OBJECTIVES

JF China Region Fund, Inc. (the Fund) seeks to achieve long-term capital appreciation through investments primarily in equity securities of companies with substantial assets in, or revenues derived from, the People's Republic of China (China), Hong Kong, Taiwan and Macau collectively, the China Region.

The Fund provides investors with an opportunity to participate in the growing economies of the China Region where the economies of China, Hong Kong, Taiwan and Macau have become increasingly linked over recent years. Hong Kong enterprises have made substantial investments in China, particularly where labor and land prices are lower than in Hong Kong. Similarly, many Chinese companies have Hong Kong based subsidiaries with securities listed on the Hong Kong Stock Exchange. More recently, 'A' shares which are listed in China have become available for acquisition by institutional investors including the Fund. Many Taiwan enterprises also have operations in China.

The Fund invests to take advantage of the many opportunities that result from this linkage among the markets of the China Region.

MANAGEMENT

Chairman's Statement

June 30, 2007

Dear Fellow Stockholder,

The six months to June 30, 2007 was a volatile period for our investments in the Greater China Region. Nevertheless, I am pleased to report a rise in the Fund's net asset value (NAV) of +18.58%, compared to an increase in the Fund's benchmark, the MSCI Golden Dragon Index (Total), of +13.33%, an outperformance of 5.25 percentage points. Unfortunately, this strong NAV performance was not reflected in the Fund's share price, which suffered along with the rest of the sector from a considerable widening of the discount to 18.9% at the end of the period, and resulted in a fall of 3.73%. Your Board monitors the level of the discount closely. The Fund's NAV outperformance of the benchmark was due in large part to the active investment decisions taken by the investment manager. One such decision, made at the start of the period, was to invest in China A-Shares via a specialist fund; this has proved highly successful and contributed a significant portion of the Fund's portfolio appreciation in the period.

Edgar Filing: JF CHINA REGION FUND INC - Form N-CSRS

The Fund's new administrator and custodian, JPMorgan Worldwide Securities Services, have been in place for six months. The quality of their service is high and I am pleased to report that the transition from their predecessors has been trouble-free and apparently seamless.

The recent volatility experienced in world markets has given investors a chance to decrease their risk exposure. Whilst short-term volatility may persist, asset prices in the China Region are not looking unduly expensive and fundamentals are sound. Overall, we remain of the belief that the momentum in the growth of the Region will continue and that should translate into continuing positive investment returns.

Respectfully submitted,

The Rt. Hon. The Earl of Cromer
Chairman

INVESTMENT MANAGER'S REPORT

Greater China markets had a volatile first six months. After a heavy sell-off in January and February, markets eventually managed to recover some of their losses and ended the first half with a good benchmark return of +13.33%. By comparison, the Fund's net asset value was up +18.58%. The Fund had good stock selection calls in all three markets and our overweight position in China at the expense of Hong Kong also added value.

The high levels of volatility were a result of market concerns about global liquidity and policy tightening. There were also concerns over rising inflation in China and that potential 'overheating' growth could lead to further tightening measures by Beijing. Worries about the US sub-prime mortgage market further dampened sentiment. China's policy tightening since 2006 was mainly triggered by concerns about excess liquidity that led to strong credit and investment growth. Given the strong economic data year to date, there could be further tightening measures but we believe they should remain incremental and accommodative. RMB revaluation and solid earnings growth should continue to attract investor interest in Chinese equities. While domestic A-Shares could still be beneficiaries of strong growth and ample excess liquidity in China, we expect the A-Share market to remain volatile and affected by the government's administrative measures. With the incremental buying from China's domestic investment funds, we believe Chinese equities listed in Hong Kong should be well-supported, especially those of strong earnings growth at a deep discount to their listed peers in the A-share markets.

The Taiwanese stock market was unexciting in the first quarter, due to the weak earnings results of the technology and banking sectors in the previous quarter. However, we have increased our holdings in the technology sector recently as it has lagged the benchmark while first quarter earnings results were better than expected. We expect the upcoming presidential election season to feature more talk about economy-boosting measures, including further improvements in cross-strait relations.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2007 (Unaudited)

1. Organization and Capital

JF China Region Fund, Inc. (the Fund) was incorporated in the State of Maryland on May 22, 1992, and is registered as a non-diversified, closed-end management investment company under the Investment Company Act of 1940. The Fund commenced operations on July 16, 1992.

