**FORM 10-QSB**

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended April 30, 2008

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE EXCHANGE ACT

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission file number 000 28489

Advaxis, Inc.

(Exact name of small business issuer as specified in its charter)

Delaware  
(State or other jurisdiction of incorporation or  
organization)

02-0563870  
(IRS Employer Identification No.)

The Technology Center of New Jersey, 675 Route 1, Suite B113, North Brunswick, NJ 08902

(Address of principal executive offices)

(732) 545-1590

(Issuer's telephone number)

(Former name, former address and former fiscal year, if changed since last report)

Edgar Filing: Advaxis, Inc. - Form 10QSB

Check whether the issuer (1) filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the past 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes  No

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b of the Exchange Act).

Yes  No

State the number of shares outstanding of each of the issuer's classes of common equity, as of April 30, 2008:

109,073,676 shares outstanding of the Company's Common Stock, par value \$.001 per share

Transitional Small Business Disclosure Format (Check one): Yes  No

**Persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB control number.**

**ADVAXIS, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**

**1. Business description**

We are a development stage biotechnology company utilizing multiple mechanisms of immunity with the intent to develop cancer vaccines that are more effective and safer than existing vaccines. To that end, we have licensed rights from the University of Pennsylvania (“Penn”) to use a patented system to engineer a live attenuated *Listeria monocytogenes* bacteria (the “*Listeria System*”) to secrete a protein sequence containing a tumor-specific antigen. Using the *Listeria System*, we believe we will force the body’s immune system to process and recognize the antigen as if it were foreign, creating the immune response needed to attack the cancer. Our licensed *Listeria System*, developed at Penn over the past 10 years, provides a scientific basis for believing that this therapeutic approach induces a significant immune response to a tumor. Accordingly, we believe that the *Listeria System* is a broadly enabling platform technology that can be applied to many types of cancers. In addition, we believe there may be useful applications in infectious diseases and auto-immune disorders. The therapeutic approach that comprises the *Listeria System* is based upon the innovative work of Yvonne Paterson, Ph.D., Professor of Microbiology at Penn, involving the creation of genetically engineered *Listeria* that stimulate the innate immune system and induce an antigen-specific immune response involving humoral and cellular components. On July 1, 2002 (effective date) we entered into an exclusive 20-year license from Penn to exploit the *Listeria System*, subject to meeting various royalty and other obligations (the “*Penn License*”) which was amended and restated on February 13, 2007. The First Amendment to the Amended and Restated Patent License Agreement was entered into on March 26, 2007 to exercise its option to license an additional *Listeria*-Based and LLO-Based Vaccine patent/docket and have agreed to license 12 other patents/dockets.

We have focused our initial development efforts on five lead compounds. In February 2006 we commenced a Phase I clinical study of Lovaxin C, a vaccine with a potential for treatment of cervical cancer. We completed this clinical study in the fourth fiscal quarter 2007 after 15 patients with end-stage cervical cancer were dosed with Lovaxin-C. This study was conducted in Mexico, Serbia and Israel. Our trial objective was achieved. The objective of this trial was to establish a range of safe doses up to a maximally tolerated dose, which was achieved.

Based upon the outcome of our Phase I trial in advanced cervical cancer, we plan on undertaking a Phase II trial in Stage 2/3 Cervical Intraepithelial Neoplasia (CIN). Stage 3 CIN is carcinoma *in situ*, and is a non-invasive form of cervical cancer. Stages 1 and 2 CIN are commonly called cervical dysplasia. Thus CIN is the name of the disease that can increase in severity to become invasive cervical cancer. While CIN frequently regresses spontaneously, over 250,000 surgical procedures are performed in the US annually to prevent progression from CIN to invasive cancer. We have filed an Investigational New Drug (“IND”) with the U.S. Food and Drug Administration on May 16, 2008. This application includes a Phase II protocol for Lovaxin C, Advaxis’ lead drug candidate, for the treatment of CIN to be conducted in the U.S. The filing requires a certificate of analysis for the Company’s second clinical batch, which is currently being release tested and the certificate of analysis is anticipated to be issued within the next few weeks. The CIN study is scheduled to begin this summer pending the completion of the IND review, attaining the certificate of analysis and approval by the FDA.

