Cash and cash equivalents at beginning of period		44,724	76,492
Cash and cash equivalents at end of period	\$	52,310	\$ 52,518

Edgar Filing: AVOCENT CORP - Form 10-Q

(1) Supplemental disclosure In addition to the cash paid at the respective closings, we issued 106 shares of our common stock valued at \$3,500 to Crystal Link shareholders and 1,229 shares of our common stock valued at \$45,831 to OSA shareholders. The issuance of common stock was recorded as non-cash consideration for the acquisition.

See notes accompanying these condensed consolidated financial statements.

AVOCENT CORPORATION

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited, in thousands, except per share data)

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with generally accepted accounting principles and reflect all adjustments consisting of normal recurring adjustments which, in the opinion of management, are necessary for a fair presentation of the results for the three and nine months ended September 30, 2005 and October 1, 2004. The results of operations for these periods are not necessarily indicative of the results expected for the full fiscal year or for any future periods. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and the related notes contained in our Annual Report on Form 10-K for the year ended December 31, 2004, which is on file with the Securities and Exchange Commission and is available at our website, www.avocent.com. The balance sheet presented in the accompanying financial statements for December 31, 2004, was derived from the audited financial statements filed in our 10-K for the period ended December 31, 2004.

We report our annual results based on years ending December 31. We report our quarterly results for the first three interim periods based on 13 week periods ending on Fridays and for the fourth interim period ending on December 31.

Our financial statements are consolidated and include the accounts of Avocent Corporation and our wholly owned subsidiaries. Significant inter-company transactions and balances have been eliminated in consolidation.

Note 2. Inventories

Inventories consisted of the following at:

	September 30, 2005	December 31, 2004
Raw materials	\$ 4,170	\$ 4,411
Work-in-process	262	356
Finished goods	17,063	16,465

Edgar Filing: AVOCENT CORP - Form 10-Q

Inventories, net	\$	21,495	\$	21,232
------------------	----	--------	----	--------

Inventories above have been reduced by reserves for excess and obsolete inventories of \$4,838 and \$3,785 as of September 30, 2005 and December 31, 2004, respectively.

Note 3. Stock Options, Deferred Compensation and Stock Repurchases

Deferred compensation We recorded \$41,165 of deferred compensation related to Cybex employee stock options at the time of the merger of Apex and Cybex on September 30, 2000, \$2,752 of deferred compensation related to the Equinox employee stock options at the time of the acquisition on January 3, 2001 and \$6,350 of deferred compensation related to the OSA employee stock options at the time of the acquisition on April 6, 2004. The deferred compensation is being amortized over the vesting period of the options for which it was recorded. Amortization of deferred compensation totaled \$510 for the three months ended September 30, 2005 and \$1,421 for the three months ended and October 1, 2004. Amortization of deferred compensation totaled \$1,529 for the nine months ended September 30, 2005 and \$4,286 for the nine months ended October 1, 2004.

Stock option exercises Shares of our common stock issued as a result of option exercises totaled 776 shares during the nine months ended September 30, 2005 and 492 shares during the nine months ended October 1, 2004. Total proceeds received from these option exercises were \$13,675 for the nine months ended September 30, 2005 and \$8,598 for the nine months ended October 1, 2004. Common stock issued under our Employee Stock Purchase Plan (ESPP) totaled 181 shares during the nine months ended September 30, 2005 and 204 shares during the nine months ended October 1, 2004. Total proceeds received from the shares issued under the ESPP were \$4,505 for the nine months ended September 30, 2005 and \$3,211 for the nine months ended October 1, 2004.

Stock repurchases During the fourth quarter of 2004 our Board of Directors approved a stock repurchase plan

Edgar Filing: AVOCENT CORP - Form 10-Q

and we have purchased shares on the open market through various brokers under the approved plan. We repurchased 500 shares of our common stock during the quarter ended September 30, 2005 at a cost totaling \$15,818. We repurchased 2,275 shares of our common stock during the nine months ended September 30, 2005 at a cost totaling \$66,089. We may repurchase a total of 4,000 shares under the plan. We have repurchased 2,375 shares under the plan since the approval of the plan in 2004.

Note 4. Accumulated Other Comprehensive Loss

We record unrealized gains and losses on our foreign currency translation adjustments and unrealized holding gains or losses on our available-for-sale securities, net of tax, as accumulated other comprehensive income (loss), which is included as a separate component of stockholders' equity. Comprehensive income for the first nine months of 2005 of \$28,590 consists of \$29,297 of net income, \$301 of unrealized losses on investments (net of deferred income taxes) and \$406 of foreign currency translation loss. Comprehensive income for the first nine months of 2004 of \$5,899 consists of \$5,973 of net income, \$193 of unrealized losses on investments (net of deferred income taxes) and \$119 of foreign currency translation gain. As of September 30, 2005 and December 31, 2004, total accumulated other comprehensive loss was (\$763) and (\$56), respectively.

Note 5. Earnings per Share

	Income (Numerator)	Shares (Denominator)	Per-Share Amount

For the nine months ended October 1, 2004			
Basic EPS			
Net income available to common stockholders	\$ 5,973	48,663	\$ 0.12

Edgar Filing: AVOCENT CORP - Form 10-Q

Effect of Dilutive Securities

Stock options					1,620
---------------	--	--	--	--	-------

Diluted EPS

Net income available to common stockholders and assumed conversions	\$	5,973	50,283	\$	0.12
---	----	-------	--------	----	------

Anti-dilutive options to purchase common stock outstanding were excluded from the calculations above. Anti-dilutive options totaled 2,571 and 2,567 for the three and nine months ended September 30, 2005, respectively. Anti-dilutive options totaled 2,656 and 2,428 for the three and nine months ended October 1, 2004, respectively.

Note 6. Segment Reporting

We have evaluated, and will periodically re-evaluate, our business in light of the segment reporting requirements

Edgar Filing: AVOCENT CORP - Form 10-Q

prescribed by SFAS No. 131, *Disclosures about Segments of an Enterprise and Related Information*. We have determined that we should report our operations as a single operating segment. However, we supplementally report net sales by geographic region, as well as by customer type. Following is a presentation of net sales by geographic region and by customer type for the three and nine months ended September 30, 2005 and October 1, 2004:

	For the Three Months Ended		For the Nine Months Ended	
	Sept. 30, 2005	October 1, 2004	Sept. 30, 2005	October 1, 2004
Net sales:				
United States	\$58,018	\$56,026	\$150,768	\$160,076
Rest of the World	38,690	35,299	112,283	105,130
	\$96,708	\$91,325	\$263,051	\$265,206

	For the Three Months Ended		For the Nine Months Ended	
	Sept. 30, 2005	October 1, 2004	Sept. 30, 2005	October 1, 2004
Net sales:				
Branded	\$52,238	\$49,170	\$134,761	\$149,869
OEM	44,470	42,155	128,290	115,337
	\$96,708	\$91,325	\$263,051	\$265,206

We sell our products internationally to customers in several countries. Sales to customers in the Netherlands, including the European distribution facility for one of our OEM customers, accounted for 10% of sales in the first nine months of 2004. No other country accounted for more than 10% of sales in the first nine months of either 2005 or 2004.

