We will furnish, upon written request of any stockholder and the payment of an appropriate processing fee, copies of any exhibits that are missing from our Annual Report on Form 10-K. Please address all such requests to Franklin Street Properties Corp., 401 Edgewater Place, Suite 200, Wakefield, Massachusetts 01880, Attn: Barbara J. Fournier, Secretary.

Quorum Requirement

At the close of business on March 10, 2009, the record date for the determination of stockholders entitled to notice of and to vote at the Annual Meeting, there were outstanding and entitled to vote an aggregate of 70,480,705 shares of common stock of the Company, which we refer to as Common Stock, constituting all of the outstanding voting stock of the Company. Holders of Common Stock are entitled to one vote per share.

The holders of a majority of the number of shares of Common Stock issued, outstanding and entitled to vote at the Annual Meeting will constitute a quorum for the transaction of business at the Annual Meeting. Shares of Common Stock represented in person or by proxy (including shares that abstain or otherwise do not vote with respect to one or more of the matters presented for stockholder approval) will be counted for purposes of determining whether a quorum is present at the Annual Meeting.

Votes Required

The affirmative vote of the holders of a plurality of all the votes cast by the holders of Common Stock is required for the election of Directors.

Shares that abstain from voting as to a particular matter, and shares held in “street name” by a broker or nominee that indicates on a proxy that it does not have or did not exercise discretionary authority to vote as to a particular matter, will not be voted in favor of such matter, and also will not be counted as shares voting on such matter. Abstentions and “broker non-votes” will have no effect on the voting on a matter that requires the affirmative vote of a plurality of the votes cast on that matter.

Voting Shares

For the 2009 Annual Meeting, we are using the “notice and access” process permitted by the Securities and Exchange Commission to distribute proxy materials to our stockholders. This process allows us to post proxy materials on a designated website and notify stockholders of the availability of such proxy materials on that website by distributing a notice of Internet availability of proxy materials, or E-Proxy Notice, rather than mailing hard copies of all of these materials. We expect this process to lower the cost of the Annual Meeting, expedite receipt of the meeting materials and preserve natural resources.

The E-Proxy Notice also includes instructions for how to request a paper copy of our proxy materials or an electronic copy by e-mail. Your request to receive proxy materials in paper form by mail or electronically by e-mail will remain in effect for future meetings until you revoke it.

If your shares are registered directly in your name with our transfer agent, American Stock Transfer and Trust Company, you are considered the stockholder of record with respect to those shares, and an E-Proxy Notice is being sent directly to you. As a stockholder of record, you may vote in person at the Annual Meeting or vote by proxy. Whether or not you plan to attend the Annual Meeting, we urge you to vote by telephone, electronically via the Internet, or, if you request a paper copy of the proxy materials, by completing, signing, dating and returning the proxy card provided. You may revoke your proxy before it is exercised at the Annual Meeting by delivery of written revocation or a subsequently dated proxy to the Secretary of the Company, by voting again by Internet or by phone, or by voting in person at the Annual Meeting. Attendance at the Annual Meeting will not, by itself, revoke a proxy.

If your shares are held in “street name” by a broker or nominee, you are considered the beneficial owner of such shares and a form of E-Proxy Notice is being forwarded to you by the broker or nominee who is considered the stockholder of record with respect to those shares. As a beneficial owner of the shares, you have the right to direct your broker or nominee on how to vote the shares held in your account. You may provide this direction by the Internet by following the instructions on the E-Proxy Notice you receive. If you request a paper copy of the proxy materials, your broker or nominee will enclose or provide voting instructions for you to vote your shares. Although you have the right to direct the way your shares are voted, the organization that holds your shares is considered the stockholder of record for purposes of voting at the Annual Meeting. Accordingly, because you are not the stockholder of record, you may not vote your shares in person at the Annual Meeting unless you request and obtain a valid proxy from your broker or nominee giving you the right to vote the shares at the Annual Meeting. If your shares are held of record by a broker or nominee and you wish to change your voting instructions, you must contact your broker or nominee to revoke any prior voting instructions.

Beneficial Ownership of Voting Stock

The following table sets forth the beneficial ownership of our Common Stock as of March 10, 2009 by each Director or nominee for Director, by each of the executive officers named in the Summary Compensation Table set forth below, whom we refer to as the Named Executive Officers, by each person or entity known by us to own beneficially more than 5% of our Common Stock, and by all current Directors and executive officers as a group.

Board and Committee Meetings

Our Board of Directors held six meetings during 2008 in person or via teleconference, and acted on six occasions by unanimous written consent. All of the Directors attended all of the meetings of the Board of Directors, and each of the Directors attended all of the meetings held by all committees of the Board on which he or she served. The Board has an informal policy that all Directors are expected to attend the Annual Meeting of Stockholders. All Directors attended the 2008 Annual Meeting of Stockholders in person.

