THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995 PROVIDES A "SAFE HARBOR" FOR FORWARD LOOKING STATEMENTS. This Form 10-KSB contains statements that are not historical facts. These statements are called "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These statements involve important known and unknown risks, uncertainties and other factors and can be identified by phrases using "estimate," "anticipate," "believe," "project," "expect," "intend," "predict," "potential," "future," "may," "should" and similar expressions or words. Our future results, performance or achievements may differ materially from the results, performance or achievements discussed in the forward-looking statements. There are numerous factors that could cause actual results to differ materially from the results discussed in forward-looking statements, including:

- o Changes in existing product liability, tort or warranty laws or the introduction of new laws, regulations or policies that could affect our business practices: these laws, regulations or policies could impact our industry as a whole, or could impact only those portions in which we are currently active.
- o Changes in environmental regulations: these regulations could have a negative impact on our earnings; for example, laws mandating greater fuel efficiency could increase our research and development costs.
- o Changes in economic conditions, including changes in interest rates, financial market performance and our industry: these types of changes can impact the economy in general, resulting in a downward trend that impacts not only our business, but all companies with which we compete; or, the changes can impact only those parts of the economy upon which we rely in a unique fashion, including, hotels, restaurants and business travel.
- o Changes in relationships with major customers and/or suppliers: an adverse change in our relationships with major customers and/or suppliers would have a negative impact on our earnings and financial position.
- o Armed conflicts and other military actions: the considerable political and economic uncertainties resulting from these events, could adversely affect our order intake and sales, particularly in the limousine market.
- o Factors that we have discussed in previous public reports and other documents filed with the Securities and Exchange Commission.

This list provides examples of factors that could affect the results described by forward-looking statements contained in this Form 10-KSB. However, this list is not intended to be exhaustive; many other factors could impact our business and it is impossible to predict with any accuracy which factors could result in which negative impacts. Although we believe that the forward-looking statements contained in this Form 10-KSB are reasonable, we cannot provide you with any guarantee that the anticipated results will be achieved. All forward-looking statements in this Form 10-KSB are expressly qualified in their entirety by the cautionary statements contained in this section and you are cautioned not to place undue reliance on the forward-looking statements contained in this Form 10-KSB. In addition to the risks listed above, other risks may arise in the future, and we disclaim any obligation to update information contained in any

forward-looking statement.

ITEM 1. DESCRIPTION OF BUSINESS

OVERVIEW

Coach is a holding company which manufactures luxury limousines, specialty vehicles and limousine buses and sells financial services and products related to its business through its various operating subsidiaries. We currently have two subsidiaries. Commercial Transportation Manufacturing Corporation ("CTMC") focuses on manufacturing specialty vehicles and limousine buses. Springfield Coach Industries Corporation, Inc. ("SCB"), SCB focuses on manufacturing Lincoln Town Car limousines and Ford Excursion limousines.

HISTORY

On June 1, 2000, pursuant to an Agreement and Plan of Business Combination, dated as of April 14, 2000, PAN International Gaming, Inc., a Nevada corporation ("PAN"), purchased all of the issued and outstanding capital stock of SearchHound.com 2000, Ltd., a Nevada corporation, from their 22 record holders for an aggregate of 50,373 shares of its common stock, which was approximately 71% of the issued and outstanding shares of PAN International Gaming, Inc. The amount of consideration paid and received was negotiated by the parties to the Plan of Business Combination. On June 6, 2000, after the merger, PAN changed its name to SearchHound.com, Inc. ("Searchhound")

Pursuant to a Stock Purchase Agreement, dated as of May 4, 2000, effective July 11, 2000, Searchhound purchased all of the issued and outstanding capital stock of SoloSearch.com, Inc., a Missouri corporation ("SoloSearch"), from Cohen Capital Technologies, L.L.C., a Missouri limited liability company, Kirk C. Reivich, an individual, and October Capital, L.L.C., a Missouri limited liability company, for an aggregate of 18,097 shares of common stock and an aggregate of \$300,000 in cash. The foregoing transaction resulted in the issuance of 20.3% of the issued and outstanding shares of PAN. The amount of consideration paid and received was negotiated by the parties to the Stock Purchase Agreement.

Prior to June 1, 2000, SearchHound was not engaged in substantial operating activities and there were no revenues or business operations. In 2002, Searchhound's Board of Directors changed its strategy due to poor operating conditions and operating results in its primary businesses coupled with difficulties in raising capital through debt and equity sources. The Board of Directors adopted the new strategy during 2002, which committed to the disposal of all of its current assets and businesses and to seek a merger or acquisition candidate with better financial resources. By early 2003, the Board of Directors of Searchhound had successfully disposed of all of the assets and all of the liabilities of the company.

On August 22, 2003, the Company held its Annual Meeting of Shareholders, whereby the shareholders voted to amend the Articles of Incorporation to change the name of the company from Searchhound.com to Coach Industries Group, Inc.

GENERAL

Through our subsidiaries, we manufacture luxury limousines, specialty vehicles and limousine buses. Coach's principal executive offices are located in Coral Springs, Florida. We are one of seven limousine manufacturers in the limousine manufacturing industry operating under agreements with Ford Motor Company and General Motors Corporation. The Company's long-term strategy is to offer and

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

expand our array of specialty vehicles and limousines and to offer and expand financial services to existing customers, other limousine operators and others outside of the limousine business. The Company will actively pursue acquisition candidates that can support the expansion of these products and financial services.

On September 1, 2003, we acquired CTMC through a reverse merger. Coach issued 3 million shares of common stock to CTMC in a stock for stock exchange. CTMC's principal executive offices are located in Bohemia, New York. CTMC's operation consists of manufacturing, selling and servicing specialty vehicles, limousine buses and to a lesser extent, Lincoln Town Cars. The operation is housed in a 30,000 square foot manufacturing facility with approximately 27 employees involved in the direct manufacture of the various modified chassis. CTMC manufactures its vehicles pursuant to a Quality Vehicle Modifier Agreement with Ford Motor Company. CTMC's New York presence allows the Company to support the lucrative Northeastern market.

On December 31, 2003, Coach, through SCB, newly formed wholly owned subsidiary, acquired certain assets and liabilities from Springfield Coach Builders, Inc. ("Springfield"). The acquisition was valued at \$2.66 million based on 2 million shares of common stock, at \$1.33 per share, the closing market price on November 6, 2003. SCB's principal executive offices are located in Springfield, Missouri.

