INFORMATION REGARDING VOTING AT THE 2009 ANNUAL MEETING

Proxies

You should vote by Internet, by telephone, or by requesting a printed copy of the proxy materials and using the enclosed proxy card regardless of whether you attend the 2009 Annual Meeting in person. You may revoke your proxy at any time before it is exercised by giving our Corporate Secretary written notice of revocation or a properly executed proxy of a later date, or by attending the 2009 Annual Meeting and voting in person. If your shares are held of record by a broker, bank or other nominee, you must obtain from the record holder a proxy issued in your name. Written notices of revocation and other communications with respect to the revocation of proxies should be addressed to AECOM Technology Corporation, 555 South Flower Street, 37th Floor, Los Angeles, CA 90071, Attention: Corporate Secretary.

All shares represented by valid proxies received and not revoked before they are exercised will be voted in the manner specified in the proxy. Other than with respect to certain trustees who hold our shares in trust, if nothing is specified, the proxies will be voted in favor of each of the proposals. Our Board of Directors is unaware of any other matters that may be presented for action at our 2009 Annual Meeting. If other matters do properly come before our 2009 Annual Meeting, however, it is intended that shares represented by proxies will be voted in the discretion of the proxy holders.

Solicitation of Proxies

We will pay the entire cost of soliciting proxies. In addition to soliciting the proxies by mail, we will request banks, brokers and other record holders to send proxies and proxy materials to the beneficial owners of our common stock and to secure their voting instructions, if necessary. We will reimburse record holders for their reasonable expenses in performing these tasks. If necessary, we may use our regular employees, who will not be specially compensated, to solicit proxies from stockholders, whether personally or by telephone, letter or other means.

Record Date and Voting Rights

Our Board of Directors has fixed January 5, 2009, as the record date for determining the stockholders who are entitled to notice of, and to vote at, our 2009 Annual Meeting. Only stockholders of record at the close of business on the record date will receive notice of, and be able to vote at, our 2009 Annual Meeting. As of the record date, there were 104,022,187 shares of our common stock outstanding held by 1,609 record holders, in addition to approximately 51,266 holders who do not hold shares in their own names. A majority of the stock issued and outstanding and entitled to vote must be present at our 2009 Annual Meeting, either in person or by proxy, in order for there to be a quorum at the meeting. Each share of our outstanding common stock entitles its holder to one vote. Shares of our common stock with respect to which the holders are present in person at our 2009 Annual Meeting but not voting, and shares for which we have received proxies but with respect to which holders of the shares have abstained, will be counted as present at our 2009 Annual Meeting for the purpose of determining whether or not a quorum exists. Broker non-votes will also be counted as present for the purpose of determining whether a quorum exists. "Broker non-votes" are shares of common stock held by brokers or nominees over which the broker or nominee lacks discretionary power to vote and for which the broker or nominee has not received specific voting instructions from the beneficial owner.

For Proposal 1 relating to director elections, the nominees for election as directors will be elected by a plurality of the votes of the shares of our common stock present in person or represented by proxy at the 2009 Annual Meeting. Abstentions and broker non-votes will not be counted as participating in the voting, and will therefore have no effect for purposes of Proposal 1. For Proposal 2 relating to ratification of auditors, the affirmative vote of the holders of a majority of the shares of common stock present in person or represented by proxy and entitled to vote at the 2009 Annual Meeting is required in order for this

proposal to be approved by our stockholders. For Proposal 2, abstentions will be counted as present and will have the effect of a vote against the proposal, and broker non-votes will not be counted as participating in the voting, and will therefore have no effect on the outcome of the vote on the proposal. Votes will be tabulated by the inspector of election appointed for the meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes. Our Board of Directors urges you to complete, date and sign the accompanying proxy and to return it promptly.

Year-End Reporting Convention

We report our results of operations based on 52- or 53-week periods ending on the Friday nearest September 30. For clarity of presentation, all periods are presented as if the fiscal year ended on September 30. Fiscal years 2008, 2007 and 2006 contained 53, 52 and 52 weeks and ended on October 3, September 28 and September 29, respectively.

PROPOSAL 2
RATIFICATION OF SELECTION OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board of Directors has retained Ernst & Young LLP to serve as our independent registered public accounting firm for the fiscal year ending September 30, 2009. A representative of Ernst & Young LLP, is expected to be present at the 2009 Annual Meeting, and will have an opportunity to make a statement if the representative so desires, and will be available to respond to appropriate questions.

Reasons for the Proposal

Selection of our independent registered public accounting firm is not required to be submitted for stockholder approval, but the Audit Committee of our Board of Directors is seeking ratification of its selection of Ernst & Young LLP, from our stockholders as a matter of good corporate practice. If stockholders do not ratify this selection, the Audit Committee of our Board of Directors will reconsider its selection of Ernst & Young LLP, and will either continue to retain this firm or appoint a new independent registered public accounting firm. Even if the selection is ratified, the Audit Committee may, in its discretion, appoint a different independent registered public accounting firm at any time during the fiscal year if it determines that such a change would be in our best interests and the best interests of our stockholders.

The Nominating and Governance Committee of our Board of Directors is charged with identifying, investigating and recommending to the Board of Directors qualified individuals to become directors and assessing at least annually the size and composition of the Board of Directors and recommending any changes to the Board of Directors.

It is our belief that members of the Board of Directors should have the highest professional and personal ethics and values. The Board's Nominating and Governance Committee annually reviews the appropriate skills and characteristics required of members of the Board of Directors in the context of the current composition of the Board of Directors, the operating requirements of the Company and the long-term interests of stockholders. While all directors should possess business acumen, the Board of Directors endeavors to include an array of targeted skills and experience in its overall composition. Criteria that the Nominating and Governance Committee looks for in director candidates include business experience and skills, judgment, independence, integrity, an understanding of such areas as finance, marketing, regulation, end markets, and public policy and the absence of potential conflicts with the Company's interests.