2. Significant Accounting Policies

The following significant accounting policies, which are in conformity with accounting principles generally accepted in the United States of America (GAAP), are consistently followed by the Fund in the preparation of its financial statements.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reported period. Actual results could differ from these estimates.

i) Security Valuation All securities for which market quotations are readily available are valued at the last sales price prior to the time of determination or, if no sales price is available at that time, at the mean between the last current bid and asked prices. Securities that are traded over-the-counter are valued, if bid and asked quotations are available, at the mean between the current bid and asked prices and positions held in collective investment schemes are valued at the last published net asset value for the investment scheme. All other securities and assets are valued at fair value as determined in good faith by the Board of Directors. In valuing the Fund's assets, quotations of foreign securities in a foreign currency are translated to United States (U.S.) dollar equivalents at the exchange rate in effect on the valuation date.

ii) Foreign Currency Translation The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars at the mid-market price of such currencies against U.S. dollars as follows:

investments, other assets, and liabilities at the prevailing rates of exchange on the valuation date;

investment transactions and investment income at the prevailing rates of exchange on the dates of such transactions.

Although the net assets of the Fund are presented at the foreign exchange rates and market values at the close of the period, the Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of the securities held at period-end. Similarly, the Fund does not isolate the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of securities sold during the period. Accordingly, realized and unrealized foreign currency gains (losses) are included in the reported net realized and unrealized gains (losses) on investments.

Unrealized currency gains (losses) resulting from valuing foreign currency denominated assets and liabilities at period-end exchange rates are reflected as a component of accumulated net unrealized gain (loss) on investments, foreign currency holdings, and other assets and liabilities denominated in foreign currencies.

iii) Distribution of Income and Gains The Fund intends to distribute to stockholders, at least annually, substantially all of its net investment income and expects to distribute annually any net long-term capital gains in excess of net short-term capital losses. An additional distribution may be made to the extent necessary to avoid the payment of a 4% federal excise tax.

Income and capital gain distributions are determined in accordance with federal income tax regulations and may differ from those determined in accordance with GAAP.

iv) Other Security transactions are accounted for on trade date. Realized gains and losses on the sale of investment securities are determined on the identified cost basis. Interest income is recognized on the accrual basis. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

3. Investment Transactions

The investment objective, policies, program, and risk factors of the Fund are described fully in the Fund's Prospectus.

12 JF CHINA REGION FUND, INC. JUNE 30, 2007

During the six months ended June 30, 2007 the Fund made purchases of \$14,820,190, and sales of \$13,562,259 of investment securities other than short-term investments. There were no purchases or sales of U.S. government securities.

4. Related party, Other Service Provider Transactions and Directors

i) JF International Management Inc. (the Adviser), an indirect wholly-owned subsidiary of JPMorgan Chase & Co., provides investment advisory services to the Fund under the terms of an investment advisory agreement. The Adviser is paid a fee, computed weekly and payable monthly, at the annual rate of 1.00% of the Fund's weekly net assets.

ii) During the six months ended June 30, 2007, the Fund did not pay any brokerage commissions to JPMorgan Chase Group companies or affiliated brokers/dealers.

iii) Other Service Providers During the year, J.P. Morgan Investor Services, Co. (JPMIS) (the Administrator), an indirect wholly-owned subsidiary of JPMorgan Chase & Co., provided administrative and accounting services to the Fund under an Administrative and Accounting Services Agreement. The Administrator received a fee, payable monthly, at an annual rate of .03% of the Fund's average weekly net assets, subject to a minimum annual fee of \$106,500.

Edgar Filing: JF CHINA REGION FUND INC - Form N-CSRS

J.P. Morgan Investor Services, Co. (JPMIS), an indirect, wholly-owned subsidiary of JPMorgan Chase & Co., serves as the Fund's Sub-administrator (the Sub-administrator). For its services as Sub-administrator, JPMIS receives a portion of the fees payable to the Administrator.

