NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

Note 1: General

The consolidated financial statements presented herein have been prepared by Hilton Hotels Corporation in accordance with the accounting policies described in our 2002 Annual Report to Stockholders and should be read in conjunction with the Notes to Consolidated Financial Statements which appear in that report.

The statements for the three and six months ended June 30, 2002 and 2003 are unaudited; however, in the opinion of management, all adjustments (which include normal recurring accruals) have been made which are considered necessary to present fairly the operating results and financial position for the unaudited periods.

Note 2: Earnings Per Share

Basic EPS is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. The weighted average number of common shares outstanding totaled 374 million and 372 million for the three and six months ended June 30, 2002, respectively, and 377 million for both the three and six months ended June 30, 2003. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted. The dilutive effect of the assumed exercise of stock options and convertible securities increased the weighted average number of common shares by 29 million and 27 million for the three and six months ended June 30, 2002, respectively, and 18 million and 22 million for the three and six months ended June 30, 2003, respectively. In addition, the increase to net income attributable to interest on convertible securities assumed to have not been paid was \$3.9 million and \$7.7 million for the three and six months ended June 30, 2002, respectively, and \$2.1 million and \$6.0 million for the three and six months ended June 30, 2003, respectively. The sum of EPS for the first two quarters in 2002 and 2003 differs from the year to date EPS in the respective periods due to the required method of computing EPS in each period.

Note 3: Stock Based Compensation

We apply Accounting Principles Board (APB) Opinion 25 and related interpretations in accounting for our stock-based compensation plans. No compensation cost is reflected in our net income related to our stock option plans for the periods presented, as all options had an exercise price greater than or equal to the market value of the underlying common stock on the date of grant. Had the expense for our stock-based compensation been determined using the fair value based method defined in Financial Accounting Standard (FAS) 123, Accounting for Stock-Based Compensation, our net income and net income per share would have been reduced to the pro forma amounts indicated below:

(in millions, except per share amounts)	Three months ended June 30,		Six months ended June 30,	
	2002	2003	2002	2003
Net income:				
As reported	\$ 76	54	110	63
Incremental compensation expense	(5)	(4)	(10)	(8)
As adjusted	\$ 71	50	100	55
Basic earnings per share:				
As reported	\$.20	.14	.30	.17
As adjusted	\$.19	.13	.27	.15
Diluted earnings per share:				
As reported	\$.20	.14	.30	.17
As adjusted	\$.19	.13	.27	.15

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants in 2002 and 2003, respectively: dividend yield of one percent in each year; expected volatility of 34 and 35 percent; risk-free interest rates of 4.6 and 3.0 percent and expected lives of five years for both 2002 and 2003. These pro forma results may not be indicative of the future results for the full fiscal year due to potential grants, vesting and other factors.

Note 4: Supplemental Cash Flow Information

	Three months ended June 30,		Six months ended June 30,	
	2002	2003	2002	2003
	(in millions)		(in millions)	
Net income	\$ 76	54	110	63
Change in unrealized gains and losses, net of tax	(2)	2	2	8
Cash flow hedge adjustment, net of tax		(1)	2	1
Cumulative translation adjustment, net of tax	1		1	
Comprehensive income	\$ 75	55	115	72

Note 6: Derivative Instruments and Hedging Activities

We have an outstanding swap agreement which qualifies for hedge accounting as a cash flow hedge of a foreign currency denominated liability. The gain or loss on the change in fair value of the derivative is included in earnings to the extent it offsets the earnings impact of changes in fair value of the hedged obligation. Any difference is deferred in accumulated comprehensive income, a component of stockholders' equity.

We have an interest rate swap on certain fixed rate senior notes which qualifies as a fair value hedge. This derivative impacts earnings to the extent of increasing or decreasing actual interest expense on the hedged notes to simulate a floating interest rate. Changes in the fair value of the derivative are offset by an adjustment to the value of the hedged notes. We also have an interest rate swap on the floating rate mortgage of a consolidated joint venture which qualifies as a cash flow hedge. This derivative impacts earnings to the extent of increasing or decreasing actual interest expense on the hedged mortgage to simulate a fixed interest rate, with any incremental fair value change deferred in accumulated other comprehensive income.

There were no amounts recognized or reclassified into earnings for the six months ended June 30, 2002 or 2003 due to hedge ineffectiveness or due to excluding from the assessment of effectiveness any component of the derivatives. We assess on a quarterly basis the effectiveness of our hedges in offsetting the variability in the cash flow or fair value of hedged obligations.

Note 7: New Accounting Standards

In November 2002, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. (FIN) 45, Guarantors' Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others. FIN 45 requires that guarantees issued after December 31, 2002 are recorded as liabilities at fair value, with the offsetting entry recorded based on the circumstances in which the guarantee was issued. Adoption of FIN 45 had no impact on our historical financial statements as existing guarantees are not subject to the measurement provisions of FIN 45. Adoption of FIN 45 for new guarantees did not have a material impact on our financial statements.

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

In December 2002, the FASB issued FAS 148, Accounting for Stock-Based Compensation Transition and Disclosure an amendment of FAS 123. This statement provides alternate methods of transition for a voluntary change to the fair value method of accounting for stock-based compensation. This statement also amends the disclosure requirements of FAS 123 and APB Opinion 28, Interim Financial Reporting, to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based compensation and the effect of the method used on reported results. We have adopted the disclosure provisions of FAS 148.

In January 2003, the FASB issued FIN 46, Consolidation of Variable Interest Entities, which is effective for the quarter ending September 30, 2003 for variable interest entities (VIEs) created before February 1, 2003. FIN 46 establishes criteria to identify VIEs and the primary beneficiary of such entities. Entities that qualify as VIEs must be consolidated by their primary beneficiary. All other holders of interests in a VIE must disclose the nature, purpose, size and activity of the VIE as well as their maximum exposure to losses as a result of involvement with the VIE. We are currently evaluating the provisions of FIN 46 as it relates to our various forms of investments. We expect any disclosure or consolidation requirements will be immaterial.

