## GENERAL INFORMATION

### WHAT ARE STOCKHOLDERS BEING ASKED TO APPROVE?

Stockholders are not being asked to approve anything. To the extent required, stockholder approval of the actions discussed herein has already been obtained. This Information Statement is being provided to you only for purposes of informing you of what has already been approved.

### WHAT ACTION HAS ALREADY BEEN APPROVED?

Each of the following:

- § Consummate the sale of the QuickVerse Product Line to WORDsearch Corp., L.L.C. a Delaware limited liability company (“WORDsearch) under agreed basic terms in relation to a form of agreement reflecting the contemplated transaction (“Asset Sale Transaction”),
- § Finalize, execute and deliver the agreed upon terms with WORDsearch on a definitive sale and purchase agreement (“Software Product Line Purchase Agreement”) for the QuickVerse Product Line; and
- § Authorize our Board of Director’s, at their discretion, to effect one or more reverse stock-splits of all of the then issued and outstanding shares of the Company’s common stock at any time prior to April 30, 2016.

### HOW CAN STOCKHOLDER APPROVAL ALREADY HAVE BEEN OBTAINED IF STOCKHOLDERS WERE NOT YET INVITED TO VOTE AND NO STOCKHOLDERS’ MEETING HAS BEEN HELD?

Section 78.320 of the Nevada Statutes provides that, unless prohibited under a company’s articles of incorporation or bylaws, any action which may be taken at any annual or special meeting of stockholders may be taken without a meeting and without prior notice if a written consent thereto is obtained by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize or take the action at a meeting at which all shares entitled to vote thereon were present and voted. In accordance with Article VIII of our Articles of Incorporation, any action to be taken by way of written consent of our stockholders, however, requires that it first be approved by our Board of Directors.

In accordance with the Nevada Statutes and our Articles of Incorporation and Bylaws, all of the corporate action discussed herein requires the affirmative vote of the holders of a majority of our voting power. Each share of our Common Stock entitles the holder to one vote on all matters submitted to the stockholders. We currently have no class of voting stock outstanding other than the Common Stock, and neither our Articles of Incorporation or our Bylaws prohibit stockholder action by way of written consent.

In order to eliminate the costs and management time involved in holding a special meeting and in order to effect the action described herein as early as possible in order to accomplish the purposes as hereafter described, our Board of Directors voted to utilize, and did in fact obtain, the written consent of the holders of a majority in interest of the Company’s voting stock, which voting stock is comprised solely of the Common Stock. As of May \_\_, 2011 (the “Record Date”), there were 69,161,238 shares of our Common Stock outstanding and no shares of preferred stock outstanding. Also as of May \_\_, 2011, the written consent of certain of our principal stockholders holding 37,520,760 shares of our common stock, representing approximately 54% of our then total issued and outstanding Common Stock, to each of the above actions has been obtained. Our Board of Directors approved all of the foregoing actions by unanimous written consent (in accordance with Section 78.315 of the Nevada Statutes) on February 10, 2011 and

recommended that such resolutions be submitted as required under Article VIII of our Articles of Incorporation for stockholder approval.

As a result of the foregoing, no stockholder vote or meeting is required to approve the action and no proxies will be solicited.

On May 5, 2011, the Company entered into a Software Product Line Purchase Agreement with WORDsearch Corp., L.L.C., a Delaware limited liability company (“WORDSearch”) pursuant to which the Company will sell a large percentage of its assets and business (the “Asset Sale Transaction”).

WORDsearch produces software and electronic books for the Christian market since 1987. WORDsearch’s principal place of business is located at 3006 Longhorn Blvd #110, Austin, Texas 78758. Its telephone number is (800) 888-9898.

This section of the Information Statement contains a summary description of the material provisions of the Software Product Line Purchase Agreement but does not purport to describe all of the terms thereof. The summary is qualified in its entirety by reference to the complete text of the Agreement which is attached as Exhibit 10.35. We urge you to read the full text of the Software Product Line Purchase Agreement because it is a legal document that governs the Asset Sale Transaction.

Assets To Be Sold

Pursuant to the Software Product Line Purchase Agreement, WORDSearch agreed to acquire from us all of the assets associated with our QuickVerse product line (the “QuickVerse Product Line). The QuickVerse Product Line centers around our industry-leading QuickVerse Bible-study software program, and includes the following software products in all versions and operating environments: Windows®, Macintosh®, Palm and Pocket PC: QuickVerse®, Sermon Builder™, Ministry Notebook™, and Jonah and the Whale™.

It accounted for 86% of our aggregate revenues during the year-ended December 31, 2010.

The specific assets to be sold by us to WORDSearch as part of the Asset Sale Transaction will include, among other things, all of the intellectual property rights (including the underlying software source code and registered trade names), contractual rights, tangible assets (including existing product inventories) and other rights associated with the QuickVerse Product Line.

Purchase Price

The purchase price to be paid by WORDSearch at closing consists of \$975,000 in cash and the assumption of up to \$140,000 of our then-existing liabilities.

