PARADIGM MEDICAL INDUSTRIES, INC.
NOTES TO FINANCIAL STATEMENTS
(UNAUDITED)

Significant Accounting Policies

The accompanying condensed financial statements of the Company have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations. These condensed financial statements reflect all adjustments (consisting only of normal recurring adjustments) that, in the opinion of management, are necessary to present fairly the results of operations of the Company for the periods presented. These condensed financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Form 10-KSB for the year ended December 31, 2004. The results of operations for the nine months ended September 30, 2005, are not necessarily indicative of the results that may be expected for the fiscal year ending December 31, 2005.

Going Concern

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Historically, the Company has not demonstrated the ability to generate sufficient cash flows from operations to satisfy its liabilities and sustain operations, and the Company has incurred significant losses. These factors raise substantial doubt about the Company's ability to continue as a going concern.

The Company's continuation as a going concern is dependent on its ability to generate sufficient income and cash flow to meet its obligations on a timely basis and/or obtain additional financing as may be required. The Company is actively seeking options to obtain additional capital and financing.

In addition, the Company has taken significant steps to reduce costs and increase operating efficiencies. Specifically, the Company has significantly reduced the use of consultants, which has resulted in a large decrease in expenses. In addition, the Company has reduced the number of its direct sales representatives, which has resulted in less payroll, travel and other expenses. Although these cost savings have significantly reduced the Company's losses and ongoing cash flow needs, if the Company is unable to obtain equity or debt financing, it may be unable to continue development of its products and may be required to substantially curtail or cease operations.

5

Net Loss Per Share

Net loss per common share is computed on the weighted average number of common and common equivalent shares outstanding during each period. Common stock equivalents consist of convertible preferred stock, common stock options and warrants. Common equivalent shares are excluded from the computation when their effect is anti-dilutive. Other common stock equivalents consisting of options and warrants to purchase 25,295,000 and 5,879,000 shares of common stock and preferred stock convertible into 2,047,000 and 2,302,000 shares of common stock at September 30, 2005 and 2004, respectively, have not been included in loss periods because they are anti-dilutive.

For the nine months ended September 30, 2005, the options and warrants to purchase 25,295,000 shares of common stock were excluded because of the treasury stock method.

The following table is a reconciliation of the net loss numerator of basic and diluted net loss per common share for the three and nine month periods ended September 30, 2005 and September 30, 2004:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2005	2004	2005	2004
Basic weighted average shares outstanding	38,884,000	25,373,000	31,472,000	25,373,000
Common stock equivalents -				

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

convertible preferred stock	2,047,000	2,302,000	-	-
Diluted weighted average shares outstanding	40,931,000	27,675,000	31,472,000	25,373,000

Convertible Notes

To obtain funding for the Company's ongoing operations, the Company entered into a securities purchase agreement with four accredited investors on April 27, 2005 for the sale of (i) \$2,500,000 in callable secured convertible notes and (ii) warrants to purchase 16,534,392 shares of its common stock. The sale of the callable secured convertible notes and warrants is to occur in three tranches and the investors are obligated to provide the Company with an aggregate of \$2,500,000 as follows:

- \$850,000 was disbursed on April 27, 2005;
- \$800,000 was disbursed on June 23, 2005 after filing a registration statement on June 22, 2005, which covered the shares of common stock underlying the callable secured convertible notes and the warrants; and
- \$850,000 was disbursed on June 30, 2005, upon the effectiveness of the registration statement on June 29, 2005, which covered the shares of common stock underlying the callable secured convertible notes and the warrants.

6

Each closing under the securities purchase agreement was subject to the following conditions:

- The Company delivered to the investors duly executed callable secured convertible notes and warrants;
- No litigation, statute, regulation or order had been commenced, enacted or entered by or in any court, governmental authority or any self-regulatory organization that prohibits consummation of the transactions contemplated by the securities purchase agreement; and
- No event occurred that could reasonably be expected to have a material adverse effect on the Company's business.

The Company also agreed not, without the prior written consent of a majority-in-interest of the investors, to negotiate or contract with any party to obtain additional equity financing (including debt financing with an equity component) that involves (i) the issuance of common stock at a discount to the market price of the common stock on the date of issuance (taking into account the value of any warrants or options to acquire common stock in connection therewith), (ii) the issuance of convertible securities that are convertible into an indeterminate number of shares of common stock, or (iii) the issuance of warrants during the lock-up period beginning April 27, 2005 and ending on the later of (a) 270 days from April 27, 2005, or (b) 180 days from the date the registration statement is declared effective.

In addition, the Company agreed not to conduct any equity financing (including debt financing with an equity component) during the period

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

beginning April 27, 2005 and ending two years after the end of the above lock-up period unless it first provided each investor an option to purchase its pro-rata share (based on the ratio of each investor's purchase under the Securities Purchase Agreement) of the securities being offered in any proposed equity financing. Each investor must be provided written notice describing any proposed equity financing at least 20 business days prior to the closing of such proposed equity financing and the option must be extended to each investor during the 15-day period following delivery of such notice.

The callable secured convertible notes bear interest at 8% per annum from the date of issuance. Interest is computed on the basis of a 365-day year and is payable quarterly in cash, with six months of interest payable up front. The interest rate resets to zero percent for any month in which the stock price is greater than 125% of the initial market price, or \$.0945, for each trading day during that month. Any amount of principal or interest on the callable secured convertible notes that is not paid when due will bear interest at the rate of 15% per annum from the date due thereof until such amount is paid. The callable secured convertible notes mature in three years from the date of issuance, and are convertible into our common stock at the selling stockholders' option, at the lower of (i) \$.09 or (ii) 60% of the average of the three lowest intraday trading prices for the common stock on the OTC Bulletin Board for the 20 trading days before but not including the conversion date. Accordingly, there is no limit on the number of shares into which the notes may be converted.

7

The callable secured convertible notes are secured by the Company's assets, including the Company's inventory, accounts receivable and intellectual property. Moreover, the Company has a call option under the terms of the notes. The call option provides the Company with the right to prepay all of the outstanding callable secured convertible notes at any time, provided there is no event of default by the Company and the Company's stock is trading at or below \$.09 per share. An event of default includes the failure by the Company to pay the principal or interest on the callable secured convertible notes when due or to timely file a registration statement as required by the Company or obtain effectiveness with the Securities and Exchange Commission of the registration statement. Prepayment of the callable secured convertible notes is to be made in cash equal to either (a) 125% of the outstanding principal and accrued interest for prepayments occurring within 30 days following the issue date of the notes; (b) 130% of the outstanding principal and accrued interest for prepayments occurring between 31 and 60 days following the issue date of the notes; or (c) 145% of the outstanding principal and accrued interest for prepayments occurring after the 60th day following the issue date of the notes.

The warrants are exercisable until five years from the date of issuance at a purchase price of \$.20 per share. The investors may exercise the warrants on a cashless basis if the shares of common stock underlying the warrants are not then registered pursuant to an effective registration statement. In the event the investors exercise the warrants on a cashless basis, then the Company will not receive any proceeds therefrom. In addition, the exercise price of the warrants will be adjusted in the event the Company issues common stock at a price below market, with the exception of any securities issued as of the date of the warrants or issued in connection with the callable secured convertible notes issued pursuant to the Securities Purchase Agreement.

