PROSPECTUS

Prestige Brands, Inc.

Exchange Offer for

\$250,000,000

8.125% Senior Notes due 2020

We are offering to exchange:

up to \$250,000,000 of our new, registered 8.125% Senior Notes due 2020

for

a like amount of our outstanding unregistered 8.125% Senior Notes due 2020

We are offering to exchange up to \$250,000,000 aggregate principal amount of our new 8.125% Senior Notes due 2020, which have been registered under the Securities Act of 1933, as amended, or the Securities Act, referred to in this prospectus as the “exchange notes,” for up to \$250,000,000 aggregate principal amount of our outstanding unregistered 8.125% Senior Notes due 2020, referred to in this prospectus as the “existing notes,” which were issued on January 31, 2012 in a transaction not requiring registration under the Securities Act. We are offering you exchange notes, with terms substantially identical to those of the existing notes, in exchange for existing notes in order to satisfy

our registration obligations from the previous issuance of the existing notes. The exchange notes and the existing notes are collectively referred to in this prospectus as the “notes.” The exchange notes are senior unsecured obligations and are fully and unconditionally guaranteed on a senior unsecured basis by Prestige Brands Holdings, Inc. and certain of its subsidiaries.

Investing in the notes involves risks. See “Risk Factors” starting on page 19 of this prospectus for a discussion of risks associated with investing in the exchange notes and with the exchange of existing notes for the exchange notes offered hereby, as well as the risk factors regarding our business beginning on page 16 of our Annual Report on Form 10-K for our year ended March 31, 2012, which is incorporated herein by reference.

We will exchange the exchange notes for all existing notes that are validly tendered and not validly withdrawn before expiration of the exchange offer. You may withdraw tenders of existing notes at any time prior to the expiration of the exchange offer. The exchange offer expires at 5:00 p.m., New York time, on August 13, 2012, unless extended. We currently do not intend to extend the expiration date. The exchange procedure is more fully described in “The Exchange Offer — Procedures for Tendering.” If you fail to tender your existing notes, you will continue to hold unregistered notes that you will not be able to transfer freely.

The terms of the exchange notes are substantially identical to those of the existing notes, except that the transfer restrictions, registration rights and additional interest provisions applicable to the existing notes do not apply to the exchange notes. See “Description of the Exchange Notes” for more details on the terms of the exchange notes. We will not receive any proceeds from the exchange offer.

There is no established trading market for the exchange notes or the existing notes. The exchange of existing notes for exchange notes in the exchange offer will not be a taxable transaction for U.S. federal income tax purposes. See “Material U.S. Federal Income Tax Considerations.” All broker-dealers must comply with the registration and prospectus delivery requirements of the Securities Act. See “Plan of Distribution.”

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is July 13, 2012.

You should rely only on the information contained or incorporated by reference in this prospectus. We have not authorized anyone to provide you with different information. We are not, and the initial purchasers are not, making an offer of these securities in any jurisdiction where the offer is not permitted. You should not assume that the information contained or incorporated by reference in this prospectus is accurate as of any date other than the date on the front of this prospectus.

Each broker-dealer that receives exchange notes for its own account pursuant to the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. By so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act of 1933, as amended (the “Securities Act”). A broker-dealer who acquired existing notes as a result of market making or other trading activities may use this prospectus, as supplemented or amended from time to time, in connection with any resales of the exchange notes. We have agreed that, until the earlier of (i) 180 days after the closing of the exchange offer, or (ii) the first date on which a broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities, we will make this prospectus available for use in connection with any such resale. See “Plan of Distribution.”

Presentation Of Information

In this prospectus, unless the context requires otherwise:

When discussing the business, financial condition and operations in this prospectus, the words “Prestige,” “Company,” “we,” “us,” and “our” refer to Prestige Brands Holdings, Inc. and its consolidated subsidiaries, including Prestige Brands, Inc.;

when discussing the terms of the notes and the exchange offer in this prospectus, the words “the issuer,” “we,” “us,” and “our” refer to Prestige Brands, Inc., the issuer of the notes and a wholly-owned subsidiary of Prestige Brands Holdings, Inc.;

“initial purchasers” refers to the firms who were the initial purchasers of the existing notes, Morgan Stanley & Co. LLC, Citigroup Global Markets, Inc., RBC Capital Markets, LLC and Deutsche Bank Securities Inc;

“2012 Term Loan,” “2012 ABL Revolver” and “2018 Senior Notes” each refer to the 2012 Term Loan, the 2012 ABL Revolver and the 2018 Senior Notes, respectively, as defined under “Description of Other Indebtedness” in this prospectus;

Our fiscal year ends on March 31. Fiscal years are identified in this prospectus according to the calendar year in which such fiscal year ends. For example, the fiscal year ended March 31, 2012, is sometimes referred to herein as “fiscal 2012” and “fiscal year 2012.”

Trademarks and trade names used in this prospectus are the property of Prestige Brands Holdings, Inc. or its subsidiaries, as the case may be, unless otherwise noted. We have utilized the ® and TM symbols the first time each trademark or trade name appears in this prospectus, and have italicized our trademarks and trade names when they appear in this prospectus.

Market Share, Ranking and Industry Data

In this prospectus and the documents incorporated by reference herein, we rely on and refer to information and statistics regarding our products and their respective markets. We obtained this market data from consultants, independent industry publications or other publicly available information. Although we believe that these sources are reliable, we have not independently verified and do not guarantee the accuracy and completeness of this information.

Unless otherwise indicated, all references to (i) “market segment” are defined by us and is either a standard IRI category or a segment within a standard IRI category and is based on our product offerings and the categories in which we compete; (ii) “market share” are based on sales dollars in the United States, as calculated by the independent market research firm, SymphonyIRI Group, Inc. (“IRI”) for the 52 weeks ended March 18, 2012; and (iii) “ACV” refer to the All Commodity Volume Food Drug Mass Index, as calculated by IRI for the 52 weeks ended March 18, 2012. ACV measures the ratio of weighted sales volume in the United States of stores that sell a particular product to all the stores that sell products in that market segment generally. For example, if a product is sold by 50% of the stores that sell products in that market segment, but those stores account for 85% of the sales volume in that market segment, that product would have an ACV of 85%. We believe that a high ACV evidences a product’s attractiveness to consumers, as major national and regional retailers will carry products that are attractive to their customers. Lower ACV measures would indicate that a product is not as available to consumers because the major retailers generally would not carry products for which consumer demand may not be as high. For these reasons, we believe that ACV is an important measure for investors to gauge consumer awareness of the Company’s product offerings and of the importance of those products to major retailers.

The data included in this prospectus regarding the market share and ranking for our brands has been prepared by us, based in part on data generated by IRI. IRI reports retail sales data in the United States food, drug and mass merchandise markets. However, IRI data does not include Walmart point of sale data because Walmart ceased providing sales data to the industry in 2001. Although Walmart represents a significant portion of the mass merchandise market for us, as well as our competitors, we believe that Walmart’s exclusion from the IRI data we analyzed and present in this prospectus does not significantly change our market share or ranking relative to our competitors. Any representations and/or opinions expressed in this prospectus reflect the judgement of Prestige. IRI

did not verify such information, and disclaims liability for any claims, losses or damages of any kind arising from the use of such information.

In addition, our expectations or beliefs concerning future events involve risks and uncertainties, including, without limitation:

Summary

The following summary contains important information about us and the exchange offer but may not contain all of the information that may be important to you in making a decision to tender your existing notes. For a more complete understanding of our company and the exchange offer, we urge you to read carefully this entire prospectus, including the “Risk Factors” and “Cautionary Statement Regarding Forward-Looking Statements” sections and the consolidated financial statements and related notes, and other information incorporated by reference herein, which are described under “Where You Can Find Additional Information” and “Information Incorporated by Reference.” Unless the context requires otherwise, all descriptions relating to business operations, business risks, strategies and management refer to Prestige Holdings and its consolidated subsidiaries.

Our Business

We are a leading branded consumer products company that predominately sells well-recognized, branded over-the-counter (“OTC”) healthcare products. Our brands hold leading positions in several important categories in the \$25 billion OTC market. Recent OTC market growth in the United States has been, and we believe continued growth will be, supported by the aging of the U.S. population, rising public sector spending constraints, increased consumer reliance on self-medication and higher consumer awareness of health and wellness matters. Our strategy has been to grow our portfolio of OTC brands through the acquisition of well-known OTC brands that can leverage our low cost operating infrastructure, advertising, product innovation know-how, established retail distribution network and strong management expertise. We also have a branded presence in the household products category principally through our *Comet*® brand. Our products are sold through multiple channels, including mass merchandisers and drug, grocery, dollar, and club stores, which allows us to effectively launch new products across all of our distribution channels and reduces our exposure to any single distribution channel.

2012 Acquisitions

On January 31, 2012, we acquired 17 brands, which we believe are key to our growth strategy in the OTC Healthcare category and complementary to our existing OTC Healthcare brands. On January 31, 2012, we completed the acquisition of 15 North American OTC Healthcare brands, including the related contracts, trademarks and inventory from GlaxoSmithKline plc (“GSK”) and its affiliates (the “GSK Brands I”) for \$615.0 million in cash, subject to a post-closing inventory and apportionment adjustment. The GSK Brands I include *BC*®, *Goody's*® and *Ecotrin*® brands of pain relievers; *Beano*®, *Gaviscon*®, *Phazyme*®, *Tagamet*® and *FiberChoice*® gastrointestinal brands; and the *Sominex*® sleep aid brand. On March 30, 2012, we completed the acquisition of the *Debrox*® and *Gly-Oxide*® brands in the United States from GSK (the “GSK Brands II”), including the related contracts, trademarks and inventory, for \$45.0 million in cash, subject to a post-closing inventory adjustment.

On January 31, 2012, in connection with the completed acquisition of the GSK Brands I, we (i) issued the existing notes in an aggregate principal amount of \$250.0 million, and (ii) entered into a new senior secured credit facility, which consists of a \$660.0 million term loan facility with a seven-year maturity (the “2012 Term Loan”) and a \$50.0 million asset-based revolving credit facility with a five-year maturity (the “2012 ABL Revolver” and, together with the 2012 Term Loan, the “Senior Secured Credit Facilities”).

2011 Acquisitions

In 2011, we acquired six brands, which we believe are also key to our growth strategy in the OTC Healthcare category and complementary to our existing OTC Healthcare brands. On November 1, 2010, we acquired 100% of the capital stock of Blacksmith Brands Holdings, Inc. (“Blacksmith”), which owned five brands; *Efferdent*®, *Effergrip*®, *PediaCare*®, *Luden's*® and *NasalCrom*®. On January 6, 2011, we completed the acquisition of certain assets comprising the *Dramamine*® brand in the United States.

Major Brands

Our major brands, set forth in the table below, have strong levels of consumer awareness and retail distribution across all major channels. These brands accounted for approximately 92.0%, 93.0%, and 97.0% of our net revenues for 2012, 2011 and 2010, respectively.

We have prepared the information included in this prospectus with regard to the market share and ranking for our brands based in part on data generated by SymphonyIRI Group, Inc., an independent market research firm ("IRI"). IRI reports retail sales data in the food, drug and mass merchandise markets. However, IRI data does not include (1) Walmart point of sale data, as Walmart ceased providing sales data to the industry in 2001. Although Walmart represents a significant portion of the mass merchandise market for us, as well as our competitors, we believe that Walmart's exclusion from the data analyzed by the Company above does not significantly change our market share or ranking relative to our competitors.

(2) "Market segment" is defined by us and is either a standard IRI category or a segment within a standard IRI category and is based on our product offerings and the categories in which we compete.

(3) "Market share" is based on sales dollars in the United States, as calculated by IRI for the 52 weeks ended March 18, 2012.

(4) "ACV" refers to the All Commodity Volume Food Drug Mass Index, as calculated by IRI for the 52 weeks ended March 18, 2012. ACV measures the ratio of the weighted sales volume of stores that sell a particular product to all

the stores that sell products in that market segment generally. For example, if a product is sold by 50% of the stores that sell products in that market segment, but those stores account for 85% of the sales volume in that market segment, that product would have an ACV of 85%. We believe that a high ACV evidences a product's attractiveness to consumers, as major national and regional retailers will carry products that are attractive to their customers. Lower ACV measures would indicate that a product is not as available to consumers because the major retailers generally would not carry products for which consumer demand may not be as high. For these reasons, we believe that ACV is an important measure for investors to gauge consumer awareness of the Company's product offerings and of the importance of those products to major retailers.

- (5) *Gaviscon* is distributed by us in Canada only and the market information was obtained from an independent third party market research firm.

Competitive Strengths

Diversified Portfolio of Well-Recognized and Established Consumer Brands. We own and market well-recognized consumer brands, many of which were established over 60 years ago. Our diverse portfolio of products provides us with multiple sources of growth and minimizes our reliance on any one product or category. Our five legacy core OTC Healthcare brands are *Chloraseptic*, *Clear Eyes*, *Compound W*, *Little Remedies* and *The Doctor's*. As a result of our fiscal 2011 acquisitions, we added four brands to our core OTC Healthcare brands (*Efferdent*, *Pediacare*, *Luden's*, and *Dramamine*). In fiscal 2012 we added five brands to our core OTC Healthcare brands (*BC*, *Goody's*, *Beano*, *Gaviscon* and *Debrox*). We provide significant marketing support to our core brands that is designed to enhance our sales growth and our long-term profitability. The markets in which we sell our products, however, are highly competitive and include numerous national and global manufacturers, distributors, marketers and retailers. Many of these competitors have greater research and development and financial resources than us and may be able to spend more aggressively on sales, advertising and marketing programs and research and development, which may have an adverse effect on our competitive position.

Strong Competitor in Attractive Categories. We compete in product categories that address recurring consumer needs. We believe we are well positioned in these categories due to the long history and consumer awareness of our brands, our strong market positions and our low-cost operating model. However, a significant increase in the number of product introductions or increased advertising, marketing and trade support by our competitors in these markets could have a material adverse effect on our business, financial condition and results from operations.

Proven Ability to Develop and Introduce New Products. We focus our marketing and product development efforts on the identification of under-served consumer needs, the design of products that directly address those needs and the ability to extend our highly recognizable brand names to other products. In an example of this philosophy, in 2012, we launched four new *PediaCare* Infant Formula products, *PediaCare* 24 Hour Allergy Relief, *Dramamine* for Kids, *Efferdent* Crystals, *Efferdent PM* overnight denture cleanser, and *Comet* Stainless Steel. In 2011, we launched *Little Fevers*® Fever Reducer and *Little Colds*® Honey Elixir under our *Little Remedies* line in addition to *Clear Eyes* Cooling Comfort Redness Relief and Itchy Eye Relief. In 2010, we restaged our entire *Chloraseptic* lozenge product line with a new soothing liquid center formula. Although line extensions and new product introductions are important to the overall growth of a brand, our efforts may reduce sales of existing products within that brand. In addition, certain of our product introductions may not be successful and may be discontinued in the future.

Efficient Operating Model. To gain operating efficiencies, we oversee the production planning and quality control aspects of the manufacturing, warehousing and distribution of our products, while we outsource the operating elements of these functions to well-established third-party providers. This approach allows us to benefit from their core competencies and maintain a highly variable cost structure, with low overhead, limited working capital requirements and minimal investment in capital expenditures as evidenced by the following:

	Gross Margin%	G&A % To Total Revenues	CapEx % To Total Revenues
2012	51.6	12.9	0.1
2011	50.8	12.5	0.2
2010	52.4	11.7	0.2

In 2012, our gross margin percentage increased 80 basis points due primarily to the brands we acquired in the GSK Brands I acquisition as such brands have higher gross margins. In 2011, our gross margin percentage decreased 160 basis points due primarily to the brands we acquired in the Blacksmith acquisition as such brands have higher costs to produce. General and administrative costs, as a percentage of total revenues, increased 40 basis points in 2012 versus 2011, primarily as a result of costs associated with the acquisition of GSK Brands I. General and administrative costs, as a percentage of total revenues, increased 80 basis points in 2011 versus 2010, primarily as a result of costs associated with the Blacksmith and *Dramamine* acquisitions.

Management Team with Proven Ability to Acquire, Integrate and Grow Brands. Our business has grown through acquisition, integration and expansion of the many brands we have purchased. Our management team has significant experience in consumer product marketing, sales, legal and regulatory compliance, product development and customer service. Unlike many larger consumer products companies, which we believe often entrust their smaller brands to successive junior employees, we dedicate experienced managers to specific brands. We seek more experienced personnel to bear the substantial responsibility of brand management and to effectuate our growth strategy. These managers nurture the brands to allow the brands to grow and evolve.

Superior Marketing and Innovation Capabilities. We target consumer categories that we believe respond well to consumer-driven marketing support versus price promotions. Our success has largely been driven by our ability to create excitement in our categories through innovations, line extensions and brand extensions, which we then communicate effectively through our consumer-oriented marketing efforts. Our innovation efforts are focused on identifying underserved consumer needs, designing products that directly address those needs and extending our highly recognizable brand names to natural brand extensions. For example, in fiscal 2010, we restaged our entire Chloraseptic® lozenge product line with a new soothing liquid center formula. In fiscal 2011, we launched a number of extensions of our core brands, including *Little Fevers*® Fever Reducer and *Little Colds*® Honey Elixir under our *Little Remedies*® line, in addition to *Clear Eyes*® Cooling Comfort Redness Relief and Itchy Eye Relief. As part of our recent acquisition of the Blacksmith brands, we introduced *PediaCare* 24 Hour Allergy Relief and *Efferdent PM*® overnight denture cleanser. In fiscal 2012, we launched a number of extensions, including *Chloraseptic* Warming Lozenges and Lollies for Kids, *Little Remedies* Honey Pops and *Luden's* Drops with Vitamin C, with additional product launches planned for late fiscal 2012.

Growth Strategy

In order to continue to enhance our brands and drive growth, we focus our growth strategy on our core competencies:

Effective Marketing and Advertising;

Sales Excellence;

Strong Customer Service; and

Innovation and Product Development.

We execute this strategy through the following efforts:

Investments in Advertising and Promotion. We invest in advertising and promotion to drive the growth of our core brands. Our marketing strategy is focused primarily on consumer-oriented programs that include media advertising, targeted coupon programs and in-store advertising. While the absolute level of marketing expenditures differs by brand and category, we have often increased the amount of investment in our brands after acquiring them. For example, in 2011, after acquiring *Efferdent*, *Effergrip*, *PediaCare*, *Luden's*, *NasalCrom* and *Dramamine*, we spent approximately 28.4% of the revenues associated with these combined brands in order to drive future growth. In 2012,

the advertising and promotion spend related to these brands was 16.0% of revenue. Additionally, advertising and promotion spend for our five legacy core OTC Healthcare products was approximately 15.0% and 15.8% of revenue in 2012 and 2011, respectively. Similarly on the core brands acquired from GSK, we expect to spend in 2013 at levels above our spending on our legacy core OTC Healthcare products. Given the competition in our industry and the contraction of the U.S. economy, there is a risk that our marketing efforts may not result in increased sales and profitability. Additionally, no assurance can be given that we can maintain any increased sales and profitability levels once attained.

Growing our Categories and Market Share with Innovative New Products. One of our strategies is to broaden the categories in which we participate and increase our share within those categories through ongoing product innovation. In 2012, we launched four new *PediaCare* Infant Formula products, *PediaCare* 24 Hour Allergy Relief, *Dramamine* for Kids, *Efferdent* Power Clean Crystals, *Efferdent* PM, and *Luden's* with Vitamin C, *Clear Eyes* All Season Outdoor Eye Drop, *New Skin* Anti-Chafing Spray and *Comet* Stainless Steel Cleanser line. In addition, we introduced a new AccuSafe® dosing system across our *Little Remedies* and *PediaCare* infant analgesics products. In 2011, we launched *Little Fevers* Fever Reducer and *Little Colds* Honey Elixir under our *Little Remedies* line in addition to *Clear Eyes* Cooling Comfort Redness Relief and Itchy Eye Relief. In 2010, we restaged the *Chloraseptic* solid lozenge product line and introduced a soothing liquid center lozenge. While there is always a risk that sales of existing products may be reduced by new product introductions, our goal is to grow the overall sales of our brands.

Increasing Distribution Across Multiple Channels. Our broad distribution base attempts to ensure that our products are well positioned across all available channels and that we are able to participate in changing consumer retail trends. In an effort to ensure continued sales growth, we have altered our focus by expanding our reliance on direct sales while reducing our reliance on brokers. We believe this philosophy allows us to better:

Know our customer;

Service our customer; and

Support our customer

While we make great efforts to both maintain our customer base and grow in new markets, there is a risk that we may not be able to maintain or enhance our relationships across distribution channels, which could adversely impact our sales, business, financial condition and results from operations.

Growing Our International Business. International sales beyond the borders of North America represented 3.5%, 4.2% and 4.3% of revenues in 2012, 2011, and 2010, respectively. We have designed and developed both products and packaging for specific international markets and expect that our international revenues will grow as a percentage of total revenues. In addition to *Clear Eyes*, *Murine* and *Chloraseptic*, which are currently sold internationally, we license a large multinational company to market the *Comet* brand in Eastern Europe. Since a number of our other brands have previously been sold internationally, we seek to expand the number of brands sold through our existing international distribution network and continue to identify additional distribution partners for further expansion into other international markets.

Pursuing Strategic Acquisitions. Acquisitions are an important part of our overall strategy for growing revenue. We have a history of growth through acquisition (see “2012 Acquisitions” and “2011 Acquisitions” above). In 2012, we acquired 17 OTC healthcare brands from GSK. In 2011, we acquired five brands from Blacksmith and acquired *Dramamine*. Prior to these three acquisitions, our last acquisition was the *Wartner* brand of OTC wart treatment products in 2007. While we believe that there will continue to be a pipeline of acquisition candidates for us to investigate, strategic fit and relative cost are of the utmost importance in our decision to pursue such opportunities. We believe our business model allows us to integrate acquisitions in an efficient manner, while also providing opportunities to realize significant cost savings. However, there is a risk that our operating results could be adversely affected in the event we (i) do not realize all of the anticipated operating synergies and cost savings from acquisitions, (ii) do not successfully integrate acquisitions or (iii) pay too much for these acquisitions. In the past, we utilized various debt offerings to help us acquire certain brands or businesses. For example, in 2012, we completed an offering of senior notes, entered into new senior secured term loan and revolving credit facilities and ratably secured our existing senior notes with the new term loan facility. We used the net proceeds from the senior notes offering, together with borrowings under the new senior secured term loan facility, to finance the acquisition of the 17 OTC brands acquired from GSK, to repay our existing senior secured credit facilities, to pay fees and expenses incurred in connection with these transactions and for general corporate purposes. In 2010, we refinanced our long-term debt and significantly improved our liquidity position, debt maturities and covenants, all of which better positioned us to pursue the Blacksmith and Dramamine acquisitions and potential future acquisition targets.

THE EXCHANGE OFFER

On January 31, 2012, we completed the private offering of \$250.0 million aggregate principal amount of our 8.125% Senior Notes due 2020. As part of that offering, we entered into a registration rights agreement with the initial purchasers of the existing notes in which we agreed, among other things, to complete an exchange offer for the existing notes. The summary below describes the principal terms of the exchange offer and the exchange notes. Certain of the terms and conditions described below are subject to important limitations and exceptions. The “Description of the Exchange Notes” section of this prospectus contains a more detailed description of the terms and conditions of the exchange notes.

Existing Notes	8.125% Senior Notes due 2020.
Exchange Notes	Notes of the same series of the existing notes, the issuance of which has been registered under the Securities Act. The terms of the exchange notes are substantially identical to those of the existing notes, except that the transfer restrictions, registration rights, and additional interest provisions relating to the existing notes do not apply to the exchange notes.
Terms of the Exchange Offer	We are offering to exchange a like amount of exchange notes for our existing notes in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof. In order to be exchanged, a new note must be properly tendered and accepted. All existing notes that are validly tendered and not withdrawn will be exchanged. As of the date of this prospectus, there is \$250,000,000 aggregate principal amount of 8.125% Senior Notes due 2020 outstanding. We will issue the exchange notes promptly after the expiration of the exchange offer.
Expiration Date	The exchange offer will expire at 5:00 p.m., New York City time, on August 13, 2012, unless extended or earlier terminated. “Expiration date” means such time and date or, if the exchange offer is extended, the latest time and date to which the exchange offer is so extended. We may extend the expiration date, in our sole discretion, from time to time as necessary.
How to Tender the Existing Notes	To validly tender your existing notes pursuant to the exchange offer, you must deliver the tendered existing notes, the letter of transmittal and the related documents to the depository (or comply with the procedures of The Depository Trust Company’s (which we refer to as DTC) Automated Tender Offer Program (which we refer to as ATOP)) on or before the expiration date.

A holder whose existing notes are held in certificated form must properly complete and execute the letter of transmittal, and deliver such letter of transmittal and the tendered existing notes to the depository, with any other required documents, on or before the expiration date.

A holder whose existing notes are held by a custodian bank, broker, dealer, trust company or other nominee must contact such nominee if such holder desires to tender his, her or its existing notes and instruct such nominee to

tender the existing notes on the holder's behalf.

Holders who are DTC participants must tender their beneficial interest in the existing notes electronically through ATOP.

See "The Exchange Offer—Procedures for Tendering."

Acceptance of Existing Notes for Exchange; Issuance of Exchange Notes Subject to the conditions stated in “The Exchange Offer—Conditions to the Exchange Offer,” we will accept for exchange any and all existing notes that are properly tendered in the exchange offer before the expiration date. The exchange notes will be delivered promptly after the expiration date.

Interest Payments on the Exchange Notes The exchange notes will bear interest from the date interest was most recently paid. If your existing notes are accepted for exchange, then you will receive interest on the exchange notes (including any accrued but unpaid additional interest on the existing notes) and not on the existing notes.

Withdrawal Rights Existing notes tendered pursuant to the exchange offer may be validly withdrawn at any time prior to the expiration date, but not thereafter, unless we are otherwise required by applicable law to permit the withdrawal or unless the exchange offer is terminated without any existing notes being tendered thereunder, by following the procedures described herein. See “The Exchange Offer—Withdrawal Rights.”

Conditions to the Exchange Offer The exchange offer is subject to customary conditions. We may assert or waive these conditions in our sole discretion. If we materially change the terms of the exchange offer, we will resolicit tenders of the existing notes. See “The Exchange Offer —Conditions to the Exchange Offer” for more information.

Resales of Exchange Notes We believe that the exchange notes issued in the exchange offer may be offered for resale, resold or otherwise transferred by you without compliance with the registration and prospectus delivery requirements of the Securities Act as long as:

- you are acquiring the exchange notes in the ordinary course of your business;
- you are not participating, do not intend to participate and have no arrangement or understanding with any person to participate in a distribution of the exchange notes;
- you are not an “affiliate” of ours; and
- you are not a broker-dealer

If you fail to satisfy any of the foregoing conditions, you will not be permitted to tender your existing notes in the exchange offer and you must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any sale or other transfer of your existing notes unless such sale is made pursuant to an exemption from such requirements. We will not assume, or indemnify you against, any liability arising from your failure to satisfy any of the requirements of the Securities Act and the rules and regulations promulgated thereunder.

Each broker or dealer that receives exchange notes for its own account in exchange for existing notes that were acquired as a result of market-making or other trading activities must acknowledge that it will comply with the registration and prospectus delivery requirements of the Securities Act in connection with any offer to resell, resale or other transfer of the exchange notes issued in the exchange offer. A broker-dealer may use this prospectus for an

offer to resell or otherwise transfer the exchange notes. See “The Exchange Offer —Resales of Exchange Notes.”

Exchange Agent	U.S. Bank National Association is serving as the exchange agent in connection with the exchange offer. The address and telephone and facsimile numbers of the exchange agent are listed under the heading “The Exchange Offer—Exchange Agent.”
Use of Proceeds	We will not receive any proceeds from the issuance of exchange notes in the exchange offer. We will pay all expenses incident to the exchange offer. See “Use of Proceeds” and “The Exchange Offer —Fees and Expenses.”

(2) General and administrative expense included \$13.8 million of costs related to the GSK Brands acquisition, \$1.7 million of unsolicited offer defense costs in 2012, and \$7.7 million of costs related to the acquisitions of Blacksmith and *Dramamine* in 2011.

(3) On September 1, 2010, we sold certain assets related to the nail polish remover brand previously included in our Personal Care products segment. The total sales price of the assets was \$4.1 million, which was received by us at closing. In October 2009, we divested our shampoo brands for a purchase price of \$9 million, \$8 million of which was paid to us at closing and \$1 million of which was paid in October 2010.

(4) "Adjusted EBITDA" represents net income before interest expense, income taxes and depreciation and amortization, impact of discontinued operations, impairment of goodwill and intangible assets, stock-based compensation, and certain non-recurring, non-cash and other cash expenses which management believes will not be incurred, except for stock-based compensation, in the future. Adjusted EBITDA does not represent and should not be considered as

Edgar Filing: Spic & Span CO - Form 424B3

an alternative to net income or cash flow from operations, as determined by GAAP, and our calculation thereof may not be comparable to that reported by other companies. We present Adjusted EBITDA because we believe that it provides useful information regarding a company's ability to service and/or incur indebtedness. Adjusted EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our results as reported under GAAP. Some of these limitations are:

Adjusted EBITDA does not reflect our capital expenditures, or future requirements for capital expenditures or contractual commitments;

- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;

Adjusted EBITDA does not reflect the significant interest expense, or the cash requirement necessary to service interest or principal payments, on our debts;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements; and

other companies in our industry may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Because of these limitations, Adjusted EBITDA and Pro Forma Adjusted EBITDA should not be considered as a measure of discretionary cash available to us to invest in the growth of our business. We compensate for these limitations by relying primarily on our GAAP results and using Adjusted EBITDA only supplementally.

(5) Defined as the ratio of pro forma total indebtedness (gross value) as of March 31, 2012 to Pro Forma Adjusted EBITDA for the twelve months ended March 31, 2012.

(6) Defined as the ratio of pro forma total indebtedness (gross value) that is secured by any liens on our assets as of March 31, 2012 to Pro Forma Adjusted EBITDA for the twelve months ended March 31, 2012.

The table below reconciles net income (loss) to Adjusted EBITDA for the periods presented. Adjusted EBITDA excludes the impact of discontinued operations for all reported periods.

Edgar Filing: Spic & Span CO - Form 424B3

(a) On September 1, 2010, we sold certain assets related to the nail polish remover brand previously included in our Personal Care products segment. The total sales price of the assets was \$4.1 million, which was received by us at closing. In October 2009, we divested our shampoo brands for a purchase price of \$9 million, \$8 million of which was paid to us at closing and \$1 million of which was paid in October 2010.

(b) Represents cost of severance for termination of employees associated with downsizing and costs associated with replacing our Chief Executive Officer.

(c) In connection with accounting for the asset acquisition of *Dramamine* and the acquisition of the Blacksmith brands, the acquired inventory was increased to its estimated selling price, less the cost of disposal and a reasonable profit allowance for the selling effort, as required under GAAP. These accounting adjustments to inventory resulted in costs above standard post-acquisition.

(d) Consists of transaction-related expenses incurred in connection with the acquisition of the Blacksmith brands and the asset acquisition of *Dramamine*.

(e) Reflects the elimination of a non-recurring gain from a lawsuit settlement. We received settlement proceeds of \$8.0 million related to the resolution of a legal matter in June 2011 and incurred costs of \$2.9 million pursuing the legal matter in the quarter ended June 30, 2011, resulting in a \$5.1 million pre-tax gain net of costs incurred.

(f) Represents costs incurred in connection with an abandoned acquisition, which were expensed as incurred.

(g) During fiscal year 2011, Prestige discontinued two products, specifically *Chloraseptic Allergen Block* and *Little Allergies Allergen Block*.

(h) During the quarters ended June 30, 2011 and September 30, 2011, we incurred inventory charges related to the replacement of certain children and infant products to achieve a consistent formulation for such products (in order to address misdosing issues that could occur).

(i) During the quarter ended September 30, 2011, we incurred costs to introduce a new formulation and new packaging as required under new industry guidelines mandating a consistent formulation for children and infant products (in order to address misdosing issues that could occur).

(j) Represents professional fees incurred in connection with our defense against an unsolicited bid.

(k) Consists of transaction-related expenses incurred in connection with the acquisition of the GSK Brands.

(l) In connection with accounting for the asset acquisition of the GSK Brands, the acquired inventory was increased to its estimated selling price, less the cost of disposal and a reasonable profit allowance for the selling effort, as required under GAAP. These accounting adjustments to inventory resulted in costs above standard post-acquisition.

