**FEMSA Delivers Double-Digit Growth in 4Q07
Full Year 2007 Revenues Reach US\$13.5 billion**

Monterrey, Mexico, February 19, 2008— Fomento Económico Mexicano, S.A.B. de C.V. (“FEMSA”) today announced its operational and financial results for the fourth quarter and full year 2007.

Fourth Quarter 2007 Highlights:

· **Consolidated total revenues increased 10.0% and income from operations increased 22.0%.** All operating units delivered double-digit growth in income from operations.

· **Coca-Cola FEMSA total revenues and income from operations increased 8.6% and 12.6%, respectively.**

Mexico income from operations increased in real terms for the second quarter in a row, combining with double-digit growth in Brazil to drive these results.

· **FEMSA Cerveza total revenues increased 7.5%.**

Sales volume grew a robust 6.0% in Mexico, 9.3% in Brazil and 19.3% in exports. Income from operations increased 43.9%. Strong top-line growth, combined with a decline in operating expenses, more than offset raw material pressure.

· **Oxxo continued its pace of double-digit growth and margin expansion,** driven by 326 net new stores in 4Q07 and 5% increase in same-store sales. Operating margin expanded by 130 basis points reaching 8.2%.

2007 Full Year Highlights:

· **Consolidated total revenues increased 8.4%.** All operating units contributed to this top-line growth.

· **Consolidated income from operations increased 6.0%,** driven by strong results at Coca-Cola FEMSA and Oxxo, which more than offset weakness at FEMSA Cerveza.

· **Consolidated net income increased 21.1% to Ps. 11.936 billion.**

· **Coca-Cola FEMSA total revenue and income from operations increased 8.1% and 11.7% respectively,** due to strong growth across its operations.

· **FEMSA Cerveza total revenues increased 4.3%.**

Income from operations decreased 11.7%, reflecting continued pressure on raw materials, lower average price per hectoliter and sustained investment in our brand portfolio.

· **Oxxo income from operations increased 39.1%,** resulting in an operating margin expansion of 100 basis points to 5.5%. This is Oxxo’s 6th consecutive year of delivering income from operations growth above 20% in real terms, driven by 716 net new stores

in the last twelve months.

José Antonio Fernández, Chairman and CEO of FEMSA, commented “Our full-year 2007 results provide a compelling example of the strength of our unique continental integrated platform. While FEMSA Cerveza faced significant headwinds from high raw material costs and intensified competition in Mexico, particularly in the first half of the year, our operations in Brazil continued to grow according to plan and our export volumes again grew in the double digits, driven by continued strong performance in the United States. For its part, Coca-Cola FEMSA delivered a strong set of numbers aided by growing profitability in Mexico and in most of its Central and South American markets. And Oxxo continued to grow at a rapid pace in every aspect of the business, recording its strongest year ever. All told, FEMSA delivered operating income growth of six percent in real terms for the year, a good outcome given the challenging environment. Just as importantly, the fourth quarter evidenced strong momentum at all of our operations, and we enter this new year with optimism that we will be able to successfully navigate what may turn out to be another challenging year, while we continue to build the unique system that is FEMSA”.

FEMSA Consolidated

Total revenues increased 10.0% to Ps. 38.808 billion in 4Q07 compared to 4Q06. This increase was primarily driven by total revenue growth of 15.6% at Oxxo, 8.6% at Coca-Cola FEMSA and 7.5% at FEMSA Cerveza, in each case as compared to 4Q06. For full year 2007, consolidated total revenues increased 8.4% compared to 2006 to Ps. 147.556 billion driven by growth in all of FEMSA’s operations.

Gross profit increased 11.0% to Ps. 18.207 billion in 4Q07, in spite of raw material cost pressures in the beverage businesses. Gross margin improvements at Oxxo and Coca-Cola FEMSA more than offset a decline at FEMSA Cerveza, resulting in a 40 basis point gross margin expansion over the same period in 2006 to 46.9% in 4Q07.

For full year 2007, gross profit increased 8.0% over 2006 to Ps. 67.755 billion. Gross margin improvements at Oxxo and Coca-Cola FEMSA partially offset raw material pressure at FEMSA Cerveza, resulting in a 20 basis point decline as compared to 2006, to 45.9% of total revenues.