Note 8: Segment Information

Our operations consist of three reportable segments which are based on similar products or services: Hotel Ownership, Managing and Franchising, and Timeshare. Segment results are presented net of consolidating eliminations for fee based services at the operating income level, without allocating corporate and other unallocated expenses, which is the basis used by management to evaluate segment performance. Segment results are as follows:

	Three months ended June 30,		Six months ended June 30,		
	2002	2003	2002	2003	
	(in millions)		(in millions)		
Revenue					
Hotel Ownership	\$	616	574	1,145	1,097
Managing and Franchising		340	330	652	649
Timeshare		79	79	159	154
Total revenue	\$	1,035	983	1,956	1,900
Operating Income					
Hotel Ownership	\$	138	113	228	173
Managing and Franchising		75	75	143	141
Timeshare		24	20	46	38
Corporate and other unallocated expenses		(34)	(44)	(77)	(102)
Total operating income	\$	203	164	340	250

Note 9: Asset Dispositions

In the 2003 first quarter, we sold four Homewood Suites by Hilton hotel properties in two separate transactions for total consideration of approximately \$40 million. We will continue to operate three of the hotels under long-term management agreements and we have retained a long-term franchise contract on the fourth hotel. In addition, we wrote off the value assigned to certain long-term management and franchise agreements that were terminated in the first six months of 2003. These transactions resulted in a net pre-tax loss of approximately \$3 million in the six month period.

In the second quarter of 2002, we recognized a pre-tax loss of \$16 million and a tax benefit of \$16 million on the sale of the Harrison Conference Center hotel chain. Additionally, we recognized approximately \$2 million in pre-tax gains on the sale of various timeshare notes

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

receivable, and \$1 million in pre-tax losses from writing off the value assigned to management and franchise agreements terminated during the period.

Note 10: CNL Joint Venture

In the fourth quarter of 2002, we entered into a partnership agreement with CNL Hospitality Properties, Inc. to acquire seven hotel properties. The partnership acquired the 500-room Doubletree at Lincoln Centre in Dallas, Texas and the 428-room Sheraton El Conquistador Resort and Country Club in Tucson, Arizona in December 2002. The Tucson property has been converted to the Hilton brand and the Dallas property is in the process of being converted to a Hilton. In connection with the formation of the joint venture, we contributed approximately \$11 million to the partnership in December 2002.

In February 2003, we contributed the 437-room Hilton Rye Town in Rye Brook, New York and CNL contributed the 630-room Doubletree Crystal City in Arlington, Virginia to the partnership. The gain resulting from our contribution of the Hilton Rye Town has been deferred and will be recognized over the life of the long-term management contract retained on the property. Also in February 2003, the partnership acquired the 257-suite Embassy Suites Santa Clara in Santa Clara, California, the 267-suite Embassy Suites Crystal City in Arlington, Virginia, and the 174-suite Embassy Suites Orlando Airport in Orlando, Florida. We operate all seven hotels under long-term management contracts and have a 25% ownership in the partnership.

In connection with the structuring of the CNL partnership, including our contribution of the Hilton Rye Town, we received a cash distribution totaling approximately \$46 million in the 2003 first quarter. This distribution is included in proceeds from asset dispositions in the accompanying consolidated statements of cash flow.

Note 11: Impairment Loss and Related Costs

Results in the 2003 first half include a \$17 million pre-tax charge in the first quarter related to the decline in value of certain equity securities held by us. The decline in value of the securities was deemed to be other-than-temporary in the first quarter, thus requiring an earnings charge, primarily based on the length of time the securities had traded below cost.

In the second quarter of 2002, we recorded a \$10 million charge for remediation efforts relating to mold found at the Kalia Tower at the Hilton Hawaiian Village.

Note 12: Guarantees

We have established franchise financing programs with third party lenders to support the growth of our Hilton Garden Inn, Homewood Suites by Hilton, Hampton and Embassy Suites hotels. As of June 30, 2003, we have provided guarantees of \$54 million on loans outstanding under the programs. In addition, we have guaranteed \$66 million of debt and other obligations of unconsolidated affiliates and third parties, bringing our total guarantees to \$120 million. Our outstanding guarantees have terms of one to ten years. We also have commitments under letters of credit totaling \$88 million as of June 30, 2003. We believe it is unlikely that material payments will be required under these agreements.

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

In addition, we remain a guarantor on 12 operating leases sold to WestCoast Hospitality Corporation as part of the sale of the Red Lion hotel chain in 2001. However, we have entered into an indemnification and reimbursement agreement with WestCoast, which requires WestCoast to reimburse us for any costs and expenses incurred in connection with the guarantee. The minimum lease commitment under these 12 operating leases totals approximately \$5 million annually through 2020.

We have also provided performance guarantees to certain owners of hotels which we operate under management contracts. Most of these guarantees allow us to terminate the contract rather than fund shortfalls if specified performance levels are not achieved. In limited cases, we are obligated to fund performance shortfalls. At June 30, 2003, we have two contracts containing performance guarantees with possible cash outlays totaling approximately \$215 million through 2012. We anticipate that the future operating performance levels of these hotels will be substantially achieved; therefore, funding under these guarantees is expected to be limited, although there can be no assurance that this will be the case. In addition, we do not anticipate losing any significant management contracts in 2003 pursuant to these guarantees.

The liability for potential obligations under our outstanding guarantees totaled approximately \$3 million as of June 30, 2003. Under limited circumstances, we may be obligated to provide additional guarantees or letters of credit totaling \$64 million, including future construction loan guarantees of an unconsolidated joint venture totaling \$34 million at June 30, 2003.

Note 13: Long-Term Debt

In June 1998, we entered into a five-year \$500 million revolving credit facility to acquire the remaining 50% interest in the Hilton Hawaiian Village. In May 2003, this facility was repaid and the commitment was extinguished.

We are in the process of establishing a new five-year revolving credit facility in the amount of \$1 billion, with an option to increase the size of the facility by an additional \$250 million. This new facility will replace our existing \$1.2 billion revolving facility expiring November 2004 and our \$150 million 364-day revolving facility expiring November 2003. As of June 30, 2003, \$450 million of borrowings were outstanding under the \$1.2 billion revolver and the 364-day facility was undrawn. We expect to have the new facility established in the third quarter of 2003.

