Item 1 Reports to Stockholders

Managed Distribution Policy (unaudited)

The Board of Directors of the Fund has authorized a managed distribution policy (MDP) of paying quarterly distributions at an annual rate, set once a year, that is a percentage of the rolling average of the Fund 's prior four quarter-end net asset values. With each distribution, the Fund will issue a notice to shareholders and an accompanying press release which will provide detailed information regarding the amount and composition of the distribution and other information required by the Fund 's MDP exemptive order. The Fund 's Board of Directors may amend or terminate the MDP at any time without prior notice to shareholders; however, at this time, there are no reasonably foreseeable circumstances that might cause the termination of the MDP. You should not draw any conclusions about the Fund 's investment performance from the amount of distributions or from the terms of the Fund 's MDP.

Distribution Disclosure Classification (unaudited)

The Fund 's policy is to provide investors with a stable distribution rate. Each quarterly distribution will be paid out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. Dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund 's fiscal year on December 31. However, under the Investment Company Act of 1940 (the 1940 Act), the Fund is required to indicate the sources of certain distributions to shareholders. The Fund estimates that distributions for the fiscal year ended December 31, 2012 consisted of 8% net investment income and 92% net realized long-term capital gains.

This estimated distribution composition may vary from quarter to quarter because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

In January 2013, a Form 1099-DIV was sent to shareholders, which states the amount and composition of distributions and provide information with respect to their appropriate tax treatment for the 2012 calendar year.

Dividend Reinvestment and Direct Stock Purchase Plan (unaudited)

Computershare Trust Company, N.A., the Fund's transfer agent, sponsors and administers a Dividend Reinvestment and Direct Stock Purchase Plan (the Plan), which is available to shareholders.

The Plan allows registered shareholders and first time investors to buy and sell shares and automatically reinvest dividends and capital gains through the transfer agent. This is a cost-effective way to invest in the Fund.

Please note that for both purchases and reinvestment purposes, shares will be purchased in the open market at the current share price and cannot be issued directly by the Fund.

For more information about the Plan and a brochure that includes the terms and conditions of the Plan, please call Computershare at 1-800-647-0584 or visit www.computershare.com/buyaberdeen.

Closed-end funds have a one-time initial public offering and then are subsequently traded on the secondary market through one of the stock exchanges. The investment return and principal value will fluctuate so that an investor's shares may be worth more or less than the original cost. Shares of closed-end funds may trade above (a premium) or below (a discount) the net asset value (NAV) of the fund's portfolio. Past performance does not guarantee future results. Foreign securities are more volatile, harder to price and less liquid than U.S. securities. These risks may be enhanced in emerging market countries. Concentrating investments in a single country, region or industry may subject a fund to greater price volatility and risk of loss than more diverse funds. **Investors should consider a fund's investment objectives, risks, charges and expenses carefully before investing. A copy of the prospectus for Aberdeen Asia-Pacific Income, Aberdeen Global Income Fund, Inc. and Aberdeen Chile Fund, Inc. that contains this and other information about the fund may be obtained by calling 866-839-5205. Please read the prospectus carefully before investing. Letter to Shareholders (unaudited)

Edgar Filing: ABERDEEN CHILE FUND, INC. - Form N-CSR

Dear Shareholder,

We present this Annual Report which covers the activities of Aberdeen Chile Fund, Inc. (the Fund) for the twelve-month period ended December 31, 2012. The Fund's principal investment objective is to seek total return, consisting of capital appreciation and income, by investing primarily in Chilean securities.

Total Return Performance

For the year ended December 31, 2012, the total return to shareholders of the Fund, based on the net asset value (NAV) of the Fund, was 14.7%, assuming reinvestment of dividends and distributions, versus a return of 7.8% for the Fund's benchmark, the MSCI Chile Index (MSCI Chile Index). The Fund's annual total return is based on the reported NAV on December 31, 2012.

Share Price and NAV

For the year ended December 31, 2012, based on market price, the Fund's total return was 10.7%, assuming reinvestment of dividends and distributions. The Fund's share price increased 0.3% over the twelve months, from \$15.04 on December 31, 2011 to \$15.09 on December 31, 2012. The Fund's share price on December 31, 2012 represented a premium of 0.3% to the NAV per share of \$15.05 on that date, compared with a premium of 3.8% to the NAV per share of \$14.49 on December 31, 2011.

Open Market Repurchase Program

The Fund's policy is generally to buy back Fund shares on the open market when the Fund trades at certain discounts to NAV. During the fiscal year ended December 31, 2012 and fiscal year ended December 31, 2011, the Fund did not repurchase any shares through the program.

Portfolio Holdings Disclosure

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commissions (SEC) for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the SEC's website at <http://www.sec.gov> and may be reviewed and copied at the SEC's Public Reference Room in Washington, D.C. Market Review

Chilean equities rose in line with the broader region in 2012. Throughout the year, local sentiment remained upbeat despite concerns over the slowdown in China and the U.S., as well as the European debt crisis. Towards the year-end, optimism that U.S. budget negotiations could be resolved and better economic data from the U.S. and China further bolstered equities.

Despite weaker external demand from the developed world, Chile's economic expansion continued to exceed expectations, driven by domestic demand and fixed capital investment. Inflation remained benign, while unemployment continued to improve. The central bank cut rates once to 5% and held them steady thereafter.

Portfolio Review and Performance

As a small and open economy, Chile is vulnerable to the deceleration of global growth. Chile's main export is copper, and the price of copper

has a significant impact on the government's fiscal account. Considerable uncertainty in the external environment persists. In Europe, longer-term structural flaws in key economies remain, while the US faces political impasse over budget negotiations. Yet, the domestic Chilean economy is buoyed by strong employment and domestic investment from the corporate sector. Export volumes are expected to improve, with higher demand for industrial products arising from China and Brazil, as well as the initiation of mining projects. Subdued price pressures also enable more flexible policymaking to address current needs. At the corporate level, we believe companies' long-term prospects remain attractive, supported by favourable demographics and the rising consumption of goods and services. We believe that a stock-picking approach focused on solid finances, proven management and market leadership is expected to pay dividends over the long run.

