- (1) Other than our investments listed in footnote 7 below (subject to the limitations set forth therein), we do not Control any of our portfolio companies, for purposes of the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the Investment Company Act). In general, under the Investment Company Act, we would Control a portfolio company if we owned more than 25% of its outstanding voting securities (i.e., securities with the right to elect directors) and/or had the power to exercise control over the management or policies of such portfolio company. All of our portfolio company investments, which as of September 30, 2012 represented 152% of the Company's net assets or 94% of the Company's total assets, are subject to legal restrictions on sales.

* Together with GE Global Sponsor Finance LLC and General Electric Capital Corporation (together, "GE"), we co-invest through the Senior Secured Loan Fund LLC d/b/a the Senior Secured Loan Program (the "SSLP"). The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of the Company and GE (with approval from a representative of each required); therefore, although the Company owns more than 25% of the voting securities of the SSLP (even though these voting securities do not afford the Company the right to elect directors of the SSLP or any other special rights), the Company does not believe that it has control over the SSLP (for purposes of the Investment Company Act or otherwise).

Table of Contents

- (8) Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.
- (9) Excepted from the definition of investment company under Section 3(c) of the Investment Company Act and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.
- (10) In the first quarter of 2011, the staff of the Securities and Exchange Commission (the Staff) informally communicated to certain business development companies the Staff 's belief that certain entities, which would be classified as an investment company under the Investment Company Act but for the exception from the definition of investment company set forth in Rule 3a-7 promulgated under the Investment Company Act, could not be treated as eligible portfolio companies (as defined in Section 2(a)(46) of the Investment Company Act). Subsequently, in August 2011 the Securities and Exchange Commission issued a concept release (the Concept Release) which states that [a]s a general matter, the Commission presently does not believe that Rule 3a-7 issuers are the type of small, developing and financially troubled businesses in which Congress intended BDCs primarily to invest and requested comment on whether or not a 3a-7 issuer should be considered an eligible portfolio company . Ares Capital provided a comment letter in respect of the Concept Release and continues to believe that the language of Section 2(a)(46) of the Investment Company Act permits a business development company to treat as eligible portfolio companies entities that rely on the 3a-7 exception. However, given the current uncertainty in this area (including the language in the Concept Release) and subsequent discussions with the Staff, Ares Capital has, solely for purposes of calculating the composition of its portfolio pursuant to Section 55(a) of the Investment Company Act, identified these entities in our schedule of investments as non-qualifying assets should the Staff ultimately disagree with Ares Capital 's position.
- (11) Variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either LIBOR or an alternate base rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower 's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect on the date presented.
- (12) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 5.00% on \$17 million aggregate principal amount outstanding of the portfolio company 's senior term debt previously syndicated by us.
- (13) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$12 million aggregate principal amount outstanding of the portfolio company 's senior term debt previously syndicated by us.

In general, under the Investment Company Act, we would Control a portfolio company if we owned more than 25% of its outstanding voting securities (i.e., securities with the right to elect directors) and/or had the power to exercise control over the

management or policies of such portfolio company. All of our portfolio company investments, which as of December 31, 2011 represented 162% of the Company's net assets or 95% of the Company's total assets, are subject to legal restrictions on sales.

The investments not otherwise pledged as collateral for the Debt Securitization or the Revolving Funding Facility (each as defined in Note 5 to the consolidated financial statements) by the respective obligors thereunder are pledged as collateral by the Company and certain of its other subsidiaries for the Revolving Credit Facility (as defined in Note 5 to the consolidated financial statements) (except for a limited number of exceptions as provided in the credit agreement governing the Revolving Credit Facility).

- (2) These assets are owned by the Company's consolidated subsidiary Ares Capital CP Funding LLC ("Ares Capital CP "), are pledged as collateral for the Revolving Funding Facility and, as a result, are not directly available to the creditors of the Company to satisfy any obligations of the Company other than Ares Capital CP's obligations under the Revolving Funding Facility (see Note 5 to the consolidated financial statements).
- (3) Pledged as collateral for the Debt Securitization.
- (4) Investments without an interest rate are non-income producing.
- (5) As defined in the Investment Company Act, we are deemed to be an "Affiliated Person" of a portfolio company because we own 5% or more of the portfolio company's outstanding voting securities or we have the power to exercise control over the management or policies of such portfolio company (including through a management agreement). Transactions during the year ended December 31, 2011 in which the issuer was an Affiliated company (but not a portfolio company that we "Control") are as follows:

* Together with GE Global Sponsor Finance LLC and General Electric Capital Corporation (together, "GE"), we co-invest through the Senior Secured Loan Fund LLC d/b/a the Senior Secured Loan Program (the "SSLP"). The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of the Company and GE (with approval from a representative of each required); therefore, although the Company owns more than 25% of the voting securities of the SSLP (even though these voting securities do not afford the Company the right to elect directors of the SSLP or any other special rights), the Company does not believe that it has control over the SSLP (for purposes of the Investment Company Act or otherwise).

- (7) Non-U.S. company or principal place of business outside the U.S. and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.
- (8) Excepted from the definition of investment company under Section 3(c) of the Investment Company Act and as a result is not a qualifying asset under Section 55(a) of the Investment Company Act. Under the Investment Company Act, we may not acquire any non-qualifying asset unless, at the time such acquisition is made, qualifying assets represent at least 70% of our total assets.
- (9) In the first quarter of 2011, the staff of the Securities and Exchange Commission (the Staff) informally communicated to certain business development companies the Staff's belief that certain entities, which would be classified as an investment company under the Investment Company Act but for the exception from the definition of investment company set forth in Rule 3a-7 promulgated under the Investment Company Act, could not be treated as eligible portfolio companies (as defined in Section 2(a)(46) of the Investment Company Act). Subsequently, in August 2011 the Securities and Exchange Commission issued a concept release (the Concept Release) which states that [a]s a general matter, the Commission presently does not believe that Rule 3a-7 issuers are the type of small, developing and financially troubled businesses in which Congress intended BDCs primarily to invest and requested comment on whether or not a 3a-7 issuer should be considered an eligible portfolio company. Ares Capital provided a comment letter in respect of the Concept Release and continues to believe that the language of Section 2(a)(46) of the Investment Company Act permits a business development company to treat as eligible portfolio companies entities that rely on the 3a-7 exception. However, given the current uncertainty in this area (including the language in the Concept Release) and subsequent discussions with the Staff, Ares Capital has, solely for purposes of calculating the composition of its portfolio pursuant to Section 55(a) of the Investment Company Act, identified these entities in our schedule of investments as non-qualifying assets should the Staff ultimately disagree with Ares Capital's position.
- (10) Variable rate loans to our portfolio companies bear interest at a rate that may be determined by reference to either LIBOR or an alternate base rate (commonly based on the Federal Funds Rate or the Prime Rate), at the borrower's option, which reset annually (A), semi-annually (S), quarterly (Q), bi-monthly (B), monthly (M) or daily (D). For each such loan, we have provided the interest rate in effect on the date presented.
- (11) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 5.00% on \$18 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (12) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 2.50% on \$12 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (13) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 4.00% on \$45 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (14) In addition to the interest earned based on the stated interest rate of this security, we are entitled to receive an additional interest amount of 1.25% on \$74 million aggregate principal amount outstanding of the portfolio company's senior term debt previously syndicated by us.
- (15) Loan was on non-accrual status as of December 31, 2011.
- (16) Loan includes interest rate floor feature.
- (17) In addition to the interest earned based on the stated contractual interest rate of this security, the certificates entitle us to receive a portion of the excess cash flow from the SSLP's loan portfolio, which may result in a return to the Company greater than the contractual stated interest rate.

ARES CAPITAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

As of September 30, 2012

(unaudited)

(in thousands, except per share data, percentages and as otherwise indicated;

for example, with the words million, billion or otherwise)

1. ORGANIZATION

Ares Capital Corporation (the Company or ARCC or we) is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the Investment Company Act). The Company has elected to be treated as a regulated investment company, or a RIC , under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code) and operates in a manner so as to qualify for the tax treatment applicable to RICs.

On April 1, 2010, we consummated our acquisition of Allied Capital Corporation (Allied Capital), in an all stock merger where each existing share of common stock of Allied Capital was exchanged for 0.325 shares of our common stock (the Allied Acquisition). The Allied Acquisition was valued at approximately \$908 million as of April 1, 2010. In connection therewith, we issued approximately 58.5 million shares of our common stock to Allied Capital 's then-existing stockholders.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make equity investments. Also, as a result of the Allied Acquisition, Allied Capital 's equity investments, including equity investments larger than those we have historically made and controlled portfolio company equity investments, became part of our portfolio.

We are externally managed by Ares Capital Management LLC (Ares Capital Management or our investment adviser), a wholly owned subsidiary of Ares Management LLC (Ares Management), a global alternative asset manager and a Securities and Exchange Commission (SEC) registered investment adviser. Ares Operations LLC (Ares Operations or our administrator), a wholly owned subsidiary of Ares Management, provides the administrative services necessary for us to operate.

Interim financial statements are prepared in accordance with United States generally accepted accounting principles (GAAP) for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Articles 6 or 10 of Regulation S-X. In the opinion of management, all adjustments, consisting solely of normal recurring accruals considered necessary for the fair presentation of financial statements for the interim period presented, have been included. The current period 's results of operations will not necessarily be indicative of results that ultimately may be achieved for the fiscal year ending December 31, 2012.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with GAAP, and include the accounts of the Company and its consolidated subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications that, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition as of and for the periods presented. All significant intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

Cash and cash equivalents include funds from time to time deposited with financial institutions and short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

Table of Contents

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. Unrealized gains or losses primarily reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized.

Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on, among other things, the input of our investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12 month period (with certain de minimis exceptions) and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a minimum of 50% of our portfolio at fair value is subject to review by an independent valuation firm each quarter. In addition, our independent accountants review our valuation process as part of their overall integrated audit.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments would trade in their principal markets and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, as described herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

Our board of directors undertakes a multi-step valuation process each quarter, as described below:

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.
- Preliminary valuations are reviewed and discussed with our investment adviser's management and investment professionals, and then valuation recommendations are presented to our board of directors.
- The audit committee of our board of directors reviews these valuations, as well as the input of third parties, including independent third-party valuation firms, with respect to the valuations of a minimum of 50% of our portfolio at fair value.
- Our board of directors discusses valuations and ultimately determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on, among other things, the input of our investment adviser, audit committee and, where applicable, independent third-party valuation firms.

See Note 7 for more information on our valuation process.

Table of Contents

Interest and Dividend Income Recognition

Interest income is recorded on an accrual basis and includes the accretion of discounts and amortization of premiums. Discounts from and premiums to par value on securities purchased are accreted/amortized into interest income over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums, if any.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected in full. Accrued and unpaid interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. The Company may make exceptions to this if the loan has sufficient collateral value and is in the process of collection.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies.

Payment-in-Kind Interest

The Company has loans in its portfolio that contain payment-in-kind (PIK) provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends, even though the Company has not yet collected the cash.

Capital Structuring Service Fees and Other Income

The Company's investment adviser seeks to provide assistance to our portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are generally only available to the Company as a result of the Company's underlying investments, are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's investment adviser provides vary by investment, but generally include reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan. The Company's investment adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat.

Other income includes fees for asset management, management and consulting services, loan guarantees, commitments, amendments and other services rendered by the Company to portfolio companies. Such fees are recognized as income when earned or the services are rendered.

Foreign Currency Translation

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Fair value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the period.

- (2) Purchases and sales of investment securities, income and expenses at the exchange rates prevailing on the respective dates of such transactions, income or expenses.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

Table of Contents

Equity Offering Expenses

The Company's offering costs, excluding underwriters' fees, are charged against the proceeds from equity offerings when received.

Debt Issuance Costs

Debt issuance costs are amortized over the life of the related debt instrument using the straight line method, which closely approximates the effective yield method.

U.S. Federal Income Taxes

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders at least 90% of its investment company taxable income, as defined by the Code, for each year. The Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as such taxable income is earned.

Certain of our consolidated subsidiaries are also subject to U.S. federal and state income taxes.

Dividends to Common Stockholders

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend is determined by our board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed, although we may decide to retain such capital gains for investment.

We have adopted a dividend reinvestment plan that provides for reinvestment of any distributions we declare in cash on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not opted out of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional

shares of our common stock, rather than receiving the cash dividend. We intend to use primarily newly issued shares to implement the dividend reinvestment plan (so long as we are trading at a premium to net asset value). If our shares are trading at a significant enough discount to net asset value and we are otherwise permitted under applicable law to purchase such shares, we intend to purchase shares in the open market in connection with our obligations under our dividend reinvestment plan. However, we reserve the right to issue new shares of our common stock in connection with our obligations under the dividend reinvestment plan even if our shares are trading below net asset value.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

New Accounting Pronouncements

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04). ASU 2011-04 was issued concurrently with International Financial Reporting Standards No.13 (IFRS 13), Fair Value Measurements, to provide largely identical guidance about fair value measurement and disclosure requirements as is currently required under ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820). The new standards do not extend the use of fair value but, rather, provide guidance about how fair value should be applied where it already is required or permitted under IFRS or GAAP. For GAAP, most of the changes are clarifications of existing guidance or wording changes to align with IFRS 13. ASU 2011-04 eliminates the concepts of in-use and in-exchange when measuring fair value of all financial instruments. For Level 3 fair value measurements, the ASU requires that our disclosure include quantitative information about significant unobservable inputs, a qualitative discussion about the sensitivity of the fair value measurement to changes in the unobservable inputs and the interrelationship between inputs, and a description of our valuation process. Public companies are required to apply ASU 2011-04 prospectively for interim and annual periods beginning after December 15, 2011. The Company has evaluated the impact of the adoption of ASU 2011-04 on its financial statements and disclosures and determined the adoption of ASU 2011-04 has had no material effect on the Company's financial condition and results of operations. See Note 7 for the disclosure required by ASU 2011-04.