In April 2003, we sold \$500 million of 3.375% Convertible Senior Notes due 2023 in a private placement transaction. In May 2003, the initial purchasers of these notes exercised their option to purchase an additional \$75 million of notes, bringing the total sale to \$575 million. The notes are convertible into shares of our common stock at an initial conversion price of \$22.50 per share of common stock, upon the occurrence of certain events. We used the net proceeds from the offering to redeem our 5% Convertible Subordinated Notes due 2006 and to repay indebtedness under our existing revolving credit facility. We have filed a registration statement with the Securities and Exchange Commission to register the notes and underlying convertible securities for resale.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**The Company**

We are engaged in the ownership, management and development of hotels, resorts and timeshare properties and the franchising of lodging properties. At June 30, 2003, our system contained 2,119 properties totaling approximately 341,000 rooms worldwide. Our brands include Hilton, Hilton Garden Inn, Doubletree, Embassy Suites, Hampton, Homewood Suites by Hilton and Conrad. In addition, we develop and operate timeshare resorts through Hilton Grand Vacations Company and its related entities. We are also engaged in various other activities related or incidental to the operation of hotels.

The number of properties and rooms at June 30, 2003 by brand and by type are as follows:

Brand	Properties	Rooms
Hilton	231	87,815
Hilton Garden Inn	167	22,843
Doubletree	152	40,621
Embassy Suites	172	41,789
Homewood Suites by Hilton	124	14,139
Hampton	1,229	125,200
Other	16	5,355
Timeshare	28	3,289
Total	2,119	341,051

Type	Properties	Rooms
Owned (1)	58	33,744
Leased	7	2,650
Joint Venture	67	20,111
	132	56,505
Managed	194	49,327
Franchised	1,765	231,930
	1,959	281,257
Timeshare	28	3,289
Total	2,119	341,051

(1) Includes majority owned and controlled hotels.

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

Our operations consist of three reportable segments which are based on similar products or services: Hotel Ownership, Managing and Franchising, and Timeshare. The Hotel Ownership segment derives revenue from owned, majority owned and leased hotel properties and equity earnings from unconsolidated affiliates (primarily hotel joint ventures). The Managing and Franchising segment provides services including hotel management and licensing of our family of brands to franchisees. This segment generates its revenue from fees charged to hotel owners. The Timeshare segment consists of multi-unit timeshare resorts. This segment sells and finances timeshare intervals and operates timeshare resorts.

Critical Accounting Policies and Estimates

In our Annual Report on Form 10-K for the year ended December 31, 2002, we identified the critical accounting policies which affect our more significant estimates and assumptions used in preparing our consolidated financial statements. Those policies include accounting for bad debts, investments, notes receivable, long-lived assets, intangible assets, self-insurance reserves, and contingencies and litigation. We have not changed these policies from those previously disclosed in our annual report.

Development and Capital Spending

Overview

We intend to grow our hotel brands primarily through franchising and the addition of management contracts, which require little or no capital investment. In addition, we will continue to invest in capital improvements and select projects at our owned hotels and we may seek to acquire hotel properties on a strategic and selective basis. We also intend to continue investing in the development of timeshare properties.

During the first half of 2003, we added a total of 45 hotels with approximately 6,000 rooms to our portfolio. A total of 10 properties with approximately 2,100 rooms were removed from our system during the same period. We expect to add approximately 100 to 115 hotels with 12,000 to 15,000 rooms to our system in 2003, with Hampton and Hilton Garden Inn accounting for approximately two-thirds of the new development. Conversions from outside our family of brands to one of our brands are expected to account for approximately ten percent of the unit growth. Virtually all of the growth is expected to be through franchising and management agreements.

Our brand growth strategy continues to benefit from the significant market share premiums most of our brands command over their respective competitive sets. With 100 representing a brand's fair share of the market, our brands (according to Smith Travel Research) posted revenue per available room (RevPAR) index numbers as follows for the first six months of 2003: Embassy Suites, 125.2; Homewood Suites by Hilton, 119.5; Hampton Inn, 118.8; Hilton Garden Inn, 114.0; and Hilton, 108.7. The Doubletree brand, at 99.3, showed a 0.7 point RevPAR index gain for the period.

Our ability to grow the number of managed and franchised hotels is affected by the factors set forth under *Forward-Looking Statements*, such as national and regional economic conditions, including the magnitude and duration of the current economic downturn in the United States; the effects of actual and threatened terrorist attacks and international conflicts; credit availability; relationships with franchisees and property owners; and competition from other hotel brands.

In total, we anticipate spending approximately \$360 million on capital expenditures in 2003, which includes \$165 million for routine improvements and technology, \$110 million on timeshare projects, \$50 million on special return on investment projects at owned hotels and \$35 million at the Hilton Hawaiian Village related to mold remediation. Routine improvements include expenditures for equipment, fixtures and wall and floor coverings. Expenditures required to complete our capital spending programs will be financed through available cash flow and general corporate borrowings.

We will continue to review our owned hotel portfolio for potential repositioning or re-branding opportunities and may seek to sell certain assets (see *Liquidity and Capital Resources* *Asset Dispositions*).

Owned Hotels

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

Capital expenditures during the first half of 2003 totaled \$79 million, primarily consisting of routine improvements and technology capital expenditures and expenditures related to the mold remediation efforts at the Hilton Hawaiian Village. We expect to re-open the hotel's Kalia Tower guest rooms in September 2003 (see Development and Capital Spending Timeshare).

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

Despite the current difficult operating environment, we expect to continue to make appropriate capital expenditures to maintain our owned assets and improve technology at our properties. Our technology improvements include Hilton's proprietary OnQ system, which is a single technology platform that links our brands and hotels to enhance customer service and loyalty, as well as maximize operational efficiencies. The OnQ system is on track for installation at virtually all of our 2,100-plus hotels by year-end 2003.

Management and Franchise Contracts

The total property additions in the first six months of 2003 included 42 franchise properties and two managed properties owned by third parties. Included in these additions are five properties which, due in part to the market share leadership of our brands and the challenging environment for many hotel operators, were converted to our family of brands in the period. The five conversions included one Hilton, two Doubletree and two Hampton properties.

Additions in the first six months of 2003 include the 400-room Conrad Bangkok in Bangkok, Thailand. Pursuant to a joint venture with Hilton International, new Conrad managed hotels are scheduled to open in Miami, Florida in January 2004, Bali, Indonesia in February 2004 and Phuket, Thailand in November 2004.