After our acquisition of Springfield, we determined that the production of the various vehicles previously manufactured by Springfield and CTMC needed to be segregated to eliminate any duplication of production processes at the CTMC and SCB facilities. CTMC personnel have extensive depth of knowledge in prototype development, modification and engineering of specialty vehicles, such as the Chrysler Sprinter and the General Motors' Hummer H2. Accordingly, since January 2004, SCB manufactures the Lincoln Town Car limousines, which represent approximately ninety percent (90%) of the limousine market and the Ford Excursion limousines. CTMC manufactures our specialty vehicles and limousine buses.

SCB manufactures its vehicles pursuant to a Quality Vehicle Modifier Agreement with Ford Motor Company and a Cadillac Master CoachBuilder Agreement with General Motors Corporation. SCB, because of its Midwest location, provides us with the opportunity to economically support customers located in the Midwestern, Southeastern and Western region of the United States. SCB's Midwestern location also provides the Company significant operating expense advantages due to lower labor and occupancy costs. SCB's operations consists of manufacturing, selling and servicing Lincoln Town Cars and Ford Excursions Limousines The operations is housed in a 45,000 square foot manufacturing facility with 38 employees involved in the direct manufacture of the modified chassis.

Management believes that the acquisition of Springfield enabled the Company's to use its existing sales force, engineering expertise and management to enter the Midwestern and Western United States limousine markets. Coach was able to assume the existing lease for the manufacturing facility in Springfield, Missouri, which increased its manufacturing capacity and reduced the cost of distribution in those markets.

INDUSTRY

The limousine industry consists of the manufacturing of modified chassis, both through manufacturer supported programs, such as through QVM and CMC agreements, as well as non-conforming, non-manufacturer supported chassis modifications. The chassis is purchased from the manufacturer under a manufacturer supported program and modified based on the specifications provided and monitored by the

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

manufacturer. The modification manufacturer may provide some changes to the design and aesthetics of the product, but not the engineering of the product. The manufacturer closely monitors and reviews the performance of all those modification manufacturers in their programs. In addition, there are those vehicles that are not supported by the manufacturer. These vehicles are manufactured based on the customer specifications or the marketplace. These vehicles do not receive the same warranty from the manufacturer, thus require additional support by the modification manufacturer.

Once a vehicle is manufactured and sold, it is typically sold to one of 14,000 limousine operators. These operators utilize these vehicles to provide livery service to the end user. The livery service provides drivers and short term rentals for airport shuttle service, weddings, business travel, proms, funerals and various other special occasions.

Based on the Limousine and Chauffeured Transportation Industry statistic, annually, the limousine manufacturing industry generates approximately \$400 million in revenues through the sale of luxury limousines, specialty vehicles and limousine buses to approximately 14,000 limousine operators located throughout the United States. These limousine operators are located in the following regions of the United States: 59% in the Northeast, 16% in the Southeast, 11% in the Midwest and 14% in the West.

PRODUCTS AND SERVICES

LINCOLN TOWN CAR

A Lincoln Town Car is modified into a luxury limousine through a thirteen step manufacturing process completed over a period of approximately eleven days. The Company maintains a 35 to 45 day inventory of Lincoln Town Car limousines and the Ford Excursion limousines to meet customer demand. The Lincoln Town Car market makes up approximately 90% of the modified limousine chassis market.

SPECIALTY VEHICLES

The Specialty vehicles and buses include the Hummer H2, the Cadillac Escalade, the Sprinter Bus, as well as other models that are made to order. The customer has many more options in this market however pricing is based on the time, materials manufacturing overhead plus profit margin. The specialty vehicles and buses manufactured at CTMC are primarily built to order. This is a small percentage of the limousine market, however we believe that we can sustain higher profit margins and significant customization is available based on the customers specifications.

COMPETITION

The Company is one of seven limousine manufacturers in the limousine manufacturing industry operating under QVM and CMC agreements as well as the many companies in the marketplace that do not operate under the manufacturer sponsored programs. Operating within QVM and CMC agreements enables the Company to provide enhanced warranty coverage to the purchasers of our vehicles, as well as provide superior engineering design, using the resources provided by the manufacturers. Our competition offers similar products to these limousine operators however, we believe that our sales, design and engineering team has focused our products on specifications that operators and end users require in order to differentiate our products and services from our competitors. We intend to differentiate ourselves, through our direct marketing and additional product offerings and services, such as financing and insurance products. The business strategy of the Company is to further diversify product lines and develop innovative design, engineering and manufacturing expertise in order to be the premiere luxury limousine manufacturer in the marketplace. The Company believes

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

that it can best carry out its long-term business plan and obtain optimal financial flexibility by using a combination of borrowings under the Company's credit facilities, as well as internally and externally generated equity capital, as sources of expansion capital, which should enable us to be more competitive than the other manufacturers that do not have access to the capital markets.

MARKETING

The Company markets its limousines through tradeshows, print advertising and direct marketing to limousine operators. The Company is focusing on certain custom niches within its geographical markets and believes that opportunities for growth remain strong for modified limousine chassis. The Company has an innovative sales and service team focused on building lasting relationships with its customers. This is accomplished by delivering vehicles and services that management believes will inspire customer loyalty and enthusiasm.

The Company typically attends two tradeshows annually to exhibit their products and services, as well as to stay abreast of current trends in the marketplace. In addition to tradeshows, our sales team typically attends local limousine operator association meetings on a monthly basis. This enables the sales team to stay in front of the operators on an on-going basis. The Company and its sales team actively call the operators in their sales market to maintain a one-on-one relationship with the operators. The Company sends out direct mail marketing pieces to select customers or contacts with products or services that they believe will result in a future sale of our products.

In addition, the Company places print advertisement in various trade publications, which are supported by QVM and CMC agreements. The Company believes that maintaining a presence in the limousine community provides the recognition necessary to further their other forms of advertising and marketing.

SOURCE AND AVAILABILITY OF RAW MATERIAL FOR PRODUCTION

The Company's two major suppliers are Ford Motor Company and General Motors Corporation, which provide the chassis for the Lincoln Town Car and the Cadillac products that the Company then manufactures into a modified vehicle under QVM agreement with Ford and a CMC agreement with General Motors Corporation. The Company believes that its relationship with these major suppliers is in good standing at this time and that the supply of chassis inventory is adequate to meet our operating needs.

AGREEMENTS WITH MAJOR SUPPLIERS

The Company manufactures luxury limousines, specialty vehicles and limousine buses under a Quality Vehicle Modifier Agreement ("QVM") with Ford Motor Company and a Cadillac Master CoachBuilder Agreement ("CMC") with General Motors Corporation. These agreements are evaluated and renewed annually. The Company is able to utilize the expertise of the supplier for engineering expertise, warranty support, rebates for chassis purchases and a source of marketing funds.