*Aberdeen Asset Managers Limited (and its predecessor Aberdeen Asset Management Investment Services Limited) has voluntarily waived fees and/or reimbursed expenses, without which performance would be lower. Waivers and/or reimbursements are subject to change and may be discontinued at any time. Returns represent past performance. Total investment return at net asset value is based on changes in the net asset value of Fund shares and assumes reinvestment of dividends and distributions, if any, at prices pursuant to the Fund's dividend reinvestment program. Total investment return at market value is based on changes in the market price at which the Fund's shares traded on the NYSE MKT during the period and assumes reinvestment of dividends and distributions, if any, at prices pursuant to the dividend reinvestment program administered by Computershare Trust Company, N.A., the Fund's transfer agent. The Fund's annual total return is based on the reported NAV on December 31, 2012. Because the Fund's shares trade in the stock market based on investor demand, the Fund may trade at a price higher or lower than its NAV. Therefore, returns are calculated based on both market price and NAV. **Past performance is no guarantee of future results.***

Edgar Filing: ABERDEEN CHILE FUND, INC. - Form N-CSR

The performance information provided does not reflect the deduction of taxes that a shareholder would pay on distributions received from the Fund. The current performance of the Fund may be lower or higher than the figures shown. The Fund's yield, return, market price and NAV will fluctuate. Performance information current to the most recent month-end is available by calling 866-839-5205.

The annualized gross expense ratio is 1.97%. The annualized net expense ratio after fee waivers and/or expense reimbursements is 1.75%.

1. Organization

Aberdeen Chile Fund, Inc. (the Fund), was incorporated in Maryland on January 30, 1989 and commenced investment operations on September 27, 1989. The Fund is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as a closed-end, non-diversified management investment company. The Fund trades on the NYSE MKT under the ticker symbol CH.

The Fund seeks total return, consisting of capital appreciation and income, by investing primarily in Chilean securities.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements. The financial statements of the Fund are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses for the period. Actual results could differ from those estimates. The U.S. Dollar is used as both the functional and reporting currency.

(a) Security Valuation:

The Fund is required to value its securities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Equity securities that are traded on an exchange are valued at the last quoted sale price on the principal exchange on which the security is traded at the Valuation Time. The Valuation Time is as of the close of regular trading on the New York Stock Exchange (usually 4:00 p.m. Eastern Time). In the absence of a sale price, the security is valued at the mean of the bid/ask price quoted at the close on the principal exchange on which the security is traded. Securities traded on NASDAQ are valued at the NASDAQ official closing price. Closed-end funds and exchange traded funds are valued at the market price of the security at the Valuation Time. A security using any of these pricing methodologies is determined as a Level 1 investment.

Foreign equity securities that are traded on foreign exchanges that close prior to the Valuation Time are valued by applying fair valuation factors to the last sale price. Fair valuation factors are provided by an independent pricing service provider. When the fair value factors are utilized, the value assigned to the foreign securities may not be the

same as quoted or published prices of the securities on their primary markets. These factors are based on inputs such as, depositary receipts, S&P 500 Index/S&P 500 Futures, Nikkei 225 Futures, sector indices/ETFs, exchange rates, and historical opening and closing prices of each security. If the pricing service is unable to provide a valuation factor, or if the valuation factor falls below a predetermined threshold, the security is valued at the last sale price. A security that applies a fair valuation factor is determined as a Level 2 investment. When no fair valuation factor is applied, the security is determined as a Level 1 investment.

In the event that a security's market quotation is not readily available, or is deemed unreliable, the fair value of a security is determined by the Fund's Pricing Committee (which is appointed by the Board of Directors), taking into account the relevant factors and surrounding circumstances. A security that has been fair valued in these circumstances may be classified as a Level 2 or Level 3 depending on the nature of the inputs.

Edgar Filing: ABERDEEN CHILE FUND, INC. - Form N-CSR

In accordance with the authoritative guidance on fair value measurements and disclosures under GAAP, the Fund discloses the fair value of its investments in a hierarchy that classifies the inputs to valuation techniques used to measure the fair value. The hierarchy assigns Level 1 measurements to valuations based upon unadjusted quoted prices in active markets for identical assets, Level 2 measurements to valuations based upon adjusted quoted prices in active markets for identical assets and Level 3 measurements to valuations based upon unobservable inputs that are significant to the valuation. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability, which are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized below:

Level 1 quoted prices in active markets for identical investments;

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc); or

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement.

Notes to Financial Statements (continued)

December 31, 2012

The following is a summary of the inputs used as of December 31, 2012 in valuing the Fund's investments carried at fair value. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Refer to the Portfolio of Investments for a detailed breakout of the security types:

Investments, at value	Level 1	Level 2	Level 3	Balance as of 12/31/2012
Long-Term Investments				
Other	\$143,043,655	\$	\$	\$143,043,655
Rights	81,236			81,236
Short-Term Investments		207,000		207,000
Total	\$143,124,891	\$207,000	\$	\$143,331,891

Amounts listed as - are \$0 or round to \$0.

For movements between the levels within the fair value hierarchy, the Fund has adopted a policy of recognizing transfers at the end of each period. For the year ended December 31, 2012, there have been no transfers between levels and no significant changes to the fair valuation methodologies.

(b) Short-Term Investment:

The Fund sweeps available cash into a short-term time deposit available through Brown Brothers Harriman & Co. (BBH & Co.), the Fund's custodian. The short-term time deposit is a variable rate account classified as a short-term investment.

(c) Foreign Currency Transactions:

Foreign currency amounts are translated into U.S. Dollars on the following basis:

- (I) market value of investment securities, other assets and liabilities at the rate of exchange at the Valuation Time; and
- (II) purchases and sales of investment securities, income and expenses at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of gains and losses on investments in equity securities which is due to changes in the foreign exchange rates from that which is due to changes in market prices of equity securities. Accordingly, realized and unrealized foreign currency gains and losses with respect to such securities are included in the reported net realized and unrealized gains and losses on investment transactions balances.