The accompanying unaudited interim financial statements include all adjustments (consisting only of those of a normal recurring nature) necessary for a fair statement of the results of the interim period. These interim Financial Statements should be read in conjunction with the Company’s Financial Statements and Notes for the year ended October 31, 2007 filed on Form 10-KSB. We believe these financial statements reflect all adjustments (consisting only of normal, recurring adjustments) that are necessary for a fair presentation of our financial position and results of operations for the periods presented. Results of operations for the interim periods presented are not necessarily indicative of results to be expected for the year.

The preparation of financial statements in conformity with U.S. Generally Accepted Accounting Principles requires management to make estimates and assumptions that affect the reported amounts and the disclosure of contingent amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has suffered losses that raise substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Since our inception until April 30, 2008, the Company has reported accumulated net losses of \$15,127,529 and recurring negative cash flows from operations. In order to maintain sufficient cash and investments to fund future operations, we are seeking to raise additional capital in fiscal year 2008 through various financing alternatives. If additional capital were raised through the sale of equity or convertible debt securities, the issuance of such securities would result in additional dilution to our existing stockholders. We believe that the offering proceeds for the October 17, 2007 raise will be sufficient to sustain our plan of operations for the next three months. However, the company cannot provide assurances that our plans will not change, or that changed circumstances will not result in the depletion of capital resources more rapidly than anticipated. If we are unable to obtain additional sources of financing or generate sufficient cash flows from sufficient capital, it could create a material adverse effect on future operating prospects of the Company.

Since inception through April 30, 2008, all of the Company's revenue has been from grants. For the three and six month period ended April 30, 2008, all of the revenue was received from the New Jersey Commission on Science and Technology.

**Intangible Assets:**

Intangible assets primarily consist of legal and filing costs associated with obtaining trademarks, patents and licenses. The license and patent costs capitalized primarily represent the value assigned to the Company's 20-year exclusive worldwide license agreement with Penn which are amortized on a straight-line basis over their remaining useful lives which are estimated to be twenty years from the effective date of Penn Agreement dated July 1, 2002. The value of the license and patents are based on management's assessment regarding the ultimate recoverability of the amounts paid and the potential for alternative future uses. This license includes the exclusive right to exploit 12 issued patents and the rights to exploit the majority of the 55 pending patents subject to finalization of the Second Amendment to the Amended and Restated Agreement. The Company exercised its option under the Second Amended and Restated Patent License Agreement to license a majority of these pending patents for a fee of \$311,000 but has not finalized this Agreement. As of the date of this filing we are negotiating in a period of good faith on the form of payment. As of April 30, 2008, all gross capitalized costs associated with the licenses and patents filed and granted as well as costs associated with patents pending are \$1,271,502 (excluding the Second Amendment) as shown under license and patents on the table below. The \$1,271,502 capitalized cost the cost of the patents and licenses issued is estimated to be \$613,743 and cost of the patents pending or in process of filing is estimated to be \$657,759. The expirations of the existing patents range from 2014 to 2020. Capitalized costs associated with patent applications that are abandoned without future value are charged to expense when the determination is made not to pursue the application. No patent applications without value were abandoned and charged to expense in the current or prior year. Amortization expense for licensed technology and capitalized patent cost is included in general and administrative expense.

Under the amended and restated agreement we are billed actual patent expenses as they are passed through from Penn. The following is a summary of the intangibles assets as of the following fiscal periods:

	October 31, 2007	April 30, 2008	Increase (Decrease)
Trademark	\$ 87,857	\$ 94,912	\$ 7,055
License	496,127	529,915	33,788
Patents	663,283	741,587	78,304
Total intangibles	1,247,267	1,366,414	119,147
Accumulated Amortization	(149,132)	(183,476)	(34,344)
Intangible Assets	\$ 1,098,135	\$ 1,182,938	\$ 84,803

The Company reviews long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An asset is considered to be impaired when the sum of the undiscounted future net cash flows expected to result from the use of the asset and its eventual disposition exceeds its carrying amount. The amount of impairment loss, if any, is measured as the difference between the net book value of the asset and its estimated fair value.

