SPECIAL COMMITTEE OF ANORMED BOARD REJECTS COMPROMISE SLATE OF 7 MEMBERS

For Immediate Release

April 12, 2006

Vancouver, B.C. - AnorMED Inc. (TSX: AOM; AMEX:AOM) announces that the Special Committee of AnorMED Board Rejects Compromise Slate of 7 Members

AnorMED announces that its Special Committee of the Board of Directors, has resolved not to accept the proposal for a compromise in the proxy contest made by Dr. Michael Abrams, AnorMED's Chief Executive Officer, and which was accepted by Dr. Felix Baker, on behalf of the dissident shareholders.

In the view of the Special Committee of the Board, the slate proposed as a compromise is not in the best interests of the Corporation as it would not contain any independent directors with any institutional knowledge of the Company, and this leads to an unacceptable risk that the commercialization of MOZOBIL , AnorMED's lead product, will be delayed. MOZOBIL is currently in phase 3 development for the treatment of certain cancer patients undergoing stem cell transplantation.

Mr. David Scott, Board Chairmen said, "The most crucial objective facing AnorMED is the prompt and successful commercialization of MOZOBIL. The ability of AnorMED to complete the work necessary to realize this goal has been placed in serious jeopardy by the attempt initiated by Dr. Baker to obtain control of AnorMED. Because of Dr. Baker's untimely actions, our recruitment of necessary personnel and our ability to enter into partnerships necessary for a company of our size to develop and commercialize a phase 3 product have been hindered and will be further compromised by a wholesale change in Board leadership."

The Special Committee has been consistently attempting to work towards solutions that are in the best interests of AnorMED and its shareholders, and that are acceptable to the dissident shareholders. One of the guiding principles in this respect has been the need for some meaningful and independent continuity following the time that the composition of the board of directors changes. These attempts have been frustrated by Dr. Baker's continued refusal to consider any compromise solution that contains any existing board members, other than himself and Dr. Abrams. Our request to allow Dr. Baker to select two other members of the current Board to provide continuity, with a commitment that those persons would agree to serve only for a transition period until the 2007 annual meeting, was refused by Dr. Baker.

"Fair resolution of our two substantially different visions for AnorMED can and should only be the prerogative of our shareholders," said Mr. Scott. "We believe that our slate provides a better future for MOZOBIL and for AnorMED. We look forward to placing this difficult chapter behind us and to proceeding with the important work before us. Upon successful election, the AnorMED Nominee Directors (Blue Proxy) will immediately, work towards completing one of the substantial European licensing deals on the table or seek a strategic partner," added Mr. Scott.

AnorMED shareholders are recommended to vote only their **BLUE AnorMED proxy** in favour of the AnorMED Slate. **Proxies must be returned by April 19, 2006 at 10:00 a.m. Vancouver time** for your vote to count. The AnorMED Management Proxy Circular, which has been mailed to shareholders and filed with regulators, is available on the Company website (www.anormed.com) and SEDAR at www.sedar.com.

For more information call Georgeson Shareholder, AnorMED's proxy solicitor at their North American toll free number **1-866-267-8910, or collect at 416-642-7069**. If shareholders previously returned a Yellow Dissident Proxy, they have every legal right to change their vote, by simply signing, dating and returning a Blue proxy, as it is only the later dated proxy that will be counted.
