3

GREYSTONE LOGISTICS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. In the opinion of Greystone, the accompanying unaudited consolidated financial statements contain all adjustments and reclassifications, which are of a normal recurring nature, necessary to present fairly its financial position as of August 31, 2006, and the results of its operations and its cash flows for the three month periods ended August 31, 2006 and 2005. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements as of and for the year ended May 31, 2006 and the notes thereto included in Greystone's Form 10-KSB. The financial statements have been prepared assuming that Greystone will continue as a going concern. The working capital deficit of approximately \$4,847,004, a stockholders' deficiency of \$7,553,326 and continuing losses from operations at August 31, 2006 and its inability to obtain long term financing raises substantial doubt about Greystone's ability to continue as a going concern. The accompanying financial statements have been prepared assuming that Greystone will continue as a going concern and do not reflect the possible effects of any adjustments that might result from Greystone's inability to continue as a going concern.

2. The results of operations for the three month periods ended August 31, 2006 and 2005 are not necessarily indicative of the results to be expected for the full year.

3. The computation of loss per share is computed by dividing the loss available to common shareholders by the weighted average shares outstanding for the periods. Loss available to common shareholders is determined by adding preferred dividends for the periods to the net loss. For the three month periods ended August 31, 2006 and 2005, the weighted average common shares outstanding is 24,061,000. Convertible preferred stock, common stock options and warrants are not considered as their effect is antidilutive.

4. Inventory consists of the following:

	August 31, 2006	May 31, 2006
	-----	-----
Raw materials	\$ 367,089	\$ 554,316
Finished goods	28,004	76,920
	-----	-----
Total inventory	\$ 395,093	\$ 631,236
	=====	=====

5. In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123(R), "Share-Based Payment." This statement is a revision of

Edgar Filing: GREYSTONE LOGISTICS, INC. - Form 10QSB

SFAS No. 123, "Accounting for Stock-Based Compensation," and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees," and its related implementation guidance. SFAS No. 123(R) requires companies to recognize in the income statement the grant-date fair value of stock options and other equity-based compensation issued to employees and is effective for interim or annual periods beginning after December 15, 2005. The Company adopted SFAS No. 123(R) as of March 1, 2006, using the modified prospective transition method. Under the modified prospective

4

transition method, awards that are granted, modified or settled after the date of adoption will be measured in accordance with SFAS No. 123(R). Unvested equity-classified awards that were granted prior to March 1, 2006 will be accounted for using the straight-line basis for recognizing compensation costs in accordance with SFAS No. 123, except that the amounts will be recognized in the Company's consolidated statements of operations. The effect of adopting SFAS No. 123(R) is a charge in the amount of \$62,520 to compensation expense during the quarter ended August 31, 2006.

For the three month period ended August 31, 2005, Greystone applied the intrinsic value-based method of accounting prescribed by Accounting Principles Board Opinion No. 25, ACCOUNTING FOR STOCK ISSUED TO EMPLOYEES, and related interpretations, in accounting for its stock options. As such, compensation expense would be recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. There was no stock option cost during the period ended August 31, 2005.

6. In September 2006, the Financial Accounting Standards Board issued two new statements - Statement No. 158, EMPLOYERS' ACCOUNTING FOR DEFINED BENEFIT PENSION AND OTHER POSTRETIREMENT PLANS--AN AMENDMENT OF FASB STATEMENTS NO. 87, 88, 106, AND 132(R), and Statement No. 157, FAIR VALUE MEASUREMENTS. Neither of these statements will have a material impact on Greystone's financial position or results of operations.

5

ITEM 2. MANAGEMENT DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

RESULTS OF OPERATIONS

GENERAL TO ALL PERIODS

The condensed consolidated statements include Greystone Logistics, Inc., or Greystone, and its wholly owned subsidiaries, Greystone Manufacturing, LLC, or GSM, and Plastic Pallet Production, Inc., or PPP.

Edgar Filing: GREYSTONE LOGISTICS, INC. - Form 10QSB

Greystone has incurred significant losses from operations, and there is no assurance that it will achieve profitability or obtain funds necessary to finance its operations.

References to fiscal year 2007 refer to the three month period ended August 31, 2006. References to fiscal year 2006 refer to the three month period ended August 31, 2005.

SALES

Greystone's primary business is the manufacturing and selling of plastic pallets through its wholly owned subsidiaries, GSM and PPP. Greystone distributes its pallets through a combination of a network of independent contractor distributors and sales by Greystone's officers and employees.