In November 2004, we applied to have our Common Stock listed on the American Stock Exchange; the application was approved in early 2005, and our Common Stock began trading on the American Stock Exchange on June 2, 2005. The American Stock Exchange was acquired by NYSE Euronext on October 1, 2008 and its name was changed to NYSE Amex (“NYSE Amex”). Under NYSE Amex rules, a Director of the Company will only qualify as “independent” if the Company’s Board of Directors affirmatively determines that the Director does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a Director. Our Board of Directors has determined that none of Messrs. Burke, McGillicuddy, or Silverstein or Ms. Murray has a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a Director and that each of these Directors is “independent” as defined in Section 803A of the NYSE Amex Company Guide.

Audit Committee

We have a standing Audit Committee of the Board of Directors. The Audit Committee is responsible for, among other things, reviewing financial reports, accounting procedures and the scope and results of the annual audit of our financial statements, overseeing the qualifications and independence of our independent auditors and reviewing and approving our policies and procedures for reviewing and approving or ratifying related person transactions. The current members of the Audit Committee are Mr. Burke, who is the Chair of the Committee, Mr. McGillicuddy, Mr. Silverstein and Ms. Murray. The Audit Committee acts under a written charter that is available on our website at www.franklinstreetproperties.com.

Our Board of Directors has determined that all of the members of the Audit Committee are “independent” as defined in Section 803A of the NYSE Amex Company Guide. The Board of Directors has also determined that Mr. Burke, the Chair of the Audit Committee, is qualified as an “audit committee financial expert” as the term is defined in Item 407(d)(5) of Regulation S-K, promulgated by the Securities and Exchange Commission. In addition, the Audit Committee members satisfy the additional independence requirements set forth in Section 803B of the NYSE Amex Company Guide. The members of the Audit Committee held five meetings in 2008 in person or via teleconference.

Compensation Committee

We have a standing Compensation Committee of the Board of Directors. The Compensation Committee is responsible for reviewing compensation issues and making decisions concerning the compensation of our executive officers. The current members of the Compensation Committee are Ms. Murray, who is the Chair of the Committee, and Messrs. Burke, McGillicuddy and Silverstein. The Board of Directors has determined that all of the members of the Compensation Committee are “independent” as defined in Section 803A of the NYSE Amex Company Guide. The members of the Compensation Committee met two times in 2008 in person or via teleconference and acted on one occasion by unanimous written consent. The Compensation Committee acts under a written charter that is available on our website at www.franklinstreetproperties.com.

The Compensation Committee is authorized to form and delegate its authority to one or more subcommittees as it deems appropriate from time to time under the circumstances. As of March 10, 2009, the Compensation Committee had not formed any subcommittees. In addition, the Compensation Committee has the authority to retain and terminate any compensation consultant to be used to assist in the evaluation of executive officer compensation. The Compensation Committee has the authority to approve the consultant's fees and other retention terms and pay the compensation without further action by the Board, which the Compensation Committee has not done. The Compensation Committee also has authority to commission compensation surveys or studies as the need arises.

The Compensation Committee annually reviews and approves the subjective factors, including corporate goals and objectives, relevant to the compensation of our Chief Executive Officer, evaluates the Chief Executive Officer's performance in light of those the subjective factors and either determines and approves or recommends to the Board of Directors for approval, the Chief Executive Officer's compensation based on this evaluation. The Chief Executive Officer is not permitted to be present during any such deliberations or voting. In addition, based upon the recommendations of the Chief Executive Officer, the Compensation Committee annually oversees the evaluation of our other executive officers and annually reviews and approves or makes recommendations to the Board of Directors regarding their compensation. The Compensation Committee is also responsible for Director compensation, periodically reviewing and making recommendations to the Board of Directors with respect to incentive compensation and equity-based plans and the administration of any such incentive compensation and equity-based plans.

Director Candidates

We do not have a standing nominating committee. Instead, Director nominations are recommended for the Board's selection by a majority of our independent Directors in accordance with Section 804(a) of the NYSE Amex Company Guide. Once recommended, each member of the Board participates in the consideration of Director nominees. The Board of Directors has determined that it is appropriate for us not to have a nominating committee because all of the matters which a nominating committee would be responsible for are presently considered by all the members of the Board or, when appropriate, the independent Directors only. Mr. Carter, Ms. Fournier and Ms. Notopoulos would not be deemed to be "independent" under the listing standards of the NYSE Amex.

The process followed by the Board to identify and evaluate Director candidates includes requests to Board members and others for recommendations, meetings from time to time to evaluate biographical information and background material relating to potential candidates and interviews of selected candidates by members of the Board.

In considering whether to nominate any particular candidate who has been recommended by a majority of our independent Directors, the Board of Directors applies various criteria, including the candidate's integrity, business acumen, knowledge of our business and industry, age, experience, diligence, the ability to act in the interests of all stockholders and any potential conflicts of interest. The Board does not assign specific weight to particular criteria, and no particular criterion is a prerequisite for each prospective nominee. The Board believes that the backgrounds and qualifications of its Directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow the Board to fulfill its responsibilities.