The Fund reports certain foreign currency related transactions and foreign taxes withheld on security transactions as components of realized gains for financial reporting purposes, whereas such foreign currency related transactions are treated as ordinary income for U.S. federal income tax purposes.

Net unrealized currency gains or losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of net unrealized appreciation/depreciation in value of investments, and translation of other assets and liabilities denominated in foreign currencies.

Net realized foreign currency transactions represent foreign exchange gains and losses from transactions in foreign currencies and forward foreign currency contracts, exchange gains or losses realized between the trade date and settlement date on security transactions, and the difference between the amounts of interest and dividends recorded on the Fund's books and the U.S. Dollar equivalent of the amounts actually received.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. Dollar. When the U.S. Dollar rises in value against foreign currency, the Fund's investments denominated in that currency will lose value because its currency is worth fewer U.S. Dollars; the opposite effect occurs if the U.S. Dollar falls in relative value.

(d) Security Transactions and Investment Income:

Securities transactions are recorded on the trade date. Realized and unrealized gains/(losses) from security and currency transactions are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date except for certain dividends on foreign securities, which are recorded as soon as the Fund is informed after the ex-dividend date. Interest income is

recorded on an accrual basis. Expenses are recorded on an accrual basis.

Notes to Financial Statements (continued)

December 31, 2012

(e) Distributions:

The Fund has a managed distribution policy to pay distributions from net investment income supplemented by net realized foreign exchange gains, net realized short-term capital gains and return of capital distributions, if necessary, on a quarterly basis. The managed distribution policy is subject to regular review by the Board. The Fund will also declare and pay distributions at least annually from realized gains on investment transactions and foreign currency transactions, if any. Dividends and distributions to shareholders are recorded on the ex-dividend date.

Dividends and distributions to shareholders are determined in accordance with federal income tax regulations, which may differ from GAAP.

(f) Federal Income Taxes and Foreign Taxes:

The Fund intends to qualify or continue to qualify as a regulated investment company by complying with the provisions available to certain investment companies, as defined in Subchapter M of the Internal Revenue Code of 1986, as amended (IRC), and to make distributions of net investment income and net realized capital gains sufficient to relieve the Fund from all, or substantially all, federal income taxes. Therefore, no federal income tax provision is required.

Income received by the Fund from sources within Chile and other foreign countries may be subject to withholding and other taxes imposed by such countries. The Fund accrues foreign Chilean taxes on income and realized gains generated from Chilean securities. The Fund also accrues foreign Chilean taxes on securities with little to no Chilean market presence in an amount equal to what the Fund would owe if the securities were sold and the proceeds repatriated on the valuation date as a liability and reduction of unrealized gains. For the year ended December 31, 2012, the Fund incurred \$366,287 of such expense.

The Fund recognizes the tax benefits of uncertain tax positions only where the position is more likely than not to be sustained assuming examination by tax authorities. Management of the Fund has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements. Since tax authorities can examine previously filed tax returns, the Fund's U.S. federal tax returns for each of the prior four years up to the year ended December 31, 2012 are subject to such review.

3. Agreements and Transactions With Affiliates

(a) Investment Adviser and Former Sub-Adviser:

Aberdeen Asset Managers Limited (AAML or Adviser) serves as the Fund's investment adviser with respect to all investments. AAML is a direct wholly-owned subsidiary of Aberdeen Asset Management PLC.

On March 1, 2012, the previous investment adviser, Aberdeen Asset Management Investment Services Limited (AAMISL), merged into AAML, which assumed the investment advisory responsibility for the Fund. There was no change to the portfolio management team or the level or nature of the services provided to the Fund as a result of the merger, and the same resources available to AAMISL for the management and compliance oversight of the Fund are available to AAML. AAML receives, as compensation for its advisory services from the Fund, an annual fee, calculated weekly and paid quarterly, equal to 1.20% of the first \$50 million of the Fund's average weekly market value or net assets (whichever is lower), 1.15% of amounts from \$50-100 million, 1.10% of amounts from \$100-150 million, 1.05% of amounts from \$150-200 million and 1.00% of amounts over \$200 million. AAML has voluntarily agreed to waive a portion of its advisory fee. For the year ended December 31, 2012, AAML earned \$1,671,818 for advisory

Edgar Filing: ABERDEEN CHILE FUND, INC. - Form N-CSR

services, of which AAML waived \$220,895. Amounts shown as paid to AAML include amounts paid to AAMISL prior to March 1, 2012.

On December 6, 2011, the Board, including a majority of the Directors that are not deemed interested persons (as that term is defined in Section 2(a)(19) of the 1940 Act) of the Fund or the Fund's investment adviser, voted to terminate the Fund's sub-advisory agreement with Celfin Capital Servicios Financieros S.A. (Celfin), effective February 4, 2012. For its services as the Fund's investment sub-adviser, Celfin was paid a fee out of the advisory fee, calculated weekly and paid quarterly, at an annual rate after waiver of 0.17% of the Fund's average weekly market value or net assets (whichever is lower). For the period from January 1, 2012 to February 4, 2012, sub-advisory fees for the Fund amounted to \$22,007.

For the year ended December 31, 2012, Celfin earned approximately \$53,539 in brokerage commissions from portfolio transactions executed on behalf of the Fund.

(b) Fund Administration:

BBH & Co. is the U.S. Administrator for the Fund and certain other funds advised by AAML and its affiliates (collectively the Funds). The Funds pay BBH & Co. a monthly administration and fund accounting service fee at an annual rate of 0.02% of the Funds aggregate assets up to \$250 million, 0.015% for the next \$250 million and 0.01% in excess of \$500 million.

Each Fund pays its pro rata portion of the fee based on its level of assets with a monthly minimum of \$2,500. For the year ended December 31, 2012, BBH & Co. earned \$30,001 from the Fund for administrative and fund accounting services.