Certain Representations & Warranties

The Software Product Line Purchase Agreement contains customary representations and warranties associated with similar asset conveyance transactions, and provides for indemnification by us in an amount not to exceed the purchase price.

Certain covenants on the part of each party have been included in the Software Product Line Purchase Agreement relating to their respective obligations during the period prior to closing of the Asset Sale transaction. For us, these covenants include, among others, the using of our reasonable efforts to obtain the required consents to the transaction, the conducting of our QuickVerse related business in the ordinary course, and the diligent and consistent application

of our reasonable best efforts in good faith to obtain the approval of our stockholders. For WORDSearch, these covenants include, among others, to use reasonable efforts to obtain all required consents, and to diligently and consistently apply its best efforts in good faith to secure financing from a qualified commercial bank to effect the Asset Sale Transaction as soon as reasonable practicable.

### Certain Closing Conditions

Certain closing conditions for each party have been included in the Software Product Line Purchase Agreement. For us, these conditions include those that are customarily associated with similar asset conveyance transactions. For WORDSearch, these conditions also include those that are customarily associated with similar asset conveyance transactions but additionally include, among others, the settlement by us on certain aggregate terms of certain existing liabilities, and the obtaining by WORDSearch of financing from a qualified commercial bank to effect the Asset Sale Transaction as soon as reasonable practicable.

### Closing

Pursuant to the terms of the Software Product Line Purchase Agreement, the closing of the transaction will not occur after June 30, 2011.

The summary is qualified in its entirety by reference to the complete text of the Software Product Line Purchase Agreement which is attached as Exhibit 10.35.

## ADDITIONAL INFORMATION CONCERNING THE ASSET SALE TRANSACTION

### REGULATORY MATTERS

No United States Federal or other state regulatory requirements must be complied with or approvals obtained as a condition of the proposed Asset Sale Transaction other than the federal securities laws.

### UNITED STATES FEDERAL INCOME TAX CONSEQUENCES OF THE ASSET SALE TRANSACTION

The Asset Sale Transaction will be a taxable transaction with respect to the Company to the extent of any gain that is realized, but not for our stockholders. It is anticipated that the Company will have sufficient current net operating loss carry-forwards to offset most or all of a gain realized from the Asset Sale Transaction for regular Federal income tax purposes. However, the Company has not evaluated the book value basis of the assets for purposes of the Asset Sale Transaction and therefore is not able to fully analyze the tax treatment of the transaction to determine if any gain will be realized in the transaction. Due to inadequate current information with respect to the Company's tax basis in the assets, the Company is unable to provide additional disclosure in this report with respect to the United States Federal income tax consequences of the Asset Sale Transaction.

### UNAUDITED PRO FORMA CONDENSED FINANCIAL INFORMATION

The following unaudited pro forma condensed financial statements are derived from our historical financial statements and give effect to the sale of the QuickVerse Product Line. The unaudited pro forma condensed balance sheet as of December 31, 2010 was prepared as if the sale had occurred as of December 31, 2010 and the unaudited pro forma condensed statement of operations for the twelve months ended December 31, 2010 was prepared as if the sale had occurred on first day of the period presented.

The unaudited pro forma condensed financial statements have been prepared for informational purposes only to show the effect of the removal of the QuickVerse Product Line from the Company on a historical basis. These financial statements do not purport to be indicative of the financial position or operations that would have actually occurred had the sale of the QuickVerse Product Line been completed at those dates, nor do they project expected results of operations or financial position for any future period or date.

The unaudited pro forma condensed financial statements do not reflect any adjustments for projected gains on extinguishment of debts associated with the proceeds from the sale of the QuickVerse Product Line. The final result of this transaction will be the discontinuation of this segment of the Company's business.

OUR BOARD OF DIRECTORS AND THE STOCKHOLDERS HOLDING A MAJORITY OF THE ISSUED AND OUTSTANDING SHARES OF THE COMMON STOCK OF THE COMPANY HAVE APPROVED THE ASSET PURCHASE TRANSACTION.

## REVERSE STOCK-SPLIT

This section of the Information Statement describes the purpose and effects of a reverse stock-split of the Company's outstanding common shares. The timing of one or more reverse stock-splits and the reverse stock-splits fraction shall be determined by the Board of Directors at some point during the period extending for up to sixty (60) months or April 30, 2016.

### PURPOSES OF THE REVERSE STOCK-SPLIT

The Board believes that the Company's outstanding common shares may need to be reduced in order that the Company have a capital structure that (i) enables it to achieve a higher per share market price, thereby increasing its reportable per share earnings if and when it becomes profitable, as well as to be able to report other per share market metrics at correspondingly higher levels, (ii) more favorably positions it to enter into potential financing and/or business combination transactions with a minimum of complexity, (iii) enables it to have a total number of shares outstanding that is more consistent with what the Company believes the public securities markets generally associate with well-managed public companies comparable to the Company in terms of market capitalizations, shareholders' equity, operations, and potential earnings and free cash flow, and (iv) positions the Company more favorable to attract potential interest from institutional investors, many of which are subject to restrictions on investments in lower-priced securities.