3. AGREEMENTS

Investment Advisory and Management Agreement

The Company is party to an investment advisory and management agreement (the "investment advisory and management agreement") with Ares Capital Management. Subject to the overall supervision of our board of directors, Ares Capital Management provides investment advisory and management services to the Company. For providing these services, Ares Capital Management receives a fee from us consisting of two components: a base management fee and an incentive fee.

The base management fee is calculated at an annual rate of 1.5% based on the average value of our total assets (other than cash or cash equivalents but including assets purchased with borrowed funds) at the end of the two most recently completed calendar quarters. The base management fee is payable quarterly in arrears.

The incentive fee has two parts. The first part is calculated and payable quarterly in arrears based on our pre-incentive fee net investment income for the quarter. Pre-incentive fee net investment income means interest income, dividend income and any other income (including any other fees such as commitment, origination, structuring, diligence and consulting fees or other fees that we receive from portfolio companies but excluding fees for providing managerial assistance) accrued during the calendar quarter, minus operating expenses for the quarter (including the base management fee, any expenses payable under the administration agreement, and any interest expense and dividends paid on any outstanding preferred stock, but excluding the incentive fee). Pre-incentive fee net investment income includes, in the case of investments with a deferred interest feature such as market discount, debt instruments with PIK interest, preferred stock with PIK dividends and zero coupon securities, accrued income that we have not yet received in cash. Our investment adviser is not under any obligation to reimburse us for any part of the incentive fee it received that was based on accrued interest that we never actually receive.

Pre-incentive fee net investment income does not include any realized capital gains, realized capital losses, unrealized capital appreciation, unrealized capital depreciation or income tax expense related to realized gains. Because of the structure of the incentive fee, it is possible that we may pay an incentive fee in a quarter where we incur a loss. For example, if we receive pre-incentive fee net investment income in excess of the hurdle rate (as defined below) for a quarter, we will pay the applicable incentive fee even if we have incurred a loss in that quarter due to realized and/or unrealized capital losses.

Pre-incentive fee net investment income, expressed as a rate of return on the value of our net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) at the end of the immediately preceding calendar quarter, is compared to a fixed "hurdle rate" of 1.75% per quarter. If market credit spreads rise, we may be able to invest our funds in debt instruments that provide for a higher return, which may increase our pre-incentive fee net investment income and make it easier for our investment adviser to surpass the fixed hurdle rate and receive an incentive fee based on such net investment income. To the extent we have retained pre-incentive fee net investment income that has been used to calculate this part of the incentive fee, it is also included in the amount of our total assets (other than cash and cash equivalents but including assets purchased with borrowed funds) used to calculate the 1.5% base management fee.

We pay our investment adviser an incentive fee with respect to our pre-incentive fee net investment income in each calendar quarter as follows:

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

- no incentive fee in any calendar quarter in which our pre-incentive fee net investment income does not exceed the hurdle rate;
- 100% of our pre-incentive fee net investment income with respect to that portion of such pre-incentive fee net investment income, if any, that exceeds the hurdle rate but is less than 2.1875% in any calendar quarter. We refer to this portion of our pre-incentive fee net investment income (which exceeds the hurdle rate but is less than 2.1875%) as the catch-up provision. The catch-up is meant to provide our investment adviser with 20% of the pre-incentive fee net investment income as if a hurdle rate did not apply if this net investment income exceeded 2.1875% in any calendar quarter; and
- 20% of the amount of our pre-incentive fee net investment income, if any, that exceeds 2.1875% in any calendar quarter.

Table of Contents

These calculations are adjusted for any share issuances or repurchases during the quarter.

The second part of the incentive fee (the *Capital Gains Fee*), is determined and payable in arrears as of the end of each calendar year (or, upon termination of the investment advisory and management agreement, as of the termination date) and is calculated at the end of each applicable year by subtracting (a) the sum of our cumulative aggregate realized capital losses and aggregate unrealized capital depreciation from (b) our cumulative aggregate realized capital gains, in each case calculated from October 8, 2004 (the date we completed our initial public offering). Realized capital gains and losses include gains and losses on investments and foreign currencies, as well as gains and losses on extinguishment of debt and other assets. If such amount is positive at the end of such year, then the Capital Gains Fee for such year is equal to 20% of such amount, less the aggregate amount of Capital Gains Fees paid in all prior years. If such amount is negative, then there is no Capital Gains Fee for such year.

The cumulative aggregate realized capital gains are calculated as the sum of the differences, if positive, between (a) the net sales price of each investment in our portfolio when sold and (b) the accreted or amortized cost basis of such investment.

The cumulative aggregate realized capital losses are calculated as the sum of the amounts by which (a) the net sales price of each investment in our portfolio when sold is less than (b) the accreted or amortized cost basis of such investment.

The aggregate unrealized capital depreciation is calculated as the sum of the differences, if negative, between (a) the valuation of each investment in our portfolio as of the applicable Capital Gains Fee calculation date and (b) the accreted or amortized cost basis of such investment.

Notwithstanding the foregoing, as a result of an amendment to the capital gains portion of the incentive fee under the investment advisory and management agreement that was adopted on June 6, 2011, if we are required by GAAP to record an investment at its fair value as of the time of acquisition instead of at the actual amount paid for such investment by us (including, for example, as a result of the application of the acquisition method of accounting), then solely for the purposes of calculating the Capital Gains Fee, the accreted or amortized cost basis of an investment shall be an amount (the *Contractual Cost Basis*) equal to (1) (x) the actual amount paid by the Company for such investment plus (y) any amounts recorded in the Company's financial statements as required by GAAP that are attributable to the accretion of such investment plus (z) any other adjustments made to the cost basis included in the Company's financial statements, including payment-in-kind interest or additional amounts funded (net of repayments) minus (2) any amounts recorded in the Company's financial statements as required by GAAP that are attributable to the amortization of such investment, whether such calculated Contractual Cost Basis is higher or lower than the fair value of such investment (as determined in accordance with GAAP) at the time of acquisition.

We defer cash payment of any incentive fee otherwise earned by our investment adviser if during the most recent four full calendar quarter period ending on or prior to the date such payment is to be made the sum of (a) the aggregate distributions to our stockholders and (b) the change in net assets (defined as total assets less indebtedness and before taking into account any incentive fees payable during the period) is less than 7.0% of our net assets (defined as total assets less indebtedness) at the beginning of such period. Any deferred incentive fees are carried over for payment in subsequent calculation periods to the extent such payment is payable under the investment advisory and management agreement.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

The Capital Gains Fee due to our investment adviser as calculated under the investment advisory and management agreement (as described above) for the three and nine months ended September 30, 2012 was \$0. However, in accordance with GAAP, the Company has cumulatively accrued a capital gains incentive fee of \$64,683 as of September 30, 2012. GAAP requires that the capital gains incentive fee accrual consider the cumulative aggregate unrealized capital appreciation in the calculation, as a capital gains incentive fee would be payable if such unrealized capital appreciation were realized, even though such unrealized capital appreciation is not permitted to be considered in calculating the fee actually payable under the investment advisory and management agreement. This GAAP accrual is calculated using the aggregate cumulative realized capital gains and losses and aggregate cumulative unrealized capital depreciation included in the calculation of the Capital Gains Fee plus the aggregate cumulative unrealized capital appreciation. If such amount is positive at the end of a period, then GAAP requires us to record a capital gains incentive fee equal to 20% of such cumulative amount, less the aggregate amount of actual Capital Gains Fees paid or capital gains incentive fees accrued under GAAP in all prior periods. The resulting accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reversal of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. There can be no assurance that such unrealized capital appreciation will be realized in the future.

For the three and nine months ended September 30, 2012, base management fees were \$22,316 and \$63,113, respectively, incentive fees related to pre-incentive fee net investment income were \$24,720 and \$67,532, respectively, and incentive fees related to capital gains accrued in accordance with GAAP were \$9,419 and \$15,726, respectively.

Table of Contents

As of September 30, 2012, \$111,719 was included in management and incentive fees payable in the accompanying consolidated balance sheet, of which \$47,036 is currently payable to the Company's investment adviser under the investment advisory and management agreement.

For the three and nine months ended September 30, 2011, base management fees were \$18,317 and \$52,461, respectively, incentive fees related to pre-incentive fee net investment income were \$21,703 and \$54,631, respectively, and incentive fees related to capital gains accrual in accordance with GAAP were \$(11,544) and \$28,215, respectively.

Administration Agreement

We are party to an administration agreement, referred to herein as the administration agreement, with our administrator, Ares Operations. Pursuant to the administration agreement, Ares Operations furnishes us with office equipment and clerical, bookkeeping and record keeping services at our office facilities. Under the administration agreement, Ares Operations also performs, or oversees the performance of, our required administrative services, which include, among other things, providing assistance in accounting, legal, compliance, operations, technology, and investor relations, being responsible for the financial records that we are required to maintain and preparing reports to our stockholders and reports filed with the SEC. In addition, Ares Operations assists us in determining and publishing our net asset value, oversees the preparation and filing of our tax returns and the printing and dissemination of reports to our stockholders, and generally oversees the payment of our expenses and the performance of administrative and professional services rendered to us by others. Payments under our administration agreement are equal to an amount based upon our allocable portion of Ares Operations' overhead and other expenses (including travel expenses) incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the compensation of certain of our officers (including our chief compliance officer, chief financial officer, general counsel, treasurer and assistant treasurer) and their respective staffs. The administration agreement may be terminated by either party without penalty upon 60 days' written notice to the other party.

For the three and nine months ended September 30, 2012, we incurred \$2,269 and \$6,806, respectively, in administrative fees. For the three and nine months ended September 30, 2011, we incurred \$2,017 and \$6,901, respectively, in administrative fees. As of September 30, 2012, \$2,269 of these fees were unpaid and included in accounts payable and other liabilities in the accompanying consolidated balance sheet.

Senior Secured Loan Program

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

The Company co-invests in first lien senior secured loans of middle market companies with GE Global Sponsor Finance LLC and General Electric Capital Corporation (together, "GE") through an unconsolidated Delaware limited liability company, the Senior Secured Loan Fund LLC (d/b/a the Senior Secured Loan Program) or the SSLP. The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of the Company and GE (with approval from a representative of each required). The Company provides capital to the SSLP in the form of subordinated certificates (the SSLP Certificates).

As of September 30, 2012 and December 31, 2011, the SSLP had available capital of approximately \$7.7 billion, of which approximately \$5.9 billion and \$5.0 billion in aggregate principal amount was funded at September 30, 2012 and December 31, 2011, respectively. As of September 30, 2012 and December 31, 2011, the Company had agreed to make available to the SSLP \$1,487,500, of which \$282,001 and \$442,523 was unfunded, respectively.

Table of Contents

As of September 30, 2012 and December 31, 2011, the SSLP had total assets of \$5.9 billion and \$5.0 billion, respectively. GE's investment in the SSLP consisted of senior notes of \$4.6 billion and \$3.8 billion and SSLP Certificates of \$172 million and \$149 million at September 30, 2012 and December 31, 2011, respectively. The SSLP Certificates are junior in right of payment to the senior notes. The Company owned 87.5% of the outstanding SSLP Certificates as of September 30, 2012 and December 31, 2011 and GE owned the remainder. The SSLP's portfolio consisted of first lien senior secured loans to 37 and 32 different borrowers as of September 30, 2012 and December 31, 2011, respectively. As of September 30, 2012 and December 31, 2011, the portfolio was comprised of all first lien senior secured loans to U.S. middle-market companies and none of these loans was on non-accrual status. As of September 30, 2012 and December 31, 2011, the largest loan to a single borrower in the SSLP's portfolio in aggregate principal amount was \$294.4 million and the five largest loans to borrowers in the SSLP totaled \$1.4 billion. The portfolio companies in the SSLP are in industries similar to the companies in the Company's portfolio.

The amortized cost and fair value of the SSLP Certificates held by the Company was \$1,194,950 and \$1,229,950, respectively, as of September 30, 2012, and \$1,034,254 and \$1,059,178, respectively, as of December 31, 2011. The SSLP Certificates pay a weighted average coupon of approximately LIBOR plus 8.0% and also entitle the holders thereof to receive a portion of the excess cash flow from the loan portfolio, which may result in a return greater than the contractual coupon. The Company's yield on its investment in the SSLP at fair value was 15.5% and 15.7% as of September 30, 2012 and December 31, 2011, respectively. For the three and nine months ended September 30, 2012, the Company earned interest income of \$47,457 and \$135,200, respectively, in respect of its SSLP investment. For the three and nine months ended September 30, 2011, the Company earned interest income of \$30,749 and \$81,073, respectively, in respect of its SSLP investment. The Company is also entitled to certain fees in connection with the SSLP.

Effective March 30, 2012, Ares Capital Management assumed from the Company the role of co-manager of the SSLP. However, this change did not impact the Company's economics in respect of its participation in the SSLP and Ares Capital Management does not receive any remuneration in respect of its co-manager role.

5. DEBT

In accordance with the Investment Company Act, with certain limited exceptions, the Company is only allowed to borrow amounts such that its asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing. As of September 30, 2012 our asset coverage for borrowed amounts was 277%.