Stockholders may recommend individuals to the Board for consideration as potential Director candidates by submitting their names, together with appropriate biographical information and background materials to our principal office, Attn: Barbara J. Fournier, Secretary. Assuming that appropriate biographical and background material has been provided on a timely basis, the Board will evaluate stockholder-recommended candidates by following substantially the same process, and applying substantially the same criteria, as it follows for candidates submitted by others. If the Board determines to nominate a stockholder-recommended candidate and recommends his or her election, then his or her name will be included in our proxy card for the next annual meeting.

Stockholders also have the right under our bylaws to directly nominate Director candidates, without any action or recommendation on the part of the Board, by following the procedures set forth below under “Stockholder Proposals.” Candidates nominated by stockholders in accordance with the procedures set forth in the bylaws would be presented as a nominee at the next annual meeting of stockholders but will not be included in our proxy card for the next annual meeting.

Communicating with the Board of Directors

The Board will give appropriate attention to written communications that are submitted by stockholders and will respond if and as appropriate. The Secretary of the Company is primarily responsible for monitoring communications from stockholders and for providing copies or summaries to the other Directors as he or she considers appropriate.

Communications are forwarded to all Directors if they relate to important substantive matters and include suggestions or comments that the Secretary considers to be important for the Directors to know. In general, communications relating to corporate governance and long-term corporate strategy are more likely to be forwarded than communications relating to ordinary business affairs, personal grievances and matters as to which the Company tends to receive repetitive or duplicative communications.

Stockholders who wish to send communications on any topic to the Board should address such communications to Board of Directors, Franklin Street Properties Corp., 401 Edgewater Place, Suite 200, Wakefield, Massachusetts 01880, Attn: Barbara J. Fournier, Secretary.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview

As an investment firm that specializes in real estate, it is critical that we be able to attract, motivate and retain highly talented individuals at all levels of the organization. We believe that compensation levels should be adequately competitive to attract and retain experienced and capable leaders and motivate those individuals to achieve exceptional results and reward them for being instrumental in reaching our strategic goals. At the same time, we believe in simplicity and maintaining compensation at responsible levels. For 2008, the compensation of executives consisted of the same five components as were provided to all of our employees: (1) base salary (or brokerage commissions in the case of employees who are investment executives as further described below); (2) the potential for a cash bonus (except in the case of investment executives and their sales assistants and administrative staff); (3) the potential for an award of Common Stock under our stock incentive plan; (4) matching for individual 401(k) plan contributions; and (5) the potential for a payment or payments under our change-in-control program. We do not offer stock options, restricted stock awards, deferred compensation, non-equity incentive plan compensation or perquisites. In addition, none of our employees have employment agreements and we do not require any of our employees to own our Common Stock.

Our executive officers fall into two categories. The first category comprises executive officers who make up the corporate management team. Our corporate management team consists of our Chief Executive Officer, our Chief Operating Officer, our Chief Financial Officer, our General Counsel (effective February 2008) and the president of FSP Property Management LLC. The second category comprises executive officers who are investment executives. Our investment executives are engaged in the private placement of equity in single-purpose entities, which we refer to as Sponsored REITs, that we organize to own real estate. The Sponsored REITs are operated in a manner intended to qualify as real estate investment trusts. The compensation of our investment executives consists primarily of brokerage commissions.

The objectives of our compensation programs

Our Compensation Committee bases its executive compensation programs on the same core objectives that guide us in establishing all of our compensation programs:

Compensation should promote the achievement of our business goals and maximize corporate performance and shareholder returns.

Compensation should be based on the principles of competitive and fair compensation and sustained performance.

Compensation should be based on the level of job responsibility, individual performance and FSP performance. As employees advance to higher levels within the organization, an increasing proportion of their compensation should be linked to FSP's performance and enhancing shareholder value.

Compensation should reflect the value of the job in the marketplace. Compensation should be competitive with other employers that compete with us for talent so that we continue to be able to attract and retain highly talented employees.

Compensation should reward performance. Our compensation programs should deliver competitive compensation for excellent individual and FSP performance. Similarly, our compensation programs should deliver less compensation, including the possibility of no cash bonus, in the event that individual and/or FSP performance fall short of expectations.

Compensation should be equitable. We strive to achieve equitable distributions both for compensation of individual officers and between officers and other employees throughout the organization.

Compensation and benefit programs should be designed to attract, motivate and retain highly talented employees who are interested in building a career with us.

What the compensation programs are designed to reward and how FSP determines the amount (and, where applicable, the formula) for each element to pay

With respect to executive officers who make up the corporate management team, decisions regarding compensation are based on various subjective performance criteria, including corporate and individual performance.

Our Compensation Committee has established a number of processes to assist it in ensuring that our executive compensation program achieves its objectives. Among those are:

Consideration of various measures of corporate performance, including reviewing the extent to which strategic and business plan goals are met, levels of property acquisitions, performance of properties in FSP's portfolio, gains or losses on property dispositions, levels of equity sales and earnings, funds from operations, or FFO, dividends and maintaining shareholder value. Our Compensation Committee does not apply a formula or assign these performance measures relative weights. Instead, it makes a subjective determination after considering such measures collectively.

