QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF  
THE SECURITIES EXCHANGE ACT OF 1934

**For the quarterly period ended March 31, 2007**

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF  
THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 1-14303

---

**AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.**  
(Exact Name of Registrant as Specified in Its Charter)

**Delaware** **36-3161171**  
(State or Other Jurisdiction of Incorporation or (I.R.S. Employer Identification No.)  
Organization)

**One Dauch Drive, Detroit, Michigan** **48211-1198**  
(Address of Principal Executive Offices) (Zip Code)

**(313) 758-2000**  
(Registrant's Telephone Number, Including Area Code)

---

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer  Accelerated filer  Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

As of April 25, 2007, the latest practicable date, the number of shares of the registrant's Common Stock, par value \$0.01 per share, outstanding was 53,010,058 shares.

**Internet Website Access to Reports**

The website for American Axle & Manufacturing Holdings, Inc. is [www.aam.com](http://www.aam.com). Our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13 or 15(d) of the Exchange Act are available free of charge through our website as soon as reasonably practicable after they are electronically filed with, or furnished to, the Securities and Exchange Commission. The Securities and Exchange Commission also maintains a website at [www.sec.gov](http://www.sec.gov) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

**CAUTIONARY STATEMENTS**

Certain statements in this Quarterly Report on Form 10-Q (Quarterly Report) are forward-looking in nature and relate to trends and events that may affect our future financial position and operating results. Such statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. The terms “will,” “expect,” “anticipate,” “intend,” “project” and similar words or expressions are intended to identify forward-looking statements. These statements speak only as of the date of this Quarterly Report. The statements are based on our current expectations, are inherently uncertain, are subject to risks and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors, including, but not limited to:

- reduced purchases of our products by General Motors Corporation (GM), DaimlerChrysler Corporation (DaimlerChrysler) or other customers;
- reduced demand for our customers’ products (particularly light trucks and SUVs produced by GM and DaimlerChrysler);
  - our ability and our suppliers’ ability to maintain satisfactory labor relations and avoid work stoppages;
  - our customers’ and their suppliers’ ability to maintain satisfactory labor relations and avoid work stoppages;
    - our ability to achieve cost reductions through ongoing restructuring actions;
      - additional restructuring actions that may occur;
    - our ability to achieve the level of cost reductions required to sustain global cost competitiveness;
      - supply shortages or price increases in raw materials, utilities or other operating supplies;
- our ability and our customers’ and suppliers’ ability to successfully launch new product programs on a timely basis;
  - our ability to attract new customers and programs for new products;
  - our ability to develop and produce new products that reflect market demand;
  - our ability to respond to changes in technology or increased competition;
- adverse changes in laws, government regulations or market conditions including increases in fuel prices affecting our products or our customers’ products (including the Corporate Average Fuel Economy regulations);
- adverse changes in the economic conditions or political stability of our principal markets (particularly North America, Europe, South America and Asia);
- liabilities arising from legal proceedings to which we are or may become a party or claims against us or our products;
- risks of noncompliance with environmental regulations or risks of environmental issues that could result in unforeseen costs at our facilities;
- availability of financing for working capital, capital expenditures, R&D or other general corporate purposes, including our ability to comply with financial covenants;

- our ability to attract and retain key associates;
- other unanticipated events and conditions that may hinder our ability to compete.

It is not possible to foresee or identify all such factors and we make no commitment to update any forward-looking statement or to disclose any facts, events or circumstances after the date hereof that may affect the accuracy of any forward-looking statement.

**AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**  
**March 31, 2007**

**1. ORGANIZATION AND BASIS OF PRESENTATION**

**Organization** American Axle & Manufacturing Holdings, Inc. (Holdings) and its subsidiaries (collectively, we, our, us or AAM) is a premier Tier I supplier to the automotive industry and a worldwide leader in the manufacture, engineering, design and validation of driveline and drivetrain systems and related components and chassis modules for light trucks, sport utility vehicles (SUVs), passenger cars and crossover vehicles. Driveline and drivetrain systems include components that transfer power from the transmission and deliver it to the drive wheels. Our driveline, drivetrain and related products include axles, chassis modules, driveshafts, power transfer units, transfer cases, chassis and steering components, driving heads, crankshafts, transmission parts and metal-formed products. In addition to locations in the United States (U.S.) (Michigan, New York and Ohio), we have offices or facilities in Brazil, China, England, Germany, India, Japan, Luxembourg, Mexico, Poland, Scotland and South Korea.

