LETTER FROM THE BOARD

(b) Basis of Consideration

The consideration is approximately RMB1.01 billion, which has been determined after arm's length negotiations, with reference to and is approximately equivalent to 70% of the appraisal value of China United Oil as at 31 December 2006 of RMB1.44 billion. The above valuation was conducted based on a cost-base method by Beijing China Enterprise Appraisal Co., Ltd, a PRC qualified asset valuer which is independent of the Group.

(c) Other Information

The Company, one of the largest companies in the PRC in terms of sales, is engaged in a broad range of petroleum and natural gas-related activities, including: (i) the exploration, development, production and sale of crude oil and natural gas; (ii) the refining, transportation, storage and marketing of crude oil and petroleum products; (iii) the production and sale of basic petrochemical products, derivative petrochemical products and other chemical products; and (iv) the transmission of natural gas, crude oil and refined products, and the sale of natural gas.

CNPC, a state-owned enterprise incorporated under the laws of the PRC, and the controlling shareholder of the Company, is engaged in crude oil and natural gas exploration and production business activities outside the PRC and limited petrochemical production and retail of refined oil productions.

China United Oil, a company with limited liability incorporated in the PRC, has the following principal businesses: (i) the import, export and sale of crude oil and refined oil; (ii) approved offshore futures business; (iii) sale of petrochemical products; and (iv) sale of natural gas, naphtha, wax oil, fuel oil and mineral products.

The other shareholder of China United Oil is Sinochem, which beneficially owns the remaining 30% equity interests in China United Oil as at the date of the Announcement.

The following financial information was derived from the audited accounts of China United Oil prepared under PRC GAAP.

	Year ended 31 December	
	2005 (RMB\$ 000)	2006 (RMB\$ 000)
Net profit (loss) before taxes	417,691.04	447,391.95
Net profit (loss) after taxes	263,213.16	273,052.37

The net asset value of China United Oil as of 31 December 2006 was approximately RMB1,275 million, based on which, the Group will be able to recognize a gain of RMB117 million.

LETTER FROM THE BOARD

3. REASONS FOR THE DISPOSAL

Although the Company holds 70% of the equity interests in China United Oil, China United Oil is equity accounted for by the Company as the Company does not have unilateral control over China United Oil. The articles of association of China United Oil states that unanimous shareholder approval is required for major corporate actions, including increasing or decreasing its registered share capital, allocation of profits and losses and changing its corporate structure. Furthermore, representatives from the Company and Sinochem must be present for China United Oil to convene any board meeting. As a result, despite holding 70% of the equity interests in China United Oil, the Company has no control over China United Oil. As the Company is unable to unilaterally decide on the strategy and direction of China United Oil, China United Oil could in the future potentially grow and develop along a direction that is inconsistent with the Company's overall strategy.

Furthermore, the Company has gradually been transferring its import and export businesses of crude oil and refined oil to PetroChina International, a wholly-owned subsidiary of the Company incorporated under the laws of PRC in 2002. As the Company is able to exercise total control over PetroChina International, the Company intends to conduct most of its import, export and related international trade businesses through PetroChina International in the future.

The Company intends to use the sale proceeds from the Disposal to further develop the Company's core businesses.

4. RECOMMENDATION

The advice of the Independent Financial Adviser to the Independent Board Committee and the Independent Shareholders on the fairness and reasonableness of the terms of the Disposal are set out from pages 9 to 15 of this circular. The Independent Financial Adviser considers that the terms of the Disposal are fair and reasonable so far as the Shareholders are concerned and are in the interests of the Company and the Shareholders as a whole.

The Board, including the Independent Board Committee, comprising all the independent non-executive directors of the Company, considers the terms of the Disposal fair and reasonable and are in the interests of the Company and the Shareholders as a whole. Accordingly, the Board recommends the Independent Shareholders to vote in favour of the resolution to approve the Disposal to be proposed at the AGM. Your attention is drawn to the letter from the Independent Board Committee set out on page 8 of this circular which contains the recommendation of the Independent Board Committee to the Independent Shareholders concerning the Disposal.