Consideration of individual performance. The members of the Compensation Committee meet with the Chief Executive Officer annually at the beginning of the year to discuss both individual and Company priorities for the current year. At that same meeting, the members of the Compensation Committee meet to conduct a review of the Chief Executive Officer's performance over the past year based on various subjective performance criteria, including his contributions to individual and Company priorities, his contribution to Company performance, the degree to which teamwork and Company values are fostered and other leadership accomplishments. This evaluation is shared with the Chief Executive Officer and is considered by the Compensation Committee in establishing the Chief Executive Officer's compensation. With respect to the other Named Executive Officers, the members of the Compensation Committee receive a performance assessment and compensation recommendation from the Chief Executive Officer. In establishing the compensation for each of the other Named Executive Officers, the Compensation Committee is not required to give specific weight to any particular criteria or performance metric. The Compensation Committee considers the performance assessment and compensation recommendation from the Chief Executive Officer and also exercises its own judgment based on various subjective performance criteria, including contributions to Company performance, the degree to which teamwork and Company values were fostered and other leadership accomplishments.

Comparison of our executive compensation programs as a whole and also a comparison of total executive compensation for each individual with the compensation practices of other companies in the real estate industry. Historically, the Compensation Committee has used the NAREIT Annual Compensation Survey for comparison purposes. To ensure that total compensation is competitive, the Compensation Committee uses the results of the comparison to establish general compensation guidelines. Our Compensation Committee does not apply a formula or assign the survey data relative weight. Instead, it makes a subjective determination for that individual after considering such results collectively.

As mentioned above, the compensation of our executive officers who are investment executives consists primarily of brokerage commissions. As is standard practice in the investment industry, investment executives earn as commission a percentage of payout of the gross sales commission earned on each investment sale. The actual amount of compensation earned as commissions is determined by the level of sales conducted by the individual investment executive. An investment executive's ability to earn commissions is limited only by the amount of equity available to be sold and his or her individual ability to sell it. As a result, the Compensation Committee does not set the level of compensation for executive officers who are investment executives. The Compensation Committee does determine the percentage of payout that is paid to the investment executives. In order to ensure that the percentage of payout that is paid to the investment executives is competitive, the Compensation Committee periodically compares its commission practices with the commission practices of other companies in the investment industry and sets its percentage of payout based on this review. The Compensation Committee believes that the percentage of payout is competitive within the investment industry.

Each element of compensation and why FSP chooses to pay each element

(a) Base Salary or Brokerage Commissions

Executive officers who make up the corporate management team are paid a base salary. We believe that a competitive base salary provides an important guaranteed element to compensation. We also believe that the payment of a competitive base salary is consistent with the compensation practices of other comparable companies.

Executive officers who are investment executives are not paid a base salary. Instead, they are paid brokerage commissions. As is standard practice in the investment industry, investment executives earn as commission a percentage of payout of the gross sales commission earned on each investment sale. An investment executive's ability to earn commissions is limited only by the amount of equity available to be sold and his or her individual ability to sell it. We believe that this commission structure provides a necessary monetary incentive that encourages increased sales. We also believe that the payment of brokerage commissions is consistent with the compensation practices of other comparable companies.

(b) Cash Bonus

Executive officers who make up the corporate management team are eligible for a cash bonus based on various subjective performance criteria, including corporate and individual performance. The payment of a cash bonus is purely discretionary based upon overall performance and in some years there could be no cash bonus payments. We believe that the opportunity to earn a competitive cash bonus provides a monetary incentive that encourages both Company and individual performance. We also believe that the payment of a competitive cash bonus is consistent with the compensation practices of other comparable companies. Executive officers who are investment executives, together with their sales assistants and administrative staff, are generally not eligible for a cash bonus.

(c) Award of Common Stock

Executive officers are eligible for awards of Common Stock under our 2002 stock incentive plan. On May 20, 2002, our stockholders approved the 2002 stock incentive plan, which had been previously adopted by our board on February 8, 2002. The 2002 stock incentive plan permits the board to award up to 2,000,000 shares of our Common Stock to eligible participants. Prior to our listing on the American Stock Exchange (now the NYSE Amex) in June 2005, our employees were not able to purchase our Common Stock. We determined that it was necessary and appropriate to be able to compensate our employees with stock as a means of attracting, retaining and motivating key personnel and to align the interests of management and all personnel with those of our shareholders. All of our employees, officers and Directors are eligible to participate in the plan. As of March 10, 2009, 1,944,428 shares of our Common Stock were available under the plan. There have been no awards of Common Stock under the 2002 stock incentive plan since we listed our Common Stock on the American Stock Exchange (now the NYSE Amex) in June 2005, as employees are now able to purchase Common Stock in the open market. In the future, however, we may award stock under the plan in order to attract, retain, or motivate our executives.