RESEARCH AND DEVELOPMENT

The company did have any research and development expenses for the year ended December 31, 2003. After our acquisition of Springfield in December 2003, we determined that the production of the various vehicles needed to be segregated as to eliminate any duplication of production processes at the CTMC and SCB facilities. CTMC personnel have extensive depth of knowledge in prototype development, modification and engineering of specialty vehicles, such as the Chrysler Sprinter and the General Motors' Hummer H2. As a result, in January

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

2004, the Company made a strategic decision for CTMC to focus on manufacturing specialty vehicles and limousine buses and for SCB to focus on manufacturing the Lincoln Town Car limousines and the Ford Excursion limousines.

SEASONALITY

The limousine business is seasonal, whereby most purchases are made during the second and fourth quarters of the fiscal year. The plants close for a week in the summer and a week in December. The Company plans on diversifying its business to mitigate some of the seasonality of the current operations.

SUBSIDIARIES

We own two wholly owned operating subsidiaries: (1) Springfield Coach Industries Corporation, Inc., a Missouri corporation and (2) Commercial Transportation Manufacturing Corporation, a New York corporation.

EMPLOYEES

As of December 31, 2003, the Company employed 80 full-time employees and two part-time employees, four of whom are sales personnel, 12 (2 are part-time employees) of which are managers and administrative personnel and 65 of who are direct manufacturing personnel. Employees of the Company are not represented by labor unions. The Company considers its relationship with its employees to be good.

GOVERNMENT REGULATION

Our Cadillac Master CoachBuilder Agreement with General Motors Corporation and a Quality Vehicle Modifier Agreement with Ford Motor Company require that we maintain and adhere to strict engineering and manufacturing standards set by the National Highway Traffic and Safety Agency ("NHTSA") for manufactured vehicles. The National Highway Traffic Safety Administration (NHTSA), under the U.S. Department of Transportation, was established by the Highway Safety Act of 1970, as the successor to the National Highway Safety Bureau, to carry out safety programs under the National Traffic and Motor Vehicle Safety Act of 1966 and the Highway Safety Act of 1966. We purchase our vehicles directly from the original manufacturers, such as Ford Motor Company, General Motors Corporation and Daimler-Chrysler, then modify the vehicles based on our customer requirements or the specific product lines. As such, we are not subject to the same regulations as other automotive manufacturers.

ITEM 2. DESCRIPTION OF PROPERTIES

In August 2003, Coach Company relocated its corporate offices to Coral Springs, Florida. Coach leases approximately 1,000 square feet of office space on a month-to-month basis from Francis O'Donnell, our Chief Executive Officer. The Company does not pay rent for this office space.

CTMC leases approximately 30,000 square feet of space located in Bohemia, New York, from Helen Gore, the wife of the former owner of US Coachworks, Inc. pursuant to a lease agreement which expires in December 2007. Our annual rent under the lease is \$288,000, for the remainder of the term. CTMC uses the space as its executive offices and manufacturing plant. The lease is non-cancelable. The lease term, as amended, expires in December 2007 with payments commencing in July 2003.

SCB lease approximately 45,000 square feet of space located in Springfield, Missouri, from an unrelated third party, pursuant to a lease which expires in December 2006. SCB uses the space as its executive office, manufacturing

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

facility and approximately 16,000 square feet as a warehouse facility. Annual rent under the lease is \$132,000 per year for years 2004 and 2005, and \$77,000 for year 2006.

ITEM 3. LEGAL PROCEEDINGS

Certain claims, suits and complaints arising in the normal course with respect to the Company's services have been filed or are pending against the Company including its subsidiaries. Generally, these matters are all covered by a general liability insurance policy. In the opinion of management, the resolution of all such matters would not have a significant effect on the financial position, results of operations or cash flows of the Company, if disposed of unfavorably.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On August 22, 2003, the Shareholders effected a 1-for-4 reverse stock split. The principal effect of the reverse split will be that the number of shares of Common Stock issued and outstanding was reduced from 1,088,159 shares as of August 25, 2003 to approximately 272,039 shares. The number of authorized shares of common stock was not affected.

On August 22, 2003, the Company held its Annual Meeting of Shareholders. The Shareholders elected Mr. Francis O'Donnell to serve as director until the Company's Annual Meeting of stockholders in 2004. The Shareholders effected a 1-for-4 reverse stock split (pro-rata reduction of outstanding shares) of the Company's issued and outstanding shares of common stock. The Shareholders amended the Company's Articles of Incorporation to change the name of the Company to Coach Industries Group, Inc. A majority of the issues and outstanding shares voted in favor of the resolutions, no votes were cast against the resolutions, and there were no abstentions.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

MARKET INFORMATION

Our common shares are currently quoted on the NASDAQ OTC Bulletin Board (OTCBB) under the symbol "CIGI." Prior to August 2003, our common shares were quoted on the OTCBB under the symbol "SHND." The following table sets forth the quarterly high and low bid prices for our common shares on the OTCBB for the periods indicated, as adjusted to reflect the 1:67 reverse stock split on December 30, 2002 and the 1:4 reverse stock split on August 25, 2003. HOLDERS

We have approximately 250 record holders of our common stock as of December 31, 2003, according to a shareholders' list provided by our transfer agent as of that date and our records relating to issuable shares. The number of registered shareholders excludes any estimate by us of the number of beneficial owners of common shares held in street name.

DIVIDEND POLICY

We have never paid any cash dividends on our common shares, and we do not anticipate that we will pay any dividends with respect to those securities in the foreseeable future. Our current business plan is to retain any future earnings to finance the expansion development of our business. Any future determination to pay cash dividends will be at the discretion of our board of directors, and will be dependent upon our financial condition, results of operations, capital requirements and other factors as our board may deem relevant at that time.

SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

We do not have any equity compensation plans.

STAND-ALONE GRANTS

We do not currently have any outstanding stock options or stock appreciation rights. However, in the future our board of directors may grant common share purchase options or warrants to selected directors, officers, employees, consultants and advisors in payment of goods or services provided by such persons on a stand-alone basis outside of any formal stock plans. The terms of these grants may be individually negotiated.

RECENT SALES OF UNREGISTERED SECURITIES

We have sold or issued the following securities not registered under the Securities Act by reason of the exemption afforded under Section 4(2) of the Securities Act of 1933, during the periods covered by this report. Except as stated below, no underwriting discounts or commissions were payable with respect to any of the following transactions. The offer and sale of the following securities was exempt from the registration requirements of the Securities Act under Rule 506 insofar as (1) except as stated below, each of the investors was accredited within the meaning of Rule 501(a); (2) the transfer of the securities were restricted by the company in accordance with Rule 502(d); (3) there were no more than 35 non-accredited investors in any transaction within the meaning of Rule 506(b), after taking into consideration all prior investors under Section 4(2) of the Securities Act within the twelve months preceding the transaction; and (4) none of the offers and sales were effected through any general solicitation or general advertising within the meaning of Rule 502(c).