Income from operations increased 22.0% to Ps. 5.797 billion in 4Q07 as compared to the same period in 2006, and operating margin expanded by 140 basis points to 14.9%, led by double-digit growth at FEMSA Cerveza, Oxxo and Coca-Cola FEMSA.

For full year 2007, income from operations increased 6.0% over 2006 to Ps. 19.569 billion. Our consolidated operating margin decreased 30 basis points compared to 2006 levels, reaching 13.3% of total revenues mainly reflecting pressure on the gross margin.

Net income increased 45.1% over 4Q06 to Ps. 3.612 billion in 4Q07, mainly as a result of the growth in income from operations and a shift from a loss in foreign exchange in 4Q06 to a gain in 4Q07. The effective tax rate was 31.5% in 4Q07, and 29.3% for the full year.

For full year 2007, net income increased 21.1% to Ps. 11.936 billion mainly driven by income from operations growth and a shift from a loss in foreign exchange in 2006 to a gain in 2007.

Net majority income increased 57.5% over 4Q06 resulting in Ps. 0.74 per FEMSA Unit¹ in 4Q07. Net majority income per FEMSA ADS, was US\$ 0.68 for the quarter. For full year 2007, net majority income per FEMSA Unit¹ was Ps. 2.38 (US\$2.18 per ADS).

¹ FEMSA Units consist of FEMSA BD Units and FEMSA B Units. Each FEMSA BD Unit is comprised of one Series B Share, two Series D-B Shares and two Series D-L Shares. Each FEMSA B Unit is comprised of five Series B

Shares. The number of FEMSA Units outstanding as of December 31, 2007 was 3,578,226,270 equivalent to the total number of FEMSA Shares outstanding as of the same date, divided by 5.

Capital expenditures increased 13.0% over 4Q06 to Ps. 3.915 billion in 4Q07, mainly reflecting increased investment in the beverage business units related to incremental capacity and distribution, as well as market-related investments. For full year 2007, capital expenditures increased 19.5% over 2006 to Ps. 11.257 billion.

Consolidated net debt: As of December 31, 2007, FEMSA recorded a cash balance of Ps. 10.456 billion (US\$ 958 million), an increase of Ps. 1.690 billion (US\$ 155 million). Short-term debt was Ps. 9.365 billion (US\$ 858 million) and long-term debt was Ps. 30.665 billion (US\$ 2.809 billion). In spite of the issuance of new bonds in the Mexican market used to refinance existing debt, and the investment in Jugos del Valle, our net debt declined Ps. 4.079 billion (US\$ 374 million) to Ps. 29.574 billion (US\$ 2.709 billion), mainly driven by our strong internal cash generation and, to a lesser extent, by the amortization of bank debt.

Soft Drinks - Coca-Cola FEMSA

Coca-Cola FEMSA's financial results and discussion are incorporated by reference from Coca-Cola FEMSA's press release, which is attached to this press release.

Beer - FEMSA Cerveza

The results of FEMSA Cerveza provided here now fully consolidate the results of our subsidiary Cervejarias Kaiser (in Brazil), which we acquired in January of 2006. Beginning with our 1Q07 results, all comparisons to prior periods fully reflect the Kaiser acquisition.

Mexico sales volume increased 6.0% over 4Q06 to 7.169 million hectoliters in 4Q07, despite strong comparable growth figures from the fourth quarter of 2006. This increase reflects healthy consumer demand during the quarter, aided by selective promotional activity especially during the holiday season, and favorable weather conditions. Growth was driven by our *Tecate*, *Sol* and *Indio* brand families throughout the country. For full year 2007, Mexico sales volume increased 3.9% to 26.962 million hectoliters, despite strong comparable growth figures in 2006 and adverse weather conditions mainly in the first and third quarters of 2007.

Brazil sales volume increased 9.3% over 4Q06 to 3.259 million hectoliters in 4Q07. This growth reflects positive trends for our brand portfolio that continues to develop according to our plan for the region. For full year 2007, Brazil sales volume increased 9.6% over 2006 to 9.795 million hectoliters, outpacing the growth of the Brazilian beer industry.