Our Nominating and Governance Committee will consider stockholder nominations for directors if it receives timely written notice, in proper form, of the intent to make a nomination at a meeting of stockholders. To be timely, the notice must be received not less than 60 nor more than 90 days prior to the date of the stockholders' meeting at which the stockholder wishes a nomination to be considered. However, in the event that less than 70 days' notice of the date of the stockholder meeting at which directors are to be elected is given to stockholders, then director nominations by a stockholder will be deemed timely if received by the Corporate Secretary by the close of business on the tenth business day following the day on which the notice of stockholder meeting was mailed or public disclosure of such meeting was made. To be in proper form, the notice must, as to each person whom the stockholder proposes to nominate for election or re-election as a director, state the name, age, business address and residence address of such person; the principal occupation or employment of such person; the class and number of shares of common stock of the Company that are beneficially owned by such person; and such other information concerning such person as would be required in a proxy statement soliciting proxies for the election of directors (including such person's signed written consent to being named in the proxy statement as a nominee and to serve as a director of the Company, if elected). In addition, as to the stockholder giving the notice, the notice must also state the name and address, as they appear on the Company's books, of such stockholder and the class and number of shares of the Company which are beneficially owned by such stockholder. Requirements respecting stockholder proposals are described under the heading "Stockholder Proposals" on page 42.

Director Attendance at Annual Meetings

AECOM's policy is for directors to attend our annual meetings, unless there are extenuating circumstances. All members of our Board of Directors attended the 2008 annual meeting of stockholders.

Director Compensation

Those of our directors who also serve as officers of us or our subsidiaries are not compensated by us for attending meetings or performing any other function of the Board of Directors. All other directors are paid a retainer of \$36,000 per year. In addition, these outside directors receive the following meeting fees:

Board of Directors and committee fees of \$1,500 per meeting when in person and \$1,000 when telephonic;

Committee Chair fees for Compensation and Organization, Nominating and Governance and Planning, Finance and Investment Committees of \$3,000 per meeting when in person and \$2,000 per meeting when telephonic instead of the regular committee fees; and

Audit Committee Chair fees of \$4,500 per meeting when in person and \$3,000 when telephonic instead of the regular committee fees.

Our outside directors are entitled to defer some or all of their annual retainers and meeting fees to our non-qualified Deferred Compensation Plan ("DCP") and receive common stock units plus a ten percent (10%) company match.

Each outside director, at the time he or she is first elected to our Board of Directors, receives options to purchase 10,000 shares of our common stock under our Stock Incentive Plan for Non-Employee Directors and thereafter will receive annually options for a number of shares approved by the Board of Directors. The exercise price for such options is the market value of our common stock on the date of grant and the options are exercisable six months after the grant date.

Related Party Transaction Policy

We have adopted a related party transaction policy, which covers transaction involving in excess of \$100,000 between us and our directors, executive officers, 5% or greater stockholders and parties related to the foregoing, such as immediate family members and entities they control. The policy requires that any such transaction be considered and approved by our Audit Committee prior to entry into such transaction. In reviewing such transactions, the policy requires the Audit Committee to consider all of the relevant facts and circumstances available to the Audit Committee, including (if applicable) but not limited to the benefits to the Company, the availability of other sources for comparable products or services, the terms of the transaction and the terms available to unrelated third parties or to employees generally.

Under the policy, if we should discover related party transactions that have not been approved, the Audit Committee will be notified and will determine the appropriate action, including ratification, rescission or amendment of the transaction.

Certain Relationships and Related Transactions

Mr. Ronald Yamiolkoski is employed by our subsidiary AECOM USA, Inc. as an Associate Vice President, and he is the brother-in-law of Mr. Richard Newman, our Chairman. Mr. Yamiolkoski has no reporting responsibility to Mr. Newman and, in our fiscal year ended September 30, 2008, Mr. Yamiolkoski received compensation from AECOM USA, Inc. of approximately \$156,000. The employment of Mr. Yamiolkoski was entered into more than 25 years ago, prior to the adoption of our related party transaction policy and has since been ratified by the Audit Committee.

Stock Ownership Guidelines

At its December 2008 meeting, the Compensation and Organization Committee adopted executive and director stock ownership guidelines intended to further align our stockholders' interests with those of our executives and directors. Under the policy, our directors must maintain ownership of AECOM stock at the lesser of a multiple of four times the annual retainer or 5,000 shares. Shares owned directly or indirectly, deferred stock units and 60% of the value of vested but unexercised stock options are counted toward the guidelines. Directors have five years to comply with the guidelines. All of our directors, with the exception of Mr. Mineta, who became a director in May 2007, exceed the new stock ownership guidelines and most of the directors significantly exceed the guidelines. Please see the Compensation Discussion and Analysis section for a discussion of the executive stock ownership guidelines.

COMPENSATION OF EXECUTIVE OFFICERS AND OTHER INFORMATION

Compensation Discussion and Analysis ("CD&A")

The following provides information regarding the compensation and benefit programs in place for the executive officers named in the Summary Compensation Table that follows this Compensation Discussion and Analysis (John M. Dionisio, President and Chief Executive Officer ("CEO"); Richard G. Newman, Chairman; James R. Royer, Vice Chairman; Michael S. Burke, Executive Vice President, Chief Financial Officer and Francis S.Y. Bong, Chairman Asia (collectively, the "Named Executive Officers")), for our 2008 fiscal year. It also includes information regarding the overall objectives of our compensation program and each element of compensation that we provide. The Compensation and Organization Committee of the Board of Directors approves the compensation for the CEO and reviews and approves management's recommendations for the other Named Executive Officers and the CEO's direct reports. In addition, the Compensation and Organization Committee reviews and approves compensation programs, oversees our executive compensation philosophy and strategy, and ensures that proper due diligence, deliberations, and reviews of executive compensation are conducted.