FOR THE YEAR ENDED DECEMBER 31, 2003, THE COMPANY ISSUED 7.7 MILLION SHARES OF ITS COMMON STOCK AS FOLLOWS:

On August 26, 2003, the Company issued 3,000,000 restricted shares of common stock, valued at \$0.45 per share, to the shareholders of CTMC in connection with our acquisition of CTMC.

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

During 2002, the Company issued 11,940 restricted shares of common stock, to a law firm in settlement of indebtedness arising from the provision of legal services rendered.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS

GENERAL

THE FOLLOWING DISCUSSION OF THE FINANCIAL CONDITION AND RESULTS OF OPERATIONS OF THE COMPANY SHOULD BE READ IN CONJUNCTION WITH THE FINANCIAL STATEMENTS AND NOTES THERETO INCLUDED ELSEWHERE IN THIS REPORT.

THIS DISCUSSION CONTAINS FORWARD-LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES, THE COMPANY'S ACTUAL RESULTS MAY DIFFER MATERIALLY FROM THOSE ANTICIPATED IN THESE FORWARD-LOOKING STATEMENTS AS A RESULT OF CERTAIN FACTORS,

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

INCLUDING, BUT NOT LIMITED TO COMPETITION AND OVERALL MARKET CONDITIONS.

ACCOUNTING TREATMENT CHANGE:

After careful review and consideration, the Company has elected to treat the original transaction between Coach Industries Group, Inc., and Commercial Transportation Manufacturing Corporation as a reverse merger and not as a business combination from an accounting standpoint. The purpose for this filing is to restate the financial statements to reflect the accounting treatment change for recording this transaction.

At the time of the transaction, the Company adopted the business combination accounting treatment to record this transaction, whereby the market value of the common stock exchanged for the assets plus the book value of the assets acquired were used to determine the valuation of the transaction. Employing this accounting treatment, the Company recorded approximately \$490,000 of goodwill, an intangible asset. After considering that the Company, Coach Industries Group, Inc., had no operations prior to the Transaction, the Company concluded that the reverse merger accounting treatment more appropriately reflects the nature of this transaction. Under the reverse merger accounting treatment, historical asset values (book value of the assets) are utilized to determine the valuation of the transaction. Accordingly, no goodwill is generated with this transaction.

Pursuant to the Company's decision to change the accounting treatment, the financial statements have been restated and are presented within this filing, to reflect the new treatment.

SUMMARY OVERVIEW AND OVERALL BUSINESS STRATEGY

COACH INDUSTRIES GROUP, INC. OVERVIEW AND BUSINESS STRATEGY

Coach is a holding company which, through its subsidiaries, manufactures luxury limousines, specialty vehicles and limousine buses through its various operating subsidiaries. The Company's long-term strategy is to offer and expand our array of specialty vehicles and limousines and to offer financial services to existing customers as well as other limousine operators. The Company will actively pursue acquisition candidates that can support the expansion of these products and financial services. We currently have three subsidiaries.

In September 2003, Coach acquired Commercial Transportation Manufacturing Corporation ("CTMC") through a reverse merger. CTMC is a New York corporation. Its principal executive offices are located in Bohemia, New York. CTMC focuses on manufacturing specialty vehicles and limousine buses.

In December 2003, the Company formed Springfield Coach Industries Corporation, Inc. ("SCB"), by acquiring certain assets and assuming certain liabilities from Springfield Coach Builders, Inc. ("Springfield"). SCB is a Missouri corporation. Its principal executive offices are located in Springfield, Missouri. SCB focuses on manufacturing Lincoln Town Car limousines and Ford Excursion limousines.

Annually, the limousine manufacturing industry generates approximately \$400 million in revenues through the sale of luxury limousines, specialty vehicles and limousine buses to approximately 14,000 limousine operators located throughout the United States. These limousine operators are located in the following regions of the United States: 59% in the Northeast, 16% in the Southeast, 11% in the Midwest and 14% in the West. The Company's facilities are strategically located to economically service the limousine market. SCB, because of its Midwest location, provides the Company with the opportunity to economically support customers located in the Midwestern, Southeastern and Western region of the United States. SCB's Midwestern location also provides the Company significant operating expense advantages due to lower labor and

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

occupancy costs. CTMC's New York presence allows the Company to support the lucrative Northeastern market. CTMC personnel have extensive depth of knowledge in prototype development, modification and engineering of specialty vehicles, such as the Chrysler Sprinter and the General Motors Hummer H2. In January 2004, the Company made a strategic decision to focus SCB on manufacturing the Lincoln Town Car limousines, which represent approximately ninety percent (90%) of the market, and the Ford Excursion limousines and for CTMC to focus on specialty vehicles and limousine buses.

After our acquisition of Springfield in December 2003, we determined that the production of the various vehicles needed to be segregated as to eliminate any duplication of production processes at the CTMC and SCB facilities. CTMC personnel have extensive depth of knowledge in prototype development, modification and engineering of specialty vehicles, such as the Chrysler Sprinter and the General Motors' Hummer H2. As a result, in January 2004, the Company made a strategic decision for CTMC to focus on manufacturing specialty vehicles and limousine buses and for SCB to focus on manufacturing the Lincoln Town Car limousines and the Ford Excursion limousines. Based on these manufacturing changes and focus on specialty vehicles, the Company plans on expending \$2.0 million on research and development during the next twelve months.

The business strategy of the Company is to further diversify product lines and develop innovative design, engineering and manufacturing expertise in order to be the premiere luxury limousine manufacturer in the marketplace. The Company sells its custom limousine chassis to limousine operators throughout the United States. The Company markets its limousines through tradeshow, print advertising and direct marketing to limousine operators. The Company is focusing on certain custom niches within its geographical markets and believes that opportunities for growth remain strong for modified limousine chassis. The Company's two major suppliers are Ford Motor Company and General Motors Corporation, which provide the chassis for the Lincoln Town Car and the Cadillac products that the Company then manufactures into a modified vehicle under the QVM and CMC agreements. The Company believes that their relationship with these major suppliers is in good standing at this time and that the supply of chassis inventory is adequate to meet our operating needs.

The Company believes that it can best carry out its long-term business plan and obtain optimal financial flexibility by using a combination of borrowings under the Company's credit facilities, as well as internally and externally generated equity capital, as sources of expansion capital. We believe this gives us a competitive advantage from other manufacturers in our industry who do not have access to these capital markets.