Notes to Financial Statements (continued)

December 31, 2012

Celfin Capital S.A. Administradora de Fondos de Capital Extranjero (AFCE), an affiliate of Celfin, serves as the Fund's Chilean administrator. For its services, AFCE is paid a fee out of the advisory fee payable to AAML, calculated weekly and paid quarterly at an annual rate of 0.05% of the Fund's average weekly market value or net assets (whichever is lower). In addition, AFCE receives a supplemental administration fee, annual reimbursement of out-of-pocket expenses and an accounting fee from the Fund. For the year ended December 31, 2012, the administration fees, supplemental administration fees and accounting fees for the Fund amounted to \$72,634, \$112,982 and \$9,599, respectively. AAML has agreed to absorb 50% of the fees payable to the Fund's Chilean administrator in 2012. For the year ended December 31, 2012 the reimbursement amounted to \$97,607.

(c) Investor Relations:

Under the terms of an Investor Relations Services Agreement, Aberdeen Asset Management Inc. (AAMI), an affiliate of AAML, provides investor relations services to the Fund and certain other funds advised by AAML or its affiliates.

Pursuant to the terms of the Investor Relations Services Agreement, AAMI, among other things, provides objective and timely information to shareholders based on publicly-available information; provides information efficiently through the use of technology while offering shareholders immediate access to knowledgeable investor relations representatives; develops and maintains effective communications with investment professionals from a wide variety of firms; creates and maintains investor relations communication materials such as fund manager interviews, films and webcasts, published white papers, magazine and articles and other relevant materials discussing the Fund's investment results, portfolio positioning and outlook; develops and maintains of effective communications with large institutional shareholders; responds to specific shareholder questions; and reports activities and results to the Board and management detailing insight into general shareholder sentiment.

For the year ended December 31, 2012, the Fund paid fees of approximately \$72,630 for investor relations services. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

(d) Director Purchase Plan:

Fifty percent (50%) of the annual retainer of the Independent Directors is invested in Fund shares and, at the option of each Independent Director, 100% of the annual retainer can be invested in shares of the Fund. During the year ended December 31, 2012, 2,837 shares were purchased pursuant to the Directors compensation plan. As of

December 31, 2012, the Directors as a group owned less than 1% of the Fund's outstanding shares.

4. Investment Transactions

For the year ended December 31, 2012, Fund purchases and sales of securities, other than short-term investments, were \$11,133,836 and \$24,411,796, respectively.

5. Capital

The authorized capital stock of the Fund is 100,000,000 shares of common stock, \$0.001 par value. As of December 31, 2012, the Fund had 9,386,497 shares issued and outstanding.

On April 21, 2010, the Board approved a tender offer for shares of the Fund's common stock. The tender offer commenced on April 30, 2010 and expired on May 28, 2010. In connection with the tender offer, the Fund purchased 2,542,026 shares of capital stock at a price equal to \$17.82. The tender offer was oversubscribed and all tenders of shares were subject to pro ration (at a ratio of approximately 0.413880429) in accordance with the terms of the tender offer.

On December 7, 2010, the Board declared the payment of a distribution to be paid in the amount of \$1.6591 per share of common stock on January 28, 2011 to shareholders of record at the close of business on December 16, 2010. As announced, the distribution was payable in the Fund's common stock. The aggregate amount of cash distributions to all shareholders was limited to 10% of the aggregate dollar amount of the total distribution. For purposes of computing the stock portion of the dividend, the common stock distributed was valued at \$20.61 per share, which equaled the average closing price of the Fund's common shares on the NYSE MKT (formerly, the NYSE AMEX) on January 19, 2011 and the two preceding trading days. Following the closing of the elective cash distribution, the Fund issued 552,080 shares.

On September 7, 2011, the Board declared the payment of a distribution to be paid in the amount of \$0.80345 per share of common stock on November 15, 2011 to shareholders of record at the close of business on September 21, 2011. As announced, the distribution was payable in the Fund's common stock. The aggregate amount of cash distributions to all shareholders was limited to 10% of the aggregate dollar amount of the total distribution. For purposes of computing the stock portion of the dividend, the common stock distributed was valued at \$16.96 per share, which equaled the average closing price of the Fund's common shares on the NYSE MKT on November 7, 2011 and the two preceding trading days. Following the closing of the elective cash distribution, the Fund issued 357,205 shares.

Notes to Financial Statements (continued)

December 31, 2012

The Fund has filed a shelf registration statement with the SEC, which would permit the Fund to issue up to \$75 million in shares of common stock through one or more public offerings over a three year period (beginning in 2011). Under the shelf registration statement, the Fund may sell the Fund's common shares in one or more at-the-market offerings when market conditions are considered favorable. Such shares would only be issued when the premium to net asset value is greater than the costs associated with the transaction. Any proceeds raised would be used for investment purposes. For the years ended December 31, 2012 and 2011, there were 105,397 and 745,736 shares sold through an at-the-market offering, respectively. In 2011, the Fund incurred offering costs associated with the at-the-market offering which were charged against the proceeds of the stock offering. As of December 31, 2012, the offering costs related to unsold shares, which were charged to the proceeds of the stock offering in 2011, were capitalized as a prepaid asset and will be charged to paid-in capital upon the issuance of these presently unsold shares. For the year ended December 31, 2012, the expenses charged to the shares sold were \$25,955.

6. Credit Facility

The Fund was a party to a joint credit facility along with certain other funds advised by AAML and its affiliates (collectively the Funds). The Funds agreed to a \$10 million committed revolving joint credit facility with BBH & Co. for temporary or emergency purposes. Under the terms of the joint credit facility, the Funds paid an aggregate commitment fee on the average unused amount of the credit facility. In addition, the Funds paid interest on borrowings at the Overnight LIBOR rate plus a spread. For the year ended December 31, 2012, the Fund had no borrowings under the joint credit facility. The Board determined the renewal of the credit facility was not necessary and therefore the facility expired on November 9, 2012.

7. Open Market Repurchase Program

The Board authorized, but does not require, management to make open market purchases from time to time in an amount up to 10% of the Fund's outstanding shares, in accordance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended, and other applicable federal securities laws. Such purchases may be made when, in the reasonable judgment of management, such repurchases may enhance shareholder value and when each such Fund's shares are trading at a discount to net asset value of 12% or more, subject to intraday fluctuations that may result in repurchases at discounts below 12%. The Board has instructed management to report repurchase activity to it regularly, and to post the number of shares repurchased on the Fund's website on a monthly basis. For the year ended December 31, 2012, the Fund did not repurchase any shares through this program.