**Basis of Presentation** We have prepared the accompanying interim condensed consolidated financial statements in accordance with the instructions to Form 10-Q under the Securities Exchange Act of 1934. These condensed consolidated financial statements are unaudited but include all adjustments which we consider necessary for a fair presentation of the information set forth herein. Results of operations for the periods presented are not necessarily indicative of the results for the full fiscal year.

The balance sheet at December 31, 2006 presented herein has been derived from the audited consolidated financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete consolidated financial statements.

In order to prepare the accompanying interim condensed consolidated financial statements, we are required to make estimates and assumptions that affect the reported amounts and disclosures in our interim condensed consolidated financial statements. Actual results could differ from those estimates.

For further information, refer to the audited consolidated financial statements and notes included in our Annual Report on Form 10-K for the year ended December 31, 2006.

**Effect of New Accounting Standards** In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "*Accounting for Uncertainty in Income Taxes*" (FIN 48). FIN 48 clarifies the criteria for recognition of income tax benefits in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, "*Accounting for Income Taxes*." We adopted FIN 48 on January 1, 2007 and the impact of adoption was not material.

In September 2006, the FASB issued Statement No. 157, "*Fair Value Measurements*" (SFAS 157). This statement clarifies the definition of fair value and establishes a fair value hierarchy. SFAS 157 is effective for us on January 1, 2008 and we are currently assessing the impact of this statement.

In February 2007, the FASB issued Statement No. 159, "*The Fair Value Option for Financial Assets and Financial Liabilities*" (SFAS 159). This statement permits entities to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS 159 is effective for us on January 1, 2008 and we are currently assessing the impact of this statement.

[table of contents](#)

**AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

**2. RESTRUCTURING ACTIONS AND POSTEMPLOYMENT BENEFITS**

In 2006, we took certain restructuring actions to realign and resize our production capacity and cost structure. As part of these actions, we incurred charges for one-time termination benefits. At December 31, 2006, our liability related to these benefits was \$36.4 million.

A summary of the restructuring related activity for the three months ended March 31, 2007 is shown below (in millions):

Accrual as of December 31, 2006	Charges	Cash Utilization	Non-Cash Accrual Adjustments	Accrual as of March 31, 2007
<b>\$ 36.4</b>	<b>\$ 3.0</b>	<b>\$ (19.5)</b>	<b>\$ (0.4)</b>	<b>\$ 19.5</b>

In the first quarter of 2007, 36 associates represented by the International Association of Machinists (IAM) at our Tonawanda, New York facility participated in a voluntary separation incentive program. We recorded expense of \$2.4 million for the estimated postemployment costs of this program and we paid \$0.3 million of these costs in the first quarter of 2007. The remaining restructuring charges recorded in the first quarter of 2007 related to service earned in the period for estimated future transition payments to certain salaried associates who will terminate employment on or around December 31, 2007. We expect a majority of the remaining accrual to be paid in 2007 and will continue to make payments related to these restructuring actions through 2010.

In addition to these restructuring actions, we recorded a charge in 2006 related to supplemental unemployment benefits (SUB) estimated to be payable to UAW represented associates who are expected to be permanently idled through the end of the current collective bargaining agreement that expires in February 2008. The collective bargaining agreement between AAM and the UAW contains a SUB provision, pursuant to which we are required to pay eligible idled workers certain benefits. In the first quarter of 2007, we paid \$3.1 million of SUB to workers deemed to be permanently idled and adjusted our accrual to reflect our current estimate of SUB costs to be paid to these workers through February 2008. At March 31, 2007, the accrual for SUB was \$11.3 million.

**3. INVENTORIES**

We state our inventories at the lower of cost or market. The cost of our U.S. inventories is determined principally using the last-in, first-out method (LIFO). The cost of our foreign and indirect inventories is determined principally using the first-in, first-out method (FIFO). We classify indirect inventories, which include perishable tooling, machine repair parts and other materials consumed in the manufacturing process but not incorporated into our finished products, as raw materials. When we determine that our gross inventories exceed usage requirements, or if inventories become obsolete or otherwise not saleable, we record a provision for such loss as a component of our inventory accounts.