**Loss Per Share:**

Basic loss per share is computed by dividing net loss by the weighted-average number of shares of common stock outstanding during the periods. Diluted earnings per share gives effect to dilutive options, warrants, convertible debt and other potential common stock outstanding during the period. Therefore, the impact of the potential common stock resulting from warrants, outstanding stock options and convertible debt are not included in the computation of diluted loss per share, as the effect would be anti-dilutive. The table sets forth the number of potential shares of common stock that have been excluded from diluted net loss per share

As of	As of
April 30, 2007	April 30, 2008

Edgar Filing: Advaxis, Inc. - Form 10QSB

Warrants	25,009,220	87,883,769
Stock Options	8,512,841	8,812,841
Convertible Debt (1)	7,861,189	-
Total All	41,383,250	96,696,610

(1) Conversion of the outstanding principal of \$2,539,164 converted at 95% of the April 30, 2007 closing price of \$0.340 per share or \$0.323 per share.

**Uncertain Tax Provisions:**

Effective November 1, 2007 the Company adopted FASB Interpretation No. 48 “Accounting for Uncertainty in Income Taxes (an interpretation of FASB Statement No. 109)” (“FIN 48”). FIN 48 clarifies the accounting for uncertainty in tax positions and requires that companies recognize in their financial statements the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. The adoption of FIN 48 in the first quarter of fiscal 2008 did not have an impact on the Company’s financial condition or results of operations.

### **Secured Convertible Debenture:**

Pursuant to a Securities Purchase Agreement dated February 2, 2006 (\$1,500,000 principal amount) and March 8, 2006 (\$1,500,000 principal amount) we issued to Cornell Capital Partners, LP (“Cornell”) \$3,000,000 principal amount of the Company’s Secured Convertible Debentures due February 1, 2009 (the “Debentures”) at face amount, five year Warrants to purchase 4,200,000 shares of Common Stock at the price of \$0.287 per share and five year Warrants to purchase 300,000 shares of Common Stock at a price of \$0.3444 per share.

The Company measured the fair value of the warrants and embedded conversion features at each reporting date using the Black-Scholes-Merton valuation model based on the current assumptions at that point in time. This calculation has resulted in a fair market value significantly different than the previous reporting period. The increase or decrease in the “fair market value of the warrants and embedded conversion feature at each period results in a non-cash income or expense that is recorded in “other income (expense)” in the Statement of Operations along with corresponding changes in fair value of the liability.

The Company measured the fair value of the warrants on the date of each reporting period until the debt was extinguished on October 17, 2007. Changes that occurred in the three and six month period ending April 30, 2007 resulted in an increase in the fair value of the warrants and embedded derivative of \$1,729,549 and \$446,678, respectively recorded in the Statement of Operations as “expense to net change in fair value of common stock warrant and embedded derivative liability”.

### **Item 2. Management’s Discussion and Analysis**

The Company has included in this Quarterly Report certain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 concerning the Company’s business, operations and financial condition. “Forward-looking statements” consist of all non-historical information, and the analysis of historical information, including the references in this Quarterly Report to future revenues, collaborative agreements, future expense growth, future credit exposure, earnings before interest, taxes, depreciation and amortization, future profitability, anticipated cash resources, anticipated capital expenditures, capital requirements, and the Company’s plans for future periods. In addition, the words “could”, “expects”, “anticipates”, “objective”, “plan”, “may affect”, “may depend”, “believes”, “estimates”, “projects” and similar words and phrases are also intended to identify such forward-looking statements.

Actual results could differ materially from those projected in the Company’s forward-looking statements due to numerous known and unknown risks and uncertainties, including, among other things, unanticipated technological difficulties, the length, scope and outcome of our clinical trial, costs related to intellectual property, cost of manufacturing and higher consulting costs, product demand, changes in domestic and foreign economic, market and regulatory conditions, the inherent uncertainty of financial estimates and projections, the uncertainties involved in certain legal proceedings, instabilities arising from terrorist actions and responses thereto, and other considerations described as “Risk Factors” in other filings by the Company with the Securities and Exchange Commission. Such factors may also cause substantial volatility in the market price of the Company’s Common Stock. All such forward-looking statements are current only as of the date on which such statements were made. The Company does not undertake any obligation to publicly update any forward-looking statement to reflect events or circumstances after the date on which any such statement is made or to reflect the occurrence of unanticipated events.