The Company's outstanding debt obligations as of September 30, 2012 and December 31, 2011 were as follows:

The total unaccreted discount for the February 2016 Convertible Notes and the June 2016 Convertible Notes was \$33,848 and \$14,069, respectively, at December 31, 2011.

(5) Represents the aggregate principal amount outstanding less the unaccreted purchased discount. The total unaccreted purchased discount on the 2047 Notes was \$48,856 and \$49,012 as of September 30, 2012 and December 31, 2011, respectively.

The weighted average stated interest rate and weighted average maturity, both on aggregate principal amount, of all our outstanding debt as of September 30, 2012 were 5.2% and 10.1 years, respectively, and as of December 31, 2011 were 4.8% and 9.3 years, respectively.

Revolving Credit Facility

In December 2005, the Company entered into a senior secured revolving credit facility (as amended and restated, the Revolving Credit Facility), which as of September 30, 2012, allowed the Company to borrow up to \$900,000 at any one time outstanding. In May 2012, the Company amended and restated the Revolving Credit Facility to, among other things, increase the size of the facility from \$810,000 to \$900,000, extend the expiration of the revolving period from January 22, 2013 to May 4, 2015 and extend the stated maturity date from January 22, 2013 to May 4, 2016. The Revolving Credit Facility also includes a feature that allows, under certain circumstances, for an increase in the size of the facility to a maximum of \$1,350,000. The Revolving Credit Facility generally requires payments of interest at the end of each LIBOR interest period, but no less frequently than quarterly, on LIBOR based loans, and monthly payments of interest on other loans. From the end of the revolving period to the stated maturity date, the Company is required to repay outstanding principal amounts under the Revolving Credit Facility on a monthly basis in an amount equal to 1/12th of the outstanding principal amount at the end of the revolving period.

Under the Revolving Credit Facility, the Company is required to comply with various covenants, reporting requirements and other customary requirements for similar revolving credit facilities, including, without limitation, covenants related to: (a) limitations on the incurrence of additional indebtedness and liens, (b) limitations on certain investments, (c) limitations on certain restricted payments, (d) maintaining a certain minimum stockholders' equity, (e) maintaining a ratio of total assets (less total liabilities other than indebtedness) to total indebtedness of the Company and its consolidated subsidiaries of not less than 2.0:1.0, (f) limitations on pledging certain unencumbered assets, and (g) limitations on the creation or existence of agreements that prohibit liens on certain properties of the Company and certain of its subsidiaries. These covenants are subject to important limitations and exceptions that are described in the documents governing the Revolving Credit Facility. Borrowings under the Revolving Credit Facility (and the incurrence of certain other permitted debt) are also subject to compliance with a

borrowing base that applies different advance rates to different types of assets in our portfolio that are pledged as collateral. As of September 30, 2012, the Company was in compliance in all material respects with the terms of the Revolving Credit Facility.

As of September 30, 2012, and December 31, 2011, there was \$50,000 and \$395,000 outstanding, respectively, under the Revolving Credit Facility. The Revolving Credit Facility also provides for a sub-limit for the issuance of letters of credit for up to an aggregate amount of \$125,000. As of September 30, 2012, and December 31, 2011, the Company had \$43,894 and \$47,249, respectively, in standby letters of credit issued through the Revolving Credit Facility. The amount available for borrowing under the Revolving Credit Facility is reduced by any standby letters of credit issued. As of September 30, 2012, there was \$806,106 available for borrowing (net of standby letters of credit issued) under the Revolving Credit Facility.

After May 4, 2012, subject to certain exceptions, the interest rate charged on the Revolving Credit Facility is based on LIBOR plus an applicable spread of 2.25% or a base rate (as defined in the agreements governing the Revolving Credit Facility) plus an applicable spread of 1.25%. Prior to May 4, 2012, the interest rate charged on the Revolving Credit Facility was based on LIBOR plus an applicable spread of between 2.50% and 4.00% or on a base rate plus an applicable spread of between 1.50% and 3.00%, in each case, based on a pricing grid depending upon our credit ratings. As of September 30, 2012, the one, two, three and six month LIBOR was 0.21%, 0.29%, 0.36% and 0.64%, respectively. As of December 31, 2011, the one, two, three and six month LIBOR was 0.30%, 0.43%, 0.58% and 0.81%, respectively. In addition to the stated interest expense on the Revolving Credit Facility, after May 4, 2012, the Company is required to pay a commitment fee of 0.375% per annum on any unused portion of the Revolving Credit Facility and a letter of credit fee of 2.50% per annum on letters of credit issued, both of which are payable quarterly. Prior to May 4, 2012, the commitment fee was 0.50%, and the letter of credit fee was 3.25%.

Revolving Funding Facility

In October 2004, the Company established through its consolidated subsidiary, Ares Capital CP Funding LLC (Ares Capital CP), a revolving funding facility (as amended, the Revolving Funding Facility), which as of September 30, 2012, allowed Ares Capital CP to borrow up to \$620,000 at any one time outstanding. The Revolving Funding Facility is secured by all of the assets held by, and the Company's membership interest in, Ares Capital CP. In June 2012, the Company and Ares Capital CP amended the Revolving Funding Facility to, among other things, (i) increase the size of the Revolving Funding Facility from \$500,000 to \$580,000, (ii) add a feature that allows, under certain circumstances, for an increase in the size of the facility to a maximum of \$865,000, (iii) extend the reinvestment period from January 18, 2015 to April 18, 2015, and (iv) extend the stated maturity date from January 18, 2017 to April 18, 2017. In July 2012, the Company and Ares Capital CP received an increase in the commitments under the Revolving Funding Facility of \$40,000, bringing the total commitments to \$620,000.

Amounts available to borrow under the Revolving Funding Facility are subject to a borrowing base that applies different advance rates to different types of assets held by Ares Capital CP. Ares Capital CP is also subject to limitations with respect to the loans securing the Revolving Funding Facility, including restrictions on sector concentrations, loan size, payment frequency and status, collateral interests, loans with fixed rates and loans with certain investment ratings, as well as restrictions on portfolio company leverage, which may also affect the borrowing base and therefore amounts available to borrow. The Company and Ares Capital CP are also required to comply with various covenants, reporting requirements and other customary requirements for similar facilities. These covenants are subject to important limitations and exceptions that are described in the documents governing the Revolving Funding Facility. As of September 30, 2012, the Company and Ares Capital CP were in compliance in all material respects with the terms of the Revolving Funding Facility.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

As of September 30, 2012 and December 31, 2011, there was \$407,000 and \$463,000 outstanding, respectively, under the Revolving Funding Facility. After a January 18, 2012 amendment to the Revolving Funding Facility, the interest rate charged on the Revolving Funding Facility is based on LIBOR plus an applicable spread of 2.50% or on a base rate (as defined in the agreements governing the Revolving Funding Facility) plus an applicable spread of 1.50%. Prior to January 18, 2012, the interest rate charged on the Revolving Funding Facility, subject to certain exceptions, was based on LIBOR plus an applicable spread of between 2.25% and 3.75% or on a base rate plus an applicable spread of between 1.25% to 2.75%, in each case, based on a pricing grid depending upon the Company's credit ratings. As of September 30, 2012 and December 31, 2011, the interest rate in effect was based on one month LIBOR of 0.21% and 0.30%, respectively. Ares Capital CP is also required to pay a commitment fee of between 0.50% and 1.75% depending on the size of the unused portion of the Revolving Funding Facility.

SMBC Funding Facility

In January 2012, the Company established through its consolidated subsidiary, Ares Capital JB Funding LLC (ACJB), a revolving funding facility (as amended, the SMBC Funding Facility) with ACJB, as the borrower, Sumitomo Mitsui Banking Corporation (SMBC), as the administrative agent, collateral agent, and lender, which as of September 30, 2012 allowed ACJB to borrow up to \$400,000 at any one time outstanding. In September 2012, the Company and ACJB amended the SMBC Funding Facility to, among other things, (i) increase the size of the SMBC Funding Facility from \$200,000 to \$400,000, (ii) extend the reinvestment period from January 20, 2015 to September 14, 2015 and (iii) extend the stated maturity date from January 20, 2020 to September 14, 2020. The reinvestment period and the stated maturity date are both subject to two one-year extensions by mutual agreement.

Amounts available to borrow under the SMBC Funding Facility are subject to a borrowing base that applies different advance rates to assets held by ACJB. The Company and ACJB are also required to comply with various covenants, reporting requirements and other customary requirements for similar facilities. These covenants are subject to important limitations and exceptions that are described in the documents governing the SMBC Funding Facility. As of September 30, 2012, the Company and ACJB were in compliance in all material respects with the terms of the SMBC Funding Facility.

As of September 30, 2012, there was \$133,000 outstanding under the SMBC Funding Facility. Subject to certain exceptions, the interest rate charged on the SMBC Funding Facility is based on one month LIBOR plus an applicable spread of 2.125% or a base rate (as defined in the agreements governing the SMBC Funding Facility) plus an applicable spread of 1.125%. As of September 30, 2012, one-month LIBOR was 0.21%. Prior to July 20, 2012, there was no commitment fee required to be paid. Beginning on July 20, 2012, ACJB was required to pay a commitment fee of 0.50% depending on the size of the unused portion of the SMBC Funding Facility. As a result of the September 2012 amendment to the SMBC Funding Facility described above, ACJB is no longer required to pay a commitment fee until September 15, 2013, at which time ACJB will be required to pay a commitment fee of 0.50% depending on the size of the unused portion of the SMBC Funding Facility.

Debt Securitization

In July 2006, through ARCC Commercial Loan Trust 2006, a vehicle serviced by the Company's consolidated subsidiary, ARCC CLO 2006 LLC (ARCC CLO), the Company completed a \$400,000 debt securitization (the Debt Securitization) and issued approximately \$314,000 aggregate principal amount of asset backed notes to third parties (the CLO Notes) that were secured by a pool of middle market loans that were purchased or originated by the Company. The Company initially retained approximately \$86,000 of aggregate principal amount of certain BBB and non-rated securities in the Debt Securitization and subsequently repurchased \$34,790 of the CLO Notes. In June 2012, the Company repaid in full the \$60,049 aggregate principal amount outstanding of the CLO Notes and terminated or discharged the agreements governing the Debt Securitization.

Convertible Notes

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

In January 2011, we issued \$575,000 aggregate principal amount of unsecured convertible senior notes that mature on February 1, 2016 (the February 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. In March 2011, we issued \$230,000 aggregate principal amount of unsecured convertible senior notes that mature on June 1, 2016 (the June 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. In March 2012, we issued \$162,500 aggregate principal amount of unsecured convertible senior notes that mature on March 15, 2017 (the 2017 Convertible Notes) and together with the February 2016 Convertible Notes and the June 2016 Convertible Notes, the Convertible Notes), unless previously converted or repurchased in accordance with their terms. We do not have the right to redeem the Convertible Notes prior to maturity. The February 2016 Convertible Notes, the June 2016 Convertible Notes and the 2017 Convertible Notes bear interest at a rate of 5.75%, 5.125% and 4.875%, respectively, per year, payable semi-annually.

In certain circumstances, the Convertible Notes will be convertible into cash, shares of our common stock or a combination of cash and shares of our common stock, at our election, at their respective conversion rates (listed below as of September 30, 2012) subject to customary anti-dilution adjustments and the requirements of their respective indentures (the Convertible Notes Indentures). Prior to the close of business on the business day immediately preceding their respective conversion date (listed below), holders may convert their Convertible Notes only under certain circumstances set forth in the Convertible Notes Indentures. On or after their respective conversion dates until the close of business on the scheduled trading day immediately preceding their respective maturity date, holders may convert their Convertible Notes at any time. In addition, if we engage in certain corporate events as described in their respective Convertible Notes Indenture, holders of the Convertible Notes may require us to repurchase for cash all or part of the Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

As of September 30, 2012, the principal amounts of each series of the Convertible Notes exceeded the value of the underlying shares multiplied by the per share closing price of our common stock.

The Convertible Notes are our senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not expressly subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.

The Convertible Notes Indentures contain certain covenants, including covenants requiring us to comply with Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act and to provide financial information to the holders of the Convertible Notes under certain circumstances. These covenants are subject to important limitations and exceptions that are described in the Convertible Notes Indentures. As of September 30, 2012, the Company was in compliance in all material respects with the terms of the Convertible Notes Indentures.

The Convertible Notes are accounted for in accordance with Accounting Standards Codification (ASC) 470-20. Upon conversion of any of the Convertible Notes, we intend to pay the outstanding principal amount in cash and to the extent that the conversion value exceeds the principal amount, we have the option to pay in cash or shares of our common stock (or a combination of cash and shares) in respect of the excess amount, subject to the requirements of the Convertible Notes Indentures. The Company has determined that the embedded conversion options in the Convertible Notes are not required to be separately accounted for as a derivative under GAAP. In accounting for the Convertible Notes, we estimated at the time of issuance that the values of the debt and equity components were approximately 93% and 7%, respectively, for each of the February 2016 Convertible Notes and the June 2016 Convertible Notes, and that the debt and equity components were approximately 97% and 3%, respectively, for the 2017 Convertible Notes. The original issue discount equal to the equity components of the Convertible Notes was recorded in capital in excess of par value in the accompanying consolidated balance sheet. As a result, we record interest expense comprised of both stated interest expense as well as accretion of the original issue discount. Additionally, the issuance costs associated with the Convertible Notes were allocated to the debt and equity components in proportion to the allocation of the proceeds and accounted for as debt issuance costs and equity issuance costs, respectively.