5. INDEPENDENT SHAREHOLDERS' APPROVAL AND VOTING

The Disposal requires the approval of the Independent Shareholders. A resolution will be proposed at the AGM to approve the Disposal. CNPC directly owns approximately 88.21% of the issued share capital of the Company and is the controlling shareholder of the Company. Accordingly, in accordance with the Listing Rules, CNPC will abstain from voting in respect of the ordinary resolution to approve the Disposal at the AGM because of its interest in the Disposal and the votes of the Independent Shareholders at the AGM will be taken by a poll.

The AGM will be held at Crowne Plaza Beijing Park View Wuzhou Hotel, No. 8, North Si Huan Zhong Road, Chaoyang District, Beijing 100101, the PRC at 9 : 00 a.m. on 16 May 2007 to consider and, if deemed appropriate, to approve the Disposal by way of ordinary resolution. The AGM notice is set out in

LETTER FROM THE BOARD

the AGM Circular. Shareholders are advised to read the instructions set out in the AGM Circular and the proxy form. The results of the AGM, including the result on the resolution in respect of the Disposal, will be published by the Company on the next business day following the AGM.

A form of proxy for use at the AGM is enclosed with the AGM Circular. Whether or not you are able to attend the AGM in person, you are requested to complete and return the form of proxy in accordance with the instructions printed thereon to the registered office of the Company at World Tower, 16 Andelu, Dongcheng District, Beijing 100011, People's Republic of China as soon as possible but in any event no later than 24 hours before the time appointed for the holding of AGM. In order to be valid, for holders of H Shares, the above documents must be delivered to Hong Kong Registrars Limited, 46/F Hopewell Centre, 183 Queen's Road East, Hong Kong within the same period. Completion and return of the form of proxy will not preclude you from attending and voting at the meeting should you so desire.

The following is the text of the letter of advice to the Independent Board Committee and the Independent Shareholders from ICEA Capital Limited in relation to the disposal of 70% equity interest in China United Oil by the Company for the purpose of incorporation in this circular.

30 March 2007

To the Independent Board Committee and the Independent Shareholders
Dear Sirs,

CONNECTED TRANSACTION
DISPOSAL OF 70% EQUITY INTEREST IN CHINA UNITED OIL

On 18 March 2007, the Company entered into the Equity Transfer Agreement with CNPC to dispose, subject to certain condition precedent, its entire equity interest in China United Oil, representing 70% of the registered capital of China United Oil, to CNPC. As CNPC is the promoter and substantial shareholder of the Company, it is a connected person of the Company, and accordingly the Disposal constitutes a connected transaction of the Company under the Listing Rules.

CNPC and its associates (as defined under the Listing Rules) will be required to abstain from voting in respect of the resolution of the Disposal at the AGM.

studied the relevant market and other conditions and trends relevant to the Disposal. We have also assumed that statements and representations made or referred to in the Circular were accurate at the time they were made and continue to be accurate at the date of the Circular.

We consider that we have reviewed sufficient information to reach an informed view in order to provide a reasonable basis for our advice. We have not, however, carried out any independent verification of the information provided to us nor have we conducted any form of independent in-depth investigation into the business affairs or assets and liabilities of the Company, CNPC, China United Oil or any of their respective subsidiaries or associated companies. Additionally, we did not conduct any physical inspection of the properties or facilities of the Company, CNPC, China United Oil or any of their respective subsidiaries or associated companies. It is not within our terms of engagement to comment on the commercial feasibility of the Disposal, which remains the responsibility of the Directors. As the independent financial adviser to the Independent Board Committee and the Independent Shareholders, we have not been involved in the negotiations in respect of the terms of the Equity Transfer Agreement. Our opinion has been made on the assumption that all obligations to be performed by each of the parties to the Disposal will be fully performed in accordance with the terms thereof.

Our opinion is based upon the financial, economic, market, regulatory, and other conditions as they exist on, and the facts, information, and opinions made available to us as of the date of this letter. We have no obligation to update this opinion to take into account events occurring after the date that this opinion is delivered to the Independent Board Committee and the Independent Shareholders. PRINCIPAL FACTORS AND REASONS CONSIDERED

In arriving at our opinion, we have taken into consideration the principal factors and reasons set out below. In reaching our conclusion, we have considered the results of the analysis in light of each other and ultimately reached our opinion based on the results of all analysis taken as a whole.

