Indicate by check mark whether the Registrant is a shell company. YES  NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. As of November 8, 2006, the Registrant had 104,836,030 shares of Common Stock, \$.10 par value, issued and outstanding.

## **PART I FINANCIAL INFORMATION**

### **ITEM 1. FINANCIAL STATEMENTS**

The unaudited financial statements, enclosed as Exhibit 19 to this Form 10-Q, are incorporated by reference into this Item 1. In the opinion of management, the financial statements reflect all adjustments necessary for a fair presentation of the financial position and the results of operations as of and for the quarter and year-to-date periods ended September 30, 2006.

### **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

#### **Overview**

Bemis Company, Inc. is a leading global manufacturer of flexible packaging and pressure sensitive materials supplying a variety of markets. Generally about 60 percent of our total company net sales are to customers in the food industry.

Third quarter 2006 diluted earnings per share were \$0.45, an increase of 9.8 percent compared to \$0.41 per share in the same period of 2005. Net sales for the third quarter ended September 30, 2006, were \$903.3 million compared to \$870.1 million in the third quarter 2005, a 3.8 percent increase.

#### ***Market Conditions***

Bemis uses varying grades of many different polymer resins in our flexible packaging manufacturing operations, including nylon, polyester, polypropylene, EVOH (ethyl vinyl alcohol) and polyethylene. The market for polymer resins and other polymer-based raw materials has been volatile during the past two years, at times experiencing record price increases and supply shortages. We have also experienced price volatility in other raw materials such as paper and adhesives used in both our flexible packaging and pressure sensitive materials business segments. We employ a business model that periodically adjusts product selling prices to reflect changes in raw material costs. The time lag between raw material cost changes and selling price changes resulted in reduced operating margins in early 2005 and improved operating margins in early 2006.

Since selling prices are ultimately adjusted to reflect changes in raw material costs, the impact of the time lag on our operating margins is expected to be short-term. We continue to experience increasing market demand for our high value-added products in both business segments. In the long run, we expect these growth trends and our recent cost management efforts to have a more significant long-term impact on our profitability than raw material cost fluctuations.

#### ***Restructuring and Related Charges***

In the first quarter of 2006, we announced the planned closure of five flexible packaging facilities and one pressure sensitive materials facility, intended to reduce fixed costs and shift production to more modern and lower cost facilities. The current estimate of total restructuring and related charges is \$35 million. Charges include the estimated cost of plant shutdowns, corporate headquarters relocation, employee severance, equipment relocation and other related activities. We expect these actions to reduce annual operating costs by approximately \$17 million. We recorded \$25.5 million of restructuring and related charges, before taxes, during the first nine months of 2006. Of this total charge, \$11.9 million is recorded in cost of products sold and primarily relates to accelerated depreciation. The remaining \$13.6 million is recorded in other costs (income) and primarily reflects employee-related costs.

#### **Results of Operations - Third Quarter 2006**

##### ***Consolidated Overview***

Net sales for the third quarter ended September 30, 2006, were \$903.3 million compared to \$870.1 million in the third quarter of 2005, an increase of 3.8 percent. Currency effects increased net sales by 2.1 percent compared to the same quarter of 2005.

Net income totaled \$48.0 million for the third quarter of 2006, compared to \$44.2 million for the same period of 2005. Diluted earnings per share was \$0.45 for the third quarter compared to \$0.41 in the third quarter of 2005. Third quarter 2006 net income included a \$5.5 million pre-tax restructuring charge.

##### ***Flexible Packaging Business Segment***

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

## Edgar Filing: BEMIS CO INC - Form 10-Q

Net sales for the flexible packaging business segment increased to \$749.1 million this quarter compared to \$723.0 million in the third quarter of 2005, a 3.6 percent increase. Currency effects accounted for 2.0 percent net sales growth during the current quarter, primarily reflecting the impact of the strengthened Brazilian Real currency. The remaining 1.6 percent sales increase was driven by net sales increases in markets such as meat and cheese, bakery, pet products, health and hygiene, medical and multipack products, representing about 58 percent of flexible packaging sales. Net sales to other market categories were unchanged compared to the third quarter of 2005, except for the confectionery and snack market where net sales decreased by over 10 percent compared to 2005.