Inventories consist of the following:

	<b>March 31,</b>	<b>December 31,</b>
	<b>2007</b>	<b>2006</b>
	<i>(in millions)</i>	
Raw materials and work-in-progress	\$ 235.7	\$ 220.6
Finished goods	33.6	26.3
Gross inventories	269.3	246.9
LIFO reserve	(14.4)	(13.8)
Other inventory valuation reserves	(38.5)	(34.7)
Inventories, net	\$ 216.4	\$ 198.4

[table of contents](#)

**AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

**4. LONG-TERM DEBT**

Long-term debt consists of the following:

	<b>March 31,</b>	<b>December 31,</b>
	<b>2007</b>	<b>2006</b>
	<i>(in millions)</i>	
Revolving Credit Facility	\$ -	\$ 100.0
7.875% Notes	<b>300.0</b>	-
5.25% Notes, net of discount	<b>249.8</b>	249.8
2.00% Convertible Notes	<b>2.7</b>	2.7
Term Loan	<b>250.0</b>	250.0
Uncommitted lines of credit	-	33.5
Foreign credit facilities and other	<b>37.5</b>	33.7
Capital lease obligations	<b>2.4</b>	2.5
Long-term debt	<b>\$ 842.4</b>	<b>\$ 672.2</b>

The Revolving Credit Facility provides up to \$600.0 million of revolving bank financing commitments through April 2010 and bears interest at rates based on LIBOR or an alternate base rate, plus an applicable margin. At March 31, 2007, we had \$570.2 million available under the Revolving Credit Facility. This availability reflects a reduction of \$29.8 million for standby letters of credit issued against the facility.

The Revolving Credit Facility provides back-up liquidity for our foreign credit facilities and uncommitted lines of credit. We intend to use the availability of long-term financing under the Revolving Credit Facility to refinance any current maturities related to such debt agreements that are not otherwise refinanced on a long-term basis in their respective markets. Accordingly, we have classified such amounts as long-term debt.

In the first quarter of 2007, we issued \$300.0 million of 7.875% senior unsecured notes due 2017 (7.875% Notes). The 7.875% Notes are senior unsecured obligations of American Axle & Manufacturing, Inc. (AAM, Inc.) and are fully and unconditionally guaranteed by Holdings. Net proceeds from these notes will be used for general purposes, including repaying amounts outstanding under our Revolving Credit Facility.

The 5.25% Notes are senior unsecured obligations of AAM, Inc. and are fully and unconditionally guaranteed by Holdings.

The 2.00% Convertible Notes are senior unsecured obligations of Holdings and are fully and unconditionally guaranteed by AAM, Inc. As of the date of this filing, these notes are convertible into cash at the option of the holder.

The Term Loan is an unsecured obligation that is guaranteed by Holdings. Borrowings under the Term Loan bear interest payable at rates based on LIBOR or an alternate base rate, plus an applicable margin. We have hedged a portion of the interest rate risk related to our Term Loan by entering into an interest rate swap with a notional amount of \$200.0 million. The notional amount reduces to \$100.0 million in 2008 and expires in April 2010. The interest rate swap converts variable rate financing based on 3-month LIBOR into fixed U.S. dollar rates.

In the first quarter of 2007, we had access to \$60.0 million of uncommitted bank lines of credit, all of which was available at March 31, 2007.

We utilize local currency credit facilities to finance the operations of certain foreign subsidiaries. At March 31, 2007, \$37.5 million was outstanding under these facilities and an additional \$80.2 million was available.

The weighted-average interest rate of our long-term debt outstanding at March 31, 2007 and December 31, 2006 was approximately 8.0%.

[table of contents](#)

**AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

**5. EMPLOYEE BENEFIT PLANS**

The components of net periodic benefit cost are as follows:

	<b>Pension Benefits</b>		<b>Other Postretirement Benefits</b>	
	<b>Three months ended</b>		<b>Three months ended</b>	
	<b>March 31,</b>		<b>March 31,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
<i>(in millions)</i>				
Service cost	\$ 6.1	\$ 8.4	\$ 6.4	\$ 10.3
Interest cost	8.6	8.4	6.8	8.0
Expected asset return	(9.5)	(7.9)	-	-
Amortized loss	0.4	1.3	-	1.4
Amortized prior service cost	0.6	0.8	(0.8)	(0.3)
Special termination benefits	0.2	-	-	-
Net periodic benefit cost	\$ 6.4	\$ 11.0	\$ 12.4	\$ 19.4

We adopted the measurement date provisions of FASB Statement No. 158, “*Employers Accounting for Defined Benefit Pension and Other Postretirement Plans*,” as of January 1, 2007, which requires companies to measure a plan’s assets and obligations that determine its funded status as of the end of the fiscal year. As a result of this adoption, we recorded a net transition adjustment of \$12.0 million to the opening retained earnings balance related to the net periodic benefit cost for the period between September 30, 2006 and January 1, 2007.