Background information

China United Oil is a company with limited liability incorporated in the PRC and is owned as to 70% by the Company and as to the remaining 30% by Sinochem as at the Latest Practicable Date. Principal business of China United Oil include (i) the import, export and sale of crude oil and refined oil; (ii) approved offshore futures business; (iii) sale of petrochemical products; and (iv) sale of natural gas, naphtha, wax oil, fuel oil and mineral products.

Set out below is certain financial information derived from the audited accounts of China United Oil for the years ended 31 December 2005 and 2006 prepared under the generally accepted accounting principles in the PRC (PRC GAAP).

Following the Disposal, the Company will cease to hold any equity interest in China United Oil. The shareholding structures of China United Oil before and after the Disposal are set out as below.

Before the Disposal**After the Disposal**

Reasons for the Disposal

As explained in the letter from the Board, although the Company holds 70% of the equity interest in China United Oil, China United Oil is equity accounted for by the Company as the Company does not have unilateral control over China United Oil. The articles of association of China United Oil states that unanimous shareholder approval is required for major corporate actions, including increasing or decreasing its registered share capital, allocation of profits and losses and changing its corporate structure. Furthermore, representatives from the Company and Sinochem must be present for China United Oil to convene any board meeting. As a result, despite holding 70% of the equity interest in China United Oil, the Company has no control over China United Oil. Without the Company's unilaterally actual control on the strategy and direction of China United Oil, China United Oil could grow and develop along a direction that is inconsistent with the Company's overall strategy in the future.

Furthermore, the Company intends to conduct most of its import, export and related international trade businesses through, and has gradually been transferring its import and export businesses of crude oil and refined oil, to Petrochina International, a wholly-owned subsidiary of the Company which the Company has absolute control.

As such, we consider that the Company is able to continuously conduct without interruption its import, export and related international trade businesses through Petrochina International after the Disposal.

Consideration of the Disposal

1. Basis of the Consideration of the Disposal

The consideration is approximately RMB1.01 billion, which has been determined after arm's length negotiation, with reference to and is approximately equivalent to 70% of the appraisal value of China United Oil as at 31 December 2006 of RMB1.44 billion. The above valuation was conducted based on a cost-base method by Beijing China Enterprise Appraisal Co. Ltd, a PRC qualified asset valuer which is independent of the Group.

2. Comparison

We have analyzed by reviewing the financial ratios of (i) listed companies on the Stock Exchange with business comparable to that of China United Oil (the Comparable Companies); and (ii) the recent completed transactions involving the mergers and acquisitions of companies or assets engaged in the provision of the services of importing and exporting of crude oil and refined oil, transporting crude oil, refined products and other petrochemicals, construction and operation of oil refining, petrochemicals, storing facilities and gas stations in the PRC (the Comparable Transactions).

(i) Comparable company analysis

In selecting the Comparable Companies, we have taken into account their business activities, market exposure and sizes, and have identified two oil companies with oil trading and distribution operations as their primary businesses and with similar business sizes and two multi-business companies with oil trading and distribution operations as part of their operations and with similar market exposure.

We set out below the relevant ratio for the Comparable Companies based on their respective share prices as at the Latest Practicable Date and their latest published audited financial statements.

Company name	Stock code	Price earning ratio (Note 1) times	NAV ratio (Note 2) times	Gearing ratio (Note 3)	Net profit margin
China Petroleum & Chemical Corporation	386	13.2	2.3	52.9%	5.3%
Petrochina Company Limited	857	10.5	2.5	29.2%	21.7%
Sinopec Kantons Holdings Limited	934	12.2	1.0	25.3%	1.5%
Titan Petrochemicals Group Limited	1192	10.1	1.6	75.2%	2.9%
Average		11.5	1.9	45.7%	7.8%
China United Oil (Note 4)		7.5	1.1	92.2%	0.5%

Source: Bloomberg and respective annual reports of the Comparable Companies

Notes:

- (1) Price earning ratios are calculated based on their respective closing prices of shares of the Comparable Companies as quoted on the Stock Exchange on the Latest Practicable Date and the net profits excluding extraordinary items as set out in their respective latest published financial statements available on the Latest

Practicable Date.