(m) Consists of general and administrative expenses incurred in connection with the operational transaction of the GSK Brands.

(n) On a combined basis, certain selling, general and administrative costs previously allocated to the business, including management and employee compensation, sales commissions, professional fees, insurance, rent, and other general administrative support expenses will be replaced by costs to be incurred directly by Prestige. Prestige estimates the net effect of this would have been an overall reduction of selling, general and administrative expenses of \$8 million on a pro forma combined basis for the twelve months ended March 31, 2012.

Summary Historical Combined Financial Data of the GSK Brands

The following table sets forth certain summary historical combined financial data of the GSK Brands. Risk Factors

Before you tender your existing notes, you should consider the following risk factors in addition to the other information included or incorporated by reference in this prospectus, including the specific risk factors set forth in the section entitled “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended March 31, 2012. Any of the risk factors incorporated herein by reference from our Annual Report on Form 10-K for the fiscal year ended March 31, 2012 and the following risks could harm our business and financial results and/or cause the value of the notes to decline, which in turn could cause you to lose all or part of your investment. The risks incorporated herein by reference and set forth below are not the only ones facing our company.

Risks Related to the Exchange Notes and the Exchange Offer

If you fail to properly exchange your existing notes for exchange notes, you will continue to hold existing notes which are subject to transfer restrictions, and the liquidity of the trading market, if any, for any untendered existing notes may be substantially limited.

We will only issue exchange notes in exchange for existing notes that you timely and properly tender. You should allow sufficient time to ensure timely delivery of the existing notes, and you should carefully follow the instructions on how to tender your existing notes set forth under “The Exchange Offer—Procedures for Tendering” and in the letter of transmittal that accompanies this prospectus. Neither we nor the exchange agent are required to notify you of any defects or irregularities relating to your tender of existing notes.

If you do not exchange your existing notes for exchange notes in the exchange offer, the existing notes you hold will continue to be subject to the existing transfer restrictions. In general, you may not offer or sell the existing notes except under an exemption from, or in a transaction not subject to, the Securities Act and applicable state securities laws. We do not plan to register the existing notes under the Securities Act. If you continue to hold any existing notes after the exchange offer is completed, you may have trouble selling them because of the restrictions on transfer.

Because we anticipate that most holders of existing notes will elect to participate in the exchange offer, we expect that the liquidity of the market for the existing notes after completion of the exchange offer may be substantially limited. Any existing notes tendered and exchanged in the exchange offer will reduce the aggregate principal amount at maturity of the existing notes not exchanged.

Risks Related to the Notes

Our substantial indebtedness could adversely affect our financial condition and prevent us from fulfilling our obligations under the exchange notes.

After the offering of the existing notes and the application of the net proceeds therefrom, we have a significant amount of indebtedness. As of March 31, 2012, we had total indebtedness of approximately \$1,135 million, excluding \$50 million of unused commitments under the 2012 ABL Revolver.

Our substantial indebtedness could have important consequences to the holders of the exchange notes, including:

- making it more difficult for us to satisfy our obligations with respect to the notes and our other indebtedness;

- limiting our ability to obtain additional financing to fund future working capital, capital expenditures, acquisitions or other general corporate requirements;

- requiring a substantial portion of our cash flows to be dedicated to debt service payments instead of other purposes, thereby reducing the amount of cash flows available for working capital, capital expenditures, acquisitions and other general corporate purposes;

- increasing our vulnerability to adverse changes in general economic, industry and competitive conditions;

exposing us to the risk of increased interest rates as certain of our borrowings, including borrowings under the Senior Secured Credit Facilities, are at variable rates of interest;

· limiting our flexibility in planning for and reacting to changes in the industry in which we compete;

· placing us at a disadvantage compared to other, less leveraged competitors; and

· increasing our cost of borrowing.

In addition, the indenture that governs the exchange notes, the credit agreements governing the Senior Secured Credit Facilities and the indenture governing our 2018 Senior Notes contain restrictive covenants that will limit our ability to engage in activities that may be in our long-term best interest. Our failure to comply with those covenants could result in an event of default which, if not cured or waived, could result in the acceleration of substantially all of our indebtedness.

Despite our current level of indebtedness, we may still be able to incur substantially more indebtedness. This could further exacerbate the risks to our financial condition described above and prevent us from fulfilling our obligations under the exchange notes.

We may be able to incur significant additional indebtedness in the future. Although the indenture that governs the exchange notes, the indenture governing our 2018 Senior Notes and the credit agreements governing the Senior Secured Credit Facilities contain restrictions on the incurrence of additional indebtedness, these restrictions are subject to a number of qualifications and exceptions, and the additional indebtedness incurred in compliance with these restrictions could be substantial. If we incur any additional indebtedness that ranks equally with the exchange notes, subject to any collateral arrangements, the holders of that debt will be entitled to share ratably with you in any proceeds distributed in connection with our insolvency, liquidation, reorganization, dissolution or other winding up as a company. This may have the effect of reducing the amount of proceeds paid to you. These restrictions also will not prevent us from incurring obligations that do not constitute indebtedness. In addition, our 2012 ABL Revolver provides us commitments of up to \$50 million in the aggregate. All of those borrowings would be secured indebtedness. If new indebtedness is added to our current indebtedness levels, the related risks that we now face could intensify. See “Description of Other Indebtedness” and “Description of the Exchange Notes.”

We may not be able to generate sufficient cash to service all of our indebtedness, including the exchange notes, and may be forced to take other actions to satisfy our obligations under our indebtedness, which may not be successful.

Our ability to make scheduled payments on or to refinance our debt obligations, including the exchange notes, depends on our financial condition and results of operations, which in turn are subject to prevailing economic and competitive conditions and to certain financial, business and other factors beyond our control. We may not be able to maintain a level of cash flows from operating activities sufficient to permit us to pay the principal, premium, if any, and interest on our indebtedness, including the exchange notes.

If our cash flows and capital resources are insufficient to fund our debt service obligations, we could face substantial liquidity problems and may be forced to reduce or delay investments and capital expenditures, or to sell assets, seek additional capital or restructure or refinance our indebtedness, including the exchange notes. Our ability to restructure or refinance our debt will depend on the condition of the capital markets and our financial condition at such time. Any refinancing of our debt could be at higher interest rates and may require us to comply with more onerous covenants, which could further restrict our business operations. The terms of existing or future debt instruments may restrict us from adopting some of these alternatives. In addition, any failure to make payments of interest and principal on our outstanding indebtedness on a timely basis would likely result in a reduction of our credit rating, which could harm our ability to incur additional indebtedness. In the absence of such cash flows and resources, we could face substantial liquidity problems and might be required to dispose of material assets or operations to meet our debt service and other obligations. Our Senior Secured Credit Facilities, the indenture governing our 2018 Senior Notes and the indenture that governs the exchange notes restricts our ability to dispose of assets and use the proceeds from the disposition. We may not be able to consummate those dispositions or to obtain the proceeds that we could realize from them and these proceeds may not be adequate to meet any debt service obligations then due. These alternative measures may not be successful and may not permit us to meet our scheduled debt service obligations. See “Description of Other Indebtedness” and “Description of the Exchange Notes.”

In addition, we conduct a substantial portion of our operations through our subsidiaries, certain of which will not be guarantors of the exchange notes or our other indebtedness. Accordingly, repayment of our indebtedness, including the exchange notes, is dependent on the generation of cash flow by our subsidiaries and their ability to make such cash available to us, by dividend, debt repayment or otherwise. Unless they are guarantors of the exchange notes or our other indebtedness, our subsidiaries do not have any obligation to pay amounts due on the exchange notes or our other indebtedness or to make funds available for that purpose. Our subsidiaries may not be able to, or may not be permitted to, make distributions to enable us to make payments in respect of our indebtedness, including the exchange notes. Each subsidiary is a distinct legal entity, and, under certain circumstances, legal and contractual restrictions may limit our ability to obtain cash from our subsidiaries. While the indenture that governs the exchange notes and the agreements governing certain of our other existing indebtedness limits the ability of certain of our subsidiaries to incur consensual restrictions on their ability to pay dividends or make other intercompany payments to us, these limitations are subject to qualifications and exceptions. In the event that we do not receive distributions from our subsidiaries, we may be unable to make required principal and interest payments on our indebtedness, including the exchange notes.

Our inability to generate sufficient cash flows to satisfy our debt obligations, or to refinance our indebtedness on commercially reasonable terms or at all, would materially and adversely affect our financial position and results of operations and our ability to satisfy our obligations under the exchange notes.

If we cannot make scheduled payments on our indebtedness, we will be in default and holders of the exchange notes could declare all outstanding principal and interest to be due and payable, the lenders under the 2012 ABL Revolver could terminate their commitments to loan money, our secured lenders could foreclose against the assets securing their borrowings and we could be forced into bankruptcy or liquidation. All of these events could result in your losing your entire investment in the exchange notes.

The terms of our credit agreements governing the Senior Secured Credit Facilities, the indenture governing our 2018 Senior Notes and the indenture that governs the exchange notes will restrict our current and future operations, particularly our ability to respond to changes or to take certain actions.

The credit agreements governing the Senior Secured Credit Facilities, the indenture governing our 2018 Senior Notes and the indenture that governs the exchange notes contains a number of restrictive covenants that impose significant operating and financial restrictions on us and may limit our ability to engage in acts that may be in our long-term best interest, including, among other things, restrictions on our ability to:

- incur additional indebtedness and guarantee indebtedness;
- pay dividends or make other distributions in respect of, or repurchase or redeem, capital stock;

- prepay, redeem or repurchase certain indebtedness;
- make loans and investments;
- sell or otherwise dispose of assets;
- incur liens;
- enter into transactions with affiliates;
- alter the businesses we conduct;
- enter into agreements restricting our subsidiaries' ability to pay dividends; and
- consolidate, merge or sell all or substantially all of our assets.

The covenants in the indenture that governs the exchange notes are subject to important exceptions and qualifications, which are described under “Description of the Exchange Notes.”

In addition, the restrictive covenants in the credit agreements governing the Senior Secured Credit Facilities require us to maintain specified financial ratios and satisfy other financial condition tests. Our ability to meet those financial ratios and tests can be affected by events beyond our control, and we may not be able to meet them.

These restrictive covenants could adversely affect our ability to:

- finance our operations;
- make needed capital expenditures;
- make strategic acquisitions or investments or enter into joint ventures;
- withstand a future downturn in our business, the industry or the economy in general;
- engage in business activities, including future opportunities, that may be in our best interest; and
- plan for or react to market conditions or otherwise execute our business strategies.

These restrictions may affect our ability to grow in accordance with our plans.

A breach of the covenants under the indenture that governs the exchange notes, the indenture governing our 2018 Senior Notes or under the credit agreements governing the Senior Secured Credit Facilities could result in an event of default under the applicable indebtedness. Such a default may allow the creditors to accelerate the related indebtedness and may result in the acceleration of any other indebtedness to which a cross-acceleration or cross-default provision applies. In addition, an event of default under the credit agreement governing the 2012 ABL Revolver would permit the lenders under the 2012 ABL Revolver to terminate all commitments to extend further credit under that facility. Furthermore, if we were unable to repay the amounts due and payable under the Senior Secured Credit Facilities or our 2018 Senior Notes, those lenders could proceed against the collateral granted to them to secure that indebtedness. In the event our lenders or noteholders accelerate the repayment of our borrowings, we and our guarantors may not have sufficient assets to repay that indebtedness.

Our variable rate indebtedness subjects us to interest rate risk, which could cause our debt service obligations to increase significantly.

Borrowings under the Senior Secured Credit Facilities are at variable rates of interest and expose us to interest rate risk. If interest rates increase, our debt service obligations on the variable rate indebtedness will increase even though the amount borrowed remained the same, and our net income and cash flows, including cash available for servicing our indebtedness, will correspondingly decrease. Assuming all revolving loans are fully drawn, each quarter point change in interest rates would result in a \$1.7 million change in annual interest expense on our indebtedness under the Senior Secured Credit Facilities. In the future, we may enter into interest rate swaps that involve the exchange of floating for fixed rate interest payments in order to reduce interest rate volatility. However, we may not maintain interest rate swaps with respect to all of our variable rate indebtedness, and any swaps we enter into may not fully mitigate our interest rate risk, or may create additional risks.

The exchange notes will be effectively subordinated to our indebtedness under the Senior Secured Credit Facilities, our 2018 Senior Notes and our other secured indebtedness to the extent of the value of the assets securing that indebtedness.

The exchange notes will not be secured by any of our assets. As a result, the exchange notes and the guarantees will be effectively subordinated to our indebtedness under the Senior Secured Credit Facilities and our 2018 Senior Notes with respect to the assets that secure that indebtedness. As of March 31, 2012, we had approximately \$635 million of indebtedness under the 2012 Term Loan and \$250 million aggregate principal amount outstanding of our 2018 Senior Notes, all of which would have been effectively senior to the exchange notes, and approximately \$50 million of additional borrowing capacity under the 2012 ABL Revolver. We also can incur additional secured indebtedness if certain specified conditions are met under the credit agreements governing the Senior Secured Credit Facilities. See “Description of Certain Other Indebtedness.” The effect of this subordination is that upon a default in payment on, or the acceleration of, any of our secured indebtedness, or in the event of bankruptcy, insolvency, liquidation, dissolution or reorganization of our company, the proceeds from the sale of assets securing our secured indebtedness will be available to pay obligations on the exchange notes only after all indebtedness under the Senior Secured Credit Facilities, our 2018 Senior Notes and any other secured indebtedness has been paid in full. As a result, the holders of the exchange notes may receive less, ratably, than the holders of secured indebtedness in the event of our or any of the guarantors’ bankruptcy, insolvency, liquidation, dissolution or reorganization.

The exchange notes will be structurally subordinated to all obligations of our existing and future subsidiaries that are not and do not become guarantors of the exchange notes.

Each of our existing and future domestic restricted subsidiaries that is a borrower under or that guarantees obligations under the Senior Secured Credit Facilities (except in the case of non-wholly owned subsidiaries) and our 2018 Senior notes or that guarantees our other indebtedness or indebtedness of a guarantor will guarantee the exchange notes. Our subsidiaries that do not guarantee the exchange notes, including all of our non-domestic subsidiaries, will have no obligation, contingent or otherwise, to pay amounts due under the exchange notes or to make any funds available to pay those amounts, whether by dividend, distribution, loan or other payment. The exchange notes will be structurally subordinated to all indebtedness and other obligations of any non-guarantor subsidiary such that in the event of insolvency, liquidation, reorganization, dissolution or other winding up of any subsidiary that is not a guarantor, all of that subsidiary's creditors (including trade creditors and preferred stockholders, if any) would be entitled to payment in full out of that subsidiary's assets before we would be entitled to any payment.

In addition, the indenture that governs the exchange notes will, subject to some limitations, permits these subsidiaries to incur additional indebtedness and does not contain any limitation on the amount of other liabilities, such as trade payables, that may be incurred by these subsidiaries.

For the year ended March 31, 2012, our non-guarantor subsidiaries represented less than 1% of our net revenues and Adjusted EBITDA, respectively. As of March 31, 2012, our non-guarantor subsidiaries represented less than 1% of our total assets and had approximately \$1.4 million of total liabilities (including debt and trade payables but excluding intercompany liabilities).

In addition, our subsidiaries that provide, or will provide, guarantees of the exchange notes will be automatically released from those guarantees upon the occurrence of certain events, including the following:

- the designation of that subsidiary guarantor as an unrestricted subsidiary;

- the release or discharge of any guarantee or indebtedness that resulted in the creation of the guarantee of the notes by such subsidiary guarantor; or

- the sale or other disposition, including the sale of substantially all the assets, of that subsidiary guarantor.

If any subsidiary guarantee is released, no holder of the exchange notes will have a claim as a creditor against that subsidiary, and the indebtedness and other liabilities (including trade payables and preferred stock, if any), whether

secured or unsecured, of that subsidiary will be effectively senior to the claim of any holders of the exchange notes. See “Description of the Exchange Notes—Guarantees.”

We may not be able to repurchase the notes upon a change of control.

Upon the occurrence of specific kinds of change of control events, we will be required to offer to repurchase all outstanding exchange notes at 101% of their principal amount, together with accrued and unpaid interest, if any, to the purchase date. The indenture governing our 2018 Senior Notes contains a similar provision that would require us to make an offer to repurchase our 2018 Senior Notes. Additionally, under the Senior Secured Credit Facilities, a change of control (as defined therein) constitutes an event of default that permits the lenders to accelerate the maturity of borrowings under the respective agreements and terminate their commitments to lend. The source of funds for any purchase of the exchange notes and our 2018 Senior Notes and repayment of borrowings under the Senior Secured Credit Facilities would be our available cash or cash generated from our subsidiaries' operations or other sources, including borrowings, sales of assets or sales of equity. We may not be able to repurchase the exchange notes upon a change of control because we may not have sufficient financial resources to purchase all of the debt securities that are tendered upon a change of control and repay our other indebtedness that will become due. We may require additional financing from third parties to fund any such purchases, and we may be unable to obtain financing on satisfactory terms or at all. Further, our ability to repurchase the exchange notes may be limited by law. In order to avoid the obligations to repurchase the exchange notes and our 2018 Senior Notes and events of default and potential breaches of the credit agreements governing the Senior Secured Credit Facilities, we may have to avoid certain change of control transactions that would otherwise be beneficial to us.

In addition, some important corporate events, such as leveraged recapitalizations, may not, under the indenture that governs the exchange notes, constitute a "change of control" that would require us to repurchase the exchange notes, even though those corporate events could increase the level of our indebtedness or otherwise adversely affect our capital structure, credit ratings, financial condition or the value of the exchange notes. See "Description of the Exchange Notes—Repurchase at the Option of Holders—Change of Control."

Federal and state fraudulent transfer laws may permit a court to void the exchange notes or the guarantees, and if that occurs, you may not receive any payments on the exchange notes.

Federal and state fraudulent transfer and conveyance statutes may apply to the issuance of the exchange notes and the incurrence of the guarantees of the exchange notes. Under federal bankruptcy law and comparable provisions of state fraudulent transfer or conveyance laws, which may vary from state to state, the exchange notes or the guarantees thereof could be voided as a fraudulent transfer or conveyance if the issuer or a guarantor, as applicable, (a) issued the exchange notes or incurred its guarantee with the intent of hindering, delaying or defrauding creditors or (b) received less than reasonably equivalent value or fair consideration in return for either issuing the exchange notes or incurring the guarantee and, in the case of (b) only, one of the following is also true at the time thereof:

the issuer or such guarantor, as applicable, was insolvent or rendered insolvent by reason of the issuance of the exchange notes or the incurrence of its guarantees;

the issuance of the exchange notes or the incurrence of its guarantees left the issuer or such guarantor, as applicable, with an unreasonably small amount of capital or assets to carry on the business;

the issuer or such guarantor intended to, or believed that it would, incur indebtedness beyond its ability to pay as they mature; or

the issuer or such guarantor was a defendant in an action for money damages, or had a judgment for money damages docketed against it if, in either case, the judgment is unsatisfied after final judgment.

As a general matter, value is given for a transfer or an obligation if, in exchange for the transfer or obligation, property is transferred or a valid antecedent debt is secured or satisfied. A court would likely find that a guarantor did not receive reasonably equivalent value or fair consideration for its guarantee to the extent the guarantor did not obtain a reasonably equivalent benefit directly or indirectly from the issuance of the exchange notes.

We cannot be certain as to the standards a court would use to determine whether or not the issuer or a guarantor was insolvent at the relevant time or, regardless of the standard that a court uses, whether the exchange notes or the guarantees would be subordinated to other indebtedness. In general, however, a court would deem an entity insolvent if:

the sum of its indebtedness, including contingent and unliquidated liabilities, was greater than the fair saleable value of all of its assets;

the present fair saleable value of its assets was less than the amount that would be required to pay its probable liability on its existing indebtedness, including contingent liabilities, as they become absolute and mature; or

it could not pay its indebtedness as they became due.

If a court were to find that the issuance of the exchange notes or the incurrence of a guarantee was a fraudulent transfer or conveyance, the court could void the payment obligations under the exchange notes or that guarantee, could subordinate the exchange notes or that guarantee to presently existing and future indebtedness of the issuer or of the relevant guarantor or could require the holders of the exchange notes to repay any amounts received with respect to the exchange notes or that guarantee. In the event of a finding that a fraudulent transfer or conveyance occurred, you may not receive any repayment on the exchange notes. Further, the avoidance of the exchange notes could result in an event of default with respect to our and our subsidiaries' other indebtedness that could result in acceleration of that indebtedness.

Finally, as a court of equity, the bankruptcy court may subordinate the claims in respect of the exchange notes to other claims against us under the principle of equitable subordination if the court determines that (1) the holder of exchange notes engaged in some type of inequitable conduct, (2) the inequitable conduct resulted in injury to our other creditors or conferred an unfair advantage upon the holders of exchange notes and (3) equitable subordination is not inconsistent with the provisions of the United States Bankruptcy Code.

A lowering or withdrawal of the ratings assigned to our debt securities by rating agencies may increase our future borrowing costs and reduce our access to capital.

Our debt will have a non-investment grade rating, and any rating assigned could be lowered or withdrawn entirely by a rating agency if, in that rating agency's judgment, future circumstances relating to the basis of the rating, such as adverse changes, so warrant. Consequently, real or anticipated changes in our credit ratings will generally affect the market value of the exchange notes. Credit ratings are not recommendations to purchase, hold or sell the exchange notes. Additionally, credit ratings may not reflect the potential effect of risks relating to the structure or marketing of the exchange notes. Any downgrade by either Standard & Poor's Rating's Group ("Standard & Poor's") or Moody's Investor Service, Inc. ("Moody's") would increase the interest rate on the Senior Secured Credit Facilities, decrease our earnings and may result in higher borrowing costs.

Any future lowering of our ratings likely would make it more difficult or more expensive for us to obtain additional debt financing. If any credit rating initially assigned to the exchange notes is subsequently lowered or withdrawn for any reason, you may not be able to resell your exchange notes at a favorable price or at all.

Many of the covenants in the indenture that governs the notes will not apply during any period in which the notes are rated investment grade by both Moody's and Standard & Poor's.

Many of the covenants in the indenture that governs the exchange notes will not apply to us during any period in which the exchange notes are rated investment grade by both Moody's and Standard & Poor's, provided at such time no default or event of default has occurred and is continuing. These covenants will restrict, among other things, our ability to pay distributions, incur indebtedness and enter into certain other transactions. There can be no assurance that the exchange notes will ever be rated investment grade, or that if they are rated investment grade, that the exchange notes will maintain these ratings. However, suspension of these covenants would allow us to engage in certain transactions that would not be permitted while these covenants were in force. To the extent the covenants are subsequently reinstated, any such actions taken while the covenants were suspended would not result in an event of default under the indenture that will govern the exchange notes. See "Description of the Exchange Notes—Certain Covenants."

Your ability to transfer the exchange notes may be limited by the absence of an active trading market, and there is no assurance that any active trading market will develop for the exchange notes.

There is no established public market for the exchange notes, and we cannot assure you that an active trading market for the exchange notes will develop. If no active trading market develops, you may not be able to resell your exchange notes at their fair market value or at all. We do not intend to apply for listing the exchange notes on any securities exchange. Future trading prices of the exchange notes will depend on many factors, including, among other things, prevailing interest rates, our operating results and the market for similar securities. We cannot assure you as to the development or liquidity of any trading market for the exchange notes. The liquidity of any market for the exchange notes will depend on a number of factors, including:

the number of holders of exchange notes;

our operating performance and financial condition;

the market for similar securities;

the interest of securities dealers in making a market in the exchange notes; and

prevailing interest rates.

Historically, the market for non-investment grade debt has been subject to disruptions that have caused substantial volatility in the prices of securities similar to the exchange notes. We cannot assure you that the market, if any, for the exchange notes will be free from similar disruptions or that any such disruptions may not adversely affect the prices at which you may sell your exchange notes. Therefore, we cannot assure you that you will be able to sell your exchange notes at a particular time or the price that you receive when you sell will be favorable.

If you hold the exchange notes in book-entry form, you must rely on the procedures of the relevant clearing systems to exercise any rights and remedies.

Unless and until definitive notes are issued in exchange for book-entry interests in the exchange notes, owners of the book-entry interests will not be considered owners or holders of exchange notes. Instead, the common depository, or its nominee, will be the sole holder of the exchange notes.

Payments of principal and interest and any other amounts owing on or in respect of the exchange notes in global form will be made to U.S. Bank National Association, as paying agent, which will make payments to DTC. Thereafter, these payments will be credited to DTC participants' accounts (including the Euroclear System (or Euroclear) and Clearstream Banking, *société anonyme* (which we refer to as Clearstream)) that hold book-entry interests in the notes in global form and credited by such participants to indirect participants. After payment to DTC or the common depository, none of us, any of our affiliates, U.S. Bank National Association, as Trustee (which we refer to as the trustee), or any payment agent will have any responsibility or liability for any aspect of the records relating to, or payments of interest, principal or other amounts to, DTC, Euroclear and/or Clearstream or to owners of book-entry interests.

Unlike holders of the exchange notes themselves, owners of book-entry interests will not have the direct right to act upon solicitations for consents or requests for waivers or other actions from holders of the exchange notes. Instead, if

Edgar Filing: Spic & Span CO - Form 424B3

you own a book-entry interest, you will be permitted to act only to the extent you have received appropriate proxies to do so from DTC, Euroclear and/or Clearstream or, if applicable, from a participant. We cannot assure you that procedures implemented for the granting of such proxies will be sufficient to enable you to vote on any requested actions on a timely basis.

The lack of physical certificates could also:

Result in payment delays on your exchange notes because the trustee will be sending distributions on the exchange notes to DTC and Euroclear and Clearstream instead of directly to you;

Make it difficult for you to pledge your exchange notes if physical certificates are required by the party demanding the pledge; and

Hinder your ability to resell your exchange notes because some investors may be unwilling to buy securities that are not in physical form.

Unaudited Pro Forma Combined Financial Information

On January 31, 2012, the Company completed its previously announced acquisition of 15 over-the-counter (OTC) pharmaceutical brands sold in North America, including certain related contracts, trademarks and inventory ("GSK Brands I"), from GlaxoSmithKline plc and certain of its affiliates pursuant to the business sale and purchase agreement dated as of December 20, 2011.

On the closing date, the Company issued \$250 million in aggregate principal amount of 8.125% Senior Notes due 2020. Also on the closing date, the Company entered into new senior secured credit facilities, consisting of (i) a \$660 million term loan facility with a seven-year maturity and (ii) a \$50 million asset-based revolving credit facility with a five-year maturity. No amounts were drawn under the new revolving credit facility at the closing date.

On March 30, 2012, the Company completed its previously announced acquisition of the *Debrox*[®] and *Gly-Oxide*[®] over-the-counter pharmaceutical brands sold in North America, including certain related contracts, trademarks and inventory ("GSK Brands II" and together with GSK Brands I, the "GSK Brands") from GlaxoSmithKline plc and certain of its affiliates pursuant to the business sale and purchase agreement dated as of December 20, 2011. The purchase price for these assets was \$45 million in cash. The purchase price was funded with proceeds from the credit facilities entered into on January 31, 2012. In April 2012, the Company received the post-closing inventory and apportionment adjustments, which required an additional \$2.8 million to be paid to GlaxoSmithKline plc.

The unaudited pro forma combined statement of operations for the fiscal year ended March 31, 2012 has been prepared to illustrate the effects of the transaction, as if it had occurred on April 1, 2011. The pro forma data has been derived from the audited financial statements of Prestige for the fiscal year ended March 31, 2012 and the audited financial statements of the GSK Brands for the fiscal year ended December 31, 2011. The GSK Brands have historically used a December 31 fiscal year end. For purposes of the pro forma combined financial information for the fiscal year ended March 31, 2012, the year ended December 31, 2011 was used for the GSK Brands.

The unaudited pro forma financial statements are not intended to reflect the results of the operations or the financial position of Prestige, which would have actually resulted had the proposed transaction been effected on the dates indicated. Further, the unaudited pro forma financial information is not necessarily indicative of the results of operations that may be obtained in the future.

It is management's opinion that the pro forma statement of operations represent the fair presentation, in all material respects, of the transaction described above applied on a basis consistent with Prestige's accounting policies. No adjustments have been made to reflect potential cost savings that may occur subsequent to completion of the transaction.

Prestige Brand Holdings, Inc.**Notes to Unaudited Pro Forma Combined Statement of Operations**

The unaudited pro forma statement of operations have been prepared to reflect the application of purchase accounting under ASC 805, "Business Combinations," for the acquisition of the GSK Brands. The unaudited pro forma statement of operations for the fiscal year ended March 31, 2012, have been prepared to illustrate the effects of the Transaction as if it had occurred on April 1, 2011. The GSK Brands have historically used a December 31 fiscal year end. For purposes of the fiscal year ended March 31, 2012 data presented herein, a historical December 31, 2011 period was used for the GSK Brands. Additionally, the pro forma adjustments remove the impact of two month's activity related to the GSK brands that is captured in the Prestige Brand Holdings, Inc. reported statement of operations for the fiscal year ended March 31, 2012.

The adjustment removes the operating results of the GSK brands acquired January 31, 2012 ("GSK Brands I"), which have been included in Prestige Brands Holdings, Inc.'s Consolidated Financial Statements from February 1, 2012, the day following the date of acquisition. Revenues of the acquired operations from February 1, 2012 through March 31, 2012 were \$30.4 million and the net loss was \$0.2 million. The operating results of the GSK brands acquired March 30, 2012 ("GSK Brands II") will be included in our Consolidated Financial Statements beginning April 1, 2012. Accordingly, we did not record any revenues or operating results in the accompanying Consolidated Financial Statements related to GSK Brands II.

In conjunction with the acquisition of the GSK Brands, we incurred \$13.0 million of costs that were specific to the transaction (e.g., banker and professional fees), and these costs have been removed as a pro forma adjustment.

This adjustment represents the amortization expense related to the purchase price and amortizable intangible assets for the acquisition of the GSK Brands. The following table summarizes our allocation of the \$662.8 million purchase price to the assets we acquired at the GSK Brands I and GSK Brands II acquisition dates and the annual amortization expense associated with the acquired amortizable brand intangibles:

(In thousands)	GSK Brands I (January 31, 2012)	GSK Brands II (March 30, 2012)	Total

(e) Reflects the interest expense as a result of the acquisition of the GSK Brands, which is calculated as follows:

	Twelve Months Ended March 12
Total cash interest from debt requirements of the Transaction (1)	\$ 77,321
Amortization of deferred financing costs (2)	5,872
Total pro-forma interest expense	83,193

Net adjustment to interest expense	\$ 41,873

(1) Represents the interest on the outstanding and unused balance on the New Senior Secured Credit Facilities (variable rate), the 2018 Senior Notes, and the notes offered hereby, together assuming a weighted average interest rate of 6.9%. An increase (decrease) of 25 basis points in the assumed interest rate would result in an increase (decrease) of \$2.9 million per year in total interest expense.

(2) Represents annual amortization expense on \$33.3 million of deferred financing fees, utilizing a weighted average maturity of 7.1 years, which approximates amortization under the effective interest rate method.

(f) Includes the add back of \$5.4 million related to the loss on extinguishment of debt incurred as a result of the acquisition of the GSK Brands.

(g) Reflects the tax effect of the pro forma adjustments and the pro forma impact of inclusion of a tax provision for the operating results of the GSK Brands, each using the Company's effective tax rate of 39.2%.

The Exchange Offer

Purpose and Effect of the Exchange Offer

In connection with the sale of the existing notes, we entered into a registration rights agreement with the initial purchasers of the existing notes, pursuant to which we agreed to use commercially reasonable efforts to file a registration statement with the SEC with respect to the exchange of the existing notes for the exchange notes. We are making the exchange offer to fulfill our contractual obligations under that agreement. A copy of the registration rights agreement is included as an exhibit to the registration statement of which this prospectus is a part.

Pursuant to the exchange offer, we will issue the exchange notes in exchange for existing notes. The terms of the exchange notes are substantially identical to those of the existing notes, except that the exchange notes (1) have been registered under the Securities Act and therefore will not be subject to certain restrictions on transfer applicable to the existing notes and (2) will not have registration rights or provide for any increase in the interest rate related to the obligation to register. See “Description of the Exchange Notes” and “Description of the Existing Notes” for more information on the terms of the respective notes and the differences between them.