### ***Plan of Operations***

We were originally incorporated in the state of Colorado on June 5, 1987 under the name Great Expectations, Inc. We were administratively dissolved on January 1, 1997 and reinstated June 18, 1998 under the name Great Expectations and Associates, Inc. In 1999, we became a reporting company under the Securities Exchange Act of 1934 (the

“Exchange Act”). Until November 2004, we were a publicly-traded “shell” company without any business until November 12, 2004 when we acquired Advaxis, Inc., a Delaware corporation (“Advaxis”), through a Share Exchange and Reorganization Agreement, dated as of August 25, 2004 (the “Share Exchange”), by and among Advaxis, the stockholders of Advaxis and us. As a result of such acquisition, Advaxis became our wholly-owned subsidiary and our sole operating company. On December 23, 2004, we amended and restated our articles of incorporation and changed our name to Advaxis, Inc. On June 6, 2006 our shareholders approved the reincorporation of the Company from the state of Colorado to the state of Delaware by merging the Company into its wholly-owned subsidiary, which was effected on June 20, 2006. As used herein, the words “Company” and “Advaxis” refer to the current Delaware Corporation only unless the context references such entity prior to the June 20, 2006 reincorporation into Delaware. Our principal executive offices are located at Technology Centre of NJ, 675 US Highway One, North Brunswick, NJ 08902 and our telephone number is (732) 545-1590.

On July 28, 2005 we began trading on the Over-The-Counter Bulletin Board (OTC:BB) under the ticker symbol ADXS.

We are a biotechnology company utilizing multiple mechanisms of immunity with the intent to develop cancer vaccines that are more effective and safer than existing vaccines. We believe that by using our licensed Listeria System to engineer a live attenuated Listeria monocytogenes bacteria to secrete a protein sequence containing a tumor-specific antigen, we will force the body’s immune system to process and recognize the antigen as if it were foreign, creating the immune response needed to attack the cancer. The licensed Listeria System, developed at Penn over the past 10 years, provides a scientific basis for believing that this therapeutic approach induces a significant immune response to the tumor. Accordingly, we believe that the Listeria System is a broadly enabling platform technology that can be applied in many cancers, infectious diseases and auto-immune disorders.

We have no customers. We are in the development stage and have focused our initial development efforts on five lead compounds. In February 2006 we received governmental approvals in Mexico, Israel and Serbia to commence in those countries a Phase I clinical study of Lovaxin C, a vaccine with a potential for treatment of cervical and neck cancer. We completed this clinical study in the fourth fiscal quarter 2007. The study included 15 patients with advanced cervical cancer and met our trial objectives.

### **Three months ended April 30, 2008 Compared to the three months ended April 30, 2007**

*Revenue.* Our revenue increased by \$10,062, or 128%, to \$17,956 for the three months ended April 30, 2008 (the "Fiscal 2008 Quarter") as compared with \$7,894 for the three months ended April 30, 2007 (the "Fiscal 2007 Quarter") primarily due to the increased grant money received from the State of New Jersey in the Fiscal 2008 Quarter as compared to the Fiscal 2007 Quarter.

*Research and Development Expenses.* Research and development expenses increased by \$134,383, or 25%, to \$664,875 for the Fiscal 2008 Quarter as compared with \$530,492 for the Fiscal 2007 Quarter, principally attributable to the following:

- Clinical trial expenses decreased by \$128,370, or 79%, to \$34,123 from \$162,493 due to our higher clinical trial activity in the Fiscal 2007 Quarter compared to the close out phase in the Fiscal 2008 Quarter.
- Wages, options and lab costs increased by \$96,054, or 50% to \$288,152 from \$192,098 principally due to our expanded research & development efforts, the hiring of an Executive Director of Product Development, a wage increase on November 1, 2007 and a small increase in bonus.
- Consulting expenses decreased by \$68,959, or 59%, to \$47,112 from \$116,071, primarily reflecting lower stock option expenses in Fiscal 2008 Quarter compared to higher stock prices and option expenses in the same period last year.
- Subcontracted research expenses increased by \$17,710, or 80%, to \$39,900 from \$22,190, primarily reflecting the increased subcontract work performed by Dr. Paterson at Penn, pursuant to the our sponsored research agreement in the second quarter Fiscal 2008 Quarter compared to the same period last year.
- Manufacturing expenses increased by \$255,588, to \$255,588 from \$0; the result of the ongoing clinical supply program for our upcoming Phase II trial in the Fiscal 2008 Quarter compared to no manufacturing program in the Fiscal 2007 Quarter.
- Toxicology study expenses decreased by \$37,640, to \$0 due to expenses incurred in the Fiscal 2007 Quarter as a result of a toxicology study by Pharm Olam in connection with our Lovaxin C product candidates in anticipation of clinical studies in 2008. No such expenses were incurred in the Fiscal 2008 Quarter.

