Mitsui & Co., Ltd.

**Mitsui & Co., Ltd. Acquisition of Interests in WA-28-L and WA-271-P Offshore Western Australia**

Mitsui & Co., Ltd ( Mitsui ) has agreed with Woodside Energy Ltd. ( Woodside ) to acquire a 40% interest each in both the WA-28-L production licence and WA-271-P exploration permit. Woodside held 100% in the licence and permit. A sale and purchase agreement was executed on 31st March between Mitsui's wholly owned subsidiary, Mitsui E&P Australia Pty Ltd and Woodside. The total consideration for the acquisition is US\$464.5 million and the purchase is expected to close by the end of April 2004 with an effective date of 1st January 2004 after the fulfillment of conditions which includes the Australian governmental approvals.

The WA-28-L and WA-271-P are located offshore the north west of Western Australia, covering an area of total 3,261 km<sup>2</sup>. The licence and permit contain various fields, including Enfield, Vincent and Laverda oil discoveries with reserves that are among the largest in Australia. Mitsui anticipates the reserves to be in the order of approximately 300 million barrels.

Woodside announced its final investment decision on Enfield oil development on 19th March 2004 and the development activities are already under way. The development expenditure of the Enfield oil field is budgeted at approximately US \$1 billion with first oil expected in the fourth quarter of 2006, and peak production forecast to be about 100,000 b/d.

By acquiring a 40% interest each in both the WA-28-L and WA-271-P, approximately 120 million barrels of reserves are to be added to Mitsui's reserves and through this acquisition, Mitsui participates in and proceeds with the Enfield oil development along with Woodside.

Mitsui will also participate in the development of Greater Enfield Area reserves including Vincent and Laverda oil discoveries in the future as soon as the development plans are decided and agreed.

Woodside is the largest publicly listed oil and gas exploration and production company in Australia and has wide operational experience in the area including that of the North West Shelf Venture in which Mitsui participates. Woodside also has a very high reputation for its experience, technical expertise, and financial capability. This project will further strengthen the relationship with Woodside that was built upon the trust and cooperation through the North West Shelf Venture.

---

**Table of Contents**

Mitsui is devoted to environmental issues as well as social and economic issues. With Woodside's cooperation, Mitsui will participate in development and exploration in the Greater Enfield Area bearing in mind these important issues.

The oil and gas exploration and production business is the focus of Mitsui's energy resources sector and Mitsui is committed to growth through acquisition of good quality upstream assets. Mitsui consider this acquisition to be a significant addition to the assets in the Australasia region (including also New Zealand) which is one of the most important core areas for Mitsui in this area of business, providing a stable cashflow over the long term.
