COMPENSATION**

The Compensation Committee

Edgar Filing: AFFILIATED MANAGERS GROUP INC - Form DEF 14A

The Compensation Committee consists of Messrs. Lockwood, Meyerman and Weld, each an independent director of the Company, with Mr. Lockwood serving as the Chairman of the Committee. The Compensation Committee is responsible for overseeing the Company's general compensation policies and establishing and reviewing the compensation plans applicable to the Company's executive officers. In that capacity, the Compensation Committee also administers the Company's stock option and incentive plans, as well as the Long Term Incentive Plan initially approved by the stockholders of the Company at the 2000 Annual Meeting, and subsequently amended and approved by stockholders at the 2002 Annual Meeting.

Compensation Policies

The Compensation Committee structures its policies and programs to further two basic philosophies: first, that executive compensation should be closely aligned with increases in stockholder value as measured by growth in Cash earnings per share (as discussed below); and second, that executive compensation should be designed to retain the services of key members of senior management of the Company. In keeping with these two philosophies, the Compensation Committee closely monitors the allocation of the Company's executives' compensation among its various components: base salary, bonus, stock and stock option grants, so as to maintain an appropriate balance between fixed and performance-based compensation. The Compensation Committee also sets the timing of payments within the bonus, stock and stock option categories so as to maintain an appropriate balance between current and deferred payments. Throughout these processes, the Compensation Committee is striving to create the optimum level of incentives to ensure that key executives remain with the Company and manage the Company's affairs with the goal of increasing value to stockholders.

Base Salary

In determining base salary levels for the Company's executive officers, the Compensation Committee annually reviews the amounts of base compensation being paid to executive officers of other companies in the industry, including those comprising the Peer Group Index described above. The Compensation Committee intends that the base salary levels of the Company's executive officers be somewhat below the median level for executives in similar positions in comparable public companies in the industry. The Compensation Committee believes it is appropriate to target a base salary level that reflects the Compensation Committee's belief that total compensation should focus more on performance-based compensation. Based on the Compensation Committee's philosophy and the factors stated above, the Compensation Committee determined to approve 2003 base salaries as follows: Mr. Nutt, \$650,000; Mr. Healey, \$550,000; and each of Messrs. Brennan, Crate and Dalton, \$400,000.

Performance-based Compensation

In determining the performance-based compensation levels for the Company's executive officers, the Compensation Committee considers the Company's Cash Net Income (or "Cash earnings") (as discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2002) per share to be the principal performance benchmark for the Company and therefore uses Cash earnings as a measure to align executive compensation with stockholder value. In 2000, the Company adopted the Long Term Incentive Plan, which was approved by stockholders in May 2000 and subsequently amended and approved by the stockholders of the Company at the 2002 Annual Meeting. Under the terms of the Long Term Incentive Plan, executives covered under the Plan are eligible to receive incentive compensation for any fiscal year in which the Company achieves certain Cash earnings per share targets established by the Compensation Committee within the first 90 days of the fiscal year. The Company's Cash earnings per share for 2002

12

exceeded the initial Cash earnings per share target established by the Compensation Committee for the year, resulting in the creation of the incentive pool pursuant to the pre-established formula under the Long Term Incentive Plan.

In addition to Cash earnings per share, the Compensation Committee considers certain additional Company and individual performance factors to be important in determining the appropriate level of compensation for the Company's executive officers. Where appropriate, the Compensation Committee considers the performance of the Company's Common Stock, the performance of the Company (with respect to a number of financial measures) relative to other companies in its peer group and the performance of the Company relative to the financial markets generally, along with a broad assessment of qualitative management performance on both an individual and aggregate basis.

The Compensation Committee's determinations of the performance-based compensation for each executive officer, and the form and timing of all payments, are described more fully in the Summary Compensation Table.

Stock Option Awards

While recognizing that performance-based compensation provides rewards for positive short-term performance, the Compensation Committee believes that awards of stock options provide long-term incentive compensation to executive officers that is aligned directly with the achievement of enhanced shareholder value for stockholders through an appreciating stock price. Given the Compensation Committee's belief in the significance of stock option awards to align incentive compensation for executive officers and other employees of the Company, the Compensation Committee recommended to the Board of Directors that it adopt the 2002 Stock Option and Incentive Plan to provide additional stock option issuance capacity.

