MC SHIPPING INC.

MC Shipping was incorporated on March 17, 1989, in the Republic of Liberia.

Since its founding, the Registrant has been engaged in the business of investing in, owning and operating second-hand vessels. As of December 31, 2005, the Registrant's fleet included nine liquid petroleum gas ("LPG") carriers and two multipurpose seariver vessels. Each of the Registrant's vessels is owned by a separate wholly owned subsidiary of the Registrant. In addition, the Registrant has a 25.8% percent interest in four containerships and a 50% participation in an additional LPG carrier;

An LPG carrier is designed to carry petroleum gases used primarily as low pollution fuels and as feedstock in the petrochemical and fertilizer industries. A containership is a vessel designed exclusively to carry containers. A multipurpose seariver vessel is a small vessel capable of carrying general cargo and/or bulk cargo both on rivers and at sea.

The Registrant generally employs its vessels on time charter, bareboat charter or spot charter. With time charters, the Registrant receives a fixed charterhire per on-hire day and is responsible for meeting all the operating expenses of the vessels, such as crew costs, voyage expenses, insurance, repairs and maintenance. In the case of bareboat charters, the Registrant receives a fixed charterhire per day for the vessel and the charterer is responsible for all the costs associated with the vessel's operation during the bareboat charter period. In the case of voyage charters, the vessel is contracted only for a voyage between two ports: the Registrant is paid for the tonnage transported and pays all voyage costs.

RISK FACTORS

You should carefully consider the following factors and other information in this prospectus and in our annual reports on Forms 10-K when you evaluate our business.

Risks Related to the Shipping Industry

Our business is subject to the general volatility of the shipping market. The shipping industry is subject to cyclical fluctuations in charter rates and vessel values based on changes in supply and demand. The industry has been experiencing volatility in profitability, vessel values and charter rates resulting from changes in the supply of, and demand for, shipping capacity. The demand for ships is influenced by, among other factors, global and regional economic conditions, developments in international trade, changes in seaborne and other transportation patterns, weather patterns, crop yields, armed conflicts, port congestion, canal closures, political developments, conflicts, embargoes and strikes. The demand for ships is also influenced by, among other things, the demand for consumer

goods and perishable foodstuffs, dry bulk commodities, crude oil and oil products. Demand for such products is affected by, among other things, general economic conditions, commodity prices, environmental concerns, weather and competition from alternative fuels. The supply of shipping capacity is a function of the delivery of new vessels and the number of older vessels scrapped, converted to other uses, reactivated or lost. Such supply may be affected by regulation of maritime transportation practices by governmental and international authorities. All of these factors which affect the supply of and demand for vessel capacity are beyond the control of the Registrant. In addition, the nature, timing and degree of changes in the shipping markets, in which the Registrant operates, as well as future charter rates and values of its vessels, are not readily predictable.

Table of Contents

Our business is subject to significant environmental and other regulations. The operation of vessels is affected by extensive and changing environmental protection and other laws and regulations, compliance with which may entail significant expense, including expenses for ship modifications and changes in operating procedures. Such expense could have a material adverse effect on the Registrant at any time.

Our business is subject to government regulation which may increase our costs and potential liabilities, including for the failure to obtain required permits, licenses and certificates and the failure to keep up with changing regulations. The shipping business is materially affected by government regulation in the form of international conventions, national, state or local laws and regulations, and laws and regulations of the flag nations of its vessels, including laws relating to the discharge of materials into the environment. Because such conventions, laws and regulations are often revised, the Registrant is unable to predict the ultimate costs of complying with such conventions, laws and regulations. Under certain regulations, a vessel owner may be liable for property and environmental damages and all of its assets could be subject to claim for such damages. Moreover, in certain jurisdictions, under the "sister ship" doctrine, all of the affiliates in a fleet of ships may be liable for damages caused by, or debts incurred with respect to, a ship owned by one affiliate, and the ships and other assets of all the affiliates may be subject to attachments.