8. Portfolio Investment Risks

(a) Risks Associated with Foreign Securities and Currencies:

Investments in securities of foreign issuers carry certain risks not ordinarily associated with investments in securities of U.S. issuers. Such risks include, among others, currency risk, information risk and political risk. Currency risk results from securities denominated in currencies other than U.S. Dollars that are subject to changes in value due to fluctuations in exchange rates. Information risk arises with respect to foreign securities when key information about foreign issuers may be inaccurate or unavailable. Political risk includes future political and economic developments, and the possible imposition of exchange controls or other foreign governmental laws and restrictions. In addition, with respect to certain countries, there is the possibility of expropriation of assets, confiscatory taxation, political or social instability or diplomatic developments, which could adversely affect investments in those countries. Other risks of investing in foreign securities include liquidity and valuation risks.

Certain countries also may impose substantial restrictions on investments in their capital markets by foreign entities, including restrictions on investments in issuers of industries deemed sensitive to relevant national interests. These factors may limit the investment opportunities available and result in a lack of liquidity and high price volatility with respect to securities of issuers from developing countries.

Some countries require governmental approval for the repatriation of investment income, capital or the proceeds of sales of securities by foreign investors. In addition, if there is deterioration in a country's balance of payments or for other reasons, a country may impose temporary restrictions on foreign capital remittances abroad. Amounts repatriated prior to the end of specified periods may be subject to taxes as imposed by a foreign country.

(b) Risks Associated with Chilean Markets:

Investments in Chile may involve certain considerations and risks not typically associated with investments in the United States, including the possibility of future political and economic developments and the level of Chilean governmental supervision and regulation of its securities markets.

The Chilean securities markets are substantially smaller, less liquid and more volatile than the major securities markets in the United States. Consequently, acquisition and disposition of securities by the Fund may be inhibited. A significant proportion of the aggregate market value of equity securities listed on the Santiago Exchange are held by a small number of investors and are not publicly traded. This may limit the number of shares available for acquisition or disposition by the Fund.

Notes to Financial Statements (continued)

December 31, 2012

(c) Risks Associated with European Markets:

A number of countries in Europe have experienced severe economic and financial difficulties. Many non-governmental issuers, and even certain governments, have defaulted on, or been forced to restructure, their debts; many other issuers have faced difficulties obtaining credit or refinancing existing obligations; financial institutions have in many cases required government or central bank support, have needed to raise capital, and/or have been impaired in their ability to extend credit; and financial markets in Europe and elsewhere have experienced extreme volatility and declines in asset values and liquidity. These difficulties may continue, worsen or spread within and without Europe whether or not the Fund invests in securities of issuers located in Europe or with significant exposure to European issuers or countries, these events could negatively affect the value and liquidity of the Fund's investments.

9. Contingencies

In the normal course of business, the Fund may provide general indemnifications pursuant to certain contracts and organizational documents. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

10. Tax Information

The U.S. federal income tax basis of the Fund's investments and the net unrealized appreciation as of December 31, 2012 were as follows:

Tax Basis of Investments	Appreciation	Depreciation	Net Unrealized Appreciation
\$67,787,908	\$75,974,820	\$(430,837)	\$75,543,983

Edgar Filing: ABERDEEN CHILE FUND, INC. - Form N-CSR

Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP.

The tax character of distributions paid during the fiscal years ended December 31, 2012 and December 31, 2011 was as follows:

	December 31, 2012	December 31, 2011
Distributions paid from:		
Ordinary Income	\$1,259,227	\$1,067,402
Long Term Capital Gains	13,729,924	23,305,692
Total tax character of distributions	\$14,989,151	\$24,373,094

At December 31, 2012, the components of accumulated earnings on a tax basis, for the Fund were as follows:

Distribution Payable	\$(1,952,826)*
Other Book/Tax temporary Differences	\$(51,001)
Unrealized Appreciation	\$75,438,222
Total accumulated earnings	\$73,434,395

* Due to differences between generally accepted accounting principles and tax reporting, the distribution payable was treated as paid in 2012 for reporting purposes, but will be treated as a 2013 distribution for tax purposes. The final character of this distribution will be determined at the end of 2013.

During the year ended December 31, 2012, the Fund did not have any and therefore did not utilize any capital loss carryforwards. Under the Regulated Investment Company Modernization Act of 2010, the Fund will be permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital losses that are carried forward will retain their

character as either short-term or long-term capital losses rather than being considered all short-term as under previous law.

GAAP requires that certain components of net assets be adjusted to reflect permanent differences between financial and tax reporting. Accordingly, during the current year, \$29,237 has been reclassified from accumulated net realized loss on investments and foreign currency related transactions to distributions in excess of net investment income as a result of permanent differences primarily attributable to foreign currency transactions. These reclassifications have no effect on net assets or net asset values per share.

Notes to Financial Statements (concluded)

December 31, 2012

11. Recent Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board (FASB) issued an Accounting Standards Update (ASU). No. 2011-11, Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities . The amendments in the ASU enhance disclosures about offsetting of financial assets and liabilities to enable investors to understand the effect of these arrangements on a fund s financial position. In January 2013, FASB issued ASU No. 2013-01, Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities. The amendments in ASU No. 2013-01 clarify the intended scope of disclosures required by ASU No. 2011-11. These ASU s are

effective for interim and annual reporting periods beginning on or after January 1, 2013. The Fund believes the adoption of these ASU s will not have a material impact on its financial statements.

12. Subsequent Events

Management has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the financials statements were issued. Based on this evaluation, no adjustments were required to the financial statements as of December 31, 2012.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of
Aberdeen Chile Fund, Inc.:

In our opinion, the accompanying statement of assets and liabilities, including the portfolio of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Aberdeen Chile Fund, Inc. (the Fund) at December 31, 2012, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as financial statements) are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2012 by correspondence with the custodian, provide a reasonable basis for our opinion.