*General and Administrative Expenses.* General and administrative expenses decreased by \$31,299, or 3%, to \$971,530 for the Fiscal 2008 Quarter as compared with \$1,002,829 for the Fiscal 2007 Quarter, primarily attributable to the following:

- Wages, Options and benefit expenses increased by \$102,566, or 41% to \$355,407 from \$252,841 primarily due to the increase of the Chief Executive Officer's ("CEO") base pay (\$25,000) and stock compensation (\$71,250) per his employment agreement and overall higher wages for employees due to a wage increase on November 1, 2007.
- Consulting fees and expenses decreased by \$284,901, or 58%, to \$206,590 from \$491,491. This decrease was primarily attributed to an amendment to Mr. Appel's (LVEP Management, LLC ("LVEP")) consulting agreement in the Fiscal 2007 Quarter partially offset by a settlement agreement in the Fiscal 2008 Quarter which resulted in: (i) a decrease of \$406,657 in option expense recorded in the Fiscal 2007

Quarter primarily due to an amendment of Mr. Appel's (LVEP) consulting agreement compared to no option expense recorded in the Fiscal Quarter 2008, (ii) a net decrease of \$78,125 in of Mr. Appel's consulting expenses recorded in the Fiscal 2008 Quarter and compared to those recorded in the Fiscal 2007 Quarter, partially offset by (iii) his \$130,000 settlement payment in the Fiscal 2008 Quarter in cash and \$14,615 in shares of common stock of the Company as part of a settlement agreement in the Fiscal 2008 Quarter. Mr. Appel's net decreases (i-iii) were also partially offset by increases in other consulting expenses due to higher financial advisor fees of \$66,600 recorded in the Fiscal 2008 Quarter versus the fees for other consultants in the Fiscal 2007 Quarter.

- Legal, accounting, professional and public relations expenses decreased by \$49,097, or 30%, to \$116,368 from \$165,465, due to higher patent and accounting expenses offset by fewer security filings in the Fiscal 2008 Quarter versus the Fiscal 2007 Quarter.
- Recruiting fees for the Executive Director of Product Development in the Fiscal 2008 Quarter increased by \$62,295 to \$63,395 versus \$1,100 compared to the Fiscal 2007 Quarter.
- Analysis research cost increased by \$97,750 to \$97,990 from \$240. This increase consists of \$55,240 in warrant expense recorded based on the Black-Scholes calculation with the balance being payments for fees and printing for the Crystal Research Report.
- Overall occupancy, investor conference and related travel expenses in Fiscal 2008 Quarter increased by \$36,493 or 54% from \$67,759 to \$104,252 primarily due to higher attendance at scientific and investor conferences compared to the Fiscal 2007 Quarter.

- Amortization of intangibles and depreciation of fixed assets increased by \$3,596, or 15%, to \$27,528 from \$23,932 primarily due to an increase in fixed assets and intangibles in the Fiscal 2008 Quarter compared to the Fiscal 2007 Quarter.

*Other Income (expense).* Other Income (expense) increased by \$1,619,286 to \$9,169 income for the Fiscal 2008 Quarter from expense of (\$1,610,117) for the Fiscal 2007 Quarter. During the Fiscal 2007 and the Fiscal 2008 Quarters, we recorded interest expense of (\$212,181) and (\$1,945) respectively, primarily related to interest accrued on our outstanding secured convertible debenture issued on February 2 and March 8, 2006. Interest income earned on investments for the Fiscal 2007 and Fiscal 2008 Quarters amounted to \$11,646 and \$11,114, respectively. In the Fiscal 2007 Quarter there was a net change of (\$1,729,549) in the fair value of common stock warrants and embedded derivative liabilities recorded as expense (non-cash item) compared to the fair values as of October 31, 2006 of the secured convertible debenture. There was a \$319,967 gain on retirement due to the University of Pennsylvania Amended and Restated License Agreement recorded in the Fiscal 2007 Quarter. There were no comparable entries in the Fiscal 2008 Quarter as the warrant and embedded derivative liability was settled in October 2007 and the gain in retirement in the Fiscal 2007 Quarter was settled in the Fiscal 2007 Quarter.