At the time of issuance, the debt issuance costs and equity issuance costs for the February 2016 Convertible Notes were \$15,778 and \$1,188, respectively, for the June 2016 Convertible Notes were \$5,913 and \$445, respectively, and for the 2017 Convertible Notes were \$4,813 and \$149, respectively. At the time of issuance and as of September 30, 2012, the equity component, net of issuance costs as recorded in the capital

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

in excess of par value in the accompanying consolidated balance sheet for the February 2016 Convertible Notes, the June 2016 Convertible Notes and the 2017 Convertible Notes was \$39,062, \$15,655 and \$4,723, respectively.

Allied Unsecured Notes

As part of the Allied Acquisition, the Company assumed all outstanding debt obligations of Allied Capital, including Allied Capital's unsecured notes, which consisted of 6.625% Notes due on July 15, 2011 (the 2011 Notes), 6.000% Notes due on April 1, 2012 (the 2012 Notes) and 6.875% Notes due on April 15, 2047 (the 2047 Notes) and, together with the 2011 Notes and the 2012 Notes, the Allied Unsecured Notes. In accordance with ASC 805-10, the initial carrying value of the Allied Unsecured Notes was equal to the fair value as of April 1, 2010 resulting in an initial unaccreted discount from the principal value of the Allied Unsecured Notes of approximately \$65,800. Accretion expense related to this discount is included in interest and credit facility fees in the accompanying statement of operations.

On March 16, 2011 we redeemed the remaining balance of the 2011 Notes for a total redemption price (including a redemption premium) of \$306,800, in accordance with the terms of the indenture governing the 2011 Notes, which resulted in a loss on the extinguishment of debt of \$8,860. On April 27, 2011, we redeemed the remaining balance of the 2012 Notes for a total redemption price (including a redemption premium) of \$169,338, in accordance with the terms of the indenture governing the 2012 Notes, which resulted in a loss on the extinguishment of debt of \$10,458.

As of September 30, 2012 and December 31, 2011, the 2047 Notes were outstanding as follows:

The February 2022 Notes, the October 2022 Notes, the 2040 Notes and the 2047 Notes contain certain covenants, including covenants requiring the Company to comply with Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act and to provide financial information to the holders of such notes under certain circumstances. These covenants are subject to important limitations and exceptions set forth in the documents governing these instruments. As of September 30, 2012, the Company was in compliance in all material respects with the terms of the February 2022 Notes, the October 2022 Notes, the 2040 Notes and the 2047 Notes.

Table of Contents**6. COMMITMENTS AND CONTINGENCIES**

The Company has various commitments to fund investments in its portfolio as described below.

As of September 30, 2012 and December 31, 2011, the Company had the following commitments to fund various revolving and delayed draw senior secured and subordinated loans, including commitments to fund which are at (or substantially at) the Company's discretion:

	As of	
	September 30, 2012	December 31, 2011
Total revolving and delayed draw commitments	\$ 540,401	\$ 565,630
Less: funded commitments	(121,119)	(125,037)
Total unfunded commitments	419,282	440,593
Less: commitments substantially at discretion of the Company	(6,000)	(64,750)
Less: unavailable commitments due to borrowing base or other covenant restrictions	(571)	(5,518)
Total net adjusted unfunded revolving and delayed draw commitments	\$ 412,711	\$ 370,325

Included within the total revolving and delayed draw commitments as of September 30, 2012 were commitments to issue up to \$63,200 in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, if the standby letters of credit were to be issued, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of September 30, 2012, the Company had \$40,700 in standby letters of credit issued and outstanding under these commitments on behalf of the portfolio companies, of which no amounts were recorded as a liability on our balance sheet as such letters of credit are considered in the valuation of the investments in the portfolio company. All of the outstanding letters of credit expire in 2013.

As of September 30, 2012 and December 31, 2011, the Company was party to subscription agreements to fund equity investments in private equity investment partnerships:

	As of	
	September 30, 2012	December 31, 2011
Total private equity commitments	\$ 141,042	\$ 132,030
Less: funded private equity commitments	(75,711)	(67,428)
Total unfunded private equity commitments	65,331	64,602
Less: private equity commitments substantially at discretion of the Company	(48,000)	(53,525)
Total net adjusted unfunded private equity commitments	\$ 17,331	\$ 11,077

In addition, as of each of September 30, 2012 and December 31, 2011, the Company had outstanding guarantees or similar obligations on behalf of certain portfolio companies totaling \$800.

In the ordinary course of business, we may sell certain of our investments to third party purchasers. In particular, in connection with the sale of certain controlled portfolio company equity investments (as well as certain other sales) we have, and may continue to do so in the future, agreed to indemnify such purchasers for future liabilities arising from the investments and the related sale transaction. Such indemnification provisions may give rise to future liabilities.

As of September 30, 2012, one of the Company's portfolio companies, Ciena Capital LLC (Ciena), had one non-recourse securitization Small Business Administration (SBA) loan warehouse facility, which has reached its maturity date but remains outstanding. Ciena is working with the providers of the SBA loan warehouse facility with regard to the repayment of that facility. Allied Capital had previously issued a performance guaranty (which the Company succeeded to as a result of the Allied Acquisition) whereby the Company must indemnify the warehouse providers for any damages, losses, liabilities and related costs and expenses that they may incur as a result of Ciena's failure to perform any of its obligations as loan originator, loan seller or loan servicer under the warehouse facility. As of September 30, 2012, there are no known issues or claims with respect to this performance guaranty.

7. FAIR VALUE OF FINANCIAL INSTRUMENTS

Effective January 1, 2008, the Company adopted ASC 825-10, which provides companies the option to report selected financial assets and liabilities at fair value. ASC 825-10 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities and to more easily understand the effect of the company's choice to use fair value on its earnings. ASC 825-10 also requires entities to display the fair value of the selected assets and liabilities on the face of the balance sheet. The Company has not elected the ASC 825-10 option to report selected financial assets and liabilities at fair value. With the exception of the line items entitled other assets and debt, which are reported at amortized cost, all assets and liabilities approximate fair value on the balance sheet. The carrying value of the line items entitled interest receivable, receivable for open trades, payable for open trades, accounts payable and accrued expenses, management and incentive fees payable and interest and facility fees payable approximate fair value due to their short maturity.

Table of Contents

Effective January 1, 2008, the Company adopted ASC 820-10, which expands the application of fair value accounting. ASC 820-10 defines fair value, establishes a framework for measuring fair value in accordance with GAAP and expands disclosure of fair value measurements. ASC 820-10 determines fair value to be the price that would be received for an investment in a current sale, which assumes an orderly transaction between market participants on the measurement date. ASC 820-10 requires the Company to assume that the portfolio investment is sold in its principal market to market participants or, in the absence of a principal market, the most advantageous market, which may be a hypothetical market. Market participants are defined as buyers and sellers in the principal or most advantageous market that are independent, knowledgeable, and willing and able to transact. In accordance with ASC 820-10, the Company has considered its principal market as the market in which the Company exits its portfolio investments with the greatest volume and level of activity. ASC 820-10 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. In accordance with ASC 820-10, these inputs are summarized in the three broad levels listed below:

- Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities that the Company has the ability to access.

- Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

- Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

In addition to using the above inputs in investment valuations, we continue to employ the net asset valuation policy approved by our board of directors that is consistent with ASC 820-10 (see Note 2). Consistent with our valuation policy, we evaluate the source of inputs, including any markets in which our investments are trading (or any markets in which securities with similar attributes are trading), in determining fair value. Our valuation policy considers the fact that because there is not a readily available market value for most of the investments in our portfolio, the fair value of the investments must typically be determined using unobservable inputs.

The Company's portfolio investments (other than as discussed below in the following paragraph) are typically valued using two different valuation techniques. The first valuation technique is an analysis of the enterprise value (EV) of the portfolio company. Enterprise value means the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time. The primary method for determining EV uses a multiple analysis whereby appropriate multiples are applied to the portfolio company's EBITDA (net income before net interest expense, income tax expense, depreciation and amortization). EBITDA multiples are typically determined based upon review of market comparable transactions and publicly traded comparable companies, if any. The second method for determining EV uses a discounted cash flow analysis whereby future expected cash flows of the portfolio company are discounted to determine a present value using estimated discount rates (typically a weighted average cost of capital based on costs of debt and equity consistent with current market conditions). The EV analysis is performed to determine the value of equity investments, the value of debt investments in portfolio companies where the Company has control or could gain control through an option or warrant security, and to determine if there is credit impairment for debt investments. If debt investments are credit impaired, an EV analysis may be used to value such debt investments; however, in addition to the methods outlined above, other methods such as a liquidation or wind-down analysis may be utilized to estimate enterprise value. The second valuation technique is a yield analysis, which is typically performed for non-credit impaired debt investments in portfolio companies where we do not own a controlling equity position. To determine fair value using a yield analysis, a current price is imputed for the investment based upon an assessment of the expected market yield for a similarly structured investment with a similar level of risk. In the yield analysis, we consider the current contractual interest rate, the maturity and other terms of the investment relative to risk of the company and the specific investment. A key determinant of risk, among other things, is the leverage through the investment relative to the enterprise value of the portfolio company. As debt investments held by the Company are substantially illiquid with no active transaction market, the Company depends on primary market data, including newly funded transactions, as well as secondary market data with

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

respect to high yield debt instruments and syndicated loans, as inputs in determining the appropriate market yield, as applicable.

For other portfolio investments such as investments in collateralized loan obligations and the subordinated certificates of the SSLP, discounted cash flow analysis is the primary technique utilized to determine fair value. Expected future cash flows associated with the investment are discounted to determine a present value using a discount rate that reflects estimated market return requirements.

The following table summarizes the significant unobservable inputs the Company used to value the majority of its investments categorized within Level 2 or 3 as of September 30, 2012. The table is not intended to be all-inclusive, but instead captures the significant unobservable inputs relevant to our determination of fair values.

Total	\$ 5,925,649				

Changes in market yields, discount rates or EBITDA multiples, each in isolation, may change the fair value of certain of our investments. Generally, an increase in market yields or discount rates or decrease in EBITDA multiples may result in a decrease in the fair value of certain of our investments.

Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

Total for the nine months ended September 30, 2012	42,297		\$ 679,787

(1) The shares were sold to the underwriters for a price of \$16.55 per share, which the underwriters were then permitted to sell at variable prices to the public.

(2) The shares were sold to the underwriters for a price of \$15.41 per share, which the underwriters were then permitted to sell at variable prices to the public.

The Company used the net proceeds from the August 2012 and January 2012 public equity offerings to repay outstanding debt and for general corporate purposes, which included funding investments.

There were no sales of our equity securities for the nine months ended September 30, 2011.

Table of Contents**9. EARNINGS PER SHARE**

The following information sets forth the computations of basic and diluted net increase in stockholders' equity resulting from operations per share for the three and nine months ended September 30, 2012 and 2011:

	For the three months ended		For the nine months ended	
	September 30, 2012	September 30, 2011	September 30, 2012	September 30, 2011

Basic and diluted net increase in stockholders' equity resulting from operations per share:	\$ 0.59	\$ 0.20	\$ 1.49	\$ 0.98

For the purpose of calculating diluted earnings per share, the average closing price of the Company's common stock for the three and nine months ended September 30, 2012 and for the period from the time of issuance of the 2017 Convertible Notes through September 30, 2012 was less than the current conversion price for each respective series of the Convertible Notes and therefore, the underlying shares for the intrinsic value of the embedded options in the Convertible Notes had no impact on this calculation. The average closing price of the Company's common stock for the three months ended September 30, 2011 and for the period from the time of issuance of both the February 2016 Convertible Notes and the June 2016 Convertible Notes through September 30, 2011 was less than the current conversion price for each respective series of the Convertible Notes and therefore, the underlying shares for the intrinsic value of the embedded options in the Convertible Notes had no impact on this calculation.

The Company has a dividend reinvestment plan that was amended effective March 28, 2012, whereby the Company may buy shares of its common stock in the open market or issue new shares in order to satisfy dividend reinvestment requests. Prior to the amendment, if the Company issued new shares to implement the dividend reinvestment plan, the issue price was equal to the closing price of its common stock on the dividend record date. As a result of the amendment, when the Company issues new shares in connection with the dividend reinvestment plan, the issue price is equal to the closing price of its common stock on the dividend payment date. Dividend reinvestment plan activity for the nine months ended September 30, 2012 and 2011, was as follows:

11. RELATED PARTY TRANSACTIONS

In accordance with the investment advisory and management agreement, we bear all costs and expenses of the operation of the Company and reimburse our investment adviser for certain costs and expenses incurred by the Company's investment adviser in the operation of the Company. For the three and nine months ended September 30, 2012, the Company's investment adviser incurred costs and expenses in respect of which it was entitled to reimbursement totaling \$1,025 and \$2,888, respectively. For the three and nine months ended September 30, 2011, the Company's investment adviser incurred costs and expenses in respect of which it was entitled to reimbursement totaling \$698 and \$3,810, respectively. As of September 30, 2012, \$1,054 of this amount was unpaid and such payable is included in accounts payable and accrued expenses in the accompanying consolidated balance sheet.