The Company has secured lines of credit for funding floor plan liabilities. CTMC secured a line of credit totaling \$1.6 million for the purchase of chassis inventory from a local dealership. The line of credit will be utilized by CTMC to fund the purchase of chassis for production.

FINANCIAL CONDITION FOR THE YEAR ENDED DECEMBER 31, 2003 COMPARED TO DECEMBER 31, 2002

ASSETS

Cash and cash equivalents. Cash and cash equivalents increased from zero at December 31, 2002 to \$91,565 at December 31, 2003, an increase of \$91,565, primarily as a result of the Company acquiring CTMC effective September 1, 2003 through a reverse merger and SCB effective December 31, 2003.

TOTAL CURRENT LIABILITIES. Total current liabilities increased from zero at December 31, 2002 to \$1.7 million at December 31, 2003, an increase of \$1.7 million, primarily as a result of the Company related to the acquisition of CTMC and SCB. In addition, the Company funded operations through increased accounts payable and related party accounts payable.

Management will try to maintain the Company in its current operating form through the issuance of common stock to consultants for the Company's ongoing administrative and reporting duties. In addition, the Company has secured lines of credit for funding floor plan liabilities. CTMC secured a line of credit totaling \$1.6 million for the purchase of chassis inventory from a local dealership. The line of credit will be utilized by CTMC to fund the purchase of chassis for production.

In addition, during 2004 SCB expects to secure funding from one of the major floor plan providers totaling \$2.0 million for the purchase of chassis vehicles for production.

RESULTS OF OPERATIONS FOR THE YEAR ENDED DECEMBER 31, 2003 COMPARED TO DECEMBER 31, 2002

Effective September 1, 2003, the Company has restated its consolidated

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

balance sheet, consolidated statement of operations and consolidated statement of cash flows in conjunction with the reverse merger with CTMC. The accompanying financial statements include the accounts of the Company from September 1, 2003, and its wholly owned subsidiaries CTMC from January 8, 2003 (inception) and SCB, effective December 31, 2003. CTMC was formed on January 8, 2003 (inception), however they did not commence operations until April 1, 2003, thus, no activity has been presented for the three months ended March 31, 2003.

GROSS REVENUES. Gross revenues were \$1.1 million for the year ended December 31, 2003, primarily as a result of the Company acquiring CTMC through a reverse merger effective September 1, 2003 and the gross revenues for the period reflect revenues from inception January 8, 2003 through December 31, 2003 for CTMC.

COSTS OF GOODS SOLD. Costs of goods sold increased was \$1.4 million for the year ended December 31, 2003, as a result of the Company acquiring CTMC through a reverse merger effective September 1, 2003 and the costs of goods sold for the period reflect costs from inception January 8, 2003 through December 31, 2003.

OPERATING EXPENSES. Operating expenses were \$1.4 million for the year ended December 31, 2003 relating to expenses associated with Coach from September 1, 2003 and CTMC from January 8, 2003 (inception).

General and administrative expenses were \$462,998 for the year ended December 31, 2003, as a result of the Company acquiring CTMC effective September 1, 2003 through a reverse merger and the general and administrative expenses for the period reflect expenses from January 8, 2003 through December 31, 2003 for CTMC and Coach from September 1, 2003 through December 31, 2003. Depreciation and amortization expense reflected amortization of deferred rent of \$9,600 for the year ended December 31, 2003. During the year ended December 31, 2003, the Company issued 1.8 million shares of common stock to various related parties for future consulting services. The Company recognized approximately \$550,000 of amortization of deferred compensation relating to this issuance. The total value of these agreements is \$810,000 to settle past services, as well as future services to the Company which included approximately \$550,000 of deferred compensation for the year ended December 31, 2003 and approximately \$260,000 which was included in the retained deficit at the time of the reverse merger with CTMC. The \$260,000 represented services rendered prior to the reverse merger with CTMC. The shares of common stock were issued to these individuals with a three month restriction. The agreements are for consulting services for periods between 6 months to 2 years.

NET (LOSS). Net loss was \$1.7 million for the year ended December 31, 2003, primarily due to the operations of CTMC for the period from January 8, 2003 (inception) through December 31, 2003 and the amortization of deferred compensation of approximately \$550,000 for Coach.

ACCOUNTING POLICIES SUBJECT TO ESTIMATION AND JUDGMENT

Management's Discussion and Analysis of Financial Condition and Results of Operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. When preparing our financial statements, we make estimates and judgments that affect the reported amounts on our balance sheets and income statements, and our related disclosure about contingent assets and liabilities. We continually evaluate our estimates, including those related to revenue, allowance for doubtful accounts, reserves for income taxes, and litigation. We base our estimates on historical experience and on various other assumptions, which we believe to be reasonable in order to form the basis for making judgments about the carrying values of assets and liabilities that are not readily ascertained from other sources. Actual results may deviate from these estimates if alternative assumptions or condition are used.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information regarding beneficial ownership of the common stock as of December 31, 2003, by (i) each person who is known by the Company to own beneficially more than 5% of the any classes of outstanding Stock, (ii) each director of the Company, (iii) each of the Chief Executive Officers and the four (4) most highly compensated executive officers who earned in excess of \$100,000 for all services in all capacities (collectively, the "Named Executive Officers") and (iv) all directors and executive officers of the Company as a group.

The number and percentage of shares beneficially owned is determined in accordance with Rule 13d-3 and 13d-5 of the Exchange Act, and the information is not necessarily indicative of beneficial ownership for any other purpose. We believe that each individual or entity named has sole investment and voting power with respect to the securities indicated as beneficially owned by them, subject to community property laws, where applicable, except where otherwise noted. Unless otherwise stated, the address of each person is 9600 W. Sample Road, Suite 505, Coral Springs, Florida 33065.

NAME OF BENEFICIAL OWNER	NUMBER OF SHARES OF COMMON STOCK	PERCENT OF CLASS
Francis O'Donnell, Chief Executive Officer, Director	4,966,066 (1)	50.75 (2)
All Officers and Directors as a group (4 persons)	4,966,066	50.75

- (1) Includes: 4,966,066 shares owned: 283,000 shares owned directly by Francis O'Donnell; 188,333 by Innovative Consulting LLC, all of which Francis O'Donnell may be deemed to beneficially own under Rule 13d-3; 60,533 shares owned by International Equities and Finance LLC, all of which Francis O'Donnell may be deemed to beneficially own under Rule 13d-3; 1,800,000 shares owned by Springfield Coach Industries Corporation, all of which Francis O'Donnell may be deemed to beneficially own under Rule 13d-3 and 1,022,500 shares owned by investors in Elm Street Partners, all of which Francis O'Donnell retains voting control. The voting rights for these shares of common stock collectively are maintained by Francis O'Donnell.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

CTMC leases approximately 30,000 square feet of space located in Bohemia, New York, FCW Realty, a related party, pursuant to a lease agreement which expires in December 2007. Our annual rent under the lease is \$288,000, for the remainder of the term. CTMC uses the space as its executive offices and

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

manufacturing plant. The lease is non-cancelable. The lease term, as amended, expires in December 2007 with payments commencing in July 2003.