(d) 401(k) Matching

Executive officers are eligible to participate in our 401(k) plan. We offer all employees a 401(k) plan that, in 2008, allowed for salary deferrals of up to \$15,500 per year (indexed for inflation). We matched up to 3% of an employee's compensation (up to a compensation cap of \$200,000) for plan year 2008 and will match up to 3% of employee compensation (up to a compensation cap of \$200,000) for plan year 2009. Employees make their 401(k) contributions through payroll deductions with pretax dollars. All employees are eligible to participate in the plan after one year of service and completion of 1,000 hours of service. The plan allows for quarterly enrollment. The employee's elective deferrals are immediately vested upon contribution to the 401(k) plan, and the employee has sole decision making authority as to the investment of funds. We believe that our 401(k) plan provides a vehicle for our employees to plan for their long-term security and that such a plan ultimately leads to improved job performance. We also believe that our 401(k) plan is consistent with the compensation practices of other comparable companies.

(e) Change-in-Control Program

Except in the case of a change-in-control of FSP, we are not obligated to pay severance or other enhanced benefits to named executive officers upon termination of their employment.

In February 2006, we adopted a change-in-control program for all our employees, including our executive officers. The program was adopted in response to merger and consolidation activity within the real estate/real estate investment trust industry and is intended to preserve employee morale and productivity and encourage retention in the event of an actual or rumored change-in-control of FSP. The program is also intended to align employee and shareholder interests by enabling employees to consider corporate transactions that are in the best interests of the shareholders and other constituents of FSP without undue concern over whether the transaction or transactions may jeopardize the employee's own employment.

Although there are some differences in payment amounts depending on the employee's job level, the basic elements of the program are comparable for all employees:

- The program consists of two components: a fixed payment pursuant to a retention agreement between the employee and FSP and the potential for an additional discretionary payment pursuant to a discretionary plan.
- The triggering event for both components is a change-in-control of FSP. A change-in-control of FSP, as defined in the plan, generally refers to a change in ownership or effective control of FSP or a change in ownership of a substantial portion of the assets of FSP.
- Under the retention agreement component of the program, employees would receive a payment as soon as practicable following the closing of the change-in-control, but in no event more than thirty days following the closing of the change-in-control. Executive officers who make up the corporate management team would receive payments equal to three years of their base salaries plus a bonus opportunity payment equal to three years of their base salaries. Executive officers who are investment executives would receive payments equal to the average of the lump sum payments made to the Chief Financial Officer and the Chief Operating Officer. For purposes of the retention agreement component of the program, base salary refers to the base salary of the employee in effect at the time of the closing of the change-in-control. Payments under the retention agreements are subject to a possible reduction, if any, after the tax consequences of the payment are determined.
- Under the discretionary plan component of the program, immediately prior to the closing of the change-in-control, the board may (but is not obligated to) establish a discretionary pool of funds equal to 1% of the market capitalization of FSP immediately prior to the closing of the change-in-control less the total amount of payments to all employees under the retention agreement component of the program. The board would have complete discretion to award all, a portion or none of the discretionary plan pool of funds to any employees of FSP, including the executive officers. Payments under the discretionary plan component are subject to a possible reduction, if any, after the tax consequences of the payment are determined.

Prior to adopting our change-in-control program, management reviewed plans similar to our retention agreement component offered by approximately ten other publicly-traded real estate investment trusts and concluded that our triggering event was generally consistent with the peer group. Management did not review any plans that were comparable to our discretionary plan but concluded that, on balance, the total potential payout amounts under our change-in-control program are generally consistent with the range offered by the peer group.

Our Chief Executive Officer has voluntarily elected not to participate in the retention agreement component of our change-in-control program.

How each compensation element and FSP's decisions regarding that element fit into FSP's overall compensation objectives and affect decisions regarding other elements

Overview

Although our overall financial results for 2008 were positive, the results were lower than those achieved in 2007. Our net income continued to be adversely affected during 2008 by turmoil in the broader financial, credit and real estate markets. Based upon its review of the compensation practices of other comparable companies, the Compensation Committee believes that total compensation for the executive officers is within the range of total compensation paid to executive officers with comparable qualifications, experience and responsibilities in the same or similar businesses and of comparable size and success.

(a) Base Salary or Brokerage Commissions

In reviewing base salaries for 2008, the members of the Compensation Committee applied the principles described above under "What the compensation programs are designed to reward and how FSP determines the amount (and, where applicable, the formula) for each element to pay." For 2008, no recommendation for base salary increases was made by the Chief Executive Officer for each of the other executive officers who make up the corporate management team (except for the General Counsel whose base salary was increased effective February 1, 2008 as part of his promotion to the position of General Counsel). Similarly, for 2008, the Compensation Committee made no recommendation for a base salary increase for our Chief Executive Officer. The last time our Chief Executive Officer accepted a base salary increase was on February 1, 2003.

Our base salary amounts are generally lower than industry standard levels. Accordingly, compensation of these positions will be weighted proportionately greater towards year-end bonus amounts based upon corporate and individual performance.

No recommendation was made to adjust our brokerage commission structure.