During the 2003 second quarter, we announced an agreement to add five franchised Doubletree hotels in Tennessee, four of which will be converted from an independent brand, and one property in Memphis which converted from the Hilton brand in July 2003. We also announced an agreement to convert the former Adam's Mark hotel in Memphis to a 408-room Hilton in 2004 following a major renovation. In addition, during the second quarter of 2003 we secured the management contract for the 426-room Hilton Cancun Beach & Golf Resort in Mexico, previously a Hilton franchised hotel.

Timeshare

We are currently developing three new timeshare projects in Las Vegas, Nevada; Orlando, Florida; and Honolulu, Hawaii. The Las Vegas project, located at the north end of the Las Vegas Strip, will have 283 units in its first phase and is scheduled for completion in November 2003. In Orlando, the new project will have 96 units in its first two phases, with phase one scheduled for completion in February 2004 and phase two scheduled for completion in May 2004. In Honolulu, we are converting six floors of the Kalia Tower at the Hilton Hawaiian Village into 72 timeshare units, which are scheduled for completion in December 2003. The total construction cost for phase one at the new Las Vegas property, phases one and two at the new Orlando property and the 72-unit Kalia Tower conversion is estimated to be \$170 million, with an estimated \$95 million being spent in 2003.

Capital expenditures associated with our timeshare operations during the first half of 2003 totaled \$39 million. The capital expenditures associated with our non-lease timeshare products are reflected as inventory until the timeshare intervals are sold. We also provide financing to the buyers of our timeshare intervals. During the first half of 2003, we issued approximately \$86 million of loans related to timeshare financings, which comprised the majority of our additional investments totaling \$96 million. Principal collections on timeshare notes during the same period totaled approximately \$48 million.

Distribution Strategy

In April 2003, we announced an integrated strategy related to electronic and on-line distribution. The strategy includes new brand standards stating that, while each hotel will establish its own room rates, each hotel is required to offer such rates consistently across all designated distribution channels, including our proprietary websites, Hilton Reservation Worldwide call centers, Global Distribution Systems / travel agents, and through hotels directly. In addition, enhancements to our major brand websites have been implemented as part of the strategy. We also signed an agreement with Expedia Inc. to be our preferred third-party online merchant-model vendor. Under the terms of the agreement, we have secured from Expedia what we believe are the most favorable merchant-model terms in the hotel industry. Additionally, participating hotels are not required to commit to Expedia a specific amount of room inventory.

Liquidity and Capital Resources

Overview

Net cash provided by operating activities totaled \$242 million and \$216 million for the six months ended June 30, 2002 and 2003, respectively. The decrease in 2003 was primarily the result of lower operating results. Net cash used in investing activities was \$69 million for the first six months of 2002 and \$41 million for the first six months of 2003. The net decrease in cash used in investing activities was primarily due to the absence of acquisition activity in 2003 in comparison to the acquisition of the Hilton Waikoloa Village in May 2002, partially offset by the increased volume of timeshare notes issued between comparable periods. Net cash used in financing activities totaled \$187 million for the first six months of 2002 and \$170 million for the first six months of 2003. The decrease in cash used in financing activities is the result of higher levels of debt repayment in the 2002 period.

Cash and equivalents totaled \$59 million at June 30, 2003, an increase of \$5 million from December 31, 2002. We believe that our operating cash flow, available borrowings under our revolving credit facilities and our ability to obtain additional financing through various financial markets are sufficient to meet our liquidity needs (see *Liquidity and Capital Resources* *Financing*). Any projections of future financial needs and sources of working capital are subject to uncertainty. See *Results of Operations* and *Forward-Looking Statements* for further discussion of conditions that could adversely affect our estimates of future financial needs and sources of working capital.

Financing

In June 1998, we entered into a five-year \$500 million revolving credit facility to acquire the remaining 50% interest in the Hilton Hawaiian Village. In May 2003, this facility was repaid and the commitment was extinguished. In November 1999, we entered into a \$1.8 billion revolving credit facility consisting of a \$1.4 billion revolver which expires in 2004 and a \$400 million 364-day revolver. The 364-day revolver has been extended through November 2003 and the commitment has been reduced to \$150 million. In December 2002, we reduced the commitment under the \$1.4 billion revolver to \$1.2 billion. As of June 30, 2003, \$450 million of borrowings were outstanding under the \$1.2 billion revolver. The 364-day revolver was undrawn at June 30, 2003. Total revolving debt capacity of approximately \$730 million was available to us at June 30, 2003.

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

We are in the process of establishing a new five-year revolving credit facility in the amount of \$1 billion, with an option to increase the size of the facility by an additional \$250 million. This new facility will replace our existing \$1.2 billion revolving facility expiring November 2004 and our \$150 million 364-day revolving facility expiring November 2003. We expect to have the new facility established in the third quarter of 2003.

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

In April 2003, we sold \$500 million of 3.375% Convertible Senior Notes due 2023 in a private placement transaction. In May 2003, the initial purchasers of these notes exercised their option to purchase an additional \$75 million of notes, bringing the total sale to \$575 million. The notes are convertible into shares of our common stock at an initial conversion price of \$22.50 per share of common stock, upon the occurrence of certain events. We used the net proceeds from the offering to redeem our 5% Convertible Subordinated Notes due 2006 and to repay indebtedness under our existing revolving credit facility. We have filed a registration statement with the Securities and Exchange Commission to register the notes and underlying convertible securities for resale.

In October 1997, we filed a shelf registration statement with the Securities and Exchange Commission registering up to \$2.5 billion in debt or equity securities. At June 30, 2003, available financing under the shelf totaled \$825 million. The terms of any additional securities offered under the shelf, or any other securities we may issue in any private placement transaction, will be determined by market conditions at the time of issuance.

In connection with the spin-off in 1998 of our gaming business to a new corporation named Park Place Entertainment Corporation, Park Place assumed and agreed to pay 100% of the amount of each payment required to be made by us under the terms of the indentures governing our \$325 million 7% Senior Notes due 2004. Because these notes remain our legal obligation, they are included in our debt balance and a receivable from Park Place in an equal amount is included in our consolidated balance sheet. We are obligated to make any payment Park Place fails to make under these notes.

As of June 30, 2003, approximately 23% of our long-term debt (excluding the Park Place allocated debt and including the impact of interest rate swaps) was floating rate debt.