Export sales volume increased 19.3% over 4Q06 to 670 thousand hectoliters in 4Q07 mainly driven by increased demand for our *Dos Equis* and *Tecate* brands in the U.S. and for our *Sol* brand in other key markets. For full year 2007, export sales volumes achieved robust double-digit growth of 13.2% over 2006 to reach 3.183 million hectoliters.

Total revenues increased 7.5% over 4Q06 to Ps. 10.578 billion in 4Q07; solid volume growth and a real increase in average price per hectoliter drove these results.

Mexico price per hectoliter increased 1.0% over 4Q06 in real terms to Ps. 996.9 in 4Q07, resulting mainly from the positive pricing effect of incremental domestic volume brought under direct distribution as well as from more moderate promotional activity towards year-end. Conversely, Brazil price per hectoliter decreased 0.6% over 4Q06 in real terms to Ps. 593.1 in 4Q07, due to increased promotional activities ahead of the Brazilian summer. Export price per hectoliter increased 3.9% over 4Q06 to Ps. 1,072.7 in 4Q07.

For full year 2007, total revenues increased 4.3% over 2006 to Ps. 39.566 billion, driven by higher volumes that more than offset the decline in lower third-party packaging revenues and a slight decline in average price per hectoliter in real terms. Brazil beer revenues represented 14.9% of total revenues, up from 14.2% over full year 2006. Export beer revenues reached 8.4% of total revenues, up from 7.9% in 2006.

Cost of sales increased 8.4% over 4Q06 to Ps. 4.793 billion in 4Q07. This increase was mainly driven by total volume growth of 7.7% over 4Q06 and by the higher cost of raw materials, particularly grains and glass bottles. These were partially offset by the appreciation of the Brazilian Real as applied to our dollar-denominated costs, as well as by operating efficiencies. Gross profit increased 6.7% over 4Q06 to Ps. 5.785 billion in 4Q07, resulting in a gross margin of 54.7%, a decline of 40 basis points as compared to the same period of 2006.

For full year 2007, cost of sales increased 8.5% to Ps. 17.889 billion mainly driven by 5.9% total volume growth, higher raw material prices, particularly aluminum and grains, and incremental volumes coming from non-returnable presentations. Gross margin decreased by 170 basis points from 56.5% in 2006 to 54.8% in 2007.

Income from operations increased 43.9% over 4Q06 to Ps. 1.586 billion in 4Q07, a 380 basis point increase in operating margin to 15.0%. This increase was driven by strong top-line growth combined with a decline of 2.8% in operating expenses, driven by a reduction in one-time marketing expenses in Brazil attributable to the introduction of *Sol* in 2006, as well as by cost containment initiatives implemented.

For full year 2007, income from operations decreased 11.7% over 2006 to Ps. 5.404 billion, representing 13.7% of total revenues. Operating expenses increased 6.3% over 2006 to Ps. 16.273 billion, due to continued investment in channel development and brand-building activities for *Sol* and *Tecate* in Mexico as well as for *Dos Equis* and *Tecate* in the U.S, and stepped-up marketing activities in Brazil in connection with our *Sol* and *Kaiser* brands.

Oxxo Stores - FEMSA Comercio

Total revenues increased 15.6% over 4Q06 to Ps. 10.982 billion in 4Q07, primarily as a result of the opening of 326 net new Oxxo stores in the quarter, representing a total increase of 716 net new Oxxo stores during 2007. As of December 31, 2007, there were a total of 5,563 Oxxos in Mexico. For full year 2007, total revenues increased 14.3% over 2006 to Ps. 42.103 billion.

Same-store sales increased an average of 5.0% for the quarter over 4Q06, reflecting an 8.6% increase in store traffic, driven by a broadening product and service assortment offsetting a decrease of 3.3% in the average customer ticket. Traffic and ticket dynamics reflect the introduction of electronic air-time sales for customers of wireless telephone carriers, launched in recent months across the country, which drive incremental traffic to the store and for which only the margin is recorded, not the full amount of the air-time recharge.

For full year 2007 Oxxo same-store sales grew 3.3% over 2006, driven by a 4.4% increase in store traffic, which more than offset a 1.1% reduction in average ticket.