Our regulatory pension funding requirements in 2007 are less than \$5 million. We expect our cash outlay for other postretirement benefit obligations in 2007 to be between \$5 million and \$10 million.

**6. COMPREHENSIVE INCOME**

Comprehensive income consists of the following:

	<b>Three months ended</b>	
	<b>March 31,</b>	
	<b>2007</b>	<b>2006</b>
<i>(in millions)</i>		
Net income	\$ 15.4	\$ 8.6
Defined benefit plans, net of tax	0.3	-
Foreign currency translation adjustments, net of tax	3.7	5.1
Unrecognized loss on derivatives, net of tax	(0.6)	(0.3)
Comprehensive income	\$ 18.8	\$ 13.4

8

[table of contents](#)

**AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

**7. EARNINGS PER SHARE (EPS)**

The following table sets forth the computation of our basic and diluted EPS:

	Three months ended	
	March 31,	
	2007	2006
	<i>(in millions, except per share data)</i>	
<b>Numerator</b>		
Net income	\$ 15.4	\$ 8.6
<b>Denominator</b>		
Basic shares outstanding -		
Weighted-average shares outstanding	50.7	50.3
Effect of dilutive securities -		
Dilutive stock-based compensation	1.4	0.8
Diluted shares outstanding -		
Adjusted weighted-average shares after assumed conversions	52.1	51.1
Basic EPS	\$ 0.30	\$ 0.17
Diluted EPS	\$ 0.30	\$ 0.17

Certain exercisable stock options were excluded in the computations of diluted EPS because the exercise price of these options was greater than the average period market prices. The number of stock options outstanding, which were not included in the calculation of diluted EPS, was 4.6 million at March 31, 2007 and 4.7 million at March 31, 2006. The ranges of exercise prices related to the excluded exercisable stock options were \$23.73 - \$40.83 at March 31, 2007 and \$18.40 - \$40.83 at March 31, 2006.

**8. SHARE-BASED COMPENSATION**

On March 14, 2007, we granted approximately 0.3 million stock options under our 1999 Stock Incentive Plan to our executive officers. These options will be expensed over the expected vesting period, which is three years.

We estimated the fair value of our employee stock options on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	2007	2006
Expected volatility	44.26%	41.31%
Risk-free interest rate	4.46%	4.78%
Dividend yield	2.30%	3.70%
Expected life of option	8 years	7 years
Weighted average grant-date fair value	\$ 11.13	\$ 5.33

We also award performance accelerated restricted stock and restricted stock units (PARS and RSUs, respectively) under our 1999 Stock Incentive Plan. We granted approximately 0.8 million PARS and 0.1 million RSUs on March

14, 2007 with a grant-date fair value of \$26.02. The PARS and RSUs vest over three to five years contingent upon the satisfaction of future financial performance targets specified by the awards. The unearned compensation will be expensed over the expected vesting period.

#### **9. SUBSEQUENT EVENT**

In the first quarter of 2007, we offered a voluntary separation program to IAM represented hourly associates at our Detroit, Michigan facilities. We expect to record an estimated pre-tax charge ranging between \$5 million to \$6 million related to the participation in this program in the second quarter of 2007.

**AMERICAN AXLE & MANUFACTURING HOLDINGS, INC.**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (CONTINUED)**

**10. SUPPLEMENTAL GUARANTOR CONDENSED CONSOLIDATING FINANCIAL STATEMENTS**

Holdings has no significant assets other than its 100% ownership in AAM, Inc. and no direct subsidiaries other than AAM, Inc. Holdings fully and unconditionally guarantees the 5.25% Notes and 7.875% Notes, which are senior unsecured obligations of AAM, Inc. The 2.00% Convertible Notes are senior unsecured obligations of Holdings and are fully and unconditionally guaranteed by AAM, Inc.