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

The selling stockholders have agreed to restrict their ability to convert their callable secured convertible notes or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of common stock. However, the selling stockholders may repeatedly sell shares of common stock in order to reduce their ownership percentage, and subsequently convert additional callable secured convertible notes.

The Company is required to register the shares of its common stock issuable upon the conversion of the callable secured convertible notes and the exercise of the warrants. The registration statement must be filed with the Securities and Exchange Commission within 60 days of the April 27, 2005 closing date and the effectiveness of the registration is to be within 135 days of such closing date. Penalties of 2% of the outstanding principal balance of the callable secured convertible notes plus accrued interest are to be applied for each month the registration is not effective within the required time. The penalty may be paid in cash or stock at our option. The Company filed a registration statement with the Securities and Exchange Commission on June 22, 2005 to register the shares of common stock issuable upon the conversion of the callable secured convertible notes and the exercise of the warrants. The registration statement was declared effective on June 29, 2005.

As of June 30, 2005, the average of the three lowest intraday trading prices of the Company's common stock during the preceding 20 trading days as reported on the OTC Bulletin Board was \$.05 and, therefore, the conversion price for the callable secured convertible notes was \$.03. Based on this conversion price, the \$2,500,000 callable secured convertible notes, excluding interest, were convertible into 83,333,333 shares of the Company's common stock. As of June 30, 2005, none of the callable secured convertible notes had been converted.

Since June 30, 2005, a total of \$401,509 in callable secured convertible notes have been converted into 45,320,000 shares of the Company's common stock pursuant to notices of conversion from The NIR Group. The dates of these notices of conversion, the amount of the notes converted, the conversion price of the notes converted, and the shares issued to the noteholders upon conversion were as follows:

8

Date of Notice of Conversion	Amount of Notes Converted	Conversion Price of Notes	Shares Issued to Noteholders Upon Conversion

Preferred Stock Conversions

Under the Company's Certificate of Incorporation, holders of the Company's Class A and Class B preferred stock have the right to convert such stock into shares of the Company's common stock at the rate of 1.2 shares of common stock for each share of preferred stock. During the nine months ended September 30, 2005, no shares of Series A preferred stock and no shares of Series B preferred stock were converted to the Company's common stock.

Holders of Series D preferred have the right to convert such stock into shares of the Company's common stock at the rate of one share of common stock for each share of preferred stock. During the nine months ended September 30, 2005, no shares of Series D preferred stock were converted to the Company's common stock.

Holders of Series E preferred have the right to convert such stock into shares of the Company's common stock at the rate of 53.3 shares of common stock for each share of preferred stock. During the nine months ended September 30, 2005, no shares of Series E preferred stock were converted to the Company's common stock.

Holders of Series F preferred have the right to convert such stock into shares of the Company's common stock at the rate of 53.3 shares of common stock for each share of preferred stock. During the nine months ended September 30, 2005, no shares of Series F preferred stock were converted to shares of the Company's common stock.

Holders of Series G preferred have the right to convert such stock into shares of the Company's common stock at the rate of one share of common stock for each share of preferred stock. During the nine months ended September 30, 2005, no shares of Series G preferred stock were converted to shares of the Company's common stock.

Warrants

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

The fair value of warrants granted as described herein is estimated at the date of grant using the Black-Scholes option pricing model. The exercise price per share is reflective of the then current market value of the stock. No grant exercise price was established at a discount to market. All warrants are fully vested, exercisable and nonforfeitable as of the grant date. As a result of the financing the Company completed on April 27, 2005 involving the sale of 2,500,000 in callable secured convertible notes, the Company granted warrants to purchase 16,534,392 shares of its common stock. The warrants have an exercise price of \$.20 per share and expire on April 7, 2010.

Stock - Based Compensation

For stock options and warrants granted to employees, the Company employs the footnote disclosure provisions of Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation. SFAS No. 123 encourages entities to adopt a fair-value based method of accounting for stock options or similar equity instruments. However, it also allows an entity to continue measuring compensation cost for stock-based compensation using the intrinsic-value method of accounting prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees (APB 25). The Company has elected to continue to apply the provisions of APB 25 and provide pro forma footnote disclosures required by SFAS No. 123. No stock-based employee compensation cost is reflected in net income, as all options granted under those plans had an exercise price equal to or greater than the market value of the underlying common stock on the date of grant.

Stock options and warrants granted to non-employees for services are accounted for in accordance with SFAS 123 which requires expense recognition based on the fair value of the options/warrants granted. The Company calculates the fair value of options and warrants granted by use of the Black-Scholes pricing model. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value recognition provisions of FASB Statement No. 123, "Accounting for Stock-Based Compensation," to stock-based employee compensation.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2005	2004	2005	2004
	-----	-----	-----	-----
Net income (loss) - as reported	\$ (362,000)	\$ 481,000	\$ (3,966,000)	\$ 187,000
Deduct: total stock-based employee compensation determined under fair value based method for all awards, net of related tax effects	(573,000)	(109,000)	(675,000)	(210,000)
Net loss - pro forma	\$ (971,000)	\$ 372,000	\$ (4,641,000)	\$ (23,000)
	=====	=====	=====	=====
Earnings per share:				
Basic and diluted - as reported	\$ (0.01)	\$ (0.02)	\$ (0.13)	\$ 0.01
Basic and diluted - pro forma	\$ (0.03)	\$ (0.00)	\$ (0.16)	\$ (0.00)

Related Party Transactions

Payments for legal services to the firm of which the Company's chairman of the board of directors is a partner were approximately \$10,000 and \$55,000 for the three months ended September 30, 2005 and 2004, respectively.

Accrued Expenses

Accrued expenses consist of the following at September 30, 2005:

Accrued consulting and litigation reserve	\$	461,000
Accrued payroll and employee benefits		43,000
Sales taxes payable		11,000
Customer deposits		16,000
Deferred revenue		1,000
Warranty and return allowance		92,000
Other accrued expenses		67,000

Total	\$	691,000
		=====

Stockholders' Equity

On January 14, 2005, the Company issued 2,000,000 shares of common stock to an accredited investor through a private placement at a price of \$0.75 per share. The Company received a total of \$150,000 in cash from the private placement transaction and issued as a commission warrants to purchase 200,000 shares of the Company's common stock at \$.15 per share.

On February 1, 2005, the Company issued a total of 515,206 shares of common stock to two accredited investors that had purchased shares of the Company's Series G convertible preferred stock in a private placement transaction. Under the terms of the private offering, the Company was required to file a registration statement with the Securities and Exchange Commission to register the common shares issuable to the Series G preferred stockholders upon conversion of their Series G preferred shares and exercise of their warrants. The 515,206 shares represented a penalty for the Company not having a registration statement declared effective within 120 days of the initial closing of the offering. The value of these shares was \$52,000.

On April 7, 2005, the Company issued 250,000 registered shares of common stock to the law firm of Mackey Price Thompson & Ostler in payment of legal services that the law firm provided to the Company in the amount of \$22,500.