(b) Cash Bonus

In awarding cash bonuses for 2008, the members of the Compensation Committee applied the principles described above under “What the compensation programs are designed to reward and how FSP determines the amount (and, where applicable, the formula) for each element to pay.” Based upon the recommendation of the Chief Executive Officer, on February 5, 2009, the Compensation Committee approved cash bonuses for each of the other executive officers who make up the corporate management team in the amounts recommended by the Chief Executive Officer. In making his recommendations, Mr. Carter noted, and the Compensation Committee agreed, that each officer’s area of responsibility and accountability (i.e., business unit) contributed to the Company’s performance during 2008, as a result of each person’s leadership and direction. It was further noted that each of these individuals was considered to be integral to the daily operations of FSP and of great value to FSP and firmly committed to doing what is in the best interests of our shareholders. The cash bonus amounts are slightly higher than those paid for 2007, but generally consistent with prior years. The Compensation Committee believes that the cash bonus amounts properly reflect FSP’s overall and relative performance for 2008 and that, when combined with the base salary amounts, are within the range of total compensation paid to executive officers with comparable qualifications, experience and responsibilities in the same or similar businesses and of comparable size and success. Although our net income was adversely affected during 2008 by turmoil in the broader financial, credit and real estate markets, our ongoing/recurring real estate operations produced solid profit results in 2008. In addition, FSP was able to maintain a strong balance sheet throughout 2008, which as of December 31, 2008 included approximately a 14.4% debt to total capitalization ratio, \$183 million available on our \$250 million line of credit, \$29 million in cash, \$849 million of stockholders’ equity and no permanent mortgage indebtedness on any of the properties in our portfolio. The debt to total capitalization ratio was calculated by dividing our debt of approximately \$142.5 million by our debt plus stockholders’ equity. The Compensation Committee believes that these and other factors resulted in our being well positioned to take advantage of opportunities that may arise as a result of the current turmoil in the broader financial, credit and real estate markets and are reflected in the relative performance of our Common Stock compared to other real estate investment trusts and various stock indices during 2008. The opening price per share on January 2, 2008 was \$14.83 and the closing price per share on December 31, 2008 was \$14.75, a decrease of less than 1%. The Compensation Committee believes that FSP’s overall and relative performance for 2008 is a direct consequence of the dedication and hard work of these individuals and their staffs.

The Compensation Committee also reviewed and evaluated the performance of Mr. Carter during 2008 by applying the principles described above under “What the compensation programs are designed to reward and how FSP determines the amount (and, where applicable, the formula) for each element to pay.” As previously stated, FSP achieved positive overall financial results for 2008, however, the results were lower than those achieved in 2007. The Company’s net income continued to be adversely affected during 2008 by turmoil in the broader financial, credit and real estate markets. Our financial metrics are based upon the following three components: rental income from operations; gains or losses on sales of properties; and fee income from real estate investment banking activities. Two of these components - gains or losses on sales of properties and fee income from real estate investment banking activities - are transactional in nature and continued to experience significant slowdowns in 2008. In fact, we had no gains or

losses on sales of properties in 2008. Accordingly, on July 21, 2008, we announced that we had reduced our regular quarterly dividend from \$0.31 per share of Common Stock to \$0.19 per share of Common Stock. In our July 21, 2008 announcement, we noted that we had experienced a significant slowing of activity in, and lower profit contribution from, two transactional components of our business, investment banking/investment services and property dispositions, since the onset of the current disruptions in the U.S. economy. We also noted that our ongoing/recurring real estate operations continued to show solid performance and that our board believed it was prudent to better align our regular quarterly dividends with the results of our current real estate operations only, without taking into account the results of our less predictable transactional operations. However, within the context of this financial market reality, the Compensation Committee felt that the combined business units performed well under the leadership, focus and discipline of Mr. Carter. For the reasons discussed in the immediately preceding paragraph and based upon numerous performance measurements, the Compensation Committee felt that FSP had a positive year relative to the broader macroeconomic environment in which we found ourselves. Mr. Carter's overall performance in that relative context was considered excellent by the Compensation Committee. However, at the request of Mr. Carter, the Compensation Committee did not consider making any recommendation to the board for a cash bonus for 2008 performance. Although FSP's results during 2008 were positive, we reduced our regular quarterly dividend and the price of our Common Stock decreased over the course of the year. The opening price per share on January 2, 2008 was \$14.83 and the closing price per share on December 31, 2008 was \$14.75. Mr. Carter believes that the Chief Executive Officer has the ultimate responsibility for the stock price and that, as part of that responsibility, the Chief Executive Officer's compensation should reflect the stock's relative performance in the marketplace. Ultimately, the Compensation Committee decided to honor Mr. Carter's request that he not be considered for a cash bonus for 2008 performance. The last time that Mr. Carter accepted a cash bonus was for 2005 performance.

(c) Award of Common Stock

Because FSP determined that it was able to adequately compensate the executive officers who make up the corporate management team with salary and cash bonuses in 2008, no proposal was made for the award of Common Stock. In other years, the award of Common Stock could be utilized as a compensation option.