The following table summarizes our significant contractual obligations as of June 30, 2003, including long-term debt and operating lease commitments:

Contractual Obligations (in millions)	Total	Less than 1 year	Payments Due by Period		
			1 - 3 years	3 - 5 years	After 5 years
Long-term debt	\$ 4,430	12	806	916	2,696
Operating leases	821	37	72	65	647
Total contractual obligations	\$ 5,251	49	878	981	3,343

Development Financing and Other Commercial Commitments

The following table summarizes our development financing and other commercial commitments as of June 30, 2003:

Commercial Commitments (in millions)	Total Amounts Committed	Less than 1 year	Expirations by Period		
			1 - 3 years	3 - 5 years	After 5 years
Letters of credit	\$ 88	88			
Guarantees	120	38	26	36	20
Total commercial commitments	\$ 208	126	26	36	20

In addition, we remain a guarantor on 12 operating leases sold to WestCoast Hospitality Corporation as part of the sale of the Red Lion hotel chain in 2001. However, we have entered into an indemnification and reimbursement agreement with WestCoast, which requires WestCoast to reimburse us for any costs and expenses incurred in connection with the guarantee. The minimum lease commitment under these 12 operating leases totals approximately \$5 million annually through 2020.

We have also provided performance guarantees to certain owners of hotels which we operate under management contracts. Most of these guarantees allow us to terminate the contract rather than fund shortfalls if specified performance levels are not achieved. In limited cases, we are obligated to fund performance shortfalls. At June 30, 2003, we have two contracts containing performance guarantees with possible cash outlays totaling approximately \$215 million through 2012. We anticipate that the future operating performance levels of these hotels will be substantially achieved; therefore, funding under these guarantees is expected to be limited, although there can be no assurance that this will be the case. In addition, we do not anticipate losing any significant management contracts in 2003 pursuant to these guarantees.

Under limited circumstances, we may be obligated to provide additional guarantees or letters of credit totaling \$64 million, including future construction loan guarantees of an unconsolidated joint venture totaling \$34 million at June 30, 2003.

Asset Dispositions

In the 2003 first quarter, we sold four Homewood Suites by Hilton hotel properties in two separate transactions for total consideration of approximately \$40 million. We will continue to operate three of the hotels under long-term management agreements and we have retained a long-term franchise contract on the fourth hotel. In addition, we wrote off the value assigned to certain long-term management and franchise agreements that were terminated in the first six months of 2003. These transactions resulted in a net pre-tax loss of approximately \$3 million in the six month period.

Joint Ventures

In the fourth quarter of 2002, we entered into a partnership agreement with CNL Hospitality Properties, Inc. to acquire seven hotel properties. The partnership acquired the 500-room Doubletree at Lincoln Centre in Dallas, Texas and the 428-room Sheraton El Conquistador Resort and Country Club in Tucson, Arizona in December 2002. The Tucson property has been converted to the Hilton brand and the Dallas property is in the process of being converted to a Hilton. In connection with the formation of the joint venture, we contributed approximately \$11 million to the partnership in December 2002.

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

In February 2003, we contributed the 437-room Hilton Rye Town in Rye Brook, New York and CNL contributed the 630-room Doubletree Crystal City in Arlington, Virginia to the partnership. The gain resulting from our contribution of the Hilton Rye Town has been deferred and will be recognized over the life of the long-term management contract retained on the property. Also in February 2003, the partnership acquired the 257-suite Embassy Suites Santa Clara in Santa Clara, California, the 267-suite Embassy Suites Crystal City in Arlington, Virginia, and the 174-suite Embassy Suites Orlando Airport in Orlando, Florida. We operate all seven hotels under long-term management contracts and have a 25% ownership in the partnership.

In connection with the structuring of the CNL partnership, including our contribution of the Hilton Rye Town, we received a cash distribution totaling approximately \$46 million in the 2003 first quarter. This distribution is reflected as proceeds from asset dispositions in the accompanying consolidated statements of cash flow.

Stockholders' Equity

Dividends paid on common shares were \$.02 per share for the three month periods ended June 30, 2002 and 2003 and \$.04 per share for the six month periods ended June 30, 2002 and 2003.

Results of Operations

The following discussion presents an analysis of our results of operations for the three and six months ended June 30, 2002 and 2003. Our operations consist of three reportable segments which are based on similar products or services: Hotel Ownership, Managing and Franchising, and Timeshare. Our results are significantly affected by occupancy and room rates achieved by hotels, our ability to manage costs, the relative mix of owned, leased, managed and franchised hotels, the number and pricing of timeshare interval sales and the change in the number of available hotel rooms through acquisition, development and disposition.

Results are also impacted by economic conditions and capacity. Unfavorable changes in these factors could negatively impact hotel room demand and pricing which, in turn, could limit our ability to pass through operating cost increases in the form of higher room rates. Additionally, our ability to manage costs could be adversely impacted by significant increases in operating expenses, resulting in lower operating margins. See **Forward-Looking Statements** for a detailed description of these and other conditions that could adversely affect our results of operations.

We anticipate that economic and political factors beyond our control will continue to create challenges for the lodging industry and our company. Soft economic conditions and the uncertain world political situation are expected to impact the recovery of independent business travel, placing continued pressure on room rates. Higher insurance costs and property taxes, coupled with this rate pressure, are expected to adversely affect margins. We will continue to focus on areas which we can in part control, including managing our costs, achieving RevPAR premiums in the markets where we operate, building occupancy, adding new units to our family of brands, leveraging technology and delivering outstanding customer service. We believe that our focus on these core strategies, combined with our financial strength, diverse market presence, strong brands, and well-maintained, strategically located properties will enable us to remain competitive.

Comparison of fiscal quarters ended June 30, 2002 and 2003

A summary of our consolidated results for the three months ended June 30, 2002 and 2003 is as follows:

(in millions, except per share amounts)	2002	2003	% Change
Revenue	\$ 1,035	983	(5)%
Operating income	203	164	(19)
Net income	76	54	(29)
Basic EPS	.20	.14	(30)
Diluted EPS	.20	.14	(30)

Overall results in the 2003 second quarter were adversely impacted by business declines related to the conflict in Iraq, as well as continuing pressure on average daily room rates. Lower rates, together with increased healthcare and other insurance costs, adversely impacted margins in the quarter. Results in the 2003 second quarter benefited from a combination of lower depreciation and lower interest expense compared to the 2002 second quarter.