As of September 30, 2005, long-lived assets totaled \$327,832, which includes \$309,885 held in the U.S. and \$17,947 held outside of the U.S. As of December 31, 2004, long-lived assets totaled \$345,099, which includes \$324,417 held in the U.S. and \$20,682 held outside of the U.S.

Subsequent to the end of our third quarter 2005, we announced plans for the formation of five divisions within Avocent. These divisions include:

Management Systems division, which includes our branded and OEM KVM, serial console, power control and management appliance businesses;

Embedded Software & Solutions division, focused on developing and marketing embedded systems and software including IPMI and embedded KVM technologies primarily for our OEM customers;

Serial and Audio-Visual Solutions division, focused on expanding the markets for Avocent's serial and wireless products;

Desktop Solutions division, which includes Avocent's existing extension and Digital Desktops products with emphasis on development of major new products and markets in this area; and

Edgar Filing: AVOCENT CORP - Form 10-Q

Mobile Solutions division, which includes mobile device management and secure wireless systems administration.

We are in the process of reconfiguring our systems and defining new cost centers and operating measures to track the performance of the divisions and to use as a basis for allocating resources in the future. However, we currently are not managing our business under these divisions, and we do not expect to be functioning under the five new divisions until the beginning of 2006. We will evaluate our divisions based on the requirements in SFAS No. 131 and will provide the applicable segment data on the new divisions in 2006.

Note 7. Forward Contracts

We use forward contracts to reduce our foreign currency exposure related to the net cash flows from our international operations. The majority of these contracts are short-term contracts (three months or less) and are marked-to-market each quarter and included in trade payables, with the offsetting gain or loss included in other income (expense) in the accompanying condensed consolidated statements of operations. As of September 30, 2005, we had one 30 day open forward contract, maturing on October 28, 2005, with a fair value of (\$7).

Note 8. Goodwill and Other Intangible Assets

Acquired other intangible assets subject to amortization were as follows:

	September 30, 2005		December 31, 2004	
	Gross Carrying Amounts	Accumulated Amortization	Gross Carrying Amounts	Accumulated Amortization
Developed technology	\$ 21,070	\$ 13,096	\$ 80,560	\$ 62,293
Patents and trademarks	10,791	6,108	21,508	14,318
Customer base and certifications	4,870	1,463	6,483	1,961
Non-compete agreements	2,520	1,093	5,793	3,070
Licenses and other	1,814	1,015	1,814	535
	\$ 41,065	\$ 22,775	\$ 116,158	\$ 82,177

During the third quarter of 2005, we retired approximately \$75,000 of fully amortized intangible assets and the related accumulated amortization. The retirement had no impact on reported earnings or total assets.

For the three months ended September 30, 2005 and October 1, 2004, amortization expense for other intangible assets was \$2,731 and \$6,482, respectively. For the nine months ended September 30, 2005 and October 1, 2004, amortization expense for other intangible assets was \$15,976 and \$17,656, respectively. The approximate estimated annual amortization for other intangibles is as follows:

Years ending December 31:	
2005	\$ 19,500
2006	\$ 9,400
2007	\$ 3,500
2008	\$ 1,100
2009	\$ 800

For the nine months ended September 30, 2005, we recorded \$100 of additional goodwill related to the Crystal Link Technologies acquisition.

Note 9. Product Warranties

The activity within the liability for warranty returns for the nine months ended September 30, 2005 was as follows:

	2005	
Balance, January 1, 2005	\$	2,760
Accruals for product warranties issued during the period		239
Settlements made during the period		(156)
Balance, September 30, 2005	\$	2,843

Edgar Filing: AVOCENT CORP - Form 10-Q

Deferred revenue related to our extended warranty program was \$1,912 as of September 30, 2005. We recorded earned revenue from the amortization of deferred revenue related to extended warranties of \$656 for the nine months ended September 30, 2005. In addition, we recorded new extended warranties of \$901 during the nine months ended September 30, 2005.

Note 10. Income Taxes

The provision for income taxes was approximately \$8,838 in the first nine months of 2005, compared to \$8,135 for the nine months ended October 1, 2004. The decrease in the effective tax rate is primarily attributable to the impact of \$21,720 of acquired in-process research and development expense recorded during the second quarter of 2004 as a result of the acquisition of OSA which is not deductible for tax purposes.

Note 11. Patent Dispute

In May 2001, we filed a complaint for patent infringement in the United States District Court for the Southern District of New York against Raritan Computer Inc, which we settled in May 2005. Under the terms of the agreement, we licensed certain patents to Raritan, and entered into a worldwide, five-year litigation stand-still agreement that resolves all claims between the parties. The terms of the settlement called for an initial payment of \$5,000 and 20 consecutive quarterly royalty payments to be the greater of \$750 or a fixed percentage of covered product revenues. During the quarter ended July 1, 2005, we recorded the payment of \$5,000 received at the settlement in other income and began recording the quarterly royalty payments in net revenues.

In October 2003, we filed a complaint for patent infringement in the United States District Court for the Northern District of Alabama against ClearCube Technology, Inc. The ClearCube complaint seeks injunctive relief, damages, attorneys' fees, and costs under two of our patents. ClearCube has filed counterclaims alleging non-infringement, unenforceability, invalidity, and misuse of the Avocent patents. A Markman hearing on claims construction was originally set for February 2005, but in response to an inquiry from the Court, we agreed that the hearing should be postponed until the United States Court of Appeals for the Federal Circuit issues its ruling on certain similar issues raised in an unrelated patent case. This ruling was issued in June 2005 and the Markman hearing on claims construction is now scheduled for December 2005.

Note 12. Stock Based Compensation

We apply Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations in accounting for our stock plans. Had compensation cost for our stock-based compensation plans been determined based on the fair value at the grant dates for awards under those plans consistent with the method prescribed in SFAS No. 123, *Accounting for Stock-Based Compensation*, our net income and earnings per share would have been reduced to the pro forma amounts indicated below.