Amendment to Certificate of Incorporation

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

At the annual meeting of shareholders held on August 12, 2005, the shareholders approved an amendment to the Company's certificate of incorporation to increase the number of authorized shares of common stock from 80,000,000 shares to 250,000,000 shares.

11

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

This report contains forward-looking statements and information relating to the Company that is based on beliefs of management as well as assumptions made by, and information currently available to management. These statements reflect its current view respecting future events and are subject to risks, uncertainties and assumptions, including the risks and uncertainties noted throughout the document. Although the Company has attempted to identify important factors that could cause the actual results to differ materially, there may be other factors that cause the forward-looking statements not to come true as anticipated, believed, projected, expected or intended. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may differ materially from those described herein as anticipated, believed, projected, estimated, expected or intended.

CRITICAL ACCOUNTING POLICIES

REVENUE RECOGNITION. The Company recognizes revenue in compliance with Staff Accounting Bulletin 101, Revenue Recognition in Financial Statements (SAB 101), as revised by Staff Accounting Bulletin No. 104, Revenue Recognition (SAB 104). SAB 101 and SAB 104 detail four criteria that must exist before revenue is recognized:

1. Persuasive evidence of an arrangement exists. Prior to shipment of product, the Company required a signed purchase order and, depending upon the customer, a down payment toward the final invoiced price or full payment in advance with certain international product distributors.

2. Delivery and performance have occurred. Unless the purchase order requires specific installation or customer acceptance, the Company recognizes revenue when the product ships. If the purchase order requires specific installation or customer acceptance, the Company recognizes revenue when such installation or acceptance has occurred. Title to the product passes to its customer upon shipment. This revenue recognition policy does not differ among its various different product lines. The Company guarantees the functionality of its product. If its product does not function as marketed when received by the customer, the Company either makes the necessary repairs on site or has the product shipped to the Company for the repair work. Once the product has been repaired and retested for functionality, it is re-shipped to the customer. The Company provides warranties that generally extend for one year from the date of sale. Such warranties cover the necessary parts and labor to repair the product as well as any shipping costs that may be required. The Company maintains a reserve for estimated warranty costs based on its historical experience and management's current expectations.

3. The sales price is fixed or determinable. The purchase order received from the customer includes the agreed-upon sales price. The Company does not accept customer orders, and therefore does not recognize revenue, until the sales price is fixed.

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

4. Collectibility is reasonably assured. With limited exceptions, the Company requires down payments on product prior to shipment. In some cases the Company requires payment in full prior to shipment. The Company also performs credit checks on new customers and ongoing credit checks on existing customers. The Company maintains an allowance for doubtful accounts receivable based on historical experience and management's current expectations.

12

RECOVERABILITY OF INVENTORY. Since its inception, the Company has purchased several complete lines of inventory. In some circumstances the Company has been able to utilize certain items acquired and others remain unused. On a quarterly basis, the Company attempts to identify inventory items that have shown relatively no movement or very slow movement. Generally, if an item has shown little or no movement for over a year, it is determined not to be recoverable and a reserve is established for that item. In addition, if the Company identifies products that have become obsolete due to product upgrades or enhancements, a reserve is established for such products. The Company intends to make efforts to sell these items at significantly discounted prices. If items are sold, the cash received would be recorded as revenue, but there would be no cost of sales on such items due to the reserve that has been recorded. At the time of sale, the inventory would be reduced for the item sold and the corresponding inventory reserve would also be reduced.

RECOVERABILITY OF GOODWILL AND OTHER INTANGIBLE ASSETS. The Company's intangible assets consist of goodwill, product and technology rights, engineering and design costs, and patent costs. Intangibles with a determined life are amortized on a straight-line basis over their determined useful life and are also evaluated for potential impairment if events or circumstances indicate that the carrying amount may not be recoverable. Intangibles with an indefinite life, such as goodwill, are not amortized but are tested for impairment on an annual basis or when events and circumstances indicate that the asset may be impaired. Impairment tests include comparing the fair value of a reporting unit with its carrying net book value, including goodwill. To date, the Company's determination of the fair value of the reporting unit has been based on the estimated future cash flows of that reporting unit.

ALLOWANCE FOR DOUBTFUL ACCOUNTS. The Company records an allowance for doubtful accounts to offset estimated uncollectible accounts receivable. Bad debt expense associated with the increases in the allowance for doubtful accounts is recorded as part of general and administrative expense. The Company's accounting policy generally is to record an allowance for receivables over 90 days past due unless there is significant evidence to support that the receivable is collectible.

GENERAL

The following Management's Discussion and Analysis of Financial Condition and Results of Operations, contains forward-looking statements, which involve risks and uncertainty. The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors discussed in this section. The Company's fiscal year is from January 1 through December 31.

The Company is engaged in the design, development, manufacture and sale of high technology diagnostic and surgical eye care products. Given

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

the "going concern" status of the Company, management has focused efforts on those products and activities that will, in its opinion, achieve the most resource efficient short-term cash flow. As seen in the results for the three months ended September 30, 2005, diagnostic products have been the major focus and the Photon and other extensive research and development projects have been put on hold pending future evaluation when the Company's financial position improves. The Company does not focus on a specific diagnostic product or products but, instead, on the entire diagnostic product group.

RESULTS OF OPERATIONS

THREE MONTHS ENDED SEPTEMBER 30, 2005, COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2004

Net sales for the three months ended September 30, 2005 decreased by \$349,000, or 39%, to \$550,000 as compared to \$899,000 for the same period of 2004. This reduction in sales was primarily due to decreased sales of the Blood Flow Analyzer and a softening of sales of the older A Scan and A/B Scan units as well as Dicon perimeters and corneal topographers.

For the three months ended September 30, 2005, sales from the Company's diagnostic products totaled \$600,000, or 109% of total revenues, compared to \$832,000, or 93% of total revenues for the same period of 2004. These sales were offset by credits that exceeded by \$50,000 the combined amount of revenues from parts, disposables, and service during the three months ended September 30, 2005.

Sales of the P40, P45 and new P60 UBM Ultrasound Biomicroscopes increased to \$419,000 during the second quarter of 2005, or 76% of total quarterly revenues for the period, compared to \$373,000, or 41% of total revenues, for the same period last year. Sales of the Blood Flow Analyzer decreased by \$170,000 to \$14,000, or 3% of total revenues, for the three months ended September 30, 2005, compared to net sales of \$184,000, or 20% of total revenues during the same period in 2004. Sales from the P37 A/B Scan Ocular Ultrasound Diagnostic decreased to \$48,000, or 9% of total revenues, for the three month period ended September 30, 2005, down compared to \$98,000, or 11% of total revenues, for the same period last year. Combined sales of the LD 400 and TKS 5000 Autoperimeters and the 200 Corneal Topographer were \$119,000, or 22% of the total revenues, for the three months ended September 30, 2005, compared to \$178,000, or 20% of total revenues, for the same period of 2004.