Table of Contents

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (2) Net asset value (NAV) ratios are calculated based on their respective closing prices of shares of the Comparable Companies as quoted on the Stock Exchange on the Latest Practicable Date and the net asset values as set out in their respective latest published financial statements available on the Latest Practicable Date.
- (3) Gearing ratios are calculated based on the total debt and total asset as set out in their respective latest published financial statements available on the Latest Practicable Date.
- (4) The price earning ratio and the NAV ratio of China United Oil are calculated with reference to (i) the consideration of the Disposal of approximately RMB1.01 billion; (ii) the Company's investment earning from China United Oil of approximately RMB135.2 million for the year ended 31 December 2006; and (iii) the net asset value of China United Oil attributable to the Company of approximately RMB892.5 million as at 31 December 2006. The gearing ratio and the net profit margin of China United Oil are calculated based on its audited accounts for the year ended 31 December 2006 prepared under PRC GAAP.

We noted that both the price earning ratio and the NAV ratio for China United Oil were lower than the average of that for the Comparable companies. The price earning ratio of China United Oil even fell below the range of that for the Comparable Companies. Meanwhile, we also noted that the gearing ratio of China United Oil as at 31 December 2006 was more than two times of the average of that of the Comparable Companies, and its net profit margin for the year ended 31 December 2006 was far below than the average of that of the Comparable Companies.

Given that (i) the high financial leverage and the low profit margin of China United Oil as compared to that of the Comparable Companies; and (ii) China United Oil is an unlisted company, and hence with liquidity issue for equity transfers, we consider that the consideration of the Disposal with discounted price earning ratio and NAV ratio as compared to the Comparable Companies is fair and reasonable so far as the Independent Shareholders are concerned.

(ii) Comparable transaction analysis

We have also reviewed certain completed merger and acquisition transactions of businesses involved in oil trading in the PRC in recent years. Set out below are the Comparable Transactions involving oil trading and distribution business in the PRC market as similar transactions.

Date of transaction	Company name (Stock Code)	Transaction	Price earning ratio times	NAV ratio times
November 2004	Titan Petrochemical Group Limited (1192)	Acquisition of Oil trading business of Titan Oil Pte. Ltd.	10.8	N/A
January 2006	Sinopec Shanghai Petrochemical Company Limited (338)	Disposal of 81.79% of equity interest in Shanghai Jin Hua Industrial Company Limited	7.2	1.1
July 2006	Sinopec Kantons Holdings Limited (934)	Acquisition of 30% of equity interest in Hua De Petrochemical Co. Ltd	12.9	1.3

Average	10.3	1.2
The Disposal	7.5	1.1

Source: The respective circulars/announcement regarding the transactions

Table of Contents

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

As illustrated in the above table, the price earning ratios of the Comparable Transactions ranged from approximately 7.2 times to 12.9 times with an average of approximately 10.3 times, while their NAV ratios ranged from approximately 1.1 times to 1.3 times with an average of approximately 1.2 times. We noted that both price earning ratio and NAV ratio of the Disposal fell within the range, and were slightly lower than the average, of that for the Comparable Transactions. As such, we consider that the premium of the consideration of the Disposal to the net asset value of the Company's 70% equity interest in China United Oil as at 31 December 2006 is fair and reasonable so far as the Independent Shareholders are concerned.

- (iv) the representations, warranties and undertakings given by the parties in relation to the Disposal being true, accurate, complete and valid as at the date of completion of the transaction.

Completion

Impact to the Company following the Disposal

Financial impact

Since the Company has no actual control over the management of China United Oil, the financial result of China United Oil is not consolidated into the financial statements of the Company since the listing of the Company. Based on the audited financial data provided by the Company, for the two years ended 31 December 2005 and 2006, China United Oil contributed approximately RMB129.84 million and RMB135.22 million to the Company respectively, representing approximately 0.09% and 0.09% of the audited profit for the year of the Company respectively.

The management of the Company explained that the cash consideration to be paid by CNCP of approximately RMB1.01 billion will be used to further develop the Company's core business.

Operational impact

As mentioned in the Circular, the Company has gradually been transferring its import and export businesses of crude oil and refined oil to Petrochina International, a wholly-owned subsidiary of the Company. As such, we consider that the Company is able to continuously conduct without interruption its import, export and related international trade businesses through Petrochina International after the Disposal.