Risks Related to MC Shipping's Operations

Our vessels may be subject to catastrophic loss, which our insurance may be insufficient to cover. The business of the Registrant is affected by the risks of mechanical failure of the Registrant's vessels, collisions, property losses to the vessels, cargo loss or damage, and business interruption due to political action in foreign countries and labor strikes. In addition, the operation of any ocean-going vessel entails an inherent risk of catastrophic marine disaster. The Registrant maintains Hull and Machinery Insurance, War Risk Insurance, Protection and Indemnity Insurance, Freight Demurrage and Defense Insurance and Loss of Earnings Insurance on its vessels consistent with industry practice. The Registrant maintains total or constructive total loss coverage for each of its vessels. The insurance underwriters may require that additional premiums be paid for Hull and Machinery and War Risk Insurance prior to any vessels entering certain geographical areas subject to unstable political or military conditions. Although the Registrant has had no difficulty in obtaining such insurance for its vessels, there can be no assurance that the Registrant will be able to continue to procure sufficient amounts of insurance at commercially reasonable rates to cover the repair and replacement cost of any vessel which is damaged or destroyed, loss of earnings on a vessel or the Registrant's liability in the event of a catastrophic marine or ecological disaster. Further, the Registrant cannot guarantee that any particular claim will be paid.

There may be risks associated with the purchase and operation of second hand vessels. The economic useful lives of most gas carriers are generally estimated to be approximately 30 years, depending on market conditions, the type of cargo being carried and the level of maintenance. Second-hand vessels carry no warranties from sellers or manufacturers. In general, expenditures necessary to maintain a vessel in good operating condition increase with the age of the vessel. Second-hand vessels may develop unexpected mechanical and operational problems despite adherence to regular survey schedules and proper maintenance. Changes in governmental regulations and safety standards may require expenditures for alterations. The Registrant's vessels range from 10 to 30 years old. There can be no assurance that market conditions will justify the level of expenditures necessary to maintain such vessels, to comply with applicable regulations, to enable the Registrant to operate such vessels profitably during the remainder of such vessels' useful lives or to sell such vessels at prices approaching or in excess of the book value. Therefore, the Registrant's future operating results could be negatively affected if some of its vessels do not perform as expected.

We may face unexpected repair costs for our vessels. Repairs and maintenance costs are difficult to predict with certainty and may be substantial. Many of these expenses are not covered by the Registrant's insurance. Large repair expenses could decrease the Registrant's cash flow and profitability and reduce its liquidity.

Table of Contents

Our revenues may be adversely affected if we do not successfully employ our vessels at attractive rates. The Registrant's vessels are currently chartered for periods ranging from three to fifty-one months. Upon the termination of such charters, the Registrant may seek to sell one or more of its vessels, enter into medium- to long-term charters or trade such vessels in the spot market. If the Registrant decides to recharter the vessels, there can be no assurance that it will be able to enter into charters for periods and at rates of hire that will be sufficient to enable the Registrant's vessels to be operated profitably.

We are dependent upon a few significant charterers and the loss of any one could have a material adverse affect on our results of operations. The Registrant has derived and is expected to continue to derive, a significant portion of its revenues from a limited number of charterers. In 2005, revenues from three charterers amounted to \$12,481,360, \$9,731,326 and \$9,052,303 respectively representing 35.3%, 27.5% and 25.6% of total revenues. In 2004, revenues from three charterers amounted to \$12,202,388, \$8,817,095 and \$8,281,170 respectively representing 38.3%, 27.6% and 26.0% of total revenues from charterhires. In 2003, revenues from four charterers amounted to \$12,811,153, \$7,716,061, \$7,605,471 and \$4,692,500 respectively representing 35.8%, 21.6%, 21.2% and 13.1% of total revenues. The insolvency of any of these charterers or the failure by any charterer to meet its charter obligations would likely require the Registrant to seek alternate employment for its vessels and might have a material adverse impact on the Registrant. In addition, the loss of any of these charterers as a customer or a significant decrease in the amount of business it transacts with the Registrant could materially adversely affect the Registrant's revenues, cash flows and profitability.

There may be risks associated with our operations outside the United States. The Registrant's operations are conducted worldwide, and may be affected by changing economic, political and social conditions in the countries where the Registrant is engaged in business or where the Registrant's vessels are registered or flagged. In particular, the Registrant's operations may be affected by war, expropriation of vessels, the imposition of taxes, increase regulation or other circumstances, and as a consequence the Registrant may incur higher costs, its assets may be impaired or its operations may be curtailed.