The Board has been granted the authority to effect one or more reverse stock-splits of all of the then issued and outstanding shares of the Company's common stock. If and when the Board deem it appropriate and advisable for the Company at any time prior to April 30, 2016, any such reverse stock-split to be effectuated on the basis of a fractional ratio at either end of, or within, the range extending from 1-for-10, at one end, to 1-for-100, on the other end, as determined in the discretion of the Company's Board; provided, however, that (i) the Board be under no obligation to effect any reverse stock-split as may be authorized hereinafter by the stockholders, and (ii) in the event that the Board shall effect any such reverse stock-split, the total number of shares of the Company's common stock then authorized shall remain unchanged.

### EFFECTS OF REVERSE STOCK-SPLIT

Following the effectiveness, if any, of a reverse stock-split, current stockholders shall be issued fewer shares of common stock, with such number of shares dependent on the reverse ratio ratified by the Board. For example, if the Board approves of a 1-for-10 reverse stock-split, a stockholder owning 100 shares of common stock prior to such reverse stock-split would hold 10 shares of common stock following such reverse stock-split. **THE HIGHER THE REVERSE RATION (1-FOR-100 BEING HIGHER THAN 1-FOR-10 FOR EXAMPLE), THE GREATER THE REDUCTION OF RELATED SHARES EACH EXISTING STOCKHOLDER, POST REVERSE STOCK-SPLIT, WILL EXPERIENCE.**

In deciding whether to implement the reverse stock-split and the reverse ratio to be used, the Board will consider, among other things, (i) the potential impact and anticipated benefits in the event the Company move toward profitability, (ii) the market price of the Company's common stock, (iii) the number of shares that will be outstanding after the split, (iv) the stockholders' equity at such time, (v) the shares of common stock available for issuance in the future, (vi) the liquidity of the common stock in the market, and (vii) the nature of the Company's operations. The Board shall maintain the right to elect not to proceed with a reverse stock-split if it determines, in its sole discretion, that this proposal is no longer in the best interests of the Company. If the Board does not implement a reverse stock-split by April 30, 2016, the authority granted in this proposal to implement the reverse stock-split will terminate.

## COMMON STOCK

After the effective date of a reverse stock-split, each stockholder will own less shares of our common stock, but the per-share value of these shares may increase proportionately. The reverse stock-split would not change the number of authorized shares of common stock designated by our Articles of Incorporation which stands at 120,000,000 shares of common stock and 5,000,000 shares of preferred stock. Thus, following a reverse stock-split, because the number of issued and outstanding shares of common stock would decrease, the number of shares remaining available for future issuance would effectively increase. These additional shares of common stock would be available for issuance from time to time for corporate purposes such as, but not limited to, raising additional capital, acquisitions of companies or assets and sales of stock or securities convertible into or exercisable for common stock. We believe that the availability of the additional shares may provide the Company with the flexibility to meet our business needs as they arise. If the Company issues additional shares for any purposes, the ownership interest of our current stockholders would be diluted in the same manner as would result from any other share issuance.

The below charts outline the capital structure following a possible reverse stock-split, with individual possible reverse ratios on the low end and the high end accounted for. Note the number of shares disclosed as “Issued and Outstanding” in the below charts account for the number of shares issued and outstanding as of the Record Date.

	Number of shares of Common Stock before 1:10 Reverse Stock-Split	Number of shares of Common Stock after 1:10 Reverse Stock-Split
Authorized	120,000,000	120,000,000
Issued and Outstanding	69,161,238	6,916,123
Reserved for Issuance	---	---
Authorized but Unissued	50,838,762	113,083,877

	Number of shares of Common Stock before 1:100 Reverse Stock-Split	Number of shares of Common Stock after 1:100 Reverse Stock-Split
Authorized	120,000,000	120,000,000
Issued and Outstanding	69,161,238	691,612
Reserved for Issuance	---	---
Authorized but Unissued	50,838,762	119,308,388

#### FRACTIONAL SHARES

No fractional shares of our common stock will be issued as a result of a reverse stock-split. In the event the proposed reverse stock-split leaves a stockholder with a fraction of a share, the number of shares due to the stockholder shall be rounded up. For example, if the proposed reverse stock-split leaves an individual stockholder with one and one half shares, the stockholder will be issued, post proposed reverse stock-split, two whole shares.

#### TAX CONSEQUENCES TO COMMON STOCKHOLDERS

Each stockholder is strongly urged to consult with a tax adviser to determine the particular federal, state, local or foreign income or other tax consequences to such stockholder related to a reverse stock-split.

#### TAX CONSEQUENCES FOR THE COMPANY

The Company should not recognize any gain or loss as a result of a reverse stock-split.

OUR BOARD OF DIRECTORS AND THE STOCKHOLDERS HOLDING A MAJORITY OF THE ISSUED AND OUTSTANDING SHARES OF THE COMMON STOCK OF THE COMPANY HAVE APPROVED THE REVERSE STOCK-SPLIT.

NO ADDITIONAL MATTERS

Except as set forth above, as of the date of this Information Statement, the Board of Directors knows of no other matters other than those described in this Information Statement, which have been approved or considered by the holders of a majority of the shares of our voting stock.