Revenue from owned hotels totaled \$531 million in the 2003 second quarter, a decrease of seven percent from \$572 million in the 2002 second quarter, while total expenses increased two percent to \$376 million. Results at our domestic owned hotels were adversely impacted by reduced travel as a result of the conflict in Iraq and soft demand from business travelers and higher-rated groups, resulting in average daily rate declines in the quarter. These rate declines impacted RevPAR and, together with decreased food and beverage revenue from group business and increased insurance costs, adversely affected operating results and profitability at our owned hotels. Our comparable owned hotels also reported a seven percent revenue decline and two percent expense increase during the quarter. RevPAR for comparable owned properties declined 6.9 percent in the quarter, with occupancy down 2.4 points to 73.6 percent and average daily rate down 3.9 percent to \$146.07. However, solid occupancy levels were achieved at many of our owned hotels, including levels of 75 percent-plus in New York, Boston, Chicago, Honolulu, New Orleans, Phoenix and Santa Barbara, primarily as a result of comparatively strong leisure-oriented business. The impact to operating results of property dispositions in 2002 and 2003 was partially offset by the May 2002 acquisition of the Hilton Waikoloa Village.

Leased hotel revenue totaled \$27 million in the 2003 second quarter, a \$3 million decrease compared to the 2002 second quarter, while leased hotel expenses also declined \$3 million to \$24 million in the 2003 second quarter. Due to the relatively large size of the lease payments required in a hotel operating lease, the leased properties operate at margins significantly lower than our owned hotels.

Management and franchise fee revenue in the 2003 second quarter increased \$1 million to \$88 million. Fee revenue is based primarily on rooms revenue at franchise properties and total operating revenue (and to a lesser extent gross operating profits or cash flow) at managed properties. Fees from newly opened hotels offset the impact of lower RevPAR, which caused lower comparable base and incentive fees. Strong leisure demand at the beginning of summer, along with less impact from the Iraq conflict, enabled our focused-service, midscale brands to post generally smaller RevPAR declines when compared to our full-service, urban properties.

Revenue from our timeshare operations (included in other fees and income) totaled \$79 million in the 2003 second quarter, equal to the 2002 second quarter, while 2003 second quarter expenses (included in other operating expenses) were \$58 million, a \$4 million increase from the 2002 period. Overall timeshare unit sales in the quarter were up nine percent over the 2002 period with strong sales at our new projects in Las Vegas and Orlando. The average unit sales price increased seven percent across the system during the quarter. Timeshare revenue and profitability during the quarter were impacted by the required percentage-of-completion method of accounting for our projects in development in Las Vegas and Orlando, and the required lease accounting for the Hilton Club in New York. Second quarter 2003 results were also adversely impacted by the sale of timeshare receivables in June and November of 2002.

Depreciation and amortization expense decreased \$8 million in the second quarter of 2003 to \$79 million, primarily due to property sales and one-time depreciation expense adjustments totaling approximately \$5 million made at certain properties in the 2003 second quarter.

Results in the 2002 second quarter include a \$10 million pre-tax charge for mold remediation efforts at the Hilton Hawaiian Village.

Corporate Activity

Corporate expense increased \$6 million in the 2003 second quarter to \$19 million. Our second quarter 2002 corporate expense included a \$4 million benefit from the reversal of a reserve for bad debt related to a note receivable that was repaid during the prior year quarter. Excluding this benefit, corporate expense increased \$2 million compared to the 2002 second quarter.

Interest and dividend income decreased \$6 million compared with the prior year period. The decrease reflects the repayment in June 2002 by Park Place of the \$300 million 7.375% Senior Notes assumed by Park Place at the time of the spin-off of our gaming business. As these notes were assumed by Park Place but remained our legal obligation prior to repayment, interest on the notes is reflected as both interest income and interest expense in our 2002 consolidated financial statements. Interest expense, net of amounts capitalized, decreased \$10 million reflecting lower outstanding debt balances and lower interest rates, as well as the aforementioned note repayment by Park Place.

The total pre-tax loss on asset dispositions of \$2 million in the second quarter of 2003 represents the write-off of value assigned to certain long-term management and franchise agreements that were terminated during the quarter. In the second quarter of 2002, we recognized a pre-tax loss of \$16 million and a tax benefit of \$16 million on the sale of the Harrison Conference Center hotel chain. Additionally, we recognized approximately \$2 million in pre-tax gains on the sale of various timeshare notes receivable, and \$1 million in pre-tax losses from writing off the value assigned to management and franchise agreements terminated during the period.

The effective income tax rate for the second quarter of 2003 increased to 37% from 28% in the second quarter of 2002. The effective rate in the 2002 quarter benefited from the utilization of capital loss tax carryforwards and the reversal of book deferred tax balances no longer required as a result of the sale of our Harrison Conference Center hotel chain in June 2002. Excluding this benefit, the effective tax rate in the prior year quarter was 37%. Our effective income tax rate is determined by the level and composition of pre-tax income and the mix of income subject to varying foreign, state and local taxes.

Hotel Statistics

RevPAR for U.S. owned hotels and system-wide for the three months ended June 30, 2002 and 2003 is as follows:

U.S. owned (1)				
Three months ended June 30,				
	2002	2003	% Change	
Hilton	\$ 123.25	114.03	(7.5)%	
All Other	75.57	73.93	(2.2)	
Total	115.56	107.56	(6.9)	

(1) Statistics are for comparable U.S. hotels, and include only hotels in the system as of June 30, 2003 and owned by us since January 1, 2002.

System-wide (2)				
Three months ended June 30,				
	2002	2003	% Change	
Hilton	\$ 93.60	87.88	(6.1)%	
Hilton Garden Inn	67.10	65.54	(2.3)	
Doubletree	71.58	67.25	(6.0)	
Embassy Suites	88.10	84.83	(3.7)	
Homewood Suites by Hilton	73.65	71.83	(2.5)	
Hampton	56.22	55.05	(2.1)	
Other	81.83	55.85	(31.7)	

(2) Statistics are for comparable hotels, and include only hotels in the system as of June 30, 2003 and owned, operated or franchised by us since January 1, 2002.