Gross profit increased by 20.0% in 4Q07 compared to 4Q06, a 110 basis point gross margin expansion to reach 30.3% of total revenues. This improvement was driven by better pricing strategies, improved commercial terms with our supplier partners, as well as by growth coming from higher-margin categories such as coffee and alternative beverages. For full year 2007, Oxxo gross margin expanded by 90 basis points over 2006 to 28.0%.

Income from operations increased 37.2% over 4Q06 to Ps. 896 million in 4Q07 due to operating leverage achieved from strong top-line growth. Operating expenses increased 14.7% over 4Q06 to Ps. 2.437 billion. Administrative expenses decreased 1.5% over 4Q06 to Ps. 196 million, as our initial capitalized investments in the Oracle ERP system have been fully amortized and broad expense-containment initiatives continue to bear fruit. Selling expenses as a percentage of total revenues remained stable at 20.3% in 4Q07. Oxxo's operating margin expanded 130 basis points over 4Q06 reaching its all-time high of 8.2% for any quarter, driven by gross margin expansion and by better fixed-expense absorption resulting from higher revenues.

For full year 2007, income from operations increased 39.1% over 2006 to Ps. 2.315 billion, resulting in an operating margin expansion of 100 basis points to 5.5% for the year.

Recent Developments

FEMSA successfully issued certificados bursátiles in the Mexican capital market.

In December 2007, we issued Ps. 3,500 million in 6-year *certificados bursátiles* at a rate of 28-day TIIE (“Tasa de Interés Interbancaria de Equilibrio - Equilibrium Interbank Interest Rate”) minus 0.05%, and Ps. 2,500 million in 10-year UDI bonds at a rate of Udibono plus 0.56%, which was swapped to TIIE under favorable conditions. The tranches were 4.5 and 2 times oversubscribed, respectively, in spite of challenging market conditions. The proceeds from this issuance were used entirely to refinance existing loans, improving FEMSA's cost of debt and significantly extending its maturity profile.

· Total revenues reached Ps. 18,361 million in the fourth quarter of 2007, an increase of 8.6% compared to the fourth quarter of 2006, and increased 8.1% for the full year to Ps. 69,251 million compared to the full year 2006.

· Driven by higher profitability from Mexico and strong growth in most of our South American operations, consolidated operating income increased 12.6% to Ps. 3,224 million for the fourth quarter of 2007, and 11.7% to Ps. 11,447 million for the full year. Our operating margin was 17.6% for the fourth quarter of 2007 and 16.5% for the full year.

· Consolidated majority net income increased 18.9% to Ps. 1,932 million in the fourth quarter of 2007, and 30.5% to Ps. 6,908 million for the full year, resulting in earnings per share of Ps. 1.05 for the fourth quarter of 2007, and Ps. 3.74 for the full year.

Mexico City (February 19, 2008), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest Coca-Cola bottler in Latin America and the second-largest Coca-Cola bottler in the world in terms of sales volume, announces

results for the fourth quarter and full year of 2007.

“Our company achieved record-breaking volume, revenue, and EBITDA for the year. As our Mexican operations continued to improve their profitability—recording their best quarter for the year—it was our markets outside of Mexico that drove our top- and bottom-line growth. Our growth is fueled by our winning marketplace execution as exemplified by our successful launch of innovative new products, led by *Coca-Cola Zero* and *Aquarius Fresh* in the sparkling beverages category. Our strong balance sheet and profitable operations have enabled us to deliver diversified free cash flow, reduce our debt, and finance additional acquisitions with cash from operations. During the quarter, our company and The Coca-Cola Company successfully closed the public tender offer for Jugos del Valle, and we are in the process of integrating other Coca Cola bottlers into the joint venture. In January, we had already started to distribute Jugos del Valle’s juice products in some of our Mexican market territories,” said Carlos Salazar Lomelín, Chief Executive Officer of the company.

CONSOLIDATED RESULTS

Our consolidated total revenues increased 8.6% to Ps. 18,361 million in the fourth quarter of 2007, compared to the fourth quarter of 2006, as a result of increases in most of our territories. Our consolidated average price per unit case increased 1.3% to Ps. 31.94 (US\$ 2.93) in the fourth quarter of 2007 compared to the same period of 2006, as a result of higher average prices in Mexico and other operations in our South American territories.