Three Months ended

Nine Months Ended

Edgar Filing: AVOCENT CORP - Form 10-Q

	Sept. 30, 2005	October 1, 2004	Sept. 30, 2005	October 1, 2004
Net income as reported	\$ 16,365	\$ 10,822	\$ 29,297	\$ 5,973
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	510	1,421	1,529	4,196
Deduct: Total stock based employee compensation expense determined under fair value method for all awards, net of related tax effects	8,343	7,966	21,466	26,043
Net income (loss) pro forma	\$ 8,532	\$ 4,277	\$ 9,360	\$ (15,874)
Basic earnings per share as reported	\$ 0.33	\$ 0.22	\$ 0.59	\$ 0.12
Basic earnings (loss) per share pro forma	\$ 0.17	\$ 0.09	\$ 0.19	\$ (0.33)
Diluted earnings per share as reported	\$ 0.33	\$ 0.21	\$ 0.58	\$ 0.12
Diluted earnings (loss) per share pro forma	\$ 0.17	\$ 0.09	\$ 0.19	\$ (0.33)

Edgar Filing: AVOCENT CORP - Form 10-Q

The pro forma amounts reflected above are not representative of the effects on reported net income (loss) in future years because, in general, the options granted typically do not vest for several years and additional awards are made each year. The fair value of each option grant is estimated on the grant date using the Black-Scholes option-pricing model using the following weighted-average assumptions:

	Three Months Ended		Nine Months Ended			
	Sept. 30, 2005	Oct. 1, 2004	Sept. 30, 2005	Oct. 1, 2004	Sept. 30, 2005	Oct. 1, 2004
Dividend yield	0.0%	0.0%	0.0%	0.0%	0.0%	0.0%
Expected life (years)	3.0	1.0 4.5	1.5 4.5	1.0 4.5	1.0 4.5	1.0 4.5
Expected volatility	48.1%	33.0%	45.1 48.1%	33.0 55.0%	33.0 55.0%	33.0 55.0%
Risk-free interest rate	3.99%	3.36%	3.16 3.99%	1.17 2.79%	1.17 2.79%	1.17 2.79%

On April 29, 2005, our Board of Directors approved a plan to accelerate vesting of all currently outstanding stock options with an exercise price of greater than \$25.00 which are unvested on December 25, 2005. Under the provisions of APB 25, we estimate that there will be no compensation expense related to accelerating these options as the options affected by the acceleration had exercise prices higher than the closing price of our common stock as of the modification date. As a result of the Board's action, we estimate that stock options to purchase approximately 1,100 shares of our common stock will become exercisable effective December 25, 2005. The exercise prices of the affected stock options range from \$25.17 to \$41.57 per share. The closing price of Avocent's common stock on April 29, 2005 was \$25.14.

Note 13. Recently Issued Accounting Standards and Regulatory Standards

In December 2004, the FASB issued SFAS No. 123 (revised 2004), *Share based Payment*, which replaces SFAS No. 123 *Accounting for Stock Based Compensation* and APB Opinion No 25 *Accounting for Stock Issued to Employees*. SFAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values beginning with the first annual period after June 15, 2005. The pro-forma disclosures previously permitted under SFAS No. 123 no longer will be an alternative to inclusion of the expense in the financial statements. We are required to adopt SFAS 123R beginning January 1, 2006. Under SFAS 123R, we must determine the appropriate fair value model to be used for valuing share-based payments, the amortization method for compensation cost and the transition method to be used at date of adoption. The transition methods include prospective and retroactive adoption options. We expect to use the Black-Scholes option pricing model to value options after the adoption. In addition, we expect to utilize the straight line method to amortize the expense and utilize the prospective transition method which requires that compensation expense begin being recorded for all unvested stock options and restricted stock at the beginning of the first quarter of adoption of SFAS 123R. We are evaluating the requirements of SFAS 123R and expect the adoption of SFAS 123R may have a material impact on our consolidated results of operations and earnings per share. We have not determined the effect of adopting SFAS 123R and we have not determined whether the adoption will result in amounts similar to the current pro-forma disclosures under SFAS 123. Under the current approach of SFAS 123 we would have unamortized fair value of unvested stock options of approximately \$15,000 for currently outstanding stock options to be recognized as expense in our income statements after 2005, prior to the acceleration of vesting discussed in note 12. Following this acceleration we believe the balance to be expensed in future periods will be reduced to approximately \$2,000 for currently outstanding stock options under the SFAS 123 methodology.

On October 22, 2004, the American Jobs Creation Act of 2004 became law. This legislation repeals export tax benefits, which have historically reduced our effective tax rate. This legislation phases in the repealed export tax benefits by allowing 100 percent of the repealed export benefits in 2004, 80 percent in 2005 and 60 percent in 2006. We do not expect this change to have a material impact on our effective tax rate or provision for taxes in 2005.

The legislation also transitions in a new tax deduction for qualifying U.S. manufacturing activities. Under the guidance in FASB Staff Position No. FAS 109-1 which articulates the application of SFAS 109, *Accounting for Income Taxes*, to the tax deduction on qualified production activities provided by this Act, the deduction will be treated as a special deduction as described in SFAS 109. As such, we expect the new

Edgar Filing: AVOCENT CORP - Form 10-Q

manufacturing activities deduction provision of the new legislation may reduce our effective rate in future periods as the deduction is taken on our tax returns. We do not expect the deduction to have a material impact on our effective tax rate or income tax provision in 2005.

The legislation also provides for the optional repatriation of earnings from foreign subsidiaries allowing an 85 percent dividends received deduction. The deduction is subject to a number of limitations. We have performed a preliminary analysis under the new legislation and we are considering repatriating up to \$90,000 from overseas earnings pursuant to this provision during the fourth quarter of 2005. If we decide to repatriate any of the earnings to the U.S., we

would incur additional income tax expense equal to the incremental U.S. income tax in excess of the credits available for taxes already paid overseas. If we repatriate the entire \$90,000 in the fourth quarter of 2005, we estimate the potential tax expense to be \$3,500, which we estimate would reduce diluted earnings per share \$0.08 cents.

Note 14. Subsequent Events

During the period from October 1, 2005 through November 2, 2005, we repurchased 150 additional shares of our common stock on the open market under our Board approved stock repurchase program, for a total cost of \$4,529.

During October 2005, we sold our former Huntsville facility, which is classified as property held for lease on the condensed consolidated balance sheet, for net proceeds of \$1,900 and an after tax gain on sale of approximately \$500. The gain will be reported in the fourth quarter of 2005 financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

THE INFORMATION IN THIS ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS CONTAINS FORWARD-LOOKING STATEMENTS, INCLUDING, WITHOUT LIMITATION, STATEMENTS RELATING TO OUR FUTURE BUSINESS PROSPECTS AND ECONOMIC CONDITIONS IN GENERAL; STATEMENTS REGARDING OUR ABILITY TO PREDICT FUTURE SALES AND MANAGE INVENTORY LEVELS; STATEMENTS REGARDING PRICING PRESSURE; STATEMENTS REGARDING THE FLUCTUATION OF OUR REVENUE GROWTH IN RELATION TO ECONOMIC CONDITIONS AND ITS RELATED SPENDING TRENDS; STATEMENTS REGARDING OUR PRODUCT PLATFORMS AND OUR ABILITY TO GENERATE GROWTH IN OUR OVERALL BUSINESS; STATEMENTS REGARDING INCREASED SALES OF OUR DIGITAL PRODUCTS AND EMBEDDED SOLUTIONS AND THEIR ABILITY TO OFFSET PRICE DECLINES AND COMPETITIVE FACTORS; STATEMENTS REGARDING OUR REVENUES, GROSS MARGINS, OUR RESEARCH AND DEVELOPMENT EXPENSES AND OUR SELLING, GENERAL AND ADMINISTRATIVE EXPENSES IN THE THIRD QUARTER OF 2005; STATEMENTS REGARDING FORMATION OF NEW OPERATING DIVISIONS; STATEMENTS REGARDING OUR LEGAL COSTS FOR PATENT LITIGATION CASES; AND STATEMENTS REGARDING THE IMPACT OF SFAS 123R ON OUR RESULTS OF OPERATIONS AND EARNINGS PER SHARE.

