ENCORE CLEAN ENERGY, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2004

1. The Company and Description of Business:

Encore Clean Energy, Inc. ("the Company") was originally incorporated on May 12, 1995 under the laws of Florida. On May 13, 2002, we changed our state of jurisdiction to Delaware. On December 1, 2003 we merged with our wholly-owned subsidiary, Cryotherm, under the laws of Delaware and changed our name to Encore Clean Energy, Inc.

Encore Clean Energy, Inc. is currently engaged in the following business:

- (a) The business of creating and commercializing products that generate electricity without burning fossil fuels; and
- (b) The provision of "permission-based" e-mail marketing and integrated advertising strategies services through our wholly owned subsidiaries Ignite Communications Inc. and Forge Marketing Inc.

2. Liquidity and Future Operations:

The Company incurred a net loss in the second quarter ending June 30, 2004 and has sustained negative cash flows from operations since its inception. At June 30, 2004, the Company has negative working capital of \$2,072,961. The Company's ability to meet its obligations in the ordinary course of business is dependent upon its ability to increase profitable operations or to obtain additional funding through public or private equity financing, collaborative or other arrangements with corporate sources, or other sources. Management is seeking to increase revenues through continued marketing of its services; however additional funding will be required.

Management is working to obtain sufficient working capital from external sources in order to continue operations. There is however no assurance that the aforementioned events, including the receipt of additional funding, will occur and be successful.

ENCORE CLEAN ENERGY, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2004

3. Basis of Presentation:

The unaudited consolidated financial statements of the Company at June 30, 2004 and for the six month period then ended include the accounts of the Company and its wholly-owned subsidiaries and reflect all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted in these interim statements under the rules and regulations of the Securities and Exchange Commission ("SEC"). Accounting policies used in fiscal 2004 are consistent with those used in fiscal 2003. The results of operations for the six months ended June 30, 2004 are not necessarily indicative of the results for the entire fiscal year ending December 31, 2004. These interim financial statements should be read in conjunction with the financial statements for the fiscal year ended December 31, 2003 and the notes thereto.

4. Foreign Currency:

The functional currency of the operations of the Company's wholly-owned Canadian operating subsidiaries is the Canadian dollar. Assets and liabilities measured in Canadian dollars are translated into United States dollars using exchange rates in effect at the balance sheets date with revenue and expense transactions translated using average exchange rates prevailing during the period. Exchange gains and losses arising on this translation are excluded from the determination of income and reported as foreign currency translation adjustment (which is included in the comprehensive income (loss)) in stockholders' equity.

5. Net Income (Loss) Per Share:

The Company computes net income (loss) per share in accordance with SFAS No. 128, Earnings per Share, and SEC Staff Accounting Bulletin ("SAB") No. 98. Under the provisions of SFAS No. 128 and SAB No. 98, basic income (loss) per share is computed using the weighted average number of common stock outstanding during the periods, and gives retroactive effect to the shares issued on the recapitalization described in note 1. Diluted income (loss) per share is computed using the weighted average number of common and potentially dilutive common stock outstanding during the period. Basic and diluted net income (loss) per share are the same as any exercise of options or warrants would be anti-dilutive.

6. Loan payable:

In April 2004 the Company secured debt financing in the aggregate amount of \$374,870 from HSBC Bank Canada, in the form of a \$37,490 line of credit (Canadian dollar denominated line of credit of Cdn \$50,000) and a \$337,380 working capital loan (Canadian dollar denominated loan of Cdn \$450,000). The loan financing is denominated in Canadian dollars, secured by a general security agreement, and interest is charged at HSBC's prime rate of interest plus 1.50% .

ENCORE CLEAN ENERGY, INC. AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
June 30, 2004

7. Comprehensive Income (Loss):

Effective January 1, 1999, the Company adopted the provisions of SFAS No. 130, "Reporting Comprehensive Income" SFAS No. 130 which establishes standards for reporting comprehensive income (loss) and its components in financial statements. Other comprehensive income, as defined, includes all changes in equity (net assets) during a period from non-owner sources. Comprehensive loss for each of the periods presented is as follows:

	Three Months Ended June 30, 2004	Three Months Ended June 30, 2003	Six Months Ended June 30, 2004	Six Months Ended June 30, 2003
Net loss	\$201,439	\$174,101	\$450,026	\$173,295
Other comprehensive (income) / loss: Foreign currency translation adjustment	25,989	164,721	(26,821)	263,911
Comprehensive loss	\$227,428	\$338,822	\$423,205	\$437,206