Total sales volume increased 6.7% to 558.4 million unit cases in the fourth quarter of 2007 as compared to the same period of 2006, mainly driven by a 5.8% volume growth of the *Coca-Cola* brand, which accounted for more than 55% of our total incremental volumes during the quarter. Sparkling beverages sales volume grew 6.7% to 478.4 million unit cases, driven by volume growth across most of our territories. The fourth quarter of 2007 represented 26.3% of total volumes for the year.

Our gross profit increased 13.9% to Ps. 9,011 million in the fourth quarter of 2007, compared to the fourth quarter of 2006, driven by increases in all of our operations. Gross margin reached 49.1% in the fourth quarter of 2007 from 46.8% in the same period of 2006. Lower sweetener costs in Brazil and Colombia in conjunction with lower PET (polyethylene terephthalate) costs in Mexico and Brazil more than compensated for higher sweetener costs mainly in Mexico and Argentina.

Our consolidated operating income increased 12.6% to Ps. 3,224 million in the fourth quarter of 2007. Double-digit increases in operating income in Brazil, Venezuela and Argentina combined with higher operating income in Mexico for the second quarter in a row, more than compensated for the decline in Colombia. Our operating margin was 17.6% in the fourth quarter of 2007, an improvement of 70 basis points as a result of higher fixed-cost absorption combined with lower sweetener costs in Brazil and Colombia.

As we mentioned in our first quarter press release, beginning in 2007, pursuant to Mexican Financial Reporting Standards, we recorded employee profit sharing in the "other expenses" line, instead of recording it in the "income tax" line. For comparison purposes we are reflecting this change in the 2006 information presented, which amounted to Ps. 13 million in the fourth quarter of 2006 and Ps. 68 million in the same period of 2007.

Additionally the "other expenses" line reflects lower expenses driven by a high comparable due to extraordinary expenses recorded for strategic projects in 2006.

Our integral cost of financing in the fourth quarter of 2007 reached a gain of Ps. 162 million as compared to a loss of Ps. 85 million in the same period of 2006, mainly driven by lower interest expenses due to lower gross debt and higher interest income coming from our higher cash position.

During the fourth quarter of 2007 income tax, as a percentage of income before taxes, was 38.28%, compared to 30.6% in the same quarter of 2006. The tax rate in the fourth quarter of 2007 was higher than the same period of 2006, mainly due to additional tax accruals in some of our operations.

Our consolidated majority net income increased by 18.9% to Ps. 1,932 million in the fourth quarter of 2007 compared to the fourth quarter of 2006, driven by an increase in our operating income, lower net interest expenses recorded this quarter compared to the fourth quarter of 2006 and the results in the "other expenses" line as mentioned above. Earnings per share (EPS) were Ps. 1.05 (US\$ 0.96 per ADR) computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares).

BALANCE SHEET

As of December 31, 2007, Coca-Cola FEMSA had a cash balance of Ps. 7,542 million (US\$ 691 million), an increase of Ps. 2,468 million (US\$ 226 million), compared to December 31, 2006, resulting from internal cash generation.

Total short-term debt, was Ps. 4,814 million (US\$ 441 million) and long-term debt was Ps. 14,102 million (US\$ 1,292 million). Total debt decreased Ps. 1,299 million (US\$ 119 million) compared with year end 2006. Net debt decreased approximately Ps. 3,770 million (US\$ 345 million) compared to year-end 2006, mainly as a result of internal cash generation. Our debt reduction figures were achieved notwithstanding our Ps. 2,198 million (US\$201 million) investment in the Jugos del Valle acquisition, net of reimbursements received from other Coca-Cola bottlers in Mexico as of December 31, 2007.

The weighted average cost of debt for the quarter was 8.01%. The following charts sets forth the Company's debt profile by currency and interest rate type and by maturity date as of December 31, 2007:

MEXICAN OPERATING RESULTS

Revenues

Total revenues from our Mexican territories increased 4.4% to Ps. 8,089 million in the fourth quarter of 2007, as compared to the same period of the previous year. Incremental volumes accounted for more than 80% of the incremental revenues during the quarter and higher price per unit case represented the balance. Average price per unit case increased 0.8% to Ps. 29.57 (US\$ 2.71), as compared to the fourth quarter of 2006 mainly driven by price increases from sparkling beverages. Excluding bulk water under the brand *Ciel*, our average price per unit case was Ps. 34.18 (US\$ 3.13), a 1.1% increase as compared to the same period of 2006.