Segment operating profit from the flexible packaging business segment was \$92.0 million during the third quarter of 2006 compared to \$89.0 million during the third quarter of 2005 (See accompanying notes to the financial statements, Note 10, Segments of Business, for a reconciliation of operating profit to income before income taxes). Segment operating profit as a percentage of net sales for the third quarter was 12.3 percent for both 2006 and 2005. Restructuring and related charges totaling \$5.1 million reduced operating profit during the third

2

---

quarter of 2006. Improved cost management in addition to moderating raw material costs in 2006 contributed to improved levels of operating profit compared to the third quarter of 2005.

***Pressure Sensitive Materials Business Segment***

Third quarter net sales for the pressure sensitive materials business segment increased 4.8 percent to \$154.2 million in 2006 compared to \$147.2 million in 2005. Currency effects accounted for 2.3 percent net sales growth. The increase in net sales was driven by sales growth in label, graphics, and technical products. Unit sales volume increased in each of the product lines.

Segment operating profit from the pressure sensitive materials business in the third quarter of 2006 was \$11.5 million, or 7.4 percent of net sales, compared to \$9.6 million, or 6.5 percent of net sales, in the third quarter of 2005 (See accompanying notes to the financial statements, Note 10, Segments of Business, for a reconciliation of operating profit to income before income taxes). Segment operating profit for the third quarter of 2006 included restructuring and related charges of \$0.6 million related to the previously announced closure of one plant. Segment operating profit for the third quarter of 2005 included a net gain of \$0.9 million from the sale of a manufacturing facility that was closed in late 2003. The improvement in operating margins is due primarily to ongoing cost improvement efforts.

***Consolidated Selling, General and Administrative Expenses***

Selling, general and administrative expenses decreased to \$81.2 million in the third quarter of 2006 compared to \$82.8 million for the third quarter of 2005. As a percentage of sales, this category of expenses decreased in the third quarter of 2006 to 9.0 percent compared to 9.5 percent in the same period of 2005. We expect selling, general and administrative expenses as a percentage of net sales for the total year 2006 to be in the range of 9.0 to 9.3 percent.

***Interest Expense***

Interest expense was \$11.7 million for the third quarter of 2006, an increase of \$1.8 million from the third quarter of 2005 reflecting an increase in interest rates partially offset by the impact of lower debt levels compared to the same period of 2005.

***Other Costs (Income), Net***

During the third quarter of 2006, other costs and income included \$4.7 million of employee-related costs resulting from the 2006 restructuring activities and \$5.5 million of financial income. Other income during the third quarter of 2006 also includes a \$4.4 million favorable resolution of a litigated Brazilian excise tax liability related to our flexible packaging operations.

***Income Taxes***

Our effective tax rate was 38.9 percent in the third quarter of 2006, lower than our rate for the same period of 2005 of 39.6 percent. The difference between our overall tax rate and the U.S. statutory tax rate of 35 percent in each period principally relates to state and local income taxes net of federal income tax benefits.

**Results of Operations - Nine Months Ended September 30, 2006**

***Consolidated Overview***

Net sales for the nine months ended September 30, 2006, were \$2.7 billion compared to \$2.6 billion in the first nine months of 2005, an increase of 6.1 percent. Currency effects increased net sales by 1.7 percent in the first nine months of 2006 compared to the same period of 2005.

Net income totaled \$134.7 million for the first nine months of 2006, compared to \$117.6 million for the same period of 2005. Diluted earnings per share was \$1.26 for the first nine months compared to \$1.09 for the first nine months of 2005. For the first nine months of 2006 net income included the impact of pre-tax restructuring charges of \$25.5 million.