We have entered into separate subleases with Ares Management and Ivy Hill Asset Management, L.P. (IHAM), a wholly owned portfolio company of the Company, pursuant to which Ares Management and IHAM sublease approximately 15% and 20%, respectively, of the Company's New York office space for a fixed rent equal to 15% and 20%, respectively, of the base annual rent payable by us under the Company's lease for this space, plus certain additional costs and expenses. For the three and nine months ended September 30, 2012, amounts payable to the Company under these subleases totaled \$405 and \$1,180, respectively. For the three and nine months ended September 30, 2011, amounts payable to the Company under these subleases totaled \$340 and \$477, respectively. Under our previous lease that expired on February 27, 2011, we were party to a sublease agreement with Ares Management whereby Ares Management subleased approximately 25% of such office space for a fixed rent equal to 25% of the basic annual rent payable by us under this lease, plus certain additional costs and expenses. For the nine months ended September 30, 2011, amounts payable under this sublease to the Company totaled \$396.

We are also party to an office sublease with Ares Commercial Real Estate Management LLC (ACREM), a wholly owned subsidiary of Ares Management, pursuant to which we are subleasing approximately 12% of ACREM's office space for a fixed rent equal to 12% of the basic annual rent payable by ACREM under its office lease, plus certain additional costs and expenses. For the three and nine months ended September 30, 2012, amounts payable under this sublease by the Company to ACREM totaled \$13 and \$39, respectively.

As of September 30, 2012, Ares Investments Holdings LLC, an affiliate of Ares Management, owned approximately 2.9 million shares of the Company's common stock representing approximately 1.2% of the total shares outstanding as of September 30, 2012.

12. IVY HILL ASSET MANAGEMENT, L.P. AND OTHER MANAGED VEHICLES

In November 2007, the Company established IHAM to serve as a manager for Ivy Hill Middle Market Credit Fund, Ltd., an unconsolidated investment vehicle focusing on investments in middle-market loans. From inception until the second quarter of 2009, IHAM's financial results were consolidated with those of the Company. In June 2009, because of a shift in activity from being primarily a manager, with no dedicated employees, of funds in which the Company had invested debt and equity, to a manager with individuals dedicated to managing an increasing number of third party funds, the Company concluded that GAAP required the financial results of IHAM to be reported as a portfolio company in the schedule of investments rather than as a consolidated subsidiary in the Company's financial results. The Company made an initial equity investment of \$3,816 into IHAM in June 2009. As of September 30, 2012, the Company's total investment in IHAM at fair value was \$211,614, including unrealized appreciation of \$98,738. As of December 31, 2011, the Company's total investment in IHAM at fair value was \$194,597 including unrealized appreciation of \$81,721. For the three and nine months ended September 30, 2012, the Company received distributions consisting entirely of dividend income from IHAM of \$5,124 and \$14,648, respectively. For the three and nine months ended September 30, 2011, the Company received distributions consisting entirely of dividend income from IHAM of \$4,762 and \$14,286, respectively.

IHAM, which became an SEC registered investment adviser effective March 30, 2012, managed, as of September 30, 2012, 11 unconsolidated credit vehicles and sub-managed or sub-advised four other unconsolidated credit vehicles (these vehicles managed or sub-managed /sub-advised by IHAM are collectively, the IHAM Vehicles). As September 30, 2012 and December 31, 2011, the Company had investments in two of the IHAM Vehicles.

Table of Contents

IHAM or certain of the IHAM Vehicles purchased investments from the Company of \$182,167, during the nine months ended September 30, 2012. A net realized gain of \$2,084 was recorded on these transactions for the nine months ended September 30, 2012. IHAM or the IHAM Vehicles may, from time to time, buy or sell additional investments from or to the Company. For any such purchases or sales by the IHAM Vehicles from or to the Company, the IHAM Vehicles must obtain approval from third parties unaffiliated with the Company or IHAM, as applicable.

IHAM is party to an administration agreement, referred to herein as the IHAM administration agreement, with Ares Operations. Pursuant to the IHAM administration agreement, Ares Operations provides IHAM with office facilities, equipment, clerical, bookkeeping and record keeping services, services of, and oversight of, custodians, depositories, accountants, attorneys, underwriters and such other persons in any other capacity deemed to be necessary. Under the IHAM administration agreement, IHAM reimburses Ares Operations for all of the actual costs associated with such services, including Ares Operations allocable portion of overhead and the cost of its officers and respective staff in performing its obligations under the IHAM administration agreement.

As part of the Allied Acquisition, the Company acquired the management rights for an unconsolidated vehicle, the AGILE Fund I, LLC (AGILE Fund). Effective March 30, 2012, the management rights for the AGILE Fund were transferred for de minimis, non-monetary consideration to an unrelated third party. The Company's investment in AGILE Fund was \$30 at fair value, including unrealized depreciation of \$103, as of September 30, 2012.

These ratios reflect annualized amounts.

(7) The ratio of net investment income to average net assets excludes income taxes related to realized gains.

14. LITIGATION

The Company is party to certain lawsuits in the normal course of business. In addition, Allied Capital was involved in various legal proceedings which the Company assumed in connection with the Allied Acquisition. Furthermore, third parties may try to seek to impose liability on the Company in connection with the activities of its portfolio companies. While the outcome of any such legal proceedings cannot at this time be predicted with certainty, the Company does not expect that these legal proceedings will materially affect its business, financial condition or results of operations.

15. SUBSEQUENT EVENTS

The Company's management has evaluated subsequent events through the date of issuance of the consolidated financial statements included herein. There have been no subsequent events that occurred during such period that would require disclosure in this Form 10-Q or would be required to be recognized in the Consolidated Financial Statements as of and for the nine months ended September 30, 2012, except as disclosed below.

In October 2012, the Company issued an additional \$7,500 in aggregate principal amount of the October 2022 Notes pursuant to the partial exercise of an over-allotment option by the underwriters of such offering.

In October 2012, the Company issued \$230,000 in aggregate principal amount of unsecured convertible senior notes that mature on January 15, 2018 (the 2018 Convertible Notes), unless previously converted or repurchased in accordance with their terms. The Company does not have the right to redeem the 2018 Convertible Notes prior to maturity. The 2018 Convertible Notes bear interest at a rate of 4.75% per year, payable semi-annually commencing on July 15, 2013. In certain circumstances, the 2018 Convertible Notes will be convertible into cash, shares of the Company's common stock or a combination of cash and shares of its common stock, at the Company's election, at an initial conversion rate of 50.3290 shares of common stock per one thousand dollar principal amount of the 2018 Convertible Notes, which was equivalent to an initial conversion price of approximately \$19.87 per share of its common stock, subject to customary anti-dilution adjustments. The initial conversion price was approximately 17.5% above the \$16.91 per share closing price of the Company's common stock on October 3, 2012.

In October 2012, the Company contributed to IHAM its entire investment in FirstLight Financial Corporation (FirstLight Corp.) at a price equal to the fair value at the time of the contribution of \$58.1 million (\$51.8 million for its senior subordinated loan position and \$6.3 million for its equity position). As a result of the contribution, the Company fully exited its investment in FirstLight Corp., which reduced its investment commitments by \$84.2 million, and recognized a net loss of \$26.1 million. Prior to such contribution, IHAM served as a sub-adviser to FirstLight Funding I, Ltd., a wholly owned subsidiary of FirstLight Corp. (FirstLight Funding). Following such contribution, FirstLight Funding distributed to FirstLight Corp. substantially all of its assets (in the form of cash and investments). In turn, FirstLight Corp. repaid in full the total outstanding amount of its senior subordinated loans (including the portion held by IHAM following the contribution transaction) and made a distribution to its stockholders (including IHAM following the contribution transaction). In connection with the foregoing, IHAM ceased to be a sub-adviser to FirstLight Funding and IHAM became the collateral manager to FirstLight Corp. and the other entity invested in FirstLight Corp.

Effective as of November 2, 2012, the Company amended its charter to increase the number of shares of common stock the Company is authorized to issue from 400,000 to 500,000.

In November 2012, the Company declared a fourth quarter dividend of \$0.38 per share and an additional dividend of \$0.05 per share. Both dividends are payable on December 28, 2012 to stockholders of record as of December 14, 2012.

OVERVIEW

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a BDC under the Investment Company Act of 1940, as amended (together with the rules and regulations promulgated thereunder, the Investment Company Act).

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior loans and mezzanine debt, which in some cases includes an equity component like warrants.

To a lesser extent, we also make preferred and/or common equity investments, which have generally been non-control equity investments, of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments. Also, as a result of the acquisition of Allied Capital Corporation (Allied Capital) on April 1, 2010 (the Allied Acquisition), Allied Capital 's equity investments, which included equity investments larger than those we have historically made and controlled portfolio company equity investments, became part of our portfolio. We intend to continue actively seeking opportunities over time to dispose of certain of the assets that were acquired in the Allied Acquisition, particularly non-yielding equity investments and controlled portfolio company investments, as well as lower or non-yielding debt investments and investments that may not be core to our investment strategy, and generally rotate them into higher-yielding first and second lien senior loans and mezzanine debt investments. However, there can be no assurance that this strategy will be successful.

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in qualifying assets, including securities and indebtedness of private U.S. companies and certain public U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less.

We also may invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. Specifically, as part of this 30% basket, we may invest in entities that are not considered eligible portfolio companies (as defined in the Investment Company Act), including companies located outside of the United States, entities that are operating pursuant to certain exceptions under the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act.

We are externally managed by Ares Capital Management LLC (Ares Capital Management), a wholly owned subsidiary of Ares Management LLC (Ares), a global alternative asset manager and an SEC-registered investment adviser, pursuant to an investment advisory and management agreement. Ares Operations LLC (Ares Operations), a wholly owned subsidiary of Ares Management, provides the administrative services necessary for us to operate.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

We have elected to be treated as a regulated investment company (a RIC) under Subchapter M of the Internal Revenue Code of 1986, as amended (the Code), and operate in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders generally at least 90% of our investment company taxable income, as defined by the Code, for each year. Pursuant to this election, we generally will not have to pay corporate level taxes on any income that we distribute to our stockholders provided that we satisfy those requirements.

Ares Capital Management, our investment adviser, employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, our investment adviser grades the credit risk of all investments on a scale of 1 to 4 no less frequently than quarterly. This system is intended primarily to reflect the underlying risk of a portfolio investment relative to our initial cost basis in respect of such portfolio investment (i.e., at the time of acquisition), although it may also take into account under certain circumstances the performance of the portfolio company's business, the collateral coverage of the investment and other relevant factors. Under this system, investments with a grade of 4 involve the least amount of risk to our initial cost basis. The trends and risk factors for this investment since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit. Investments graded 3 involve a level of

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition. This portfolio company is generally performing as expected and the risk factors to our ability to ultimately recoup the cost of our investment are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a grade of 3. Investments graded 2 indicate that the risk to our ability to recoup the initial cost basis of such investment has increased materially since origination or acquisition, including as a result of factors such as declining performance and non-compliance with debt covenants; however, payments are generally not more than 120 days past due. An investment grade of 1 indicates that the risk to our ability to recoup the initial cost basis of such investment has substantially increased since origination or acquisition, and the portfolio company likely has materially declining performance. For debt investments with an investment grade of 1, most or all of the debt covenants are out of compliance and payments are substantially delinquent. For investments graded 1, it is anticipated that we will not recoup our initial cost basis and may realize a substantial loss of our initial cost basis upon exit. For investments graded 1 or 2, our investment adviser enhances its level of scrutiny over the monitoring of such portfolio company. Our investment adviser grades the investments in our portfolio at least each quarter and it is possible that the grade of certain of these portfolio investments may be reduced or increased over time.

	\$ 5,936.2	100.0%	153	100.0%	\$ 5,094.5	100.0%	141	100.0%

As of each September 30, 2012 and December 31, 2011, the weighted average grade of the investments in our portfolio at fair value was 3.0.

As of September 30, 2012, loans on non-accrual status represented 2.6% and 1.0% of the total investments at amortized cost and at fair value, respectively. As of December 31, 2011, loans on non-accrual status represented 3.3% and 0.9% of the total investments at amortized cost and at fair value, respectively.

Senior Secured Loan Program

The Company co-invests in first lien senior secured loans of middle market companies with GE through an unconsolidated Delaware limited liability company, the Senior Secured Loan Fund LLC (d/b/a The Senior Secured Loan Program) or the SSLP . The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of the Company and GE (with approval from a representative of each required). The Company provides capital to the SSLP in the form of subordinated certificates (the SSLP Certificates).

As of September 30, 2012 and December 31, 2011, the SSLP had available capital of approximately \$7.7 billion, of which approximately \$5.9 billion and \$5.0 billion in aggregate principal amount was funded at September 30, 2012 and December 31, 2011, respectively. As of September 30, 2012 and December 31, 2011, the Company had agreed to make available to the SSLP \$1.5 billion, of which \$282 million and \$443 million was unfunded, respectively.

As of September 30, 2012 and December 31, 2011, the SSLP had total assets of \$5.9 billion and \$5.0 billion, respectively. GE s investment in the SSLP consisted of senior notes of \$4.6 billion and \$3.8 billion and SSLP Certificates of \$172 million and \$149 million as of September 30, 2012 and December 31, 2011, respectively. The SSLP Certificates are junior in right of payment to the senior notes. As of September 30, 2012 and December 31, 2011, the Company and GE owned 87.5% and 12.5%, respectively, of the outstanding SSLP Certificates.

As of September 30, 2012 and December 31, 2011, the SSLP s portfolio was comprised of all first lien senior secured loans to U.S. middle-market companies and none of these loans was on non-accrual status. The portfolio companies in the SSLP are in industries similar to the companies in the Company s portfolio.

- (2) Represents the fair value in accordance with Accounting Standards Codification 820-10. The determination of such fair value is not included in the Company's board of directors' valuation process described elsewhere herein.
- (3) The Company also holds a portion of the first lien senior secured loan in this portfolio company.
- (4) The Company holds a senior subordinated loan in this portfolio company.
- (5) The Company holds an equity investment in this portfolio company.
- (6) Consists of 9.0% interest payable in cash and 2.0% of payment-in-kind interest.