THESE FORWARD-LOOKING STATEMENTS ARE SUBJECT TO CERTAIN RISKS AND UNCERTAINTIES THAT COULD CAUSE OUR ACTUAL RESULTS TO DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THE FORWARD-LOOKING STATEMENTS. FACTORS THAT MIGHT CAUSE SUCH A DIFFERENCE INCLUDE, BUT ARE NOT LIMITED TO, THE RISKS ASSOCIATED WITH GENERAL ECONOMIC CONDITIONS, RISKS ASSOCIATED WITH THE INTRODUCTION OF NEW PRODUCTS, RISKS ATTRIBUTABLE TO FUTURE PRODUCT DEMAND, SALES, AND EXPENSES, RISKS ASSOCIATED WITH PRODUCT DESIGN EFFORTS, RISKS ASSOCIATED WITH RELIANCE ON A LIMITED NUMBER OF COMPONENT SUPPLIERS AND SINGLE SOURCE COMPONENTS, THE LOSS OF ONE OF OUR OEM CUSTOMERS, A REDUCTION OR FLUCTUATIONS IN SALES OF OUR OEM OR BRANDED PRODUCTS, INTENSE COMPETITION AND NEW PRODUCTS AND TECHNOLOGIES FROM EXISTING AND NEW COMPETITORS, RISKS RELATED TO OBTAINING AND PROTECTING OUR INTELLECTUAL PROPERTY RIGHTS, FLUCTUATIONS IN FOREIGN CURRENCIES, RISKS RELATED TO ACQUISITIONS AND THEIR SUBSEQUENT INTEGRATION, AND OTHER RISKS DETAILED IN OUR ANNUAL REPORT ON FORM 10-K, WHICH WAS FILED WITH THE SECURITIES AND EXCHANGE COMMISSION ON MARCH 14, 2005.

Overview

Avocent designs, manufactures, licenses, and sells solutions that provide connectivity and centralized management of IT infrastructure. We provide connectivity and management products and technologies that centralize control of servers, mobile devices, and network appliances, increasing the efficiency of IT personnel. Server manufacturers rely on Avocent KVM switches and embedded technology in their systems, and companies large and small depend on our products and technologies for managing their growing IT infrastructure.

Our innovations include IP-based switching, centralized management, and intuitive software interfaces. Our products and technologies manage servers, serial devices, wireless devices, mobile devices, and embedded infrastructure. With more than two decades of experience, we have grown through product innovations, global expansion, and strategic acquisitions. Formed as a result of the merger in 2000 between Apex Inc. and Cybex Computer Products Corporation, we subsequently acquired Equinox Systems Inc. in 2001, 2C Computing, Inc. in 2002, Soronti, Inc. in 2003, and Crystal Link Technologies, OSA Technologies, Inc., and Sonic Mobility, Inc. in 2004.

Our KVM switching systems eliminate the need for extra keyboards, monitors, and mice and allow businesses to save critical space in their data centers. Our KVM over IP switching systems eliminate distance limitations and provide 24/7 access and control of an almost unlimited number of servers, even when the servers are dispersed in different physical locations. Our DSVIEW software management and KVM over IP switching systems allow IT managers to use a single console to gain secure, local and remote access and control of servers and other network data center

devices from any location.

Our innovative advances for the data center include multi-platform switching, analog matrix switching, KVM extension over CAT 5, PCI bus extension, a proprietary on-screen menu switching system, remote KVM over IP connectivity, digital serial over IP, digital-analog integrated access to multiple servers, intelligent platform management interface (IPMI) solutions, wireless KVM, PDA and hand-held management solutions, and centralized management software for access and control of network infrastructure.

Our DSSeries® switches combine analog and digital connections, serial connectivity, and external modem support in one switch. These appliances integrate our KVM over IP switching technology and CAT 5 connectivity. IT managers and network administrators gain worldwide access and control of their servers and serial devices and can track them all from a single computer screen. In addition, we provide plug and play switching systems for the many network administration, management, and storage problems faced by corporate customers, data centers, and mid-size businesses. Our connectivity solutions include products and technologies sold or licensed under the Avocent, Cybex, and Equinox brands, including our *AMX*, *AutoView*, *Cstation*, *DSView®*, *DS Series*, *LongView*, *OutLook®*, *SuperSerial*, *SwitchView*, *SwitchViewEmerge*, *SonicAdmin*, and *SonicSentinel* products.

We market and sell our products around the world to a diversified group of original equipment manufacturers (OEMs) dealers, distributors, resellers, and end users, primarily through our sales and customer support staff, advertisements in trade publications, and participation in major industry trade shows.

Edgar Filing: AVOCENT CORP - Form 10-Q

A substantial portion of our revenue is derived from sales to a limited number of OEMs who purchase our switching systems on a private-label or branded basis for integration and sale with their own products, sales through our reseller and distributor network, and sales to a limited number of direct customers. Sales to our OEM customers accounted for 49% of sales in the first nine months of 2005 and 43% of sales in the first nine months of 2004. Sales to our branded customers accounted for 51% of sales in the first nine months of 2005 and 57% of sales in the first nine months of 2004. We do not have contracts with many of our branded customers, and in general, our OEM and branded business customers are obligated to purchase products from us only pursuant to binding purchase orders. The loss of, or material decline in orders from, these customers would have a material adverse effect on our business, financial condition, results of operations, and cash flows. Our top five customers include both OEM and branded customers, and accounted for 62% of sales in the first nine months of 2005 and 64% of sales in the first nine months of 2004.

We sell products to dealers, end-users, and OEMs in the United States, Canada, Europe, and Asia as well as in other foreign markets. Sales within the United States accounted for approximately 57% of sales in the first nine months of 2005 and 60% of sales in the first nine months of 2004. Sales outside of the United States accounted for 43% of sales in the first nine months of 2005 and 40% of sales in the first nine months of 2004. Sales to customers in the Netherlands, including the European distribution facility for one of our OEM customers, accounted for 10% of our sales in the first nine months of 2004. No other country accounted for more than 10% of sales in the first nine months of either 2005 or 2004.

