PART I

Item 1. Description of Business

The Company was originally formed as a New York corporation on January 16, 1997 (and reincorporated as a Delaware corporation in November 2002) for the purpose of offering Internet kiosks where the public could access the Internet for a fee. The internet Kiosks business proposals remain in their embryonic and developmental stages, have not been activated and the Company has no current plans to further pursue such activities. Since June 1997 the Company has engaged in the business of contracting with various locations such as malls, gas stations, stores and office buildings to install pay phones that are an alternative to those provided by the primary local service provider (Verizon). The Company places its phones by offering larger payments to the store owner or property owner than Verizon pays to retail location operators. The Company realizes net revenues through the difference between what is in the coin box when it is emptied and what it must pay to the property owner, Verizon and long distance and local service providers as well as payments from others for toll free calls. The Company's net revenues are principally comprised of: (i) the difference between what the Company charges for local calls (\$.25 in New York and \$.35 in New Jersey and Pennsylvania for a three minute call) and the \$.042 that the Company pays to Verizon for each three (3) minute call; (ii) the difference between the fixed rate per call that the Company pays to Qwest for each long distance call and the rates which the Company charges for long distance calls (as established by the Company); (iii) a commission of 50% paid by Qwest (long distance carrier) on operator assisted services, such as collect, reverse charges or credit card long distance calls made on the Company's phones; and (iv) a payment of \$.249 on each toll-free (800) call from Company phones by

Edgar Filing: MAGIC COMMUNICATIONS INC - Form 10KSB

major long distance carriers, such as: AT&T, MCI, Qwest, Sprint, etc., through a contract with a call aggregator, Private Payphone Owners' Network ("PPON") which computes all toll free calls made from Company phones and pays the Company directly. The Company's expenses include the marketing expense to place telephones, the cost of the phones and phone maintenance. The Company does not have a written agreement with Verizon, but has a written agreement with Qwest as well as the aggregator (PPON). Copies of such written Agreements were annexed as Exhibits 99.01 and 99.02 to the Company's Form 10-KSB for year ended December 31, 2002.

As of December 31, 2005, the Company had approximately 80 pay phones placed in locations in New York, New Jersey and Pennsylvania. These phones are marketed through the Company's own employees, principally the Company's President, through word-of-mouth. The Company filed a Registration Statement on Form 10-SB because Management believes that as a reporting Company with the potential of trading on the NASD Electronic Bulletin Board ("OTCBB") the Company will be better able to attract investment capital. No assurance is given that investment capital can ever be raised.

2

The Company currently purchases its phones from North Atlantic Marketing and during the calendar year ended December 31, 2005 purchased no additional telephones. The price for phones in the twelve month period ending December 31, 2005 averaged \$1,000 for each individual telephone, which comprises: (i) the purchase price from independent suppliers for all hardware; and (ii) wall installation, but does not include wiring which is done by Verizon. In addition, the Company arranges for the installation of the phones at the customers' place of business and pays Verizon to connect the wires to the phones. The Company's marketing is conducted primarily through the personal efforts of its President and through "word of mouth" in order to obtain customer leads.

Competition

The Company continues to encounter substantial competition in its efforts to locate pay telephones from both the local telephone company (Verizon) and from other pay phone operators such as the Company. Many of these entities have greater experience, resources and managerial capabilities than the Company. The Company tries to compete primarily on the terms that it offers to location owners. The Company's ability to place phones and the revenues derived from each phone may be impaired by a general perception on the part of many consumers that independent coin phone companies, such as the Company, charge higher rates to consumers.

Employees

The Company currently has 1 full time employee and 2 part time employees. Its full time employee is engaged in sales and marketing and a service technician as well as the Company's Secretary are employed part time. The Company's employees do not have any collective bargaining agreement and management believes that the Company's relations with its employees are satisfactory.

Description of Property

The Company currently leases 350 square feet of office space pursuant to a month to month lease from a related party at a nominal cost. The Company believes that its offices are sufficient for its current and short term anticipated needs and that similar space is available in the general vicinity of its offices for similar prices should the need arise.