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this Form 10-QSB constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These statements, identified by words such as "plan", "anticipate," "believe," "estimate," "should," "expect" and similar expressions include our expectations and objectives regarding our future financial position, operating results and business strategy. These statements reflect the current views of management with respect to future events and are subject to risks, uncertainties and other factors that may cause our actual results, performance or achievements, or industry results, to be materially different from those described in the forward-looking statements. Such risks and uncertainties include those set forth under this Item 2. "Management's Discussion and Analysis or Plan of Operation" and elsewhere in this Form 10-QSB. We do not intend to update the forward-looking information to reflect actual results or changes in the factors affecting such forward-looking information. We advise you to carefully review the reports and documents we file from time to time with the Securities and Exchange Commission ("SEC"), particularly our annual reports on Form 10-KSB, our quarterly reports on Form 10-QSB and our current reports on Form 8-K.

As used in this Quarterly Report, the terms "we", "us", "our", "Company" and "Encore" mean Encore Clean Energy, Inc. unless otherwise indicated. All dollar amounts in this Quarterly Report are in U.S. dollars unless otherwise stated.

INTRODUCTION

During the fourth quarter of our 2003 fiscal year, we acquired Cryotherm, Inc. ("Cryotherm"), a corporation that was in the business of creating and commercializing products that generate electricity without the burning of fossil fuels. We have since merged with Cryotherm under the laws of Delaware and changed our name from Forge, Inc. to Encore Clean Energy, Inc.

We are currently engaged in the following businesses:

- (a) The Encore Business : The Encore Business involves developing and commercializing proprietary "clean-energy" technologies that we have acquired through our acquisition of Cryotherm. Our plan for this segment of our business involves creating products that will be targeted at creating lower-cost, cleaner ways to generate electricity without the burning of fossil fuels. Initially, we will focus our efforts on four primary products: a Drum Jet Turbine, a Waste Heat Recovery Unit, a Vertical Axis Wind Turbine and the TurboFlux Disk Turbine (collectively, the "Encore Products"); and
- (b) The Forge/Ignite Business : Prior to our acquisition of Cryotherm, our primary business was the Forge/Ignite Business of providing "permission-based" email marketing and integrated advertising services. We continue to carry on this segment of our business through our wholly owned subsidiaries, Ignite Communications Inc. ("Ignite") and Forge Marketing Inc. ("Forge Marketing").

PLAN OF OPERATIONS

Our plan of operations for the next twelve months involves the following:

1. We will continue the research and development of our Encore Products. Initially we plan to focus on the development and commercialization of the Waste Heat Recovery Unit, the Drum Jet Turbine and the Vertical Axis Wind Turbine. In pursuit of this we:
 - (a) will pursue the testing of our Waste Heat Recovery Unit, Drum Jet Turbine and Vertical Axis Wind Turbine prototypes on various applications. We anticipate that the development and testing programs will take approximately nine to twelve months. The results of these testing programs will be used to further refine the product designs and identify the optimal sizes and configurations for various commercial and consumer applications.
 - (b) plan to undertake the finalization of the design and specifications for our first commercial products. This stage of development will be undertaken concurrently with the product testing program and will use the results of the testing program to refine the product design and specifications.
 - (c) will refine our marketing and sales program for each of the products. The anticipated costs of manufacturing each product will be analyzed using the final designs and specifications for each. These costs will be used to develop a business model for various applications. The business models will be analyzed in order to identify the optimum target market for each of the products. We anticipate that the optimum market will depend on various factors, including the energy source, the electricity that can be generated based on the available energy source, the manufacturing costs and installation costs and the price of electricity in the targeted customer's market.
2. We also plan to continue operating our advertising business through our wholly owned subsidiaries, Ignite and Forge Marketing. We will continue to seek new clients for our integrated advertising strategies and "permission-based" electronic direct marketing services and to further explore how we can better service our existing clients. In pursuit of this, we plan to do the following:
 - (a) Build market awareness and recognition for electronic direct marketing;
 - (b) Target industries and businesses that represent the greatest potential for email marketing adoption and growth;
 - (c) Develop and present case studies to organizations in other regions and markets who could benefit from our experience;
 - (d) Research and utilize emerging relevant technologies primarily from application service providers (ASP's);
 - (e) Leverage our advertising contacts in pursuit of email marketing opportunities;
 - (f) Expand our email marketing relationships to include advertising agency opportunities; and
 - (g) Pursue strategic acquisitions and alliances to access new geographic markets and to add complimentary services.