Overview

Our compensation programs are designed to provide overall total reward packages that are competitive with our peer companies (described in more detail below), allow us to attract and retain key talent, and provide incentives that promote short and long-term financial growth and stability to continuously enhance stockholder value. Our programs are based on a pay-for-performance model and the majority of our Named Executive Officers' compensation is performance-based. While each element of compensation is considered, the focus of the Compensation and Organization Committee is on providing a performance-based total reward package as a whole.

Benchmarking

The Compensation and Organization Committee uses market data as an important tool in developing executive compensation packages for our Named Executive Officers. To help establish and review the compensation paid to the Named Executive Officers, our Compensation and Organization Committee engaged Towers Perrin, the committee's independent third party consulting firm, to prepare an executive compensation report. This report compares our performance and each element of Named Executive Officer compensation to the performance of and compensation provided to executives serving in comparable positions within our peer group companies and the broader market for executive talent. During fiscal 2008, we also used Towers Perrin to perform other services such as conducting market salary research. We do not believe the independence of Towers Perrin was impaired by such engagements.

For fiscal 2008, the companies in our peer group were CH2M Hill Companies Limited, Chicago Bridge and Iron Company, Fluor Corporation, Foster Wheeler Ltd., Jacobs Engineering Group, Inc., Shaw Group, Tetra Tech, Inc. and URS Corporation. Last year's peer group was comprised of the same set of companies except that it also included Washington Group International, which was acquired by URS Corporation in late 2007. The Compensation and Organization Committee believes this group of companies provides an appropriate peer group because they are business competitors or other entities with which we compete for employees at the executive level. Compensation survey data for the broader market for executives are from Towers Perrin's 2008 Executive Compensation Data Bank. Regression analysis, based on AECOM revenue, was used to determine predicted pay levels for our Named Executive Officers.

The compensation consultant's report provides the Compensation and Organization Committee with market survey information for base salary and short and long-term incentive compensation within both our peer group companies and the broader market referred to above. The compensation consultant also provides comparisons of key performance metrics (detailed below) for the Company compared to the peer group companies. This comparison establishes the basis for the evaluation of our overall performance,

which is considered when the Compensation and Organization Committee reviews the performance of each of the Named Executive Officers and determines short-term incentive compensation for the completed fiscal year and sets base salaries and awards long-term compensation for the next year.

To implement the compensation principles outlined in the above Overview, the Compensation and Organization Committee reviews compensation for the Named Executive Officers considering base salary and short and long-term incentive compensation with a focus on the total reward package. We use the 50th percentile of our peer group companies and the broader market as a base line for base salary compensation for our Named Executive Officers, taking into account the experience level of the individuals in their current positions. Short-term compensation or annual incentive bonuses for the Named Executive Officers are based on a comparison between our performance and the peer group's prior twelve month performance in the areas of growth in earnings before interest, taxes and amortization ("EBITA"), EBITA return on average total capital ("ROATC") and growth in earnings per share. Similarly, long-term compensation for our Named Executive Officers is based on these same benchmarks comparing our performance over the prior five years against that of the peer group.

Our Compensation and Organization Committee then considers these quantitative performance comparisons and the compensation of executives of the peer group companies in similar positions, as well as qualitative performance factors they deem important to insure the alignment of our executives' compensation with the goals of our stockholders. The qualitative factors are developed with the CEO for the Named Executive Officers other than the CEO, and by the Compensation and Organization Committee for the CEO. These qualitative factors include important items such as experience, leadership, integrity, strategic planning, team building, diversity, stability and succession planning.

Elements of Compensation

The compensation package for our Named Executive Officers generally consists of:

Base Salary intended to provide our executives with a competitive salary for their position and experience relative to their peers.

Short-Term Incentive Compensation intended to encourage our executives to focus on achievement of the Company's annual financial plan as well as the specific qualitative goals included in our strategic plan.

Long-Term Incentive Compensation designed to reward our executives for achieving quantitative and qualitative objectives that are related to our long-term objectives set forth in our five year strategic plan.

Benefits and Retirement Programs designed to protect our executives' health and well-being, assist in their retention and aid in the recruitment of new executives.

We believe tying our executives' total rewards with the short and long-term objectives of our strategic plan aligns our executives' interests with our stockholders and provides strong retention and motivational incentives for our executives. The majority of our Named Executive Officers' total rewards are based upon performance, including our results of operations as compared to our peer group companies. We believe this pay-for-performance model encourages and motivates the executives' performance in alignment with the best interests of our stockholders and employees.

As our financial performance improves relative to our performance targets and goals and the performance of our peer group companies, the Named Executive Officers' potential for additional compensation under the short-term and long-term incentive programs increases. If actual performance falls short of performance targets and goals, total compensation will be reduced. Short-term incentive compensation may be reduced to zero if performance falls short of established goals. Long-term incentive compensation, as described below, is generally subject to company-wide performance targets for a three

year performance period for the Named Executive Officers. If the Company falls short of its performance targets for the three year performance period based on a pre-established formula, the payout will be reduced and may be reduced to zero for significant shortfalls. On an annual basis our Compensation and Organization Committee evaluates past performance, performance of the peer group companies and general market conditions to establish future performance targets and goals.

Base Salary

We strive to provide our Named Executive Officers with base salaries that are aligned with their roles and responsibilities and are competitive when compared to our peer companies of comparable size. We view base salary as an important component to each Named Executive Officer's overall compensation package. Base salaries are reviewed annually and at the time of promotion or other significant changes in responsibilities. The Compensation and Organization Committee sets the base salary of our Named Executive Officers using the medians of our peer group and the broader market for executives as a base line, taking into account the level of responsibility, experience and tenure of the individual, and the amount of performance based incentives received or granted each year.