The following Condensed Consolidating Financial Statements are included in lieu of providing separate financial statements for Holdings and AAM, Inc. These Condensed Consolidating Financial Statements are prepared under the equity method of accounting whereby the investments in subsidiaries are recorded at cost and adjusted for the parent's share of the subsidiaries' cumulative results of operations, capital contributions and distributions, and other equity changes.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis (MD&A) should be read in conjunction with the unaudited condensed consolidated financial statements and notes appearing elsewhere in this Quarterly Report and our Annual Report on Form 10-K for the year ended December 31, 2006.

Unless the context otherwise requires, references to "we," "our," "us" or "AAM" shall mean collectively (i) American Axle & Manufacturing Holdings, Inc. (Holdings), a Delaware corporation, and (ii) American Axle & Manufacturing, Inc. (AAM, Inc.), a Delaware corporation, and its direct and indirect subsidiaries. Holdings has no subsidiaries other than AAM, Inc.

### COMPANY OVERVIEW

We are a premier Tier I supplier to the automotive industry and a worldwide leader in the manufacture, engineering, design and validation of driveline and drivetrain systems and related components and chassis modules for light trucks, sport utility vehicles (SUVs), passenger cars and crossover vehicles. Driveline and drivetrain systems include components that transfer power from the transmission and deliver it to the drive wheels. Our driveline, drivetrain and related products include axles, chassis modules, driveshafts, power transfer units, transfer cases, chassis and steering components, driving heads, crankshafts, transmission parts and metal-formed products.

We are the principal supplier of driveline components to General Motors Corporation (GM) for its rear-wheel drive (RWD) light trucks and SUVs manufactured in North America, supplying substantially all of GM's rear axle and front four-wheel drive/all-wheel drive (4WD/AWD) axle requirements for these vehicle platforms. Sales to GM were approximately 80% of our total net sales in the first quarter of 2007 as compared to 76% for the full-year 2006.

We are the sole-source supplier to GM for certain axles and other driveline products for the life of each GM vehicle program covered by a Lifetime Program Contract (LPC). Substantially all of our sales to GM are made pursuant to the LPCs. The LPCs have terms equal to the lives of the relevant vehicle programs or their respective derivatives, which typically run 6 to 12 years, and require us to remain competitive with respect to technology, design and quality. We have been successful in competing, and we will continue to compete for future GM business upon the expiration of the LPCs.

We are also the principal supplier of driveline system products for the Chrysler Group's heavy-duty Dodge Ram full-size pickup trucks (Dodge Ram program) and its derivatives. As part of this program, we supply a fully integrated computer-controlled chassis system for the Dodge Ram Power Wagon. Sales to DaimlerChrysler Corporation (DaimlerChrysler) were approximately 10% of our total net sales in the first quarter of 2007 as compared to 14% for the full-year 2006.

In addition to GM and DaimlerChrysler, we supply driveline systems and other related components to PACCAR Inc., Ford Motor Company, SsangYong Motor Company, Harley-Davidson and other original equipment manufacturers (OEMs) and Tier I supplier companies such as The Timken Company, Jatco Ltd., Koyo Machine Industries Co., Ltd. and Hino Motors, Ltd. Our net sales to customers other than GM were \$160.0 million in the first quarter of 2007 as compared to \$203.6 million for the first quarter of 2006.

table of contents

**RESULTS OF OPERATIONS -- THREE MONTHS ENDED MARCH 31, 2007 AS COMPARED TO THREE MONTHS ENDED MARCH 31, 2006**

**Net Sales** Net sales were \$802.2 million in the first quarter of 2007 as compared to \$834.8 million in the first quarter of 2006. As compared to the first quarter of 2006, our sales in the first quarter of 2007 reflect a decrease of approximately 2% in production volumes for the major full-size truck and SUV programs we currently support for GM and DaimlerChrysler and a decrease of approximately 32% in products supporting GM's mid-size light truck and SUV programs.

Our content-per-vehicle (as measured by the dollar value of our products supporting GM's North American light truck platforms and the Dodge Ram program) increased 3.9% to \$1,252 in the first quarter of 2007 as compared to \$1,205 in the first quarter of 2006. The increase is due primarily to the impact of new AAM content appearing on GM's full-size pickup trucks. Our 4WD/AWD penetration rate was 63.9% in the first quarter of 2007 as compared to 62.6% in the first quarter of 2006.