We anticipate spending approximately \$5,000,000 in pursuing our plan of operations over the next twelve months. It is anticipated that the Encore Business will not generate any significant revenues over the next twelve months and we do not have sufficient financial resources to fund the development of the Encore Products. Accordingly, we require

substantial financing in order to fund our plan of operations.

As discussed below under Item 5 of Part II of this Quarterly Report on Form 10-QSB, on April 14, 2004, our wholly owned subsidiary, Ignite, obtained bank debt financing in the aggregate amount of \$374,870 (\$500,000 CDN) (the "Debt Financing") from HSBC Bank Canada ("HSBC"), in the form of a \$37,490 (\$50,000 CDN) line of credit and a \$337,380 (\$450,000 CDN) working capital loan. The Debt Financing was advanced in Canadian currency and has been converted to U.S. Funds for the purposes of this Quarterly Report on Form 10-QSB at the rate of 1.3338, the Company's rate of exchange as on June 30, 2004. Interest is charged on the Debt Financing at HSBC's prime rate of interest plus 1.50% . The funds obtained through the Debt Financing are being used by us as working capital.

We anticipate that any additional financing will likely be in the form of equity financing as substantial additional debt financing is unlikely to be feasible at this stage of our business.

Currently, we do not have any additional financing arrangements in place and there is no assurance that we will be able to achieve sufficient financing required to continue with the development of our Encore Products. If we do not obtain the necessary financing, then our plan of operations will be scaled back according to the amount of funds available. An inability to raise the necessary financing will severely restrict our ability to complete the development and commercialization of our Encore Products. In the event that we are unable to develop and commercialize our Encore Products, we intend to focus on the Forge/Ignite Business.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Our acquisition of Cryotherm was completed on September 30, 2003. This acquisition has been treated by us for accounting purposes as an acquisition of Cryotherm's net assets. As a result, our historical financial statements up to September 30, 2003 reflect the results of operations solely for the Forge/Ignite Business to that date. Commencing October 1, 2003, our financial statements reflect our combined operations with Cryotherm.

With respect to the risks and uncertainties associated with our businesses, we advise readers to carefully review the Management's Discussion and Analysis section of our Annual Report on Form 10-KSB for the year ended December 31, 2003, filed with the SEC on May 17, 2004.

RESULTS OF OPERATIONS

Second Quarter and Six Months Summary

	Second Quarter Ended June 30			Six Months Ended June 30		
	2004	2003	Percentage Inc. / (Dec.)	2004	2003	Percentage Inc. / (Dec.)
Revenue	\$ 817,854	\$ 582,022	40.5%	\$ 1,445,236	\$ 1,560,622	(7.4%)
Cost of Revenue	(680,334)	(395,357)	72.1%	(1,021,596)	(1,116,495)	(8.5%)
Operating Expenses	(303,528)	(332,553)	(8.7%)	(726,676)	(577,688)	25.8%
Net Income (Loss)	\$ (201,439)	\$ (174,101)	(15.7%)	\$ (450,026)	\$ (173,295)	(159.7%)
<u>Revenue</u>						

For the last fiscal quarter, revenues were generated solely from the Forge/Ignite Business. We did not earn revenues from our Encore Business and there is no assurance that we will be able to do so in the future.

The increase in our revenue over our results for the second fiscal quarter of 2003 is primarily due to the addition of five new clients and budget increases with two existing clients during the spring/summer months.

Revenues for the Forge/Ignite Business are earned by delivering online direct marketing, promotional, and informational offers and by developing and implementing integrated marketing and advertising strategies. We charge our advertisers based upon a number of criteria including offers delivered, qualified leads generated, online transactions executed and marketing services performed.

We believe that our revenues will be subject to seasonal fluctuations as a result of general patterns of retail advertising, which are typically higher during the second and fourth calendar quarters. In addition, expenditures by advertisers tend to be cyclical, reflecting overall economic conditions and consumer buying patterns.

Cost of Revenue

Cost of revenue for the Forge/Ignite Business represents the cost of advertising purchased for clients. The increase in cost of revenue over our results for the second fiscal quarter of 2003 is a result of the corresponding increase in our revenue.