Short-Term Incentive Compensation

Our short-term incentive compensation program allows us to create annual performance criteria that are flexible and that change with the needs of our business. Our CEO and his management team are responsible for the overall performance of the Company in accordance with our strategic operating plan, as approved annually by our Board of Directors, and are evaluated relative to these objectives. Each year, the Compensation and Organization Committee reviews our performance as compared to financial and qualitative goals established by it at the beginning of the year, although the Named Executive Officers do not have target incentive amounts or an explicit formula for determining payouts.

The measurement criteria for our Named Executive Officers' incentive compensation bonuses for fiscal year 2008 were based on our growth in EBITA (earnings before interest expenses, taxes, amortization, company stock matches and one-time merger related expenses), EBITA return on total invested capital, and growth in EBITA per share, supplemented by qualitative achievements such as: initiating and completing significant acquisitions, including effective integration; aggressive quality and safety development plans; organizational restructuring; development and implementation of our employee engagement programs; cross-selling and production sharing between our operating groups; and other personal accomplishments. The Compensation and Organization Committee reviews Company performance on the measurement criteria above relative to peers and determines, in its sole discretion, the actual short-term incentive compensation paid to the Named Executive Officers taking into account the factors described above. The actual amounts of short-term incentive compensation awarded to the Named Executive Officers for fiscal year 2008 are shown in the column labeled "Bonus" in the Summary Compensation Table on page 23.

Long-Term Incentive Compensation

Long-term incentive compensation is provided to our Named Executive Officers through the award of restricted stock units pursuant to our Performance Earnings Program ("PEP"). Our long-term incentive compensation program is designed to focus our Named Executive Officers on our long-term goals and reward their achievement. This focus is set by creating a three year performance period under our PEP (described below), and our objective is to advance AECOM's long-term goals and enhance stockholder value.

Our CEO provides the Compensation and Organization Committee with a recommended total dollar pool for PEP awards to all Named Executive Officers as well as other key executives, excluding the CEO and the Chairman. The Compensation and Organization Committee then reviews the compensation

consultant's report described above, including the comparable total direct compensation amounts of peer companies and determines the value of PEP restricted stock units that are to be awarded to the Named Executive Officers, including the CEO. With the total reward package in mind, the actual awards granted for fiscal 2008 by the Compensation and Organization Committee to each of the Named Executive Officers considered the compensation consultant's report on stock awards for comparable positions within the peer group companies described above, as well as the executive's experience, qualitative results, individual contributions, scope of responsibility and retention risk.

Under the Performance Earnings Program for fiscal year 2008 ("PEP08"), we awarded performance-based restricted stock units that are earned based on the Company's financial performance and continued employment over a three fiscal year performance period. The Compensation and Organization Committee establishes objective performance criteria for each PEP award period. The PEP08 awards are based on the three-year performance of two corporate objectives: (1) growth in EBITA and (2) return on investment. Growth in EBITA and return on investment are each given a fifty percent weighting in determining overall payout.

The Compensation and Organization Committee adopted these three year performance goals because it believes they are key indicators of the Company's financial and operational success and are drivers of long-term stockholder value. The specific performance goal levels reflect confidential, internal financial targets at the time the awards are established. These goals require a high level of financial performance to be achieved over the three-year period. As was the case with the awards granted for prior performance periods, the goals for the PEP08 performance period are challenging but, we believe, achievable. The three-year performance period for our Performance Earnings Program for fiscal years 2006 - 2008 ("PEP06") closed at the end of fiscal year 2008. Given AECOM's achievement of the PEP06 goals, our Named Executive Officers will receive payments from PEP06 at 100% of target award amounts. Additionally, our Performance Earnings Program for fiscal years 2007 - 2009 ("PEP07") will close its three-year performance period at the end of fiscal year 2009. See the Outstanding Equity Awards at Fiscal Year-End 2008 table on page 25 for further details.

Subsequent to our 2008 fiscal year, our Compensation and Organization Committee adopted a portfolio approach to long-term compensation and fiscal 2009 awards to our Named Executive Officers include a combination of PEP units, time-vested restricted stock units and stock options, rather than all PEP units as has been our past practice. We believe this portfolio approach balances the incentive value inherent in each vehicle and aligns our compensation design more closely with our competitors. All stock options have an exercise price equal to the price of our common stock on the date the option is granted.

The Company does not currently have a policy requiring a fixed course of action with respect to compensation adjustments following later restatements of financial results. Under those circumstances, the Compensation and Organization Committee would evaluate whether compensation adjustments were appropriate based upon the facts and circumstances surrounding the restatement.

Benefit and Retirement Programs

General. Our Named Executive Officers are eligible to participate in benefits plans that are available to substantially all of our employees, including participation in our Retirement & Savings Plan (401(k) plan), medical insurance, dental insurance, life insurance, and disability insurance programs. In addition to the benefit plans available to substantially all of our employees, we offer certain additional benefits to our executive officers and, where applicable, other senior officers. We believe these additional benefits are consistent with our overall compensation philosophy and designed to ensure that we can effectively retain our executives (including the Named Executive Officers) and compete for new executive talent. These additional benefits consist of the following:

Executive Life Insurance. All of the Named Executive Officers except for the Chairman Asia, who is ineligible, are eligible to participate in an Executive Life Insurance plan on an annual basis. This

Edgar Filing: AECOM TECHNOLOGY CORP - Form DEF 14A

plan is in addition to the basic life insurance program which is open to a large majority of AECOM employees. The Executive Life Insurance plan provides up to an additional \$800,000 in coverage.

Executive Medical Insurance. Our Named Executive Officers except for the Chairman Asia, who is ineligible, are eligible to participate in an Executive Medical Insurance plan on an annual basis. This plan is in addition to the basic medical insurance programs that are open to most AECOM employees. The Executive Medical Insurance plan provides up to 100% reimbursement for certain medical expenses up to \$75,000 per calendar year. This plan is frozen to new participants.