Supplemental Information (unaudited)

Board Approval of Investment Advisory Agreement

The Investment Company Act of 1940 (the Investment Company Act) and the terms of the investment advisory agreement (the Advisory Agreement) between the Aberdeen Chile Fund, Inc. (the Fund) and Aberdeen Asset Managers Limited (the Adviser) require that the Advisory Agreement be approved annually at an in-person meeting by the Board of Directors (the Board), including a majority of the Directors who have no direct or indirect interest in the Advisory Agreement and are not interested persons of the Fund, as defined in the Investment Company Act (the Independent Directors).

At its meeting on December 4, 2012, the Board voted unanimously to renew the Advisory Agreement between the Fund and the Adviser. In connection with its evaluation of the Advisory Agreement, the Board reviewed a broad range of information requested for this purpose and considered a variety of factors, including the following:

- (i) The nature, extent and quality of the services provided by the Adviser;
- (ii) The performance of the Fund;
- (iii) The management fee rate, which includes the advisory fee charged by the Adviser and the administration fees charged by the Fund's administrators, and the total net expense ratio of the Fund, both on an absolute basis and as compared both to a relevant peer group of funds and to fees charged by the Adviser to others;
- (iv) The extent to which economies of scale could be realized by the Adviser and shared with the Fund's shareholders;
- (v) The costs of services provided and profits realized by the Adviser;
- (vi) Other benefits realized by the Adviser or its affiliates from its relationship with the Fund; and
- (vii) Any other factors that the Board deemed relevant to its consideration.

In addition to its review of information presented to the Board during the contract renewal process, the Board considered knowledge gained from presentations by and discussions with management at regular and special meetings throughout the year. The Independent Directors were represented by independent counsel throughout the review process and convened executive sessions without management present. In its deliberations, the Board did not identify any single factor that was all-important or controlling and each Director may have attributed different weights to the various factors.

Certain of the Board considerations outlined above are discussed in more detail below.

Nature, Extent and Quality of Services. The Board received and considered various data and information regarding the nature, extent and quality of services provided under the Advisory Agreement. The Board considered the reorganization of the Fund's previous investment adviser, Aberdeen Asset Management Investment Services Limited (AAMISL), into the Adviser, which occurred on March 1, 2012. As a

Supplemental Information (unaudited) (continued)

result of this reorganization, the Adviser continues to conduct AAMISL's businesses and represented that there has been no change to the portfolio management team or the level or nature of services provided to the Fund and the same resources that were available to AAMISL for the management of the Fund are available to the Adviser. The Board also considered the Adviser's representation that it continues to (i) provide the same level and quality of advisory services to the Fund as was provided under an investment sub-advisory agreement with Celfin Capital Servicios Financieros S.A. (Celfin), which terminated on February 4, 2012, and (ii) dedicate appropriate internal resources to the Fund so that the service level does not decrease.

Additionally, the Board considered, among other things, information about the background and experience of senior management and investment personnel who were responsible for managing the Fund. The Board also received presentations from and participated in information sessions with senior investment personnel of the Adviser. The Board considered information provided regarding the portfolio managers and other resources dedicated to the Fund and the investment philosophy and process followed by those individuals responsible for managing the Fund. The Board, in particular, received information from the Adviser about its resources, including personnel, devoted to focusing on the geographic area in which the Fund invests. The Board was satisfied that the Adviser had appropriate resources to cover the geographic area to manage the Fund in a manner consistent with its investment objective.

The Board also evaluated the ability of the Adviser, based on its resources, reputation and other attributes, to attract and retain qualified investment professionals. In this regard, the Board considered information regarding the general nature of the compensation structure applicable to portfolio managers and other key personnel.

In addition, the Board considered and evaluated materials and information received regarding the Adviser's investment and legal compliance program and record with respect to the U.S. registered closed-end funds managed by the Adviser. The Board met in-person with and received quarterly reports from the Fund's Chief Compliance Officer.

Furthermore, the Board received and considered information about the financial viability of the Adviser to satisfy itself that the Adviser had adequate resources to perform the services required under the Advisory Agreement.

Based on the foregoing and other relevant information reviewed, the Board concluded that, overall, the nature, extent and quality of the services provided to the Fund supported renewal of the Advisory Agreement.

Investment Performance. In addition to reports received at its regular quarterly meetings, the Board received and considered information on the investment performance history of the Fund, including comparisons to the Fund's Morningstar Category average and broad-based benchmark index returns over various calendar years. The Board was provided with reports, independently prepared by Strategic Insight Mutual Fund Research and Consulting, LLC (Strategic Insight), which included a comprehensive analysis of the Fund's performance.

The Board noted that except for the calendar year 2010 results, the Fund's performance was in-line with the performance of its benchmark index, the MSCI Chile Index, for the calendar years under review. The Board noted that the Fund outperformed its peer funds, as measured by the Morningstar Latin America Stock Category Average, in certain calendar years under review and underperformed in other calendar years. The Adviser provided information about factors that contributed to the Fund's recent performance results. The Board concluded that it was generally satisfied with the Fund's performance and that the Adviser was taking appropriate actions with respect to investment performance.

Edgar Filing: ABERDEEN CHILE FUND, INC. - Form N-CSR

Fees and Economies of Scale. The Board considered the management fee rate, which combines the advisory fee charged by the Adviser and the administration fees charged by the Fund's administrators and potential economies of scale. The Board received an analysis from Strategic Insight that compared the Fund's management fee rate to the management fee rate of a peer group of funds on a gross basis and on a net basis after taking into consideration any fee waivers or expense reimbursements. The Board noted that the gross management fee rate for the Fund was in-line with the median but higher than the average gross management fee rates of its peer group. The Board also noted that the net management fee rate for the Fund was in-line with the average and median net management fee rates of its peer group. Furthermore, the Board concluded that the contractual breakpoints utilized by the Fund adequately took into account potential economies of scale.