PART II

Item 5. Market for Common Equity and Stockholder Matters.

The Company became subject to '34 Exchange Act reporting requirements as of January 13, 2003. To date there has been no established trading market for the Company's common stock. No symbol has been assigned for its securities and its securities have not been listed on any Exchange to date.

A. Holders.

As of the close of business on April 17, 2006 there were 96 stockholders of record of the Registrant's Common Stock and 3,080,000 shares were issued and outstanding.

B. Dividends.

The payment by the Registrant of dividends, if any, in the future rests within the discretion of its Board of Directors and will depend, among other things, upon the Company's earnings, its capital requirements and its financial condition, as well as other relevant factors. The Registrant has not paid or declared any dividends upon its Common Stock since its inception and, by reason of its present financial status and its contemplated financial requirements, does not contemplate or anticipate paying any dividends upon its Common Stock in the foreseeable future.

3

Item 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Year Ended December 31, 2005 vs. Year Ended December 30, 2004

Net sales increased from \$72,215 for the year ended December 31, 2004 to \$92,292 for the year ended December 31, 2005. This increase is attributable to a switch in telephone carriers in which a favorable flat rate pricing structure was obtained as well as a rate increase from 25 cents to 35 cents on all phones. The company also earned \$12,500 in consulting fees in 2005. Operating expenses increased from \$157,897 to \$177,080. The change in operating expenses was due to the following items: (i) an increase in salaries from \$37,021 in 2004 to \$54,405 in 2005; (ii) a decrease in lease payments for phone equipment (leases expired in March 2002) of \$1,133 from \$1,133 for the year ended December 31, 2004 to \$0 for the year ended December 31, 2005; (iii) an increase in general and administrative expenses of \$6,845 from \$56,323 for the year ended December 31, 2004 to \$61,892 for the year ended December 31, 2005; and (v) an decrease in professional fees of \$2,637 from \$46,140 in the year ended December 31, 2004 to \$43,503 in the year ended December 31, 2005. Since sales increased and operating expenses increased, the Company's net loss decreased from (\$85,682) in the year ended December 31, 2004 to (\$84,788) in the year ended December 31, 2005. The number of pay telephones in service was approximately 100 telephones during the year ended December 31, 2004 and 80 telephones during the year ended December 31, 2005.

Edgar Filing: MAGIC COMMUNICATIONS INC - Form 10KSB

Liquidity and Capital Resources

On December 31, 2005 the Company had only \$0 cash on hand. Current funds having been expended and with managements' assumption that the Company may not generate sufficient revenues from operations, the Company will (a) be dependent upon management to fund operations and/or (b) be dependent upon some form of debt or equity financing, if available, and if available, under terms deemed reasonable to management. The management of the Company has orally committed to fund the Company on an "as needed" basis. The Company's auditors have included a "going concern" opinion in their report on the Company's financial statements.

Need for Additional Financing

The Company believes that its existing capital will be insufficient to meet the Company's cash needs, including costs of compliance with the continuing reporting requirements of the Securities Exchange Act of 1934, as amended. The Company may rely upon issuance of its securities to pay for services necessary to meet reporting requirements.

Forward-Looking Statements

When used in this form 10-KSB, or in any document incorporated by reference herein, the words or phrases "will likely result", "are expected to," "will continue," "is anticipated," "estimate," "project," or similar expressions are intended to identify "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are subject to certain risks and uncertainties including changes in economic conditions in the Company's market area, changes in policies by regulatory agencies, fluctuations in interest rates, demand for loans in the Company's market area and competition, that could cause actual results to differ materially from historical earnings, if any, and those presently anticipated or projected. The Company wishes to caution readers not to place undue reliance on any such Forward- looking statements, which speak only as to the date made. The Company wishes to advise readers that the factors listed above, or in its 10-SB Registration Statement Risk Factor Section, could affect the Company's financial performance and could cause the Company's actual results for future periods to differ materially from any opinions or statements expressed with respect to future periods in any current statements. The Company does not undertake, and specifically disclaims any obligation, to publicly release the result of any revisions which may be made to any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Edgar Filing: MAGIC COMMUNICATIONS INC - Form 10KSB

To the Stockholders
Magic Communications Group, Inc.