Executive Allowance. Our Named Executive Officers also receive an executive allowance, ranging from \$20,000 to \$40,000 annually, which may be used in their discretion.

AECOM Pension Plan. The AECOM Pension Plan is a defined benefit plan that was adopted in September 1990. Participation in the AECOM Pension Plan was closed to new entrants effective April 1, 1998. Of our Named Executive Officers, only our CEO, Chairman and Vice Chairman were employees as of April 1, 1998 and are eligible to receive a retirement pension benefit under the Pension Plan.

We have generally replaced the AECOM Pension Plan with a 401(k) pension component of our Retirement & Savings Plan ("RSP"). Employees are allowed to make pre-tax or after-tax contributions of up to 6% of their compensation to this 401(k) pension component, and AECOM makes a matching contribution equal to 50% of the employees' contributions (maximum 3% of compensation). In addition, employees have the ability to make supplemental pre-tax or after-tax contributions of an additional 1% to 25% of their compensation to the RSP which is not matched with company contributions.

Because highly compensated employees may be disqualified from fully participating in the RSP, we have established our non-qualified Deferred Compensation Plan to enable those highly compensated employees to defer compensation that they might otherwise have contributed to the RSP.

AECOM Management Supplemental Executive Retirement Plan (MSERP). The Company amended the AECOM Pension Plan, effective July 1, 1998, to provide that participants including Named Executive Officers (our CEO, Chairman and Vice Chairman), earning benefits under the AECOM Pension Plan would instead earn identical benefits under a plan known as the Management Supplemental Executive Retirement Plan, or MSERP. The MSERP replaces and provides benefits identical in nature to the AECOM Pension Plan but on an unfunded basis.

AECOM Supplemental Executive Retirement Plans (92 SERP and 96 SERP). In October 1992 we established the unfunded Supplemental Executive Retirement Plan, or 92 SERP, and in July 1996 we established the unfunded Supplemental Executive Retirement Plan, or 96 SERP, in order to provide some of our U.S. resident executive officers with pre-retirement death benefits and retirement benefits consistent with the level provided by the previous AECOM Pension Plan formula. These Supplemental Executive Retirement Plans require a participant to have reached the minimum age of 50 and to have worked at AECOM for at least five years. The plans also include early retirement provisions at age 62 with full retirement benefits.

Of our Named Executive Officers, only our CEO is eligible to receive any benefits from the 92 SERP and only our Vice Chairman is eligible to receive any benefits from the 96 SERP.

AECOM Excess Benefit Plan. In July of 1996 we established the AECOM Excess Benefit Plan for participants in the Supplemental Executive Retirement Plans in order to provide only those benefits which the AECOM Pension Plan cannot provide due to federal tax limits. Benefits from the Excess Benefit Plan are unfunded and will reduce, dollar-for-dollar, the pension benefit paid by the Supplemental Executive Retirement Plans.

Employment Agreements, Severance Benefits and Change in Control Provisions

Except for our Vice Chairman, we do not have any employment agreements in effect with any of our Named Executive Officers. We entered into an employment agreement with our Vice Chairman in connection with his joining us upon our acquisition of TCB Inc. The employment agreement provides for a severance payment equal to 12 months base salary for termination of employment by the Company without cause or by "Constructive Discharge," such as a material reduction in job duties or a required relocation without consent.

Stock Ownership Guidelines

Although not in effect for fiscal year 2008, the Compensation and Organization Committee adopted executive and director stock ownership guidelines in December 2008. These guidelines were adopted to provide another basis for aligning the interests of our Named Executive Officers with our stockholders, by ensuring our senior officers maintain a personal equity investment in AECOM. Based on recommendations from our independent compensation consultant, our Chairman and CEO must maintain ownership of AECOM stock at the lesser of five times base salary or 165,000 shares and the other Named Executive Officers at the lesser of three times base salary or 40,000 shares. Shares owned directly and indirectly, deferred stock units, unvested PEP units and other restricted stock units and vested stock options and shares are counted toward the guidelines. All share amounts that are pre-tax are reduced in value under the guidelines by forty percent to cover expected tax withholding. Executives have five years to comply with the guidelines. All of our Named Executive Officers currently significantly exceed the stock ownership requirements contained in the guidelines. Please see Stock Ownership Guidelines in the Corporate Governance Section on page 12 for a discussion of the director stock ownership guidelines.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits a company's federal tax deduction on compensation paid in excess of \$1 million a year to the Chief Executive Officer and the other Named Executive Officers. The IRS' limitation does not apply to compensation that qualifies as "performance-based" under federal tax law. In addition, transition rules exempt certain compensation paid under plans in existence before our initial public offering. Our policy is to structure, to the extent practicable, compensation arrangements with our executive officers to be fully deductible under federal tax law unless the benefit of such deductibility is outweighed by our corporate objectives.

We will continue to monitor the deductibility of executive compensation pursuant to Section 162(m) and will take appropriate action if and when it is warranted. Since corporate objectives may not always be consistent with the requirements for full deductibility, we are prepared, when appropriate, to enter into compensation arrangements under which payments may not be deductible under Section 162(m). Thus, deductibility will not be the sole factor used in ascertaining appropriate levels or modes of compensation.

**REPORT OF THE COMPENSATION AND ORGANIZATION COMMITTEE OF

The Compensation and Organization Committee has reviewed and discussed with management the Compensation Discussion and Analysis and, based on such review and discussions, recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's Annual Report on Form 10-K and this Proxy Statement.

- (1) Includes deferrals to qualified defined contribution and non-qualified deferred compensation plans. For more information regarding amounts deferred into the non-qualified deferred compensation plan, please refer to the Nonqualified Deferred Compensation Table. 2008 compensation amounts are for a 53-week fiscal year.
- (2) 2008 bonus amounts include the FY2008 incentive compensation bonus amounts paid in December 2008 and all cash bonuses accrued and paid in FY2008 excluding incentive compensation paid in December 2007 since such amounts were accrued in FY2007 and included in the FY2007 bonus amounts.