We are not making the exchange offer to, and will not accept tenders for exchange from, holders of existing notes in any jurisdiction in which an exchange offer or the acceptance thereof would not be in compliance with the securities or blue sky laws of such jurisdiction. Unless the context requires otherwise, the term “holder” in this section means any person in whose name the existing notes are registered on our books or any other person who has obtained a properly completed bond power from the registered holder, or any person whose existing notes are held of record by DTC who desires to deliver such existing notes by book-entry transfer at DTC.

We make no recommendation to the holders of existing notes as to whether to tender or refrain from tendering all or any portion of their existing notes pursuant to the exchange offer. In addition, no one has been authorized to make any such recommendation. Holders of existing notes must make their own decision whether to tender pursuant to the exchange offer and, if so, the aggregate amount of existing notes to tender after reading this prospectus and the letter of transmittal and consulting with their advisers, if any, based on their own financial position and requirements.

Terms of the Exchange

Upon the terms and conditions described in this prospectus and in the accompanying letter of transmittal, which together constitute the exchange offer, we will accept for exchange existing notes that are properly tendered at or

before the expiration time and not withdrawn as permitted below. As of the date of this prospectus, \$250,000,000 aggregate principal amount of existing notes are outstanding. This prospectus, together with the letter of transmittal, is first being sent on or about the date on the cover page of the prospectus to all holders of existing notes known to us. Existing notes tendered in the exchange offer must be in denominations of principal amount of \$2,000 and any integral multiples of \$1,000 in excess thereof.

Our acceptance of the tender of existing notes by a tendering holder will form a binding agreement between the tendering holder and us upon the terms and subject to the conditions provided in this prospectus and in the accompanying letter of transmittal.

Expiration, Extension and Amendment

The expiration time of the exchange offer is 5:00 p.m. New York City time on August 13, 2012; however, we may, in our sole discretion, extend the period of time for which the exchange offer is open and set a later expiration date. The term “expiration time” as used herein means the latest time and date to which we extend the exchange offer. If we decide to extend the exchange offer period, we will then delay acceptance of any existing notes by giving oral or written notice of an extension to the holders of existing notes as described below. During any extension period, all existing notes previously tendered will remain subject to the exchange offer and may be accepted for exchange by us. Any existing notes not accepted for exchange will be returned to the tendering holder after the expiration or termination of the exchange offer.

Our obligation to accept existing notes for exchange in the exchange offer is subject to the conditions described below under “—Conditions to the Exchange Offer.” We may decide to waive any of the conditions in our sole discretion. Furthermore, we reserve the right to amend or terminate the exchange offer, and not to accept for exchange any existing notes not previously accepted for exchange, upon the occurrence of any of the conditions of the exchange offer specified below under the same heading. We will give oral or written notice of any extension, amendment, non-acceptance or termination to the holders of the existing notes as promptly as practicable. If we materially change the terms of the exchange offer, we will resolicit tenders of the existing notes, file a post-effective amendment to the registration statement and provide notice to you. If the change is made less than five business days before the expiration of the exchange offer, we will extend the offer so that the holders have at least five business days to tender or withdraw. We will notify you of any extension by means of a press release or other public announcement no later than August 14, 2012, the first business day after the previously scheduled expiration time.

Procedures for Tendering

Valid Tender

Except as described below, a tendering holder must, prior to the expiration time, transmit to U.S. Bank National Association, the exchange agent, at the address listed under the heading “—Exchange Agent”:

a properly completed and duly executed letter of transmittal, including all other documents required by the letter of transmittal; or

- if existing notes are tendered in accordance with the book-entry procedures listed below, an agent’s message.

In addition, a tendering holder must:

- deliver certificates, if any, for the existing notes to the exchange agent at or before the expiration time; or

deliver a timely confirmation of book-entry transfer of the existing notes into the exchange agent’s account at DTC, the book-entry transfer facility, along with the letter of transmittal or an agent’s message.

The term “agent’s message” means a message, transmitted by DTC to and received by the exchange agent and forming a part of a book-entry confirmation, that states that DTC has received an express acknowledgment that the tendering holder agrees to be bound by the letter of transmittal and that we may enforce the letter of transmittal against this holder.

If the letter of transmittal is signed by a person other than the registered holder of existing notes, the letter of transmittal must be accompanied by a written instrument of transfer or exchange in satisfactory form duly executed by the registered holder with the signature guaranteed by an eligible institution. The existing notes must be endorsed or accompanied by appropriate powers of attorney. In either case, the existing notes must be signed exactly as the name of any registered holder appears on the existing notes.

If the letter of transmittal or any existing notes or powers of attorney are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, these persons should so indicate when signing. Unless waived by us, proper evidence satisfactory to us of their authority to so act must be submitted.

By tendering existing notes pursuant to the exchange offer, each holder will represent to us that, among other things, the exchange notes are being acquired in the ordinary course of business of the person receiving the exchange notes, whether or not that person is the holder, and neither the holder nor the other person has any arrangement or understanding with any person to participate in the distribution of the exchange notes. In the case of a holder that is not a broker-dealer, that holder, by tendering existing notes pursuant to the exchange offer, will also represent to us that the holder is not engaged in and does not intend to engage in a distribution of the exchange notes.

The method of delivery of existing notes, letters of transmittal and all other required documents is at your election and risk. If the delivery is by mail, we recommend that you use registered mail, properly insured, with return receipt requested. In all cases, you should allow sufficient time to assure timely delivery. You should not send letters of transmittal or existing notes to us.

If you are a beneficial owner whose existing notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee, and you wish to tender your existing notes, you should promptly instruct the registered holder to tender on your behalf. Any registered holder that is a participant in DTC's book-entry transfer facility system may make book-entry delivery of the existing notes by causing DTC to transfer the existing notes into the exchange agent's account, including by means of ATOP.

Signature Guarantees

Signatures on a letter of transmittal or a notice of withdrawal must be guaranteed, unless the existing notes surrendered for exchange are tendered:

by a registered holder of the existing notes who has not completed the box entitled "Special Issuance/Delivery Instructions" on the letter of transmittal, or

for the account of an "eligible institution."

If signatures on a letter of transmittal or a notice of withdrawal are required to be guaranteed, the guarantees must be by an "eligible institution." An "eligible institution" is an "eligible guarantor institution" meeting the requirements of the registrar for the notes, which requirements include membership or participation in the Security Transfer Agent Medallion Program, (STAMP) or such other "signature guarantee program" as may be determined by the registrar for the notes in addition to, or in substitution for, STAMP, all in accordance with the Exchange Act.

Book-Entry Transfer

The exchange agent will make a request to establish an account for the existing notes at DTC for purposes of the exchange offer within two business days after the date of this prospectus. Any financial institution that is a participant in DTC's systems must make book-entry delivery of existing notes by causing DTC to transfer those existing notes into the exchange agent's account at DTC in accordance with DTC's procedure for transfer. The participant should transmit its acceptance to DTC at or prior to the expiration time. DTC will verify this acceptance, execute a

book-entry transfer of the tendered existing notes into the exchange agent's account at DTC and then send to the exchange agent confirmation of this book-entry transfer. The confirmation of this book-entry transfer will include an agent's message confirming that DTC has received an express acknowledgment from this participant that this participant has received and agrees to be bound by the letter of transmittal and that we may enforce the letter of transmittal against this participant.

Delivery of exchange notes issued in the exchange offer may be effected through book-entry transfer at DTC. However, the letter of transmittal or facsimile of it or an agent's message, with any required signature guarantees and any other required documents, must be transmitted to and received by the exchange agent at the address listed under "—Exchange Agent" at or prior to the expiration time.

Delivery of documents to DTC in accordance with DTC's procedures does not constitute delivery to the exchange agent.

Determination of Validity

We will determine in our sole discretion all questions as to the validity, form and eligibility of existing notes tendered for exchange. This discretion extends to the determination of all questions concerning the timing of receipts and acceptance of tenders. These determinations will be final and binding. We reserve the right to reject any particular new note not properly tendered or of which our acceptance might, in our judgment or our counsel's judgment, be unlawful. We also reserve the right to waive any defects or irregularities or conditions of the exchange offer as to any particular new note either before or after the expiration time, including the right to waive the ineligibility of any tendering holder. Our interpretation of the terms and conditions of the exchange offer as to any particular new note either before or after the expiration time, including the letter of transmittal and the instructions to the letter of transmittal, will be final and binding on all parties. Unless waived, any defects or irregularities in connection with tenders of existing notes must be cured within a reasonable period of time.

Neither we, the exchange agent nor any other person will be under any duty to give notification of any defect or irregularity in any tender of existing notes. Moreover, neither we, the exchange agent nor any other person will incur any liability for failing to give notification of any defect or irregularity.

Acceptance of Existing Notes for Exchange; Issuance of Exchange Notes

Upon the terms and subject to the conditions of the exchange offer, we will accept, promptly after the expiration time, all existing notes properly tendered. We will issue the exchange notes promptly after acceptance of the existing notes. For purposes of the exchange offer, we will be deemed to have accepted properly tendered existing notes for exchange when, as and if we have given oral or written notice to the exchange agent, with prompt written confirmation of any oral notice.

In all cases, issuance of exchange notes for existing notes will be made only after timely receipt by the exchange agent of:

certificates for the existing notes, or a timely book-entry confirmation of the existing notes, into the exchange agent's account at the book-entry transfer facility;

a properly completed and duly executed letter of transmittal or an agent's message; and

all other required documents.

Unaccepted or non-exchanged existing notes will be returned without expense to the tendering holder of the existing notes. In the case of existing notes tendered by book-entry transfer in accordance with the book-entry procedures described above, the non-exchanged existing notes will be credited to an account maintained with DTC as promptly as practicable after the expiration or termination of the exchange offer. For each new note accepted for exchange, the holder of the new note will receive an exchange note having a principal amount equal to that of the surrendered new note.

Interest Payments on the Exchange Notes

The exchange notes will bear interest from the date interest was most recently paid. Accordingly, registered holders of exchange notes on the relevant record date for the first interest payment date following the completion of the exchange

Edgar Filing: Spic & Span CO - Form 424B3

offer will receive interest accruing from the most recent date through which interest has been paid on the tendered existing notes. Existing notes accepted for exchange will cease to accrue interest from and after the date of completion of the exchange offer. Holders of existing notes whose existing notes are accepted for exchange will not receive any payment for accrued interest on the existing notes otherwise payable on any interest payment date, the record date for which occurs on or after completion of the exchange offer and will be deemed to have waived their rights to receive the accrued interest on the existing notes.

Withdrawal Rights

Tenders of existing notes may be withdrawn at any time before the expiration time.

For a withdrawal to be effective, the exchange agent must receive a written notice of withdrawal at the address or, in the case of eligible institutions, at the facsimile number, indicated under “—Exchange Agent” before the expiration time. Any notice of withdrawal must:

- specify the name of the person, referred to as the depositor, having tendered the existing notes to be withdrawn;

identify the existing notes to be withdrawn, including the certificate number or numbers and principal amount of the existing notes;

- contain a statement that the holder is withdrawing its election to have the existing notes exchanged;

be signed by the holder in the same manner as the original signature on the letter of transmittal by which the existing notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer to have the exchange agent with respect to the existing notes register the transfer of the existing notes in the name of the person withdrawing the tender; and

- specify the name in which the existing notes are registered, if different from that of the depositor.

If certificates for existing notes have been delivered or otherwise identified to the exchange agent, then, prior to the release of these certificates the withdrawing holder must also submit the serial numbers of the particular certificates to be withdrawn and signed notice of withdrawal with signatures guaranteed by an eligible institution, unless this holder is an eligible institution. If existing notes have been tendered in accordance with the procedure for book-entry transfer described above, any notice of withdrawal must specify the name and number of the account at the book-entry transfer facility to be credited with the withdrawn existing notes.

Any existing notes properly withdrawn will be deemed not to have been validly tendered for exchange. Exchange notes will not be issued in exchange unless the existing notes so withdrawn are validly re-tendered. Properly withdrawn existing notes may be re-tendered by following the procedures described under “—Procedures for Tendering” above at any time at or before the expiration time.

We will determine all questions as to the validity, form and eligibility, including time of receipt, of notices of withdrawal in our sole discretion.

Conditions to the Exchange Offer

Despite any other term of the exchange offer, we will not be required to exchange any existing notes and may terminate the exchange offer as provided in this prospectus before an acceptance of any existing notes if any of the following conditions has occurred or exists:

Edgar Filing: Spic & Span CO - Form 424B3

there is a change in the current interpretation by the staff of the SEC, which now permits the exchange notes issued pursuant to the exchange offer in exchange for existing notes to be offered for resale, resold and otherwise transferred by the holders (other than broker-dealers and any holder that is an affiliate) without compliance with the registration and prospectus delivery provisions of the Securities Act, provided that such exchange notes are acquired in the ordinary course of such holders' business and such holders have no arrangement or understanding with any person to participate in the distribution of the exchange notes;

any action or proceeding has been instituted or threatened in any court or by or before any governmental agency or body with respect to the exchange offer which, in our judgment, would reasonably be expected to impair our ability to proceed with the exchange offer;

any law, statute, rule or regulation has been adopted or enacted which, in our judgment, would reasonably be expected to impair our ability to proceed with the exchange offer;

a banking moratorium has been declared by United States federal or New York or Minnesota State authorities which, in our judgment, would reasonably be expected to impair our ability to proceed with the exchange offer;

trading on the New York Stock Exchange or generally in the United States over-the-counter market has been suspended by order of the SEC or any other governmental authority which, in our judgment, would reasonably be expected to impair our ability to proceed with the exchange offer;

an attack on the United States, an outbreak or escalation of hostilities or acts of terrorism involving the United States, or any declaration by the United States of a national emergency or war has occurred;

a stop order has been issued by the SEC or any state securities authority suspending the effectiveness of the registration statement of which this prospectus is a part or proceedings have been initiated or, to our knowledge, threatened for that purpose or any governmental approval has not been obtained, which approval we, in our sole discretion, deem necessary for the consummation of the exchange offer; or

any change, or any development involving a prospective change, in our business or financial affairs or any of our subsidiaries has occurred that is or may be adverse to us or we have become aware of facts that have or may have an adverse impact on the value of the existing notes or the exchange notes, which in our sole judgment in any case makes it inadvisable to proceed with the exchange offer and/or with the acceptance for exchange or with the exchange of the existing notes.

If we determine in our sole discretion that any of the foregoing events or conditions has occurred or exists, we may, subject to applicable law, terminate the exchange offer, whether or not any existing notes have been accepted for exchange, or may waive any such condition or otherwise amend the terms of the exchange offer in any respect. See “—Expiration, Extension and Amendment” above.

Resales of Exchange Notes

Based on interpretations by the staff of the SEC, as described in no-action letters issued to third parties, we believe that the exchange notes issued in the exchange offer in exchange for existing notes may be offered for resale, resold or otherwise transferred by holders of the existing notes without compliance with the registration and prospectus delivery provisions of the Securities Act, if:

the exchange notes are acquired in the ordinary course of the holders' business;

the holders have no arrangement or understanding with any person to participate in the distribution of the exchange notes; and

the holders are not “affiliates” of ours within the meaning of Rule 405 under the Securities Act.

However, the SEC has not considered the exchange offer described in this prospectus in the context of a no-action letter. We cannot assure you that the staff of the SEC would make a similar determination with respect to the exchange offer as in the other circumstances. Each holder who wishes to exchange existing notes for exchange notes

will be required to represent that it meets the above three requirements.

Any holder who is an affiliate of ours or who intends to participate in the exchange offer for the purpose of distributing exchange notes or any broker-dealer who purchased existing notes directly from us to resell pursuant to Rule 144A or any other available exemption under the Securities Act:

- may not rely on the applicable interpretations of the staff of the SEC described above;
- will not be permitted or entitled to tender the existing notes in the exchange offer; and

must comply with the registration and prospectus delivery requirements of the Securities Act in connection with any resale transaction.

Each broker-dealer that receives exchange notes for its own account in exchange for existing notes, where such securities were acquired by such broker-dealer as a result of market making activities or other trading activities, must acknowledge that it will deliver a prospectus that meets the requirements of the Securities Act in connection with any resale of the exchange notes. The letter of transmittal states that by so acknowledging and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “underwriter” within the meaning of the Securities Act. See “Plan of Distribution.”

In addition, to comply with state securities laws, the exchange notes may not be offered or sold in any state unless they have been registered or qualified for sale in such state or an exemption from registration or qualification, with which there has been compliance, is available. The offer and sale of the exchange notes to “qualified institutional buyers,” as defined under Rule 144A of the Securities Act, is generally exempt from registration or qualification under the state securities laws. We currently do not intend to register or qualify the sale of exchange notes in any state where an exemption from registration or qualification is required and not available.

Regulatory Approval

Other than the federal securities laws, there are no federal or state regulatory requirements that we must comply with and there are no approvals that we must obtain in connection with the exchange offer.

Fees and Expenses

We have agreed to pay the exchange agent reasonable and customary fees for its services and will reimburse it for its reasonable out-of-pocket expenses in connection with the exchange offer. We will also pay brokerage houses and other custodians, nominees and fiduciaries the reasonable out-of-pocket expenses incurred by them in forwarding copies of this prospectus and related documents to the beneficial owners of existing notes, and in handling or tendering the existing notes for their customers. We will not make any payment to brokers, dealers or others for soliciting acceptances of the exchange offer.

Holders who tender their existing notes for exchange will not be obligated to pay any transfer taxes on the exchange. If, however, exchange notes are to be delivered to, or are to be issued in the name of, any person other than the registered holder of the existing notes tendered, or if a transfer tax is imposed for any reason other than the exchange of existing notes in connection with the exchange offer, then the amount of any such transfer taxes (whether imposed on the registered holder or any other persons) will be payable by the tendering holder. If satisfactory evidence of payment of such taxes or exemption therefrom is not submitted with the letter of transmittal, the amount of such transfer taxes will be billed directly to such tendering holder.

Accounting Treatment

We will record the exchange notes at the same carrying value as the existing notes, as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes. The expenses of the exchange offer will be amortized over the term of the exchange notes.

Use of Proceeds

The exchange offer is intended to satisfy our obligations under the registration rights agreement that we entered into when we issued the existing notes. We will not receive any cash proceeds from the exchange offer. In exchange for existing notes that you tender pursuant to the exchange offer, you will receive exchange notes in like principal amount. The existing notes surrendered in exchange for the exchange notes will be retired and cancelled by us upon receipt and cannot be reissued. Accordingly, the issuance of the exchange notes under the exchange offer will not result in any change in our capitalization.

(1) For 2012 and 2011, cost of sales included \$1.8 million and \$7.3 million, respectively, of charges related to the step-up of inventory associated with acquisitions.

General and administrative expense included \$13.8 million of costs related to the GSK brands acquisition, \$1.7 million of unsolicited offer defense costs in 2012, and \$7.7 million of costs related to the acquisitions of Blacksmith and *Dramamine* in 2011.

During 2009, an impairment analysis of intangible assets and goodwill was performed in accordance with the Intangibles Topic of the FASB ASC. As a result, non-cash charges were recorded in 2009 related to the impairment of certain intangible assets and goodwill of \$58.6 million and \$190.7 million, respectively. The impairment charges (3) related to intangible assets and goodwill were the result of their carrying value exceeding their fair market value as a result of declining sales and current market conditions. The impairment charges for OTC Healthcare, Household and Personal Care segments for the year ended March 31, 2009 were \$166.6 million, \$81.3 million and \$1.4 million, respectively.

(4) On September 1, 2010, we sold certain assets related to the nail polish remover brand previously included in our Personal Care products segment. The total sales price of the assets was \$4.1 million, which was received by us at closing. In October 2009, we divested our shampoo brands for a purchase price of \$9 million, \$8 million of which was paid to us at closing and \$1 million was paid in October 2010.

Management’s Discussion and Analysis of Financial Condition and Results of Operations of the GSK Brands

You should read the following discussion and analysis in conjunction with the “Unaudited Pro Forma Combined Financial Information” and the financial statements and related notes of the GSK Brands included elsewhere in this prospectus. References to “fiscal year” or “fiscal” refer to the fiscal year ended December 31 in each calendar year.

Overview

GSK is one of the world’s leading research-based pharmaceutical and healthcare companies. As part of our acquisition of the GSK Brands, GSK disposed of the following seventeen OTC brands to Prestige: *BC, Goody’s, Beano, FiberChoice, Ecotrin, Nytol®*, *Sominex, Debrox, Tagamet, Gaviscon, Phazyme, Massengill®*, *Stanback®*, *Chap-et®*, *Gly-Oxide, R&C Shampoo®* and *Kwellada-P®*.

Critical Accounting Policies and Estimates

Basis of Preparation and Accounting Policies

The GSK Brands and related net assets to be sold are not within separate legal entities and historically GSK has not maintained separate records for the GSK Brands. The statements of net assets to be sold and statements of revenue and direct operating expenses, including the accompanying notes (collectively referred to as the “Financial Statements”) have been derived from the consolidated statements and underlying accounting records of GSK.

The accompanying financial statements included elsewhere in this prospectus, were prepared to present the net assets sold pursuant to the two business sale and purchase agreements between GSK and Prestige dated December 20, 2011 and the related revenue and direct operating expenses. The basis of preparation describes how the Financial Statements have been prepared in conformity with International Accounting Standards (“IAS”), IFRS-related interpretations, as issued by the IASB, as applicable, to the items included in the Financial Statements. The financial statements are not intended to be a complete presentation of assets, revenues and expenses of the GSK Brands.

The statements of net assets sold have been prepared on a basis which includes only those assets which are directly attributable to the GSK Brands and are identified in the two business sale and purchase agreements as being transferred to Prestige as described in Clause 2.1 of the two business sale and purchase agreements. Statements of revenue and direct operating expenses include revenue and expenses that are directly attributable to the GSK Brands and certain allocations of other direct expenses incurred by GSK attributable to the GSK Brands as discussed below.

Accounting Convention and Financial Period

The financial statements of the GSK Brands have been prepared using the historical cost convention. The financial statements of the GSK Brands cover the fiscal years ended December 31, 2009, 2010 and 2011.

The financial statements of the GSK Brands are reported in United States dollars. It is assumed for the preparation of the financial statements of the GSK Brands that the functional currency for revenue, expenses and assets is the same as that previously adopted by GSK. Any currency exchange differences arising from restating the functional currencies to a U.S. dollar presentation are recognized under International Financial Reporting Standards in other comprehensive income and, consequently, are not presented as part of the financial statements of the GSK Brands. It is also assumed that all foreign currency transactions were settled in local markets at the rate in force at the date the transaction arose and, as such, no transactional exchange differences have been recognized or presented in the financial statements of the GSK Brands. Manufacturing of the products that comprise the GSK Brands is largely in the U.S. with some sourcing from Canada, and sales of these brands are in the U.S. and/or Canada. U.S. sales are reported locally in the U.S. dollar with some additional sales in Canada in the Canadian dollar. Accordingly, there is minimal currency exposure related to the brands sold in Canada. Such sales in Canadian dollars have been translated into the U.S. dollar.

Revenue

Revenue is recognized when title and risk of loss is passed to the customer, reliable estimates can be made of relevant deductions and all relevant obligations have been fulfilled, such that the earnings process is regarded as being complete.

Gross turnover is reduced by rebates, discounts, allowances and product returns given or expected to be given, which vary by product arrangements and buying groups. These arrangements with purchasing organizations are dependent upon the submission of claims some time after the initial recognition of the sale.

Accruals are made at the time of sale for the estimated rebates, discounts or allowances payable or returns to be made, based on available market information and historical experience.

Since the amounts are estimated they may not fully reflect the final outcome, and the amounts are subject to change dependent upon, among other things, the types of buying group and product sales mix.

The level of accrual is reviewed and adjusted regularly in the light of contractual and legal obligations, historical trends, past experience and projected market conditions. Market conditions are evaluated using wholesaler and other third-party analyses, market research data and internally generated information. Future events could cause the assumptions on which the accruals are based to change, which could affect the future results of the GSK Brands.

Legal and Other Disputes

The GSK Brands provide for anticipated settlement expenses where an outflow of resources is considered probable and a reliable estimate may be made of the likely outcome of the dispute and legal and other expenses arising from claims against the GSK Brands.

GSK management, after receiving legal advice, established provisions after taking into account the relevant facts and circumstances of each matter and in accordance with accounting requirements. In respect of product liability claims related to certain products a provision is made when there is evidence of claims made and settlements to enable management to make a reliable estimate of the provision required to cover unasserted claims. In certain cases, an actuarial technique is used to determine this estimate. The GSK Brands may become involved in legal proceedings in

respect of which it is not possible to make a reliable estimate of the expected financial effect, if any, that could result from the ultimate resolution of the proceedings. Accordingly, no provision should be made for any such proceedings. At December 31, 2011, there were no material provisions for legal and other disputes.

The ultimate liability for legal claims may vary from the amounts provided and is dependent upon the outcome of litigation proceedings, investigations and possible settlement negotiations. The position could change over time and, therefore, there can be no assurance that any losses that result from the outcome of any legal proceedings will not exceed the amount of the provisions reported in the financial statements of the GSK Brands by a material amount.

Intangible Assets

Where intangible assets are acquired by the GSK Brands from third parties, the costs of acquisition are capitalized. The brands acquired with businesses are capitalized independently where they are separable and have an expected life of more than one year. The brands are amortized on a straight-line basis over their estimated useful lives, not exceeding 20 years, except where the end of the useful economic life cannot be foreseen. Where brands are not amortized, they are tested annually for impairment applying a value in use methodology, generally using four year post-tax cash flow forecasts with a terminal value calculation and a discount rate equal to the GSK North American post-tax discount rate of 7%. The main assumptions include future sales price and volume growth, product contribution and the future expenditure required to maintain the product's marketability and registration in the relevant jurisdictions. These assumptions are based on past experience and are reviewed as part of management's budgeting and strategic planning cycle for changes in market conditions and sales erosion through competition. The terminal growth rates applied of between 0% and 2.5% are management's estimates of future long-term average growth rates of the relevant markets.

Licenses to compounds in development are amortized from the point at which they are available for use, over their estimated useful lives, which may include periods of non-exclusivity. Estimated useful lives are reviewed annually and impairment tests are undertaken if events occur which call into question the carrying values of the assets. Both initial valuations and valuations for subsequent impairment tests are based on established market multiples or risk-adjusted future cash flows discounted using appropriate interest rates reflecting GSK's risk profile. These future cash flows are based on business forecasts and are therefore inherently judgmental. Future events could cause the assumptions used in these impairment analyses to change with a consequent adverse effect on the future results of the GSK Brands.

Related Party Transactions

The GSK Brands enter into a significant number of transactions with entities of GSK for sales and purchase transactions and other support services provided by GSK.

Cost of Sales

The various GSK entities supply the GSK Brands with inventory. These transactions have been recorded at transfer cost for products sourced from GSK and its affiliates, which approximates the actual manufacturing cost to GSK. Transfer cost for products sourced externally reflects actual cost to GSK. Amounts of \$43.9 million, \$42.8 million and \$41.8 million are included in cost of sales in the Statements of Revenue and Direct Operating Expenses for these transactions for the fiscal years ended December 31, 2011, 2010 and 2009, respectively.

Cost Allocation

The various GSK entities provide various services to the GSK Brands. These services include selling and distribution, marketing, administration, and medical administration. Costs of these services are allocated on the basis of advertising and promotion spend. The total expenses allocated to the GSK Brands for these services were \$24.5 million, \$23.0 million and \$29.2 million for the fiscal years ended December 31, 2011, 2010 and 2009, respectively. These costs are included in Selling, General and Administrative Expenses in the Statements of Revenue and Direct Operating Expenses.

The other operating income (expense) allocated to the GSK Brands for items such as bad debt expense, corporate cost including product liabilities, franchise tax and sundry expenses and income were \$0.6 million, \$(0.3 million) and \$(0.6 million) for the fiscal years ended December 31, 2011, 2010 and 2009, respectively, and are included in the

Statements of Revenue and Direct Operating Expenses.

Corporate overhead incurred for services such as GSK insurance, legal, finance, human resources and the executive management function are not allocated to the GSK Brands because they were not historically allocated to individual businesses and are not directly associated with operations of the GSK Brands.

Remuneration of Key Management Personnel

The GSK Brands operate as part of the overall Consumer Healthcare business within GSK and were historically not managed on a standalone basis. As a result, there are no key management personnel identified for the GSK Brands.

Commitments and Contingencies

The GSK Brands are involved in various legal matters and product liability claims arising in the ordinary course of business. Although the outcome of these matters cannot be presently determined, based on our due diligence and the representations and warranties we have received from GSK, we believe the disposition of these matters will not have a material adverse effect on the revenues or direct operating expenses of the GSK Brands.

Historical Results of Operations

Fiscal Year Ended December 31, 2011 Compared to Fiscal Year Ended December 31, 2010

The following table sets forth, for the periods indicated, revenue of the GSK Brands, as well as the percentage change:

(in thousands, except percentages)	Year Ended December 31,		
	2011	2010	% Change
BC/Goody's	\$82,072	\$82,327	(0.3)%
Beano	27,514	29,426	(6.5)%
Gaviscon	15,607	12,842	21.5%
Debrox	11,779	10,601	11.1%
Other brands	69,182	72,146	(4.1)%
Total revenue	\$206,154	\$207,342	(0.6)%

Revenue for the fiscal year ended December 31, 2011 were \$206.2 million, a decline of \$1.1 million, or 0.6%, from \$207.3 million for the fiscal year ended December 31, 2010. The slight decline in revenue was driven primarily by declines in revenue from *FiberChoice* (\$1.4 million or an 6.5% decline), *Beano* (\$1.9 million or a 6.5% decline) and *Ecotrin* (\$3.8 million or a 22.3% decline), partially offset by increased revenue from certain other brands, specifically *Gaviscon* (\$2.8 million or 21.5% increase) and *Tagamet* (\$2.1 million or 24.8% increase). *FiberChoice* revenue has continued to decline due to a decline in volume resulting from a general decline in the bulk fiber market and competitive pricing pressures. The decline in revenue from *Beano* was driven by increased discounting used to counteract declining demand while the decline in *Ecotrin* revenue was driven by lost distribution from one of the GSK Brands' largest customers. *Gaviscon* revenue increased primarily due to a decline in competitive pressures resulting from one of its competitor's supply chain issues coupled with continued investment in television advertising focused on *Gaviscon's* fast relief. *Tagamet* revenue increased primarily due to new customer distribution. Revenue for the GSK Brands' top selling brands, *BC* and *Goody's*, was relatively flat period over the period.

Gross Profit

The following table sets forth, for the periods indicated, gross profit of the GSK Brands, as well as the percentage change and the percentage relationship to total revenue:

(in thousands, except percentages)	Year Ended December 31,		
	2011	2010	% Change

Edgar Filing: Spic & Span CO - Form 424B3

BC/Goody's	\$60,724	\$59,362	2.3	%
Beano	18,930	20,226	(6.4)%
Gaviscon	10,057	7,343	37.0	%
Debrox	10,566	9,097	16.1	%
Other brands	40,691	46,638	(12.8)%
Total gross profit	\$140,968	\$142,666	(1.2)%
% of total revenue	68.4	%	68.8	%

Gross profit for the fiscal year ended December 31, 2011 was \$141.0 million, a decline of \$1.7 million, or 1.2%, from \$142.7 million for the fiscal year ended December 31, 2010. The decline in gross profit was driven primarily by a decline in revenue from *FiberChoice*, *Ecotrin* and *Beano*, which were offset by increased revenue from *Gaviscon* as discussed above. As a percentage of revenue, gross profit declined to 68.4% for the twelve months ended December 31, 2011 compared to 68.8% for the fiscal year ended December 31, 2010. The reduction in gross profit percentage was driven primarily by a reduction in *Ecotrin* gross profit primarily due to increased manufacturing costs as a result of a higher manufacturing standard cost charge for *Ecotrin*, effective January 1, 2011, and a reduction in *FiberChoice* gross profit due to price reductions and increased discounting.