JPMorgan Chase Bank N.A. (JPMCB) provides portfolio custody and accounting services for the Fund. The amounts paid directly to JPMCB by the Fund for custody and accounting services are included in Custodian and accounting fees in the Statement of Operations. The custodian fees may be reduced by credits earned by the Fund, based on uninvested cash balances held by the custodian. Such earnings credits are presented separately in the Statement of Operations.

iv) Directors The Fund pays each of its Directors who is not a director, officer or employee of the Adviser, Administrator or any affiliate thereof an annual fee of \$21,000 and the Chairman \$30,000 plus \$2,000 attendance fee for each Board meeting, \$3,000 for each Management Engagement Committee meeting and \$3,500 for each Audit Committee meeting attended. In addition, the Fund reimburses all directors for travel and out-of-pocket expenses incurred in connection with Board of Directors meetings. Under normal circumstances, in order to minimize expenses, the Board expects to hold two meetings a year by telephone.

5. Capital Share Transactions

On September 7, 2006, the Board of Directors renewed an authority for the Fund to purchase shares of its common stock from Fund stockholders, as described below. When shares trade at a discount to net asset value, any purchase of shares by the Fund has the effect of increasing the net asset value per share of the Fund's remaining shares outstanding. All shares purchased by the Fund are thereafter considered authorized and unissued.

i) Share Repurchase Program The Fund was authorized to repurchase up to 458,516 shares (10% of its issued and outstanding shares) in the open market through September 5, 2007. Repurchases can be made only when the Fund's shares are trading at less than net asset value and at such times and amounts as it is believed to be in the best interest of the Fund's stockholders.

During the six months ended June 30, 2007 and the year ended December 31, 2006, the Fund did not repurchase any shares under the share repurchase program.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2007 (Unaudited) (continued)

6. Risks and Uncertainties

i) Foreign Transactions Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the level of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

ii) Other In the normal course of business, the Fund may enter into contracts that provide general indemnifications. The maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of any loss from such claims is considered remote.

7. Tax Status

i) U.S. Federal Income Taxes No provision for federal income taxes is required since the Fund intends to continue to qualify as a regulated investment company under subchapter M of the Internal Revenue Code and distribute substantially all of its taxable income.

The tax character of distributions paid for the year ended December 31, 2006 was \$419,175 ordinary income.

At December 31, 2006, the components of net assets (excluding paid-in capital) on a tax basis were as follows:

Tax basis Ordinary Income		\$ 324,053
Tax basis capital loss carryforward	\$ (5,739,705)	

Edgar Filing: JF CHINA REGION FUND INC - Form N-CSRS

Plus/Less: cumulative timing differences wash sales	(429,587)	
Accumulated capital loss		(6,169,292)
Book unrealized foreign exchange gain		0
Book unrealized appreciation on foreign currencies		0
Tax unrealized appreciation	26,048,376	
Plus/Less: cumulative timing differences wash sales	429,587	
Unrealized appreciation		26,477,963
Net assets (excluding paid-in capital)		\$ 20,632,724

The difference between book and tax basis unrealized appreciation is primarily attributable to wash sales. The cumulative timing difference for the capital loss carryover is due to wash sales.

Net Asset Value		\$ 104,623,906
Paid-in Capital		(83,991,182)
Net assets (excluding paid-in capital)		\$ 20,632,724

As of December 31, 2006, the Fund had capital loss carryforwards for federal income tax purposes of \$5,739,705, of which \$2,129,532 expires in 2008, \$3,610,173 expires in 2009. The Fund intends to retain gains realized in future periods that may be offset by available capital loss carryforward.

During the year ended December 31, 2006, the Fund reclassified \$6,725 to undistributed net investment income from accumulated realized loss on investments as a result of permanent book and tax differences relating to realized foreign currency losses. The Fund also reclassified \$26,180 from undistributed net investment income to paid-in capital as a result of nondeductible expenses associated with the deficiency dividend. Net assets were not affected by the reclassifications.