With continued industry-wide initiatives to reduce all channel inventories and to shorten lead times, trends with our major customers are, generally, to reduce the number of weeks of forward-committed firm orders. This trend continues to affect our business with certain distributors, OEMs and other server manufacturers, and we believe that it will continue to make our future sales more difficult to predict and inventory levels more difficult to manage.

We continue to experience significant price competition in the market for all of our products, and we expect that pricing pressures will continue in the future. In addition, general economic conditions are not predictable, and we expect our revenue growth rate to fluctuate in relation to economic conditions and IT related spending trends. Depending on future general economic conditions and other factors, our revenue could decline in the future.

Many of our executive officers and directors are vested in significant amounts of options to purchase shares of our common stock and continue to vest in additional shares on a regular basis. These officers and directors have informed us that they have sold, and may sell additional, shares of our common stock to provide liquidity and diversify their portfolios.

Subsequent to the end of our third quarter 2005, we announced plans for the formation of five divisions within Avocent. These divisions include:

Management Systems division, which includes our branded and OEM KVM, serial console, power control and management appliance businesses;

Embedded Software & Solutions division, focused on developing and marketing embedded systems and software including IPMI and embedded KVM technologies primarily for our OEM customers;

Serial and Audio-Visual Solutions division, focused on expanding the markets for Avocent's serial and wireless products;

Edgar Filing: AVOCENT CORP - Form 10-Q

Desktop Solutions division, which includes Avocent's existing extension and Digital Desktops products with emphasis on development of major new products and markets in this area; and

Mobile Solutions division, which includes mobile device management and secure wireless systems administration.

We are in the process of reconfiguring our systems and defining new cost centers and operating measures to track the performance of the divisions and to use as a basis for allocating resources in the future. However, we currently are not managing our business under these divisions, and we do not expect to be functioning under the five new divisions until early 2006. We will evaluate our divisions based on the requirements in SFAS No. 131 and expect to provide applicable segment data on the new divisions in 2006.

We believe our new business divisions will allow us to focus on new technology and growth opportunities to add product and shareholder value in the future. We expect our new corporate structure will enhance customer service, speed delivery of products to market and better focus Avocent's research, development and marketing expenditures. Although we anticipate that the formation of these five new divisions and the streamlining of our corporate structure will result in a number of benefits to our operations, the potential risks associated with our restructuring include, but are not limited to, loss of key management, technical, and other key personnel, the disruption of customer relationships, delay in the development or delivery of new products and technologies, inefficiencies due to duplication of certain functions, and increased expenses.

Results of Operations

The following table sets forth, for the periods indicated selected statement of operations data expressed as a percentage of net sales:

Edgar Filing: AVOCENT CORP - Form 10-Q

	Three Months Ended		Nine Months Ended	
	Sept. 30, 2005	October 1, 2004	Sept. 30, 2005	October 1, 2004
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	40.7	41.8	41.6	42.0
Gross profit	59.3	58.2	58.4	58.0
Operating expenses:				
Research and development expenses	15.1	12.9	16.5	12.2
Acquired in-process research and development expense		1.1		11.0
Selling, general and administrative expenses	21.5	23.2	25.5	24.0
Amortization of intangible assets	2.9	7.1	6.1	6.7
Total operating expenses	39.5	44.3	48.1	53.9
Income from operations	19.8	13.9	10.3	4.1
Income from settlement of lawsuit			1.9	
Net investment income	2.4	1.4	2.5	1.4
Net realized investment losses	(0.1)	(0.1)	(0.2)	(0.1)
Other expense, net	(0.1)	0.0	0.0	(0.1)
Income before income taxes	22.0	15.2	14.5	5.3
Provision for income taxes	5.1	3.4	3.4	3.0
Net income	16.9%	11.8%	11.1%	2.3%

Net sales. Our net sales consist of sales of keyboard, video, and mouse console switching systems, digital connectivity solutions, serial connectivity devices, wireless extension products, IPMI, extension and remote access and management solutions and royalties from licensing our intellectual property. Net sales increased 6% to \$96.7 million for the third quarter of 2005 from \$91.3 million for the third quarter of 2004 as a result of various factors. One factor was the increase in branded sales in the third quarter of 2005 as compared to the third quarter of 2004. Branded sales were up \$3.1 million, or 6.2%, compared to the third quarter of 2004. Additionally, OEM sales were up \$2.3 million in the third quarter of 2005 as compared to the third quarter of 2004. Revenues from our Embedded Software and Solutions group, which includes embedded KVM offerings and our IPMI management solutions, contributed approximately \$6.2 million in the third quarter of 2005, compared to \$1.6 million in the third quarter of 2004. Sales of our digital products continued to increase and represented over 53% of our revenue in the third quarter of 2005 as compared to 49% of our revenue in the third quarter of 2004. Also, sales of our newer products, those introduced within the last twelve months, contributed \$25.3 million in revenue during the third quarter of 2005.

OEM sales grew approximately 6% from \$42.2 million in the third quarter of 2004 to \$44.5 million in the third quarter of 2005. OEM sales were 46% of sales for the third quarter of both 2005 and 2004. Branded sales increased by 6% from \$49.2 million in the third quarter of 2004 to \$52.2 million in the third quarter of 2005. As a percentage of sales, branded sales accounted for 54% of sales in the third quarter of both 2005 and 2004.

Sales within the United States increased to \$58.0 million in the third quarter of 2005 from \$56.0 million in the third quarter of 2004. International sales increased 10%, to \$38.7 million in the third quarter of 2005 from \$35.3 million in the third quarter of 2004. Sales within the United States were 60% of sales for the third quarter of 2005 and 61% of sales for the third quarter of 2004. International sales were 40% of sales for the third quarter of 2005 and 39% of sales for the third quarter of 2004.

Net sales decreased 1% to \$263.1 million for the first nine months of 2005 from \$265.2 million for the first nine months of 2004, primarily as a result of the issues related to the revenue shortfall in the first quarter of 2005, which included issues surrounding new branded product launches and lower than expected sales to one of our OEM customers. However, the nine month results benefited from the rebound in revenue during the second and third quarters of 2005. Sales within the United States decreased by approximately 6% to \$150.8 million in the first nine months of 2005 from \$160.1 million in the first nine months of 2004. International sales increased approximately 7% to \$112.3 million in the first nine months of 2005 from \$105.1 million in the first nine months of 2004. Additionally, sales to our branded customers decreased 10% to \$134.8 million in the first nine months of 2005 from \$149.9 in the first nine months of 2004, while sales to our OEM customers increased 11% to \$128.3 million in the first nine months of 2005 from \$115.3 in the first nine months of 2004.