13

Sales have been lower for the Company due to an industry slow down. Additionally, sales of the Blood Flow Analyzer decreased due in part from the reorganization of the Company's sales force. The Company anticipates reversing the downward trend in sales through the addition of independent sales representatives, concentrated marketing of the new P60 UBM and other product innovations.

For the three months ended September 30, 2005, gross profit decreased slightly by 4%, to 56% of total revenues, compared to the 60% of total revenues for the comparable period of 2004.

Marketing and selling expenses decreased by approximately \$55,000, or 28%, to \$143,000, for the three months ended September 30 2005, from \$198,000 for the comparable period in 2004. The reduction was due

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

primarily to a reduced number of sales representatives and lower travel related and associated sales expenses and a shift to more independent representatives.

General and administrative expenses increased by \$36,000, or 13%, to \$312,000 for the three months ended September 30, 2005, from \$276,000 for the comparable period in 2004. The expense of the shareholders meeting held on August 12, 2005 was largely responsible for the increase.

Research, development and service expenses increased \$48,000, or 29%, for the three months ended September 30, 2005 to \$211,000, compared to \$163,000 recorded in the same period of 2004. Much of the increase was from the additional development work associated with the P60 and other product line improvements in process.

NINE MONTHS ENDED SEPTEMBER 30, 2005, COMPARED TO NINE MONTHS ENDED SEPTEMBER 30, 2004

Net sales for the nine months ended September 30, 2005 decreased by \$325,000, or 14%, to \$1,963,000 as compared to \$2,288,000 for the same period of 2004. This reduction in sales was primarily due to reduced sales of the Blood Flow Analyzer (trademark symbol) and a softening of sales of the Dicon (trademark symbol) perimeters and corneal topographers.

For the nine months ended September 30, 2005, sales from the Company's diagnostic products totaled \$1,771,000, or 90% of total revenues, compared to \$2,084,000, or 91% of total revenues for the same period of 2004. The remaining 10% of sales, or \$186,000 during the nine months ended September 30, 2005 was from parts, disposables, and service revenue.

Sales of the P40, P45 and P60 UBM Ultrasound Biomicroscopes increased to \$1,096,000 during the nine months ended September 30, 2005, or 56% of total quarterly revenues for the period, compared to \$639,000, or 28% of total revenues, for the same period last year. Sales of the Blood Flow Analyzer (trademark symbol) decreased by \$399,000 to \$76,000, or 4% of total revenues, for the nine months ended September 30, 2005, compared to net sales of \$475,000, or 21% of total revenues during the same period in 2004. Sales from the P37 A/B Scan Ocular Ultrasound Diagnostic decreased to \$128,000, or 7% of total revenues, for the nine month period ended September 30, 2005, down compared to \$229,000, or 10% of total revenues, for the same period last year. Combined sales of the LD 400 and TKS 5000 Autoperimeters and the 200 Corneal Topographer were \$471,000, or 24% of the total revenues, for the nine months ended September 30, 2005, compared to \$741,000, or 32% of total revenues, for the same period of 2004.

Sales have been lower for the Company due to a variety of reasons. Sales of the Blood Flow Analyzer (trademark symbol) decreased due in part from the reorganization of the Company's sales force. The Company anticipates reversing the downward trend in sales through additional efforts by the Company to gain more widespread support for the Blood Flow Analyzer (trademark symbol) through increased clinical awareness, product development and improved marketing plans.

For the nine months ended September 30, 2005, gross profit decreased by 10%, to 52% of total revenues, compared to the 62% of total revenues for the comparable period of 2004.

Marketing and selling expenses decreased by \$38,000, or 7%, to \$509,000, for the nine months ended September 30 2005, from \$547,000 for the comparable period in 2004. The reduction was due primarily to a reduced number of sales representatives and lower travel related and associated sales expenses.

General and administrative expenses decreased by \$47,000, or 5%, to \$964,000 for the nine months ended September 30, 2005, from \$1,011,000 for the comparable period in 2004. The general and administrative expense savings reflected the on-going results of the Company's cost reduction program and more aggressive budget management procedures implemented in the first nine months of 2005.

In addition, during the first quarter of 2005, the Company issued 515,206 shares of common stock to two shareholders that had purchased shares of the Company's Series G convertible preferred stock in a private offering. Under the terms of the private offering, the Company was required to file a registration statement with the Securities and Exchange Commission for the purpose of registering the common shares issuable to the Series G preferred stockholders upon conversion of their Series G preferred shares and exercise of their warrants. The shares were issued as a penalty for the Company not having a registration statement declared effective within 120 days of the initial closing of the private offering.

Research, development and service expenses increased by \$128,000, or 24%, to \$671,000 for the nine months ended September 30, 2005, compared to \$543,000 in the same period of 2004. Much of the increase was due to the development and regulatory requirements in releasing the new P60 UBM.

LIQUIDITY AND CAPITAL RESOURCES

The Company used \$2,491,000 in cash in operating activities for the nine months ended September 30, 2005, compared to \$92,000 for the nine months ended September 30, 2004. The increase in cash used for operating activities for the nine months ended September 30, 2005 was primarily attributable to the Company's net loss and decreases in accounts payable and accrued liabilities and an increase in inventory, specifically for the P60. Net cash provided in financing activities was \$2,609,000 for the nine months ended September 30, 2005, versus cash used of \$42,000 in the same period in 2004. The Company had working capital of \$1,221,000 as of September 30, 2005. In January 2005, the Company sold 2,000,000 shares of its common stock to an accredited investor for \$150,000 in cash. In the past, the Company has relied heavily upon sales of the Company's common and preferred stock to fund operations. There can be no assurance that such equity funding will be available on terms acceptable to the Company in the future.

As of September 30, 2005, the Company had net operating loss carry-forwards (NOLs) of approximately \$48 million. These loss carry-forwards are available to offset future taxable income, if any, and have begun to expire in 2001 and extend for twenty years. The Company's ability to use net operating loss carryforwards (NOLs) to offset future income is dependant upon certain limitations as a result of the pooling transaction with Vismed and the tax laws in effect at the time of the NOLs can be utilized. The Tax Reform Act of 1986 significantly limits the annual amount that can be utilized for certain of these carryforwards as a result of change of ownership.

As of September 30, 2005, the Company had accounts payable of \$530,000, a significant portion of which was over 90 days past due. The Company has contacted many of the vendors or companies that have significant amounts of payables past due in an effort to delay payment, renegotiate a reduced settlement payment, or establish a longer-term

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

payment plan. While some companies have been willing to renegotiate the outstanding amounts, others have demanded payment in full. Under certain conditions, including but not limited to judgments rendered against the Company in a court of law, a group of creditors could force the Company into bankruptcy due to its inability to pay the liabilities arising out of such judgments at that time. In addition to the accounts payable noted above, the Company also has non-cancelable capital lease obligations and operating lease obligations that require the payment of approximately \$194,000 in 2005, and \$14,000 in 2006.

15

The Company has taken numerous steps to reduce costs and increase operating efficiencies. These steps consist of the following:

1. The Company closed its San Diego facility. In so doing, numerous manufacturing, accounting and management responsibilities were consolidated. In addition, such closure resulted in significant headcount reductions as well as savings in rent and other overhead costs.

