### 2. Analysis of Consolidated Results

#### 2.1 Income from Lending and Trading activities

Credit and Leasing Operations totaled R\$ 7,472 million, an increase of 64.5% as compared to 2Q02, mainly derived from exchange variation of 36.93% for 3Q02 on a portion of the portfolio as compared with 22.41% in 2Q02.

Securities and Financial Derivative Instruments amounted to R\$ 5,505 million, a 109.6% growth rate in relation to 2Q02, mainly derived from the increase in exchange variation.

Income from Foreign Exchange Transactions amounted to R\$ 2,744 million, exceeding by 114.9% results for 2Q02, mainly as a result of exchange variance for the quarter. This account should be analyzed less of expenses for foreign funding used to finance import/export operations.

#### 2.2 Expenses for Lending and Trading Activities

Deposits received under security repurchase agreements totaled R\$ 6,050 million, an increase of 76.4% compared to 2Q02, mainly as a result of (i) increase in the volume of funding, partially generated by migration of resources from managed funds; and (ii) exchange variation increases for the quarter which particularly affected securities issued abroad.

Borrowings and Onlendings attained R\$ 5,409 million, an increase of 136.3% compared to 2Q02, mainly as a result of the increase in exchange variation for the quarter which impacted expenses for foreign loans.

Allowance for Loan Losses totaled R\$ 896 million, a 26.0% increase in comparison with 2Q02. Discounting the effect of the additional provision of R\$ 48 million in 2Q02 and of R\$ 135 million in 3Q02, the increase of R\$ 96 million was generated by an increase in customer defaults as a result of the economic slowdown.

#### 2.3 Other Operating Income and Expenses

## Edgar Filing: BANK BRADESCO - Form 6-K

Commissions and Fees totaled R\$ 935 million in 3Q02, an increase of 1.0% compared to 2Q02. This variation for the quarter reflects the increase in: (i) income on credit cards of R\$ 14 million; (ii) credit operations of R\$ 13 million; (iii) income on collections of R\$ 7 million; and at the same time a decrease in (iv) income on fund management of R\$ 25.

Insurance Premiums, Private Pension Plans and Savings Bonds totaled R\$ 2,679 million in 3Q02, an increase of 18.4% compared to 2Q02, mainly derived from: (i) the improved performance of insurance and private pension plan products, especially VGBL, introduced in March 2002; and (ii) the improved performance of the Auto and Elementary Line portfolio.

Variations in Technical Reserves for Insurance, Pension Plans and Savings Bonds totaled R\$ 1,393 million in 3Q02, an increase of 120.1% as compared to 2Q02, mainly as a result of: (i) growth in income on insurance and private pension plan products, such as VGBL; and (ii) appropriation of interest and price-level restatement of provisions relating to private pension plans and savings bonds.

Insurance claims totaled R\$ 920 million, a 2.6% growth rate compared to 2Q02, mainly as a result of increased insurance sales, even though the ratio of claims/premiums decreased in comparison with the prior quarter.

Personnel Expenses for the quarter increased by 15.0% to R\$ 1,109 million, when compared to 2Q02, mainly due to: (i) the adjustment of R 58 million resulting from the collective labor agreement signed with the bank employees' trade union; and (ii) the one-off bonus of approximately R\$ 75 million paid in September 2002.

Administrative Expenses for the quarter increased by 5.1% to R\$ 1,063 million, when compared to 2Q02 mainly as a result of the increase in expenses for: (i) Publicity and Advertising - R\$15 million; (ii) Communications - R\$13 million; and (iii) Third-party services - R\$11 million for the quarter.

### 2.4 Taxes and Contributions