Comparison of six months ended June 30, 2002 and 2003

A summary of our consolidated results for the six months ended June 30, 2002 and 2003 is as follows:

(in millions, except per share amounts)	2002	2003	% Change
Revenue	\$ 1,956	1,900	(3)%
Operating income	340	250	(26)
Net income	110	63	(43)
Basic EPS	.30	.17	(43)
Diluted EPS	.30	.17	(43)

Results in the 2003 first half were adversely impacted by business declines related to the conflict in Iraq and a continuing soft U.S. economy. Room rate pressure owing primarily to a shift in business mix from the higher-rated group and independent business travel segments to the more price-sensitive leisure customer also adversely impacted results in the six month period. Results in the 2003 six month period were also negatively impacted by a pre-tax charge of \$17 million related to the impairment of certain equity securities held by us, as well as increased insurance costs. Results in the 2003 first half benefited from lower depreciation and lower interest expense. In addition, net income in the 2003 six month period includes a benefit of approximately \$4 million from the utilization of capital loss tax carryforwards.

Revenue from owned hotels totaled \$1.014 billion in the 2003 first half, a decrease of four percent from \$1.053 billion in the 2002 six month period, while total expenses increased five percent to \$748 million. Results at our domestic owned hotels were adversely impacted by the economic downturn in the U.S. and reduced travel as a result of the conflict in Iraq. Soft demand from business travelers and higher-rated groups resulted in average daily rate declines in the six month period. These rate declines impacted RevPAR and, together with decreased food and beverage revenue from group business and increased insurance costs, adversely affected operating results and profitability at our owned hotels. Our comparable owned hotels reported a five percent revenue decline and three percent expense increase during the six month period. RevPAR for comparable owned properties declined 4.8 percent in the first six months, with occupancy down 1.0 point to 70.3 percent and average daily rate down 3.4 percent to \$145.95. However, comparatively solid occupancy levels were achieved at many of our owned hotels, including those in New York, Boston, Honolulu, New Orleans, Phoenix and Santa Barbara, primarily through increased business from leisure customers and lower-rated groups. The impact to operating results of property dispositions in 2002 and 2003 was partially offset by the May 2002 acquisition of the Hilton Waikoloa Village.

Leased hotel revenue totaled \$51 million in the 2003 six month period, an \$8 million decrease compared to the 2002 six month period, while leased hotel expenses declined \$6 million to \$47 million in the first half of 2003. Results in 2002 benefited from the impact of the 2002 Winter Olympics at our leased property in Salt Lake City, Utah.

Management and franchise fee revenue in the 2003 first half was level with the prior year at \$168 million. New hotel openings resulted in higher fees during the six months, offset by lower comparable base and incentive fees due to RevPAR declines. Strong leisure demand, along with less impact from the Iraq conflict, enabled our focused-service, midscale brands to post generally smaller RevPAR declines when compared to our full-service, urban properties.

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

The decrease in other fees and income in 2003 is primarily the result of lower timeshare revenue and lower earnings from unconsolidated affiliates accounted for under the equity method compared to the 2002 six month period. Revenue from our timeshare operations totaled \$154 million, a decrease of \$5 million from the 2002 six month period, while expenses in the 2003 first half were \$115 million, a \$3 million increase from the 2002 period. Overall timeshare unit sales in the first six months of 2003 were up four percent over the 2002 period. The average unit sales price increased ten percent across the system during the period. Timeshare revenue and profitability in the first six months of 2003 were impacted by the required percentage-of-completion method of accounting for our projects in development in Las Vegas and Orlando, and the required lease accounting for the Hilton Club in New York. First half 2003 results were also adversely impacted by the sale of timeshare receivables in June and November of 2002.

Depreciation and amortization expense decreased \$7 million in the first half of 2003 to \$165 million, primarily due to property sales and one-time depreciation expense adjustments totaling approximately \$5 million made at certain properties in the 2003 second quarter.

Results in the 2003 first half include a \$17 million pre-tax charge related to the decline in value of certain equity securities held by us. The decline in value of the securities was deemed to be other-than-temporary in the 2003 first quarter, thus requiring an earnings charge, primarily based on the length of time the securities had traded below cost. A \$10 million pre-tax charge was recorded in the first half of 2002 related to mold remediation efforts at the Hilton Hawaiian Village.

Corporate Activity

Corporate expense increased \$8 million in the 2003 first half to \$38 million. Our 2003 corporate expense includes a \$3 million bad debt expense in the 2003 first quarter related to a note receivable that, as a result of certain events in the quarter, was deemed uncollectable. Corporate expense in the 2002 first half includes a benefit of approximately \$4 million related to the reversal of bad debt expense for a partially reserved note receivable that was repaid during the second quarter of 2002. Excluding these bad debt expense items, corporate expense increased \$1 million compared to the 2002 first half.

Interest and dividend income decreased \$13 million compared with the prior year period. The decrease reflects the repayment in June 2002 by Park Place of the \$300 million 7.375% Senior Notes assumed by Park Place at the time of the spin-off of our gaming business. As these notes were assumed by Park Place but remained our legal obligation prior to repayment, interest on the notes is reflected as both interest income and interest expense in our 2002 consolidated financial statements. Interest expense, net of amounts capitalized, decreased \$22 million reflecting lower outstanding debt balances, as well as the aforementioned note repayment by Park Place.

The total pre-tax loss on asset dispositions of \$3 million in the first half of 2003 represents the sale of four Homewood Suites by Hilton properties and the write-off of value assigned to certain long-term management and franchise agreements that were terminated during 2003. In the second quarter of 2002, we recognized a pre-tax loss of \$16 million and a tax benefit of \$16 million on the sale of the Harrison Conference Center hotel chain. Additionally, we recognized approximately \$2 million in pre-tax gains on the sale of various timeshare notes receivable, and \$1 million in pre-tax losses from writing off the value assigned to management and franchise agreements terminated during the six month period.

The effective income tax rate for the first half of 2003 increased to 34% from 32% in the first half of 2002. The effective rate in the 2003 six month period benefited from the utilization of capital loss tax carryforwards as a result of the transaction with CNL, while the effective rate in the 2002 period benefited from the utilization of capital loss tax carryforwards and the reversal of book deferred tax balances no longer required

Edgar Filing: HILTON HOTELS CORP - Form 10-Q

as a result of the Harrison sale. Excluding the benefits from the respective periods, the effective tax rate in each six month period was 38%.