Revenue for the Forge/Ignite Business consists of the gross value of our billings to clients and includes the price of the advertising that we purchase from offline and online suppliers. Under marketing services contracts, we recognize the cost of the advertising we purchase for our clients as an expense and the payments we receive from our clients for this advertising as revenue. Under these arrangements, we are ultimately responsible for payment to suppliers for the cost of the advertising that we purchase.

Operating Expenses

The overall increase to our operating expenses during the six months ended June 30, 2004 compared to the same period ended June 30, 2003 is primarily attributable to the additional costs associated with the development and commercialization of our clean energy technologies for the Encore Business. The major components of our operating expenses are outlined in the table below:

	Second Quarter Ended June 30			Six Months Ended June 30		
	2004	2003	Percentage Inc. / (Dec.)	2004	2003	Percentage Inc. / (Dec.)
Salaries and Fringe Benefits	\$167,199	\$160,423	4.2%	\$349,987	\$322,482	8.5%
Legal and Accounting Expenses	28,808	6,334	354.8%	89,614	20,082	346.2%
Consulting Fees and Computers Services	48,744	101,430	51.9%	154,859	115,182	34.4%
Rent	24,720	25,195	1.9%	65,899	48,769	35.1%

The increase in salary costs during the six months ended June 30, 2004 compared to the same period in 2003 is primarily due to the addition of a staff member and various employee raises.

The increase in legal and accounting expenses during the three and six month periods ended June 30, 2004 compared to the same periods in 2003 relate to the completion of our obligations with respect to the acquisition of Cryotherm as well as an increased need for legal and patent advice with respect to the Encore Business.

Edgar Filing: ENCORE CLEAN ENERGY INC - Form 10QSB

The increase in consulting fees and computer services for the six months ended June 30, 2004 compared to the six months ended June 30, 2003 is primarily the result of additional consulting costs associated with the development of our clean energy technologies for the Encore Business.

The increase in rent during the six months ended June 30, 2004 compared to the same period in 2003 is a result of our moving business offices early in 2003.

Interest Expenses

	Second Quarter Ended June 30			Six Months Ended June 30		
	2004	2003	Percentage	2004	2003	Percentage
			Inc. / (Dec.)			Inc. / (Dec.)
Interest Expenses	35,431	28,213	25.6%	146,990	39,734	269.9%

The increase in interest expenses during the three and six month periods ended June 30, 2004 as compared to the same periods in 2003 is primarily the result of the Debt Financing acquired from HSBC as discussed below under Item 5 of Part II of this Quarterly Report on Form 10-QSB and from interest and from finance charges related to advances from related parties and loans repaid during the period.

LIQUIDITY AND CAPITAL RESOURCES

Working Capital

			Percentage
	At June 30, 2004	At December 31, 2003	Increase / (Decrease)
Current Assets	\$152,467	\$119,284	27.8%
Current Liabilities	(2,225,428)	(1,962,321)	13.4%
Working Capital Deficit	\$(2,072,961)	\$(1,843,037)	12.5%

The increase in our current assets is primarily attributable to an increase in accounts receivable

The increase in our working capital deficit is primarily attributable to the increase in our current liabilities. As discussed below under Item 5 of Part II of this Quarterly Report on Form 10-QSB, on April 14, 2004, our wholly owned subsidiary, Ignite, obtained debt financing in the aggregate amount of \$374,870. This debt financing consists of a line of credit and a working capital loan. The working capital loan is repayable upon demand, however HSBC has allowed us to amortize the schedule of repayments over a period of 5 years. According to this schedule, of the approximately \$332,439 still outstanding, approximately \$61,380 is payable within the year. However, because HSBC may demand repayment in full at any time, the full amount of the debt financing has been classified as a current liability.

Cash Flows

	Six Months Ended June 30	
	<u>2004</u>	<u>2003</u>
Net Cash from (used in) Operating Activities	\$(324,519)	\$(169,749)
Net Cash from (used in) Investing Activities	(1,758)	(8,988)
Net Cash from (used in) Financing Activities	314,286	192,846
Net Increase (decrease) in Cash During Period	\$(335)	\$(27,479)

Cash provided by financing activities for the quarter consisted of proceeds from the Debt Financing acquired from HSBC, notes payable and advances from related parties. These funds were utilized in their entirety as working capital.