#### **Six months ended April 30, 2008 Compared to the six months ended April 30, 2007**

*Revenue.* Our revenue decreased by \$113,842, or 74%, to \$40,359 during the Fiscal 2008 Period as compared with \$154,201 during the Fiscal 2007 Period primarily due to the decreased grant money of \$133,850 received from the National Cancer Institute in the Fiscal 2007 Period not repeated in the Fiscal 2008 Period partially offset by the increased grant money received from the State of New Jersey in the Fiscal 2008 Period as compared to the Fiscal 2007 Period.

*Research and Development Expenses.* Research and development expenses increased by \$322,439, or 32%, to \$1,347,038 for the Fiscal 2008 Period as compared with \$1,024,599 for the Fiscal 2007 Period, principally attributable to the following:

- Clinical trial expenses decreased by \$191,651, or 66%, to \$100,744 from \$292,395 due to our higher clinical trial activity in the Fiscal 2007 Period compared to the close out phase in the Fiscal 2008 Period.
- Wages, options and lab costs increased by \$124,774, or 28% to \$572,010 from \$447,236 principally due to our expanded research & development efforts, the hiring of an Executive Director of Product Development, a wage increase on November 1, 2007 and an increase in bonuses.
- Consulting expenses decreased by \$45,160, or 34%, to \$86,523 from \$131,683, primarily reflecting lower stock option expenses in the Fiscal 2008 Period compared to higher stock prices and option expense in the same period last year partially offset by higher IND consulting expenses in the Fiscal 2008 Period as compared to the same period last year.
- Subcontracted research expenses decreased by \$32,935, or 29%, to \$81,124 from \$114,059, primarily reflecting the decreased subcontract work performed by Dr. Paterson at Penn, pursuant to our sponsored research agreement in the Fiscal 2008 Period compared to the same period last year.
- Manufacturing expenses increased by \$478,410 to \$479,995 from \$1,585 as a result of the ongoing clinical supply program for our upcoming Phase II trial compared to no manufacturing program in the Fiscal 2007 Period.
- Toxicology study expenses decreased by \$11,000, or 29% to \$26,640 from \$37,640 due to expenses incurred in the Fiscal 2007 Period as a result of a toxicology study by Pharm Olam in connection with our Lovaxin C product candidates in anticipation of clinical studies in 2008; no such expenses were incurred in the Fiscal 2008 Period.

We anticipate a continued increase in Research and Development expenses as a result of expanded development and commercialization efforts related to toxicology studies, clinical trials, and product development. Additionally we expect expenses to be incurred in the development of strategic and other relationships required if the licensing, manufacture and distribution of our product candidates are ultimately undertaken.

*General and Administrative Expenses.* General and administrative expenses decreased by \$103,781, or 6%, to \$1,744,120 for the Fiscal 2008 Period as compared with \$1,847,901 for the Fiscal 2007 Period, primarily attributable to the following:

- Wages, Options and benefit expenses increased by \$240,724, or 58% to \$657,221 from \$416,497 primarily due to the increase of the CEO's base pay (\$50,000) and stock compensation (\$71,250) per his employment agreement and overall higher wages for employees due to a wage increase on November 1, 2007.
- Consulting fees and expenses decreased by \$642,929, or 66%, to \$332,237 from \$975,166. This decrease was primarily attributed to an amendment to Mr. Appel's (LVEP) consulting agreement in the Fiscal 2007 Period partially offset by a settlement agreement in the Fiscal 2008 Period which resulted in: (i) a decrease of \$566,566 in option expense recorded primarily due to an amendment of Mr. Appel's consulting agreement compared to no option expense recorded in the Fiscal 2008 Period; (ii) a decrease of \$200,000 primarily due to the issuance to Mr. Appel of 2 million shares in the Fiscal 2007 Period also due to the amendment, (iii) a net decrease of \$100,497 in Mr. Appel's consulting expenses recorded in the Fiscal 2008 Period compared to the Fiscal 2007 Period and (iv) a decrease of \$41,667 in Mr. Appel's bonus accrual in the Fiscal 2007 Period partially offset by (v) his \$130,000 settlement payment in cash in the Fiscal 2008 Period along with a \$14,615 payment in shares of the Company. Mr. Appel's net decreases (i-v) were partially offset by the increase in other consulting expenses due to higher financial advisor fees of \$137,371 recorded in the Fiscal 2008 Periods verses the fees for other consultants in the Fiscal 2007 Period.