Hotel Statistics

RevPAR for U.S. owned hotels and system-wide for the six months ended June 30, 2002 and 2003 is as follows:

U.S. owned (1) Six months ended June 30,			
	2002	2003	% Change
Hilton	\$ 114.13	108.13	(5.3)%
All Other	73.98	73.43	(.7)
Total	107.66	102.53	(4.8)

(1) Statistics are for comparable U.S. hotels, and include only hotels in the system as of June 30, 2003 and owned by us since January 1, 2002.

System-wide (2) Six months ended June 30,			
	2002	2003	% Change
Hilton	\$ 89.27	84.97	(4.8)%
Hilton Garden Inn	62.62	62.40	(.4)
Doubletree	68.76	65.49	(4.8)
Embassy Suites	85.73	83.34	(2.8)
Homewood Suites by Hilton	70.17	68.37	(2.6)
Hampton	52.13	51.26	(1.7)
Other	74.12	60.33	(18.6)

(2) Statistics are for comparable hotels, and include only hotels in the system as of June 30, 2003 and owned, operated or franchised by us since January 1, 2002.

Other Matters

New Accounting Standards

In November 2002, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. (FIN) 45, *Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others*. FIN 45 requires that guarantees issued after December 31, 2002 are recorded as liabilities at fair value, with the offsetting entry recorded based on the circumstances in which the guarantee was issued. Adoption of FIN 45 had no impact on our historical financial statements as existing guarantees are not subject to the measurement provisions of FIN 45. Adoption of FIN 45 for new guarantees did not have a material impact on our financial statements.

In December 2002, the FASB issued FAS 148, *Accounting for Stock-Based Compensation: Transition and Disclosure* an amendment of FAS 123. This statement provides alternate methods of transition for a voluntary change to the fair value method of accounting for stock-based compensation. This statement also amends the disclosure requirements of FAS 123 and Accounting Principles Board Opinion 28, *Interim Financial Reporting*, to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based compensation and the effect of the method used on reported results. We have adopted the disclosure provisions of FAS 148.

In January 2003, the FASB issued FIN 46, *Consolidation of Variable Interest Entities*, which is effective for the quarter ending September 30, 2003 for variable interest entities (VIEs) created before February 1, 2003. FIN 46 establishes criteria to identify VIEs and the primary beneficiary of such entities. Entities that qualify as VIEs must be consolidated by their primary beneficiary. All other holders of interests in a VIE must disclose the nature, purpose, size and activity of the VIE as well as their maximum exposure to losses as a result of involvement with the VIE. We are currently evaluating the provisions of FIN 46 as it relates to our various forms of investments. We expect any disclosure or consolidation requirements will be immaterial.

Forward-Looking Statements

Forward-looking statements in this report, including without limitation, those set forth under the captions Development and Capital Spending, Liquidity and Capital Resources, Results of Operations and Other Matters, and statements relating to our plans, strategies, objectives, expectations, intentions and adequacy of resources are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995.

The words believes, anticipates, expects, intends, plans, estimates, projects and similar expressions are intended to identify forward-looking statements. These forward-looking statements reflect our current views with respect to future events and financial performance, and are subject to risks and uncertainties, including those identified above under Results of Operations and those in our Annual Report on Form 10-K for the fiscal year ended December 31, 2002 under the captions Operations and Additional Information, as well as:

the effects of regional, national and international economic conditions, including the magnitude and duration of the current economic downturn in the United States;

the effects of actual and threatened terrorist attacks and international conflicts and their impact on domestic and international travel, including the potentially marked decrease in travel in connection with military action in Iraq or elsewhere;

the impact of severe acute respiratory syndrome, or SARS, on travel and the demand for hotel rooms and timeshare intervals;

supply and demand changes for hotel rooms and timeshare intervals;

competitive conditions in the lodging and timeshare industries and increases in room and timeshare capacity;

our ability to maintain positive relationships with franchisees and property owners and our ability to obtain new management contracts and franchise agreements;

increases in energy, healthcare, insurance, transportation and fuel costs and other expenses, including costs related to mold remediation;

the effects of regional, national and international economic conditions, including the magnitude and duration of the current economic downturn in the United States;

our ability to obtain adequate property and liability insurance to protect against losses, including losses caused by acts of God, or to obtain insurance at reasonable rates;

the effect that internet reservation channels may have on the rates that we are able to charge for hotel rooms;

the financial condition of the airline industry and its impact on air travel;

the impact of government regulations, including land use, health, safety and environmental laws;

our ability to recover loans and other advances from property owners and franchisees;

the costs of litigation; and

capital market volatility and the availability of capital to finance growth.

Any of these risks and uncertainties could cause actual results to differ materially from historical results or those anticipated. Although we believe the expectations reflected in these forward-looking statements are based upon reasonable assumptions, we can give no assurance that our expectations will be attained and caution you not to place undue reliance on such statements. We undertake no obligation to publicly update or revise any forward-looking statements to reflect current or future events or circumstances.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our exposure to certain market risks, see Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in our Annual Report on Form 10-K for the fiscal year ended December 31, 2002. There have been no significant changes in our financial instruments or market risk exposures from the amounts and descriptions disclosed therein.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures. Also, we have investments in certain unconsolidated entities. As we do not control these entities, our disclosure controls and procedures with respect to such entities are necessarily substantially more limited than those we maintain with respect to our consolidated subsidiaries.

As required by SEC Rule 13(a) or 15(d), we carried out an evaluation, under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2003, the end of the quarter covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level.

There have been no significant changes in our internal control over financial reporting during our most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Our annual meeting of stockholders was held on May 22, 2003 at the Hilton Glendale in Glendale, California. Approximately 89 percent of the eligible shares were voted. The following persons were re-elected to our Board of Directors for three-year terms expiring in 2006: Peter M. George, Barron Hilton, Robert L. Johnson and Sam D. Young, each of whom received approximately 98 percent of the votes cast. The ratification of the appointment of Ernst & Young LLP as our independent auditors for 2003 was also approved by approximately 97 percent of the votes cast.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits

31.1 CEO Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

31.2 CFO Certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32.1 CEO Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

32.2 CFO Certification pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(b) Reports on Form 8-K

We filed a Report on Form 8-K, dated July 28, 2003, furnishing information under Item 9. Regulation FD Disclosure, with respect to our financial results for the second quarter and six months ended June 30, 2003.