(d) 401(k) Matching

There were no proposals made to modify our 401(k) plan in 2008.

(e) Change-in-Control Program

Because FSP determined that our change-in-control program continues to satisfy its original intended purpose, there were no proposals made to modify the program in 2008.

Potential Payments Upon Termination or Change in Control

In February 2006, we adopted a change-in-control program for all our employees, including our executive officers. We adopted the program in response to recent merger and consolidation activity within the real estate/real estate investment trust industry, to preserve employee morale and productivity and to encourage retention in the event of an actual or rumored change-in-control of the Company. The program is also intended to align employee and shareholder interests by enabling employees to consider corporate transactions that are in the best interests of the shareholders and other constituents of the Company without undue concern over whether the transaction or transactions may jeopardize the employee's own employment. For an overview of our change-in-control program, please refer to the discussion included under the heading "Compensation Discussion and Analysis – Each element of compensation and why the Company chooses to pay each element – (e) Change-in-Control Program."

Assuming that the closing of a change-in-control occurred on December 31, 2008, the last business day of our fiscal year, our named executive officers would be entitled to payment of the following amounts under the retention agreement component of our change-in-control program:

Name and Principal Position	Potential Payment due under the Retention Agreement (1)
George J. Carter, Chief Executive Officer (PEO)	N/A(2)
John G. Demeritt, Chief Financial Officer (PFO)	\$ 1,080,000
Barbara J. Fournier, Vice President, Chief Operating Officer, Treasurer and Secretary	\$ 1,200,000
R. Scott MacPhee, Executive Vice President	\$ 1,140,000
William W. Gribbell, Executive Vice President	\$ 1,140,000
TOTAL	\$ 4,560,000

NOTES

(1) With respect to executive officers who make up the corporate management team, these are lump-sum payments equal to three years of their base salaries plus a bonus opportunity payment equal to three years of their base salaries. With respect to executive officers who are investment executives, these are lump-sum payments equal to the average of the lump sum payments made to the Chief Financial Officer and the Chief Operating Officer. In both cases, the payment amounts are subject to a possible reduction, if any, after the tax consequences are determined.

(2) George J. Carter has voluntarily elected not to participate in the retention agreement component of our change-in-control program.

Under the discretionary plan component of our change-in-control program, our Board of Directors has the right, but not the obligation, to establish a discretionary pool of funds equal to 1% of our market capitalization immediately prior to the closing of the change-in-control. On December 31, 2008, there were 70,480,705 shares of our Common Stock outstanding, and the closing price per share of our Common Stock on the NYSE Amex was \$14.75. Accordingly, on December 31, 2008, our market capitalization was \$1,039,590,398, and 1% of our market capitalization equaled \$10,395,904. This \$10,395,904 amount would then be reduced by the total amount of payments due and payable to all of our employees (including our named executive officers) under the retention agreement component of our change-in-control program. Our Board of Directors would then have complete discretion to award all, a portion or none of the remaining balance to any of our employees, including our named executive officers. As is the case with the retention agreement component of our change-in-control program, any payments under the discretionary plan component are subject to a possible reduction, if any, after the tax consequences are determined.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Based solely on its review of copies of reports filed by the Directors and executive officers of the Company pursuant to Section 16(a) of the Exchange Act or written representations from certain persons required to file reports under Section 16(a) of the Exchange Act, the Company believes that during 2008 all filings required to be made by its reporting persons were timely made in accordance with the requirements of the Exchange Act.

TRANSACTIONS WITH RELATED PERSONS

Related Person Transaction Policy

On February 2, 2007, our Board adopted written policies and procedures for the review of any transaction, arrangement or relationship in which the Company is a participant, the amount involved exceeds \$120,000, and one of our executive officers, Directors, Director nominees or 5% stockholders (or their immediate family members), each of whom we refer to as a related person, has a direct or indirect material interest.

If a related person proposes to enter into such a transaction, arrangement or relationship, which we refer to as a related person transaction, the related person must report the proposed related person transaction to our Chief Operating Officer or General Counsel.

The policy calls for the proposed related person transaction to be reviewed and, if deemed appropriate, approved by the Audit Committee of our Board. Whenever practicable, the reporting, review and approval will occur prior to entry into the transaction. If advance review and approval is not practicable, the Audit Committee will review, and, in its discretion, may ratify the related person transaction. The policy also permits the chairman of the Audit Committee to review and, if deemed appropriate, approve proposed related person transactions that arise between committee meetings, subject to ratification by the committee at its next meeting. Any related person transactions that are ongoing in nature will be reviewed annually. A related person transaction reviewed under the policy will be considered approved or ratified if it is authorized by the Audit Committee after full disclosure of the related person's interest in the transaction. As appropriate for the circumstances, the committee will review and consider:

- the related person's interest in the related person transaction;
- the approximate dollar value of the amount involved in the related person transaction;
- the approximate dollar value of the amount of the related person's interest in the transaction without regard to the amount of any profit or loss;
 - whether the transaction was undertaken in the ordinary course of our business;
- whether the terms of the transaction are no less favorable to us than terms that could have been reached with an unrelated third party;
 - the purpose of, and the potential benefits to us of, the transaction; and
- any other information regarding the related person transaction or the related person in the context of the proposed transaction that would be material to investors in light of the circumstances of the particular transaction.