Our outlook for the fourth quarter of 2005 is cautious but positive. We remain positive about the positioning of our current and expanding product platforms, but we see some concern in certain market sectors regarding general economic conditions that may cause some companies to delay planned IT expenditures. In addition, the market remains competitive with continued increases in levels of spending by our competitors on advertising and promotions and new product introductions. Considering these factors, we believe our revenues will be in the range of \$104 million to \$109 million in the fourth quarter of 2005.

Gross profit. Gross profit may be affected by a variety of factors, including: the ratio of sales among our distribution channels, as OEM sales typically have lower gross margins than our branded sales; absorption of fixed costs as sales levels fluctuate; product mix, raw materials, and labor costs; new product introductions by us and by our competitors; the level of our outsourcing of manufacturing and assembly services; and the amount of royalty revenue, which typically has no associated cost of goods sold. Gross margin improved to 59.3% in the third quarter of 2005 as compared to 58.2% in the third quarter of 2004. Gross margin was positively affected by the \$1.1

million of Raritan royalty revenue recorded during the third quarter of 2005. Our digital, embedded, and IPMI revenues all increased as well. These product lines typically have higher margins compared to our other product lines. These positive influences on gross margin were partially offset by additional product costs from implementing new environmental regulations and transitioning to a new contract manufacturer. Gross margin increased slightly to 58.4% for the first nine months of 2005 from 58.0% for the first nine months of 2004, primarily as a result of the higher digital, embedded, IPMI, and royalty revenues for the first nine months of 2005, which offset the lower gross margin we experienced in the first quarter of 2005 as a result of our lower than expected revenue.

We expect gross margin to remain in the 59% range for the fourth quarter of 2005. We expect the fourth quarter of 2005 to follow the historical trend of being comprised of higher OEM and international branded sales, which typically have lower than our average margin. We expect the continuing growth of revenue from our digital products, higher royalty revenue and higher revenue from our embedded solutions will continue to be sufficient to offset the factors mentioned as well as price declines, competitive pressures and ongoing costs from our environmental regulation compliance efforts.

Research and development expenses. Research and development expenses include compensation for engineers, support personnel, outside contracted services and materials costs, and are expensed as they are incurred. Research and development expenses were \$14.6 million, or 15.1% of net sales, in the third quarter of 2005 compared to \$11.8 million, or 12.9% of net sales, for the third quarter of 2004. The increase in the amount spent on research and development can be attributed to higher costs from several new, significant projects, increased testing costs, and additional headcount for new programs, particularly in our Embedded Software and Solutions group. Research and development expenses for the first nine months of 2005 increased to \$43.5 million from \$32.4 million for the first nine months of 2004 primarily as a result of the additional headcount from the acquisitions completed in 2004 and over \$800,000 of severance accruals recorded in the second quarter of 2005 related to the closing of three satellite research and development sites. As a percentage of net sales, year-to-date research and development expenses increased to 16.5% in 2005 from 12.2% in 2004.

We have implemented plans to refocus our research and development spending, including the closing of the three satellite offices mentioned above. However, increased spending on significant projects and headcount additions for our Embedded Software and Solutions group have offset the reductions achieved from closing those offices. In light of the current levels of commitment in place for the fourth quarter, we expect research and development spending to be relatively flat in the fourth quarter of 2005 compared to the third quarter of 2005.

Acquired in-process research and development expense. Acquisition related expenses in the first nine months of 2004 were comprised of the write-off of \$21.7 million of in-process research and development expense related to the acquisition of OSA, the write-off of \$6.5 million of in-process research and development expense related to the acquisition of Crystal Link, and the write-off of \$1.1 million of in-process research and development expense related to the acquisition of Sonic Mobility. There were no such charges in the first nine months of 2005.

Selling, general and administrative expenses. Selling, general and administrative expenses include personnel costs for administration, finance, information systems, human resources, sales and marketing and general management, as well as some merger and acquisition related expenses, rent, utilities, legal and accounting expenses, bad debts, advertising, promotional material, trade show expenses and related travel costs. Selling, general and administrative expenses were \$20.8 million, or 21.5% of net sales, for the third quarter of 2005 compared to \$21.2 million, or 23.2% of net sales, for the third quarter of 2004. The decrease in selling, general and administrative expenses is primarily related to lower legal fees associated with protecting our intellectual property rights as we settled the litigation with Raritan during the second quarter of 2005. Additionally, we experienced lower advertising and promotion costs due to recent efforts to re-evaluate programs for our new digital products. Year-to-date selling, general, and administrative expenses increased to \$67.1 million, or 25.5% of net sales for 2005, from \$63.6 million, or 24.0% of year-to-date net sales in 2004, as a result of the factors from the first six months of the year, including \$500,000 in severance accruals recorded in the second quarter of 2005 related to certain headcount reductions, higher legal fees in the first six months of 2005 associated with the Raritan case that settled in the second quarter of 2005 and increased costs associated with the localization of technical manuals and publications for certain products shipped internationally.

We expect our selling, general and administrative expenses to be approximately \$1.5 million to \$2.0 million higher in the fourth quarter of 2005 when compared to the third quarter of 2005. Legal fees associated with protecting our intellectual property should increase during the fourth quarter of 2005. Additionally, we expect to invest more in promoting our newer products based on the evaluation of our marketing programs performed in the third quarter of 2005, and we expect to add sales personnel in certain target markets.

Amortization of intangible assets. Amortization of \$2.7 million in the third quarter of 2005 was comprised of the amortization of the identifiable intangible assets created as a result of the acquisitions of Equinox, 2C, Soronti, Crystal Link, OSA, and Sonic Mobility. Amortization of \$6.5 million in the third quarter of 2004 was comprised of the amortization of the identifiable intangible assets created as a result of the merger transaction between Apex and Cybex and the acquisitions of Equinox, 2C, Soronti, Crystal Link, OSA, and Sonic Mobility. The decrease in amortization expense relates primarily to recording no amortization expense for developed technology or patents and trademarks recorded on the merger of Apex and Cybex, as these assets had an estimated life of five years and were fully

amortized at the end of the second quarter of 2005. Amortization expense decreased from \$17.7 million in the first nine months of 2004 to \$16.0 million in the first nine months of 2005 as a result of the factors mentioned above. Amortization expense in the fourth quarter of 2005 is expected to remain flat when compared to the amount from the third quarter of 2005.

Income from settlement of lawsuit. The \$5 million of income from the settlement of lawsuit in the first nine months of 2005 is comprised entirely of the payment received in the second quarter of 2005 as a result of the settled patent infringement lawsuit brought by Avocent against Raritan Computer Inc. In part, the terms of the settlement called for an initial payment of \$5 million, related to past product sales by Raritan.

Net investment income. Net investment income increased to \$2.2 million in the third quarter of 2005 compared to \$1.3 million in the third quarter of 2004. The improved results were due to higher interest rates on investments and higher amounts invested of cash generated from operations. Net investment income increased from \$3.6 million in the first nine months of 2004 to \$6.6 million in the first nine months of 2005 as a result of the factors mentioned above.