2. The Company has significantly reduced the use of consultants, which has resulted in a large decrease to these expenses.

3. The Company has reduced its direct sales force to five representatives, which has resulted in less payroll, travel and other selling expenses.

Because the Company has significantly fewer sales representatives, its ability to generate sales has been reduced.

The Company has taken measures to reduce the amount of uncollectible accounts receivable such as more thorough and stringent credit approval, improved training and instruction by sales personnel, and frequent direct communication with the customer subsequent to delivery of the system. The allowance for doubtful accounts was 2% of total outstanding receivables as of September 30, 2005 and 14% as of December 31, 2004. The allowance for doubtful accounts has decreased from \$101,000 at December 31, 2004 to \$20,000 at September 30, 2005. The reduction in the allowance for doubtful accounts was the result of the collection of no receivables previously allowed as part of the allowance for doubtful accounts and the write off of \$81,000 of receivables against the allowance. The downturn in the economy worldwide has resulted in increased difficulty in collecting certain accounts. Certain international dealers have some aged, unpaid invoices that have not been resolved. The Company has addressed its credit procedures and collection efforts and has instituted changes that require more payments at the time of sale through letters of credit and not on a credit term basis.

The Company intends to continue its efforts to reduce the allowance for doubtful accounts as a percentage of accounts receivable. The Company has ongoing efforts to collect a significant portion of the sales price in advance of the sale or in a timely manner after delivery. During the nine months ended September 30, 2005, the Company had a net recovery of no receivables previously allowed, and during the nine months ended September 30, 2005, the Company did not add to the allowance for doubtful accounts. The Company believes that by requiring a large portion of payment prior to shipment, it has greatly improved the collectibility of its receivables.

The Company carried an allowance for obsolete or estimated non-recoverable inventory of \$1,371,000 at September 30, 2005 and \$1,559,000 at

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

September 30, 2004, or approximately 51% and 69% of total inventory, respectively. The Company's means of expansion and development of product has been largely from acquisition of businesses, product lines, existing inventory, and the rights to specific products. Through such acquisitions, the Company has acquired substantial inventory, some of which the eventual use and recoverability was uncertain. In addition, the Company has a significant amount of inventory relating to the Photon laser system, which does not yet have FDA approval in order to sell the product domestically. Therefore, the allowance for inventory was established to reserve for these potential eventualities.

16

On a quarterly basis, the Company attempts to identify inventory items that have shown relatively no movement or very slow movement. Generally, if an item has shown little or no movement for over a year, it is determined not to be recoverable and a reserve is established for that item. In addition, if the Company identifies products that have become obsolete due to product upgrades or enhancements, a reserve is established for such products. The Company intends to make efforts to sell these items at significantly discounted prices. If items are sold, the cash received would be recorded as revenue, but there would be no cost of sales on such items due to the reserve that has been recorded. At the time of sale, the inventory would be reduced for the item sold and the corresponding inventory reserve would also be reduced.

At this time, the Company's Photon (trademark symbol) Laser Ocular Surgery Workstation requires regulatory FDA approval in order to be sold in the United States. Any possible future efforts to complete the clinical trials on the Photon (trademark symbol) in order to file for FDA approval would depend on the Company obtaining adequate funding. The Company estimates that the funds needed to complete the clinical trials in order to obtain the necessary regulatory approval on the Photon (trademark symbol) to be approximately \$225,000.

EFFECT OF INFLATION AND FOREIGN CURRENCY EXCHANGE

The Company has not realized a reduction in the selling price of its products as a result of domestic inflation. Nor has it experienced unfavorable profit reductions due to currency exchange fluctuations or inflation with its foreign customers. All sales transactions to date have been denominated in U.S. dollars.

IMPACT OF NEW ACCOUNTING PRONOUNCEMENTS

In December 2003, the FASB issued Interpretation No. 46 ("FIN 46R") (revised December 2003), CONSOLIDATION OF VARIABLE INTEREST ENTITIES, AN INTERPRETATION OF ACCOUNTING RESEARCH BULLETIN NO. 51 ("ARB 51"), which addresses how a business enterprise should evaluate whether it has a controlling interest in an entity through means other than voting rights and, accordingly, should consolidate the entity. FIN 46R replaces FASB Interpretation No. 46 (FIN 46), which was issued in January 2003. Before concluding that it is appropriate to apply ARB 51 voting interest consolidation model to an entity, an enterprise must first determine that the entity is not a variable interest entity (VIE). As of the effective date of FIN 46R, an enterprise must evaluate its involvement with all entities or legal structures created before February 1, 2003, to determine whether consolidation requirements of FIN 46R apply to those entities.

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

There is no grandfathering of existing entities. Public companies must apply either FIN 46 or FIN 46R immediately to entities created after January 31, 2003 and no later than the end of the first reporting period that ends after December 15, 2004. The adoption of FIN 46 had no effect on the Company's consolidated financial position, results of operations or cash flows.

In November 2004, the FASB issued SFAS 151 "Inventory Costs an amendment of ARB No. 43." This statement amends the guidance in ARB No. 43, Chapter 4, "Inventory Pricing," to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). Paragraph 5 of ARB 43, Chapter 4, previously stated that "[u]nder some circumstances, items such as idle facility expense, excessive spoilage, double freight, and re-handling costs may be so abnormal as to require treatment as current period charges. . . ." This statement requires that those items be recognized as current-period charges regardless of whether they meet the criterion of "so abnormal." In addition, this statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The provisions of this statement shall be effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The Company does not believe adoption of SFAS 151 will have any impact on the Company's consolidated financial statements.

17

In December 2004, FASB issued SFAS 153 "Exchanges of Nonmonetary Assets an amendment of APB Opinion No. 29." The guidance in APB Opinion No. 29, Accounting for Nonmonetary Transactions, is based on the principle that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged. The guidance in that opinion, however, included certain exceptions to that principle. This statement amends Opinion 29 to eliminate the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. The Company does not believe adoption of SFAS 153 will have any impact on the Company's consolidated financial statements.

In December 2004, the FASB issued FASB Statement No. 123 (revised 2004), "Share-Based Payment." Statement No. 123 addresses the accounting for share-based payment transactions in which an enterprise receives employee services in exchange for (a) equity instruments of the enterprise or (b) liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. Statement 123 (Registered symbol) requires an entity to recognize the grant-date fair-value of stock options and other equity-based compensation issued to employees in the income statement. The revised statement generally requires that an entity account for those transactions using the fair-value-based method, and eliminates the intrinsic value method of accounting in APB Opinion No. 25, "Accounting for Stock Issued to Employees", which was permitted under Statement 123, as originally issued. The revised statement requires entities to disclose information about the nature of the share-based payment transactions and the effects of those transactions on the financial statements.

Statement No. 123 is effective for public companies that do not file as small business issuers as of the beginning of the first interim or

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

annual reporting period that begins after June 15, 2005. For public companies that file as small business issuers, Statement No. 123 is effective as of the beginning of the first interim or annual reporting period that begins after December 15, 2005 (i.e., the first quarter of 2006 for the Company). All public companies must use either the modified prospective or the modified retrospective transition method. Early adoption of this statement for interim or annual periods for which financial statements or interim reports have not been issued is encouraged. The Company believes that the adoption of this pronouncement may have a material impact on the Company's financial statements.