Total sales volume increased 3.7% to 272.2 million unit cases in the fourth quarter of 2007, as compared to the fourth quarter of 2006, resulting from (i) a 2.6% sales volume growth in sparkling beverages, driven by a 3.6% increase in the Coca-Cola brands, (ii) sales volume growth in bulk water and (iii) incremental volumes of bottled water in single serve presentations.

Operating Income

Our gross profit increased by 5.6% to Ps. 4,355 million in the fourth quarter of 2007 as compared to the same period of 2006. Gross margin increased from 53.2% in the fourth quarter of 2006 to 53.8% in the same period of 2007, as a result of lower PET costs year-over-year, mainly driven by our light-weighting initiatives, which more than compensated for higher cost of sweeteners.

Operating income increased 3.7% to Ps. 1,719 million in the fourth quarter of 2007, as compared to Ps. 1,657 million in the same period of 2006 as a result of operating leverage achieved by higher revenues as compared to the same period of 2006. Our operating margin was 21.3% in the fourth quarter of 2007, a decline of 10 basis points as compared to the same period of 2006.

CENTRAL AMERICAN OPERATING RESULTS (Guatemala, Nicaragua, Costa Rica and Panama)

Revenues

Total revenues reached Ps. 1,227 million in the fourth quarter of 2007, an increase of 0.7% compared to the same period of 2006. Volume growth offset lower average prices per unit case. Average price per unit case declined by 2.8% to Ps. 36.19 (US\$ 3.32) in the fourth quarter of 2007, as compared to the fourth quarter of 2006, as a result of strong volume growth in multi-serve presentations, which carry a lower average price per unit case.

Total sales volume in our Central American territories grew 3.7% to 33.9 million unit cases in the fourth quarter of 2007, as compared to the same period of 2006, resulting from incremental volumes in the sparkling beverage category, which accounted for more than 75% of the growth; the balance was brought mainly by still beverages. In the fourth quarter of 2007, sales volume of still beverages, excluding bottled water, increased almost 20% as compared to the same period of 2006 due to strong growth of *Hi-C*, a juice based product line, and *Powerade*, an isotonic beverage.

Operating Income

Gross profit reached Ps. 568 million, an increase of 0.7% in the fourth quarter of 2007, as compared to the same period of 2006, as a result of lower costs driven by the appreciation of local currencies as applied to the U.S. dollar-denominated raw materials combined with light-weighting PET initiatives. Gross margin remained flat at 46.3% in the fourth quarter of 2007, compared to the fourth quarter of 2006.

Our operating income increased 9.6% to Ps. 205 million in the fourth quarter of 2007, as compared to the fourth quarter of 2006, driven by higher fixed cost absorption. Our operating margin reached 16.7% in the fourth quarter of 2007, expanding 130 basis points as compared to the same period of 2006.

COLOMBIAN OPERATING RESULTS

Revenues

Total revenues declined 3.0% to Ps. 1,782 million in the fourth quarter of 2007, as compared to the fourth quarter of 2006. Our average price per unit case declined 1.2% to Ps. 33.81 (US\$ 3.10). A decline in sales volumes accounted for more than 60% of the revenue decrease during the quarter and lower price per unit case represented the balance.

Total sales volume in the fourth quarter of 2007 declined 1.9%, as compared to the same period of the previous year, reaching 52.7 million unit cases lapping over a 12.3% growth in the fourth quarter of 2006. Volume growth in bottled water, excluding bulk water, combined with growth in the still beverages, partially offset a volume decline in sparkling beverages.

Operating Income

Our gross profit increased 10.8% to Ps. 913 million in the fourth quarter of 2007, as compared to the same period of the previous year. The 10% appreciation of the Colombian peso as applied to our U.S. dollar denominated raw materials combined with lower sweetener costs and operating efficiencies, resulted in a gross margin expansion of 640 basis points from 44.8% in the fourth quarter of 2006 to 51.2% in the fourth quarter of 2007.