Each participant in the PEP was awarded a specific number of target units that will be earned by the participant throughout a three-year performance period based on a formula that will include two categories of performance for AECOM (refer to the long-term incentive awards section of the "Compensation Discussion & Analysis" section in this proxy statement for more details regarding this program). The future value of these PEP grants is dependent upon the performance of the Company.
- The amounts in this column are based on the dollar amounts that AECOM recognized as a compensation expense in FY2008 for the 2006 PEP, 2007 PEP and 2008 PEP awards under Statement of Financial Accounting Standards 123R. The Outstanding Equity Awards at Fiscal Year-End and Option Exercises and Stock Vested tables include additional information with respect to all awards outstanding as of September 30, 2008.

- (7) Mr. Burke received options to purchase 20,000 shares of AECOM common stock granted on October 3, 2005 with an exercise price of \$12.405 per share. This award is valued at a Black-Scholes value of \$4.685 per share option as of the grant date. This Black-Scholes valuation includes the following assumptions: Time to Expiration of 7 years, which matches the life of the option as AECOM has historically not experienced early exercise of options by our executives; Risk Factor Rate of 4.31%, which is the market yield on U.S. Treasury securities at 7-year constant maturity as of October 3, 2005; and Volatility of 0.25, which considers volatility of publicly traded comparable company stocks as of the valuation date.

- (1) Each Named Executive Officer was awarded a specific number of target PEP units that may be earned during a three-year performance period based upon company performance (refer to the long-term incentive awards section of the "Compensation Discussion & Analysis" section in this proxy statement for more details regarding this program). The future value of these PEP awards is dependent upon the performance of the Company.
- (2) The target for the 2008 PEP awards was 100% of the granted PEP units. The maximum for the 2008 PEP awards was 120% of the granted PEP units. The amounts in this column are based upon the number of 2008 PEP units granted multiplied by an expected achievement percentage of 100% in accordance with our financial plan estimates, valued at the November 28, 2007 AECOM common stock price of \$27.55 per share.
- The 2008 PEP units will vest on December 31 following the close of the three year performance period (i.e. December 31, 2010).

The above table reflects amounts of awards under our PEP, which generally vest following the close of a three-year performance period and are settled by the delivery of one share of common stock for each PEP unit earned. Each Named Executive Officer must be an active employee at the time the PEP unit is vested or the Named Executive Officer forfeits the PEP award, although exceptions may be made by the Compensation and Organization Committee, including exceptions for retirement, death or disablement. At

the end of the three-year performance period, the final amount of PEP units that are earned by each Named Executive Officer will be determined based on achievement of the performance criteria. Beginning in 2007, the PEP awards have a deferred compensation-election feature that allows recipients of PEP awards to defer settlement of such awards to the extent permitted under regulatory statutes.

Messrs. Burke and Bong are not eligible to participate in any of the AECOM Pension Plans.

- (1) Amounts in this column are computed using the projected unit credit method reflecting average salary and service as of fiscal year end 2008. The material assumptions, except the retirement assumption, used to determine these liabilities can be located in note 12 to our consolidated financial statements included in our annual report on Form 10-K for the fiscal year ended September 30, 2008. The retirement assumption was based on the respective plans' normal retirement age.

AECOM Technology Corporation Pension Plan The plan's benefit formula is integrated with Social Security benefits and is based on the participant's years of service for the Company and "Final Average Compensation" as described at the end of this paragraph. Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994, and ending December 31, 2003. Final Average Compensation is further limited to the applicable Internal Revenue Code Section 401(a)(17) limit. The plan benefit is limited to the applicable Internal Revenue Code Section 415(b) limit. Only employees hired before April 1, 1998, are eligible to participate in the plan. In addition, eligibility for the plan occurs no later than the completion of one year of service. Early retirement age is the first day of any month after age 55, provided the participant has earned five years of service. Final Average Compensation includes, as applicable, participant's salary, sick pay, overtime pay, shift premiums, contract completion bonuses, incentive compensation bonuses, severance pay paid within 30 days of termination of employment, vacation pay, pre-tax contributions made on the participant's behalf to an Internal Revenue Code Section 125 cafeteria plan and pre-tax contributions to the Retirement and Savings Plan under Internal Revenue Code Section 401(k).

Depending on the participant's years of service to AECOM, the pension benefits will range from 26% to 30.5% of the employee's final average monthly compensation plus an additional 11% to 12.5% of the employee's final average monthly compensation in excess of specified Social Security base amounts. The

final average monthly compensation was capped as of April 1, 2004, at the employee's highest monthly compensation (including incentive compensation) during one full calendar year from 1994 through 2003. If the employee's final average monthly compensation as of April 1, 2004, was lower than the cap, the employee's final monthly average compensation will continue to increase each month until the participant's average monthly compensation reaches the compensation cap. Pension benefits will generally be reduced for participants with less than 25 years of service as required by plan rules. Employee contributions to the Pension Plan of up to 1.5% of compensation were required prior to April 1, 1998.

AECOM Technology Corporation Management Supplemental Executive Retirement Plan (MSERP) The plan's benefit formula is integrated with Social Security benefits and is based on the participant's years of service for the Company and Final Average Compensation. Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994, and ending December 31, 2003. Compensation is further limited to the applicable Internal Revenue Code Section 401(a)(17) limit. The plan benefit is limited to the applicable Internal Revenue Code Section 415(b) limit. The participant's benefit under this plan is equal to the total benefit that the participant would have received under the AECOM Technology Corporation Pension Plan if the participant had not met the eligibility requirement of (b) in the paragraph below minus the benefit payable to the participant under the AECOM Technology Corporation Pension Plan.