Contribution Margin

The following table sets forth, for the periods indicated, contribution margin of the GSK Brands, as well as the percentage change and the percentage relationship to total revenue:

(in thousands, except percentages)	Year Ended December 31,		
	2011	2010	% Change
BC/Goody's	\$49,878	\$46,306	7.7 %
Beano	14,061	13,773	2.1 %
Gaviscon	5,884	3,008	95.6 %
Debrox	9,741	7,223	34.9 %
Other brands	28,928	35,635	(18.8)%
Total contribution margin	\$108,492	\$105,945	2.4 %
% of total revenue	52.6 %	51.1 %	

Contribution margin, defined as gross profit less advertising and promotional expenses, increased \$2.5 million, or 2.4%, for the fiscal year ended December 31, 2011 compared to the comparable period in 2010. The increase in contribution margin was primarily driven by a \$9.0 million increase in contribution margin from *BC and Goody's*, *Gaviscon* and *Debrox*, which was largely offset by decreased contribution margin from *Ecotrin* (\$5.0 million decrease) and *FiberChoice* (\$2.0 million decrease). *Ecotrin* contribution margin declined due to the decline in revenue previously discussed. *FiberChoice* contribution margin declined due to a decrease in gross profit as discussed above combined with an increase in advertising and promotional expense. During the first six months of 2011, the GSK Brands increased advertising and promotional expense for *FiberChoice* to promote lower pricing and launched a new television advertising campaign. For the fiscal year ended December 31, 2011, the GSK Brands' sales volumes had not been significantly impacted by the increased advertising and promotional expense. *BC and Goody's* and *Debrox* contribution margin increased primarily as a result of reduced advertising and promotional expense. Contribution margin from *Gaviscon* increased due to the increase in revenue and gross profit as discussed above, as advertising and promotional expense for *Gaviscon* remained relatively flat over the period.

Selling, General and Administrative Expenses

The following table sets forth, for the periods indicated, the selling, general and administrative expenses of the GSK Brands, as well as the percentage change:

(in thousands, except percentages)	Year Ended December 31,		
	2011	2010	% Change

Edgar Filing: Spic & Span CO - Form 424B3

Total selling, general and administrative	\$56,974	\$59,719	(4.6)%
Brand specific costs				
Advertising	19,894	20,625	(3.5)%
Promotion	12,583	16,096	(21.8)%
Total brand specific costs	\$32,477	\$36,721	(11.6)%
Allocated selling, general and administrative	\$24,497	\$22,998	6.5	%

Allocated selling, general and administrative expenses are comprised of selling and distribution expenses and other marketing and administrative expenses. Selling and distribution expenses are local, market-incurred expenses. These expenses have decreased in line with the market expenses. Other marketing and administrative costs are allocated costs from GSK. Due to the allocated nature of these costs, these costs have remained relatively flat period over period consistent with the share of the GSK Brands' revenues compared to GSK's revenues for each respective period.

Amortization and Impairment

Amortization and impairment expense was \$0.5 million in fiscal year 2011, a decrease of \$9.8 million from fiscal year 2010. The decrease was due to a \$9.8 million impairment charge recorded in the quarterly period ended December 31, 2010 on the indefinite-lived intangible assets associated with the acquisition of the *FiberChoice* brand. The impairment charge was triggered by our decision to enact a significant price reduction in 2011 after several years of declining sales performance. Brands are amortized over their estimated useful lives of up to 20 years, except where they are considered indefinite-lived brands.

Fiscal Year Ended December 31, 2010 Compared to Fiscal Year Ended December 31, 2009

Revenue

The following table sets forth, for the periods indicated, net revenue of the GSK Brands, as well as the percentage change:

(in thousands, except percentages)	Year Ended December 31,		
	2010	2009	% Change
BC/Goody's	\$82,327	\$81,188	1.4 %
Beano	29,426	30,854	(4.6)
Gaviscon	12,842	10,491	22.4
Debrox	10,601	10,687	(0.8)
Other Brands	72,146	82,771	(12.8)
Total revenue	\$207,342	\$215,991	(4.0)%

Revenue for fiscal year 2010 was \$207.3 million, a decline of \$8.7 million, or 4%, from \$216 million in fiscal year 2009. The decline in revenue was driven primarily by a decline in *FiberChoice* revenue. *FiberChoice* revenue declined approximately \$7.5 million, or 25.5%, from fiscal year 2009 due to a decline in volume resulting from a general decline in the bulk fiber market, competitive pricing pressures and reductions in advertising and promotional support. Further contributing to the overall decline in revenues was increased discounting on brands like *BC* and *Beano* to counteract declining levels of demand. *Goody's* revenues recovered slightly in fiscal year 2010 following increased volume from a distribution expansion into Dollar General and Family Dollar.

Gross Profit

The following table sets forth, for the periods indicated, gross profit of the GSK Brands, as well as the percentage change and the percentage relationship to total revenue:

(in thousands, except percentages)	Year Ended December 31,		
	2010	2009	% Change
BC/Goody's	\$59,362	\$59,976	(1.0)%
Beano	20,226	21,545	(6.1)
Gaviscon	7,343	5,957	23.3
Debrox	9,097	9,228	(1.4)
Other Brands	46,638	54,015	(13.7)
Total gross profit	\$142,666	\$150,721	(5.3)%
% of total revenue	68.8 %	69.8 %	

Gross profit for fiscal year 2010 was \$142.7 million, a decline of \$8 million, or 5.3%, from \$150.7 million in fiscal year 2009. The decline in gross profit dollars was driven primarily by the decline in *FiberChoice* revenue as discussed above. As a percentage of revenues, gross profit declined to 68.8% in fiscal year 2010 from 69.8% in fiscal year 2009. The decline in gross profit percentage was due primarily to declines in gross profit percentage with respect to the *BC* and *Goody's* brands. Gross profit percentage was down from *BC* and *Goody's* primarily as a result of increased discounting reflecting a shift in spend from advertising and promotion to trade allowances and consumer discounts.

Contribution Margin

The following table sets forth, for the periods indicated, contribution margin of the GSK Brands, as well as the percentage change and the percentage relationship to total revenue:

(in thousands, except percentages)	Year Ended December 31,		
	2010	2009	% Change
BC/Goody's	\$46,306	\$43,693	6.0 %
Beano	13,773	14,049	(2.0)
Gaviscon	3,008	3,055	(1.5)
Debrox	7,223	8,082	(10.6)
Other brands	35,635	38,087	(6.4)
Total contribution margin	\$105,945	\$106,966	(1.0)%
% of total revenue	51.1 %	49.5 %	

Contribution margin, defined as gross profit less advertising and promotional expenses, declined \$1 million, or 1%, in fiscal year 2010 from fiscal year 2009. The decline was due to an \$8 million decline in gross profit discussed above, partially offset by a \$7 million, or 16.1%, reduction in advertising and promotional expense. The decline in advertising and promotional expense was driven by GSK's decision to reduce its investment in the brand portfolio comprising the GSK Brands. As a result, GSK shifted spend from advertising and promotion to trade allowances and consumer discounts in an attempt to maintain contribution margin with minimal investment.

Selling, General and Administrative Expenses

The following table sets forth, for the periods indicated, the selling, general and administrative expenses of the GSK Brands, as well as the percentage change:

(in thousands, except percentages)	Year Ended December 31,		
	2010	2009	% Change
Total selling, general and administrative	\$59,719	\$72,987	(18.2)%
Brand specific costs			
Advertising	20,625	22,950	(10.1)
Promotion	16,096	20,804	(22.6)
Total brand specific costs	\$36,721	\$43,754	(16.1)%
Allocated selling, general and administrative	\$22,998	\$29,233	(21.3)%

Allocated selling, general and administrative expenses are comprised of selling and distribution expenses and other marketing and administrative expenses. Selling and distribution expenses are local, market-incurred expenses. These expenses have decreased in line with the market expenses. Other marketing and administrative costs are allocated costs from GSK. Due to the allocated nature of these costs, the decline in these costs reflects both the decreasing share of the GSK Brands' revenues compared to GSK's revenues and efficiencies gained over GSK's revenues as a whole, which resulted in lower costs being allocated to the GSK Brands.

Amortization and Impairment

Amortization and impairment expense was \$10.3 million in fiscal year 2010, an increase of \$9.8 million from fiscal year 2009. The increase was due to a \$9.8 million impairment charge recorded in the quarterly period ended December 31, 2010 on the indefinite-lived intangible assets associated with the acquisition of the *FiberChoice* brand. The impairment charge was triggered by our decision to enact a significant price reduction in 2011 after several years of declining sales performance. It is anticipated that the price reduction will improve the products market competitiveness and as such further impairments are not expected.

Other Operating Income (Expense)

Other operating income (expense) includes primarily bad debt expense and other sundry items. Other operating income (expense) declined \$0.3 million in fiscal year 2010 from fiscal year 2009 due primarily to a \$0.3 million decline in bad debt expense allocated from GSK, which has been allocated based on the proportion of total sales attributable to the GSK Brands.

Description of Other Indebtedness

The following is a summary of our indebtedness that is currently outstanding. The following descriptions do not purport to be complete and are qualified in their entirety by reference to the full text of such contract or other document filed as an exhibit to the registration statement, or incorporated by reference herein.

Existing Outstanding Indebtedness

As of March 31, 2012, we had an aggregate of \$1,135.0 million of outstanding indebtedness, which consisted of the following:

· \$635.0 million of borrowings under our senior secured credit facilities;

· \$250.0 million of our 2018 Notes; and

· \$250.0 million of our existing notes.

For a more complete description of the terms of our existing indebtedness, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our Annual Report on Form 10-K for the fiscal year ended March 31, 2012, incorporated herein by reference.

Senior Secured Credit Facilities

2012 Term Loan

Overview

On January 31, 2012, in connection with the completed acquisition of the GSK Brands I, we entered into a new senior secured credit facility, which consists of a \$660.0 million term loan facility with a seven-year maturity (the “2012 Term

Loan”).

Interest Rate and Fees

The 2012 Term Loan bears interest at a rate per annum equal to an applicable margin plus, at our option, either (i) a base rate determined by reference to the highest of (a) the Federal Funds rate plus 0.50%, (b) the prime rate of Citibank, N.A., (c) the LIBOR rate determined by reference to the cost of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00% and (d) a floor of 2.25% or (ii) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs provided that LIBOR shall not be lower than 1.25%. At March 31, 2012, the average interest rate on the 2012 Term Loan was 5.5%.

Under the 2012 Term Loan, we will be required to make quarterly payments each equal to 0.25% of the original principal amount of the term loan made on the closing date, with the balance expected to be due on the seventh anniversary of the closing date. However, since we made a \$25.0 million payment in March 2012, we will not be required to make a quarterly payment until the fourth quarter of 2016.

Voluntary Prepayments

Voluntary prepayments of our 2012 Term Loan on or prior to the first anniversary of the closing date will be subject to a call premium of 1.0%. Otherwise, we will be able to voluntarily prepay outstanding loans under our 2012 Term Loan at any time subject to customary “breakage” costs with respect to LIBOR loans.

Amortization and Final Maturity

We are required to make scheduled quarterly payments each equal to 0.25% of the original principal amount of the term loans made on the closing date, with the balance expected to be due on the seventh anniversary of the closing date.

Guarantees and Security

Our obligations under the 2012 Term Loan are unconditionally guaranteed by Prestige Brands Holdings, Inc. and each of our existing and future U.S. wholly-owned restricted subsidiaries (with certain exceptions including immaterial subsidiaries) and, together with obligations under the guarantees, are secured by a perfected security interest in substantially all of our and our guarantors' assets, in each case, now owned or later acquired, including a pledge of all of our capital stock, the capital stock of substantially all of our U.S. wholly-owned restricted subsidiaries and 65% of the capital stock of certain of our foreign restricted subsidiaries, subject in each case to the exclusion of certain assets and additional exceptions. The 2012 Term Loan has a first lien on all assets other than the accounts receivable and inventory (and certain assets related to such accounts receivable and inventory), and a lien junior to the lien securing the 2012 ABL Revolver on such accounts receivable, inventory and related assets.

Certain Covenants and Events of Default

Our 2012 Term Loan requires us to comply with certain financial covenants, including a quarterly maximum total net leverage ratio test and a quarterly minimum consolidated cash interest coverage ratio test, which financial covenants will become more restrictive over time. In addition, our 2012 Term Loan includes negative covenants that will, among other things and subject to certain significant exceptions, limit our ability and the ability of our restricted subsidiaries to:

· incur indebtedness or guarantees;

· incur liens;

· make investments, loans and acquisitions;

· consolidate or merge;

· sell assets, including capital stock of our subsidiaries;

· pay dividends on our capital stock or redeem, repurchase or retire our capital stock;

· alter the business we conduct;

amend, prepay, redeem or purchase subordinated debt;

engage in transactions with our affiliates; and

enter into agreements limiting subsidiary dividends and distributions.

The credit agreement governing our 2012 Term Loan also contains certain customary representations and warranties, affirmative covenants and events of default (including, among others, an event of default upon a change of control). If an event of default occurs, the lenders under our 2012 Term Loan will be entitled to take various actions, including the acceleration of amounts due under our 2012 Term Loan and all actions permitted to be taken by a secured creditor.

2012 ABL Revolver

Overview

In connection with the completed acquisition of the GSK Brands I, we entered into a new senior secured asset-based revolving credit facility of up to \$50 million, (of which up to a portion will be available for letters of credit), subject to borrowing base availability, with Citibank, N.A. as administrative agent, Citigroup Global Markets Inc., Morgan Stanley Senior Funding, Inc. and RBC Capital Markets as joint lead arrangers and joint bookrunners and the lenders party thereto (the “*2012 ABL Revolver*”). The following is a summary of the terms of our 2012 ABL Revolver .

The 2012 ABL Revolver includes borrowing capacity available for letters of credit and for short term borrowings referred to as swingline loans.

The 2012 ABL Revolver provides that we have the right at any time to request incremental commitments up to an amount to be determined. The lenders under the 2012 ABL Revolver are not under any obligation to provide any such incremental commitments or loans and any such addition of or increase in commitments or loans will be subject to certain customary conditions precedent.

The amount from time to time available under the 2012 ABL Revolver (including in respect of letters of credit) will not exceed the borrowing base. The borrowing base equals the sum of (i) 85% of the eligible accounts receivable plus (ii) the lesser of (x) 75% of the cost of eligible inventory, and (y) 85% of the appraised net orderly liquidation value of the eligible inventory, in each case, of us and the subsidiary guarantors thereunder and, in each case, subject to customary reserves and eligibility criteria to be agreed.

Interest Rate and Fees

Borrowings under the 2012 ABL Revolver bear interest at a rate per annum equal to an applicable margin plus, at our option, either (1) a base rate determined by reference to the highest of (a) the Federal Funds rate plus 0.50%, (b) the prime rate of Citibank, N.A. and (c) the LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for an interest period of one month adjusted for certain additional costs, plus 1.00% or (2) a LIBOR rate determined by reference to the costs of funds for U.S. dollar deposits for the interest period relevant to such borrowing adjusted for certain additional costs. The initial applicable margin for borrowings under the 2012 ABL Revolver is 1.75% with respect to LIBOR borrowings and 0.75% with respect to base-rate borrowings. The applicable margin for borrowings under the 2012 ABL Revolver may be increased to 2.00% or 2.25% for LIBOR borrowings and 1.00% or 1.25% for base-rate borrowings depending on average excess availability during the prior fiscal quarter.

In addition to paying interest on outstanding principal under the 2012 ABL Revolver, we are required to pay a commitment fee to the lenders under the 2012 ABL Revolver in respect of the unutilized commitments thereunder. The initial commitment fee rate is 0.50% per annum. The commitment fee rate will be reduced to 0.375% per annum at any time when the average daily unused commitments for the prior quarter is less than a percentage of total commitments in an amount set forth in the credit agreement covering the 2012 ABL Revolver. We must also pay customary letter of credit fees.

Prepayments

The 2012 ABL Revolver is required to be prepaid to the extent extensions of credit thereunder exceed the then current borrowing base (as defined in the credit agreement governing the 2012 ABL Revolver).

We may voluntarily repay outstanding loans under the 2012 ABL Revolver at any time without a premium or penalty, other than customary “*breakage*” costs with respect to LIBOR loans.

Letters of Credit

A portion of our 2012 ABL Revolver is available for letters of credit.

Guarantee and Security

Our obligations under the 2012 ABL Revolver are unconditionally guaranteed by Prestige Brands Holdings, Inc. and each of our existing and subsequently acquired or organized, direct or indirect wholly-owned domestic restricted subsidiaries subject to certain exceptions and, together with obligations under the guarantees, are secured by a first priority security interest in all inventory, accounts receivable, and all intangible assets relating to the foregoing (other than intellectual property and subsidiary stock); all money, cash, cash equivalents; all deposit accounts; and all proceeds of any of the foregoing and a second priority lien on intellectual property, subsidiary stock and substantially all other personal property and real estate above a certain dollar amount that constitute all Term Loan collateral.

Certain Covenants and Events of Default

If excess availability is less than the amount provided for in the credit agreement governing the 2012 ABL Revolver, we are required to comply with a minimum consolidated fixed charge coverage ratio. The credit agreement governing the 2012 ABL Revolver contains a number of covenants that, among other things, restrict, subject to certain exceptions, our ability to:

- incur indebtedness or guarantees;
- incur liens;
- make investments, loans and acquisitions;
- consolidate or merge;
- sell assets, including capital stock of our subsidiaries;
- pay dividends on our capital stock or redeem, repurchase or retire our capital stock;
- alter the business we conduct;
- amend, prepay, redeem or purchase subordinated debt;
- engage in transactions with our affiliates; and
- enter into agreements limiting subsidiary dividends and distributions.

The credit agreement governing the 2012 ABL Revolver also contains certain customary representations and warranties, affirmative covenants and events of default (including, among others, an event of default upon a change of control). If an event of default occurs, the lenders under the 2012 ABL Revolver will be entitled to take various actions, including the acceleration of amounts due under the 2012 ABL Revolver and all actions permitted to be taken by a secured creditor.

Intercreditor Agreement

An intercreditor agreement was entered into between the administrative agents for the 2012 Term Loan and the 2012 ABL Revolver governing their respective rights and priorities in the collateral.

2018 Senior Notes

On March 24, 2010, we issued \$150 million of senior notes, with an interest of 8.25% and a maturity date of April 1, 2018 (the “2018 Senior Notes”). On November 1, 2010, we issued an additional \$100 million of the 2018 Senior Notes.

Guarantees and Security

The 2018 Senior Notes were senior unsecured obligations and are guaranteed on a senior unsecured basis. The 2018 Senior Notes will be secured on a pari passu basis with the 2012 Term Loan. The 2018 Senior Notes are effectively junior in right of payment to all of our existing and future secured obligations, equal in right of payment with all of our existing and future senior unsecured indebtedness and senior in right of payment to all of our future subordinated debt.

Optional Redemption

At any time prior to April 1, 2014, we may redeem the 2018 Senior Notes in whole or in part at a redemption price equal to 100% of the principal amount of the notes redeemed, plus a “*make-whole premium*” calculated as set forth in the indenture governing the 2018 Senior Notes, together with accrued and unpaid interest, if any, to the date of redemption.

We may redeem the 2018 Senior Notes in whole or in part at any time on or after the twelve-month period beginning April 1, 2014 at a redemption price of 104.125% of the principal amount thereof, at a redemption price of 102.063% of the principal amount thereof if the redemption occurs during the twelve-month period beginning on April 1, 2015, and at a redemption price of 100% of the principal amount thereof if the redemption occurs on and after April 1, 2016, in each case, plus accrued and unpaid interest, if any, to the redemption date.

In addition, prior to April 1, 2013, with the net cash proceeds from certain equity offerings, we may redeem up to 35% in aggregate principal amount of the 2018 Senior Notes at a redemption price of 108.250% of the principal amount of the 2018 Senior Notes to be redeemed, plus accrued and unpaid interest, if any, to the redemption date.

Certain Covenants; Events of Default

The indenture governing the 2018 Senior Notes also contains provisions that restrict us from undertaking specified corporate actions, such as asset dispositions, acquisitions, dividend payments, repurchases of common shares outstanding, changes of control, incurrences of indebtedness, creation of liens, making of loans and transactions with affiliates. Additionally, the indenture governing the 2018 Senior Notes contains cross-default provisions whereby a default pursuant to the terms and conditions of certain indebtedness will cause a default under the indenture governing the 2018 Senior Notes.

Description of the Exchange Notes

General

Certain terms used in this description are defined under the subheading “Certain Definitions.” In this description, (1) the term “*Issuer*” refers only to Prestige Brands, Inc. and not to any of its Subsidiaries, (2) the term “*Parent*” refers only to Prestige Brands Holdings, Inc. and not to any of its Subsidiaries and (3) the terms “*we*,” “*our*” and “*us*” each refer to Parent and its consolidated Subsidiaries assuming completion of the Transactions.

On January 31, 2012, the Issuer issued \$250.0 million aggregate principal amount of 8.125% senior notes due 2020 (the “*Existing Notes*”) under an indenture dated January 31, 2012 (the “*Indenture*”) among the Issuer, the Guarantors and U.S. Bank National Association, as trustee (the “*Trustee*”). The Existing Notes were issued in a private transaction that was not subject to the registration requirements of the Securities Act. The Issuer is issuing up to \$250,000,000 aggregate principal amount of exchange notes (which, for the purposes of this description, we refer to as the “*Notes*”) in the exchange offer. Except as set forth herein, the terms of the Notes will include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act.

The following description is only a summary of the material provisions of the Indenture. It does not purport to be complete and is qualified in its entirety by reference to the provisions of the Indenture, including the definitions therein of certain terms used below. We urge you to read the Indenture because it, and not this description, will define your rights as Holders of the Notes. You may request copies of the Indenture at our address set forth under “Where You Can Find More Information.”

Brief Description of the Notes

The Notes:

will be general, unsecured, senior obligations of the Issuer;

will rank equally in right of payment with all existing and future Senior Indebtedness (including the Senior Secured Credit Facilities and the Existing Notes) of the Issuer;

Edgar Filing: Spic & Span CO - Form 424B3

will be effectively subordinated to all Secured Indebtedness of the Issuer (including the Senior Secured Credit Facilities and the Existing Notes), to the extent of the value of the collateral securing such Secured Indebtedness;

will be structurally subordinated to all existing and future Indebtedness, claims of holders of Preferred Stock and other liabilities of Subsidiaries of Parent (other than the Issuer) that do not guarantee the Notes;

will be senior in right of payment to all future Subordinated Indebtedness of the Issuer;

will be initially guaranteed on a senior unsecured basis by Parent and each Domestic Subsidiary of the Issuer that guarantees the obligations under the Senior Secured Credit Facilities and will also be guaranteed in the future by certain other Domestic Subsidiaries that guarantee certain Indebtedness of the Issuer or any Guarantor; and

will be subject to registration with the SEC pursuant to the Registration Rights Agreement.

Guarantees

The Guarantors, as primary obligors and not merely as sureties, will jointly and severally guarantee, irrevocably and unconditionally, on an unsecured senior basis, the performance and full and punctual payment when due, whether at maturity, by acceleration or otherwise, of all obligations of the Issuer under the Indenture and the Notes, whether for payment of principal of, premium, if any, or interest on the Notes or expenses, indemnification or otherwise, on the terms set forth in the Indenture by executing the Indenture.

The Guarantors will guarantee the Notes and, in the future, subject to exceptions set forth under the caption “Certain Covenants—Limitation on Guarantees of Indebtedness by Restricted Subsidiaries,” each direct and indirect Restricted Subsidiary of Parent that guarantees certain Indebtedness of the Issuer or any other Guarantor will, guarantee the Notes, subject to certain exceptions and to release as provided below or elsewhere in this “Description of the Exchange Notes.” Each of the Guarantees of the Notes will be a general, unsecured, senior obligation of each Guarantor, will rank equally in right of payment with all existing and future Senior Indebtedness of such Guarantor (including such Guarantor’s guarantee of the Senior Secured Credit Facilities), will be effectively subordinated to all Secured Indebtedness of such Guarantor (including such Guarantor’s guarantee of the Senior Secured Credit Facilities), to the extent of the value of the collateral of such Guarantor securing such Secured Indebtedness, and will rank senior in right of payment to all future Subordinated Indebtedness of such Guarantor. Each of the Guarantees of the Notes will be structurally subordinated to all existing and future Indebtedness, claims of holders of Preferred Stock and other liabilities of Subsidiaries of each Guarantor that do not Guarantee the Notes.

Not all of Parent’s Subsidiaries will guarantee the Notes. In particular, none of our Foreign Subsidiaries will guarantee the Notes. In the event of a bankruptcy, liquidation, reorganization or similar proceeding of any of these non-guarantor Subsidiaries, the non-guarantor Subsidiaries will pay the holders of their debt and their trade creditors before they will be able to distribute any of their assets to the Issuer or a Guarantor. As a result, all of the existing and future liabilities of our non-guarantor Subsidiaries, including any claims of trade creditors, will be effectively senior to the Notes. The Indenture does not limit the amount of liabilities that are not considered Indebtedness which may be incurred by Parent or its Restricted Subsidiaries, including the non-Guarantors. For the fiscal year ended March 31, 2012, our non-guarantor Subsidiaries (other than the Issuer) represented less than 1% of our net revenues and Adjusted EBITDA, respectively, and as of March 31, 2012, our non-guarantor Subsidiaries (other than the Issuer) represented approximately 0.1% of our total assets (excluding intercompany balances).

The obligations of each Guarantor under its Guarantee will be limited as necessary to prevent the Guarantee from constituting a fraudulent conveyance under applicable law. This provision may not, however, be effective to protect a Guarantee from being voided under fraudulent transfer law, or may reduce the applicable Guarantor’s obligation to an amount that effectively makes its Guarantee worthless. If a Guarantee was rendered voidable, it could be subordinated by a court to all other indebtedness (including guarantees and other contingent liabilities) of the Guarantor, and, depending on the amount of such indebtedness, a Guarantor’s liability on its Guarantee could be reduced to zero. See “Risk Factors—Risks Related to the Notes—Federal and state fraudulent transfer laws may permit a court to void the notes or the guarantees and if that occurs, you may not receive any payments on the notes.”

Any Guarantor that makes a payment under its Guarantee will be entitled upon payment in full of all guaranteed obligations under the Indenture to a contribution from each other Guarantor in an amount equal to such other Guarantor’s pro rata portion of such payment based on the respective net assets of all the Guarantors at the time of such payment determined in accordance with GAAP.

Each Guarantor may consolidate with, amalgamate or merge with or into or sell all or substantially all its assets to the Issuer or another Guarantor without limitation or any other Person upon the terms and conditions set forth in the

Indenture. See “Certain Covenants—Merger, Consolidation or Sale of All or Substantially All Assets.”

Each Guarantee by a Guarantor (other than the Guarantee by Parent except pursuant to clause (1)(d) below) will provide by its terms that it will be automatically and unconditionally released and discharged upon:

(1) (a) (i) any sale, exchange, disposition or transfer (by merger, amalgamation, consolidation or otherwise) of (A) the Capital Stock of such Guarantor after which the applicable Guarantor is no longer a Restricted Subsidiary or (B) all of the assets of such Guarantor or (ii) consummation of any other transaction following which such Guarantor is no longer a Restricted Subsidiary, in each case if such sale, exchange, disposition, transfer or other transaction is made in compliance with the applicable provisions of the Indenture;

(b) the release or discharge of the guarantee by such Guarantor of Indebtedness under the Senior Secured Credit Facilities, or the release or discharge of such other guarantee that resulted in the creation of such Guarantee, except a discharge or release by or as a result of payment under such guarantee (it being understood that a release subject to a contingent reinstatement is considered a release, and that if any such Guarantee is so reinstated, such Guarantee shall also be reinstated to the extent that such Guarantor would then be required to provide a Guarantee pursuant to the covenant described under “Certain Covenants—Limitation on Guarantees of Indebtedness by Restricted Subsidiaries”);

(c) the designation of any Restricted Subsidiary that is a Guarantor as an Unrestricted Subsidiary in compliance with the applicable provisions of the Indenture; or

(d) the exercise by the Issuer of its legal defeasance option or covenant defeasance option as described under “Legal Defeasance and Covenant Defeasance” or the discharge of the Issuer’s obligations under the Indenture in accordance with the terms of the Indenture; and

(2) such Guarantor delivering to the Trustee an Officer’s Certificate of such Guarantor or the Issuer and an Opinion of Counsel, each stating that all conditions precedent provided for in the Indenture relating to such transaction have been complied with.

Ranking

The payment of the principal of, premium, if any, and interest on the Notes and the payment of any Guarantee will rank equally in right of payment to all existing and future Senior Indebtedness of the Issuer or the relevant Guarantor, as the case may be, including the obligations of the Issuer and such Guarantor under the Senior Secured Credit Facilities and the Existing Notes.

The Notes and the Guarantees will be effectively subordinated in right of payment to all of the Issuer’s and the Guarantors’ existing and future Secured Indebtedness to the extent of the value of the collateral securing such Secured Indebtedness. As of March 31, 2012, the Issuer and the Guarantors had \$1,135 million of Secured Indebtedness outstanding, including the Existing Notes, borrowings and the related guarantees under the Senior Secured Credit Facilities and including our capital leases. As of March 31, 2012, the Issuer also had (1) an additional approximately \$50 million of borrowing capacity under the ABL Facility, which, if borrowed, would be Secured Indebtedness and (2) the option to raise additional tranches of term loans under the Senior Secured Credit Facilities up to (a) \$220.0 million and (b) an unlimited amount if our “*Consolidated First Lien Net Leverage Ratio*” (as defined in the Credit Agreement) would be equal to or less than 4.00 to 1.00 on a pro forma basis, which, if borrowed, would be Secured Indebtedness.

Although the Indenture will contain limitations on the amount of additional Indebtedness that Parent and Parent’s Restricted Subsidiaries (including the Guarantors) may incur, under certain circumstances the amount of such additional Indebtedness could be substantial and under certain circumstances such additional Indebtedness may be secured. See “Certain Covenants—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock.”

Paying Agent and Registrar for the Notes

The Issuer will maintain one or more paying agents for the Notes. The initial paying agent for the Notes will be the Trustee.

The Issuer will also maintain one or more registrars and a transfer agent. The initial registrar and transfer agent with respect to the Notes will be the Trustee. The registrar will maintain a register reflecting ownership of the Notes outstanding from time to time. The paying agent will make payments on, and the transfer agent will facilitate transfer of, the Notes on behalf of the Issuer.

The Issuer may change the paying agent, the registrar or the transfer agent without prior notice to the Holders. The Issuer or any of its Subsidiaries may act as a paying agent, registrar or transfer agent.

If any Notes are listed on an exchange and the rules of such exchange so require, the Issuer will satisfy any requirement of such exchange as to paying agents, registrars and transfer agents and will comply with any notice requirements required under such exchange in connection with any change of paying agent, registrar or transfer agent.

Transfer and Exchange

A Holder may transfer or exchange Notes in accordance with the Indenture. The registrar and the Trustee may require a Holder to furnish appropriate endorsements and transfer documents in connection with a transfer of Notes. Holders will be required to pay all taxes due on transfer. The Issuer will not be required to transfer or exchange any Note selected for redemption or tendered (and not withdrawn) for repurchase in connection with a Change of Control Offer, Asset Sale Offer or other tender offer. Also, the Issuer will not be required to transfer or exchange any Note for a period of 15 days before a selection of Notes to be redeemed. The registered Holder of a Note will be treated as the owner of the Note for all purposes.

Principal, Maturity and Interest

The Issuer will issue an aggregate principal amount of \$250.0 million of Notes in this offering. The Notes will mature on February 1, 2020. Subject to compliance with the covenant described below under the caption “Certain Covenants—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock,” the Issuer may issue additional Notes from time to time after this offering under the Indenture (“*Additional Notes*”). The Notes offered by the Issuer and any Additional Notes subsequently issued under the Indenture will be treated as a single class for all purposes under the Indenture, including waivers, amendments, redemptions and offers to purchase, except for certain waivers and amendments as set forth herein. Unless the context requires otherwise, references to “*Notes*” for all purposes of the Indenture and this “Description of the Exchange Notes” include any Additional Notes that are actually issued. The Notes will be issued in denominations of \$2,000 and any integral multiples of \$1,000 in excess of \$2,000.

Interest on the Notes will accrue at the rate of 8.125% per annum. Interest on the Notes will be payable semiannually in arrears on each February 1 and August 1, commencing August 1, 2012 to the Holders of Notes of record on the immediately preceding January 15 and July 15, respectively. Interest on the Notes will accrue from the most recent date to which interest has been paid or, if no interest has been paid, from and including the Issue Date. Interest on the Notes will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Additional Interest

Additional Interest may accrue on the Notes in certain circumstances pursuant to the Registration Rights Agreement or as set forth in the Indenture. All references in the Indenture and this “Description of the Exchange Notes,” in any context, to any interest or other amount payable on or with respect to the Notes shall be deemed to include any

Additional Interest payable pursuant to the Registration Rights Agreement and/or as set forth in the Indenture.