Our operating income decreased 6.6% to Ps. 310 million in the fourth quarter of 2007, as compared to the fourth quarter of 2006. Incremental gross profit partially compensated (i) higher marketing expenses, (ii) higher breakage costs, and incremental distribution fleet maintenance expenses. Our operating margin reached 17.4% in the fourth

quarter of 2007, a contraction of 70 basis points as compared to the same period of 2006.

17

VENEZUELAN OPERATING RESULTS

Revenues

Total revenues from our Venezuelan operations increased 21.9% to Ps. 2,627 million in the fourth quarter of 2007, as compared to the same period of 2006. Incremental volumes accounted for more than 65% of the incremental revenues during the quarter and higher price per unit case represented the balance. Our average price reached Ps. 46.00 (US\$ 4.21) in the fourth quarter of 2007.

Total sales volume increased 14.5% to 57.0 million unit cases during the fourth quarter of 2007, as compared to the same quarter of 2006. We posted double digit volume growth in the flavored sparkling beverages category, driven by *Freskolita* and *Hit* combined with growth of the Coca-Cola brand.

Operating Income

Gross profit reached Ps. 1,051 million, an increase of 34.6% in the fourth quarter of 2007, as compared to the same period of the previous year. Higher revenues combined with lower PET costs improved our gross margin by 380 basis points from 36.2% in the fourth quarter of 2006 to 40.0% in the same period of 2007.

Operating income increased 72.0% to Ps. 172 million, in the fourth quarter of 2007 compared to the same period of 2006. Operating expenses as a percentage of total revenues increased from 31.6% in the fourth quarter of 2006 to 33.5% in the same period of 2007, mainly due to higher labor costs. Higher revenues combined with lower costs of raw material more than offset higher operating expenses in the quarter, resulting in an operating margin increase of 190 basis points from 4.6% in the fourth quarter of 2006 to 6.5% in the fourth quarter of 2007, which continues to be the lowest among our territories.

ARGENTINE OPERATING RESULTS

Revenues

In Argentina, our total revenues reached Ps. 1,277 million in the fourth quarter of 2007, as a result of increases in sales volume and better average price per unit case. Incremental volumes accounted for more than 75% of the incremental revenues during the quarter and higher price per unit case represented the balance. Average price per unit case reached Ps. 22.48 (US\$ 2.05) in the fourth quarter of 2007, which continues to be the lowest among our territories.

In the fourth quarter of 2007, total sales volume increased 14.4% to 54.9 million unit cases, as compared to the same period of 2006. Sales volume growth was driven by incremental volumes from the Coca-Cola brand, mainly by the introduction of *Coca-Cola Zero*, combined with the growth of flavored sparkling beverages.

Operating Income

Gross profit increased 25.4% to Ps. 504 million in the fourth quarter of 2007, as compared to the fourth quarter of 2006. Higher revenues compensated for higher sweetener costs, resulting in a gross margin expansion of 90 basis points to 39.5%, as compared to the fourth quarter of 2006.

Operating expenses increased 31.8% in the fourth quarter of 2007, mainly due to higher salary expenses and freight costs. Higher revenues offset incremental expenses, resulting in an increase in operating income of 13.5% to Ps. 160 million in the fourth quarter of 2007, as compared to the same period of 2006. Our operating income margin reached 12.5% in the fourth quarter of 2007.

BRAZILIAN OPERATING RESULTS

Revenues

Net revenues increased 15.4% to Ps. 3,359 million in the fourth quarter of 2007, as compared to the same period of 2006. Excluding beer, net revenues increased 14.2% to Ps. 2,920 million in the fourth quarter of 2007, as compared to the same period of 2006, mainly due to volume growth. Excluding beer, average price per unit case slightly declined to Ps. 33.30 (US\$ 3.05) during the fourth quarter of 2007. Total revenues from beer were Ps. 430 million in the fourth quarter of 2007.

Sales volume, excluding beer, increased 14.5% to 87.7 million unit cases in the fourth quarter of 2007, as compared to the fourth quarter of 2006. Sparkling beverages sales volume growth accounted for more than 95% of the incremental volumes, mainly driven by the Coca-Cola brand in multi-serve presentations and the introduction of *Coca-Cola Zero*. Still beverages, excluding bottled water, grew more than 45% in the quarter, driven by strong performance of *Minute Maid Mais*, a juice based beverage line.