* Disclosure of the names of these SSLP portfolio companies is prohibited by the terms of the underlying agreements governing the loans to these portfolio companies.

The amortized cost and fair value of the SSLP Certificates held by the Company was \$1.2 billion and \$1.2 billion, respectively, as of September 30, 2012, and \$1.0 billion and \$1.1 billion, respectively, as of December 31, 2011. The SSLP Certificates pay a weighted average contractual coupon of three month LIBOR plus approximately 8.0% and also entitle the holders thereof to receive a portion of the excess cash flow from the underlying loan portfolio, which may result in a return to the holders of the SSLP Certificates that is greater than both the contractual coupon on the SSLP Certificates as well as the weighted average yield on the SSLP's portfolio of 8.1% and 8.2% at September 30, 2012, and December 31, 2011, respectively. The Company's yield on its investment in the SSLP at fair value was 15.5% and 15.7% as of September 30, 2012, and December 31, 2011, respectively. For the three and nine months ended September 30, 2012, the Company earned interest income of \$47 million and \$135 million, respectively. For the three and nine months ended September 30, 2011, the Company earned interest income of \$31 million and \$81 million, respectively.

The Company is also entitled to certain fees in connection with the SSLP. For the three and nine months ended September 30, 2012, in connection with the SSLP, the Company earned capital structuring service fees and sourcing, management and other fees totaling \$13 million and \$39 million, respectively. For the three and nine months ended September 30, 2011, in connection with the SSLP, the Company earned capital structuring service fees and sourcing, management and other fees totaling \$11 million and \$29 million, respectively.

The increase in interest income for the three months ended September 30, 2012 from the comparable period in 2011 was primarily due to the increase in the size of the portfolio, which increased from an average of \$4.7 billion at amortized cost for the three months ended September 30, 2011 to an average of \$5.6 billion at amortized cost for the comparable period in 2012. Even though new investment commitments decreased from \$1.4 billion for the three months ended September 30, 2011 to \$1.0 billion for the comparable period in 2012, capital structuring service fees increased for the three months ended September 30, 2012 as compared to 2011 primarily due to the increase in the average capital

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

structuring service fees received on new investments, which increased from 2.0% in 2011 to 2.9% in 2012. The decrease in dividend income for the three months ended September 30, 2012 from the comparable period in 2011 was primarily attributable to a decrease in non-recurring dividends, offset by additional dividend income of \$1.7 million earned from a preferred equity investment that was made in August 2011.

The increase in interest income for the nine months ended September 30, 2012 from the comparable period in 2011 was primarily due to the increase in the size of the portfolio which increased from an average of \$4.5 billion at amortized cost for the nine months ended September 30, 2011 to an average of \$5.4 billion at amortized cost for the comparable period in 2012. Even though new investment commitments decreased from \$2.8 billion for the nine months ended September 30, 2011 to \$2.1 billion for the comparable period in 2012, capital structuring service fees increased for the nine months ended September 30, 2012 as compared to 2011 primarily due to the increase in the average capital structuring service fees received on new investments which increased from 2.1% in 2011 to 3.2% in 2012. The increase in management and other fees for the nine months September 30, 2012 from the comparable period in 2011 was primarily due to the management and sourcing fees earned from the SSLP, which increased from \$8.1 million for the nine months ended September 30, 2011 to \$11.8 million for the comparable period in 2012 as the aggregate principal amount of investments made through the SSLP increased from approximately \$3.6 billion at September 30, 2011 to approximately \$5.9 billion at September 30, 2012. The increase in other income for the nine months ended September 30, 2012 from the comparable period in 2011 was primarily attributable to higher amendment and letter of credit fees.

Interest and credit facility fees for the three and nine months ended September 30, 2012 and 2011 were comprised of the following:

(in millions)	For the three months ended		For the nine months ended	
	September 30, 2012	September 30, 2011	September 30, 2012	September 30, 2011

Total interest and credit facility fees	\$ 35.7	\$ 31.0	\$ 103.5	\$ 89.7

Stated interest expense for the three months ended September 30, 2012 increased from the comparable period in 2011 due to the increase in our average principal amount of debt outstanding and an increase in our weighted average stated interest rate of our debt. For the three months ended September 30, 2012, our average principal amount of debt outstanding was \$2.3 billion as compared to \$2.0 billion for the comparable period in 2011, and the weighted average stated interest rate on our debt was 5.0% for the three months ended September 30, 2012 as compared to 4.9% for the comparable period in 2011.

Stated interest expense for the nine months ended September 30, 2012 increased from the comparable period in 2011 due to the increase in the average principal amount of debt outstanding, partially offset by a decrease in our weighted average stated interest rate of our debt. For the nine months ended September 30, 2012, our average principal debt outstanding was \$2.2 billion as compared to \$1.7 billion for the comparable period in 2011, and the weighted average stated interest rate on our debt was 5.0% for the nine months ended September 30, 2012 as compared to 5.3% for the comparable period in 2011.

The increase in base management fees and incentive fees related to pre-incentive fee net investment income for the three and nine months ended September 30, 2012 from the comparable periods in 2011 was primarily due to the increase in the size of the portfolio and in the case of incentive fees, the related increase in pre-incentive fee net investment income.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

For the three and nine months ended September 30, 2012, the capital gains incentive fee expense was \$9.4 million and \$15.7 million, respectively, bringing the total capital gains incentive fee accrual calculated in accordance with United States generally accepted accounting principles (GAAP) to \$64.7 million (included in management and incentive fees payable in the consolidated balance sheet) as of September 30, 2012. For the three months ended September 30, 2011, we recorded a reduction in accrued capital gains incentive fees in accordance with GAAP of \$11.5 million due to a reduction in cumulative net realized and unrealized gains since June 30, 2011. For the nine months ended September 30, 2011, the capital gains incentive fee expense calculated in accordance with GAAP was \$28.2 million. As a result of an amendment to the capital gains portion of the incentive fee under the investment advisory and management agreement (the Capital Gains Amendment) that was adopted June 6, 2011, the nine months ended September 30, 2011 included an accrual of \$26.0 million of capital gains incentive fees in accordance with GAAP as a result of the application of the Capital Gains Amendment with respect to the assets purchased in the Allied Acquisition. The accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reduction of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. There can be no assurance that such unrealized capital appreciation will be realized in the future. For the three and nine months ended September 30, 2012 and 2011, we did not incur a capital gains fee under the investment advisory and management agreement and there are no amounts currently due under the agreement. See Note 3 to the Company s consolidated financial statements for the three and nine months ended September 30, 2012 for more information on the incentive and base management fees.

Table of Contents

Professional fees include legal, accounting, valuation and other professional fees incurred related to the management of the Company. The decrease in professional fees for the three and nine months ended September 30, 2012 from the comparable period in 2011 was primarily related to a decrease in deal-related professional fees. Administrative fees represent fees paid to Ares Operations for our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the cost of certain of our executive officers and their respective staffs. Other general and administrative expenses include rent, insurance, depreciation, director's fees and other costs. The decrease in other general and administrative expenses for the nine months ended September 30, 2012 from the comparable period in 2011 was primarily related to professional fees and other costs related to the Allied Acquisition incurred in the comparable period in 2011.

Income Tax Expense, Including Excise Tax

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders generally at least 90% of its investment company taxable income, as defined by the Code, for each year. In order to maintain its RIC status, the Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such income, the Company accrues excise tax on estimated excess taxable income as such taxable income is earned. For the three and nine months ended September 30, 2012, a net expense of \$1.7 million and \$5.7 million, respectively, was recorded for U.S. federal excise tax. For the three and nine months ended September 30, 2011, a net expense of \$2.3 million and \$4.1 million was recorded for U.S. federal excise tax, respectively.

Certain of our consolidated subsidiaries are subject to U.S. federal and state income taxes. For the three and nine months ended September 30, 2012, we recorded a tax expense of approximately \$0.3 million and \$1.9 million, respectively, for these subsidiaries. For the three and nine months ended September 30, 2011, we recorded a tax (benefit) expense of approximately \$(1.6) million and \$0.5 million, respectively, for these subsidiaries.

Net Realized Gains/Losses

During the three months ended September 30, 2012, the Company had \$629.4 million of sales, repayments or exits of investments resulting in \$27.7 million of net realized gains. These sales, repayments or exits included \$146.0 million of investments sold to Ivy Hill Asset Management, L.P. (IHAM), a wholly owned portfolio company of the Company, and certain vehicles managed by IHAM. A net realized gain of \$2.9 million was recorded on these transactions. See Note 12 to the Company's consolidated financial statements for the three and nine months ended September 30, 2012 for more detail on IHAM and its managed vehicles. Net realized gains of \$27.7 million on investments were comprised of \$39.6 million of gross realized gains and \$11.9 million of gross realized losses. The realized gains and losses on investments during the three months ended September 30, 2012 consisted of the following:

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

The Company's liquidity and capital resources are generated primarily from the net proceeds of public offerings of common stock, advances from the Revolving Credit Facility, the Revolving Funding Facility and the SMBC Funding Facility (each as defined below and together, the Facilities), net proceeds from the issuance of unsecured notes as well as cash flows from operations.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

As of September 30, 2012, the Company had \$105.5 million in cash and cash equivalents and \$2.2 billion in total debt outstanding at carrying value (\$2.3 billion at principal amount). Subject to leverage and borrowing base restrictions, the Company had approximately \$1.3 billion available for additional borrowings under the Facilities as of September 30, 2012.

We may from time to time seek to retire or repurchase our common stock through cash purchases, as well as retire, cancel or purchase our outstanding debt through cash purchases and/or exchanges, in open market purchases, privately negotiated transactions or otherwise. Such repurchases or exchanges, if any, will depend on prevailing market conditions, our liquidity requirements, contractual and regulatory restrictions and other factors. The amounts involved may be material.

In accordance with the Investment Company Act, with certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the Investment Company Act, is at least 200% after such borrowing. As of September 30, 2012, our asset coverage for borrowed amounts was 277%.

Revolving Credit Facility

In December 2005, we entered into a senior secured revolving credit facility (as amended and restated, the *Revolving Credit Facility*), which as of September 30, 2012, allowed us to borrow up to \$900 million at any one time outstanding. In May 2012, we amended and restated the *Revolving Credit Facility* to, among other things, increase the size of the facility from \$810 million to \$900 million, extend the expiration of the revolving period from January 22, 2013 to May 4, 2015 and extend the stated maturity date from January 22, 2013 to May 4, 2016. The *Revolving Credit Facility* also provides for a feature that allows us, under certain circumstances, to increase the size of the facility to a maximum of \$1.35 billion. Subject to certain exceptions, as of September 30, 2012, the interest rate charged on the *Revolving Credit Facility* is based on LIBOR plus an applicable spread of 2.25% or a base rate (as defined in the agreements governing the *Revolving Credit Facility*) plus an applicable spread of 1.25%. Additionally, we are required to pay a commitment fee of 0.375% per annum on any unused portion of the *Revolving Credit Facility*. As of September 30, 2012, the principal amount outstanding under the *Revolving Credit Facility* was \$50.0 million and the amount available for borrowing (net standby letters of credit issued) was \$806.1 million. As of September 30, 2012, we were in compliance in all material respects with the terms of the *Revolving Credit Facility*.

Revolving Funding Facility

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

In October 2004, we established through our consolidated subsidiary, Ares Capital CP Funding LLC (Ares Capital CP), a revolving funding facility (as amended, the Revolving Funding Facility), which as of September 30, 2012, allowed Ares Capital CP to borrow up to \$620 million at any one time outstanding. The Revolving Funding Facility is secured by all of the assets held by, and its membership interest in, Ares Capital CP. In June 2012, we and Ares Capital CP amended the Revolving Funding Facility to, among other things, (i) increase the size of the Revolving Funding Facility from \$500 million to \$580 million, (ii) add a feature that allows, under certain circumstances, for an increase in the size of the facility to a maximum of \$865 million, (iii) extend the reinvestment period from January 18, 2015 to April 18, 2015, and (iv) extend the stated maturity date from January 18, 2017 to April 18, 2017. In July 2012, the Company and Ares Capital CP received an increase in the commitments under the Revolving Funding Facility of \$40 million, bringing the total commitments to \$620 million. Subject to certain exceptions, as of September 30, 2012, the interest rate charged on the Revolving Funding Facility is one month LIBOR plus an applicable spread of 2.50% or a base rate (as defined in the agreements governing the Revolving Funding Facility) plus an applicable spread of 1.50%. Additionally, we are required to pay a commitment fee of between 0.50% and 1.75% depending on the size of the unused portion of the Revolving Funding Facility. As of September 30, 2012, the principal amount outstanding under the Revolving Funding Facility was \$407.0 million and we and Ares Capital CP were in compliance in all material respects with the terms of the Revolving Funding Facility.