***Flexible Packaging Business Segment***

Net sales for the flexible packaging business segment increased to \$2.3 billion compared to \$2.1 billion in the first nine months of 2005, a 5.7 percent increase. Currency effects increased net sales by 2.1 percent in the first nine months of 2006 compared to the same period of 2005. The remaining 3.6 percent sales increase was driven by strong net sales growth in markets such as meat and cheese, dry foods, medical, health and

## Edgar Filing: BEMIS CO INC - Form 10-Q

hygiene, bakery, pet products, dairy and liquids, and multipack products, representing about 70 percent of flexible packaging sales. This positive net sales growth was partially offset by lower net sales to the confectionery and snack market as well as other food market categories.

Segment operating profit from the flexible packaging business segment was \$251.5 million, or 11.1 percent of net sales, compared to \$239.6 million, or 11.2 percent of net sales, during the first nine months of 2005. Restructuring and related charges totaling \$24.8 million reduced segment operating profit during the first nine months of 2006. Improved cost management in addition to moderating raw material costs in 2006 increased segment operating profit compared to the first half of 2005.

### *Pressure Sensitive Materials Business Segment*

Net sales for the pressure sensitive materials business segment increased 8.0 percent to \$482.0 million during the first nine months of 2006 compared to \$446.2 million in 2005. Currency effects reduced net sales by 0.5 percent in the first nine months of 2006 compared to the same period of 2005. The increase in net sales was driven by sales volume growth in label, graphics, and technical products.

3

---

Segment operating profit from the pressure sensitive materials business in the first nine months of 2006 was \$40.9 million, or 8.5 percent of net sales, compared to \$26.5 million, or 5.9 percent of net sales, in the same period of 2005. Operating profit for the first nine months of 2006 included restructuring and related charges of \$0.9 million. Operating profit for the first nine months of 2005 included a net gain of \$0.9 million on the sale of a manufacturing property site that was closed in late 2003. The improvement in operating margins in 2006 is due to ongoing cost improvement efforts combined with a change in sales mix which reflects an increased proportion of higher margin products.

#### ***Consolidated Selling, General and Administrative Expenses***

Selling, general and administrative expenses decreased slightly to \$249.7 million for the nine months ended September 30, 2006, compared to \$250.5 million for the first nine months of 2005. As a percentage of sales, this category of expenses decreased in the first nine months of 2006, to 9.1 percent compared to 9.7 percent in the same period of 2005. We expect selling, general and administrative expenses as a percentage of net sales for the total year 2006 to be in the range of 9.0 to 9.3 percent.

#### ***Interest Expense***

Interest expense was \$37.5 million for the first nine months of 2006, an increase of \$9.4 million from the same period of 2005 due to generally higher interest rates.

#### ***Other Costs (Income), Net***

During the nine months ended September 30, 2006, other costs and income totaled \$1.7 million of net other income compared to \$1.1 million of net other costs in the same period of 2005. Costs resulting from restructuring activities totaled \$13.6 million in the first nine months of 2006, primarily related to employee severance and relocation. These costs were more than offset by financial income and a favorable resolution of a litigated Brazilian excise tax liability.

#### ***Income Taxes***

Our effective tax rate was 39.0 percent in the first nine months of 2006, slightly less than our rate for the same period of 2005 of 39.4 percent.

#### **Liquidity and Capital Resources**

##### ***Debt to Total Capitalization***

Debt to total capitalization (which includes total debt, long-term deferred tax liabilities and equity) was 32.2 percent at September 30, 2006, compared to 35.7 percent at December 31, 2005. Total debt as of September 30, 2006 was \$781.7 million, a decrease of \$62.4 million from the balance of \$844.1 at December 31, 2005. Healthy cash flows for the nine months ended September 30, 2006, were used to support a strong capital expenditure program, dividend payments, share repurchases and debt reduction.