The Board also reviewed information prepared by Strategic Insight that showed that the Fund's 2011 total net expense ratio was higher than the average and median ratios of its peer group. The Board considered the differences between the Fund and the funds in the peer group and noted that the Fund was the only fund in the peer group that invested primarily in Chilean securities, including both equity and debt securities. The Board noted that the most significant factor contributing to the Fund's expense results were Other Operating Expenses (i.e. expenses other than the management fee), in particular non-U.S. custody fees. The Board also noted that the Fund's average net asset size was below the average net asset size of funds in the Fund's peer group.

Supplemental Information (unaudited) (concluded)

Costs of Services Provided and Profitability. The Board considered, among other things, the Adviser's estimates of its costs in providing advisory services to the Fund, and the Adviser's resulting profitability. The Board noted instances of reduced expenses for the twelve months ended August 31, 2012 in comparison to the Adviser's expenses for the twelve months ended September 30, 2011, and the twelve months ended September 30, 2010, and the reasons for the reductions, including the termination of the investment sub-advisory agreement with Celfin. The Board also considered the effect on the Adviser's profitability of the Adviser's agreement to absorb 50% of the fees payable to the Fund's Chilean administrator in 2012. Based on its review of the estimated cost and profit information provided by the Adviser, and in light of the nature, extent and quality of services provided to the Fund, the Board did not deem the Adviser's profitability to be excessive.

Information about Services to Other Clients. The Board considered information about the nature and extent of services and fee rates offered by the Adviser to other clients, including other registered investment companies and institutional funds or accounts. The Adviser advised the Board that, due to the unique strategy of the Fund, the Adviser did not manage any other closed-end funds that were directly comparable. The Board considered that the Adviser was subject to a broader and more extensive regulatory regime in connection with management of the Fund compared to the Adviser's management of institutional funds or accounts. The Board did not deem the fee rate under the Advisory Agreement to be excessive relative to these other fee rates, given its understanding of similarities and differences in the nature and extent of services offered and other factors.

Fall-Out Benefits and Other Factors. The Board also considered information regarding potential fall-out or ancillary benefits that could be realized by the Adviser or its affiliates as a result of its relationship with the Fund. In this regard, the Board was advised that the Adviser and its affiliates may derive reputational benefits from their association with the Fund. The Board also noted, however, that such benefits were difficult to quantify with certainty.

Additionally, the Board considered that the Adviser has the authority to receive research and brokerage services from a broker that may be useful to various clients in exchange for conducting portfolio brokerage transactions through such broker. The Board noted that the Adviser also may enter into commission sharing arrangements with certain brokers for the receipt of goods or services that relate to the execution of trades or the provision of research. The Board considered the Adviser's representations that it evaluates any soft-dollar or commission sharing arrangements for compliance with applicable US or UK regulations, particularly with respect to the safe harbor contained in Section 28(e) of the Securities Exchange Act of 1934, and for compliance with its duty to seek best execution.

* * * * *

After an evaluation of the above-described factors and based on its deliberations and analysis of the information provided and alternatives considered, the Board, including all of the Independent Directors, unanimously approved the Advisory Agreement and the compensation payable thereunder.

- 1 Services include review of the Fund's registration statement.
- 2 The Tax Fees are for the completion of the Registrant's federal and state tax returns.
- 3 Includes local government review and repatriation process.

(e)(1) The Registrant's Audit and Valuation Committee has adopted an Audit and Valuation Committee Charter that provides that the Audit and Valuation Committee shall annually select, retain or terminate the Fund's independent auditor and, in connection therewith, to evaluate the terms of the engagement (including compensation of the auditor) and the qualifications and independence of the independent auditor, including whether the independent auditor provides any consulting, auditing or tax services to the Investment Adviser, and to receive the independent auditor's specific representations as to their independence, delineating all relationships between the independent auditor and the Registrant, consistent with the Independent Standards Board (ISB) Standard No. 1. The Audit and Valuation Committee Charter also

provides that the Audit and Valuation Committee shall review in advance, and consider approval of, any and all proposals by Management or the Investment Adviser that the Registrant, Investment Adviser or their affiliated persons, employ the independent auditor to render permissible non-audit services to the Registrant and to consider whether such services are consistent with the independent auditor's independence.

(e)(2) None of the services described in each of paragraphs (b) through (d) of this Item involved a waiver of the pre-approval requirement by the Audit and Valuation Committee pursuant to Rule 2-01 (c)(7)(i)(C) of Regulation S-X.

(f) Not applicable.

(g) Non-Audit Fees

For the fiscal year ended December 31, 2012, PWC billed \$2,252,590 for aggregate non-audit fees for services to the Registrant and to the Registrant's Investment Adviser (not including any sub-adviser whose role is primarily portfolio management and is subcontracted with or overseen by another investment adviser) and any entity controlling, controlled by, or under common control with the Investment Adviser that provides ongoing services to the Registrant (Registrant's Covered Service Providers). For the fiscal year ended December 31, 2011, PWC billed \$1,086,608 for aggregate non-audit fees for services to the Registrant and to the Covered Service Providers.

(h) The Registrant's Audit and Valuation Committee of the Board of Directors has considered whether the provision of non-audit services that were rendered to the Registrant's Covered Service Providers that were not pre-approved pursuant to paragraph (c)(7)(ii) of Rule 2-01 of Regulation S-X is compatible with maintaining the principal accountant's independence and has concluded that it is.

Item 5 Audit Committee of Listed Registrants.

(a) The Registrant has a separately-designated standing audit committee established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended.

For the fiscal year ended December 31, 2012, the audit committee members were:

Enrique R. Arzac

James J. Cattano

Steven N. Rappaport

Martin M. Torino

Item 6 Investments.

(a) Included as part of the Report to Shareholders filed under Item 1 of this Form N-CSR.

(b) Not applicable.

Item 7 Disclosure of Proxy Voting Policies and Procedures for Closed-End Management

Investment Companies.

Pursuant to the Registrant's Proxy Voting Policy and Procedures, the Registrant has delegated responsibility for its proxy voting to its Investment Adviser, provided that the Registrant's Board of Directors has the opportunity to periodically review the Investment Adviser's proxy voting policies and material amendments thereto. The Registrant's Board of Directors most recently ratified the proxy voting policies of the Investment Adviser in June 2012.