The Compensation Committee intends to grant stock options semi-annually on the basis of the Company's performance and individual contributions to that performance. In making its grants, the Compensation Committee considers the potential stock option grants in relation to the compensation to be paid in any particular year. While the Compensation Committee follows no particular formula, it believes that in years in which compensation is relatively lower, grants to executive officers should be relatively higher, and that grants should be somewhat lower in years in which compensation is relatively higher. Consistent with this philosophy, the Compensation Committee determined that stock option grants to executive officers in 2002 should be lower than in 2001. Grants of stock options to executive officers, based on the Compensation Committee's review of the Company's performance and individual contributions to that performance for 2002, are described in the Option Grants in 2002 Table.

Compensation of the Chief Executive Officer

In determining the annual and performance-based compensation levels for Mr. Nutt, the Company's Chairman and Chief Executive Officer, the Compensation Committee applies the same principles and methods applied to other executive officers. On that basis, and based upon its assessment of Mr. Nutt's contributions relative to other senior managers of the Company, the Compensation Committee determined Mr. Nutt's overall compensation to be appropriate.

13

Deductibility of Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended, places a limit on the tax deduction for compensation in excess of \$1 million paid to any "covered employees" of a publicly held corporation (generally the corporation's chief executive officer and its next four most highly compensated executive officers in the year that the compensation is paid). At the 2000 Annual Meeting, the stockholders of the Company approved the Long Term Incentive Plan, which permits performance compensation paid thereunder to such covered employees to be deductible by the Company. An amendment to the Plan was approved by the stockholders of the Company at the 2002 Annual Meeting. In implementing its compensation policies, the Committee considered the effects of the adoption of the Long Term Incentive Plan and the opportunities it afforded to preserve the tax deductibility of compensation to executive officers. The Compensation Committee's policy with respect to Section 162(m) is to make reasonable efforts to ensure that compensation is deductible to the extent permitted while simultaneously providing the Company's executive officers with appropriate rewards for their performance.

14

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Company's executive compensation is determined by the Compensation Committee of the Board of Directors, which currently consists of Messrs. Lockwood, Meyerman and Weld, each a non-employee director of the Company.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

During 2002, the Company retained Goodwin Procter LLP for certain legal services. Richard E. Floor, a director of the Company, is the sole shareholder of Richard E. Floor, P.C., which is a partner in Goodwin Procter LLP.

In 2002, the Company terminated an employee loan program for participating executive officers and officers, and all loans under that program were repaid. At the time of their repayment, the principal amounts outstanding on loans to Messrs. Nutt, Healey, Brennan, Crate and Dalton were \$900,000, \$1,000,000, \$315,000, \$1,000,000 and \$800,000, respectively. Each loan had a 30-year maturity and was secured by real property, with a rate of interest of the lesser of 6.25% or the Applicable Federal Rate.

AUDIT COMMITTEE REPORT

The Audit Committee consists of Messrs. Lockwood and Meyerman and Dr. Rodriguez, each a non-employee director of the Company, with Dr. Rodriguez serving as the Chairman of the Committee. The Audit Committee's purpose is to assist the Board of Directors in oversight of the Company's internal controls and financial statements and the audit process. The Board of Directors has determined in its business judgment that all members of the Committee are "independent" as is required by the listing standards of the NYSE.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements, accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditors, PricewaterhouseCoopers LLP, are responsible for performing an independent audit of the consolidated financial statements in accordance with generally accepted auditing standards.

In performing its oversight role, the Audit Committee has reviewed and discussed the audited financial statements with management and the independent auditors. The Committee has also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as currently in effect. The Committee has received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, as currently in effect. The Committee has also considered whether the provision of information technology consulting services relating to financial information systems design and implementation (if any) and other non-audit services by the independent auditors is compatible with maintaining the auditors' independence and has discussed with the auditors the auditors' independence.

Based on the reports and discussions described in this Report, and subject to the limitations on the role and responsibilities of the Committee referred to below and in the Charter, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2002.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, including with respect to auditor independence. Members of the Committee rely without independent verification on the information provided to them and on the representations made by management and the independent auditors. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards, that the financial statements are presented in accordance with generally accepted accounting principles or that PricewaterhouseCoopers LLP is in fact "independent."

The Committee operates pursuant to a Charter that was re-approved by the Board on April 12, 2002. Pursuant to the requirements of the Sarbanes-Oxley Act of 2002, the NYSE is in the process of formulating new rules regarding the role and responsibilities of public company audit committees. The Audit Committee is monitoring this process and intends to amend its charter in conformity with the requirements of the new rules once they are finalized and effective.