Net realized investment losses. Net realized investment losses remained relatively constant at \$101,000 in the third quarter of 2004 and \$100,000 in third quarter of 2005. Net realized investment losses increased from \$269,000 in the first nine months of 2004 to \$483,000 in first nine months of 2005. The increase for the nine months to date resulted from certain sales of investments prior to maturity to fund our ongoing share repurchase program.

Other income (expense), net. Net other income (expense) decreased slightly from \$26,000 of income in the third quarter of 2004, to \$75,000 of expense in the third quarter of 2005. For the nine months to date, net other expense increased from \$122,000 in the first nine months of 2004 to \$129,000 in the first nine months of 2005.

Provision for income taxes. The provision for income taxes was approximately \$8.8 million in the first nine months of 2005, compared to \$8.1 million for the nine months ended October 1, 2004. The decrease in the effective tax rate is primarily attributable to the impact of \$21.7 million of acquired in-process research and development expense recorded during the second quarter of 2004 as a result of the acquisition of OSA, which is not deductible for tax purposes.

Net income. Net income for the third quarter of 2005 was \$16.4 million compared to \$10.8 million for the third quarter of 2004, as a result of the above factors. As a percentage of sales, net income for the third quarter of 2005 was 16.9%, compared to 11.8% for the third quarter of 2004. For the first nine months of the year, net income was \$29.3 million, or 11.1% of net sales, in 2005, compared to \$6.0 million, or 2.3%, in 2004, as a result of the factors mentioned above.

Liquidity and Capital Resources

Edgar Filing: AVOCENT CORP - Form 10-Q

As of September 30, 2005, our principal sources of liquidity consisted of approximately \$333 million in cash, cash equivalents, and investments. We have no outstanding debt or available credit facilities as of this filing.

Our operating activities generated cash of almost \$52.0 million in the first nine months of 2005, compared to approximately \$51.2 million in the nine months of 2004. The continued positive cash flow is the result of a variety of factors, but primarily due to an increase in net income and accrued liabilities and a decrease to accounts receivable, offset by increases in other assets and decreases in accounts payables, and accrued compensation. Inventories increased slightly from \$21.2 million at December 31, 2004 to \$21.5 million at September 30, 2005. The slight increase in inventory was primarily the result of adding inventory related to a recent change of contract manufacturers. Our inventory turns improved to just over 7.3 turns for the third quarter of 2005, slightly above the third quarter of 2004, and above the 6.4 level from the second quarter of 2005. We will continue to monitor our inventory closely and expect our inventory turns to remain close to our stated target of 7.0 turns as sales volume increases. Our decrease in receivables positively impacted cash flows for the quarter as accounts receivable decreased from \$60.9 million at December 31, 2004 to \$57.9 million at September 30, 2005. Our DSOs, or days sales outstanding, declined slightly to 54 days, compared to 55 days from the third quarter of 2004, and remained steady at 54 days in the second quarter of 2005, both of which were better than our goal of 60 days. Our accounts receivable aging remains strong, with 1% of the balance greater than 30 days past due.

In the ordinary course of our business, we may at any point in time have a significant amount of contractual commitments not yet recognized in our financial statements. These commitments relate primarily to our need to schedule the purchase of inventories in advance of the related forecasted sales to customers. We have longer lead times for the products we purchase from suppliers based in Asia than those for our U.S. based and European suppliers. Our actual contractual commitments are typically limited to products needed for one to three months of forecasted sales. The liabilities for these inventory purchases along with the related inventory assets are typically recognized upon our receipt of the products. We also have at any point in time a variety of short term contractual commitments for services such as advertising, marketing, accounting, legal, and research and development activities. The liabilities for these services and the related expenses are typically recognized upon our receipt of the related services. As of September 30,

2005, we had \$36.9 million of such commitments. None of our expected purchase commitments required payment beyond the next year.

We intend to use a portion of our cash and investments for strategic acquisitions of technologies and companies that will enhance and complement our existing technologies and help increase our sales.

Under our board-approved stock repurchase plan, we repurchased 500,000 shares of our common stock during the quarter ended September 30, 2005 at a cost totaling \$15.8 million. We repurchased 2.3 million shares of our common stock during the nine months ended September 30, 2005 at a cost totaling \$66.1 million. During the period October 1, 2005 through November 2, 2005 we repurchased an additional 150,000 shares under this program at a total cost of approximately \$4.5 million. We expect to continue to repurchase shares from time to time to offset the dilution from stock option exercises and to return a portion of our cash and investments to shareholders.

Investments

Our investments consist primarily of bank deposits, money market funds, corporate bonds, municipal bonds, commercial paper, mortgage backed securities guaranteed by U.S. government agencies, and common stock. We classify our debt and equity securities as available-for-sale securities and report them at fair value, with unrealized gains and losses excluded from earnings and reported as a separate component of stockholders' equity. We periodically review our investment portfolio for investments considered to have sustained an other-than-temporary decline in value. Upon review of our investment portfolio for the three months ended September 30, 2005, no investment was considered to have sustained an other-than-temporary decline, and accordingly no impairment charges were recorded during the three months ended September 30, 2005.

During October 2005, we sold our former Huntsville facility, which is classified as property held for lease on the condensed consolidated balance sheet, for net proceeds of \$1.9 million and an after tax gain on sale of approximately \$500,000. The gain will be reported in the fourth quarter of 2005 financial statements.

Recently Issued Accounting Standards and Regulatory Standards

In December 2004, the FASB issued SFAS No. 123 (revised 2004), *Share based Payment*, which replaces SFAS No. 123 *Accounting for Stock Based Compensation* and APB Opinion No 25 *Accounting for Stock Issued to Employees*. SFAS 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values beginning with the first annual period after June 15, 2005. The pro-forma disclosures previously permitted under SFAS No. 123 no longer will be an alternative to inclusion of the expense in the financial statements. We are required to adopt SFAS 123R beginning January 1, 2006. Under SFAS 123R, we must determine the appropriate fair value model to be used for valuing share-based payments, the amortization method for compensation cost and the transition method to be used at date of adoption. The transition methods include prospective and retroactive adoption options. We expect to use the Black-Scholes option pricing model to value options. In addition, we expect to utilize the straight line method to amortize the expense and utilize the prospective transition method which requires that compensation expense begin being recorded for all unvested stock options and restricted stock at the beginning of the first quarter of adoption of SFAS 123R. We are evaluating the requirements of SFAS 123R and the adoption of SFAS 123R may have a material impact on our consolidated results of operations and earnings per share. However, we have not determined the effect of adopting SFAS 123R and we have not determined whether the adoption will result in amounts similar to the current pro-forma disclosures under SFAS 123. Under the current approach of SFAS 123 we would have unamortized fair value of unvested stock options of approximately \$15 million for currently outstanding stock options to be recognized as expense in our income statements after 2005, prior to the acceleration of vesting discussed previously. Following this acceleration we believe the balance to be expensed in future periods

Edgar Filing: AVOCENT CORP - Form 10-Q

would be reduced to approximately \$2 million for currently outstanding stock options under the SFAS 123 methodology.