Payment of Principal, Premium and Interest

Cash payments of principal of, premium, if any, and interest on the Notes will be payable at the office or agency of the Issuer maintained for such purpose or, at the option of the Issuer, cash payment of interest may be made through the paying agent by check mailed to the Holders of the Notes at their respective addresses set forth in the register of Holders; *provided*, that (a) all cash payments of principal, premium, if any, and interest with respect to the Notes represented by one or more global notes registered in the name of or held by The Depository Trust Company (“DTC”) or its nominee will be made through the paying agent by wire transfer of immediately available funds to the accounts specified by the registered Holder or Holders thereof and (b) all cash payments of principal, premium, if any, and interest with respect to certificated Notes will be made by wire transfer to a U.S. dollar account maintained by the payee with a bank in the United States if such Holder elects payment by wire transfer by giving written notice to the Trustee or the paying agent to such effect designating such account no later than 30 days immediately preceding the relevant due date for payment (or such other date as the Trustee may accept in its discretion). Until otherwise designated by the Issuer, the Issuer’s office or agency will be the office of the Trustee maintained for such purpose.

Mandatory Redemption; Offers to Purchase; Open Market Purchases

The Issuer will not be required to make any mandatory redemption or sinking fund payments with respect to the Notes. However, under certain circumstances, the Issuer may be required to offer to purchase Notes as described under the caption “Repurchase at the Option of Holders.” Parent or any of its Subsidiaries may at any time and from time to time purchase Notes in the open market or otherwise.

Optional Redemption

Except as set forth below, the Issuer will not be entitled to redeem the Notes at its option prior to February 1, 2016. At any time prior to February 1, 2016, the Issuer may on one or more occasions redeem all or a part of the Notes, upon notice as described under “Selection and Notice,” at a redemption price equal to 100% of the principal amount of the Notes redeemed plus the Applicable Premium as of, plus accrued and unpaid interest, if any, to the date of redemption (the “*Redemption Date*”), subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date.

On and after February 1, 2016, the Issuer may redeem the Notes, in whole or in part, upon notice as described under the heading “Selection and Notice,” at the redemption prices (expressed as percentages of principal amount of the Notes to be redeemed) set forth below, plus accrued and unpaid interest, if any, thereon to the applicable Redemption Date, subject to the right of Holders of record on the relevant record date to receive interest due on the relevant interest payment date, if redeemed during the twelve-month period beginning on February 1 of each of the years indicated below:

Year	Senior Notes Percentage	
2016	104.063	%
2017	102.031	%
2018 and thereafter	100.000	%

In addition, until February 1, 2015, the Issuer may, at its option, and on one or more occasions, redeem up to 35.0% of the aggregate principal amount of Notes issued under the Indenture at a redemption price equal to 108.125% of the aggregate principal amount of the Notes, plus accrued and unpaid interest, if any, to the Redemption Date, subject to the right of Holders of Notes of record on the relevant record date to receive interest due on the relevant interest payment date, with the net cash proceeds received by it from one or more Equity Offerings or a contribution to the Issuer’s common equity capital made with the net cash proceeds of a concurrent Equity Offering; *provided*, that (a) at least 65% of the aggregate principal amount of Notes originally issued under the Indenture on the Issue Date and any Additional Notes issued under the Indenture after the Issue Date remains outstanding immediately after the occurrence of each such redemption; and (b) each such redemption occurs within 180 days of the date of closing of each such Equity Offering.

Notice of any redemption, whether in connection with an Equity Offering or otherwise, may be given prior to the completion thereof, and any such redemption or notice may, at the Issuer’s discretion, be subject to one or more conditions precedent, including, but not limited to, completion of the related Equity Offering. If any Notes are listed on an exchange, and the rules of such exchange so require, the Issuer will notify the exchange of any such notice of redemption. In addition, the Issuer will notify the exchange of the principal amount of any Notes outstanding

following any partial redemption of such Notes.

Selection and Notice

Subject to DTC requirements, if the Issuer is redeeming less than all of the Notes issued under the Indenture at any time, the Trustee will select the Notes to be redeemed (a) if the Notes are listed on an exchange, in compliance with the requirements of such exchange or (b) on a pro rata basis to the extent practicable, or, if the pro rata basis is not practicable for any reason by lot or by such other method as the Trustee shall deem fair and appropriate. No Notes of \$2,000 or less can be redeemed in part.

Notices of redemption shall be delivered electronically or mailed by first-class mail, postage prepaid, at least 30 but not more than 60 days before the redemption date to each Holder of Notes at such Holder's registered address or otherwise in accordance with the procedures of DTC, except that redemption notices may be delivered more than 60 days prior to a redemption date if the notice is issued in connection with a defeasance of the Notes or a satisfaction and discharge of the Indenture. If any Note is to be redeemed in part only, any notice of redemption that relates to such Note shall state the portion of the principal amount thereof that has been or is to be redeemed.

With respect to Notes represented by certificated notes that are to be redeemed in part only, the Issuer will issue a new Note in a principal amount equal to the unredeemed portion of the original Note in the name of the Holder upon cancellation of the original Note; *provided*, that new Notes will only be issued in denominations of \$2,000 and integral multiples of \$1,000 in excess of \$2,000. Notes called for redemption become due on the date fixed for redemption. On and after the Redemption Date, interest ceases to accrue on Notes or portions of them called for redemption.

Repurchase at the Option of Holders

Change of Control

The Indenture will provide that if a Change of Control occurs, unless the Issuer has previously or concurrently delivered a redemption notice with respect to all the outstanding Notes as described under “Optional Redemption,” the Issuer will make an offer to purchase all of the Notes pursuant to the offer described below (the “*Change of Control Offer*”) at a price in cash (the “*Change of Control Payment*”) equal to 101.0% of the aggregate principal amount thereof plus accrued and unpaid interest, if any, to, but excluding, the date of purchase, subject to the right of Holders of the Notes of record on the relevant record date to receive interest due on the relevant interest payment date. Within 30 days following any Change of Control, the Issuer will deliver notice of such Change of Control Offer electronically or by first-class mail, with a copy to the Trustee, to each Holder of Notes to the address of such Holder appearing in the security register or otherwise in accordance with the procedures of DTC with the following information:

- (1) that a Change of Control Offer is being made pursuant to the covenant entitled “Change of Control,” and that all Notes properly tendered pursuant to such Change of Control Offer will be accepted for payment by the Issuer;
- (2) the purchase price and the purchase date, which will be no earlier than 30 days nor later than 60 days from the date such notice is delivered (the “*Change of Control Payment Date*”);
- (3) that any Note not properly tendered will remain outstanding and continue to accrue interest;
- (4) that unless the Issuer defaults in the payment of the Change of Control Payment, all Notes accepted for payment pursuant to the Change of Control Offer will cease to accrue interest on the Change of Control Payment Date;

(5) that Holders electing to have any Notes purchased pursuant to a Change of Control Offer will be required to surrender such Notes, with the form entitled "Option of Holder to Elect Purchase" on the reverse of such Notes completed, to the paying agent specified in the notice at the address specified in the notice prior to the close of business on the third Business Day preceding the Change of Control Payment Date;

(6) that Holders will be entitled to withdraw their tendered Notes and their election to require the Issuer to purchase such Notes, provided that the paying agent receives, not later than the close of business on the second Business Day prior to the expiration date of the Change of Control Offer, a facsimile transmission or letter setting forth the name of the Holder of the Notes, the principal amount of Notes tendered for purchase, and a statement that such Holder is withdrawing its tendered Notes and its election to have such Notes purchased;

(7) that Holders whose Notes are being purchased only in part will be issued new Notes and such new Notes will be equal in principal amount to the unpurchased portion of the Notes surrendered. The unpurchased portion of the Notes must be equal to at least \$2,000 or any integral multiple of \$1,000 in excess of \$2,000;

(8) if such notice is delivered prior to the occurrence of a Change of Control, stating that the Change of Control Offer is conditional on the occurrence of such Change of Control; and

(9) the other instructions, as determined by the Issuer, consistent with the covenant described hereunder, that a Holder must follow.

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of Notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

On the Change of Control Payment Date, the Issuer will, to the extent permitted by law:

(1) accept for payment all Notes issued by it or portions thereof properly tendered pursuant to the Change of Control Offer;

(2) deposit with the paying agent an amount equal to the aggregate Change of Control Payment in respect of all Notes or portions thereof so tendered; and

(3) deliver, or cause to be delivered, to the Trustee for cancellation the Notes so accepted together with an Officer's Certificate to the Trustee stating that such Notes or portions thereof have been tendered to and purchased by the Issuer.

The Senior Secured Credit Facilities will, and future credit agreements or other agreements relating to Indebtedness to which Parent or any of its Subsidiaries becomes a party may provide that certain change of control events with respect to the Issuer would constitute a default thereunder (including a Change of Control under the Indenture). If we experience a change of control that triggers a default under the Senior Secured Credit Facilities and/or such other agreement, we could seek a waiver of such default or seek to refinance the Senior Secured Credit Facilities and/or such other agreement. In the event we do not obtain such a waiver or do not refinance the Senior Secured Credit Facilities and/or such other agreement, such default could result in amounts outstanding under the Senior Secured Credit Facilities and/or such other agreement being declared due and payable.

Our ability to pay cash to the Holders of Notes following the occurrence of a Change of Control may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases. See "Risk Factors—Risks Related to the Notes—We may not be able to repurchase the notes upon a change of control."

The Change of Control purchase feature of the Notes may in certain circumstances make more difficult or discourage a sale or takeover of us and, thus, the removal of incumbent management. The Change of Control purchase feature is a result of negotiations between the Initial Purchasers and us. After the Issue Date, we have no present intention to engage in a transaction involving a Change of Control, although it is possible that we could decide to do so in the future. Subject to the limitations discussed below, we could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control under the Indenture, but that could increase the amount of Indebtedness outstanding at such time or otherwise affect our capital structure or credit ratings. Restrictions on our ability to incur additional Indebtedness are contained in the covenants described under “Certain Covenants—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” and “Certain Covenants—Liens.” Such restrictions in the Indenture can be waived only with the consent of the Holders of a majority in principal amount of the Notes then outstanding. Except for the limitations contained in such covenants, however, the Indenture will not contain any covenants or provisions that may afford Holders of the Notes protection in the event of a highly leveraged transaction.

The Issuer will not be required to make a Change of Control Offer following a Change of Control if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the Indenture applicable to a Change of Control Offer made by the Issuer and purchases all Notes validly tendered and not withdrawn under such Change of Control Offer.

Notwithstanding anything to the contrary herein, a Change of Control Offer may be made in advance of a Change of Control, conditional upon such Change of Control, if a definitive agreement is in place for the Change of Control at the time of making of the Change of Control Offer.

If Holders of not less than 90% in aggregate principal amount of the outstanding Notes validly tender and do not withdraw such Notes in a Change of Control Offer and the Issuer, or any third party making a Change of Control Offer in lieu of the Issuer as described above, purchases all of the Notes validly tendered and not withdrawn by such Holders, the Issuer or such third party will have the right, upon not less than 30 nor more than 60 days' prior notice, given not more than 30 days following such purchase pursuant to the Change of Control Offer described above, to redeem all Notes that remain outstanding following such purchase at a price in cash equal to 101% of the principal amount thereof plus accrued and unpaid interest to but excluding the date of redemption.

The provisions under the Indenture relative to the Issuer's obligation to make an offer to repurchase the Notes as a result of a Change of Control may be waived or modified with the written consent of the Holders of a majority in principal amount of the Notes then outstanding.

Asset Sales

The Indenture will provide that Parent will not, and will not permit any of its Restricted Subsidiaries to, consummate an Asset Sale, unless:

(1) Parent and its Restricted Subsidiaries receive consideration at the time of such Asset Sale at least equal to the fair market value of the assets sold or otherwise disposed of; and

(2) except in the case of a Permitted Asset Swap, at least 75.0% of the consideration therefor received by Parent or such Restricted Subsidiary, as the case may be, is in the form of Cash Equivalents; *provided*, that the amount of:

(a) any liabilities (as shown on Parent's most recent consolidated balance sheet or in the footnotes thereto) of Parent or such Restricted Subsidiary, other than liabilities that are by their terms subordinated to the Notes, that are assumed by the transferee of any such assets and for which Parent and all of its Restricted Subsidiaries have been validly released by all applicable creditors in writing;

(b) any securities, notes or other obligations or assets received by Parent or such Restricted Subsidiary from such transferee that are converted by Parent or such Restricted Subsidiary into Cash Equivalents (to the extent of the Cash Equivalents received) within 180 days following the closing of such Asset Sale; and

(c) any Designated Non-cash Consideration received by Parent or such Restricted Subsidiary in such Asset Sale having an aggregate fair market value, taken together with all other Designated Non-cash Consideration received pursuant to this clause (c) that is at that time outstanding, not to exceed the greater of (i) \$35.0 million and (ii) 2.00% of Total Assets at the time of the receipt of such Designated Non-cash Consideration, with the fair market value of each item of Designated Non-cash Consideration being measured at the time received and without giving effect to subsequent changes in value,

shall be deemed to be Cash Equivalents for purposes of this provision and for no other purpose.

Within 450 days after the receipt of any Net Proceeds of any Asset Sale, Parent or such Restricted Subsidiary, at its option, may apply the Net Proceeds from such Asset Sale,

(1) to repay and reduce:

(a) Obligations under the Senior Secured Credit Facilities, and to correspondingly reduce commitments with respect thereto;

(b) Obligations under Secured Indebtedness, which is secured by a Lien that is permitted by the Indenture, and to correspondingly reduce commitments with respect thereto;

(c) Obligations under other Senior Indebtedness (and to correspondingly reduce commitments with respect thereto), provided that the Issuer shall equally and ratably reduce Obligations under the Notes as provided under “Optional Redemption” or through open-market purchases (to the extent such purchases are at or above 100% of the principal amount thereof) or by making an offer (in accordance with the procedures set forth below for an Asset Sale Offer) to all Holders to purchase their Notes at 100% of the principal amount thereof, plus the amount of accrued but unpaid interest, if any, on the amount of Notes to be repurchased, to the date of repurchase; or

(d) Indebtedness of a Restricted Subsidiary that is not a Guarantor, other than Indebtedness owed to Parent or another Restricted Subsidiary; or

(2) to make (a) an Investment in any one or more businesses, provided that such Investment in any business is in the form of the acquisition of Capital Stock or capital contributions and results in the Issuer or any of its Restricted Subsidiaries, as the case may be, owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (b) capital expenditures or (c) acquisitions of other assets, in the case of each of (a), (b) and (c), used or useful in a Similar Business; or

(3) to make an Investment in (a) any one or more businesses, provided that such Investment in any business is in the form of the acquisition of Capital Stock or capital contributions and results in Parent or any of its Restricted Subsidiaries, as the case may be, owning an amount of the Capital Stock of such business such that it constitutes a Restricted Subsidiary, (b) properties or (c) acquisitions of other assets that, in the case of each of (a), (b) and (c), replace the businesses, properties and/or assets that are the subject of such Asset Sale;

provided, that in the case of clauses (2) and (3) above, a binding commitment shall be treated as a permitted application of the Net Proceeds from the date of such commitment so long as Parent, or such Restricted Subsidiary enters into such commitment with the good faith expectation that such Net Proceeds will be applied to satisfy such commitment within 180 days of such commitment (an “*Acceptable Commitment*”) and, in the event any *Acceptable Commitment* is later cancelled or terminated for any reason before the Net Proceeds are applied in connection therewith, the Issuer or such Restricted Subsidiary enters into another *Acceptable Commitment* (a “*Second Commitment*”) within 180 days of such cancellation or termination; *provided further* that if any *Second Commitment* is later cancelled or terminated for any reason before such Net Proceeds are applied, then such Net Proceeds shall constitute Excess Proceeds.

Any Net Proceeds from an Asset Sale that are not invested or applied as provided and within the time period set forth in the preceding paragraph will be deemed to constitute “*Excess Proceeds*.” When the aggregate amount of Excess Proceeds exceeds \$20.0 million, the Issuer shall make an offer to all Holders of the Notes and, if required by the terms of any Indebtedness that is pari passu with the Notes (“*Pari Passu Indebtedness*”), to the holders of such Pari Passu Indebtedness (an “*Asset Sale Offer*”), to purchase the maximum aggregate principal amount of the Notes and such Pari Passu Indebtedness that is in an amount equal to at least \$2,000, or an integral multiple of \$1,000 in excess thereof, that may be purchased out of the Excess Proceeds at an offer price in cash in an amount equal to 100.0% of the principal amount thereof (or accreted value thereof, if less), plus accrued and unpaid interest, if any, to the date fixed for the closing of such offer, in accordance with the procedures set forth in the Indenture. The Issuer will commence an Asset Sale Offer with respect to Excess Proceeds within ten Business Days after the date that Excess Proceeds exceed \$20.0 million by delivering the notice required pursuant to the terms of the Indenture, with a copy to the Trustee. The Issuer may satisfy the foregoing obligations with respect to any Net Proceeds from an Asset Sale by making an Asset Sale Offer with respect to such Net Proceeds prior to the expiration of the relevant 450 days (or such longer period provided above) or with respect to Excess Proceeds of \$20.0 million or less.

To the extent that the aggregate amount of Notes and such Pari Passu Indebtedness tendered pursuant to an Asset Sale Offer is less than the Excess Proceeds, Parent and its Restricted Subsidiaries may use any remaining Excess Proceeds for general corporate purposes, subject to compliance with the other covenants contained in the Indenture. If the aggregate principal amount of Notes and Pari Passu Indebtedness surrendered by such holders thereof exceeds the amount of Excess Proceeds, the Trustee shall select the Notes and the Issuer shall select such Pari Passu Indebtedness to be purchased on a pro rata basis based on the accreted value or principal amount of the Notes or such Pari Passu Indebtedness tendered with adjustments as necessary so that no Notes or Pari Passu Indebtedness will be repurchased in part in an unauthorized denomination. Upon completion of any such Asset Sale Offer, the amount of Excess Proceeds that resulted in the Asset Sale Offer shall be reset to zero (regardless of whether there are any remaining Excess Proceeds upon such completion).

Pending the final application of any Net Proceeds pursuant to this covenant, the holder of such Net Proceeds may apply such Net Proceeds temporarily to reduce Indebtedness outstanding under a revolving credit facility, including under the Senior Secured Credit Facilities, or otherwise invest such Net Proceeds in any manner not prohibited by the Indenture.

The Issuer will comply with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent such laws or regulations are applicable in connection with the repurchase of the Notes pursuant to an Asset Sale Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the Indenture, the Issuer will comply with the applicable securities laws and regulations and shall not be deemed to have breached its obligations described in the Indenture by virtue thereof.

The provisions under the Indenture relative to the Issuer's obligation to make an offer to repurchase the Notes as a result of an Asset Sale may be waived or modified with the written consent of the Holders of a majority in principal amount of the Notes then outstanding.

Future credit agreements or other similar agreements to which Parent or any of its Subsidiaries becomes a party may contain restrictions on the Issuer's ability to repurchase Notes. In the event an Asset Sale occurs at a time when the Issuer is prohibited from purchasing Notes, Parent or the applicable Subsidiary could seek the consent of its lenders to the repurchase of Notes or could attempt to refinance the borrowings that contain such prohibition. If Parent or such Subsidiary does not obtain such consent or repay such borrowings, the Issuer will remain prohibited from repurchasing Notes. In such a case, the Issuer's failure to repurchase tendered Notes would constitute an Event of Default under the Indenture which would, in turn, likely constitute a default under such other agreements.

Certain Covenants

Set forth below are summaries of certain covenants contained in the Indenture.

During any period of time that (i) the Notes have Investment Grade Ratings from both Rating Agencies and (ii) no Default has occurred and is continuing under the Indenture (the occurrence of the events described in the foregoing clauses (i) and (ii) being collectively referred to as a “*Covenant Suspension Event*” and the date thereof being referred to as the “*Suspension Date*”) then, the covenants specifically listed under the following captions in this “Description of the Exchange Notes” section of this prospectus will not be applicable to the Notes (collectively, the “*Suspended Covenants*”):

- (1) “Repurchase at the Option of Holders—Asset Sales”;
- (2) “—Limitation on Restricted Payments”;
- (3) “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock”;
- (4) clause (4) of the first paragraph of “—Merger, Consolidation or Sale of All or Substantially All Assets”;
- (5) “—Transactions with Affiliates”;
- (6) “—Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries”; and
- (7) “—Limitation on Guarantees of Indebtedness by Restricted Subsidiaries.”

During any period that the foregoing covenants have been suspended, Parent may not designate any of its Subsidiaries as Unrestricted Subsidiaries pursuant to the second sentence of the definition of “Unrestricted Subsidiary.”

If and while Parent and its Restricted Subsidiaries are not subject to the Suspended Covenants, the Notes will be entitled to substantially less covenant protection. In the event that Parent and its Restricted Subsidiaries are not subject to the Suspended Covenants under the Indenture for any period of time as a result of the foregoing, and on any subsequent date (the “*Reversion Date*”) one or both of the Rating Agencies withdraw their Investment Grade Rating or downgrade the rating assigned to the Notes below an Investment Grade Rating, then Parent and its Restricted Subsidiaries will thereafter again be subject to the Suspended Covenants under the Indenture with respect to future events. The period of time between the Suspension Date and the Reversion Date is referred to in this description as the “*Suspension Period*.” Additionally, upon the occurrence of a Covenant Suspension Event, the amount of Excess Proceeds from Net Proceeds shall be reset to zero.

Notwithstanding the foregoing, in the event of any such reinstatement, no action taken or omitted to be taken by Parent or any of its Restricted Subsidiaries prior to such reinstatement will give rise to a Default or Event of Default under the Indenture with respect to the Notes; *provided*, that (1) with respect to Restricted Payments made after such reinstatement, the amount available to be made as Restricted Payments will be calculated as though the covenant described above under the caption “—Limitation on Restricted Payments” had been in effect prior to, but not during, the Suspension Period; (2) all Indebtedness incurred, or Disqualified Stock issued, during the Suspension Period will be classified to have been incurred or issued pursuant to clause (3) of the second paragraph of “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock”; (3) any Affiliate Transaction entered into after such reinstatement pursuant to an agreement entered into during any Suspension Period shall be deemed to be permitted pursuant to clause (6) of the second paragraph of the covenant described under “—Affiliate Transactions,” (4) any encumbrance or restriction on the ability of any Restricted Subsidiary that is not a Guarantor to take any action described in clauses (1) through (3) of the first paragraph of the covenant described under “—Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries” that becomes effective during any Suspension Period shall be deemed to be permitted pursuant to clause (a) of the second paragraph of the covenant described under “—Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries” and (5) no Subsidiary of the Issuer shall be required to comply with the covenant described under “—Limitation on Guarantees of Indebtedness by Restricted Subsidiaries” after such reinstatement with respect to any guarantee entered into by such Subsidiary during any Suspension Period.

There can be no assurance that the Notes will ever achieve or maintain Investment Grade Ratings.

Limitation on Restricted Payments

Parent will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly:

Edgar Filing: Spic & Span CO - Form 424B3

(a) dividends and distributions by Parent payable solely in Equity Interests (other than Disqualified Stock) of Parent; or

(b) dividends and distributions by a Restricted Subsidiary so long as, in the case of any dividend, payment or distribution payable on or in respect of any class or series of securities issued by a Restricted Subsidiary other than a Wholly-Owned Subsidiary, Parent or a Restricted Subsidiary receives at least its pro rata share of such dividend, payment or distribution in accordance with its Equity Interests in such class or series of securities;

(II) purchase, redeem, defease or otherwise acquire or retire for value any Equity Interests of Parent, including in connection with any merger or consolidation;

(2) immediately after giving effect to such transaction on a pro forma basis, Parent could incur \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Ratio test set forth in the first paragraph of the covenant described under “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock” (the “*Fixed Charge Coverage Test*”); and

(3) such Restricted Payment, together with the aggregate amount of all other Restricted Payments made by Parent and its Restricted Subsidiaries after the Issue Date (including, without duplication, Restricted Payments permitted by clauses (1), 6(b) and (12) of the next succeeding paragraph, but excluding all other Restricted Payments permitted by the next succeeding paragraph), is less than the sum of (without duplication):

(a) 50% of the Consolidated Net Income of Parent for the period (taken as one accounting period) beginning on April 1, 2012 to the end of Parent’s most recently ended fiscal quarter for which internal financial statements are available at the time of such Restricted Payment, or, in the case such Consolidated Net Income for such period is a deficit, *minus* 100.0% of such deficit; *plus*

(i) Equity Interests of Parent, including Treasury Capital Stock (as defined below), but excluding cash proceeds and the fair market value of marketable securities or other property received from the sale of:

(x) Equity Interests to any future, present or former employees, directors, officers, managers or consultants (or their respective Controlled Investment Affiliates or Immediate Family Members) of Parent or any of Parent’s Subsidiaries after the Issue Date to the extent such amounts have been applied to Restricted Payments made in accordance with clause (4) of the next succeeding paragraph; and

(y) Designated Preferred Stock; or

(ii) debt securities of Parent that have been converted into or exchanged for such Equity Interests of Parent;

provided, that this clause (b) shall not include the proceeds from (W) Refunding Capital Stock (as defined below) applied in accordance with clause (2) of the next succeeding paragraph, (X) Equity Interests or convertible debt securities of Parent sold to a Restricted Subsidiary, (Y) Disqualified Stock or debt securities that have been converted into Disqualified Stock or (Z) Excluded Contributions; *plus*

(c) 100% of the aggregate amount of cash and the fair market value of marketable securities or other property contributed to the capital of Parent following the Issue Date (other than net cash proceeds to the extent such net cash proceeds have been used to incur Indebtedness or issue Disqualified Stock or Preferred Stock pursuant to clause (12)(a) of the second paragraph of “—Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock”) (other than by a Restricted Subsidiary and other than any Excluded Contributions); *plus*

(d) without duplication of amounts that increased the amount available for Restricted Payments pursuant to clause (7) or (10) of the next succeeding paragraph or the amount available pursuant to clause (8) or (13) of the definition of “*Permitted Investments*,” 100% of the aggregate amount received in cash and the fair market value of marketable securities or other property received by means of:

(i) the sale or other disposition (other than to Parent or a Restricted Subsidiary) of, or other returns on Investments from, Restricted Investments made by Parent or its Restricted Subsidiaries and repurchases and redemptions of such Restricted Investments from Parent or its Restricted Subsidiaries and repayments of loans or advances, and releases of guarantees, which constitute Restricted Investments made by Parent or its Restricted Subsidiaries, in each case after the Issue Date; or

(ii) the sale (other than to Parent or a Restricted Subsidiary) of the stock of an Unrestricted Subsidiary or a dividend or distribution from an Unrestricted Subsidiary after the Issue Date; *plus*

(e) without duplication of amounts that increased the amount available for Restricted Payments pursuant to clause (7) or (10) of the next succeeding paragraph or the amount available pursuant to clause (8) or (13) of the definition of “*Permitted Investments*,” in the case of the redesignation of an Unrestricted Subsidiary as a Restricted Subsidiary or the merger or consolidation of an Unrestricted Subsidiary into Parent or a Restricted Subsidiary or the transfer of all or substantially all of the assets of an Unrestricted Subsidiary to Parent or a Restricted Subsidiary after the Issue Date, the fair market value of the Investment in such Unrestricted Subsidiary (or the assets transferred) at the time of the redesignation of such Unrestricted Subsidiary as a Restricted Subsidiary or at the time of such merger, consolidation or transfer of assets; *provided* that, in the case of this clause (e), if the fair market value of such Investment shall exceed \$25.0 million, such fair market value shall be determined by the board of directors of Parent, whose resolution with respect thereto will be delivered to the Trustee), at the time of the redesignation of such Unrestricted Subsidiary as a Restricted Subsidiary.

The foregoing provisions will not prohibit:

(1) the payment of any dividend or other distribution or the consummation of any irrevocable redemption within 60 days after the date of declaration of the dividend or other distribution or giving of the redemption notice, as the case may be, if at the date of declaration or notice, the dividend or other distribution or redemption payment would have complied with the provisions of the Indenture;

(2) (a) the redemption, repurchase, retirement or other acquisition of any Equity Interests, including any accrued and unpaid dividends thereon ("*Treasury Capital Stock*") or Subordinated Indebtedness of Parent or any Restricted Subsidiary, in exchange for, or out of the proceeds of the substantially concurrent sale or issuance (other than to a Restricted Subsidiary) of, Equity Interests of Parent (in each case, other than any Disqualified Stock) ("*Refunding Capital Stock*"), (b) the declaration and payment of dividends on Treasury Capital Stock out of the proceeds of the substantially concurrent sale or issuance (other than to a Subsidiary of Parent or to an employee stock ownership plan or any trust established by Parent or any of its Subsidiaries) of Refunding Capital Stock and (c) if, immediately prior to the retirement of Treasury Capital Stock, the declaration and payment of dividends thereon was permitted under clause (6)(a) of this paragraph, the declaration and payment of dividends on the Refunding Capital Stock in an aggregate amount per year no greater than the aggregate amount of dividends per annum that were declarable and payable on such Treasury Capital Stock immediately prior to such retirement;

For purposes of determining compliance with this covenant, in the event that a Restricted Payment meets the criteria of more than one of the categories of Permitted Payments described in clauses (1) through (14) above, or is permitted pursuant to the first paragraph of this covenant, the Company will be entitled to classify such Restricted Payment (or portion thereof) on the date of its payment or later reclassify such Restricted Payment (or portion thereof) in any manner that complies with this covenant.

As of the Issue Date, all of Parent's Domestic Subsidiaries will be Restricted Subsidiaries. Parent will not permit any Unrestricted Subsidiary to become a Restricted Subsidiary except pursuant to the penultimate sentence of the definition of "Unrestricted Subsidiary." For purposes of designating any Restricted Subsidiary as an Unrestricted Subsidiary, all outstanding Investments by Parent and its Restricted Subsidiaries (except to the extent repaid) in the Subsidiary so designated will be deemed to be Restricted Payments in an amount determined as set forth in the penultimate sentence of the definition of "Investments." Such designation will be permitted only if a Restricted Payment in such amount would be permitted at such time, pursuant to this covenant or pursuant to the definition of "Permitted Investments," and if such Subsidiary otherwise meets the definition of an Unrestricted Subsidiary. Unrestricted Subsidiaries will not be subject to any of the restrictive covenants set forth in the Indenture. For the avoidance of doubt, this covenant shall not restrict the making of any "*AHYDO catch up payment*" with respect to, and required by the terms of, any Indebtedness of Parent or any of its Restricted Subsidiaries permitted to be incurred under the terms of the Indenture.

Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock

Parent will not, and will not permit any of its Restricted Subsidiaries to, directly or indirectly, create, incur, issue, assume, guarantee or otherwise become directly or indirectly liable, contingently or otherwise (collectively, “*incur*” and collectively, an “*incurrence*”) with respect to any Indebtedness (including Acquired Indebtedness) and Parent will not issue any shares of Disqualified Stock and will not permit any Restricted Subsidiary to issue any shares of Disqualified Stock or Preferred Stock; *provided*, that Parent may incur Indebtedness (including Acquired Indebtedness) or issue shares of Disqualified Stock, and any Restricted Subsidiary may incur Indebtedness (including Acquired Indebtedness), issue shares of Disqualified Stock and issue shares of Preferred Stock, if the Fixed Charge Coverage Ratio of Parent and its Restricted Subsidiaries for the most recently ended four fiscal quarters for which internal financial statements are available immediately preceding the date on which such additional Indebtedness is incurred or such Disqualified Stock or Preferred Stock is issued would have been at least 2.00 to 1.00, determined on a pro forma basis (including a pro forma application of the net proceeds therefrom), as if the additional Indebtedness had been incurred, or the Disqualified Stock or Preferred Stock had been issued, as the case may be, and the application of proceeds therefrom had occurred at the beginning of such four-quarter period; *provided* that the then outstanding aggregate principal amount of Indebtedness (including Acquired Indebtedness), Disqualified Stock and Preferred Stock that may be incurred or issued, as applicable, pursuant to the foregoing by Restricted Subsidiaries that are not the Issuer or Guarantors shall not exceed the greater of (i) \$35.0 million and (ii) 2.00% of Total Assets (in each case, determined on the date of such incurrence).