Operating Income

In the fourth quarter of 2007, our gross profit increased 33.0% to Ps. 1,620 million, as compared to the same period of the previous year. Lower average cost per unit case, resulting from (i) lower PET bottle costs, (ii) lower sugar costs and (iii) the appreciation of the Brazilian Real as applied to our U.S. dollar-denominated raw materials, contributed to a gross margin improvement of 630 basis points to 48.2% in the fourth quarter of 2007.

Operating income increased 47.9% reaching Ps. 658 million in the fourth quarter of 2007, as compared to Ps. 445 million in the same period of 2006. Our operating margin was 19.6% in the fourth quarter of 2007, an increase of 430 basis points as compared to the fourth quarter of 2006, due to an expansion in gross margin that more than compensated for expenses related to improving our go-to-market management and execution, reconfiguring our distribution network and expenses related to product introductions.

SUMMARY OF FULL YEAR RESULTS

Our consolidated total revenues increased 8.1% to Ps. 69,251 million in 2007, as compared to 2006, as a result of growth in all of our territories, with Mexico, Brazil and Venezuela representing more than 75% of this growth. Consolidated average price per unit case increased 1.9% to Ps. 32.15 (US\$ 2.95) in 2007. Higher average prices per unit case for the sparkling beverages portfolio in most of our operations, more than offset incremental volumes of bulk water in Mexico, which carry lower average unit price per unit case. In 2007, the operations outside Mexico contributed 53% of consolidated revenues.

Total sales volume increased 6.1% to 2,120.8 million unit cases in 2007, as compared to the previous year. Sales volume growth in Mexico, Brazil and Venezuela accounted for more than 75% of our incremental volumes. Sparkling beverages sales volume grew 5.7% to 1,791.0 million cases, driven by incremental volume across all of our territories. In 2007, the operations outside Mexico contributed 51% of consolidated sparkling beverage volumes.

Our gross profit increased 10.1% to Ps. 33,370 million in 2007, as compared to the previous year, driven by revenue growth across all of our territories. Gross margin increased to 48.2% in 2007 from 47.3% in 2006, driven by revenue growth, which more than compensated for higher sweetener costs in Mexico.

Our consolidated operating income increased 11.7% to Ps. 11,447 million in 2007, as compared to 2006. Brazil, Colombia and Venezuela accounted for the majority of the incremental growth and more than offset a slight operating income decline in Mexico. Our consolidated operating margin grew 50 basis points to 16.5% in 2007, mainly driven by the improved operating leverage that resulted from higher revenues.

Our consolidated majority net income was Ps. 6,908 million in 2007 an increase of 30.5% compared to 2006, resulting from an increase in operating income combined with a decline in our integral cost of financing. EPS were Ps. 3.74 (US\$ 3.42 per ADR) in 2007, computed on the basis of 1,846.5 million shares outstanding (each ADR represents 10 local shares).

RECENT DEVELOPMENTS

- On October 10, 2007, a joint venture company owned indirectly in equal proportion by Coca-Cola FEMSA, S.A.B. de C.V. ("Coca Cola FEMSA") and The Coca-Cola Company (NYSE: KO), launched a Public Tender Offer ("Tender Offer") to buy 100% of the shares representative of the capital stock of the company Jugos del Valle, S.A.B. de C.V. ("Jugos del Valle") for approximately US\$370 million in cash, equivalent to a price of US\$6.3409 per share, assuming liabilities of approximately US\$86 million. On November 8th 2007, Coca-Cola FEMSA and The Coca-Cola Company informed the public that the Tender Offer concluded successfully, and the joint venture company acquired shares representing 100% of Jugos del Valle's outstanding capital stock. This transaction was approved by the Mexican regulatory authorities and carried out in Mexico. The rest of the bottlers of The Coca-Cola Company branded products in Mexico and Brazil, respectively, will be incorporated to the joint venture.
- In the fourth quarter of 2007 we sold certain proprietary brands to The Coca-Cola Company, which we mainly distribute in our Latincentro division.