SMBC Funding Facility

In January 2012, we established through our consolidated subsidiary, Ares Capital JB Funding LLC, (ACJB), a revolving funding facility (as amended, the SMBC Funding Facility), which as of September 30, 2012, allowed ACJB to borrow up to \$400 million at any one time outstanding. The SMBC Funding Facility is secured by all of the assets held by ACJB. In September 2012, the Company and ACJB amended the SMBC Funding Facility to, among other things, (i) increase the size of the SMBC Funding Facility from \$200 million to \$400 million, (ii) extend the reinvestment period from January 20, 2015 to September 14, 2015 and (iii) extend the stated maturity date from January 20, 2020 to September 14, 2020. The reinvestment period and the stated maturity date are both subject to two one-year extensions by mutual agreement. As of September 30, 2012, the interest rate charged on the SMBC Funding Facility is based on one month LIBOR plus an applicable spread of 2.125% or a base rate (as defined in the agreements governing the SMBC Funding Facility) plus an applicable spread of 1.125%. Beginning on July 20, 2012, we were required to pay a commitment fee of 0.50% depending on the size of the unused portion of the SMBC Funding Facility. As a result of the September 2012 amendment to the SMBC Funding Facility described above, ACJB is no longer required to pay a commitment fee until September 15, 2013, at which time ACJB is required to pay a commitment fee of 0.50% depending on the size of the unused portion of the SMBC Funding Facility. As of September 30, 2012, the principal amount outstanding under the SMBC Funding Facility was \$133.0 million and we and ACJB were in compliance in all material respects with the terms of the SMBC Funding Facility.

Debt Securitization

In July 2006, through ARCC Commercial Loan Trust 2006, a vehicle serviced by our consolidated subsidiary, ARCC CLO 2006 LLC (ARCC CLO), we completed a \$400 million debt securitization (the Debt Securitization) and issued approximately \$314 million aggregate principal amount of asset backed notes to third parties (the CLO Notes) that were secured by a pool of middle market loans that were purchased or originated by us. We initially retained approximately \$86 million of aggregate principal amount of certain BBB and non-rated securities in the Debt Securitization and subsequently repurchased \$35 million of the CLO Notes. In June 2012, we repaid in full the \$60 million aggregate principal amount outstanding of the CLO Notes and terminated or discharged the agreements governing the Debt Securitization.

Unsecured Notes

Convertible Notes

In January 2011, we issued \$575 million aggregate principal amount of unsecured convertible senior notes that mature on February 1, 2016 (the February 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. In March 2011, we issued \$230 million aggregate principal amount of unsecured convertible senior notes that mature on June 1, 2016 (the June 2016 Convertible Notes), unless previously converted or repurchased in accordance with their terms. In March 2012, we issued \$162.5 million aggregate principal amount of unsecured convertible senior notes that mature on March 15, 2017 (the 2017 Convertible Notes) and together with the February 2016 Convertible Notes and the June 2016 Convertible Notes, the Convertible Notes), unless previously converted or repurchased in accordance with their terms. We do not have the right to redeem the Convertible Notes prior to maturity. The February 2016 Convertible Notes, the June 2016 Convertible Notes and the 2017 Convertible Notes bear interest at a rate of 5.75%, 5.125% and 4.875%, respectively, per year, payable semi-annually.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

In certain circumstances, the Convertible Notes will be convertible into cash, shares of our common stock or a combination of cash and shares of our common stock, at our election, at their respective conversion rates (listed below as of September 30, 2012) subject to customary anti-dilution adjustments and the requirements of their respective indentures (the Convertible Notes Indentures). Prior to the close of business on the business day immediately preceding their respective conversion date (listed below), holders may convert their Convertible Notes only under certain circumstances set forth in the respective Convertible Notes Indenture. On or after their respective conversion dates until the close of business on the scheduled trading day immediately preceding their respective maturity date, holders may convert their Convertible Notes at any time. In addition, if we engage in certain corporate events as described in their respective Convertible Notes Indenture, holders of the Convertible Notes may require us to repurchase for cash all or part of the Convertible Notes at a repurchase price equal to 100% of the principal amount of the Convertible Notes to be repurchased, plus accrued and unpaid interest through, but excluding, the required repurchase date.

The Convertible Notes are our senior unsecured obligations and rank senior in right of payment to our existing and future indebtedness that is expressly subordinated in right of payment to the Convertible Notes; equal in right of payment to our existing and future unsecured indebtedness that is not expressly subordinated; effectively junior in right of payment to any of our secured indebtedness (including existing unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness; and structurally junior to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities. As of September 30, 2012, we were in compliance in all material respects with the terms of the Convertible Notes Indentures.

See Recent Developments as well as Note 15 to our consolidated financial statements for the three and nine months ended September 30, 2012 for more information regarding an additional issuance of unsecured convertible notes.

February 2022 Notes

In February 2012, we issued \$143.8 million in aggregate principal amount of senior unsecured notes, which bear interest at a rate of 7.00% per year and mature on February 15, 2022 (the February 2022 Notes). The February 2022 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time at our option on or after February 15, 2015, at a par redemption price of \$25 per security plus accrued and unpaid interest.

October 2022 Notes

In September 2012, we issued \$175 million in aggregate principal amount of senior unsecured notes, which bear interest at a rate of 5.875% per year and mature on October 1, 2022 (the October 2022 Notes). The October 2022 Notes require payment of interest quarterly commencing on January 1, 2013, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time at our option on or after October 1, 2015, at a par redemption price of \$25 per security plus accrued interest and unpaid interest. See Recent Developments as well as Note 15 to our consolidated financial statements for the three and nine months ended September 30, 2012 for more information regarding the October 2022 Notes.

2040 Notes

In October 2010, we issued \$200 million in aggregate principal amount of senior unsecured notes which bear interest at a rate of 7.75% and mature on October 15, 2040 (the 2040 Notes). The 2040 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time at our option on or after October 15, 2015, at a par redemption price of \$25 per security plus accrued and unpaid interest.

2047 Notes

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

As part of the Allied Acquisition, we assumed \$230 million aggregate principal amount outstanding of senior unsecured notes which bear interest at a rate of 6.875% and mature on April 15, 2047 (the 2047 Notes). The 2047 Notes require payment of interest quarterly, and all principal is due upon maturity. These notes are redeemable in whole or in part at any time or from time to time at our option, at a par redemption price of \$25 per security plus accrued and unpaid interest and upon the occurrence of certain tax events as stipulated in the indenture governing the 2047 Notes.

As of September 30, 2012 we were in compliance in all material respects with the terms of the February 2022 Notes, the October 2022 Notes, the 2040 Notes and the 2047 Notes.

See Note 5 to our consolidated financial statements for the three and nine months ended September 30, 2012 for more detail on the Company's debt obligations.

OFF BALANCE SHEET ARRANGEMENTS

The Company has various commitments to fund investments in its portfolio, as described below.

As of September 30, 2012 and December 31, 2011, the Company had the following commitments to fund various revolving and delayed draw senior secured and subordinated loans, including commitments to fund which are at (or substantially at) the Company's discretion:

(in millions)	September 30, 2012	As of	December 31, 2011
Total revolving and delayed draw commitments	\$ 540.4	\$	565.6
Less: funded commitments	(121.1)		(125.0)
Total unfunded commitments	419.3		440.6
Less: commitments substantially at discretion of the Company	(6.0)		(64.8)
Less: unavailable commitments due to borrowing base or other covenant restrictions	(0.6)		(5.5)
Total net adjusted unfunded revolving and delayed draw commitments	\$ 412.7	\$	370.3

Table of Contents

Included within the total revolving and delayed draw commitments as of September 30, 2012 were commitments to issue up to \$63.2 million in standby letters of credit through a financial intermediary on behalf of certain portfolio companies. Under these arrangements, if the standby letters of credit were to be issued, the Company would be required to make payments to third parties if the portfolio companies were to default on their related payment obligations. As of September 30, 2012, the Company had \$40.7 million in standby letters of credit issued and outstanding under these commitments on behalf of the portfolio companies, of which no amounts were recorded as a liability on our balance sheet as such letters of credit are considered in the valuation of the investments in the portfolio company. All of the outstanding letters of credit expire in 2013.

As of September 30, 2012 and December 31, 2011, the Company was party to subscription agreements to fund equity investments in private equity investment partnerships:

(in millions)	As of	
	September 30, 2012	December 31, 2011
Total private equity commitments	\$ 141.0	\$ 132.0
Less: funded private equity commitments	(75.7)	(67.4)
Total unfunded private equity commitments	65.3	64.6
Less: private equity commitments substantially at discretion of the Company	(48.0)	(53.5)
Total net adjusted unfunded private equity commitments	\$ 17.3	\$ 11.1

In addition, as of September 30, 2012 and December 31, 2011, the Company had outstanding guarantees or similar obligations on behalf of certain portfolio companies totaling \$0.8 million.

In the ordinary course of business, we may sell certain of our investments to third party purchasers. In particular, in connection with the sale of certain controlled portfolio company equity investments (as well as certain other sales) we have, and may continue to do so in the future, agreed to indemnify such purchasers for future liabilities arising from the investments and the related sale transaction. Such indemnification provisions may give rise to future liabilities.

As of September 30, 2012, one of the Company's portfolio companies, Ciena Capital LLC (Ciena), had one non-recourse securitization Small Business Administration (SBA) loan warehouse facility, which has reached its maturity date but remains outstanding. Ciena is working with the providers of the SBA loan warehouse facility with regard to the repayment of that facility. Allied Capital had previously issued a performance guaranty (which Ares Capital succeeded to as a result of the Allied Acquisition) whereby Ares Capital must indemnify the warehouse providers for any damages, losses, liabilities and related costs and expenses that they may incur as a result of Ciena's failure to perform any of its obligations as loan originator, loan seller or loan servicer under the warehouse facility. As of September 30, 2012, there were no known issues or claims with respect to this performance guaranty.

RECENT DEVELOPMENTS

In October 2012, we issued an additional \$7.5 million in aggregate principal amount of the October 2022 Notes pursuant to the partial exercise of an over-allotment option by the underwriters of such offering.

In October 2012, we issued \$230 million aggregate principal amount of unsecured convertible senior notes that mature on January 15, 2018 (the 2018 Convertible Notes), unless previously converted or repurchased in accordance with their terms. We do not have the right to redeem the 2018 Convertible Notes prior to maturity. The 2018 Convertible Notes bear interest at a rate of 4.75% per year, payable semi-annually commencing on July 15, 2013. In certain circumstances, the 2018 Convertible Notes will be convertible into cash, shares of our common stock or a combination of cash and shares of our common stock, at our election, at an initial conversion rate of 50.3290 shares of common stock per one thousand dollar principal amount of the 2018 Convertible Notes, which was equivalent to an initial conversion price of approximately \$19.87 per share of our common stock, subject to customary anti-dilution adjustments. The initial conversion price was approximately 17.5% above the \$16.91 per share closing price of our common stock on October 3, 2012.

Table of Contents

Effective as of November 2, 2012, we amended our charter to increase the number of shares of common stock we are authorized to issue from 400 million to 500 million.

In November 2012, we declared a fourth quarter dividend of \$0.38 per share and an additional dividend of \$0.05 per share. Both dividends are payable on December 28, 2012 to stockholders of record as of December 14, 2012.

From October 1, 2012 through November 1, 2012, we had made new investment commitments of \$163 million, of which \$141 million were funded. Of these new commitments, 45% were in first lien senior secured debt, 36% were in other equity securities, 13% were investments in subordinated certificates of the SSLP which were applied to co-investments with GE through the SSLP in first lien senior secured loans and 6% were in preferred equity securities. Of the \$163 million of new investment commitments, 42% were non-interest bearing, 35% were floating rate, and 23% were fixed rate. The weighted average yield of debt and other income producing securities funded during the period at amortized cost was 10.3%. We may seek to syndicate a portion of these new investment commitments to third parties, although there can be no assurance that we will be able to do so.

From October 1, 2012 through November 1, 2012, we exited \$137 million of investment commitments. Of these investment commitments, 35% were first lien senior secured debt, 32% were senior subordinated debt, 29% were other equity securities and 4% were second lien senior secured debt. Of the \$137 million of exited investment commitments, 37% were floating rate investments, 32% were fixed rate investments, 29% were non-interest bearing and 2% were on non-accrual status. The weighted average yield of debt and other income producing securities exited or repaid during the period at amortized cost was 9.1%. On the \$137 million of investment commitments exited from October 1, 2012 through November 1, 2012, we recognized total net realized losses of approximately \$7 million.

In October 2012, we contributed to IHAM our entire investment in FirstLight Financial Corporation (FirstLight Corp.) at a price equal to the fair value at the time of the contribution of \$58.1 million (\$51.8 million for our senior subordinated loan position and \$6.3 million for our equity position). As a result of the contribution, we fully exited our investment in FirstLight Corp., which reduced our investment commitments by \$84.2 million, and recognized a net loss of \$26.1 million. Prior to such contribution, IHAM served as a sub-adviser to FirstLight Funding I, Ltd., a wholly owned subsidiary of FirstLight Corp. (FirstLight Funding). Following such contribution, FirstLight Funding distributed to FirstLight Corp. substantially all of its assets (in the form of cash and investments). In turn, FirstLight Corp. repaid in full the total outstanding amount of its senior subordinated loans (including the portion held by IHAM following the contribution transaction) and made a distribution to its stockholders (including IHAM following the contribution transaction). In connection with the foregoing, IHAM ceased to be a sub-adviser to FirstLight Funding and IHAM became the collateral manager to FirstLight Corp. and the other entity invested in FirstLight Corp.

In addition, as of November 1, 2012, we had an investment backlog and pipeline of approximately \$515 million and \$535 million, respectively. Investment backlog includes transactions approved by our investment adviser's investment committee and/or for which a formal mandate, letter of intent or a signed commitment have been issued, and therefore we believe are likely to close. Investment pipeline includes transactions where due diligence and analysis are in process, but no formal mandate, letter of intent or signed commitment have been issued. The consummation of any of the investments in this backlog and pipeline depends upon, among other things, one or more of the following: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. In addition, we may syndicate a portion of these investments to third parties. We cannot assure you that we will make any of these investments or that we will syndicate any portion of these investments.