The foregoing limitations will not apply to:

(1) Indebtedness incurred pursuant to any Credit Facilities by Parent or any Restricted Subsidiary and the issuance and creation of letters of credit and bankers' acceptances thereunder (with letters of credit and bankers' acceptances being deemed to have a principal amount equal to the face amount thereof); *provided* that immediately after giving effect to any such incurrence or issuance, the then-outstanding aggregate principal amount of all Indebtedness incurred or issued under this clause (1) does not exceed the sum of \$880 million plus the greater of (A) \$50.0 million and (B) the Borrowing Base;

(5) Indebtedness incurred by Parent or any of its Restricted Subsidiaries constituting reimbursement obligations with respect to letters of credit, bank guarantees, banker's acceptances, warehouse receipts, or similar instruments issued or created in the ordinary course of business, including letters of credit in respect of workers' compensation claims, health, disability or other employee benefits or property, casualty or liability insurance or self-insurance or other Indebtedness with respect to reimbursement type obligations regarding workers' compensation claims, health, disability or other employee benefits or property, casualty or liability insurance or self-insurance; *provided*, that upon the drawing of such letters of credit or the incurrence of such Indebtedness, such obligations are reimbursed within 30 Business Days following such drawing or incurrence;

(6) Indebtedness arising from agreements of Parent or its Restricted Subsidiaries providing for indemnification, adjustment of purchase price, earnouts or similar obligations, in each case, incurred or assumed in connection with the acquisition or disposition of any business, assets or a Subsidiary, other than guarantees of Indebtedness incurred by

any Person acquiring all or any portion of such business, assets or Subsidiary for the purpose of financing such acquisition; *provided*, that (a) such Indebtedness is not reflected on the balance sheet of Parent, or any of its Restricted Subsidiaries (Contingent Obligations referred to in a footnote to financial statements and not otherwise reflected on the balance sheet will not be deemed to be reflected on such balance sheet for purposes of this clause (6)) and (b) in the case of any disposition, the maximum assumable liability in respect of all such Indebtedness shall at no time exceed the gross proceeds actually received by Parent and its Restricted Subsidiaries in connection with such disposition;

(7) Indebtedness of Parent to a Restricted Subsidiary; *provided*, that any such Indebtedness owing to a Restricted Subsidiary that is not a Guarantor is expressly subordinated in right of payment to the Notes; *provided, further*, that any subsequent issuance or transfer of any Capital Stock or any other event which results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any other subsequent transfer of any such Indebtedness (except to Parent or another Restricted Subsidiary or any pledge of such Indebtedness constituting a Permitted Lien) shall be deemed, in each case, to be an incurrence of such Indebtedness (to the extent such Indebtedness is then outstanding) not permitted by this clause (7);

(8) Indebtedness of a Restricted Subsidiary to Parent or another Restricted Subsidiary; *provided*, that if the Issuer or a Guarantor incurs such Indebtedness to a Restricted Subsidiary that is not the Issuer or a Guarantor, such Indebtedness is expressly subordinated in right of payment to the obligations of the Issuer in respect of the Notes or the Guarantee of the Notes of such Guarantor, as applicable; *provided, further*, that any subsequent issuance or transfer of any Capital Stock or any other event which results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any subsequent transfer of any such Indebtedness (except to Parent or another Restricted Subsidiary or any pledge of such Indebtedness constituting a Permitted Lien) shall be deemed, in each case, to be an incurrence of such Indebtedness (to the extent such Indebtedness is then outstanding) not permitted by this clause (8);

(9) shares of Preferred Stock of a Restricted Subsidiary issued to Parent or another Restricted Subsidiary; *provided*, that any subsequent issuance or transfer of any Capital Stock or any other event which results in any such Restricted Subsidiary ceasing to be a Restricted Subsidiary or any other subsequent transfer of any such shares of Preferred Stock (except to Parent or another of its Restricted Subsidiaries or any pledge of such Capital Stock constituting a Permitted Lien) shall be deemed in each case to be an issuance of such shares of Preferred Stock (to the extent such Preferred Stock is then outstanding) not permitted by this clause (9);

(10) Hedging Obligations (excluding Hedging Obligations entered into for speculative purposes) for the purpose of limiting interest rate risk with respect to any Indebtedness permitted to be incurred under the Indenture, exchange rate risk or commodity pricing risk;

(11) obligations in respect of self-insurance and obligations in respect of performance, bid, appeal and surety bonds and performance and completion guarantees and similar obligations provided by Parent or any of its Restricted Subsidiaries or obligations in respect of letters of credit, bank guarantees or similar instruments related thereto, in each case in the ordinary course of business;

(12) (a) Indebtedness or Disqualified Stock of Parent and Indebtedness, Disqualified Stock or Preferred Stock of any Restricted Subsidiary in an aggregate principal amount or liquidation preference up to 100% of the net cash proceeds received by Parent since immediately after the Issue Date from the issue or sale of Equity Interests of Parent or cash contributed to the capital of Parent (in each case, other than proceeds of Disqualified Stock or sales of Equity Interests to Parent or any of its Subsidiaries) as determined in accordance with clauses (3)(b) and (3)(c) of the first paragraph of “—Limitation on Restricted Payments” to the extent such net cash proceeds or cash have not been applied pursuant to such clauses to make Restricted Payments pursuant to the second paragraph of “—Limitation on Restricted Payments” or to make Permitted Investments (other than Permitted Investments specified in clauses (1), (2) or (3) of the definition thereof) and,

(b) Indebtedness or Disqualified Stock of Parent and Indebtedness, Disqualified Stock or Preferred Stock of Parent or any Restricted Subsidiary in an aggregate principal amount or liquidation preference, which when aggregated with the principal amount and liquidation preference of all other Indebtedness, Disqualified Stock and Preferred Stock then outstanding and incurred pursuant to this clause (12)(b), does not exceed the greater of (i) \$75.0 million and (ii) 3.25% of Total Assets (in each case, determined on the date of such incurrence); it being understood that any Indebtedness, Disqualified Stock or Preferred Stock incurred pursuant to this clause (12)(b) shall cease to be deemed incurred or outstanding for purposes of this clause (12)(b) but shall be deemed incurred for the purposes of the first paragraph of this covenant from and after the first date on which Parent or such Restricted Subsidiary could have incurred such Indebtedness, Disqualified Stock or Preferred Stock under the first paragraph of this covenant without reliance on this clause (12)(b);

(13) the incurrence or issuance by Parent or any Restricted Subsidiary of Indebtedness, Disqualified Stock or Preferred Stock which serves to extend, replace, refund, refinance, renew or defease any Indebtedness, Disqualified Stock or Preferred Stock incurred or issued as permitted under the first paragraph of this covenant and clauses (2), (3), (4), (10) and (12)(a) above, this clause (13) and clause (14) below or any Indebtedness, Disqualified Stock or Preferred Stock incurred or issued to so extend, replace, refund, refinance, renew or defease such Indebtedness, Disqualified Stock or Preferred Stock including additional Indebtedness, Disqualified Stock or Preferred Stock incurred to pay premiums (including tender premiums), defeasance costs, and accrued interest, fees and expenses in connection therewith (the "*Refinancing Indebtedness*") prior to its respective maturity; *provided*, that:

(a) such Refinancing Indebtedness has a Weighted Average Life to Maturity at the time such Refinancing Indebtedness is incurred which is not less than the remaining Weighted Average Life to Maturity of the Indebtedness, Disqualified Stock or Preferred Stock being extended, replaced, refunded, refinanced, renewed or defeased (or requires no or nominal payments in cash prior to the date that is 91 days after the maturity date of the Notes);

(b) to the extent such Refinancing Indebtedness extends, replaces, refunds, refinances, renews or defeases (i) Indebtedness subordinated in right of payment to the Notes or any Guarantee thereof, such Refinancing Indebtedness is subordinated in right of payment to the Notes or the Guarantee thereof at least to the same extent as the Indebtedness being extended, replaced, refunded, refinanced, renewed or defeased or (ii) Disqualified Stock or Preferred Stock, such Refinancing Indebtedness must be Disqualified Stock or Preferred Stock, respectively; and

(c) such Refinancing Indebtedness shall not include:

(i) Indebtedness, Disqualified Stock or Preferred Stock of a Subsidiary of Parent that is not the Issuer or a Guarantor that refinances Indebtedness, Disqualified Stock or Preferred Stock of the Issuer;

(ii) Indebtedness, Disqualified Stock or Preferred Stock of a Subsidiary of Parent that is not the Issuer or a Guarantor that refinances Indebtedness, Disqualified Stock or Preferred Stock of a Guarantor; or

(iii) Indebtedness or Disqualified Stock of Parent or Indebtedness, Disqualified Stock or Preferred Stock of a Restricted Subsidiary that refinances Indebtedness, Disqualified Stock or Preferred Stock of an Unrestricted Subsidiary;

(17) (a) any guarantee by Parent or a Restricted Subsidiary of Indebtedness or other obligations of any Restricted Subsidiary so long as the incurrence of such Indebtedness incurred by such Restricted Subsidiary is permitted under the terms of the Indenture, or

(18) Indebtedness consisting of Indebtedness issued by Parent or any of its Restricted Subsidiaries to future, present or former employees, directors, officers, managers and consultants thereof, their respective Controlled Investment Affiliates or Immediate Family Members, in each case to finance the purchase or redemption of Equity Interests of Parent or any direct or indirect parent company of Parent to the extent described in clause (4) of the second paragraph under the caption “—*Limitation on Restricted Payments*”;

(23) the incurrence of Indebtedness of Restricted Subsidiaries of Parent that are not the Issuer or Guarantors in an amount outstanding under this clause (23) not to exceed together with any other Indebtedness incurred under this clause (23) the greater of (a) \$25.0 million and (b) 1.25% of Total Assets (in each case, determined on the date of such incurrence); it being understood that any Indebtedness deemed incurred pursuant to this clause (23) shall cease to be deemed incurred or outstanding for purposes of this clause (23) but shall be deemed incurred for the purposes of the first paragraph of this covenant from and after the first date on which such Restricted Subsidiaries could have incurred such Indebtedness under the first paragraph of this covenant without reliance on this clause (23); and

(24) Indebtedness of Parent or any of its Restricted Subsidiaries undertaken in connection with cash management and related activities with respect to any Subsidiary or joint venture in the ordinary course of business.

For purposes of determining compliance with this covenant:

(1) in the event that an item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) meets the criteria of more than one of the categories of permitted Indebtedness, Disqualified Stock or Preferred Stock described in clauses (1) through (24) above or is entitled to be incurred pursuant to the first paragraph of this covenant, Parent, in its sole discretion, will classify or reclassify such item of Indebtedness, Disqualified Stock or Preferred Stock (or any portion thereof) and will only be required to include the amount and type of such Indebtedness, Disqualified Stock

or Preferred Stock in one of the above clauses or under the first paragraph of this covenant; *provided*, that all Indebtedness outstanding under the Senior Secured Credit Facilities on the Issue Date (and any refinancing thereof with Secured Indebtedness) will at all times be treated as incurred and outstanding under clause (1) of the second paragraph above;

(2) Parent will be entitled to divide and classify an item of Indebtedness in more than one of the types of Indebtedness described in the first and second paragraphs above; and

(3) subject to the proviso to clause (1) above, the Issuer will be entitled to later reclassify such item of Indebtedness, Disqualified Stock or Preferred Stock in any manner that complies with this covenant at the time of such reclassification.

Accrual of interest or dividends, the accretion of accreted value, the accretion or amortization of original issue discount and the payment of interest or dividends in the form of additional Indebtedness, Disqualified Stock or Preferred Stock, as the case may be, of the same class will not be deemed to be an incurrence of Indebtedness, Disqualified Stock or Preferred Stock for purposes of this covenant.

For purposes of determining compliance with any U.S. dollar-denominated restriction on the incurrence of Indebtedness, the U.S. Dollar Equivalent principal amount of Indebtedness denominated in a foreign currency shall be calculated based on the relevant currency exchange rate in effect on the date such Indebtedness was incurred, in the case of term debt, or first committed, in the case of revolving credit debt; *provided*, that if such Indebtedness is incurred to refinance other Indebtedness denominated in a foreign currency, and such refinancing would cause the applicable U.S. dollar-denominated restriction to be exceeded if calculated at the relevant currency exchange rate in effect on the date of such refinancing, such U.S. dollar-denominated restriction shall be deemed not to have been exceeded so long as the principal amount of such refinancing Indebtedness does not exceed (a) the principal amount of such Indebtedness being refinanced plus (b) the aggregate amount of fees, underwriting discounts, premiums (including tender premiums) and other costs and expenses (including original issue discount, upfront fees or similar fees) incurred in connection with such refinancing.

The principal amount of any Indebtedness incurred to refinance other Indebtedness, if incurred in a different currency from the Indebtedness being refinanced, shall be calculated based on the currency exchange rate applicable to the currencies in which such respective Indebtedness is denominated that is in effect on the date of such refinancing.

The Indenture will provide that Parent will not, and will not permit the Issuer or any other Guarantor to, directly or indirectly, incur any Indebtedness (including Acquired Indebtedness) that is contractually subordinated or junior in right of payment to any Indebtedness of Parent, the Issuer or such Guarantor, as the case may be, unless such Indebtedness is expressly subordinated in right of payment to the Notes or Parent's or such Guarantor's Guarantee to the extent and in the same manner as such Indebtedness is subordinated to other Indebtedness of Parent, the Issuer or such Guarantor, as the case may be.

The Indenture will not treat (1) unsecured Indebtedness as subordinated or junior to Secured Indebtedness merely because it is unsecured or (2) Indebtedness as subordinated or junior to any other Indebtedness merely because it has a junior priority with respect to the same collateral or is secured by different collateral or because it is guaranteed by other obligors.

Liens

Parent will not, and will not permit the Issuer or any other Guarantor to, directly or indirectly, create, incur, assume or permit to exist any Lien (except Permitted Liens) that secures Obligations under any Indebtedness or any related guarantee of Indebtedness, on any asset or property of Parent, the Issuer or any Guarantor unless:

(1) in the case of Liens securing Subordinated Indebtedness, the Notes and related Guarantees are secured by a Lien on such property, assets or proceeds that is senior in priority to such Liens; and

(2) in all other cases, the Notes or the Guarantees are equally and ratably secured,

except that the foregoing shall not apply to or restrict (a) Liens securing obligations in respect of the Notes (and exchange notes with respect thereto) and the related Guarantees, (b) Liens securing obligations in respect of (x) Indebtedness and other Obligations permitted to be incurred under Credit Facilities, including any letter of credit facility relating thereto, that was permitted by the terms of the Indenture to be incurred pursuant to clause (1) of the second paragraph under “—*Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock*” and (y) obligations of Parent or any Subsidiary in respect of any Bank Products provided by any lender party to any Senior Secured Credit Facilities or any Affiliate of such lender (or any Person that was a lender or an Affiliate of a lender at the time the applicable agreements pursuant to which such Bank Products are provided were entered into) and (c) Liens securing obligations in respect of Indebtedness permitted to be incurred under the covenant described above under “—*Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock*”; *provided*, that, with respect to Liens securing Indebtedness permitted under this subclause (c), at the time of incurrence and after giving pro forma effect thereto and to the application of the net proceeds thereof, the Consolidated Secured Debt Ratio would be no greater than 4.00 to 1.00.

Any Lien created for the benefit of the Holders of the Notes pursuant to this covenant shall be deemed automatically and unconditionally released and discharged upon the release and discharge of each of the Liens described in clauses (1) and (2) above.

Merger, Consolidation or Sale of All or Substantially All Assets

Neither Parent nor the Issuer may consolidate or merge with or into or wind up into (whether or not Parent or the Issuer is the surviving Person), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

(1) Parent or the Issuer is the surviving Person or the Person formed by or surviving any such consolidation or merger (if other than Parent or the Issuer) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made, is a Person organized or existing under the laws of the United States, any state thereof or the District of Columbia (such Person, as the case may be, being herein called the “*Successor Company*”); *provided*, that in the case of a transaction involving the Issuer where the surviving Person is not a corporation, a co-obligor of the Notes is a corporation;

(2) the Successor Company, if other than Parent or the Issuer, expressly assumes all the obligations of Parent or the Issuer under Parent’s Guarantee or the Notes, as applicable, pursuant to supplemental indentures or other documents or instruments;

(3) immediately after such transaction, no Default exists;

(4) immediately after giving pro forma effect to such transaction and any related financing transactions, as if such transactions had occurred at the beginning of the applicable four-quarter period,

(a) Parent or the Successor Company would be permitted to incur at least \$1.00 of additional Indebtedness pursuant to the Fixed Charge Coverage Test, or

(b) the Fixed Charge Coverage Ratio for Parent or the Successor Company, as applicable, and its Restricted Subsidiaries would be equal to or greater than the Fixed Charge Coverage Ratio for Parent and its Restricted Subsidiaries immediately prior to such transaction;

(5) in the case of any such transaction involving the Issuer, each Guarantor, unless it is the other party to the transactions described above, in which case clause (1)(b) of the second succeeding paragraph shall apply, shall have by supplemental indenture confirmed that its Guarantee shall apply to such Person’s obligations under the Indenture,

the Notes and the Registration Rights Agreement; and

(6) Parent shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel, each stating that such consolidation, merger, amalgamation or transfer and such supplemental indentures, if any, comply with the Indenture.

The Successor Company will succeed to, and be substituted for the Issuer under the Indenture, the Guarantees and the Notes, as applicable.

Notwithstanding the immediately preceding clauses (3) and (4),

(1) any Restricted Subsidiary may consolidate or amalgamate with or merge with or into or transfer all or part of its properties and assets to Parent or the Issuer or any other Restricted Subsidiary, and

(2) Parent or the Issuer may merge with an Affiliate of Parent or the Issuer solely for the purpose of reincorporating Parent or the Issuer in the United States, any state thereof, the District of Columbia or any territory thereof.

Subject to certain limitations described in the Indenture governing release of a Guarantee upon the sale, disposition or transfer of a Guarantor, no Guarantor (other than Parent which shall be subject to the provisions set forth above) will, and Parent will not permit any such Guarantor to, consolidate, amalgamate or merge with or into or wind up into (whether or not such Guarantor is the surviving Person), or sell, assign, transfer, lease, convey or otherwise dispose of all or substantially all of its properties or assets, in one or more related transactions, to any Person unless:

(1) (a) such Guarantor is the surviving Person or the Person formed by or surviving any such consolidation, amalgamation or merger (if other than such Guarantor) or to which such sale, assignment, transfer, lease, conveyance or other disposition will have been made is a Person organized or existing under the laws of the jurisdiction of organization of such Guarantor, as applicable, or the laws of the United States, any state thereof, the District of Columbia, or any territory thereof (such surviving Guarantor or such Person, as the case may be, being herein called the “*Successor Person*”);

(b) the Successor Person, if other than such Guarantor, expressly assumes all the obligations of such Guarantor under the Indenture and such Guarantor’s related Guarantee pursuant to supplemental indentures or other documents or instruments;

(c) immediately after such transaction, no Default exists; and

(d) Parent shall have delivered to the Trustee an Officer’s Certificate and an Opinion of Counsel, each stating that such consolidation, merger, amalgamation or transfer and such supplemental indentures, if any, comply with the Indenture;

(2) the transaction is made in compliance with the first paragraph of the covenant described under “*Repurchase at the Option of Holders—Asset Sales*”; or

(3) in the case of assets comprised of Equity Interests of Subsidiaries that are not Guarantors, such Equity Interests are sold, assigned, transferred, leased, conveyed or otherwise disposed of to one or more Restricted Subsidiaries.

Subject to certain limitations described in the Indenture, the Successor Person will succeed to, and be substituted for, such Guarantor under the Indenture and such Guarantor’s Guarantee. Notwithstanding the foregoing, any Guarantor (other than Parent) may (1) merge or consolidate with or into, wind up into or transfer all or part of its properties and assets to another Guarantor or the Issuer, (2) merge with an Affiliate of the Issuer solely for the purpose of reincorporating the Guarantor in the United States, any state thereof or the District of Columbia, (3) convert into a corporation, partnership, limited partnership, limited liability company or trust organized or existing under the laws of the jurisdiction of organization of such Guarantor or (4) liquidate or dissolve or change its legal form if Parent determines in good faith that such action is in the best interests of Parent.

Transactions with Affiliates

Edgar Filing: Spic & Span CO - Form 424B3

Parent will not, and will not permit any of its Restricted Subsidiaries to, make any payment to, or sell, lease, transfer or otherwise dispose of any of its properties or assets to, or purchase any property or assets from, or enter into or make or amend any transaction, contract, agreement, understanding, loan, advance or guarantee with any Affiliate of Parent (each of the foregoing, an “*Affiliate Transaction*”) involving aggregate payments or consideration in excess of \$5.0 million, unless:

(1) such Affiliate Transaction is on terms that are not materially less favorable to Parent or its relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by Parent or such Restricted Subsidiary with an unrelated Person on an arm’s-length basis; and

(2) Parent delivers to the Trustee with respect to any Affiliate Transaction or series of related Affiliate Transactions involving aggregate payments or consideration in excess of \$25.0 million, a resolution adopted by the majority of the board of directors of Parent approving such Affiliate Transaction and set forth in an Officer’s Certificate certifying that such Affiliate Transaction complies with clause (1) above.

The foregoing provisions will not apply to the following:

(1) transactions between or among Parent or any of its Restricted Subsidiaries;

(2) Restricted Payments permitted by the provisions of the Indenture described above under the covenant “—*Limitation on Restricted Payments*” and Permitted Investments;

(4) transactions in which Parent or any of its Restricted Subsidiaries, as the case may be, delivers to the Trustee a letter from an Independent Financial Advisor stating that such transaction is fair to Parent or such Restricted Subsidiary from a financial point of view or stating that the terms are not materially less favorable to Parent or its relevant Restricted Subsidiary than those that would have been obtained in a comparable transaction by Parent or such Restricted Subsidiary with an unrelated Person on an arm's-length basis;

(5) any agreement as in effect as of the Issue Date, or any amendment thereto (so long as any such amendment is not disadvantageous in any material respect in the good faith judgment of the board of directors of Parent to the Holders when taken as a whole as compared to the applicable agreement as in effect on the Issue Date);

(6) the Transactions and the payment of all fees and expenses related to the Transactions, including Transaction Expenses;

(7) transactions with customers, clients, suppliers, contractors, joint venture partners or purchasers or sellers of goods or services that are Affiliates, in each case in the ordinary course of business and otherwise in compliance with the terms of the Indenture which are fair to Parent and its Restricted Subsidiaries, in the reasonable determination of the board of directors of Parent or the senior management thereof, or are on terms at least as favorable as might reasonably have been obtained at such time from an unaffiliated party;

(9) sales of accounts receivable, or participations therein, or Securitization Assets or related assets in connection with any Qualified Securitization Facility;

(10) payments and Indebtedness and Disqualified Stock (and cancellation of any thereof) of Parent and its Restricted Subsidiaries and Preferred Stock (and cancellation of any thereof) of any Restricted Subsidiary to any future, current or former employee, director, officer, manager or consultant (or their respective Controlled Investment Affiliates or Immediate Family Members) of Parent or any of its Subsidiaries pursuant to any management equity plan or stock option plan or any other management or employee benefit plan or agreement or any stock subscription or shareholder agreement that are, in each case, approved by Parent in good faith; and any employment agreements, stock option

plans and other compensatory arrangements (and any successor plans thereto) and any supplemental executive retirement benefit plans or arrangements with any such employees, directors, officers, managers or consultants (or their respective Controlled Investment Affiliates or Immediate Family Members) that are, in each case, approved by Parent in good faith;

(11) payments to or from, and transactions with, any joint venture in the ordinary course of business (including, without limitation, any cash management activities related thereto);

(12) any lease entered into between Parent or any Restricted Subsidiary, as lessee and any Affiliate of Parent, as lessor, which is approved by a majority of the disinterested members of the board of directors of Parent in good faith;

(13) intellectual property licenses in the ordinary course of business; and

(14) the payment of reasonable out-of-pocket costs and expenses relating to registration rights and indemnities provided to stockholders of Parent thereof pursuant to the stockholders agreement or the registration rights agreement entered into on the Issue Date in connection therewith.

Dividend and Other Payment Restrictions Affecting Restricted Subsidiaries

Parent will not, and will not permit any of its Restricted Subsidiaries that is not the Issuer or a Guarantor to, directly or indirectly, create or otherwise cause or suffer to exist or become effective any consensual encumbrance or consensual restriction on the ability of any such Restricted Subsidiary to:

(1) (a) pay dividends or make any other distributions to Parent or any of its Restricted Subsidiaries that is a Guarantor on its Capital Stock or with respect to any other interest or participation in, or measured by, its profits, or

(b) pay any Indebtedness owed to Parent or any of its Restricted Subsidiaries that is a Guarantor;

(2) make loans or advances to Parent or any of its Restricted Subsidiaries that is a Guarantor; or

(3) sell, lease or transfer any of its properties or assets to Parent or any of its Restricted Subsidiaries that is a Guarantor,

except (in each case) for such encumbrances or restrictions existing under or by reason of:

(a) contractual encumbrances or restrictions in effect on the Issue Date, including pursuant to the Existing Notes Indenture, the Senior Secured Credit Facilities and the related documentation and Hedging Obligations and the related documentation;

(b) the Indenture, the Notes and the guarantees thereof;

(c) purchase money obligations for property acquired in the ordinary course of business and capital lease obligations that impose restrictions of the nature discussed in clause (3) above on the property so acquired;

(d) applicable law or any applicable rule, regulation or order;

(e) any agreement or other instrument of a Person acquired by or merged or consolidated with or into Parent or any of its Restricted Subsidiaries in existence at the time of such acquisition or at the time it merges with or into Parent or any of its Restricted Subsidiaries or assumed in connection with the acquisition of assets from such Person (but, in any such case, not created in contemplation thereof), which encumbrance or restriction is not applicable to any Person, or the properties or assets of any Person, other than the Person so acquired and its Subsidiaries, or the property or assets of the Person so acquired and its Subsidiaries or the property or assets so acquired;

(f) contracts for the sale of assets, including customary restrictions with respect to a Subsidiary of Parent pursuant to an agreement that has been entered into for the sale or disposition of all or substantially all of the Capital Stock or assets of such Subsidiary;

(g) Secured Indebtedness otherwise permitted to be incurred pursuant to the covenants described under “—*Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock*” and “—*Liens*” that limit the right of the debtor to dispose of the assets securing such Indebtedness;

(h) restrictions on cash or other deposits or net worth imposed by customers under contracts entered into in the ordinary course of business or arising in connection with any Permitted Liens;

(i) other Indebtedness, Disqualified Stock or Preferred Stock of Restricted Subsidiaries that are not the Issuer or Guarantors permitted to be incurred subsequent to the Issue Date pursuant to the provisions of the covenant described under “—*Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock*”;

(j) customary provisions in joint venture agreements and other similar agreements relating solely to such joint venture;

(k) customary provisions contained in leases, sub-leases, licenses, sub-licenses or similar agreements, including with respect to intellectual property and other agreements, in each case, entered into in the ordinary course of business;

(l) restrictions or conditions contained in any trading, netting, operating, construction, service, supply, purchase, sale or other agreement to which Parent or any of its Restricted Subsidiaries is a party entered into in the ordinary course of business; *provided*, that such agreement prohibits the encumbrance of solely the property or assets of Parent or such Restricted Subsidiary that are the subject to such agreement, the payment rights arising thereunder or the proceeds thereof and does not extend to any other asset or property of Parent or such Restricted Subsidiary or the assets or property of another Restricted Subsidiary;

(m) customary provisions restricting subletting or assignment of any lease governing a leasehold interest of any Restricted Subsidiary;

(n) customary provisions restricting assignment of any agreement entered into in the ordinary course of business;

(p) any agreement or instrument (A) relating to any Indebtedness, Disqualified or Preferred Stock permitted to be incurred or issued subsequent to the Issue Date pursuant to the covenant described under “—*Limitation on Incurrence of Indebtedness and Issuance of Disqualified Stock and Preferred Stock*” if the encumbrances and restrictions are not materially more disadvantageous, taken as a whole, to the Holders than is customary in comparable financings for similarly situated issuers (as determined in good faith by Parent) or is otherwise in effect on the Issue Date and (B) either (x) Parent determines that such encumbrance or restriction will not adversely affect the Issuer’s ability to make principal and interest payments on the Notes as and when they come due or (y) such encumbrances and restrictions apply only during the continuance of a default in respect of a payment or financial maintenance covenant relating to such Indebtedness;

(q) any encumbrances or restrictions of the type referred to in clauses (1), (2) and (3) above imposed by any amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings of the contracts, instruments or obligations referred to in clauses (a) through (p) above; *provided*, that such amendments, modifications, restatements, renewals, increases, supplements, refundings, replacements or refinancings are, in the good faith judgment of Parent, not materially more restrictive with respect to such encumbrance and other restrictions taken as a whole than those prior to such amendment, modification, restatement, renewal, increase, supplement, refunding, replacement or refinancing; and

(r) restrictions created in connection with any Qualified Securitization Facility that in the good faith determination of Parent are necessary or advisable to effect such Qualified Securitization Facility.

Limitation on Guarantees of Indebtedness by Restricted Subsidiaries

Parent will not permit any of its Wholly-Owned Subsidiaries that are Restricted Subsidiaries (and non-Wholly-Owned Subsidiaries if such non-Wholly-Owned Subsidiaries guarantee other capital markets debt securities of the Issuer or any Guarantor), other than the Issuer, a Guarantor, a Foreign Subsidiary or a Securitization Subsidiary, to guarantee the payment of any Indebtedness of the Issuer or any other Guarantor unless:

(1) such Restricted Subsidiary within 30 days executes and delivers a supplemental indenture to the Indenture providing for a Guarantee by such Restricted Subsidiary, except that with respect to a guarantee of Indebtedness of the Issuer or any Guarantor, if such Indebtedness is by its express terms subordinated in right of payment to the Notes or such Guarantor's Guarantee, any such guarantee by such Restricted Subsidiary with respect to such Indebtedness shall be subordinated in right of payment to such Guarantee substantially to the same extent as such Indebtedness is subordinated to the Notes; and

(2) such Restricted Subsidiary waives and will not in any manner whatsoever claim or take the benefit or advantage of, any rights of reimbursement, indemnity or subrogation or any other applicable rights against Parent or any other Restricted Subsidiary as a result of any payment by such Restricted Subsidiary under its Guarantee; *provided*, that this covenant shall not be applicable to any guarantee of any Restricted Subsidiary that existed at the time such Person became a Restricted Subsidiary and was not incurred in connection with, or in contemplation of, such Person becoming a Restricted Subsidiary. Parent may elect, in its sole discretion, to cause any Subsidiary that is not otherwise required to be a Guarantor to become a Guarantor, in which case such Subsidiary shall not be required to comply with the 30 day period described in clause (1) above.

Reports and Other Information

Notwithstanding that Parent may not be subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act or otherwise report on an annual and quarterly basis on forms provided for such annual and quarterly reporting pursuant to rules and regulations promulgated by the SEC, the Indenture will require Parent to file with the SEC:

(1) within 90 days after the end of each fiscal year, annual reports on Form 10-K, or any successor or comparable form, containing the information required to be contained therein, or required in such successor or comparable form;

(2) within 45 days after the end of each of the first three fiscal quarters of each fiscal year, reports on Form 10-Q containing all quarterly information that would be required to be contained in Form 10-Q, or any successor or comparable form;

(3) within five (5) Business Days of the date on which an event would have been required to be reported on a Form 8-K or any successor or comparable form if Parent had been a reporting company under the Exchange Act, a current report relating to such event on Form 8-K or any successor or comparable form;

in each case, in a manner that complies in all material respects with the requirements specified in such form (except as described above or below and subject, in the case of required financial information, to exceptions consistent with the presentation of financial information in this prospectus, to the extent filed within the times specified above); *provided*, that Parent shall not be so obligated to file such reports with the SEC (i) if the SEC does not permit such filing or (ii) prior to the consummation of an exchange offer or the effectiveness of a shelf registration statement as required by the Registration Rights Agreement, in which event Parent will make available such information to the Trustee, the Holders of the Notes and prospective purchasers of Notes, in each case within 15 days after the time Parent would be required to file such information with the SEC, if it were subject to Sections 13 or 15(d) of the Exchange Act. In addition, to the extent not satisfied by the foregoing, Parent will agree that, for so long as any Notes are outstanding, it will furnish to Holders and to securities analysts and prospective investors, upon their request, the information required to be delivered pursuant to Rule 144A(d)(4) under the Securities Act; *provided, further*, that any report required to be delivered under clause (1) or (2) above prior to the completion of the first full fiscal year following the Issue Date shall not be required to comply with Regulation S-X or contain all purchase accounting adjustments relating to the Transactions to the extent it is not practicable to include any such adjustments in such report.