Only employees hired before April 1, 1998, are eligible to participate in the plan. Eligibility to participate in the plan is provided to an employee who (a) is a member of a select group of management or highly compensated employees, (b) has ceased to participate in the AECOM Pension Plan because the employee is an officer and is eligible to receive incentive compensation under the AECOM Technology Corporation Incentive Compensation Plan, and (c) has been selected to participate in the plan by the Compensation and Organization Committee. Early retirement age is the first day of any month after age 55, provided the participant has earned five years of service. Compensation is the participant's salary, plus, as applicable, sick pay, overtime pay, shift premiums, contract completion bonuses, incentive compensation bonuses, severance pay paid within 30 days of termination of employment, vacation pay, pre-tax contributions made on the participant's behalf to a Internal Revenue Code Section 125 cafeteria plan and pre-tax contributions to the Retirement and Savings Plan under Internal Revenue Code Section 401(k).

The benefits of each employee who participated in the AECOM Pension Plan or MSERP are reduced by the actuarial estimate of the equivalent of a hypothetical account balance, calculated to be what the employee would have in his or her 401(k) pension component from April 1, 1998, until the employee's retirement if 3% (less for certain long-service employees) had been contributed every year and the 401(k) contributions had remained invested in a benchmark fund, which mirrors the AECOM Pension Plan investments. At termination, participants have a one-time opportunity to restore this reduction by transferring from their 401(k) account to the AECOM Pension Plan an amount equal to the hypothetical account balance.

1992 AECOM Technology Corporation Supplemental Executive Retirement Plan The plan's benefit formula is integrated with Social Security and is based on the participant's years of service for the Company and Final Average Compensation. Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994, and ending December 31, 2003. The participant's benefit under this plan is equal to the total benefit that the participant would have received under the DMJM Pension Plan if the participant was not limited by compensation maximums and age-related distribution rules minus the benefit payable to the participant under the MSERP and the AECOM Technology Corporation Pension Plan.

Only employees hired before April 1, 1998, are eligible to participate in the plan. Eligibility to participate in the plan is provided to an employee who (a) is a member of a select group of management or

highly compensated employees, (b) has completed at least five years of service, (c) is at least 50 years old and (d) has been selected to participate in the plan by the Board of Directors. Early retirement age is the first day of any month after age 55, provided the participant has earned three years of service. Compensation is the participant's salary, plus sick pay, overtime pay, shift premiums, contract completion bonuses, incentive compensation bonuses, severance pay paid within 30 days of termination of employment, vacation pay, pre-tax contributions made on the participant's behalf to a Internal Revenue Code Section 125 cafeteria plan and pre-tax contributions to the Retirement and Savings Plan under Internal Revenue Code Section 401(k).

1996 AECOM Technology Corporation Supplemental Executive Retirement Plan The plan's benefit formula is integrated with Social Security and is based on the participant's years of service for the Company and Final Average Compensation. Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994, and ending December 31, 2003. The participant's benefit under this plan is equal to the total benefit that the participant would have received under the AECOM Technology Corporation Pension Plan if the participant was not limited by compensation maximums, age-related and annuity distribution rules, and eligibility exclusions minus the benefit payable to the participant under the MSERP and the AECOM Technology Corporation Pension Plan.

Only employees hired before April 1, 1998, are eligible to participate in the plan. Eligibility to participate in the plan is provided to an employee who (a) is a member of a select group of management or highly compensated employees, (b) has completed at least five years of service, (c) is at least 50 years old, (d) has a date of hire on or after March 1, 1996, and (e) has been selected to participate in the plan by the Board of Directors. Early retirement age is the first day of any month after age 55, provided the participant has earned three years of service. Compensation is the participant's salary, plus sick pay, overtime pay, shift premiums, contract completion bonuses, incentive compensation bonuses, severance pay paid within 30 days of termination of employment, vacation pay, pre-tax contributions made on the participant's behalf to a Internal Revenue Code Section 125 cafeteria plan and pre-tax contributions to the Retirement and Savings Plan under Internal Revenue Code Section 401(k).

Mr. Bong is not eligible to participate in the DCP.

(1) Consists of FY2008 employee contributions to the DCP.

Edgar Filing: AECOM TECHNOLOGY CORP - Form DEF 14A

- (2) Consists of FY2008 Company match contributions to the DCP. The values in this column are also included in the All Other Compensation column of the Summary Compensation Table.
- (3) This is the difference in the DCP beginning balance as of October 1, 2007 and the DCP ending balance as of September 30, 2008, less any activity in the plan during the 2008 fiscal year. The values in this column are not represented in the Summary Compensation Table.
- (4) Consists of DCP Company match stock units that were sold in FY2008 to cover the taxes on the DCP company match earned in calendar year 2007.
- (5) September 30, 2008, DCP ending balance.

For FY2008, participants were allowed to defer the same type of compensation into the DCP as are allowed to be deferred into the RSP: up to 50% of base salary and 100% of any bonus. Contributions are credited to the participant's account under the DCP as a number of common stock units based on the fair market value of the Company's common stock, as determined by the current AECOM common stock price. For FY2008, participants in the DCP were provided a 10% company match, credited in the form of additional common stock units on all contributions to the AECOM stock fund in the plan; the match is 100% vested after three years of service with the Company.

In December 2007, all DCP participants were provided with a one-time opportunity to make a change to their distribution election for their DCP balance as of December 31, 2007. The distribution options are as follows: 1) a single lump-sum distribution paid six months following the end of the quarter in which termination of employment occurs or 2) 2 to 15 annual installments with the first installment occurring six months following the end of the quarter in which termination of employment occurs and all future installments paid annually in January. For any deferrals into the DCP after December 31, 2007, participants can make in-service withdrawals and termination distributions elections. In-service withdrawals options are single lump sum payment or 2 to 5 annual installments. Distribution options at termination are single lump sum payment or 2 to 15 annual installments.

Payments and Benefits upon Termination or Change in Control

Payments and benefits that would be provided to each Named Executive Officer in addition to those received by all employees (such as 401(k) and paid time off) as a result of certain termination events are set forth in the tables below. The amounts shown assume termination of employment effective as of September 30, 2008.