- Legal, accounting, professional and public relations expenses increased by \$7,142, or 3%, to \$287,573 from \$280,431, primarily as a result of higher patent and accounting expense partially offset by fewer security filings in the Fiscal 2008 Period versus the Fiscal 2007 Period.
- Recruiting fees for the Executive Director of Product Development in the Fiscal 2008 Period increased by \$62,295 to \$63,395 versus \$1,100 compared to the same period last year.
- Analysis research cost increased during the Fiscal 2008 Period by \$117,750 to \$117,990 from \$240. This increase consists of \$55,240 in warrant expense recorded based on the Black-Scholes calculation with the balance in fees and printing expense.
- Penalty expense increased during the Fiscal 2008 Period by \$31,778 to \$31,778. This expense was recorded due to the delay of effectiveness of the registration statement on Form SB-2, File No. 333-147752.
- Overall occupancy costs, investor conference expenses and related travel expenses in the Fiscal 2008 Period increased by \$70,789 or 54% to \$201,747 to \$130,958 primarily due to increased attendance at scientific and investor conferences compared to the Fiscal 2007 Period.
- Amortization of intangibles and depreciation of fixed assets increased by \$8,673, or 20%, to \$52,180 from \$43,507 primarily due to an increase in fixed assets and intangibles in the Fiscal 2008 Period compared to the Fiscal 2007 Period.

*Other Income (expense).* Other Income (expense) increased by \$494,171 to \$39,896 income for the Fiscal 2008 Period from expense of (\$454,275) for the Fiscal 2007 Period. During the Fiscal 2007 and the Fiscal 2008 Periods, we recorded interest expense of (\$365,536) and (\$3,931) respectively, primarily related to interest accrued on our outstanding secured convertible debenture issued on February 2 and March 8, 2006. Interest income earned on investments for the Fiscal 2007 and Fiscal 2008 Periods amounted to \$37,972 and \$43,827, respectively. In the Fiscal 2007 Period there was a net change of (\$446,678) in the fair value of common stock warrants and embedded derivative liabilities recorded as expense (non-cash item) compared to the fair values as of October 31, 2006 of the secured convertible debenture. In addition, there was a \$319,967 gain in retirement due to the University of Pennsylvania Amended and Restated License Agreement recorded in the Fiscal 2007 Period. There were no comparable entries in the Fiscal 2008 Quarter as the warrant and embedded derivative liability was settled in October 2007 and the gain in retirement in the Fiscal 2007 Period was settled in the Fiscal 2007 Period.

No provision for income taxes was made for either fiscal quarter due to significant tax losses during and prior to such periods.

On April 30, 2008, our cash balance was \$1,295,708, and our working capital was \$188,566, primarily the result of net proceeds of approximately \$8,452,342 from the issuance of common stock in a private placement in October 2007, less the cost of retiring outstanding debt and interest of approximately \$2,889,999, the purchase of warrants in the amount of \$600,000 and the higher overall cost of development and operations as a public company.

We intend to use our available cash and resources during the next 3 months following April 30, 2008 to prepare our Phase II clinical trial in CIN using Lovaxin C, one of our lead product candidates in development using our Listeria System, maintain our research and development team to assist in the further development of Lovaxin P (our Listeria vaccine directed toward treatment of prostate cancer) and Lovaxin B (our Listeria vaccine directed toward treatment of breast cancer), as well as in the development of several additional Listeria based vaccines for the treatment of cancer, and to enhance our manufacturing capabilities and strategic activities.

#### ***Contingent obligations***

On July 1, 2002 ("effective date") we entered into a 20-year exclusive worldwide license, with the Penn with respect to the innovative work of Yvonne Paterson, Ph.D., Professor of Microbiology in the area of innate immunity, or the immune response attributable to immune cells, including dendritic cells, macrophages and natural killer cells, that

respond to pathogens non-specifically. This agreement has been amended from time to time and was amended and restated on February 13, 2007. The First Amendment to the Amended and Restated Patent License Agreement was entered into on March 26, 2007 Penn exercised its option to license an additional Listeria-Based and LLO-Based Vaccine patent/docket and the parties have agreed to license 12 other patents/dockets.