CRITICAL ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in conformity with GAAP, and include the accounts of the Company and its consolidated subsidiaries. The consolidated financial statements reflect all adjustments and reclassifications that, in the opinion of management, are necessary for the fair presentation of the results of the operations and financial condition as of and for the periods presented. All significant intercompany balances and transactions have been eliminated.

Cash and Cash Equivalents

Cash and cash equivalents include funds from time to time deposited with financial institutions and short-term, liquid investments in a money market fund. Cash and cash equivalents are carried at cost which approximates fair value.

Concentration of Credit Risk

The Company places its cash and cash equivalents with financial institutions and, at times, cash held in money market accounts may exceed the Federal Deposit Insurance Corporation insured limit.

Table of Contents

Investments

Investment transactions are recorded on the trade date. Realized gains or losses are measured by the difference between the net proceeds from the repayment or sale and the amortized cost basis of the investment without regard to unrealized gains or losses previously recognized, and include investments charged off during the period, net of recoveries. Unrealized gains or losses primarily reflect the change in investment values, including the reversal of previously recorded unrealized gains or losses when gains or losses are realized. Investments for which market quotations are readily available are typically valued at such market quotations. In order to validate market quotations, we look at a number of factors to determine if the quotations are representative of fair value, including the source and nature of the quotations. Debt and equity securities that are not publicly traded or whose market prices are not readily available (i.e., substantially all of our investments) are valued at fair value as determined in good faith by our board of directors, based on, among other things, the input of our investment adviser, audit committee and independent third-party valuation firms that have been engaged at the direction of our board of directors to assist in the valuation of each portfolio investment without a readily available market quotation at least once during a trailing 12 month period (with certain de minimis exceptions) and under a valuation policy and a consistently applied valuation process. The valuation process is conducted at the end of each fiscal quarter, and a minimum of 50% of our portfolio at fair value is subject to review by an independent valuation firm each quarter. In addition, our independent accountants review our valuation process as part of their overall integrated audit.

As part of the valuation process, we may take into account the following types of factors, if relevant, in determining the fair value of our investments: the enterprise value of a portfolio company (the entire value of the portfolio company to a market participant, including the sum of the values of debt and equity securities used to capitalize the enterprise at a point in time), the nature and realizable value of any collateral, the portfolio company's ability to make payments and its earnings and discounted cash flow, the markets in which the portfolio company does business, a comparison of the portfolio company's securities to any similar publicly traded securities, changes in the interest rate environment and the credit markets generally that may affect the price at which similar investments would trade in their principal markets and other relevant factors. When an external event such as a purchase transaction, public offering or subsequent equity sale occurs, we consider the pricing indicated by the external event to corroborate our valuation.

Because there is not a readily available market value for most of the investments in our portfolio, we value substantially all of our portfolio investments at fair value as determined in good faith by our board of directors, as described herein. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may fluctuate from period to period. Additionally, the fair value of our investments may differ significantly from the values that would have been used had a ready market existed for such investments and may differ materially from the values that we may ultimately realize. Further, such investments are generally subject to legal and other restrictions on resale or otherwise are less liquid than publicly traded securities. If we were required to liquidate a portfolio investment in a forced or liquidation sale, we could realize significantly less than the value at which we have recorded it.

In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the unrealized gains or losses reflected in the valuations currently assigned.

Our board of directors undertakes a multi-step valuation process each quarter, as described below:

- Our quarterly valuation process begins with each portfolio company or investment being initially valued by the investment professionals responsible for the portfolio investment in conjunction with our portfolio management team.

- Preliminary valuations are reviewed and discussed with our investment adviser's management and investment professionals, and then valuation recommendations are presented to our board of directors.
- The audit committee of our board of directors reviews these valuations, as well as the input of third parties, including independent third-party valuation firms, with respect to the valuations of a minimum of 50% of our portfolio at fair value.
- Our board of directors discusses valuations and ultimately determines the fair value of each investment in our portfolio without a readily available market quotation in good faith based on, among other things, the input of our investment adviser, audit committee and, where applicable, independent third-party valuation firms.

Interest and Dividend Income Recognition

Interest income is recorded on an accrual basis and includes the accretion of discounts and amortization of premiums. Discounts from and premiums to par value on securities purchased are accreted/amortized into interest income over the life of the respective security using the effective yield method. The amortized cost of investments represents the original cost adjusted for the accretion of discounts and amortization of premiums, if any.

Loans are generally placed on non-accrual status when principal or interest payments are past due 30 days or more or when there is reasonable doubt that principal or interest will be collected in full. Accrued and unpaid interest is generally reversed when a loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment regarding collectability. Non-accrual loans are restored to accrual status when past due principal and interest is paid and, in management's judgment, are likely to remain current. The Company may make exceptions to this if the loan has sufficient collateral value and is in the process of collection.

Table of Contents

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies or on the ex-dividend date for publicly traded portfolio companies.

Payment-in-Kind Interest

The Company has loans in its portfolio that contain PIK provisions. The PIK interest, computed at the contractual rate specified in each loan agreement, is added to the principal balance of the loan and recorded as interest income. To maintain the Company's status as a RIC, this non-cash source of income must be paid out to stockholders in the form of dividends even though the Company has not yet collected the cash.

Capital Structuring Service Fees and Other Income

The Company's investment adviser seeks to provide assistance to our portfolio companies in connection with the Company's investments and in return the Company may receive fees for capital structuring services. These fees are generally only available to the Company as a result of the Company's underlying investments, are normally paid at the closing of the investments, are generally non-recurring and are recognized as revenue when earned upon closing of the investment. The services that the Company's investment adviser provides vary by investment, but generally include reviewing existing credit facilities, arranging bank financing, arranging equity financing, structuring financing from multiple lenders, structuring financing from multiple equity investors, restructuring existing loans, raising equity and debt capital, and providing general financial advice, which concludes upon closing of the investment. Any services of the above nature subsequent to the closing would generally generate a separate fee payable to the Company. In certain instances where the Company is invited to participate as a co-lender in a transaction and does not provide significant services in connection with the investment, a portion of loan fees paid to the Company in such situations will be deferred and amortized over the estimated life of the loan. The Company's investment adviser may also take a seat on the board of directors of a portfolio company, or observe the meetings of the board of directors without taking a formal seat.

Other income includes fees for asset management, management and consulting services, loan guarantees, commitments, amendments and other services rendered by the Company to portfolio companies. Such fees are recognized as income when earned or the services are rendered.

Foreign Currency Translation

The Company's books and records are maintained in U.S. dollars. Any foreign currency amounts are translated into U.S. dollars on the following basis:

- (1) Fair value of investment securities, other assets and liabilities at the exchange rates prevailing at the end of the period.

(2) Purchases and sales of investment securities, income and expenses at the exchange rates prevailing on the respective dates of such transactions, income or expenses.

Results of operations based on changes in foreign exchange rates are separately disclosed in the statement of operations. Foreign security and currency translations may involve certain considerations and risks not typically associated with investing in U.S. companies and U.S. government securities. These risks include, but are not limited to, currency fluctuations and revaluations and future adverse political, social and economic developments, which could cause investments in foreign markets to be less liquid and prices more volatile than those of comparable U.S. companies or U.S. government securities.

Equity Offering Expenses

The Company's offering costs, excluding underwriters' fees, are charged against the proceeds from equity offerings when received.

Debt Issuance Costs

Debt issuance costs are amortized over the life of the related debt instrument using the straight line method, which closely approximates the effective yield method.

Table of Contents

U.S. Federal Income Taxes

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, the Company must, among other things, timely distribute to its stockholders at least 90% of its investment company taxable income, as defined by the Code, for each year. The Company, among other things, has made and intends to continue to make the requisite distributions to its stockholders, which will generally relieve the Company from U.S. federal income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that the Company determines that its estimated current year annual taxable income will be in excess of estimated current year dividend distributions, the Company accrues excise tax, if any, on estimated excess taxable income as such taxable income is earned.

Certain of our consolidated subsidiaries are subject to U.S. federal and state income taxes.

Dividends to Common Stockholders

Dividends and distributions to common stockholders are recorded on the ex-dividend date. The amount to be paid out as a dividend is determined by our board of directors each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed, although we may decide to retain such capital gains for investment.

We have adopted a dividend reinvestment plan that provides for reinvestment of any distributions we declare in cash on behalf of our stockholders, unless a stockholder elects to receive cash. As a result, if our board of directors authorizes, and we declare, a cash dividend, then our stockholders who have not opted out of our dividend reinvestment plan will have their cash dividends automatically reinvested in additional shares of our common stock, rather than receiving the cash dividend. We intend to use primarily newly issued shares to implement the dividend reinvestment plan (so long as we are trading at a premium to net asset value). If our shares are trading at a significant enough discount to net asset value and we are otherwise permitted under applicable law to purchase such shares, we intend to purchase shares in the open market in connection with our obligations under our dividend reinvestment plan. However, we reserve the right to issue new shares of our common stock in connection with our obligations under the dividend reinvestment plan even if our shares are trading below net asset value.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of actual and contingent assets and liabilities at the date of the financial statements and the reported amounts of income or loss and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of investments.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are subject to financial market risks, including changes in interest rates and the valuations of our investment portfolio.

Interest Rate Risk

Interest rate sensitivity refers to the change in earnings that may result from changes in the level of interest rates. Because we fund a portion of our investments with borrowings, our net investment income is affected by the difference between the rate at which we invest and the rate at which we borrow. As a result, there can be no assurance that a significant change in market interest rates will not have a material adverse effect on our net investment income.

As of September 30, 2012, approximately 15% of the investments at fair value in our portfolio bore interest at fixed rates, approximately 74% bore interest at variable rates, 10% were non-interest earning and 1% were on non-accrual status. Additionally, for the variable rate investments, 69% of these investments contained interest rate floors (representing 51% of total investments at fair value). The Revolving Credit Facility, the Revolving Funding Facility and the SMBC Funding Facility all bear interest at variable rates with no interest rate floors, while the February 2022 Notes, October 2022 Notes, 2040 Notes, 2047 Notes and the Convertible Notes all bear interest at fixed rates.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

Table of Contents

We regularly measure our exposure to interest rate risk. We assess interest rate risk and manage our interest rate exposure on an ongoing basis by comparing our interest rate sensitive assets to our interest rate sensitive liabilities. Based on that review, we determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates.

While hedging activities may mitigate our exposure to adverse fluctuations in interest rates, certain hedging transactions that we may enter into in the future, such as interest rate swap agreements, may also limit our ability to participate in the benefits of lower interest rates with respect to our portfolio investments. In addition, there can be no assurance that we will be able to effectively hedge our interest rate risk.

Based on our September 30, 2012 balance sheet, the following table shows the annual impact on net income of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure:

(in millions) Basis Point Change	Interest Income	Interest Expense	Net Income
Up 300 basis points	\$ 65.9	\$ 17.7	\$ 48.2
Up 200 basis points	\$ 24.4	\$ 11.8	\$ 12.6
Up 100 basis points	\$ (11.9)	\$ 5.9	\$ (17.8)
Down 100 basis points	\$ 5.9	\$ (1.3)	\$ 7.2
Down 200 basis points	\$ 5.8	\$ (1.3)	\$ 7.1
Down 300 basis points	\$ 5.8	\$ (1.3)	\$ 7.1

Based on our December 31, 2011 balance sheet, the following table shows the annual impact on net income of base rate changes in interest rates (considering interest rate floors for variable rate instruments) assuming no changes in our investment and borrowing structure:

(in millions) Basis Point Change	Interest Income	Interest Expense	Net Income
Up 300 basis points	\$ 65.7	\$ 28.1	\$ 37.6
Up 200 basis points	\$ 32.5	\$ 18.7	\$ 13.8
Up 100 basis points	\$ 0.5	\$ 9.4	\$ (8.9)
Down 100 basis points	\$ 3.8	\$ (3.1)	\$ 6.9
Down 200 basis points	\$ 3.6	\$ (3.1)	\$ 6.7
Down 300 basis points	\$ 3.4	\$ (3.1)	\$ 6.5

Item 4. Controls and Procedures.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based on that evaluation, our President and our Chief Financial Officer have concluded that our current disclosure controls and procedures are effective in timely alerting them of material information relating to the Company that is required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934.

Edgar Filing: ARES CAPITAL CORP - Form 10-Q

There have been no changes in our internal control over financial reporting during the three months ended September 30, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings.

We are party to certain lawsuits in the normal course of business. In addition, Allied Capital was involved in various legal proceedings which the Company assumed in connection with the Allied Acquisition. Furthermore, third parties may try to seek to impose liability on us in connection with the activities of our portfolio companies. While the outcome of any such legal proceedings cannot at this time be predicted with certainty, we do not expect these matters will materially affect our business, financial condition or results of operations.

Item 1A. Risk Factors.

In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011, which could materially affect our business, financial condition and/or operating results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

We did not sell any equity securities during the period covered in this report that were not registered under the Securities Act of 1933.

We did not repurchase any shares of our common stock during the period covered in this report.

Item 3. Defaults Upon Senior Securities.

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information.

Effective as of November 2, 2012, the Company amended its charter to increase the number of shares of common stock the Company is authorized to issue from 400,000,000 to 500,000,000 shares of common stock. The Company effected the increase by filing Articles of Amendment (the Amendment) with the State Department of Assessments and Taxation of Maryland.

A copy of our Articles of Amendment and Restatement, as further amended by the Amendment, is filed as Exhibit 3.1 to this report and incorporated herein by reference.