We anticipate that we will require financing in the amount of \$5,000,000 in order to fund our plan of operations over the next twelve months, as discussed above under "Plan of Operations." In addition, we anticipate that we will continue to require additional financing to fund the Forge/Ignite Business which continues to consume more cash in operating activities than is generated. We plan to pursue additional bank debt and equity financings through private placements of our common stock or common stock and share purchase warrants in order to raise the funds necessary to enable us to pursue our plan of operations for the next twelve months. We do not have any arrangements in place for equity financing and there is no assurance that any equity financing will be achieved. If equity financing is achieved, then it is anticipated that existing shareholders will suffer dilution.

In addition to the Debt Financing described below under Item 5 of Part II of this Quarterly Report on Form 10-QSB, we have sustained our operations to date with advances by one of our principal stockholders and these funds have been applied to finance our current operations. Our ability to meet our current obligations is dependent upon continued advances from this stockholder, upon our ability to increase our revenues while maintaining expenses and our ability to achieve additional financing. If we are unable to meet our current obligations, we may be forced to significantly scale back our business operations with the result that our ability to earn revenues and achieve profitability may be adversely affected.

OFF-BALANCE SHEET ARRANGEMENTS

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

ITEM 3. CONTROLS AND PROCEDURES.

As required by Rule 13a-15 under the Exchange Act, we carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2004, being the date of our most recently completed fiscal quarter. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Mr. Daniel Hunter. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective in timely alerting management to material information relating to us required to be included in our periodic SEC filings. There have been no significant changes in our internal controls or in other factors that could significantly affect internal controls subsequent to the date we carried out our evaluation.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

During our most recently completed fiscal quarter ended June 30, 2004, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to affect, our internal control over financial reporting.

The term "internal control over financial reporting" is defined as a process designed by, or under the supervision of, the registrant's principal executive and principal financial officers, or persons performing

similar functions, and effected by the registrant's board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the registrant;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the registrant are being made only in accordance with authorizations of management and directors of the registrant; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the registrant's assets that could have a material effect on the financial statements.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

None.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS.

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. SUBMISSION OF MATTERS TO VOTE OF SECURITY HOLDERS.

None.

ITEM 5. OTHER INFORMATION.

Debt Financing from HSBC Bank Canada

On April 14, 2004, our wholly owned subsidiary, Ignite, obtained bank debt financing in the aggregate amount of \$374,870 (\$500,000 CDN) (the "Debt Financing") from HSBC Bank Canada ("HSBC") in the form of a \$37,490 (\$50,000 CDN) line of credit and a \$337,380 (\$450,000 CDN) working capital loan. The Debt Financing was advanced in Canadian currency and has been converted to U.S. Funds for the purposes of this Quarterly Report on Form 10-QSB at the rate of 1.3338, the Company's rate of exchange as on June 30, 2004. The working capital loan is repayable upon demand, however HSBC has allowed us to amortize the schedule of repayments over a 5 year period. The Debt Financing earns interest at the rate of HSBC's prime rate of interest plus 1.50% . The funds obtained through the Debt Financing are being used in their entirety as working capital.

Under the terms and conditions of the Debt Financing:

- Ignite is required to obtain the prior written consent of HSBC in order to make any subsequent inter-company loans or to declare or pay dividends or other distributions to Encore.
- Ignite has executed a general security agreement granting HSBC a security interest in all of its present and after acquired personal property, including inventory, equipment and accounts receivable (collectively, the "Collateral"). The security agreement prevents Ignite from selling, transferring, assigning, leasing or encumbering the Collateral, other than sales or leases of inventory made in the ordinary course of business, without the prior written consent of HSBC.
- Certain of our directors, officers and management personnel and their family members have executed personal guarantees securing the Debt Facilities.

Encore is not a direct party to the Debt Financing arrangement with HSBC.

A copy of the credit facilities agreement and the general security agreement are attached as exhibits to this Quarterly Report on Form 10-QSB.

Proposed Business Combination

We are currently in discussions with a California based company regarding a possible business combination. The subject of these negotiations is a company engaged in the business of providing consulting and engineering services with respect to alternative methods of electricity generation. If an

agreement is reached with respect to the proposed business combination, it is expected that we will issue a substantial number of shares in our common stock in exchange for shares in the common stock of the subject company. There is no assurance that an agreement will be reached.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K.

(a) Exhibits and Index of Exhibits Required By Item 601 of Regulation S-B.

<u>Exhibit Number</u>	<u>Description of Exhibit</u>
