#### **Item 4. Changes in Registrant's Certifying Accountants.**

On November 5, 2002, Kaufman Rossin & Co. ("KRC"), the independent certified public accountants for BankEngine Technologies, Inc. (the "Company"), was dismissed. While KRC never issued a report on the Company's financial statements, the Company is unaware of any matter that would have resulted in KRC issuing an adverse opinion or a disclaimer of opinion, or one that was qualified or modified as to uncertainty, audit scope, or accounting principles.

The independent auditor for the Company for its fiscal year ending August 31, 2001 was Schwartz Levitsky Feldman LLP ("SLF"). During the year ended August 31, 2001 the reports by SLF on the financial statements of the Company did not contain an adverse opinion or a disclaimer of opinion, or one that was qualified or modified as to uncertainty, audit scope, or accounting principles. During the year ended August 31, 2000 the reports by Pender Newkirk & Company, CPAs ("PNC") on the financial statements of the Company contained a going concern opinion. During the Company's two most recent fiscal years and subsequent period up to November 5, 2002, there were no disagreements with any of the foregoing accountant(s) on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to their satisfaction would have caused them to make reference in connection with their opinion to the subject matter of the disagreement.

On November 5, 2002, subsequent to approval of its Board of Directors, the Company engaged Wiener, Goodman & Company, P.C. ("WGC") to serve as the Company's independent certified public accountants. During the Company's two most recent fiscal years, and during any subsequent period through November 5, 2002, the Company did not consult with WGC on any accounting or auditing issues.