ITEM 3. CONTROLS AND PROCEDURES

- a) Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of the Company's management, including its principal executive officer and principal financial officer, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of September 30, 2005. Based on this evaluation, the Company's principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective and adequately designed to ensure that the information required to be disclosed by the Company in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in applicable rules and forms.

18

- b) Changes in internal controls over financial reporting.

During the three months ended September 30, 2005, there has been no change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

An action was brought against the Company in March 2000 by George Wiseman, a former employee, in the Third District Court of Salt Lake County, State of Utah. The complaint alleges that the Company owes Mr. Wiseman 6,370 shares of its common stock plus costs, attorney's fees and a wage penalty (equal to 1,960 additional shares of its common stock) pursuant to Utah law. The action is based upon an extension of a written employment agreement. The Company disputes the amount allegedly owed and intends to vigorously defend against the action.

An action was brought against the Company on September 11, 2000 by PhotoMed International, Inc. and Daniel M. Eichenbaum, M.D. in the Third District Court of Salt Lake County, State of Utah. The action involves an amount of royalties that are allegedly due and owing to PhotoMed International, Inc. and Dr. Eichenbaum under a license agreement dated July 7, 1993, with respect to the sale of certain equipment, plus costs and attorneys' fees. Certain discovery has taken place and the Company has paid

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

royalties of \$15,717, which the Company believes brings all payments current as of the date of last payment on January 7, 2005. The Company has been working with PhotoMed and Dr. Eichenbaum to ensure that the calculations have been correctly made on the royalties paid as well as the proper method of calculation for the future.

It is anticipated that once the parties can agree on the correct calculations on the royalties, the legal action will be dismissed. An issue in dispute concerning the method of calculating royalties is whether royalties should be paid on returned equipment. Since July 1, 2001, only one Photon laser system has been sold and no systems returned. Thus, the amount of royalties due, according to the Company's calculations, is \$981. The Company intends to make payment of this amount to Photomed and Dr. Eichenbaum and, as a result, to have the legal action dismissed. However, if the parties are unable to agree on a method for calculating royalties, there is a risk that PhotoMed and Dr. Eichenbaum might amend their complaint to request termination of the license agreement and, if successful, the Company would lose its right to manufacture and sell the Photon laser system.

An action was filed on June 20, 2003, in the Third Judicial District Court, Salt Lake County, State of Utah (Civil No. 030914195) by CitiCorp Vendor Finance, Inc., formerly known as Copelco Capital, Inc. The complaint claims that \$49,626 plus interest is due for the leasing of three copy machines that were delivered to the Company's Salt Lake City facilities on or about April of 2000. The action also seeks an award of attorney's fees and costs incurred in the collection. The Company filed an answer to the complaint disputing the amounts allegedly owed due to machine problems and a claimed understanding with the vendor. The Company returned two of the machines. The Company was engaged in settlement discussions with CitiCorp until counsel for CitiCorp withdrew from the case. New counsel for CitiCorp has been appointed and initial settlement discussions have taken place with the new counsel.

19

On August 3, 2003, a complaint was filed against the Company by Corinne Powell, a former employee, in the Third Judicial District Court, Salt Lake County, State of Utah (Civil No. 030918364). Defendants consist of the Company and Randall A. Mackey, Dr. David M. Silver and Keith D. Ignatz, directors of the Company. The complaint alleges that at the time the Company laid off Ms. Powell on March 25, 2003, she was owed \$2,030 for business expenses, \$11,063 for accrued vacation days, \$12,818 for unpaid commissions, the fair market value of 50,000 stock options exercisable at \$5.00 per share that she claims she was prevented from exercising, attorney's fees and a continuing wage penalty under Utah law. On March 29, 2005, the Company agreed to a settlement with Ms. Powell of her claims for unpaid business expenses, accrued vacation days, and unpaid commissions by agreeing to pay her the sum of \$13,000. The Company made payment to Ms. Powell for the agreed upon settlement amount.

On September 10, 2003, an action was filed against the Company by Larry Hicks in the Third Judicial District Court, Salt Lake County, State of Utah, (Civil No. 030922220), for payments due under a consulting agreement with us. The complaint claims that monthly payments of \$3,083 are due for the months of October 2002 to October 2003 under a consulting agreement and, if the agreement is terminated, for the sum of \$110,000 minus whatever the Company has paid Mr. Hicks prior to such termination, plus costs, attorney's fees and a wage penalty pursuant to Utah law. The

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

Company has filed an answer in which it denies any liability to Mr. Hicks. Formal discovery in the matter has commenced. The Company disputes the amount allegedly owed and intends to vigorously defend against such action.

On November 7, 2003, a complaint was filed against the Company by Todd Smith, a former employee, in the Third Judicial District Court, Salt Lake County, State of Utah (Civil No. 030924951 CN). Defendants consist of the Company and Randall Mackey, a director of the Company. The complaint alleges that while an employee of the Company, Mr. Smith was granted stock options to purchase 16,800 shares of common stock exercisable at \$5.00 per share. Mr. Smith claims unpaid wages in the amount of the fair market value of the stock options he claims he was prevented from exercising, attorney's fees, and a continuing wage penalty under Utah law. The Company believes the claims are without merit and intends to vigorously defend against such action.

On May 25, 2004, an action was brought against the Company by Jeffrey F. Poore, former President and Chief Executive Officer of the Company, in the Third Judicial District Court of Salt Lake County, State of Utah (Civil No. 040910875). The complaint alleges that the Company unlawfully terminated the written employment agreement between Mr. Poore and the Company. As a result, Mr. Poore demanded judgment against the Company for \$350,000, representing his annual salary for the two remaining years under the employment agreement, for money judgment based on the value of his benefits for the two remaining years under the employment agreement, including profit sharing plans, 401(k) and cafeteria plans, health, hospitalization, dental, disability and other insurance plans canceled by the Company, and for money judgment equal to the value of the stock options granted to him under the employment agreement. The Company disputes the amounts allegedly owed in the complaint and believes that there was a sufficient basis to terminate Mr. Poore's employment for cause under the terms of the employment agreement. Formal discovery is in process. A trial has been scheduled to begin on January 17, 2006. The Company intends to vigorously defend against the action.

On August 9, 2004, a third party complaint was brought against the Company by Wakefield Eye Center and Dr. Kenneth C. Westfield (collectively "Westfield"). The original action was brought by American Express Business Finance Corporation against Westfield on May 27, 2004 in the District Court, Clark County, State of Nevada (Civil No. A486307, Dept. No. XXI) concerning the financing of the purchase of a Blood Flow Analyzer involving Westfield Eye Center. The transaction took place during the latter half of 2001. Westfield takes the position that if there is liability of Westfield to American Express this liability is ultimately the Company's and the other third-party defendants. The amount being sought against Westfield by American Express in the original action includes the sum of \$29,766, together with interest and attorney's fees. The case was referred to arbitration and subsequently settled. Under the terms of settlement, the Company agreed to pay American Express Business Finance Corporation the sum of \$6,000 in order to be dismissed from the lawsuit.