Our operating performance may be materially affected by competition. Competition in the operation of containerships and LPG carriers is intense. A few large and experienced operators, with greater financial resources than those of the Registrant, dominate the LPG and containership sectors, particularly in the larger ship segments, and there is no assurance that the Registrant will be able to compete successfully with other shipping firms.

Related party transactions may materially affect our business. Certain of the directors and executive officers of the Registrant are involved in outside business activities similar to those conducted by the Registrant. As a result of such affiliations, such persons may experience conflicts of interest in connection with the selection, purchase, operation and sale of the Registrant's vessels and those of other entities affiliated with such persons.

Our business exposes us to unpredictable contingent liabilities. Various claims, suits, and complaints, including those involving government regulations and product liability, arise in the ordinary course of the shipping business. In addition, losses may arise from disputes with charterers, agents, insurance and other claims with suppliers relating to the operations of the Registrant's vessels.

If we default under any of our loan agreements, we could forfeit our rights in our vessels and their charters. The Registrant has pledged all of its vessels and related collateral as security to the lenders under its loan agreements. Default under any of these loan agreements, if not waived or modified, would permit the lenders to foreclose on the mortgages over the vessels and the related collateral, and the Registrant could lose its rights in the vessels and their charters.

Risks Related to MC Shipping's Common Stock

You may not be able to sell your common stock when you want to and, if you do, you may not be able to receive the price that you want. Although our common stock trades on the American Stock Exchange, we do not know if an active trading market for the common stock will continue or, if it does, at what prices the common stock may trade. Since the beginning of fiscal 2005, the reported closing prices for our common stock have ranged from a high of \$15.82 to a low of \$3.55. In addition, the stock markets in general, including the American Stock Exchange, have experienced extreme price and trading volume fluctuations. These fluctuations have resulted in volatility in the market prices of securities that has often been unrelated or disproportionate to changes in operating performance. These broad market fluctuations may adversely affect the market prices of our common stock. Further, possible additional issuances could significantly increase the number of shares of our common stock outstanding, and could result in a decline in the market price of our common stock. Therefore, you may not be able to sell our common stock when you want and, if you do, you may not receive the price you want.

Table of Contents

We cannot assure you that we will pay any dividends. In March 2005, the Registrant's board of directors initiated a cash dividend policy. The timing and amount of dividends, if any, could be affected by factors affecting cash flows, results of operations, required capital expenditures, or reserves. Maintaining the dividend policy will depend on the Registrant's cash earnings, financial condition and cash requirements and could be affected by factors, including the loss of a vessel, required capital expenditures, reserves established by the board of directors, increased or unanticipated expenses, additional borrowings or future issuances of securities, which may be beyond the Registrant's control.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of any shares of our common stock by the Selling Shareholders pursuant to this prospectus. All such proceeds, net of brokerage commissions, if any, will be received by the Selling Shareholders.

SELLING SHAREHOLDERS

The shares of common stock to which this prospectus relates may be offered or sold from time to time by the Selling Shareholders. A first grant of 163,655 stock options, a second grant of 100,000 stock options and a third grant of 186,398 stock options were granted to such Selling Shareholders pursuant to the Plan by the compensation committee of our board of directors on June 20, 2001, September 17, 2004 and June 14, 2005, respectively.

PLAN OF DISTRIBUTION

We are registering the shares of common stock covered by this prospectus for the Selling Shareholders or their pledgees, donees, transferees or other successors-in-interest as a gift, partnership distribution or other non-sale-related-transfer after the date of this prospectus, who may sell the shares from time to time. The Selling Shareholders will act independently of us in making decisions with respect to the timing, manner and size of each sale. The sales may be made on one or more exchanges or otherwise, at prices and at terms then prevailing or at prices related to the then current market price, or in negotiated transactions. The Selling Shareholders may effect such transactions by selling the shares to or through broker-dealers or directly to purchasers (in the event of a private sale). The shares may be sold by one or more of, or a combination of, the following:

- o a block trade in which the broker-dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- o purchases by a broker-dealer as principal and resale by such broker-dealer for its account pursuant to this prospectus;
 - o ordinary brokerage transactions and transactions in which the broker solicits purchasers; and
 - o in privately negotiated transactions.