In addition, in July 2006, Greystone launched a beta test program involving the lease of a small pool of recycled plastic pallets by Greystone to a customer to be utilized by the customer to ship a portion of its manufactured products in a closed loop system. Pursuant to the agreement with the customer, Greystone will deliver and track throughout the logistics cycle sufficient quantities of plastic pallets for use in shipping a segment of the customer's product. The pallets will stay in a closed loop environment and be continually sent back for reuse. If a pallet is damaged, Greystone will grind the pallet and reutilize the resin.

Greystone also markets its own design of an injection molding machine, the PIPER 600, through a licensing agreement with ForcePro, LLC, which gives ForcePro the exclusive right to market and sell the PIPER 600. Pursuant to the terms of the licensing agreement, Greystone will receive a royalty of 5% of the gross proceeds from sales of the PIPER 600.

PERSONNEL

Greystone had approximately 75 full-time employees as of August 31, 2006 compared to 84 full-time employees as of August 31, 2005.

6

TAXES

For all years presented, Greystone's effective tax rate is 0%. Greystone has generated net operating losses since inception, which would normally reflect a tax benefit in the statement of operations and a deferred asset on the balance sheet. However, because of the current uncertainty as to Greystone's ability to achieve profitability, a valuation reserve has been established that offsets the amount of any tax benefit available for each period presented in the consolidated statement of operations.

THREE MONTH PERIOD ENDED AUGUST 31, 2006 COMPARED TO THREE MONTH PERIOD ENDED AUGUST 31, 2005

Sales for fiscal year 2007 were \$3,881,134 compared to \$2,909,104 in fiscal year 2006, for an increase of \$972,030. The increase is due to the addition of one production line by GSM in August 2005. The increase in production was substantially sold to Greystone's principal customer.

Cost of sales in fiscal year 2007 was \$3,500,932, or 90% of sales, compared to \$3,010,646, or 103% of sales, in fiscal year 2006. The improvement in the ratio of cost of sales to sales is due primarily to increases in sales prices and the addition of a production line operating at near full capacity. The overall high rate of cost of sales to sales is due in part to lease costs of

Edgar Filing: GREYSTONE LOGISTICS, INC. - Form 10QSB

\$144,000 per quarter for the PIPER 600 production line which operates at approximately 10% of designed capacity.

General and administrative expense decreased \$107,582 from \$561,562 in fiscal year 2006 to \$453,980 in fiscal year 2007. The primary factor affecting the decrease in general and administrative expense from fiscal year 2006 to fiscal year 2007 is reductions in administrative salaries, travel expense and professional fees incurred in 2006 in connection with seeking capital to provide for future growth. The reduction in administrative salaries was partially offset by a charge of \$62,520 for the cost of stock options as discussed further in note 5 to the condensed consolidated financial statements under Item 1 - Financial Statements.

Interest expense increased \$91,038 from \$238,751 in fiscal year 2006 to \$329,789 in fiscal year 2007 principally due to additional debt incurred to finance the acquisition of two production lines and increases in the prime rate of interest.

The net loss decreased \$429,461 from \$(830,839) in fiscal year 2006 to \$(401,378) in fiscal year 2007 for the reasons discussed above.

After deducting preferred dividends, the net loss available to common shareholders was \$(545,282), or \$(0.02) per share, in fiscal year 2007 compared to \$(984,754), or \$(0.04) per share, in fiscal year 2006 for a decrease of \$439,472 for the reasons discussed above.

7

LIQUIDITY AND CAPITAL RESOURCES

Greystone's cash requirements for operating activities consist principally of accounts receivable, inventory, accounts payable, operating leases and scheduled payments of interest on outstanding indebtedness. Greystone is currently dependent on outside sources of cash to fund its operations. As of August 31, 2006, revenues from sales remain insufficient to meet current liabilities.