On March 31, 2005, an action was filed against the Company by Joseph W. Spadafora in the United States District Court, District of Utah (Civil No. 2:05CV00278 TS). The complaint alleges that Dr. Spadafora was a clinical investigator in the study for the FDA involving the Company's Photon laser system where he performed numerous surgeries using the Photon. Dr. Spadafora contends that in meetings with Company personnel he

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

suggested ways in which the handpiece on the Photon could be improved. Dr. Spadafora further contends that on August 5, 1999, the Company filed a patent application for an improved handpiece with the United States Patent and Trademark Office but he was not named as one of the inventors or a co-inventor on the patent application.

On September 24, 2004, the Company was issued a patent entitled, "Laser Surgical Handpiece with Photon Trap." Because the Company did not list Dr. Spadafora as one of the inventors or a co-inventor on the patent, Dr. Spadafora is requesting in his complaint that a court order be entered declaring that he is the inventor or co-inventor of the patent and, as a result, is entitled to all or part of the royalties and profits that the Company earned or will earn from the sale of any product incorporating or using the improved handpiece, plus interest and attorney's fees. Formal discovery has commenced. The Company disputes the claims made by Dr. Spadafora and intends to vigorously defend against such action.

On August 23, 2005, the Third Judicial District Court for Salt Lake County, State of Utah entered a final judgment and order of dismissal with prejudice granting final approval of the settlement agreement that was executed on February 23, 2005 in the state court class action lawsuit, dismissing the lawsuit and all claims contained therein against the Company and its former executive officers, and enjoining the class members in the lawsuit from prosecuting the settled claims against the Company and its former executive officers. Following the entry of the final judgment and order of dismissal with prejudice in the lawsuit, there was a 30 day period to appeal the final judgment and order. The 30 day period is now lapsed and no appeal was made of the final judgment and order. Consequently, the final judgment and order is now non-appealable.

Under the terms of settlement of the state court class action lawsuit, U.S. Fire Insurance Company, which issued a Directors and Officers Liability and Company Reimbursement Policy to the Company for the period from July 10, 2002 to July 10, 2003, agreed to pay the sum of \$625,000 in cash to the class members that purchased shares of Series E convertible preferred stock on or about July 11, 2001. U.S. Fire paid the agreed upon sum of \$625,000 to the class members that purchased the Series E preferred shares as a condition of the settlement. The state court class action lawsuit was initially filed on October 14, 2003 by Albert Kinzinger, Jr., individually and on behalf of all others similarly situated, against the Company and its former executive officers in the Third District Court for Salt Lake County, State of Utah.

On August 26, 2005, the United States District Court for the District of Utah entered an order and final judgment granting final approval of the settlement agreement executed on February 23, 2005 in the federal court class action lawsuit and dismissing the complaint filed in the lawsuit with prejudice as against the Company and its former executive officers. In addition, the court permanently enjoined class members in the lawsuit and their successors and assigns from instituting any other actions against the Company and its former executive officers that had been or could have been asserted by the class members against the Company and its former executive officers in the federal court class action lawsuit. Following the entry of the order and final judgment in the lawsuit, there was a 30 day period to appeal the order and final judgment. The 30 day period is now lapsed and no appeal was made of the order and final judgment. Consequently, the order and final judgment is now non-appealable.

Under the terms of settlement of the federal court class action lawsuit, U.S. Fire agreed to pay the sum of \$1,507,500 in cash to the class members that purchased securities of the Company during the period between April 17, 2002 and November 4, 2002. U.S. Fire paid the agreed upon sum of

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

\$1,507,500 to the class members that purchased the common shares as a condition of the settlement. The federal court class action lawsuit was initially filed on May 14, 2003 by Richard Meyer, individually and on behalf of all others similarly situated, in the United States District Court for the District of Utah. The lawsuit was consolidated into a single action on June 28, 2004 with two other class action lawsuits -- the class action lawsuit filed by Michael Marone on June 2, 2003 and the class action lawsuit filed by Lidia Milian on July 11, 2003 against Paradigm Medical and its former executive officers in the same court. The consolidated action was captioned: In re: Paradigm Medical Industries Securities Litigation, with lead plaintiffs Rock Solid Investments of Miami, Inc., Brito & Brito Accounting, Inc. and Joseph Savanjo.

21

On October 12, 2005, the United States District Court of the District of Utah entered an order of dismissal with prejudice dismissing the complaint that Innovative Optics, Inc. and Barton Dietrich Investments, L.P. brought against the Company and its former executive officers. The lawsuit was initially filed on July 20, 2003 by Innovative Optics, Inc. and Barton Dietrich Investors, L.P. against the Company and its former executive officers. A written settlement agreement was executed on February 23, 2005 among the parties to the lawsuit and U.S. Fire. Under the terms of settlement, U.S. Fire agreed to pay the sum of \$367,500 in cash to Innovative Optics, Inc. and Barton Dietrich Investors, L.P. Payment of this amount was contingent, however, upon the courts in the federal and state class action lawsuits granting approval of the settlements reached in those respective actions, and such orders becoming final and non-appealable. The federal and state courts in the class action lawsuits have granted orders approving the settlements in those actions and such orders are now final and non-appealable. As a result, U.S. Fire paid the agreed upon sum of \$367,000 to Innovative Optics, Inc. and Barton Dietrich Investors, L.P. as a condition of the settlement.

The Company is not a party to any other material legal proceedings outside the ordinary course of its business or to any other legal proceedings, which, if adversely determined, would have a material adverse effect on its financial condition or results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

At the Annual Meeting of Shareholders held on August 12, 2005, the following matters were acted upon: (i) four directors consisting of Randall A. Mackey, Dr. David M. Silver, Keith D. Ignatz and John C. Pingree were elected to serve until the next annual shareholders meeting and until their respective successors are elected and qualified (for Randall A. Mackey, 18,949,242 votes were cast in favor of election, no votes were cast against election, and 180,368 abstentions; for Dr. David M. Silver, 18,949,242 votes were cast in favor of election, no votes were cast against election, and 180,368 abstentions; for Keith D. Ignatz, 18,949,242 votes were cast in favor of election, no votes were cast against election, and 180,368 abstentions; and for John C. Pingree, 18,949,242 votes were cast in favor

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

of election, no votes were cast against election, and 180,368 abstentions); (ii) the amendment to the Certificate of Incorporation to increase the number of authorized shares of common stock from 80,000,000 shares to 250,000,000 shares was approved (with 18,437,186 votes cast for approval, 646,854 votes against approval, and 52,250 abstentions); (iii) the amendment to the 1995 Stock Option Plan to authorize an additional 1,300,000 shares of common stock to be made available for issuance under the plan was approved (with 1,064,265 votes cast for approval, 697,498 votes against approval, and 51,950 abstentions); and (iv) the appointment of Chisholm, Bierwolf & Nilson as the Company's registered public independent accountants for the fiscal year ended December 31, 2005 was ratified (with 18,968,325 votes cast for appointment, 147,670 votes against appointment, and 62,524 abstentions).