Certain Selling Shareholders may enter into hedging transactions with broker-dealers in connection with distributions of the shares or otherwise. In such transactions, broker-dealers may engage in short sales of the shares in the course of hedging the positions they assume with certain Selling Shareholders. Certain Selling Shareholders may also sell the shares short and redeliver the shares to close out such short positions. Such Selling Shareholders may enter into option or other transactions with broker-dealers which require the delivery to the broker-dealer of the shares. The broker-dealer may then resell or otherwise transfer such shares pursuant to this prospectus.

Certain Selling Shareholders also may loan or pledge the shares to a broker-dealer. The broker-dealer may sell the shares so loaned, or upon a default the broker-dealer may sell the pledged shares, pursuant to this prospectus.

Broker-dealers or agents may receive compensation in the form of commissions, discounts or concessions from Selling Shareholders. Broker-dealers or agents may also receive compensation from the purchasers of the shares for whom they act as agents or to whom they sell as principals, or both. In such cases, usual and customary brokerage fees will be paid by the Selling Shareholders. Broker-dealers or agents and any other participating broker-dealers or the Selling Shareholders may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act in connection with sales of the shares. Accordingly, any such commission, discount or concession received by them and any profit on the resale of the shares purchased by them may be deemed to be underwriting discounts or commissions under the Securities Act. Because Selling Shareholders may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act, the Selling Shareholders will be subject to the prospectus delivery requirements of the Securities Act. In addition, any securities covered by this prospectus which qualify for sale pursuant to Rule 144 promulgated under the Securities Act may be sold under Rule 144 rather than pursuant to this prospectus. There is no underwriter or coordinating broker acting in connection with the proposed sale of the shares by the Selling

Shareholders.

We will bear all costs, expenses and fees in connection with the registration of the shares. The Selling Shareholders will bear all commissions and discounts, if any, attributable to the sales of the shares. The Selling Shareholders may agree to indemnify any broker-dealer or agent that participates in transactions involving sales of the shares against certain liabilities, including liabilities arising under the Securities Act.

Section 6.13 of the Business Corporation Act of Liberia provides as follows:

"1. **Actions not by or in right of the corporation.** A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that he is or was a director or officer of the corporation, or is or was serving at the request of the corporation as a director or officer of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of no contest, or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

"2. **Actions by or in right of the corporation.** A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure judgment in its favor by reason of the fact that he is or was a director or officer of the corporation, is or was serving at the request of the corporation as a director or officer of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by him or in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of his duty to the corporation unless and only to the extent that the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the court shall deem proper.

"3. **When director or officer successful.** To the extent that a director or officer of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in paragraphs 1 or 2, or in the defense of a claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith.

"4 **Payment of expenses in advance.** Expenses incurred in defending a civil or criminal action, suit or proceeding may be paid in advance of the final disposition of such action, suit or proceeding as authorized by the board of directors in the specific case upon receipt of an undertaking by or on behalf of the director or officer to repay such amount if it shall ultimately be determined that he is not entitled to be indemnified by the corporation as authorized in this section.

"5. **Insurance.** A corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a director or officer of the corporation or is or was serving at the request of the corporation as a director or officer against any liability asserted against him and incurred by him in such capacity whether or not the corporation would have the power to indemnify him against such liability under the provisions of this section."

"6. **Other rights of indemnification unaffected.** The indemnification and advancement of expenses provided by, or granted pursuant to, this section shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of shareholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another

capacity while holding such office.

"7. **Continuation of indemnification.** The indemnification and advancement of expenses provided by, or granted pursuant to, this section shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administration of such persons."

ITEM 9. UNDERTAKINGS

(1) The Registrant hereby undertakes:

(a) To file, during any period in which offers or sales are being made, a post-effective amendment to this Registration Statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement;

provided, however, that paragraphs (1)(a)(i) and (1)(a)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed by the Registrant pursuant to

Section 13 or Section 15(d) of the Exchange Act that are incorporated by reference in the Registration Statement.

(c) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(2) The Registrant hereby undertakes that, for the purpose of determining any liability under the Securities Act, each filing of MC Shipping Inc.'s annual report pursuant to Section 13(a) or 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the Registration Statement shall be deemed to be a new registration statement relating to the securities offered therein and the offering of such securities at the time shall be deemed to be the initial bona fide offering thereof.

(3) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the above-mentioned provisions, or otherwise, the Registrant has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.
