Press Release Announcing Fourth Quarter and Fiscal Year 2001 Results

Fiscal 2001 Results

Table of Contents

Edgar Filing: INTUIT INC - Form 8-K

On August 21, 2001, Intuit announced its financial results for the fourth quarter and fiscal quarter ended July 31, 2001. Intuit reported fiscal 2001 revenue of \$1.26 billion, an increase of 15 percent over fiscal 2000 revenue of \$1.09 billion. Revenue growth was driven by strong performance in three of Intuit's businesses - Quicken Loans, payroll and consumer tax. Intuit reported a net loss for the year of \$82.8 million, or a loss of \$0.40 per share, compared to net income of \$305.7 million, or \$1.45 per share, in fiscal 2000. Year-over-year comparisons are complicated due to significant non-operating events that impacted fiscal 2000 and 2001 differently. Fiscal 2000 results benefited from a net \$481.1 million pre-tax gain (or \$1.37 in after-tax earnings per share) relating to marketable securities and other investments, which did not occur this year. In fiscal 2001, Intuit's results were impacted by the following significant pre-tax charges totaling approximately \$187.3 million (or \$0.69 in after-tax earnings per share): \$98.1 million in combined write-downs and losses related to marketable securities and other investments; and \$89.2 million more in acquisition-related costs in fiscal 2001 compared to fiscal 2000, due primarily to the accelerated write-down of goodwill for prior acquisitions.

Fourth-Quarter Results

Intuit reported revenue of \$191.2 million for the fourth quarter of fiscal 2001, an increase of 18 percent over the \$162.3 million for the year-ago quarter. Growth was driven by very strong results from two of Intuit's businesses - Quicken Loans and payroll. Intuit reported a net loss for the quarter of \$61.3 million, or a loss of \$0.29 per share. Intuit typically reports a loss in its fourth quarter when revenue from tax preparation businesses is minimal, but operating expenses to develop new products and services continue at relatively consistent levels. In the year-ago quarter, Intuit reported net income of \$17.1 million, or \$0.08 per share. Similar to annual results, quarterly comparisons are complicated due to a significant non-operating event. In fiscal 2000, fourth-quarter results benefited from a net \$79 million pre-tax gain (or \$0.22 in after-tax earnings per share) relating to marketable securities and other investments, which did not occur this year.