This license, unless sooner terminated in accordance with its terms, terminates upon the later of: whereby (i) expiration of the last to expire Penn patent right; or (ii) twenty years after the effective date. The license provides us with the exclusive commercial rights to the patent portfolio developed at Penn as of the effective date, in connection with Dr. Paterson and requires us to raise capital, pay various milestone, legal, filing and licensing payments to commercialize the technology. In exchange for the license, Penn received shares of our common stock, which currently represents approximately 5.9% of our common stock outstanding on a fully-diluted basis. In addition, Penn is entitled to receive a non-refundable initial license fee, license fees, royalty payments and milestone payments based on net sales and percentages of sublicense fees and certain commercial milestones, as follows: 1.5% royalties on net sales in all countries; notwithstanding this royalty rate, we have agreed to pay Penn a total of \$525,000 over a three-year period as an advance minimum royalty after the first commercial sale of a product under each license (which payments we do not expect to begin within the next five years); an annual maintenance fee starting on December 31, 2008, until the first commercial sale of a Penn licensed product; a total of \$157,134 in license payments in addition to the \$215,700 previously paid, or a total of \$372,834.

Furthermore, upon the achievement of the first sale of a product in certain fields, Penn shall be entitled to milestone payments, as follows: \$2,500,000 shall be due for first commercial sale of the first product in the cancer field; and \$1,000,000 shall be due upon the date of first commercial sale of a product in each of the secondary strategic fields sold. Therefore, the total potential amount of milestone payments is \$3,500,000 in the cancer field.

- 12 -

---

As a result of our payment obligations under the license, assuming and if we have net sales in the aggregate amount of \$100 million from our cancer products, our total payments to Penn over the next ten years could reach an aggregate of \$5,420,000. If over the next 10 years our net sales total an aggregate amount of only \$10 million from our cancer products, total payments to Penn could aggregate \$4,445,000.

This license also grants us exclusive negotiation rights and exclusive options until June 17, 2009 to obtain exclusive licenses to new inventions on therapeutic vaccines developed by Drs. Paterson and Fred Frankel and their laboratory. Each option is granted to us at no cost and provides a six-month exercise period from the date of disclosure. Under this option, we have finalized the First Amendment to the Amended and Restated Agreement for one docket and have negotiated licenses for more 12 dockets, with each docket having the potential of more than one patent. These dockets represent a majority of our pending patents and although we have agreed to a fee of \$311,000 we are negotiating in good faith the term of the form of payment and have not finalized the Second Amendment.

### **Item 3. Controls and Procedures.**

As of the end of the period covered by this report, based on an evaluation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) under the Securities Exchange Act of 1934), each of the Chief Executive Officer and the Vice President of Finance, Principal Financial Officer of the Company, has concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in its Exchange Act reports is recorded, processed, summarized and reported within the applicable time periods specified by the rules and forms of the Securities and Exchange Commission.

There were no significant changes in the Company's internal controls or in any other factors that could significantly affect those controls subsequent to the date of the most recent evaluation of the Company's internal controls by the Company, including any corrective actions with regard to any significant deficiencies or material weaknesses.

## **PART II - OTHER INFORMATION**

### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

On February 1, 2008 we issued 211,853 shares of common stock in connection with liquidated damages of \$31,778 incurred due to the delay in effectiveness of the registration statement on Form SB-2. On April 4, 2008, we issued 153,846 shares of common stock in connection with a settlement of an agreement with Roni Appel and 750,000 shares were issued to Thomas Moore based on the achievement of a milestone in his employment agreement.

The above sales were exempt from registration under the Act by virtue of the provisions of Section 4(2) thereof.

### **Item 6. Exhibits**

- 31.1 Certification of Chief Executive Officer pursuant to section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of Principal Financial Officer pursuant to section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification of Chief Executive Officer pursuant to section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification of Principal Financial Officer pursuant to section 906 of the Sarbanes-Oxley Act of 2002

**SIGNATURES**

In accordance with the requirements of the Securities Exchange Act of 1934, the registrant caused this report to be signed on its behalf by the undersigned, hereunto duly authorized.
