NEWS RELEASE

Enbridge completes acquisition of interest in BP Cushing to Chicago Pipeline System

CALGARY, Alberta, September 2, 2003 Enbridge Inc. announced today it has completed the acquisition of a 90% interest in the Cushing to Chicago Pipeline System (CCPS) from BP Pipelines North America Inc. for US\$122 million. Subject to acceptance of proposed tolling arrangements by Canadian producers and regulatory approval, Enbridge intends to reverse the flow of the 650-mile (1,050-km) pipeline by 2004, at a cost of approximately US\$20 million. The reversed line, which would transport Canadian crude south from Chicago to Cushing, Oklahoma, would be renamed the Spearhead Pipeline.

Enbridge's acquisition and planned reversal of the 22/24-inch diameter pipeline will provide Canadian producers and shippers with cost-effective access to new markets south of Enbridge's terminal near Chicago.

CCPS has historically operated in south-to-north service with a capacity of 300,000 barrels per day, including 4.3 million barrels of tankage. If the necessary approval to reverse CCPS is not obtained, Enbridge and BP Pipelines will explore other options to maximize the value of the system. Enbridge's investment would be limited to US\$57 million in this case, and BP Pipelines would be entitled to repurchase Enbridge's 90% interest, for a period of nine months, at a US\$10-million discount.

Enbridge Inc. is a leader in energy transportation and distribution in North America and internationally. As a transporter of energy, Enbridge operates, in Canada and the United States, the world's longest crude oil and liquids transportation system. The Company also has international operations and a growing involvement in the natural gas transmission and midstream businesses. As a distributor of energy, Enbridge owns and operates Canada's largest natural gas distribution company, and provides distribution services in Ontario, Quebec, New Brunswick and New York State. Enbridge employs approximately 4,000 people, primarily in Canada, the United States and South America. Enbridge's common shares trade on the Toronto Stock Exchange in Canada and on the New York Stock Exchange in the United States under the symbol ENB. Information about Enbridge is available on the Company's web site at www.enbridge.com.

BP Pipelines North America is the second largest liquids pipeline company in the United States transporting over 450 million barrel-miles of oil, refined products, natural gas liquids, carbon dioxide, and chemicals daily about 9% of the U.S. liquids pipeline market. For more information about BP Pipelines North America, visit <http://www.bppipelines.com>.

NEWS RELEASE

Enbridge Increases Ownership in Vector Pipeline

CALGARY, Alberta, September 29, 2003 Enbridge Inc. today announced that it has entered into an agreement to acquire an additional 15% interest in the Vector Pipeline from Duke Energy for US\$72.5 million, including assumed debt of approximately US\$45.6 million. DTE Energy Company will also acquire a 15% interest in Vector from Duke Energy for the same price.

Upon closing, Calgary-based Enbridge (NYSE/TSX: ENB) will own 60% of Vector Pipeline; Detroit-based DTE Energy (NYSE: DTE) will own the other 40%. Duke Energy will maintain its firm contracted transportation commitments to the pipeline.

The Vector natural gas pipeline extends 348 miles (553 kilometres) from the Chicago-area market hub in Illinois to the hub at Dawn, Ontario. The pipeline, which went into service in December 2000, has capacity of 1 billion cubic feet per day, which can be expanded to 1.5 billion cubic feet per day through the installation of additional compression. Vector provides take-away capacity for the Alliance pipeline, which is 50% owned by Enbridge and its affiliates.

This acquisition is consistent with our objective of increasing Enbridge's investment in natural gas transmission assets, said Patrick D. Daniel, President & Chief Executive Officer of Enbridge. Vector has good growth potential and provides a critical transportation link between expected increased supply, through the Chicago hub, and eastern Canadian and U.S. northeast markets. Vector also complements our recently proposed Beacon Pipeline project, which is designed to move an increasing supply of Rockies gas to eastern markets through Chicago. Increasing demand downstream of the Dawn hub will place Vector in a strong competitive position to serve growing Canadian and U.S. northeast demand.

The acquisition is immediately accretive to earnings per share and is expected to close in early October, subject to customary closing conditions.