The Company maintained certain equipment used for manufacturing currently owned by a related party in anticipation of a pending purchase agreement for that equipment. On December 31, 2003, the Company acquired the equipment and inventory of Springfield for \$859,147. The transaction was settled through a mortgage on property owned by FCW Realty, a related party. The mortgage is not a liability of the Company and was considered an equity contribution from the related party.

During the year ended December 31, 2003, the Company issued 1,405,000 shares of common stock to Francis O'Donnell for future consulting services. The total value of these agreements is \$632,250 to settle past services, as well as future services to the Company. The shares of common stock were issued with a three month restriction. The agreements are for consulting services for 2 years.

On August 26, 2003, the Company settled a related party payable of \$65,000 with Innovative Consulting Group, a company controlled by Francis O'Donnell, whereby the Company issued 433,333 shares of restricted common stock in settlement of that payable.

On August 26, 2003, the Company settled a related party payable with International Equities and Finance, LLC, a company controlled by Francis O'Donnell, whereby the Company issued 677,333 shares of restricted common stock in settlement of outstanding payable amounts owed of \$101,600.

Related party accounts payable totaled \$305,739 at December 31, 2003. The amount pertains to amounts funded by Elm Street Partners, a company controlled by Francis O'Donnell, for professional fees and cash flow requirements of Coach, CTMC and SCB.

Notes payable- related parties totals \$613,659 due to the John Baumgartner, the former owner of Springfield, as of December 31, 2003. Those balances pertain to the chassis inventory purchased at acquisition. The Company borrowed the money to purchase chassis inventory as a part of its acquisition of SCB.

Mr. Mullikin was a director of SearchHound.com, Inc. and was its acting Chief Executive Officer, prior August 22, 2003. The net book value of the net assets sold approximated \$8,000 as of the date of sale. Pursuant to the asset sale agreement the Company agreed to transfer such assets in settlement of a portion of the then outstanding principal balance of \$179,359 together with all accrued but unpaid interest. The settlement of this note payable resulted in a gain of \$135,100 based upon the market value of the common stock at the date issued and was classified as gain on disposal of discontinued operations in the Statement of Operations for the year ended December 31, 2003, prior to the reverse merger with CTMC.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To The Shareholders and Board of Directors of Coach Industries Group, Inc. and Subsidiaries

We have audited the accompanying consolidated balance sheet of Coach Industries Group, Inc. f/k/a SearchHound.com Inc. (a Nevada corporation) as of December 31, 2003, and the related consolidated statements of operations, changes in shareholders' equity and cash flows for the period from January 8, 2003 (inception) through December 31, 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provided a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Coach Industries Group, Inc. and its subsidiaries as of December 31, 2003, and the results of their operations and their cash flows for the period from January 8, 2003 (inception) through December 31, 2003 in conformity with accounting principles generally accepted in the United States. The financial statements referred to above have been restated to account for the acquisition of the Commercial Transportation Manufacturing Corporation as a reverse merger further described in Note 2 to the consolidated financial statements.

COACH INDUSTRIES GROUP, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2003

1. BACKGROUND

OVERVIEW

Coach is a holding company which manufactures luxury limousines, specialty vehicles and limousine buses through its various operating subsidiaries. We currently have two subsidiaries. Commercial Transportation Manufacturing Corporation ("CTMC") focuses on manufacturing specialty vehicles and limousine buses. Springfield Coach Industries Corporation, Inc. ("SCB"), SCB focuses on manufacturing Lincoln Town Car limousines and Ford Excursion limousines.

HISTORY

On June 1, 2000, pursuant to an Agreement and Plan of Business Combination, dated as of April 14, 2000, PAN International Gaming, Inc., a Nevada corporation ("PAN"), purchased all of the issued and outstanding capital stock of SearchHound.com 2000, Ltd., a Nevada corporation, from their 22 record holders for an aggregate of 50,373 shares of its common stock, which was approximately 71% of the issued and outstanding shares of PAN International Gaming, Inc. The amount of consideration paid and received was negotiated by the parties to the Plan of Business Combination. On June 6, 2000, after the merger, PAN changed its name to SearchHound.com, Inc. ("Searchhound")

Pursuant to a Stock Purchase Agreement, dated as of May 4, 2000, effective July 11, 2000, Searchhound purchased all of the issued and outstanding capital stock of SoloSearch.com, Inc., a Missouri corporation ("SoloSearch"), from Cohen Capital Technologies, L.L.C., a Missouri limited liability company, Kirk C. Reivich, an individual, and October Capital, L.L.C., a Missouri limited liability company, for an aggregate of 18,097 shares of common stock and an aggregate of \$300,000 in cash. The foregoing transaction resulted in the issuance of 20.3% of the issued and outstanding shares of PAN. The amount of consideration paid and received was negotiated by the parties to the Stock Purchase Agreement.

Prior to June 1, 2000, SearchHound was not engaged in substantial operating activities and there were no revenues or business operations. In 2002, Searchhound's Board of Directors changed its strategy due to poor operating conditions and operating results in its primary businesses coupled with difficulties in raising capital through debt and equity sources. The Board of Directors adopted the new strategy during 2002, which committed to the disposal of all of its current assets and businesses and to seek a merger or acquisition candidate with better financial resources. By early 2003, the Board of Directors of Searchhound had successfully disposed of all of the assets and all of the liabilities of the company.

On August 22, 2003, the Company held its Annual Meeting of Shareholders, whereby

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

the shareholders voted to amend the Articles of Incorporation to change the name of the company from Searchound.com to Coach Industries Group, Inc.

GENERAL

Through our subsidiaries, we manufacture luxury limousines, specialty vehicles and limousine buses. Coach's principal executive offices are located in Coral Springs, Florida. We are one of seven limousine manufacturers in the limousine manufacturing industry operating under agreements with Ford Motor Company and General Motors Corporation. The Company's long-term strategy is to offer and expand our array of specialty vehicles and limousines and to offer and expand financial services to existing customers, other limousine operators and others outside of the limousine business. The Company will actively pursue acquisition candidates that can support the expansion of these products and financial services.