**Gross Profit** Gross profit was \$84.8 million in the first quarter of 2007 as compared to \$63.5 million in the first quarter of 2006. Gross margin was 10.6% in the first quarter of 2007 as compared to 7.6% in the first quarter of 2006. The increase in gross profit in the first quarter of 2007 reflects the impact of productivity gains, purchased material cost savings and structural cost reductions resulting from the special attrition program and other restructuring actions initiated in 2006. In the first quarter of 2007, we expensed \$5.4 million of supplemental unemployment benefits and other related benefit costs for associates on layoff as compared to \$17.8 million in the first quarter of 2006. Gross profit in the first quarter of 2007 includes approximately \$2.9 million in special charges, primarily related to incremental attrition program activity. In addition, the increase in gross profit was partially offset by an increase in non-cash expenses related to depreciation and stock-based compensation.

**Selling, General and Administrative Expenses (SG&A)** SG&A (including research and development (R&D)) was \$48.9 million or 6.1% of net sales in the first quarter of 2007 as compared to \$48.4 million or 5.8% of net sales in the first quarter of 2006. R&D increased 4.1% to \$20.1 million in the first quarter of 2007 as compared to \$19.3 million in the first quarter of 2006.

**Operating Income** Operating income was \$35.9 million in the first quarter of 2007 as compared to \$15.1 million in the first quarter of 2006. Operating margin was 4.5% in the first quarter of 2007 as compared to 1.8% in the first quarter of 2006. The increases in operating income and operating margin were due to the factors discussed in Gross Profit and SG&A.

**Net Interest Expense** Net interest expense was \$14.0 million in the first quarter of 2007 as compared to \$7.4 million in the first quarter of 2006. The increase in interest expense was principally due to higher interest rates and higher average outstanding borrowings.

**Income Tax Expense** Income tax expense (benefit) was an expense of \$6.6 million in the first quarter of 2007 as compared to a benefit of \$0.3 million in the first quarter of 2006. Our effective income tax rate was an expense of 30.0% in the first quarter of 2007 as compared to a benefit of 3.6% in the first quarter of 2006. The effective tax rate in the first quarter of 2006 included a favorable tax adjustment of \$3.1 million related to the settlement of federal and state tax liabilities from prior years.

**Net Income and Earnings Per Share (EPS)** Net income was \$15.4 million in the first quarter of 2007 as compared to \$8.6 million in the first quarter of 2006. Diluted earnings per share were \$0.30 in the first quarter of 2007 as compared to \$0.17 in the first quarter of 2006. Net income and EPS for the first quarters of 2007 and 2006 were primarily impacted by the factors discussed in Gross Profit, SG&A and Net Interest Expense.

**Earnings Before Interest Expense, Income Taxes, Depreciation and Amortization (EBITDA)** EBITDA was \$93.0 million in the first quarter of 2007 as compared to \$65.1 million in the first quarter of 2006. EBITDA for the first quarters of 2007 and 2006 was primarily impacted by the factors discussed in Gross Profit and SG&A.

For an explanation and reconciliation of EBITDA, refer to the section entitled "Supplemental Financial Data."

14

---

[table of contents](#)

## LIQUIDITY AND CAPITAL RESOURCES

Our primary liquidity needs are to fund capital expenditures, debt service obligations, working capital investments and our quarterly cash dividend program. We believe that operating cash flow, available cash balances and borrowings under our Revolving Credit Facility will be sufficient to meet these needs.

**Operating Activities** Net cash provided by operating activities was \$9.8 million in the first quarter of 2007 as compared to \$7.0 million in the first quarter of 2006. This increase reflects higher net income, receipt of customer payments to implement customer capacity programs and lower tax payments, partially offset by \$19.5 million of cash payments related to attrition programs initiated in 2006 and 2007.

**Investing Activities** Capital expenditures were \$42.5 million in the first quarter of 2007 as compared to \$80.8 million in the first quarter of 2006. We expect our capital spending in 2007 to be in the range of \$225 million to \$230 million. These expenditures will support our realignment and resizing initiatives, the future launch of passenger car and crossover vehicle programs within our new business backlog and the continued development of our facilities in China and Poland.

**Net Operating Cash Flow and Free Cash Flow** For an explanation and reconciliation of net operating cash flow and free cash flow, refer to the section entitled "Supplemental Financial Data."