Notwithstanding anything herein to the contrary, Parent will not be deemed to have failed to comply with any of its obligations hereunder for purposes of clause (3) under “*Events of Default and Remedies*” until 90 days after the receipt of the written notice delivered thereunder.

To the extent any information is not provided within the time periods specified in this section “*Reports and Other Information*” and such information is subsequently provided, Parent will be deemed to have satisfied its obligations with respect thereto at such time and any Default with respect thereto shall be deemed to have been cured.

Events of Default and Remedies

The Indenture will provide that each of the following is an “*Event of Default*”:

(1) default in payment when due and payable, upon redemption, acceleration or otherwise, of principal of, or premium, if any, on the Notes;

(2) default for 30 days or more in the payment when due of interest on or with respect to the Notes;

(3) failure by the Issuer or any Guarantor for 60 days after receipt of written notice given by the Trustee or the Holders of not less than 25% in principal amount of the then outstanding Notes to comply with any of its obligations, covenants or agreements (other than a default referred to in clause (1) or (2) above) contained in the Indenture or the Notes;

(4) default under any mortgage, indenture or instrument under which there is issued or by which there is secured or evidenced any Indebtedness for money borrowed by Parent or any of its Restricted Subsidiaries or the payment of which is guaranteed by Parent or any of its Restricted Subsidiaries, other than Indebtedness owed to Parent or a Restricted Subsidiary, whether such Indebtedness or guarantee now exists or is created after the issuance of the Notes, if both:

(a) such default either results from the failure to pay any principal of such Indebtedness at its stated final maturity (after giving effect to any applicable grace periods) or relates to an obligation other than the obligation to pay principal of any such Indebtedness at its stated final maturity and results in the holder or holders of such Indebtedness causing such Indebtedness to become due prior to its stated maturity; and

(b) the principal amount of such Indebtedness, together with the principal amount of any other such Indebtedness in default for failure to pay principal at stated final maturity (after giving effect to any applicable grace periods), or the maturity of which has been so accelerated, aggregate \$30.0 million or more outstanding;

(5) failure by Parent or any Significant Subsidiary (or any group of Restricted Subsidiaries that together (as of the latest audited consolidated financial statements of Parent for a fiscal quarter end provided as required under “*Reports*”) would constitute a Significant Subsidiary) to pay final judgments aggregating in excess of \$30.0 million (net of amounts covered by insurance policies issued by reputable insurance companies), which final judgments remain unpaid, undischarged and unstayed for a period of more than 60 days after such judgment becomes final, and in the event such judgment is covered by insurance, an enforcement proceeding has been commenced by any creditor upon such judgment or decree which is not promptly stayed;

(6) certain events of bankruptcy or insolvency with respect to Parent, the Issuer or any Significant Subsidiary (or any group of Restricted Subsidiaries that together (as of the latest audited consolidated financial statements of Parent for a fiscal quarter end provided as required under “*Reports*”) would constitute a Significant Subsidiary); or

(7) the Guarantee of any Significant Subsidiary (or any group of Restricted Subsidiaries that together (as of the latest audited consolidated financial statements of Parent for a fiscal quarter end provided as required under “*Reports*”) would constitute a Significant Subsidiary) shall for any reason cease to be in full force and effect or be declared null and void or any responsible officer of any Guarantor that is a Significant Subsidiary (or the responsible officers of any group of Restricted Subsidiaries that together (as of the latest audited consolidated financial statement of Parent for a fiscal quarter end) would constitute a Significant Subsidiary), as the case may be, denies in writing that it has any further liability under its Guarantee or gives written notice to such effect, other than by reason of the termination of the Indenture or the release of any such Guarantee in accordance with the Indenture.

If any Event of Default (other than of a type specified in clause (6) above with respect to Parent or the Issuer) occurs and is continuing under the Indenture, the Trustee or the Holders of at least 25% in principal amount of the then total outstanding Notes may declare the principal, premium, if any, interest and any other monetary obligations on all the then outstanding Notes to be due and payable immediately.

Upon the effectiveness of such declaration, such principal of and premium, if any, and interest will be due and payable immediately. Notwithstanding the foregoing, in the case of an Event of Default arising under clause (6) of the first paragraph of this section with respect to Parent or the Issuer, all outstanding Notes will become due and payable without further action or notice. The Indenture will provide that the Trustee may withhold from the Holders notice of any continuing Default, except a Default relating to the payment of principal, premium, if any, or interest, if it determines that withholding notice is in their interest.

The Indenture provides that the Holders of a majority in aggregate principal amount of the then outstanding Notes by notice to the Trustee may on behalf of the Holders of all of the Notes waive any existing Default and its consequences under the Indenture (except a continuing Default in the payment of interest on, premium, if any, or the principal of any Note held by a non-consenting Holder) and rescind any acceleration with respect to the Notes and its consequences (except if such rescission would conflict with any judgment of a court of competent jurisdiction). In the event of any Event of Default specified in clause (4) above, such Event of Default and all consequences thereof (excluding any resulting payment default, other than as a result of acceleration of the Notes) shall be annulled, waived and rescinded, automatically and without any action by the Trustee or the Holders, if within 30 days after such Event of Default arose:

(1) the Indebtedness or guarantee that is the basis for such Event of Default has been discharged;

(2) holders thereof have rescinded or waived the acceleration, notice or action (as the case may be) giving rise to such Event of Default; or

(3) the default that is the basis for such Event of Default has been cured.

In case an Event of Default occurs and is continuing, the Trustee will be under no obligation to exercise any of the rights or powers under the Indenture at the request or direction of any of the Holders of the Notes unless the Holders have offered to the Trustee indemnity or security reasonably satisfactory to the Trustee against any loss, liability or expense. Except to enforce the right to receive payment of principal, premium (if any) or interest when due, no Holder of a Note may pursue any remedy with respect to the Indenture or the Notes unless:

(1) such Holder has previously given the Trustee written notice that an Event of Default is continuing;

(2) Holders of at least 25% in principal amount of the total outstanding Notes have requested in writing the Trustee to pursue the remedy;

(3) Holders of the Notes have offered the Trustee security or indemnity reasonably satisfactory to it against any loss, liability or expense;

(4) the Trustee has not complied with such request within 60 days after the receipt thereof and the offer of security or indemnity; and

(5) Holders of a majority in principal amount of the total outstanding Notes have not given the Trustee a direction inconsistent with such written request within such 60-day period.

Subject to certain restrictions, under the Indenture the Holders of a majority in principal amount of the total outstanding Notes are given the right to direct the time, method and place of conducting any proceeding for any remedy available to the Trustee or of exercising any trust or power conferred on the Trustee. The Trustee, however, may refuse to follow any direction that conflicts with law or the Indenture or that the Trustee determines is unduly prejudicial to the rights of any other Holder of a Note or that would involve the Trustee in personal liability.

The Indenture will provide that Parent is required to deliver to the Trustee annually a statement regarding compliance with the Indenture, and Parent is required, within 10 Business Days, upon becoming aware of any Default, to deliver to the Trustee a statement specifying such Default.

No Personal Liability of Directors, Officers, Employees and Stockholders

No past, present or future director, officer, employee, incorporator, member, partner or stockholder of the Issuer or any Guarantor shall have any liability, for any obligations of the Issuer or the Guarantors under the Notes, the Guarantees or the Indenture or for any claim based on, in respect of, or by reason of such obligations or their creation. Each Holder by accepting Notes waives and releases all such liability. The waiver and release are part of the consideration for issuance of the Notes. Such waiver may not be effective to waive liabilities under the federal securities laws and it is the view of the SEC that such a waiver is against public policy.

Legal Defeasance and Covenant Defeasance

The obligations of the Issuer and the Guarantors under the Indenture will terminate (other than certain obligations) and will be released upon payment in full of all of the Notes. The Issuer may, at its option and at any time, elect to have all of its obligations discharged with respect to the Notes and have each Guarantor's obligation discharged with respect to its Guarantee ("*Legal Defeasance*") and cure all then existing Events of Default except for:

(1) the rights of Holders of Notes to receive payments in respect of the principal of, premium, if any, and interest on the Notes when such payments are due solely out of the trust created pursuant to the Indenture;

(2) the Issuer's obligations with respect to Notes concerning issuing temporary Notes, registration of such Notes, mutilated, destroyed, lost or stolen Notes and the maintenance of an office or agency for payment and money for security payments held in trust;

(3) the rights, powers, trusts, duties and immunities of the Trustee, and the Issuer's obligations in connection therewith; and

(4) the Legal Defeasance provisions of the Indenture.

In addition, the Issuer may, at its option and at any time, elect to have its obligations and those of each Guarantor released with respect to substantially all of the restrictive covenants that are described in the Indenture ("*Covenant Defeasance*") and thereafter any omission to comply with such obligations shall not constitute a Default with respect to the Notes. In the event Covenant Defeasance occurs, certain events (not including bankruptcy, receivership, rehabilitation and insolvency events pertaining to Parent or the Issuer) described under "*Events of Default and Remedies*" will no longer constitute an Event of Default with respect to the Notes.

In order to exercise either Legal Defeasance or Covenant Defeasance with respect to the Notes:

(1) the Issuer must irrevocably deposit with the Trustee, in trust, for the benefit of the Holders of the Notes, cash in U.S. dollars, U.S. Government Securities, or a combination thereof, in such amounts as will be sufficient, in the opinion of a nationally recognized firm of independent public accountants, to pay the principal of, premium, if any, and interest due on the Notes on the stated maturity date or on the redemption date, as the case may be, of such principal, premium, if any, or interest on such Notes and the Issuer must specify whether such Notes are being defeased to maturity or to a particular redemption date;

(2) in the case of Legal Defeasance, the Issuer shall have delivered to the Trustee an Opinion of Counsel confirming that, subject to customary assumptions and exclusions,

(a) the Issuer has received from, or there has been published by, the United States Internal Revenue Service a ruling, or

(b) since the issuance of the Notes, there has been a change in the applicable U.S. federal income tax law,

in either case to the effect that, and based thereon such Opinion of Counsel shall confirm that, subject to customary assumptions and exclusions, the Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes, as applicable, as a result of such Legal Defeasance and will be subject to U.S. federal income tax on the same amounts, in the same manner and at the same times as would have been the case if such Legal Defeasance had not occurred;

(3) in the case of Covenant Defeasance, the Issuer shall have delivered to the Trustee an Opinion of Counsel confirming that, subject to customary assumptions and exclusions, the Holders of the Notes will not recognize income, gain or loss for U.S. federal income tax purposes as a result of such Covenant Defeasance and will be subject to such tax on the same amounts, in the same manner and at the same times as would have been the case if such Covenant Defeasance had not occurred;

(4) no Default (other than that resulting from borrowing funds to be applied to make such deposit and any similar and simultaneous deposit relating to other Indebtedness and, in each case, the granting of Liens in connection therewith) shall have occurred and be continuing on the date of such deposit;

(5) such Legal Defeasance or Covenant Defeasance shall not result in a breach or violation of, or constitute a default under the Senior Secured Credit Facilities or any other material agreement or instrument (other than the Indenture) to which, the Issuer or any Guarantor is a party or by which the Issuer or any Guarantor is bound (other than that resulting from any borrowing of funds to be applied to make the deposit required to effect such Legal Defeasance or Covenant Defeasance and any similar and simultaneous deposit relating to other Indebtedness, and, in each case, the granting of Liens in connection therewith);

(6) the Issuer shall have delivered to the Trustee an Opinion of Counsel to the effect that, as of the date of such opinion and subject to customary assumptions and exclusions following the deposit, the trust funds will not be subject to the effect of Section 547 of Title 11 of the United States Code;

(7) the Issuer shall have delivered to the Trustee an Officer's Certificate stating that the deposit was not made by the Issuer with the intent of defeating, hindering, delaying or defrauding any creditors of the Issuer or any Guarantor or others; and

(8) the Issuer shall have delivered to the Trustee an Officer's Certificate and an Opinion of Counsel (which Opinion of Counsel may be subject to customary assumptions and exclusions) each stating that all conditions precedent provided for or relating to the Legal Defeasance or the Covenant Defeasance, as the case may be, have been complied with.

Satisfaction and Discharge

The Indenture will be discharged and will cease to be of further effect as to all Notes, when either:

Amendment, Supplement and Waiver

Except as provided in the next two succeeding paragraphs, the Indenture, any Guarantee and the Notes may be amended or supplemented with the consent of the Holders of at least a majority in principal amount of the Notes then outstanding, including consents obtained in connection with a purchase of, or tender offer or exchange offer for, Notes, and any existing Default or compliance with any provision of the Indenture or the Notes issued thereunder may be waived with the consent of the Holders of a majority in principal amount of the then outstanding Notes, other than Notes beneficially owned by Parent or its Affiliates (including consents obtained in connection with a purchase of or tender offer or exchange offer for the Notes).

The Indenture will provide that, without the consent of each affected Holder of Notes, an amendment or waiver may not, with respect to any Notes held by a non-consenting Holder:

- (1) reduce the principal amount of such Notes whose Holders must consent to an amendment, supplement or waiver;
- (2) reduce the principal of or change the fixed final maturity of any such Note or alter or waive the provisions with respect to the redemption of such Notes (other than provisions relating to (a) notice periods (to the extent consistent with applicable requirements of clearing and settlement systems) for redemption and conditions to redemption and (b) the covenants described above under the caption "*Repurchase at the Option of Holders*");
- (3) reduce the rate of or change the time for payment of interest on any Note;

(8) impair the right of any Holder to receive payment of principal of, or premium, if any, or interest on such Holder's Notes on or after the due dates therefor or to institute suit for the enforcement of any payment on or with respect to such Holder's Notes;

(9) make any change to or modify the ranking of the Notes that would adversely affect the Holders; or

(10) except as expressly permitted by the Indenture, modify the Guarantees of Parent, any Significant Subsidiary, or any group of Restricted Subsidiaries that, taken together (as of the latest audited consolidated financial statements for Parent), would constitute a Significant Subsidiary, in any manner materially adverse to the Holders of the Notes.

Notwithstanding the foregoing, the Issuer, any Guarantor (with respect to a Guarantee or the Indenture to which it is a party) and the Trustee may amend or supplement the Indenture and any Guarantee or Notes without the consent of any Holder:

(1) to cure any ambiguity, omission, mistake, defect or inconsistency;

(12) to conform the text of the Indenture, Guarantees or the Notes to any provision of this “*Description of the Exchange Notes*” to the extent that such provision in this “*Description of the Exchange Notes*” was intended to be a substantially verbatim recitation of a provision of the Indenture, Guarantee or Notes as provided in an Officer’s Certificate; or

(13) to make any amendment to the provisions of the Indenture relating to the transfer and legending of Notes as permitted by the Indenture, including, without limitation to facilitate the issuance and administration of the Notes; *provided*, that (a) compliance with the Indenture as so amended would not result in Notes being transferred in violation of the Securities Act or any applicable securities law and (b) such amendment does not materially and adversely affect the rights of Holders to transfer Notes.

The consent of the Holders is not necessary under the Indenture to approve the particular form of any proposed amendment. It is sufficient if such consent approves the substance of the proposed amendment.

Concerning the Trustee

The Indenture will contain certain limitations on the rights of the Trustee thereunder, should it become a creditor of the Issuer or a Guarantor, to obtain payment of claims in certain cases, or to realize on certain property received in respect of any such claim as security or otherwise. The Trustee will be permitted to engage in other transactions; however, if it acquires any conflicting interest it must eliminate such conflict within 90 days, apply to the SEC for permission to continue as Trustee (if the Indenture has been qualified under the Trust Indenture Act) or resign.

The Indenture will provide that the Holders of a majority in principal amount of the then outstanding Notes will have the right to direct the time, method and place of conducting any proceeding for exercising any remedy available to the Trustee, subject to certain exceptions. The Indenture will provide that in case an Event of Default shall occur (which shall not be cured), the Trustee will be required, in the exercise of its power, to use the degree of care of a prudent person in the conduct of his own affairs. Subject to such provisions, the Trustee will be under no obligation to exercise any of its rights or powers under the Indenture at the request of any Holder of the Notes, unless such Holder shall have offered to the Trustee security and indemnity reasonably satisfactory to it against any loss, liability or expense.

which, in either case, are not callable or redeemable at the option of the issuers thereof, and shall also include a depository receipt issued by a bank (as defined in Section 3(a)(2) of the Securities Act), as custodian with respect to any such U.S. Government Securities or a specific payment of principal of or interest on any such U.S. Government Securities held by such custodian for the account of the holder of such depository receipt; *provided*, that (except as required by law) such custodian is not authorized to make any deduction from the amount payable to the holder of such depository receipt from any amount received by the custodian in respect of the U.S. Government Securities or the specific payment of principal of or interest on the U.S. Government Securities evidenced by such depository receipt.

“*Voting Stock*” of any Person as of any date means the Capital Stock of such Person that is at the time entitled to vote in the election of the board of directors of such Person.

“*Weighted Average Life to Maturity*” means, when applied to any Indebtedness, Disqualified Stock or Preferred Stock, as the case may be, at any date, the quotient obtained by dividing:

(1) the sum of the products of the number of years from the date of determination to the date of each successive scheduled principal payment of such Indebtedness or redemption or similar payment with respect to such Disqualified Stock or Preferred Stock multiplied by the amount of such payment; by

(2) the sum of all such payments.

provided, that for purposes of determining the Weighted Average Life to Maturity of any Indebtedness that is being extended, replaced, refunded, refinanced, renewed or defeased (the “*Applicable Indebtedness*”), the effects of any

amortization or prepayments made on such Applicable Indebtedness prior to the date of the applicable extension, replacement, refunding, refinancing, renewal or defeasance shall be disregarded.

“*Wholly-Owned Subsidiary*” of any Person means a Subsidiary of such Person, 100% of the outstanding Equity Interests of which (other than directors’ qualifying shares and shares issued to foreign nationals as required by applicable law) shall at the time be owned by such Person and/or by one or more Wholly-Owned Subsidiaries of such Person.

Description of the Existing Notes

The terms of the existing notes are substantially identical to those of the exchange notes, except that (1) the existing notes have not been registered under the Securities Act, are subject to certain restrictions on transfer and are entitled to certain rights under the registration rights agreement (which rights will terminate upon consummation of the exchange offer, except under limited circumstances); and (2) the existing notes provide for additional interest as a result of our failure to fulfill certain registration obligations.

The existing notes provide that, in the event that we and the guarantors have not exchanged the exchange notes for all existing notes validly tendered in accordance with the terms of an exchange offer on or before the 365th day after the original issue date of the existing notes or, if applicable, a shelf registration statement covering resales of the existing notes has not been declared effective or such shelf registration statement ceases to be effective at any time during the shelf registration period (subject to certain exceptions), then additional interest shall accrue on the principal amount of the existing notes at a rate of 0.25% per annum for the first 90-day period immediately following such date and by an additional 0.25% per annum with respect to each subsequent 90-day period, up to a maximum additional rate of 1.00% per annum thereafter.

The exchange notes are not, and upon consummation of the exchange offer with respect to the existing notes will not be, entitled to any additional interest. Holders of existing notes should review the information set forth under “*Risk Factors*” and “*Description of the Exchange Notes*.”

Book Entry, Settlement and Clearance

The Global Notes

The exchange notes will be issued in the form of several registered notes in global form, without interest coupons (we refer to such exchange notes in global form as the global notes).

Upon issuance, each of the global notes will be deposited with the trustee as custodian for DTC and registered in the name of Cede & Co., as nominee of DTC.

Ownership of beneficial interests in each global note will be limited to persons who have accounts with DTC (DTC participants) or persons who hold interests through DTC participants. We expect that under procedures established by DTC:

upon deposit of each global note with DTC's custodian, DTC will credit portions of the principal amount of the global note to the accounts of persons who have accounts with DTC; and

ownership of beneficial interests in each global note will be shown on, and transfer of ownership of those interests will be effected only through, records maintained by DTC (with respect to interests of DTC participants) and the records of DTC participants (with respect to other owners of beneficial interests in the global note).

Beneficial interests in the global notes may not be exchanged for notes in physical, certificated form except in the limited circumstances described below.

Exchanges Among the Global Notes

Beneficial interests in one global note may generally be exchanged for interests in another global note. Depending on whether the transfer is being made during or after the distribution compliance period, and to which global note the transfer is being made, the trustee may require the seller to provide certain written certifications in the form provided in the indenture. In addition, in the case of a transfer of interests to an institutional accredited investor global note, the trustee may require the buyer to deliver a representation letter in the form provided in the indenture that states, among other things, that the buyer is not acquiring notes with a view to distributing them in violation of the Securities Act.

A beneficial interest in a global note that is transferred to a person who takes delivery through another global note will, upon transfer, become subject to any transfer restrictions and other procedures applicable to beneficial interests in the other global note.

Book-Entry Procedures for the Global Notes

All interests in the global notes will be subject to the operations and procedures of DTC. We provide the following summaries of those operations and procedures solely for the convenience of investors. The operations and procedures of each settlement system are controlled by that settlement system and may be changed at any time. We are not responsible for those operations or procedures.

DTC has advised us that it is:

- a limited purpose trust company organized under the laws of the State of New York;
- a “*banking organization*” within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a “*clearing corporation*” within the meaning of the New York Uniform Commercial Code; and
- a “*clearing agency*” registered under Section 17A of the Exchange Act.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between its participants through electronic book-entry changes to the accounts of its participants. DTC's participants include securities brokers and dealers; banks and trust companies; clearing corporations and other organizations. Indirect access to DTC's system is also available to others such as banks, brokers, dealers and trust companies; these indirect participants clear through or maintain a custodial relationship with a DTC participant, either directly or indirectly. Investors who are not DTC participants may beneficially own securities held by or on behalf of DTC only through DTC participants or indirect participants in DTC.

So long as DTC's nominee is the registered owner of a global note, that nominee will be considered the sole owner or holder of the notes represented by that global note for all purposes under the indenture. Except as provided below, owners of beneficial interests in a global note:

- will not be entitled to have notes represented by the global note registered in their names;

- will not receive or be entitled to receive physical, certificated notes; and

will not be considered the owners or holders of the notes under the indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee under the indenture.

As a result, each investor who owns a beneficial interest in a global note must rely on the procedures of DTC to exercise any rights of a holder of notes under the indenture (and, if the investor is not a participant or an indirect participant in DTC, on the procedures of the DTC participant through which the investor owns its interest).

Payments of principal, premium (if any) and interest with respect to the notes represented by a global note will be made by the trustee to DTC's nominee as the registered holder of the global note. Neither we nor the trustee will have any responsibility or liability for the payment of amounts to owners of beneficial interests in a global note, for any aspect of the records relating to or payments made on account of those interests by DTC, or for maintaining, supervising or reviewing any records of DTC relating to those interests.

Payments by participants and indirect participants in DTC to the owners of beneficial interests in a global note will be governed by standing instructions and customary industry practice and will be the responsibility of those participants or indirect participants and DTC.

Transfers between participants in DTC will be effected under DTC's procedures and will be settled in same-day funds.

Certificated Notes

Notes in physical, certificated form will be issued and delivered to each person that DTC identifies as a beneficial owner of the related notes only if:

DTC notifies us at any time that it is unwilling or unable to continue as depositary for the global notes and a successor depositary is not appointed within 90 days;

DTC ceases to be registered as a clearing agency under the Exchange Act and a successor depositary is not appointed within 90 days;

· we, at our option, notify the trustee that we elect to cause the issuance of certificated notes; or

· certain other events provided in the indenture should occur.

MATERIAL U.S. Federal Income Tax Considerations

The following discussion is a summary of the material U.S. federal income tax consequences relevant to a holder of existing notes that exchanges such notes for exchange notes in the exchange offer, but does not purport to be a complete analysis of all potential tax effects. This discussion is based upon the U.S. Internal Revenue Code of 1986, as amended, which we refer to as the Code, U.S. Treasury Regulations issued thereunder, Internal Revenue Service (IRS) rulings and pronouncements, and judicial decisions now in effect, all of which are subject to change at any time. Any such change may be applied retroactively in a manner that could adversely affect a holder of notes. We have not sought and will not seek any rulings from the IRS with respect to the matters discussed below. There can be no assurance that the IRS will not take a different position concerning the tax consequences of the exchange of existing notes for exchange notes in the exchange offer or that any such position would not be sustained.

This discussion is limited to beneficial holders who exchange existing notes for exchange notes in the exchange offer. This discussion does not address all of the U.S. federal income tax consequences that may be relevant to a holder in light of such holder's particular circumstances or to holders subject to special rules, such as banks and certain other financial institutions, partnerships and other pass-through entities (or investors in such entities), regulated investment companies, real estate investment trusts, U.S. expatriates, insurance companies, dealers in securities or currencies, traders in securities, U.S. holders whose functional currency is not the U.S. dollar, holders subject to alternative minimum tax, tax-exempt organizations, tax deferred or other retirement accounts and persons holding the notes as part of a "straddle," "hedge," "conversion transaction" or other integrated transaction. In addition, this discussion is limited to persons that hold their existing notes as "capital assets" (generally, property held for investment) within the meaning of Section 1221 of the Code. This discussion does not address the effect of any applicable state, local or foreign tax laws or any federal taxes other than income taxes.

If a partnership or other entity or arrangement treated as a partnership for U.S. federal income tax purposes holds existing notes, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding existing notes, you should consult your tax advisor regarding the tax consequences of the exchange of existing notes for exchange notes in the exchange offer.

THIS SUMMARY IS FOR GENERAL INFORMATION ONLY AND IS NOT TAX ADVICE. HOLDERS SHOULD CONSULT THEIR TAX ADVISORS REGARDING THE APPLICATION OF THE TAX CONSEQUENCES DISCUSSED BELOW TO THEIR PARTICULAR SITUATIONS AS WELL AS POTENTIAL CHANGES IN APPLICABLE TAX LAWS AND THE APPLICATION OF ANY STATE, LOCAL, FOREIGN OR OTHER TAX LAWS, INCLUDING GIFT AND ESTATE TAX LAWS, AND ANY TAX TREATIES.

The exchange of existing notes for exchange notes in the exchange offer will not constitute a taxable exchange for U.S. federal income tax purposes. As a result, for U.S. federal income tax purposes, (1) a holder will not recognize

taxable gain or loss as a result of exchanging such holder's existing notes for exchange notes in the exchange offer; (2) the holding period of the exchange notes received by such holder in the exchange offer will include the holding period of the existing notes exchanged therefor; and (3) the adjusted basis of the exchange notes received equal the adjusted basis of the existing notes exchanged therefor immediately before such exchange.

Plan of Distribution

We are not using any underwriters for the exchange offer and we are bearing the expense of the exchange offer. Each broker-dealer that receives exchange notes for its own account in connection with the exchange offer must acknowledge that it will deliver a prospectus in connection with any resale of such exchange notes. This prospectus, as it may be amended or supplemented from time to time, may be used by a broker-dealer in connection with resales of exchange notes received in exchange for existing notes where such notes were acquired as a result of market-making activities or other trading activities. We have agreed that we will use our commercially reasonable efforts to keep this prospectus continuously effective, supplemented and amended to ensure that it is available for resales of exchange notes acquired by broker-dealers for their own accounts as a result of market-making activities or other trading activities for a period ending on the earlier of (i) 180 days from the date on which this prospectus is declared effective and (ii) the date on which a broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities.

We will not receive any proceeds from the issuance of exchange notes in the exchange offer or from any sale of exchange notes by broker-dealers. Any broker-dealer that holds existing notes that are transfer restricted and that were acquired for its own account as a result of market-making activities or other trading activities (other than existing notes acquired directly from the issuer), may exchange such existing notes pursuant to the exchange offer. Exchange notes received by broker-dealers for their own accounts pursuant to the exchange offer may be sold from time to time in one or more transactions in the over-the-counter market, in negotiated transactions, through the writing of options on the exchange notes or a combination of such methods of resale, at market prices prevailing at the time of resale, at prices related to such prevailing market prices or at negotiated prices. Any such resale may be made directly to purchasers or to or through brokers or dealers who may receive compensation in the form of commissions or concessions from any such broker-dealer and/or the purchasers of any such exchange notes. Any broker-dealer that resells exchange notes that were received by it for its own account pursuant to the exchange offer and any broker or dealer that participates in a distribution of such exchange notes may be deemed to be an “*underwriter*” within the meaning of the Securities Act, and any profit on any such resale of exchange notes and any commissions or concessions received by any such persons may be deemed to be underwriting compensation under the Securities Act. The letter of transmittal states that by acknowledging that it will deliver and by delivering a prospectus, a broker-dealer will not be deemed to admit that it is an “*underwriter*” within the meaning of the Securities Act.

For a period ending on the earlier of (i) 180 days from the date on which this prospectus is declared effective and (ii) the date on which a broker-dealer is no longer required to deliver a prospectus in connection with market-making or other trading activities, we will promptly send a reasonable number of additional copies of the prospectus and any amendment or supplement to this prospectus to any broker-dealer that requests such documents in the letter of transmittal. We have agreed to pay all expenses incident to the exchange offer (including the expenses of one counsel for all of the holders of the existing notes) other than commissions or concessions of any brokers or dealers and will indemnify the holders of the exchange notes, including any broker-dealers, against certain liabilities, including liabilities under the Securities Act.

Certain ERISA Considerations

The exchange notes may be acquired and held by an employee benefit plan subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended (which we refer to as ERISA), or by an individual retirement account or other plan subject to Section 4975 of the Code. A fiduciary of an employee benefit plan subject to ERISA must determine that the purchase and holding of the exchange notes is consistent with its fiduciary duties under ERISA. The fiduciary of an ERISA plan, as well as any other prospective investor subject to Section 4975 of the Code or any other federal, state, local, non-U.S. or other laws or requirements that are similar to such provisions of ERISA or the Code (we refer to these laws collectively as similar law), must also determine that its purchase and holding of the exchange notes do not result in a non-exempt prohibited transaction as defined in Section 406 of ERISA or Section 4975 of the Code or any applicable similar law. Each holder of our exchange notes who is subject to Section 406 of ERISA, Section 4975 of the Code or any similar law (we refer to each such holder as a plan investor) will be deemed to have represented by its acquisition and holding of the exchange notes that its acquisition and holding of the exchange notes does not constitute or give rise to a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code or a violation of any applicable similar law. The sale of any exchange notes to any plan investor is in no respect a representation by us, our parent guarantor, our subsidiary and affiliate guarantors, or any of our or their affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by plan investors generally or any particular plan investor, or that such an investment is appropriate for plan investors generally or any particular plan investor.

Legal Matters

The validity of the exchange notes and guarantees offered hereby has been passed upon for us by Kirkland & Ellis LLP, New York, New York. Certain matters with respect to Virginia law will be passed upon for us by Hancock, Daniel, Johnson & Nagle, P.C.

Notes to Consolidated Financial Statements

1. Description of Business and Organization and Summary of Significant Accounting Policies

Description of Business and Organization

Blacksmith Brands Holdings, Inc. (the “Company” or “Blacksmith”) was incorporated in the State of Delaware on October 27, 2009. The Company is majority owned by Charlesbank Equity Fund VII Limited Partnership, CB Offshore Equity Fund VII, Charlesbank Parallel Fund VII Limited Partnership, Charlesbank Equity Coinvestment Fund VII, Limited Partnership, and Charlesbank Coinvestment Partners, Limited Partnership (collectively, “Charlesbank”).

On October 29, 2009, the Company, through its wholly owned subsidiary, Blacksmith Brands, Inc., acquired the inventory, certain property and equipment, and intellectual property (primarily trademarked brands) of five over the counter pharmaceutical brands from McNeil-PPC, Inc., a subsidiary of Johnson & Johnson. The five brands acquired were: *Luden’s*(R), *Efferdent*(R), *Effergrip*(R), *PediaCare*(R) and *Nasalcrom*(R). The Company commenced operations on October 29, 2009.

The Company operates in the over the counter pharmaceutical market primarily in the United States, with minimal sales in Canada. Sales are made directly to retailers and distributors.

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Blacksmith Brands, Inc. All intercompany accounts and transactions have been eliminated in consolidation.

Fiscal Year

These financial statements are presented for the period from November 1, 2009 to October 31, 2010.

Cash and Cash Equivalents

The Company considers all highly liquid investments with original maturities of three months or less when purchased to be cash equivalents. At any time, cash in banks may exceed federally insured limits.

Inventories

Inventories are comprised of finished goods and are stated at the lower of cost or market, with cost being determined by the first-in, first out method.

