- (1) Senior floating-rate interests often require prepayments from excess cash flows or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating-rate interests will have an expected average life of approximately two to three years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base lending rates are primarily the London-Interbank Offered Rate ( LIBOR ), and secondarily the prime rate offered by one or more major United States banks (the Prime Rate ) and the certificate of deposit ( CD ) rate or other base lending rates used by commercial lenders.
- (2) This Senior Loan will settle after September 30, 2007, at which time the interest rate will be determined.

- (3) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- (4) Unfunded or partially unfunded loan commitments. The Fund may enter into certain credit agreements all or a portion of which may be unfunded. The Fund is obligated to fund these commitments at the borrower's discretion.
- (5) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At September 30, 2007, the aggregate value of the securities is \$11,962,560 or 3.9% of the Fund's net assets.
- (6) Non-income producing security.
- (7) Restricted security.
- (8) Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of September 30, 2007. Net income allocated from the Investment in Cash Management Portfolio for the fiscal year to date ended September 30, 2007 was \$68,844.