22

ITEM 5. OTHER INFORMATION

CALLABLE SECURED CONVERTIBLE NOTES AND WARRANTS

To obtain funding for the Company's ongoing operations, the Company entered into a securities purchase agreement with four accredited investors on April 27, 2005 for the sale of (i) \$2,500,000 in callable secured convertible notes and (ii) warrants to purchase 16,534,392 shares of its common stock. The sale of the callable secured convertible notes and warrants is to occur in three tranches and the investors are obligated to provide the Company with an aggregate of \$2,500,000 as follows:

- 850,000 was disbursed on April 27, 2005;
- \$800,000 was disbursed on June 23, 2005 after filing a registration statement on June 22, 2005, which covered the shares of common stock underlying the callable secured convertible notes and the warrants; and
- \$850,000 was disbursed on June 30, 2005, upon the effectiveness of the registration statement on June 29, 2005, which covered the shares of common stock underlying the callable secured convertible notes and the warrants.

Each closing under the securities purchase agreement was subject to the following conditions:

- The Company delivered to the investors duly executed callable secured convertible notes and warrants;
- No litigation, statute, regulation or order had been commenced, enacted or entered by or in any court, governmental authority or any self-regulatory organization that prohibits consummation of the transactions contemplated by the securities purchase agreement; and
- No event occurred that could reasonably be expected to have a material adverse effect on the Company's business.

The Company also agreed not, without the prior written consent of a majority-in-interest of the investors, to negotiate or contract with any party to obtain additional equity financing (including debt financing with an equity component) that involves (i) the issuance of common stock at a discount to the market price of the common stock on the date of issuance (taking into account the value of any warrants or options to acquire common stock in connection therewith), (ii) the issuance of convertible securities that are convertible into an indeterminate number of shares of common

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

stock, or (iii) the issuance of warrants during the lock-up period beginning April 27, 2005 and ending on the later of (a) 270 days from April 27, 2005, or (b) 180 days from the date the registration statement is declared effective.

In addition, the Company agreed not to conduct any equity financing (including debt financing with an equity component) during the period beginning April 27, 2005 and ending two years after the end of the above lock-up period unless it first provided each investor an option to purchase its pro-rata share (based on the ratio of each investor's purchase under the Securities Purchase Agreement) of the securities being offered in any proposed equity financing. Each investor must be provided written notice describing any proposed equity financing at least 20 business days prior to the closing of such proposed equity financing and the option must be extended to each investor during the 15-day period following delivery of such notice.

23

The callable secured convertible notes bear interest at 8% per annum from the date of issuance. Interest is computed on the basis of a 365-day year and is payable quarterly in cash, with six months of interest payable up front. The interest rate resets to zero percent for any month in which the stock price is greater than 125% of the initial market price, or \$.0945, for each trading day during that month. Any amount of principal or interest on the callable secured convertible notes that is not paid when due will bear interest at the rate of 15% per annum from the date due thereof until such amount is paid. The callable secured convertible notes mature in three years from the date of issuance, and are convertible into our common stock at the selling stockholders' option, at the lower of (i) \$.09 or (ii) 60% of the average of the three lowest intraday trading prices for the common stock on the OTC Bulletin Board for the 20 trading days before but not including the conversion date. Accordingly, there is no limit on the number of shares into which the notes may be converted.

The callable secured convertible notes are secured by the Company's assets, including the Company's inventory, accounts receivable and intellectual property. Moreover, the Company has a call option under the terms of the notes. The call option provides the Company with the right to prepay all of the outstanding callable secured convertible notes at any time, provided there is no event of default by the Company and the Company's stock is trading at or below \$.09 per share. An event of default includes the failure by the Company to pay the principal or interest on the callable secured convertible notes when due or to timely file a registration statement as required by the Company or obtain effectiveness with the Securities and Exchange Commission of the registration statement. Prepayment of the callable secured convertible notes is to be made in cash equal to either (a) 125% of the outstanding principal and accrued interest for prepayments occurring within 30 days following the issue date of the notes; (b) 130% of the outstanding principal and accrued interest for prepayments occurring between 31 and 60 days following the issue date of the notes; or (c) 145% of the outstanding principal and accrued interest for prepayments occurring after the 60th day following the issue date of the notes.

The warrants are exercisable until five years from the date of issuance at a purchase price of \$.20 per share. The investors may exercise the warrants on a cashless basis if the shares of common stock underlying the warrants are not then registered pursuant to an effective registration statement. In the event the investors exercise the warrants on a cashless

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

basis, then the Company will not receive any proceeds therefrom. In addition, the exercise price of the warrants will be adjusted in the event the Company issues common stock at a price below market, with the exception of any securities issued as of the date of the warrants or issued in connection with the callable secured convertible notes issued pursuant to the Securities Purchase Agreement.

The selling stockholders have agreed to restrict their ability to convert their callable secured convertible notes or exercise their warrants and receive shares of our common stock such that the number of shares of common stock held by them in the aggregate and their affiliates after such conversion or exercise does not exceed 4.99% of the then issued and outstanding shares of common stock. However, the selling stockholders may repeatedly sell shares of common stock in order to reduce their ownership percentage, and subsequently convert additional callable secured convertible notes.

The Company is required to register the shares of its common stock issuable upon the conversion of the callable secured convertible notes and the exercise of the warrants. The registration statement must be filed with the Securities and Exchange Commission within 60 days of the April 27, 2005 closing date and the effectiveness of the registration is to be within 135 days of such closing date. Penalties of 2% of the outstanding principal balance of the callable secured convertible notes plus accrued interest are to be applied for each month the registration is not effective within the required time. The penalty may be paid in cash or stock at our option. The Company filed a registration statement with the Securities and Exchange Commission on June 22, 2005 to register the shares of common stock issuable upon the conversion of the callable secured convertible notes and the exercise of the warrants. The registration statement was declared effective on June 29, 2005.

24

As of June 30, 2005, the average of the three lowest intraday trading prices of the Company's common stock during the preceding 20 trading days as reported on the OTC Bulletin Board was \$.05 and, therefore, the conversion price for the callable secured convertible notes was \$.03. Based on this conversion price, the \$2,500,000 callable secured convertible notes, excluding interest, were convertible into 83,333,333 shares of the Company's common stock. As of June 30, 2005, none of the callable secured convertible notes had been converted.

Since June 30, 2005, a total of \$401,509 in callable secured convertible notes have been converted into 45,320,000 shares of the Company's common stock pursuant to notices of conversion from The NIR Group. The dates of these notices of conversion, the amount of the notes converted, the conversion price of the notes converted, and the shares issued to the noteholders upon conversion were as follows:

Date of Notice of Conversion -----	Amount of Notes Converted -----	Conversion Price of Notes -----	Shares Issued to Noteholders Upon Conversion -----
July 7, 2005	\$ 39,900	\$.0285	1,400,000
July 14, 2005	40,460	.0289	1,400,000
July 20, 2005	32,110	.0247	1,300,000

Edgar Filing: PARADIGM MEDICAL INDUSTRIES INC - Form 10QSB

July 26, 2005	29,682	.0194	1,530,000