No Named Executive Officer has an employment agreement that provides for termination severance or change in control, with the exception of Mr. Royer. The employment agreement with Mr. Royer provides for a severance payment equal to twelve (12) months base salary for termination of employment by the Company without cause or by "Constructive Discharge," such as a material reduction in job duties or a required relocation without consent.

Pursuant to the terms of each of the PEP ("Long-Term Incentives" in the tables below) held by our Named Executive Officers, upon the date of a termination of the executive's employment as a result of death or Total and Permanent Disablement, the unvested awards will vest on a pro-rata basis. Total and Permanent Disablement means the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than twelve (12) months. Prorata vesting is calculated as the percentage where the denominator is the number of months in the performance cycle of the relevant award and the numerator is the number of whole months from the beginning date of the performance cycle through the date of the executive's termination.

Mr. Burke is eligible for Long-Term Incentives upon Death or Total and Permanent Disability in the amount \$2,099,535. Long-Term Incentives include PEP06, PEP07 and PEP08 awards. The valuation is based on the AECOM common stock price as of September 30, 2008 which was \$24.44 per share.

Incorporation by Reference

In our filings with the Securities and Exchange Commission, information is sometimes "incorporated by reference." This means that we are referring you to information that has previously been filed with the Securities and Exchange Commission, which information should be considered as part of the filing that you are reading. Our Annual Report on Form 10-K, as amended, filed with the Securities and Exchange Commission on December 1, 2008 is incorporated by reference herein. Based on Securities and Exchange Commission regulations, the reports of the Compensation and Organization Committee and Audit Committee, on pages 22 and 37, respectively, are not specifically incorporated by reference into any other filings that we make with the Securities and Exchange Commission. This proxy statement is sent to you as part of the proxy materials for the 2009 Annual Meeting. You may not consider this proxy statement as material for soliciting the purchase or sale of our common stock.

Information About the Notice of Internet Availability of Proxy Materials

This year, instead of mailing a printed copy of our proxy materials, including our 2008 Annual Report on Form 10-K ("2008 Annual Report"), to each stockholder of record, we have decided to provide access to these materials in an efficient manner via the Internet. This reduces the amount of paper necessary to produce these materials, as well as the costs associated with mailing these materials to all stockholders. Accordingly, on January 23, 2009, we began mailing a Notice of Internet Availability of Proxy Materials (the "Notice") to all stockholders of record as of January 5, 2009, and posted our proxy materials on the Web site referenced in the Notice (www.investorvote.com). As more fully described in the Notice, all stockholders may choose to access our proxy materials on the Web site referred to in the Notice or may request to receive a printed set of our proxy materials. In addition, the Notice and Web site provide information regarding how you may request to receive proxy materials in printed form by mail or electronically by e-mail on an ongoing basis.

Printed copies of our 2008 Annual Report are available upon request without charge by calling Investors Relations at (212) 973-2982, by writing to AECOM Technology Corporation, 555 South Flower

Street, Suite 3700, Los Angeles, California 90071, Attention: Corporate Secretary, or requesting online through the Information Request page in the "Investors" section of our Web site: www.aecom.com.

Stockholder Proposals

2009 Annual Meeting Proposals

If a proponent of a proposal for the 2009 Annual Meeting fails to notify us within a reasonable time of such proposal before we mail proxy statements for the 2009 Annual Meeting, then we will be allowed to use our discretionary voting authority under proxies solicited by the Board of Directors when the proposal is raised at the meeting, without any discussion of the matter in the proxy statement. We were not notified of any stockholder proposals to be made at our upcoming 2009 Annual Meeting, and will therefore be allowed to use our discretionary voting authority if any stockholder proposals are raised at the 2009 Annual Meeting.

2010 Annual Meeting Proposals

Stockholders who wish to have proposals considered for inclusion in the proxy statement and form of proxy for our 2010 Annual Meeting of Stockholders pursuant to Rule 14a-8 under the Exchange Act must cause their proposals to be received in writing by our Corporate Secretary at the address set forth on the first page of this proxy statement no later than September 25, 2009. Any proposal should be addressed to our Corporate Secretary and may be included in next year's proxy materials only if such proposal complies with our Bylaws and the rules and regulations promulgated by the Securities and Exchange Commission. Nothing in this section shall be deemed to require us to include in our proxy statement or our proxy relating to any annual meeting any stockholder proposal that does not meet all of the requirements for inclusion established by the Securities and Exchange Commission.

In addition, the Company's Bylaws require that the Company be given advance written notice of nominations for election to the Company's Board of Directors and other matters which stockholders wish to present for action at an annual meeting of stockholders (other than matters included in the Company's proxy materials in accordance with Rule 14a-8(e) under the Exchange Act). The Corporate Secretary must receive such notice at the address set forth in the Introduction not less than 60 days nor more than 90 days in advance of such meeting. However, in the event that less than 70 days' notice of the date of meeting is given, then a proposal will be deemed timely if received by the Corporate Secretary by the close of business on the tenth business day following the day on which the notice of the stockholder meeting was mailed or public disclosure of such meeting was made. If timely notice is not received by the Company, then the Company may exercise discretionary voting authority under proxies it solicits to vote in accordance with its best judgment on any such stockholder proposal or nomination.

Other Matters

Our Board of Directors knows of no other matters that will be presented for consideration at the 2009 Annual Meeting. If any other matters are properly brought before the 2009 Annual Meeting, it is the intention of the persons named in the accompanying proxy to vote on such matters in accordance with their best judgment. It is important that the proxies be returned promptly and that your shares be represented. Stockholders are urged to mark, date, execute and promptly return the accompanying proxy card.

By order of the Board of Directors,
Christina Ching
Corporate Secretary

Los Angeles, California
January 23, 2009