The proxy voting policies of the Registrant are referenced in Exhibit A and Investment Adviser are referenced in Exhibit B.

The portfolio managers' management of other registered investment companies, other pooled investment vehicles, and other accounts may give rise to potential conflicts of interest in connection with their management of the Registrant's investments, on the one hand, and the investments of these other accounts, on the other. These other accounts may have the same investment objective as the Registrant. Therefore, a potential conflict of interest may arise as a result of the identical investment objectives, whereby the portfolio manager could favor one account over another. However, the Investment Adviser believes that these risks are mitigated by the fact that: (i) accounts with like investment strategies managed by a particular portfolio manager are generally managed in a similar fashion, subject to exceptions to account for particular investment restrictions or policies applicable only to certain accounts, differences in cash flows and account sizes, and similar factors; and (ii) portfolio manager personal trading is monitored to avoid potential conflicts. In addition, the

Investment Adviser has adopted trade allocation procedures that require equitable allocation of trade orders for a particular security among participating accounts.

In some cases, other accounts managed by the same portfolio manager may compensate the Investment Adviser or its affiliates based on the performance of the portfolio held by that account. The existence of such a performance-based fee may create additional conflicts of interest for the portfolio manager in the allocation of management time, resources and investment opportunities.

Another potential conflict could include instances in which securities considered as investments for the Registrant also may be appropriate for other investment accounts managed by the Investment Adviser or its affiliates. Whenever decisions are made to buy or sell securities by the Registrant and one or more of the other accounts simultaneously, the Investment Adviser may aggregate the purchases and sales of the securities and will allocate the securities transactions in a manner that it believes to be equitable under the circumstances. As a result of the allocations, there may be instances where the Registrant will not participate in a transaction that is allocated among other accounts. While these aggregation and allocation policies could have a detrimental effect on the price or amount of the securities available to the Registrant from time to time, it is the opinion of the Investment Adviser that the benefits from the Investment Adviser organization outweigh any disadvantage that may arise from exposure to simultaneous transactions. The Registrant has adopted policies that are designed to eliminate or minimize conflicts of interest, although there is no guarantee that procedures adopted under such policies will detect each and every situation in which a conflict arises.

(a)(3) Aberdeen Asset Management PLC's (Aberdeen) remuneration policies (the Policy) are designed to support our business strategy, as a leading international asset manager. The objective is to attract, retain and reward talented individuals for the delivery of sustained, superior returns for our clients and shareholders. Aberdeen operates in a highly competitive international employment market, and aims to maintain its strong track record of success in developing and retaining talent.

The policy is to recognise corporate and individual achievements each year through an appropriate annual bonus scheme. The aggregate value of awards in any year is dependent on the Group's overall performance and profitability. Consideration is also given to the levels of bonuses paid in the market. Individual awards which are payable to all members of staff are non-pensionable, are determined by a rigorous assessment of achievement against defined objectives.

A long-term incentive plan for key staff and senior employees comprises of a mixture of cash and deferred shares in AAM PLC or select Aberdeen funds (where applicable). Overall compensation packages are designed to be competitive relative to the investment management industry.

Base Salary

Any increase is to reflect inflation and is applied in a manner consistent with other Group employees; any other increases must be justified by reference to promotion or changes in responsibilities. The Policy is to pay a fair salary commensurate with the individual's role, responsibilities and experience, and having regard to the market rates being offered for similar roles in the asset management sector and other comparable companies.

Annual Bonus

The Policy is to recognise corporate and individual achievements each year through an appropriate annual bonus scheme. The Remuneration Committee determines the KPI s that will be applied in

considering the overall size of the bonus pool. In line with practice amongst other asset management companies, individual bonuses are not subject to an absolute cap. However, the aggregate size of the bonus pool is dependent on the group's overall performance and profitability. Consideration is also given to the levels of bonuses paid in the market. Individual awards are determined by a rigorous assessment of achievement against defined objectives, and are reviewed and approved by the Remuneration Committee.

The deferral policy is intended to assist in the retention of talent and to create additional alignment of executives' interests with Aberdeen's sustained performance and, in respect of the deferral into funds, managed by Aberdeen, to align the interest of asset managers with our clients.

Staff performance is reviewed formally at least once a year. The review process looks at all of the ways in which an individual has contributed to the Aberdeen Group, and specifically, in the case of portfolio managers, to the relevant investment team. Discretionary bonuses are based on client service, asset growth and the performance of the respective portfolio manager. Overall participation in team meetings, generation of original research ideas and contribution to presenting the team externally are also evaluated.

In the calculation of a portfolio management team's bonus, the Aberdeen Group takes into consideration investment matters (which include the performance of funds, adherence to the company investment process, and quality of company meetings) as well as more subjective issues such as team participation and effectiveness at client presentations. To the extent performance is factored in, such performance is not judged against any specific benchmark and is evaluated over the period of a year - January to December. The pre- or after-tax performance of an individual account is not considered in the determination of a portfolio manager's discretionary bonus; rather the review process evaluates the overall performance of the team for all of the accounts they manage.

Portfolio manager performance on investment matters is judged over all of the accounts the portfolio manager contributes to and is documented in the appraisal process. A combination of the team's and individual's performance is considered and evaluated.

Although performance is not a substantial portion of a portfolio manager's compensation, the Aberdeen Group also recognizes that fund performance can often be driven by factors outside one's control, such as (irrational) markets, and as such pays attention to the effort by portfolio managers to ensure integrity of our core process by sticking to disciplines and processes set, regardless of momentum and hot themes. Short-termining is thus discouraged and trading-oriented managers will thus find it difficult to thrive in the Aberdeen Group's environment. Additionally, if any of the aforementioned undue risks were to be taken by a portfolio manager, such trend would be identified via Aberdeen's dynamic compliance monitoring system.

Long-Term Incentives

As part of an effective remuneration package, a long-term incentive plan is used to structure the package so as to retain, motivate, and reward key staff members with a view to improving their performance and thereby increasing the value of the Aberdeen Group for the benefit of shareholders. Long-term incentive plans can be either fund or share based and typically vest over one, two and three year periods.