Revenue Recognition, Accounts Receivable Trade, and Allowances for Doubtful Accounts, Returns, and Sales Incentives

The Company recognizes revenue from product sales when the following four basic revenue recognition criteria under the related accounting guidance are met (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the fee is fixed or determinable; and (4) collectability is reasonably assured. Revenues from product sales are generally recognized upon delivery to a common carrier when terms are equivalent to free on board "FOB" origin. Management evaluates accounts receivable to estimate the amount of accounts receivable that will not be collected in the future and records the appropriate provision. The provision for doubtful accounts is recorded as a charge to operating expense and reduces accounts receivable. The estimated allowance for doubtful accounts is based primarily on management's evaluation of aging of accounts receivable balances, the financial condition of its customers, historical trends, and time outstanding of specific balances.

The Company writes off accounts receivable balances when deemed to be uncollectible. Actual collections of accounts receivable could differ from management's estimates due to changes in future economic, industry or customers' financial conditions.

Provision is made for estimated discounts related to customer payment terms and estimated product returns at the time of sale based on our historical experience. The cost of promotional programs such as promotional allowances and cooperative advertising are recognized in net sales in the period in which the allowance is offered or at initial sale, whichever is later.

Property and Equipment

Acquired property and equipment as of October 29, 2009, is stated at fair value at the acquisition date (as defined under ASC 805—"Business Combinations").

Additions to property and equipment subsequent to October 29, 2009, are stated at cost.

Renewals and improvements that extend the useful lives are capitalized. Expenditures for maintenance and repairs are expensed as incurred.

Depreciation is computed under the straight-line method over the estimated useful lives of the assets.

Upon retirement or disposition of property and equipment, the applicable cost and accumulated depreciation are removed from the accounts and any resulting gains or losses are included in the results of operations. The estimated useful lives of property and equipment are as follows:

Machinery and equipment	5 years
Furniture and fixtures	5 years
Leasehold improvements	The shorter of 5 years or the term of the lease
Computer hardware and software	3 years

Goodwill and Intangible Assets

The Company accounts for goodwill and indefinite lived intangibles in accordance with ASC 350 “Intangibles—Goodwill and Other.” Goodwill and indefinite lived intangible assets include goodwill and trademarked brands acquired in the acquisition made on October 29, 2009, as described above in Note 1, which are not amortized but instead are tested for impairment at least annually or when an impairment indicator exists in accordance with the provisions of ASC 350. The determination as to whether goodwill and indefinite lived intangibles are impaired is based on management’s estimate of the fair value of each reporting unit as compared to its respective carrying value. The Company uses discounted cash flow models to estimate the current fair value of its reporting units when testing for impairments. A number of significant assumptions and estimates are used including estimates of revenues, operating and other costs, capital spending and discount rates. The Company has selected March 31 as its impairment measurement date and there has been no impairment as of October 31, 2010. If impairment were to exist, the amount of impairment would be charged against earnings in the period during which the impairment occurred. The amount of the impairment would be determined by subtracting the implied fair value of the reporting unit goodwill from the carrying amount of such goodwill.

Shipping and Handling Costs

Internal and external shipping and handling costs are included in cost of goods sold. Such costs include inbound freight costs and other product procurement charges. Shipping costs for the twelve months ended October 31, 2010 totaled \$2.6 million.

Advertising

Advertising costs are expensed as incurred and totaled \$5.1 million for the twelve months ended October 31, 2010.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include net realizable value of inventories, valuation of long-lived assets (including goodwill and intangibles), useful lives associated with amortization and depreciation of fixed assets, sales allowances and allowance for doubtful accounts, and valuation of deferred tax assets.

Impairment of Long-Lived Assets

In accordance with ASC 360 "Property, Plant and Equipment," the Company reviews the carrying value of its property and equipment for impairment whenever events or circumstances indicate that the carrying amounts may not be recoverable. In performing this review for recoverability, property and equipment is assessed for possible impairment by comparing their carrying values to their undiscounted net pre-tax cash flows expected to result from the use of the assets. Impaired assets are written down to their fair values, generally determined based on their estimated future discounted cash flows. During the twelve months ended October 31, 2010 the company deemed certain production equipment to be impaired due to a change in product packaging. The production equipment was deemed to have no further value and was disposed during the period.

Concentrations of Credit Risks

The Company's customers are primarily retailers and distributors located throughout the United States. Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of accounts receivable. As of October 31, 2010, one customer accounted for 23% of accounts receivable and 25% of net sales for the twelve months ended October 31, 2010.

The Company maintains cash balances at financial institutions. Accounts at U.S. financial institutions are insured by the Federal Deposit Insurance Corporation up to \$250,000. At October 31, 2010, the balances on account exceeded this limit.

Income Taxes

The Company accounts for income taxes pursuant to ASC 740 "Income Taxes," which requires the establishment of a deferred tax asset or liability for the recognition of future deductible or taxable amounts and tax credit carryforwards. Deferred tax expense or benefit is recognized as a result of the changes in the deferred tax assets and liabilities during the reporting period. Valuation allowances are established when necessary to reduce deferred income tax assets when it is more likely than not that a tax benefit will not be realized.

Debt Issue Costs

In conjunction with the debt discussed in Note 9, the Company incurred approximately \$2.5 million of debt issue costs and discounts. These costs and discounts are being amortized using the effective interest rate method over the life of the related loan (five years) until December, 2014 and are included in interest expense in the accompanying consolidated statement of operations.

Recently Issued Accounting Pronouncements

In May 2009, the FASB issued guidance regarding subsequent events, which was subsequently updated in February 2010. This guidance established general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. In particular, this guidance set forth the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date in its financial statements, and the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. This guidance was effective for financial statements issued for fiscal years and interim periods ending after June 15, 2009, and was therefore adopted by the Company for the period ending October 31, 2010 reporting. The adoption did not have a significant impact on the subsequent events that the Company reports, either through recognition or disclosure, in the consolidated financial statements.

In January 2010, the FASB issued authoritative guidance requiring new disclosures and clarifying some existing disclosure requirements about fair value measurement. Under the new guidance, a reporting entity should (a) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers, and (b) present separately information about purchases, sales, issuances, and settlements in the reconciliation for fair value measurements using significant unobservable inputs. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in the roll forward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The Company does not expect this guidance to have a material impact on its financial statements.

Management has reviewed and continues to monitor the actions of the various financial and regulatory reporting agencies and is currently not aware of any other pronouncement that could have a material impact on the Company's consolidated financial position, results of operations or cash flows.

2. Fair Value Measurements

The Company has adopted the provisions of ASC 820 "Fair Value Measurements and Disclosures," which provides guidance to (i) all applicable financial assets and liabilities and (ii) non-financial assets and liabilities that are recognized or disclosed at fair value in our financial statements on a recurring basis. The Company has also adopted an accounting standard update related to ASC 820, which applies this guidance to all remaining assets and liabilities measured on a non-recurring basis at fair value. The guidance establishes a three level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the hierarchy are defined as follows:

Level 1—Unadjusted quoted market prices in active markets for identical assets and liabilities.

Level 2—Observable inputs, other than Level 1 inputs. Level 2 inputs would typically include quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly.

Level 3—Prices or valuations that require inputs that are both significant to the measurement and unobservable.

The Company's financial instruments consist primarily of cash and cash equivalents, accounts receivable, accounts payable and long term debt. The carrying value of these financial instruments approximates their fair value principally due to their short term maturities.

	\$ 18,670,488

4. Inventory

The Company values the inventory at the lower of cost or market value. Accordingly, the Company reduces the inventories for the diminution of value resulting from product obsolescence, damage or other issues affecting marketability equal to the difference between the cost of the inventory and its estimated market value. Factors utilized in the determination of estimated market value include (i) current sales data and historical return rates, (ii) estimates of future demand, (iii) competitive pricing pressures, (iv) new product introductions, (v) product expiration dates, and (vi) component and packaging obsolescence.

The entire balance of the Company's inventory is finished goods, net of allowances for obsolete inventory of \$0.1 million.

The Plan is administered by the Board or a committee appointed by the Board. The Board may grant incentive stock options, nonqualified stock options, or restricted shares. Incentive stock options may be granted only to employees of the Company and nonqualified stock options may be granted to employees, nonemployee directors and advisors. At October 31, 2010, no stock options have been granted under the Plan. The term of any option shall not exceed ten years from the date of grant. However, an incentive stock option that is granted to an employee who, at the time of grant, owns stock possessing more than 10% of the total combined voting power of all classes of stock of the Company, may not have a term that exceeds five years from the date of grant.

Restricted Shares

The fair value of nonvested restricted shares is the Company's best estimate of the value of its common stock on the day of the grant date. The weighted-average grant-date fair values during the twelve months ended October 31, 2010 was \$2.71.

The following represents restricted stock activity during the period from November 1, 2009 through October 31, 2010:

The tax benefits recognized in the financial statements from such a position should be measured based on the largest benefit that is more likely than not to be sustained upon ultimate settlement. PediaCare® Trade Dress Infringement Claim

On December 16, 2010, the Company received written correspondence from a competitor in which the competitor alleged trade dress infringement by the new packaging for the PediaCare® Plus product line of the competitor's trade dress for its competitive products. The Company is exploring the resolution of the alleged trade dress infringement on terms mutually satisfactory to the Company and the competitor.

In addition to the matter described above, the Company is involved from time to time in other routine legal matters and other claims incidental to its business. The Company reviews outstanding claims and proceedings internally and with external counsel as necessary to assess probability and amount of potential loss. These assessments are re-evaluated at each reporting period and as new information becomes available to determine whether a reserve should be established or if any existing reserve should be adjusted. The actual cost of resolving a claim or proceeding ultimately may be substantially different than the amount of the recorded reserve. In addition, because it is not permissible under GAAP to establish a litigation reserve until the loss is both probable and estimable, in some cases there may be insufficient time to establish a reserve prior to the actual incurrence of the loss (upon verdict and judgment at trial, for example, or in the case of a quickly negotiated settlement). The Company believes the resolution of routine matters and other incidental claims, taking into account reserves and insurance, will not have a material adverse effect on its business, financial condition or results from operations.

16. Subsequent Events

The Company has evaluated, for potential recognition and disclosure, events that occurred after the balance sheet date of October 31, 2010 through January 18, 2011, the date the financial statements were available to be issued.

Notes to Combined Financial Statements

For the years ended 31 December 2011, 31 December 2010 and 31 December 2009

1. Background

The GlaxoSmithKline Plc (“GSK” or “Group”) Consumer Healthcare business operates in three key areas: over the counter (“OTC”) medicines, oral healthcare and nutritional healthcare. The North American Divested Brands of GlaxoSmithKline Plc (“Divested Brands”) operate as part of the Consumer Healthcare business of GSK. GSK, its subsidiaries and associated undertakings, constitute a major global healthcare group engaged in the creation, discovery, development, manufacture and marketing of pharmaceutical and consumer health-related products.

In April 2011, GSK identified certain non-core, OTC brands that it intended to divest as the Group focuses its Consumer Healthcare business around a portfolio of priority brands and the emerging markets.

On 20 December 2011 Prestige Brands Holdings Inc (the “Purchaser”) entered into two sale and purchase agreements (the “Agreements”) with GSK to acquire the Divested Brands in the respective countries where these Divested Brands are sold.

The first arrangement covers the outright transfer of the respective brands from the completion date for all products besides *Debrox* and *Gly-Oxide*. This agreement closed on 31 January 2012.

The second agreement relates to the transfer and transitional supply arrangement for *Debrox* and *Gly-Oxide* anticipated to close on or before 1 May 2012. These brands are supplied to GSK under licence from Sanofi Aventis. The agreement provides for the transfer of the licences for these brands and the transitional supply arrangement of the brands to the Purchaser.

Included in the scope of this transaction are the following brands and the respective countries where these Divested Brands are sold.

2. Basis of Preparation and Accounting Policies

The Divested Brands and related net assets to be sold are not within separate legal entities and historically GSK has not maintained separate records for the Divested Brands. The Combined Statements of Net Assets to be Sold and Combined Statements of Revenue and Direct Operating Expenses, including the accompanying notes (collectively referred to as the “Combined Financial Statements”) have been derived from the consolidated financial statements and the underlying accounting records of GSK. The accounting policies herein are reflective of those used for the historical GSK consolidated financial statements unless stated otherwise.

The accompanying Combined Financial Statements were prepared to present the net assets to be sold pursuant to the two Agreements between GSK and Prestige Brands Holdings Inc signed on 20 December 2011 and the related revenue and direct operating expenses. The basis of preparation describes how the Combined Financial Statements have been prepared in conformity with International Accounting Standards (“IAS”), International Financial Reporting Standards (“IFRS”) and related interpretations, as issued by the International Accounting Standards Board (“IASB”) as applicable to the items included in these Combined Financial Statements. These Combined Financial Statements are not intended to be a complete presentation of assets, revenues and expenses of the Divested Brands.

The Combined Statements of Net Assets to be Sold have been prepared on a basis which includes only those assets which are directly attributable to the Divested Brands and are identified in the Agreements as being transferred to the Purchaser as described in Clause 2.1 of the Agreements. No liabilities, contingent or otherwise are being assumed by the Purchaser. The Combined Statements of Revenue and Direct Operating Expenses include revenue and expenses that are directly attributable to the Divested Brands and certain allocations of other direct expenses incurred by GSK attributable to the Divested Brands as discussed below.

GSK maintains all debt and notes payable on a consolidated basis to fund and manage operations; accordingly, debt and related interest expense were not allocated to the Divested Brands. GSK also maintains its tax functions on a consolidated basis; accordingly, tax expense was not allocated to the Divested Brands.

Historically GSK has not maintained separate financial records for the Divested Brands and, as such, it is impracticable for GSK to identify operating or financing cash flows associated with the Divested Brands. There were no acquisitions or disposals of intangible assets during the years ended 31 December 2009, 2010 and 2011 respectively and therefore no investing cash flows associated with the Divested Brands are presented.

Accounting convention

The Combined Financial Statements have been prepared using the historical cost convention.

The Combined Financial Statements are reported in United States Dollars (“USD”). It is assumed for the preparation of these Combined Financial Statements that the functional currency for revenue, expenses and assets is the same as that previously adopted by GSK. Any exchange differences arising on re-stating functional currencies of the Canadian business to a US dollar presentation currency are recognised under IFRS in other comprehensive income and, consequently, are not presented as part of these Combined Financial Statements. It is also assumed that all foreign currency transactions were settled in local markets at the rate in force at the date the transaction arose and, as such, no transactional exchange differences have been recognised or presented in these Combined Financial Statements.

Revenue, cost of sales, selling, general and administration expenses, research and development and other operating income and expenses were derived as follows:

Revenue

Data has been derived from underlying accounting records without adjustment, including gross sales, discounts on invoices and other discounts.

Revenue is recognised in the Combined Statements of Revenue and Direct Operating Expenses when all of the following have taken place: (i) goods or services are supplied or made available to external customers against orders received, (ii) title and risk of loss is passed to the customer, (iii) reliable estimates can be made of relevant deductions and (iv) all relevant obligations have been fulfilled, such that the earnings process is regarded as being complete. Revenue represents net invoice value after the deduction of discounts and allowances given and accruals for estimated future rebates and returns. The methodology and assumptions used to estimate rebates and returns are monitored and adjusted regularly in the light of contractual and legal obligations, historical trends, past experience and projected market conditions. Sales taxes are excluded from revenue.

The top three customers accounted for 21%, 8%, 6% of revenue for the year ended 31 December 2011, 22%, 7%, 6% of revenue for the year ended 31 December 2010 and 25%, 7% and 6% of revenue for the year ended 2009. No other customer individually accounted for more than 5% of revenue in any of the three years ended 31 December 2011. The top five customers of Divested Brands accounted for 41%, 43% and 45% of total revenue for the years ended 31 December 2011, 2010 and 2009, respectively.

Cost of sales

Data has been derived from the underlying accounting records at transfer cost for products sourced from GSK and its affiliates, which approximates the actual manufacturing cost to the Group. Transfer cost for products sourced externally reflects actual cost to the Group.

Selling, general and administration expenses

Comprises: (i) Consumer Healthcare selling and distribution expenses allocated on the basis of revenue, (ii) Consumer Healthcare other marketing expenses allocated on the basis of advertising and promotion spend, (iii) administration expenses including Consumer Healthcare finance, information technology, legal and human resource costs allocated on the basis of revenue or other methodologies which management believes are reasonable. Expenses have been derived from the underlying accounting records of GSK and the Consumer Healthcare business.

GSK management believes that the Consumer Healthcare allocations included within the Combined Statements of Revenue and Direct Operating Expenses are reasonable; however, these allocated expenses are not necessarily indicative of expenses that would have been incurred by the Divested Brands on a standalone basis.

Also included are direct expenses for advertising and promotion, which have been sourced from the underlying accounting records.

Expenditure for goods and services is recognised when supplied, in accordance with contractual terms. Expenses are recorded when an obligation exists for a future liability in respect of a past event and where the amount of the obligation can be reliably estimated and will be transferred to the buyer within the Agreements. Advertising and promotion expenditure is charged to the Combined Statements of Revenue and Direct Operating Expenses as incurred. Inbound shipment costs on purchases and distribution expenses on sales to customers are included in selling, general and administrative expenditure. Purchases from other GSK entities for the Divested Brands are recorded on the date of shipment from the manufacturer as risks and rewards are considered to be transferred on that date.

Research and development

Research and development expenditure is charged to the Combined Statements of Revenue and Direct Operating Expenses in the period in which it is incurred. Research and development costs are directly attributable to the brands and contain no allocations. Research and development costs incurred by GSK Corporate are not allocated as they are not directly related to the Divested Brands.

Other operating income and expenses

Other operating income and expenses includes Consumer Healthcare allocated costs covering bad debt expense and other sundry items which are allocated on the basis of revenue.

Certain expenses and income, including corporate overhead, interest income, interest expense, restructuring costs and income taxes are not included in the accompanying Combined Statements of Revenue and Direct Operating Expenses, as they are not historically allocated to individual businesses and are not directly associated with revenue generating operations of the Divested Brands. Corporate overhead expenses include expenses incurred for insurance, legal, finance, human resources and executive management functions.

Product liability

Product liability costs included in these Combined Financial Statements are directly attributable to the brands and contain no allocations. No product liability costs are incurred by the Consumer Healthcare business of GSK which are not allocated to the brands. Product liability costs incurred by GSK Corporate are not allocated to the Divested Brands as they are not directly related to the Divested Brands. No provisions related to product liability are included in the Combined Statements of Net Assets to be Sold as historical product liabilities for sale prior to completion are not being assumed by the Purchaser.

In respect of product liability claims related to certain products, an expense is recorded when there is evidence of claims and settlements to enable management to make a reliable estimate of the amount required to cover unasserted claims. In certain cases, an actuarial technique is used to determine this estimate.

Intangible assets

Intangible assets are stated at cost less provisions for amortisation and impairment.

Acquired brands are valued independently, as part of the fair value of businesses acquired from third parties, where the brand has a value which is substantial and long-term and where the brands are either contractual or legal in nature or can be sold separately from the rest of the businesses acquired.

Brands are amortised over their estimated useful lives of up to 20 years, except where they are considered indefinite life brands.

Intangible assets included in the Combined Financial Statements are specific to the Divested Brands and do not therefore include any allocated balances.

Amortisation and impairment

The carrying values of intangible assets which have a definitive life are reviewed for impairment when there is an indication that the asset value might be impaired. Intangible assets with indefinite useful lives are tested for impairment annually and if there was any indication of impairment during the year. Any provision for impairment is charged to the Combined Statements of Revenue and Direct Operating Expenses in the year concerned. Impairment losses are reversed if there has been a change in the estimates used to determine recoverable amounts and only to the extent that the revised recoverable amounts do not exceed the carrying values that would have existed, net of amortisation, had no impairments been recognised.

Impairment testing is performed using post tax discount rate and post tax cash flows as deferred tax balances and a standalone tax rate is not available due to the limited nature of these Combined Financial Statements. Refer to Note 3 for a sensitivity analysis which includes the impact on the fair value of the *FiberChoice* asset as a result of an increase or decrease in the discount rate by 1%.

Inventories

Inventories are included in the Combined Statements of Net Assets to be Sold at the lower of cost and net realisable value. Cost is determined on a first in, first out basis and been derived from the underlying accounting records at transfer cost for products sourced from GSK and its affiliates, which approximates the actual manufacturing cost to the Group. Transfer cost for products sourced externally reflects actual cost to the Group.

Inventory data has been derived from the underlying accounting records and includes direct costs of the Divested Brands only, no allocations have been included.

Legal and other disputes

No provision for the costs of legal disputes are included in the Combined Statements of Net Assets to be Sold as the liability for any existing litigation claims will not be assumed by the Purchaser. An expense is recorded for the anticipated settlement costs of legal or other disputes against the Divested Brands where an outflow of resources is considered probable and a reliable estimate can be made of the likely outcome. The Divested Brands may become involved in legal proceedings, in respect of which it is not possible to make a reliable estimate of the expected financial effect, if any, that could result from ultimate resolution of the proceedings. In these cases, appropriate disclosures about such cases are included but no expenses are included in the Combined Financial Statements.

Key accounting judgements and estimates

In preparing the Combined Financial Statements, management is required to make estimates and assumptions that affect the amounts of assets, liabilities, revenue and expenses reported in the Combined Financial Statements. Actual amounts and results could differ from those estimates. The following are considered to be the key accounting judgements and estimates made:

Revenue

Revenue is recognised when title and risk of loss is passed to the customer, reliable estimates can be made of relevant deductions and all relevant obligations have been fulfilled, such that the earnings process is regarded as being complete.

Gross revenue is reduced by rebates, discounts, allowances and product returns given or expected to be given, which vary by product arrangements and contractual arrangements. These arrangements with customers are dependent upon the submission of claims some time after the initial recognition of the sale.

Amounts are recorded at the time of sale for the estimated rebates, discounts or allowances payable or returns to be made, based on available market information and historical experience. Since the amounts are estimated they may not fully reflect the final outcome, and the amounts are subject to change dependent upon, amongst other things, the types of customer and product sales mix.

The level of expense is reviewed and adjusted regularly in the light of contractual and legal obligations, historical trends, past experience and projected market conditions. Market conditions are evaluated using wholesaler and other third-party analyses, market research data and internally generated information. Future events could cause the assumptions on which the expenses are based to change, which could affect the future results of the Divested Brands. There are no accruals, product liability claims or liabilities transferred to the Purchaser of the Divested Brands.

In respect of product liability claims related to certain products, an expense is recorded when there is evidence of claims made and settlements to enable management to make a reliable estimate of the amount required to cover unasserted claims. In certain cases, an actuarial technique is used to determine this estimate.

Legal and other disputes

The Divested Brands provide for anticipated settlement expenses where an outflow of resources is considered probable and a reliable estimate may be made of the likely outcome of the dispute and legal and other expenses arising from claims against the Divested Brands.

GSK management having taken legal advice, records legal expense after taking into account the relevant facts and circumstances of each matter and in accordance with accounting requirements.

The Divested Brands may become involved in legal proceedings, in respect of which it is not possible to make a reliable estimate of the expected financial effect, if any, that could result from ultimate resolution of the proceedings, for which no expense is recorded. At 31 December 2011, 31 December 2010 and 31 December 2009 management believe s no material provisions for legal and other disputes were required.

The ultimate liability for legal claims may vary from the amounts provided and is dependent upon the outcome of litigation proceedings, investigations and possible settlement negotiations. The position could change over time, however, litigation claims and assessments are not assumed by the Purchaser.

Intangible assets

Where intangible assets are acquired by the Divested Brands from third parties, the costs of acquisition are capitalised. Brands acquired with businesses are capitalised independently where they are separable and have an expected life of more than one year. Brands are amortised on a straight-line basis over their estimated useful lives, not exceeding 20 years, except where the end of the useful economic life cannot be foreseen. Where brands are not amortised, they are subject to annual impairment tests in accordance with the assumptions set out in note 3. Patents are amortised from the point at which they are available for use, over their estimated useful lives, which may include periods of non-exclusivity.

Estimated useful lives are reviewed annually and impairment tests are undertaken if events occur which call into question the carrying values of the assets. Both initial valuations and valuations for subsequent impairment tests are based on established market multiples or risk-adjusted future cash flows discounted using appropriate interest rates reflecting GSK's risk profile. These future cash flows are based on business forecasts and are therefore inherently judgemental. Future events could cause the assumptions used in these impairment analyses to change with a consequent adverse effect on the future results of the Divested Brands.

Implementation of new accounting standards

With effect from 1 January 2011, the Divested Brands have implemented IAS 24 (Revised) 'Related party disclosures' and IFRIC 19 'Extinguishing financial liabilities with equity instruments' and minor amendments to a number of other accounting standards. There is no material impact on the Combined Financial Statements on application of these standards.

New accounting requirements

The following new and amended accounting standards and International Financial Reporting Interpretations Committee ("IFRIC") interpretations have been issued by the IASB and are likely to affect future financial information produced by the Divested Brands, although, in their current forms, none is expected to have a material impact on the Combined Financial Statements of the Divested Brands.

IFRS 9 'Financial instruments' was first issued in November 2009 and amended in October 2010 and will be effective from 1 January 2015. The standard will eventually replace IAS 39 and covers the classification, measurement and de-recognition of financial assets and financial liabilities. The IASB intends to expand IFRS 9 to add new requirements for impairment and hedge accounting at future dates.

An amendment to IFRS 7 'Disclosures – Transfers of financial assets' was issued in October 2010 and will be effective from 1 January 2012. The amendment requires additional disclosures regarding the risk exposures relating to transfers of financial assets.

An amendment to IAS 12 'Deferred tax: recovery of underlying assets' was issued in December 2010 and will be effective from 1 January 2012. The amendment requires that the deferred tax on non-depreciated assets measured using the revaluation model should be calculated on a sale basis.

IFRS 10 'Consolidated financial statements' was issued in May 2011 and will be effective from 1 January 2013. The standard builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements. The standard provides additional guidance to assist in determining control where this is difficult to assess.

IAS 27 (Revised 2011), 'Separate financial statements' was issued in May 2011 and will be effective from 1 January 2013. The revised standard includes the provisions on separate financial statements that are left after the control provisions of IAS 27 have been included in the new IFRS 10.

IFRS 11 'Joint arrangements' was issued in May 2011 and will be effective from 1 January 2013. The standard provides for a more realistic reflection of joint arrangements by focusing on the rights and obligations of the arrangement, rather than its legal form. Proportional consolidation of joint ventures is no longer allowed.

IAS 28 (Revised 2011) 'Investments in associates and joint ventures' was issued in May 2011 and will be effective from 1 January 2013. The revised standard now includes the requirements for joint ventures, as well as associates, to be equity accounted following the issue of IFRS 11.

IFRS 12 'Disclosure of interests in other entities' was issued in May 2011 and will be effective from 1 January 2013. The standard includes disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles.

IFRS 13 'Fair value measurement' was issued in May 2011 and will be effective from 1 January 2013. The standard explains how to measure fair value and aims to enhance fair value disclosures; it does not say when to measure fair value or require additional fair value measurements.

An amendment to IAS 1 'Presentation of Items of Other Comprehensive Income' was issued in June 2011 and will be effective from 1 January 2013. The amendments improved the consistency and clarity of the presentation of items of other comprehensive income (OCI).

The Licences and Patents relate to a *FiberChoice* Patent acquired with the acquisition of CNS, Inc in 2006. The estimated useful life of the Patent is ten years from the acquisition date which is the date of expiration of the patent.

F-26

Indefinite life brands comprise a portfolio of consumer healthcare products primarily acquired with the acquisitions of Sterling Winthrop, Inc in 1994, Block Drug Company Inc in 2001 and CNS, Inc in 2006. The net book values of the major brands are as follows:

	December 31,		
(in thousands)	2011	2010	2009
Gaviscon	\$9,437	\$9,682	\$9,165
FiberChoice	45,839	45,839	55,600
BC	89,240	89,240	89,240

Nytol	10,335	10,335	10,335
	\$208,830	\$209,075	\$218,319

Each of these brands is considered to have an indefinite life, given the strength and durability of the brand and the level of marketing support. The brands are in relatively similar stable and profitable market sectors, with similar risk profiles, and their size, diversification and market shares mean that the risk of market-related factors causing a reduction in the lives of the brands is considered to be relatively low. Management is not aware of any material legal, regulatory, contractual, competitive, economic or other factor which could limit their useful lives. Accordingly, these brands are not amortised.

Each brand is tested annually for impairment applying a value in use methodology, generally using five year post-tax cash flow forecasts (2009: four year post-tax cash flow forecasts) with a terminal value calculation and a discount rate equal to the GSK North American post-tax discount rate of 7%. The main assumptions include future sales price and volume growth, product contribution and the future expenditure required to maintain the product's marketability and registration in the relevant jurisdictions. These assumptions are based on past experience and are reviewed as part of management's budgeting and strategic planning cycle for changes in market conditions and sales erosion through competition. The terminal growth rates applied are between 0% and 2.5% and are management's estimates of future long-term average growth rates of the relevant markets.

Due to adverse economic conditions, *FiberChoice* experienced a decline in sales volume from 2008 to 2010. Management announced a significant price decrease in the fourth quarter of 2010, effective January 2011, to counter the volume drop and make the brand more competitive. The recoverable amount of the *FiberChoice* brand was estimated, using the GSK value in use methodology, to be lower than its carrying value by \$9,761,000. Consequently these Combined Financial Statements recognise an impairment loss in 2010 of \$9,761,000 which was recorded in the Combined Statements of Revenue and Direct Operating Expenses within amortisation and impairment.

The estimate of value in use was determined using a post-tax discount rate of 7% specific to the US and the impairment loss was allocated entirely to the indefinite life brands. Impairment testing is performed using a post tax discount rate and post tax cash flows as deferred tax balances and a standalone tax rate is not available due to the limited nature of these Combined Financial Statements.

The table below shows the effects on the *FiberChoice* impairment analysis if an alternative discount rate of 6% and 8% had been used, with all other assumptions remaining unchanged.

4. Related party transactions

The Divested Brands enter into a significant number of transactions with GSK and affiliated entities for sale and purchase transactions and other support services.

Cost of sales

GSK entities supply the Divested Brands with inventory. These transactions have been recorded at transfer cost for products sourced from GSK and its affiliates which approximates to the actual manufacturing cost to the Group. Amounts of \$43,893,000, \$42,776,000 and \$41,764,000 are included in cost of sales in the Combined Statements of Revenue and Direct Operating Expenses for these transactions for the years ended 31 December 2011, 2010 and 2009, respectively.

Cost allocation

GSK and affiliated entities provide various services to the Consumer Healthcare business, including the Divested Brands. These services include selling and distribution, marketing, administration, and medical administration. Costs of these services are allocated to the Divested Brands based on the allocation methodology described under Note 2 – Basis of preparation and accounting policies. The total expenses allocated to the Divested Brands for these services were \$24,497,000, \$22,998,000 and \$29,233,000 for the years ended 31 December 2011, 2010 and 2009, respectively and are included in selling, general and administration expenses in Combined Statements of Revenue and Direct Operating Expenses. Although the cost of these services cannot be quantified on a stand-alone basis, management believes that these allocations are reasonable.

The other operating income/(expenses) allocated to the Divested Brands were \$648,000, \$(295,000) and \$(611,000) for the years ended 31 December 2011, 2010 and 2009, respectively and related to items such as bad debt expense and

corporate cost allocation, franchise tax and sundry expenses and income. In the year ended 31 December 2011 there was a release of bad debt provision compared to bad debt expense being recognised in prior years.

The costs incurred by GSK's corporate headquarters for services such as group insurance, legal, finance, human resources and the executive management functions are not allocated to the Divested Brands as they were not historically allocated to individual businesses and are not directly associated with revenue generating operations of the Divested Brands. Refer to Note 2 – Basis of preparation and accounting policies.

Remuneration of key management personnel

The Divested Brands operate as part of the overall Consumer Healthcare business within GSK and were historically not managed on a standalone basis, as a result there are no key management personnel identified for the Divested Brands.

5. Post balance sheet events

These Combined Financial Statements are prepared in expectation of a sale of the Divested Brands in early 2012 as discussed in Note 2—Basis of preparation and accounting policies.

The first agreement completed on 31 January 2012 for all brands excluding *Debrox* and *Gly-Oxide*. The second agreement for *Debrox* and *Gly-Oxide* is expected to complete on or before 1 May 2012.

There were no other subsequent events relevant to these Combined Financial Statements.

6. Commitments and Contingencies

The Divested Brands are involved in various legal matters and product liability claims arising in the ordinary course of business. Although the outcome of these matters cannot be presently determined, in the opinion of management, the disposition of these matters will not have a material adverse effect on the revenues or direct operating expenses of the Divested Brands.