On September 1, 2003, we acquired CTMC through a reverse merger. Coach issued 3 million shares of common stock to CTMC in a stock for stock exchange. CTMC's principal executive offices are located in Bohemia, New York. CTMC's operation consists of manufacturing, selling and servicing specialty vehicles, limousine buses and to a lesser extent, Lincoln Town Cars. The operation is housed in a 30,000 square foot manufacturing facility with approximately 27 employees involved in the direct manufacture of the various modified chassis. CTMC manufactures its vehicles pursuant to a Quality Vehicle Modifier Agreement with Ford Motor Company. CTMC's New York presence allows the Company to support the lucrative Northeastern market.

On December 31, 2003, Coach, through SCB, newly formed wholly owned subsidiary, acquired certain assets and liabilities from Springfield Coach Builders, Inc. ("Springfield"). The acquisition was valued at \$2.66 million based on 2 million shares of common stock, at \$1.33 per share, the closing market price on November 6, 2003. SCB's principal executive offices are located in Springfield, Missouri.

After our acquisition of Springfield, we determined that the production of the various vehicles previously manufactured by Springfield and CTMC needed to be segregated to eliminate any duplication of production processes at the CTMC and SCB facilities. CTMC personnel have extensive depth of knowledge in prototype development, modification and engineering of specialty vehicles, such as the Chrysler Sprinter and the General Motors' Hummer H2. Accordingly, since January 2004, SCB manufactures the Lincoln Town Car limousines, which represent approximately ninety percent (90%) of the limousine market and the Ford Excursion limousines. CTMC manufactures our specialty vehicles and limousine buses.

SCB manufactures its vehicles pursuant to a Quality Vehicle Modifier Agreement with Ford Motor Company and a Cadillac Master CoachBuilder Agreement with General Motors Corporation. SCB, because of its Midwest location, provides us with the opportunity to economically support customers located in the Midwestern, Southeastern and Western region of the United States. SCB's Midwestern location also provides the Company significant operating expense advantages due to lower labor and occupancy costs. SCB's operations consists of manufacturing, selling and servicing Lincoln Town Cars and Ford Excursions Limousines. The operations is housed in a 45,000 square foot manufacturing facility with 38 employees involved in the direct manufacture of the modified chassis. Management believes that the acquisition of Springfield enabled the Company's to use its existing sales force, engineering expertise and management to enter the Midwestern and Western United States limousine markets. Coach was able to assume the existing lease for the manufacturing facility in Springfield, Missouri, which increased its manufacturing capacity and reduced the cost of distribution in those markets.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

PRINCIPLES OF CONSOLIDATION

Effective September 1, 2003, the Company through a reverse merger with CTMC, has restated its consolidated balance sheet, consolidated statement of operations and consolidated statement of cash flows as discussed in more detail below. The accompanying financial statements include the accounts of the Company from September 1, 2003, and its wholly owned subsidiaries CTMC from January 8, 2003 (inception) and SCB, effective December 31, 2003. CTMC was formed on January 8, 2003 (inception), however they did not commence operations until April 1, 2003. All significant inter-company balances and transactions have been eliminated.

RESTATEMENT OF FINANCIAL STATEMENTS

The Company, after careful consideration and review, has elected to change the accounting treatment of the transaction between the Company and Commercial Transportation Manufacturing, Inc. (the "Transaction") and accordingly restate the financial statements. Originally, the Transaction was accounted for as a business combination that resulted in recording goodwill, an intangible asset, of approximately \$490,000. After further investigation and consideration, the Company has concluded that the accounting treatment of this Transaction as a reverse merger more accurately reflects the nature of this transaction. The primary factor influencing the accounting treatment change for this Transaction is that the Company, Coach Industries Group, Inc. had no operations prior to the Transaction. The accounting impact of treating this Transaction as a reverse merger instead of a business combination is an elimination of approximately \$490,000 of goodwill and a reduction of Additional Paid - in Capital by the same amount.

USE OF ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

The Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. At December 31, 2003, cash and cash equivalents include cash on hand and cash in the bank.

REVENUE AND COST RECOGNITION

Revenues are reported at the time the custom re-fabrication or modification is complete and delivered to the customer. Customer deposits for partial payment of vehicles are deferred and treated as current liabilities until the vehicle is completed and recognized as revenue. Repairs and other services are recorded when the service is performed. Inventory is relieved upon delivery of the vehicle.

PROPERTY AND EQUIPMENT, NET

Property and equipment, net are stated at cost. Depreciation and amortization are provided using the straight-line method over the estimated economic lives of the assets, which are typically three to seven years.

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

Expenditures and major renewals and betterments that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

SUPPLY INVENTORY

Supply inventory includes the cost of the unmodified vehicle chassis and parts related to vehicles in the process of being modified and remanufactured. Shipping and handling costs are included in inventory.

All inventories are valued at the lower of cost or market. The cost of new and used vehicles is determined using the specific identification method. The cost of new parts is valued using the first in first out basis.

IMPAIRMENT OF LONG-LIVED ASSETS

The Company reviews long-lived assets for impairment whenever circumstances and situations change such that there is an indication that the carrying amounts may not be recovered. At December 31, 2003, the Company believes that there has been no impairment of its long-lived assets.

During 2002 the Company conducted an asset evaluation based on impairment for long-lived assets, which included its five web site, database, and exchange servers (asset group) and found that they no longer support revenue or income from continuing operations. This asset group was evaluated based on fair market value of like equipment for sale.

ADVERTISING

The Company expenses advertising production costs as they are incurred. Advertising costs for the years ended December 31, 2003 were approximately \$6,600.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and cash equivalents, prepaid expenses, other assets, and accounts payable carrying amounts approximate fair value.

WARRANTY RESERVES

The Company provides warranties to its new car customers of the earlier of three years or fifty thousand miles, only on parts and labor performed by the Company. Warranty reserve was \$20,535 as of December 31, 2003.

INCOME TAXES

Deferred income taxes arise from timing differences resulting from income and expense items reported for financial accounting and tax purposes in different periods. A deferred tax asset valuation allowance is recorded when it is more likely than not that deferred tax assets will not be realized. The financial statements reflect a deferred tax asset of approximately \$200,000 as of December 31, 2003 and a valuation allowance of the same amount, since the Company did not have the revenue history to support the future recognition of the deferred tax asset. It is more likely that the deferred tax asset will not be recognized. The deferred tax asset as of December 31, 2003 was restated as part of a quasi reorganization and presented as a \$0 balance.

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

Utilization of the net operating loss carry-forwards may be subject to a substantial annual limitation due to ownership change limitations provided by the Internal Revenue Code. The annual limitation may result in the expiration of net operating loss carry-forwards before utilization.