**Financing Activities** Net cash provided by financing activities was \$160.8 million in the first quarter of 2007 as compared to \$77.2 million in the first quarter of 2006. Total long-term debt outstanding increased \$170.2 million in the first quarter of 2007 to \$842.4 million as compared to \$672.2 million at year-end 2006. Our long-term debt normally increases in the first quarter of any given year to fund increased working capital requirements resulting from our customers' seasonal production requirements.

In the first quarter of 2007, we issued \$300.0 million of 7.875% senior unsecured notes due 2017 (7.875% Notes). The 7.875% Notes are senior unsecured obligations of AAM, Inc. and are fully and unconditionally guaranteed by Holdings. Net proceeds from these notes will be used for general purposes, including repaying amounts outstanding under our Revolving Credit Facility. We paid debt issuance costs of \$5.2 million in the first quarter of 2007 related to the 7.875% Notes.

At March 31, 2007, we had \$570.2 million available under the Revolving Credit Facility. This availability reflects a reduction of \$29.8 million for standby letters of credit issued against the facility. We also utilize foreign credit facilities and uncommitted lines of credit to finance working capital needs. At March 31, 2007, \$37.5 million was outstanding and \$140.2 million was available under such agreements.

The weighted-average interest rate of our long-term debt outstanding in the first quarter of 2007 was 8.2% as compared to 6.8% for the year ended December 31, 2006.

[table of contents](#)

## **CYCLICALITY AND SEASONALITY**

Our operations are cyclical because they are directly related to worldwide automotive production, which is itself cyclical and dependent on general economic conditions and other factors. Our business is also moderately seasonal as our major OEM customers historically have a two-week shutdown of operations in July and an approximate one-week shutdown in December. In addition, our OEM customers have historically incurred lower production rates in the third quarter as model changes enter production. Accordingly, our third quarter and fourth quarter results may reflect these trends.

## **LITIGATION AND ENVIRONMENTAL MATTERS**

We are involved in various legal proceedings incidental to our business. Although the outcome of these matters cannot be predicted with certainty, we do not believe that any of these matters, individually or in the aggregate, will have a material adverse effect on our financial condition, results of operations or cash flows.

We are subject to various federal, state, local and foreign environmental and occupational safety and health laws, regulations and ordinances, including those regulating air emissions, water discharge, waste management and environmental cleanup. We will continue to closely monitor our environmental conditions to ensure that we are in compliance with all laws, regulations and ordinances. GM has agreed to indemnify and hold us harmless against certain environmental conditions existing prior to our purchase of the assets from GM on March 1, 1994. GM's indemnification obligations terminated on March 1, 2004 with respect to any new claims that we may have against GM. We have made, and will continue to make, capital and other expenditures (including recurring administrative costs) to comply with environmental requirements. Such expenditures were not significant in the first quarter of 2007, and we do not expect such expenditures to be significant for the remainder of 2007.

## **EFFECT OF NEW ACCOUNTING STANDARDS**

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, "*Accounting for Uncertainty in Income Taxes*" (FIN 48). FIN 48 clarifies the criteria for recognition of income tax benefits in accordance with Statement of Financial Accounting Standards No. 109, "*Accounting for Income Taxes*." We adopted FIN 48 on January 1, 2007 and the impact of adoption was not significant.

In September 2006, the FASB issued Statement No. 158, "*Employers Accounting for Defined Benefit Pension and Other Postretirement Plans*" (SFAS 158). This statement amends FASB Statement Nos. 87, 88, 106 and 132R. We adopted the balance sheet recognition provisions of SFAS 158 on December 31, 2006. The effective date for plan assets and benefit obligations to be measured as of the date of the fiscal year-end statement of financial position is January 1, 2008. We elected to early adopt the measurement date provisions on January 1, 2007. As a result, we recorded a transition adjustment of \$12.0 million to the opening retained earnings balance related to the net periodic benefit cost for the period between September 30, 2006 and January 1, 2007.

In September 2006, the FASB issued Statement No. 157, "*Fair Value Measurements*" (SFAS 157). This statement clarifies the definition of fair value and establishes a fair value hierarchy. SFAS 157 is effective for us on January 1, 2008 and we are currently assessing the impact of this statement.

In February 2007, the FASB issued Statement No. 159, "*The Fair Value Option for Financial Assets and Financial Liabilities*" (SFAS 159). This statement permits entities to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS 159 is effective for us on January 1, 2008 and we are currently assessing the impact of this statement.