On October 22, 2004, the American Jobs Creation Act of 2004 became law. This legislation repeals export tax benefits, which have historically reduced our effective tax rate. This legislation phases in the repealed export tax benefits by allowing 100 percent of the repealed export benefits in 2004, 80 percent in 2005 and 60 percent in 2006. We do not expect this change will have a material impact on our effective tax rate or provision for taxes in 2005.

The legislation also transitions in a new tax deduction for qualifying U.S. manufacturing activities. Under the guidance in FASB Staff Position No. FAS 109-1 which articulates the application of SFAS 109, *Accounting for Income Taxes*, to the tax deduction on qualified production activities provided by the Act, the deduction will be treated as a special deduction as described in SFAS 109. As such, we expect the new manufacturing activities deduction provision of the new legislation may reduce our effective rate in future periods as the deduction is taken on our tax returns. We do not expect the deduction to have a material impact on our effective tax rate or income tax provision in 2005.

The legislation also provides for the optional repatriation of earnings from foreign subsidiaries allowing an 85 percent dividends received deduction. The deduction is subject to a number of limitations. We have performed a preliminary analysis under

the new legislation and we are considering repatriating up to \$90.0 million from overseas earnings pursuant to this provision during the fourth quarter of 2005. If our intention to permanently reinvest overseas earnings in our overseas operations changes and we decide to repatriate any of the earnings to the U.S., we would incur additional income tax expense equal to the incremental U.S. income tax in excess of the credits available for taxes already paid overseas. If we repatriate the entire \$90.0 million in the fourth quarter of 2005, we estimate the potential tax expense to be \$3.5 million, which would reduce diluted earnings per share \$0.08 cents.

Item 3. Quantitative and Qualitative Disclosures About Market Risks.

Our primary market risk is the potential loss arising from increases in interest rates, which could have an adverse impact on the fair value of our investment securities. Our investment policy is to manage our investment portfolio to preserve principal and liquidity while maximizing the return on our investment portfolio through the investment of available funds. We diversify our investment portfolio by investing in a variety of highly-rated investment-grade securities and through the use of different investment managers. Our investment securities portfolio is primarily invested in securities with maturities (or interest rate resets) of two years or less with at least an investment grade rating to minimize interest rate and credit risk as well as to provide for an immediate source of funds. Market risk, calculated as the potential change in fair value in our investment portfolio resulting from a hypothetical 10% change in interest rates, was not material at September 30, 2005.

We also face foreign currency exchange rate risk to the extent that the value of certain foreign currencies relative to the U.S. dollar affects our financial results. Our international operations transact a portion of our business in currencies other than the U.S. dollar, predominantly the euro, and changes in exchange rates may positively or negatively affect our revenues, gross margins, operating expenses, and retained earnings since these transactions are reported by us in U.S. dollars. We periodically purchase foreign currency forwards aimed at limiting the impact of currency fluctuations. These instruments provide only limited protection against currency exchange risks, and there can be no assurance that such an approach will be successful, especially if a significant and sudden decline occurs in the value of local currencies. As of September 30, 2005, we had one 30 day open forward contract, maturing on October 28, 2005, with a fair value of approximately (\$7,000).

Item 4. Controls and Procedures.

a) *Evaluation of disclosure controls and procedures.* Based on their evaluation as of September 30, 2005, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934) are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

(b) *Changes in internal control over financial reporting.* There were no changes in our internal controls over financial reporting during the quarter ended September 30, 2005 that materially affected or is reasonably likely to materially affect, our internal controls over financial reporting. However, we implemented a new investment software package in the third quarter of 2005, which we believe will improve our internal controls over our accounting for investments.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

In October 2003, we filed a complaint for patent infringement in the United States District Court for the Northern District of Alabama against ClearCube Technology, Inc. The ClearCube complaint seeks injunctive relief, damages, attorneys' fees, and costs under two of our patents. ClearCube has filed counterclaims alleging non-infringement, unenforceability, invalidity, and misuse of the Avocent patents. A Markman hearing on claims construction was originally set for February 2005, but in response to an inquiry from the Court, we agreed that the hearing should be postponed until the United States Court of Appeals for the Federal Circuit issues its ruling on certain similar issues raised in an unrelated patent case. This ruling was issued in June 2005 and the Markman hearing on claims construction is now scheduled for December 2005.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

In the fourth quarter of 2004, our Board of Directors approved a stock repurchase program whereby we may, from time to time, purchase up to two million shares of our common stock in the open market, in privately negotiated transactions or otherwise, at prices that we deem appropriate. Our Board increased the amount we may repurchase to four million shares in April 2005. The plan has no expiration date. Details of purchases made during the nine months ended September 30, 2005 are as follows:

Period:	Total Number of Shares Purchased During the Period	Average Price Paid Per Share for Period Presented	Total Cumulative Number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares Remaining to Purchase Under the Plan (1)
January 1, 2005 - January 31, 2005	195,600	\$ 36.04	295,600	1,704,400
February 1, 2005 - February 28, 2005	154,400	\$ 35.41	450,000	1,550,000
March 1, 2005 - April 1, 2005	350,000	\$ 26.70	800,000	1,200,000
Quarter ended April 1, 2005	700,000	\$ 31.23		
April 2, 2005 - April 29, 2005	275,000	\$ 24.92	1,075,000	2,925,000
April 30, 2005 - May 27, 2005	294,969	\$ 26.07	1,369,969	2,630,031
May 28, 2005 - July 1, 2005	505,031	\$ 27.46	1,875,000	2,125,000
Quarter ended July 1, 2005	1,075,000	\$ 26.43		
July 2, 2005 - July 29, 2005	200,000	\$ 29.62	2,075,000	1,925,000
July 30, 2005 - August 26, 2005	125,000	\$ 33.28	2,200,000	1,800,000
August 27, 2005 - September 30, 2005	175,000	\$ 32.77	2,375,000	1,625,000
Quarter ended September 30, 2005	500,000	\$ 31.64		
Totals	2,275,000	\$ 29.05		

(1) Includes additional two million shares approved by our Board of Directors for our stock repurchase program on April 29, 2005. A total of four million shares is now authorized to be repurchased under the board approved program.

Item 6. Exhibits.

(a) Exhibits

31.1 Sarbanes-Oxley Act of 2002 Section 302(a) Certification of the Chief Executive Officer

31.2 Sarbanes-Oxley Act of 2002 Section 302(a) Certification of the Chief Financial Officer

32.1 Certification of the Chief Executive Officer and the Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

ITEMS 3, 4 & 5 ARE NOT APPLICABLE AND HAVE BEEN OMITTED.