The Audit Committee may approve or ratify the transaction only if the committee determines that, under all of the circumstances, the transaction is in, or is not inconsistent with, our best interests. The Audit Committee may impose any conditions on the related person transaction that it deems appropriate.

In addition to the transactions that are excluded by the instructions to the Securities and Exchange Commission's related person transaction disclosure rule, the Board has determined that the following transactions do not create a material direct or indirect interest on behalf of related persons and, therefore, are not related person transactions for purposes of this policy:

- Interests arising only from the related person's position and ownership level as a director of another corporation or organization that is a party to the transaction;
- Interests arising only from the position and ownership level from direct or indirect ownership by the related person and all other related persons in the aggregate of less than a 10% equity interest (other than a general partnership interest) in another entity which is a party to the transaction;
- Interests arising solely from the ownership of a class of our equity securities if all holders of that class of equity securities receive the same benefit on a pro rata basis;
- A transaction that involves compensation to an executive officer if the compensation has been approved, or recommended to the Board for approval, by the Compensation Committee of the Board or a group of independent Directors of the Company performing a similar function;
- A transaction that involves compensation to a Director for services as a Director of the Company if such compensation will be reported pursuant to Item 402(k) of Regulation S-K;
 - A transaction that is specifically contemplated by provisions of the Company's charter or bylaws;
- Interests arising solely from indebtedness of a significant shareholder or an immediate family member of a significant shareholder to us;
 - A transaction where the rates or charges involved in the transaction are determined by competitive bids;
- A transaction that involves the rendering of services as a common or contract carrier or public utility at rates or charges fixed in conformity with law or governmental authority;
- A transaction that involves services as a bank depository of funds, transfer agent, registrar, trustee under a trust indenture, or similar services;
- Interests arising as a result of a related person serving as an officer and/or director of another company or a Sponsored REIT at our request; or

- A transaction that involves the payment by a Sponsored REIT to the Company (or any wholly-owned subsidiary thereof) of customary fees including, without limitation, acquisition, syndication, sales commissions, interim financing and asset management fees.

The policy provides that transactions involving compensation of executive officers shall be reviewed and approved by the Compensation Committee in the manner specified in its charter. The policy is available on our website at www.franklinstreetproperties.com.

OTHER MATTERS

Matters to be Considered at the Meeting

The Board of Directors does not know of any other matters which may come before the Annual Meeting. However, if any other matters are properly presented to the Annual Meeting, it is the intention of the persons named in the accompanying proxy to vote, or otherwise act, in accordance with their judgment on such matters.

Solicitation of Proxies

All costs of solicitation of proxies will be borne by the Company. In addition to solicitations by mail or via the Internet, the Company's Directors, officers and employees, without additional remuneration, may solicit proxies by telephone, telegraph and personal interviews. Brokers, custodians and fiduciaries will be requested to forward proxy soliciting material to the owners of stock held in their names, and, as required by law, the Company will reimburse them for their out-of-pocket expenses in this regard.

Stockholder Proposals

In accordance with Rule 14a-8 of the Exchange Act, proposals of stockholders intended to be included in the Company's proxy statement for the 2010 Annual Meeting of Stockholders must be received by the Company at its principal office not later than December 2, 2009. In addition, according to our By-laws, any stockholder proposal intended to be presented at the Company's 2010 Annual Meeting, but not considered for inclusion in the Company's proxy statement relating to such meeting, must be received at the Company's principal office no more than 120 days or less than 90 days before the first anniversary of the mailing of the preceding year's proxy materials. For the 2010 Annual Meeting, that means that a stockholder must deliver proper notice of a proposed nominee or action to the Secretary of the Company between December 2, 2009 and January 1, 2010.

Important Notice Regarding Delivery of Security Holder Documents

The Company participates in the practice of "householding" proxy statements, annual reports and notices of Internet availability of proxy materials, meaning that the Company delivers a single document to a household, even though two or more stockholders live under the same roof or a stockholder has shares registered in multiple accounts, unless the Company has received an instruction to the contrary from one or more of the stockholders. This practice enables the Company to reduce the expense of printing and mailing associated with proxy statements and reduces the amount of duplicative information a stockholder may currently receive.

The Company will promptly deliver a separate copy of any of the foregoing documents to a stockholder if a stockholder calls or writes to the Company at the following address or phone number: Franklin Street Properties Corp., 401 Edgewater Place, Suite 200, Wakefield, Massachusetts 01880, (781) 557-1300. If a stockholder wants to receive separate copies of the annual report and proxy statement or notice of Internet availability of proxy materials in the future, or if the stockholder is receiving multiple copies and would like to receive only one copy for his or her household, said stockholder should contact the Company at the above address and phone number.