[table of contents](#)**SUPPLEMENTAL FINANCIAL DATA**

The following supplemental financial data presented for the three months ended March 31, 2007 and 2006 are reconciliations of non-GAAP financial measures, which are intended to facilitate analysis of our business and operating performance. This information is not and should not be viewed as a substitute for financial measures determined under GAAP. Other companies may calculate these non-GAAP financial measures differently.

**Earnings Before Interest Expense, Income Taxes, Depreciation and Amortization (EBITDA)**

	<b>Three months ended</b>	
	<b>March 31,</b>	
	<b>2007</b>	<b>2006</b>
	<i>(in millions)</i>	
Net income	\$ 15.4	\$ 8.6
Interest expense	14.6	7.4
Income taxes	6.6	(0.3)
Depreciation and amortization	56.4	49.4
EBITDA	\$ 93.0	\$ 65.1

We believe EBITDA is a meaningful measure of performance as it is commonly utilized by management and investors to analyze operating performance and entity valuation. Our management, the investment community and the banking institutions routinely use EBITDA, together with other measures, to measure our operating performance relative to other Tier I automotive suppliers. EBITDA should not be construed as income from operations, net income or cash flow from operating activities as determined under GAAP.

**Net Operating Cash Flow and Free Cash Flow**

	<b>Three months ended</b>	
	<b>March 31,</b>	
	<b>2007</b>	<b>2006</b>
	<i>(in millions)</i>	
Net cash provided by operating activities	\$ 9.8	\$ 7.0
Less: Purchases of property, plant and equipment	42.5	80.8
Net operating cash flow	(32.7)	(73.8)
Less: Dividends paid	7.8	7.7
Free cash flow	\$ (40.5)	\$ (81.5)

We believe net operating cash flow and free cash flow are meaningful measures as they are commonly utilized by management and investors to assess our ability to generate cash flow from business operations to repay debt and return capital to our stockholders. Net operating cash flow is also a key metric used in our calculation of incentive compensation.

[table of contents](#)

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

#### **MARKET RISK**

Our business and financial results are affected by fluctuations in world financial markets, including interest rates and currency exchange rates. Our hedging policy has been developed to manage these risks to an acceptable level based on management's judgment of the appropriate trade-off between risk, opportunity and cost. We do not hold financial instruments for trading or speculative purposes.

**Currency Exchange Risk** Because a majority of our business is denominated in U.S. dollars, we currently do not have significant exposures relating to currency exchange risk. From time to time, we use foreign currency forward contracts to reduce the effects of fluctuations in exchange rates, primarily relating to the Mexican Peso, Euro, Pound Sterling, Brazilian Real and Canadian Dollar. At March 31, 2007, we had currency forward contracts with a notional amount of \$34.2 million outstanding.

Future business operations and opportunities, including the expansion of our business outside North America, may further increase the risk that cash flows resulting from these activities may be adversely affected by changes in currency exchange rates. If and when appropriate, we intend to manage these risks by utilizing local currency funding of these expansions and various types of foreign exchange contracts.

**Interest Rate Risk** We are exposed to variable interest rates on certain credit facilities. From time to time, we use interest rate hedging to reduce the effects of fluctuations in market interest rates. Generally, we designate interest rate swaps as effective cash flow hedges of the related debt and reflect the net cost of such agreement as an adjustment to interest expense over the lives of the debt agreements. We have hedged a portion of our interest rate risk by entering into an interest rate swap with a notional amount of \$200.0 million. This notional amount reduces to \$100.0 million in December 2008 and expires in April 2010. The interest rate swap converts variable rate financing based on 3-month LIBOR into fixed U.S. dollar rates. The pre-tax earnings and cash flow impact of a one-percentage-point increase in interest rates (approximately 12% of our weighted-average interest rate at March 31, 2007) on our long-term debt outstanding at March 31, 2007 would be approximately \$0.9 million on an annualized basis.

#### **Item 4. Controls and Procedures**

Under the direction of our Chief Executive Officer and Chief Financial Officer, we evaluated our disclosure controls and procedures and internal control over financial reporting and concluded that (1) our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) were effective as of March 31, 2007, and (2) no change in internal control over financial reporting occurred during the quarter ended March 31, 2007 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