8. Recent Accounting Pronouncements

In July 2006, the Financial Accounting Standards Board (the "FASB") issued Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" (an Interpretation of FASB Statement No. 109) (the "Interpretation"). The Interpretation

14 JF CHINA REGION FUND, INC. JUNE 30, 2007

establishes for all entities, including pass-through entities such as the Fund, a minimum threshold for financial statement recognition of the benefit of positions taken in filing tax returns (including whether an entity is taxable in a particular jurisdiction), and requires certain expanded tax disclosures. The Interpretation is effective for fiscal years beginning after December 15, 2006, and is to be applied to all open tax years as of the date of effectiveness. Based on Management's analysis, the determination has been made that the adoption of the interpretation did not have an impact to the Fund financial statements upon adoption. Management continually reviews the Fund's tax positions and such conclusions under the Interpretation based on factors, including, but not limited to, ongoing analyses of tax laws, regulations and interpretations, thereof.

In addition, in September 2006, Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Management continues to evaluate the impact the adoption of SFAS 157 will have on the Fund's financial statement disclosures.

Furthermore, in February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" including an amendment of FASB Statement No. 115 ("SFAS 159"), which is effective for fiscal years beginning after November 15, 2007. SFAS 159 permits entities to elect to measure certain financial assets and liabilities at fair value. The fair value option may be applied instrument by instrument, is irrevocable and is applied only to entire instruments and not to portions of instruments. SFAS 159

Edgar Filing: JF CHINA REGION FUND INC - Form N-CSRS

also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. Management continues to evaluate the impact the adoption of SFAS 159 will have on the Fund's financial statement disclosures.

DIVIDEND REINVESTMENT AND CASH PURCHASE PLAN

(Unaudited)

The Fund operates an optional Dividend Reinvestment and Cash Purchase Plan (the Plan) whereby:

- shareholders may elect to receive dividend and capital gain distributions in the form of additional shares of the Fund (the Share Distribution Plan).
- shareholders may make optional payments (any amount between \$100 and \$3,000) which will be used to purchase additional shares in the open market (the Share Purchase Plan).

For a copy of the Plan brochure, as well as a dividend reinvestment authorization card, please contact the Plan Agent:

The following should be noted with respect to the Plan:

If you participate in the Share Distribution Plan, whenever the Board of Directors of the Fund declares an income dividend or net capital gain distribution, you will automatically receive your distribution in newly issued shares (cash will be paid in lieu of fractional shares) if the market price of the shares on the date of the distribution is at or above the net asset value of the shares. The number of shares to be issued to you by the Fund will be determined by dividing the amount of the cash distribution to which you are entitled (net of any applicable withholding taxes) by the greater of the net asset value (NAV) per share on such date or 95% of the market price of a share on such date. If the market price of the shares on such a distribution date is below the NAV, the Plan Agent will, as agent for the participants, buy shares on the open market, on the New York Stock Exchange or elsewhere, for the participant's account on, or after, the payment date. There is no service charge for purchases under this Plan.

For U.S. federal income tax purposes, shareholders receiving newly issued shares pursuant to the Share Distribution Plan will be treated as receiving income or capital gains in an amount equal to the fair market value (determined as of the distribution date) of the shares received and will have a cost basis equal to such fair market value. Shareholders receiving a distribution in the form of shares purchased in the open market pursuant to the Plan will be treated as receiving a distribution of the cash distribution that such shareholder would have received had the shareholder not elected to have such distribution reinvested and will have a cost basis in such shares equal to the amount of the distribution.

There will be no brokerage charge to participants for shares issued directly by the Fund under the Plan. Each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases of shares in connection with the Plan. The Fund will pay the fees of the Plan Agent for handling the Plan.

You may terminate your account under the Share Distribution Plan by notifying the Plan Agent in writing. The Plan may be terminated by the Plan Agent or the Fund with notice to you at least 30 days prior to any record date for the payment of any distribution by the Fund. Upon any termination, the Plan Agent will deliver a certificate or certificates for the full shares held for you under the Plan and a cash adjustment for any fractional shares.

You also have the option of instructing the Plan Agent to make semi-annual cash purchases of shares in the open market. There is a service charge of \$1.25 for each purchase under this Share Purchase Plan.