A summary of cash flows for the three months ended August 31, 2006 is as follows:

Cash provided by operating activities	\$	277,721
Cash used in investing activities		(92,997)
Cash used in financing activities		(166,700)

The contractual obligations of Greystone are as follows:

	TOTAL	LESS THAN 1 YEAR	1-3 YEARS	4-5 YEARS	OVER 5 YEARS
	-----	-----	-----	-----	-----
Long-term debt	\$12,831,010	\$ 2,055,076	\$ 8,383,592	\$ 1,197,908	\$ 1,194,434
Operating leases	5,611,500	786,000	1,572,000	1,572,000	1,681,500
	-----	-----	-----	-----	-----
Total	\$18,442,510	\$ 2,841,076	\$ 9,955,592	\$ 2,769,908	\$ 2,875,934
	=====	=====	=====	=====	=====

Edgar Filing: GREYSTONE LOGISTICS, INC. - Form 10QSB

Greystone continues to require outside sources of cash to fund its operating activities. To provide for the additional cash to meet Greystone's operating activities and contractual obligations for fiscal 2007, Greystone is exploring various options including long-term debt and equity financing. However, there is no guarantee that Greystone will be able to raise sufficient capital to meet these obligations.

Greystone has accumulated a working capital deficit of approximately \$4,847,004 at August 31, 2006, which includes current portion of long-term debt and \$2,055,076 and \$2,902,948 in accounts payable and accrued liabilities. The working capital deficit reflects the uncertain financial condition of Greystone resulting from its inability to obtain long term financing until such time as it is able to achieve profitability. There is no assurance that Greystone will secure such financing or achieve profitability.

Substantially all of the financing that Greystone has received through August 31, 2006, has been provided by loans or through loan guarantees from the officers and directors of Greystone, the offerings of preferred stock to current and former officers and directors of Greystone in 2001 and 2003 and through a private placement of common stock completed in March 2005.

Greystone continues to be dependent upon its officers and directors to provide and/or secure additional financing and there is no assurance that either will do so. As such, there is no assurance that funding will be available for Greystone to continue operations.

8

Greystone has 50,000 outstanding shares of cumulative 2003 Preferred Stock for a total of \$5,000,000 with a preferred dividend rate of the prime rate of interest plus 3.25%. Greystone does not anticipate that it will make cash dividend payments to any holders of its preferred stock or its common stock unless and until the financial position of Greystone improves through increased revenues, another financing or otherwise.

FORWARD LOOKING STATEMENTS AND MATERIAL RISKS

This Quarterly Report on Form 10-QSB includes certain statements that may be deemed "forward-looking statements" within the meaning of federal securities laws. All statements, other than statements of historical fact, that address activities, events or developments that Greystone expects, believes or anticipates will or may occur in the future, including decreased costs, securing financing, the profitability of Greystone, potential sales of pallets or other possible business developments, are forward-looking statements. Such statements are subject to a number of assumptions, risks and uncertainties. The forward-looking statements contained in this Quarterly Report on Form 10-QSB could be affected by any of the following factors: Greystone's prospects could be affected by changes in availability of raw materials, competition, rapid technological change and new legislation regarding environmental matters; Greystone may not be able to secure additional financing necessary to sustain and grow its operations; and a material portion of Greystone's business is and will be dependent upon a few large customers and there is no assurance that Greystone will be able to retain such customers. These risks and other risks that could affect Greystone's business are more fully described in Greystone's Form 10-KSB for the fiscal year ended May 31, 2006, which was filed on September 13, 2006. Actual results may vary materially from the forward-looking statements. Greystone undertakes no duty to update any of the forward-looking statements contained in this Quarterly Report on Form 10-QSB.

ITEM 3. CONTROLS AND PROCEDURES

Edgar Filing: GREYSTONE LOGISTICS, INC. - Form 10QSB

As of the end of the period covered by this Current Report on Form 10-QSB, Greystone carried out an evaluation under the supervision of Greystone's Chief Financial Officer (and interim principal executive officer) of the effectiveness of the design and operation of Greystone's disclosure controls and procedures pursuant to the Securities Exchange Act Rules 13a-15(e) and 15d-15(e). Based on this evaluation, Greystone's Chief Financial Officer (and interim principal executive officer) concluded that the disclosure controls and procedures as of the end of the period covered by this Current Report on Form 10-QSB were effective.

During the quarter ended August 31, 2006, there was no change in Greystone's internal controls over financial reporting that has materially affected, or that is reasonably likely to materially affect, Greystone's internal control over financial reporting.

9

PART II. OTHER INFORMATION

ITEM 6. EXHIBITS

- 11.1 Computation of Loss per Share is in Note 3 in the Notes to the financial statements.
- 31.1 Certification of Chief Financial Officer (and interim principal executive officer) pursuant to Rules 13a-14(a) and 15d-14(a) promulgated under the Securities Exchange Act of 1934, as amended, and Item 601(b)(31) of Regulation S-B, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Chief Financial Officer (and interim principal executive officer) pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