##### ***Sources of Liquidity***

Net cash provided by operating activities increased to \$288.5 million in the first nine months of 2006 compared to \$253.7 million in the same period of 2005. Higher levels of net income and a net decrease in working capital during the first nine months of 2006 resulted in improved cash flow for the period ended September 30, 2006.

Under the terms of a revolving credit agreement, we have the capacity to borrow up to \$500.0 million through September 2, 2009, including a \$100 million multicurrency limit to support the financing needs of our international subsidiaries. This facility is primarily used to support our issuance of commercial paper. On September 30, 2006, total commercial paper outstanding was \$79.3 million, and multicurrency loans outstanding totaled \$50.2 million. As of September 30, 2006, we had the capacity to borrow an additional \$362.5 million under the credit facility. In addition to the funds available under this credit facility, we also have the capability of issuing up to \$100 million of Extendable Commercial Notes (ECNs), which are short-term instruments whose maturity can be extended to 390 days from the date of issuance. Based on our current operating plans, management expects cash flow from operations and available liquidity described above to be sufficient to support ongoing operating activities.

##### ***Uses of Liquidity***

## Edgar Filing: BEMIS CO INC - Form 10-Q

Capital expenditures were \$114.5 million for the nine months ended September 30, 2006, compared to \$122.5 million for the same period of 2005. Capital expenditures for 2006 are expected to be in the range of \$175 to \$185 million, slightly lower than total capital expenditures of \$187 million for the year ended December 31, 2005.

Business acquisitions and adjustments of \$10.8 million for the first nine months of 2006 reflects an adjustment to the purchase price of Dixie Toga, originally acquired in January, 2005 and the acquisition of the minority interest of our three Mexican joint venture operations.

In the first nine months ended September 30, 2006, we repurchased 600,000 shares of common stock in the open market for \$17.8 million. The purchases were made during the first quarter under a 10b5-1 plan established to offset the dilutive impact of stock awards on an annual basis. As of September 30, 2006, the remaining balance of Board authorization for common stock repurchases was 2.2 million shares.

### *Interest Rate Swaps*

The fair value of interest rate swap agreements recorded on the balance sheet decreased from \$5.0 million at December 31, 2005, to \$3.2 million at September 30, 2006. The impact of this change was a \$1.8 million decrease in the recorded value of long-term debt with a corresponding decrease in other assets.

### **Forward-Looking Statements**

This Quarterly Report on Form 10-Q contains certain estimates, predictions, and other forward-looking statements (as defined in the Private Securities Litigation Reform Act of 1995, and within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended). Forward-looking statements are generally identified with the words believe, expect, anticipate, intend, estimate, target, may, will, plan, project, should, continue, or the negative thereof or other similar expressions. Forward-looking statements also include future goals or aspirations, which are predictions of or indicate future events and trends and which do not relate to historical matters. Such statements are based on information available to management as of the time of such statements and relate to, among other things, expectations of the business environment in which we operate, projections of future performance (financial and otherwise), including those of acquired companies, perceived opportunities in the market and statements regarding our mission and vision. Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause actual results, performance or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise.

Factors that could cause actual results to differ from those expected include, but are not limited to, general economic conditions caused by inflation, interest rates, consumer confidence, rates of unemployment and foreign currency exchange rates; investment performance of assets in our pension plans; competitive conditions within our markets, including the acceptance of our new and existing products; customer contract bidding activity; threats or challenges to our patented or proprietary technologies; raw material costs, availability, and terms, particularly for polymer resins and adhesives; price changes for raw materials and our ability to pass these price changes on to our customers or otherwise manage commodity price fluctuation risks; unexpected energy surcharges; broad changes in customer order patterns; our ability to estimate costs and future savings associated with restructuring activities and related gains and losses on disposal of restructured assets; the presence of adequate cash available for investment in our business in order to maintain desired debt levels; changes in governmental regulation, especially in the areas of environmental, health and safety matters, and foreign investment; unexpected outcomes in our current and future litigation proceedings, including the civil lawsuits related to competitive practices in the label stock industry, and the investigation by European Commission into the competitive practices in the paper and forestry products industries; unexpected outcomes in our current and future domestic and international tax proceedings; changes in our labor relations; and the impact of changes in the world political environment including threatened or actual armed conflict. These and other risks, uncertainties, and assumptions identified from time to time in our filings with the Securities and Exchange Commission, including without limitation, our Annual Report on Form 10-K for the year ended December 31, 2005 and our quarterly reports on Form 10-Q, could cause actual future results to differ materially from those projected in the forward-looking statements. In addition, actual future results could differ materially from those projected in the forward-looking statement as a result of changes in the assumptions used in making such forward-looking statement.

