## SECTION 2 - FINANCIAL INFORMATION

### Item 2.02 Results of Operations and Financial Condition

On April 29, 2011 American Axle & Manufacturing Holdings, Inc., (the “Company” or “AAM”) issued a press release regarding AAM's financial results for the three months ended March 31, 2011. A copy of this press release is furnished as Exhibit 99.1.

## SECTION 7 - REGULATION FD

### Item 7.01 Regulation FD

#### AAM's 2011 Outlook:

▲AAM expects full year 2011 sales to range from \$2.4 billion to \$2.5 billion.

AAM's 2011 outlook is based on the anticipated launch schedule for AAM's new business backlog, the continued recovery in market demand for full-size pickups and SUVs and the assumption that the U.S. Seasonally Adjusted Annual Rate (“SAAR”) of light vehicle sales will approximate 13.0 million vehicle units in 2011.

▲AAM expects to be profitable and generate earnings before interest expense, income taxes and depreciation and amortization (EBITDA) in the range of 14.5% - 15% of sales in 2011.

AAM believes that EBITDA is a meaningful measure of performance as it is commonly utilized by management and investors to analyze operating performance and entity valuation. AAM management, the investment community and the banking institutions routinely use EBITDA, together with other measures, to measure AAM's operating performance relative to other Tier 1 automotive suppliers. EBITDA should not be construed as income from operations, net income or cash flow from operating activities as determined under GAAP. Other companies may calculate EBITDA differently.

#### AAM's new business backlog and quoted business activity:

▲AAM's new business backlog for the years 2011-2013 is approximately \$950 million.

▲AAM is currently quoting approximately \$1 billion of potential new business.

## FORWARD-LOOKING STATEMENTS

This Current Report on Form 8-K contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements about our current expectations regarding AAM's U.S. SAAR outlook, new business backlog, sales outlook and EBITDA outlook, all of which are inherently uncertain and should be viewed with caution. Actual results and experience may differ materially due to many factors and risks that are described in the press release attached as Exhibit 99.1 and discussed in our most recent annual report on Form 10-K and quarterly reports on Form 10-Q. It is not possible to foresee or identify all such factors and we assume no obligation to update any forward-looking statements or to disclose any subsequent facts, events or circumstances that may affect their accuracy.

The information contained in this Current Report shall not be deemed “filed” for purposes of the Securities Exchange Act of 1934 (the “Exchange Act”), or incorporated by reference in any filing under the Securities Act of 1933 or the Exchange Act.
