Item 8.01. Other Events

We are filing this Current Report on Form 8-K for the purpose of incorporating the contents of this report in any future registration statements we may file from time to time.

Formation of New Operating Segments

As previously reported, in the first fiscal quarter of 2010, we formed three new operating segments from our existing businesses. The bio-analytical measurement segment was separated into two operating segments – life sciences and chemical analysis. The electronic measurement segment recombined electronic measurement and semiconductor and board test, which were reported separately in 2009. Following this re-organization, Agilent has three businesses – life sciences, chemical analysis and electronic measurement. All historical segment numbers have been recast to conform to this new reporting structure in our financial statements.

In Exhibit 99.1 to this Current Report on Form 8-K, we have revised the following items that were contained in our Annual Report on Form 10-K for the year ended October 31, 2009 (Annual Report on Form 10-K), to reflect the changes referenced above: Item 1, Business, Item 1A, Risk Factors, Item 2, Properties, Item 6, Selected Financial Data, Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations, Item 8, Financial Statements and Supplementary Data and Item 15, Exhibits and Financial Statement Schedules. In addition, since it is the subject of the Report of Independent Registered Public Accounting Firm, we have included Management’s Report on Internal Control over Financial Reporting in Item 8. The Management’s Report on Internal Control over Financial Reporting has not been changed from the disclosure in the Annual Report on Form 10-K.

This filing does not reflect any subsequent information or events other than adjustments to reflect the updated segment information in conjunction with the change in business structure. The revisions included in the exhibits to this Current Report on Form 8-K reflect changes to the Annual Report on Form 10-K as a result of the change in business structure. Without limitation of the foregoing, this filing does not purport to update Management’s Discussion and Analysis of Financial Condition and Results of Operations contained in the Annual Report on Form 10-K for any information, uncertainties, transactions, risks, events or trends occurring, or known to management. More current information is contained in the Company’s Quarterly Report on Form 10-Q for the quarterly period ended April 30, 2010 and other filings with the Securities and Exchange Commission. This Current Report on Form 8-K should be read in conjunction with the Annual Report on Form 10-K and such Quarterly Report on Form 10-Q and other filings. The Form 10-Q and other filings contain important information regarding events, developments and updates to certain expectations of the Company that have occurred since the filing of the Annual Report on Form 10-K.