### **Explanation of Terms Describing the Company's Products**

**Barrier laminate** A multilayer plastic film made by laminating two or more films together with the use of glue or a molten plastic to achieve a barrier for the planned package contents.

**Barrier products** Products that provide protection and extend the shelf life of the contents of the package. These products provide this protection by combining different types of plastics and chemicals into a multilayered plastic package. These products protect the contents from such things as moisture, sunlight, odor, or other elements.

**Blown film** A plastic film that is extruded through a round die in the form of a tube and then expanded by a column of air in the manufacturing process.

**Cast film** A plastic film that is extruded through a straight slot die as a flat sheet during its manufacturing process.

**Coextruded film** A multiple layer extruded plastic film.

**Controlled atmosphere packaging** A package which limits the flow of elements, such as oxygen or moisture, into or out of the package.

**Graphic products** Pressure sensitive materials used for decorative signage, promotional items, displays, advertisements and visual communication applications.

Flexible polymer film A non-rigid plastic film.

Flexographic printing The most common flexible packaging printing process in North America using a raised rubber or alternative material image mounted on a printing cylinder.

In-line overlaminating capability The ability to add a protective coating to a printed material during the printing process.

Labelstock Base material for pressure sensitive labels.

Modified atmosphere packaging A package in which the atmosphere inside the package has been modified by a gas such as nitrogen.

Monolayer film A single layer extruded plastic film.

Multiwall paper bag A package made from two or more layers of paper.

Polyolefin shrink film A packaging film consisting of polyethylene and/or polypropylene resins extruded via the blown process. The film can be irradiated in a second process to cross link the molecules for added strength, durability, and toughness. The product is characterized by thin gauge, high gloss, sparkle, transparency, and good sealing properties.

Pressure sensitive material A material with adhesive such that upon contact with another material it will stick.

Label products Pressure sensitive materials sold in roll and/or sheet form and used by label converters for product labeling and promotional applications.

Rotogravure printing A high quality, long run printing process utilizing a metal cylinder.

Stretch film A plastic film used to wrap pallets in the shipping process, which has significant ability to stretch.

Technical products Technically engineered pressure sensitive materials used primarily for fastening and mounting functions.

Thermoformed plastic packaging A package formed by applying heat to a film to shape it into a tray or cavity and then placing a flat film on top of the package after it has been filled.

UV inhibitors Chemicals which protect against ultraviolet rays.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes in the Company's market risk during the nine-month period ended September 30, 2006. For additional information, refer to Item 7A of the Company's Annual Report on Form 10-K for the year ended December 31, 2005.

**ITEM 4. CONTROLS AND PROCEDURES**

The Company's management, under the direction, supervision, and involvement of the Chief Executive Officer and the Chief Financial Officer, has carried out an evaluation, as of the end of the period covered by this report, of the effectiveness of the design and operation of the disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) of the Company. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that disclosure controls and procedures in place at the Company are effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified by the Securities and Exchange Commission's rules and forms and is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. There has been no change in the Company's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

The material set forth in Note 11 of the Notes to Consolidated Financial Statements included in Exhibit 19 to this Form 10-Q is incorporated herein by reference.

**ITEM 6. EXHIBITS**

The Exhibit Index is incorporated herein by reference.