GOODWILL

The Company adopted SFAS No.142, "Goodwill and Other Intangible Assets," on January 1, 2002. As of the adoption date, the Company no longer amortizes goodwill over its useful life. Instead, goodwill is tested for impairment annually. The impairment test consists of two steps. In the first step, the Company determines the carrying value of each reporting unit by assigning the assets and liabilities, including the existing goodwill and intangible assets, to those reporting units. If the fair value of the reporting unit is greater than its carrying value, the test is completed and goodwill assigned to the reporting unit is not impaired. To the extent a reporting unit's carrying amount exceeds its fair value, an indication exists that the reporting unit's goodwill may be impaired, and the Company must perform the second step of the impairment test. In the second step, the Company must compare the implied fair value of the reporting unit's goodwill, determined by allocating the reporting unit's fair value to all of its assets (recognized and unrecognized) and liabilities in a manner similar to a purchase price allocation in accordance with SFAS No.141, to its carrying amount. The Company will recognize a goodwill impairment charge if the carrying amount of the goodwill assigned to the reporting unit is greater than the implied fair value of the goodwill. At December 31, 2003, the Company has not recognized an impairment loss.

NET INCOME (LOSS) PER SHARE

The Company has presented basic and diluted net income (loss) per share pursuant to SFAS No. 128, "Earnings per Share," and the Securities and Exchange Commission SAB No. 98. In accordance with SFAS No. 128, basic net income (loss) per share has been computed by dividing net income (loss) by the weighted-average number of shares of common stock outstanding during the period. Diluted net income (loss) per share includes the effect, if any, from the potential exercise or conversion of securities, such as stock options, which would result in the issuance of shares of common stock.

STOCK SPLIT

On August 26, 2003, prior to the reverse merger, the Company effected a 1-for-4 stock split of each outstanding share of common. All share data has been restated to reflect the stock split.

RECENT ACCOUNTING PRONOUNCEMENTS

In January 2003, the FASB issued Interpretation No. 46 ("Consolidation of Variable Interest Entities"). The interpretation defines a variable interest entity as corporation, partnership, trust or any other legal structure used for business purposes that either (a) does not have equity investors with voting rights nor (b) has equity investors that do not provide sufficient financial resources for the equity to support its activities. A variable interest entity often holds financial assets, including loans or receivables, real estate or other property. A variable interest entity may be essentially passive or it may engage in research and development or other activities on behalf of another company. This interpretation requires a variable interest entity to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. The Company would have to consolidate any of its variable interest entities that meet the above criteria

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

as of July 1, 2003. The interpretation also requires disclosures about variable interest entities that the company is not required to consolidate but in which it has a significant variable interest. Management is in the process of determining if its interests in unconsolidated entities qualify as variable interest entities and, if so, whether the assets, liabilities, non-controlling interest, and results of activities are required to be included in the Company's consolidated financial statements.

In May 2003, the FASB issued Statement No. 150 ("Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity"). This Statement establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. The Statement requires that an issuer classify a financial instrument that is within its scope as a liability (or an asset in some circumstances). Many of those instruments were previously classified as equity. The Company is currently classifying financial instruments within the scope of this Statement in accordance with this Statement. This Statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. Management does not believe that this Statement will have a material impact on the Company's financial statements.

3. CONCENTRATION OF CREDIT RISK

The amounts on deposit at December 31, 2003 did not exceed the \$100,000 federally insured limit for bank deposits. The Company purchases a significant portion of its inventory from two major suppliers. The relationships with these suppliers are significant to the ongoing operations of the business and are subject to licensing agreements.

4. SUPPLY INVENTORY

Supply inventory consist of the following components as of December 31, 2003:

Vehicle Chassis	\$	952,948
Parts		357,535

	\$	1,310,483
		=====

5. RELATED PARTY TRANSACTIONS

The Company is a party to a non-cancelable operating lease pertaining to the office and plant facilities. The lease term, as amended, expires in December 2007 with payments commencing in July 2003. The lease is to a related party.

The minimum lease commitment for the non-cancelable operating lease for the years ended is summarized as follows:

2004	\$	288,000
2005		288,000
2006		288,000
2007		288,000

	\$	1,152,000
		=====

Rental expense under all operating leases totaled approximately \$259,200 for the years ended December 31, 2003, that includes amortization of deferred rental

Edgar Filing: COACH INDUSTRIES GROUP INC - Form 10KSB/A

expense of approximately \$9,600 for the years ended December 31, 2003.

As of December 31, 2003 the Company had receivable balances for approximately \$31,593 due from related parties, respectively.

The Company maintained certain equipment used for manufacturing currently owned by a related party in anticipation of a pending purchase agreement for that equipment. Effective December 31, 2003, the Company acquired the equipment and inventory for \$859,147. The transaction was settled through a mortgage on property owned by a related party. The mortgage is not a liability of the Company and was considered an equity contribution from the related party.

During the year ended December 31, 2003, the Company issued 1.8 million shares of common stock to various related parties for future consulting services. The Company recognized approximately \$550,000 of amortization of deferred compensation relating to this issuance. The total value of these agreements is \$810,000 to settle past services, as well as future services to the Company which included approximately \$550,000 of deferred compensation for the year ended December 31, 2003 and approximately \$260,000 which was included in the retained deficit at the time of the reverse merger with CTMC. The \$260,000 represented services rendered prior to the reverse merger with CTMC. The shares of common stock were issued to these individuals with a three month restriction. The agreements are for consulting services for periods between 6 months to 2 years.

Related party accounts payables totaled \$305,739 at December 31, 2003 which were due for funding professional fees and cash flow requirements of CTMC and SCB.

Notes payable - related parties totaled \$613,659 at December 31, 2003 due to the former owner of SCB at December 31, 2003, specifically relating to chassis inventory purchased at acquisition.

6. ACQUISITIONS

On September 1, 2003, the Company acquired, through a reverse merger CTMC, a New York corporation specializing in the manufacturing and selling of limousines, was merged. The Company issued a stock for stock exchange of 3 million shares of common stock.

Effective December 31, 2003 the Company acquired certain assets and liabilities from SCB. The acquisition is valued at \$2.66 million based on 2 million shares of common stock, valued at \$1.33 per share on November 6, 2003. Management believes that the acquisition of certain assets and liabilities of SCB enabled the entree into the Midwestern and Western Markets through the Company's existing sales force, engineering expertise and management. The Company was able to assume the existing lease for the manufacturing facility in Springfield, which increased our manufacturing capacity and reduced our costs of our existing distribution in those markets.

The following is pro forma information for the year ended December 31, 2003, as if the reverse acquisition of Coach were consummated on January 1, 2003. The pro forma information is not necessarily indicative of the combined financial position or results of operations, which would have been realized had the acquisition been consummated during the period for which the pro forma financial information is presented.