We have audited the accompanying balance sheet of Magic Communications Group, Inc. as of December 31, 2005 and the related statements of operations, stockholders' deficit and cash flows for the years ended December 31, 2005 and 2004. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, the financial position of Magic Communications Group, Inc. as of December 31, 2005 and the results of its operations and its cash flows for the years ended December 31, 2005 and 2004 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred significant losses as more fully described in Note 2. These issues raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

MAGIC COMMUNICATIONS GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2005 AND 2004

1. DESCRIPTION OF BUSINESS:

Magic Communications Group, Inc. ("Magic" or the "Company") was incorporated in New York on January 16, 1997. The Company was originally formed for the purpose of offering Internet kiosks where the public could access the Internet for a fee. The Company did not develop that business and the financial statements do not include any amounts related to it. The Company's operations consist primarily of owning and operating pay phones in New York, New Jersey and Pennsylvania. This business commenced on February of 1997.

In November 2002 the Company was merged into a Delaware corporation which was created for the purpose of reincorporating the Company accounted for as a reorganization of entities under common control.

2. GOING CONCERN:

The Company's financial statements as of December 31, 2005 have been prepared on a going-concern basis, which presumes that the Company will be able to continue to meet its obligations and realize its assets in the normal course of business.

As shown in the accompanying financial statements, the Company has a history of losses with an accumulated deficit of \$306,866 at December 31, 2005 and, as of that date, a working capital deficiency of \$190,800. These conditions would raise substantial doubt about the Company's ability to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to ultimately attain profitable operations, generate sufficient cash flow to meet its obligations, and obtain additional financing as may be required.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

- A. Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reporting amounts of revenues and expenses during the reported period. Actual results could differ from those estimates.
- B. Cash - The Company considers all highly liquid temporary cash investments with an original maturity of three months or less when purchased, to be cash equivalents.
- C. Revenue recognition - The Company realizes net revenues through

Edgar Filing: MAGIC COMMUNICATIONS INC - Form 10KSB

the difference between what is in the coin box when it is emptied and what it must pay to the property owner, Verizon and long distance and local service providers as well as payments from others for toll free calls.

- D. Equipment - Equipment is recorded at cost. Expenditures for major additions and betterment's are capitalized. Maintenance and repairs are charged to operations as incurred. Depreciation of equipment is computed by the straight-line method over the assets estimated useful lives of ten years. Upon sale or retirement of plant and equipment, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is reflected in operations. Revenue from consulting services is earned when the service is provided and collectibility is reasonably assured.
- E. Fair value of financial instruments - The carrying amounts reported in the balance sheet for, accounts payable, loan payable and due to/from related parties are approximate fair value based on the short-term maturity of these instruments.

F-6

- G. Income taxes - Income taxes are accounted for in accordance with the provisions of SFAS No. 109. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amounts expected to be realized, but no less than quarterly.
- H. Stock based compensation - Financial Accounting Statement No. 123, Accounting for Stock Based Compensation, encourages, but does not require companies to record compensation cost for stock-based employee compensation plans at fair value. The Company has chosen to continue to account for stock-based compensation using the intrinsic method prescribed in Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. Accordingly, compensation cost for stock options is measured as the excess, if any, of the quoted market price of the Company's stock at the date of the grant over the amount an employee must pay to acquire the stock. The Company has adopted the "disclosure only" alternative described in SFAS 123 and SFAS 148, which require pro forma disclosures of net income and earnings per share as if the fair value method of accounting had been applied.
- I. Loss per Common Share - Net loss per common share is based on the weighted average number of shares outstanding. Potential common shares includable in the computation of fully diluted per share results are not presented in the financial statements as their effect would be anti-dilutive.

9. STOCK OPTION PLAN:

The board of directors, on November 24, 2002, adopted the Company's 2002 Non-Statutory Stock Option Plan ("Plan") so as to provide a critical long-term incentive for employees, non-employee directors, consultants, attorneys and advisors of the Company and its subsidiaries, if any. The board of directors believes that the Company's policy of granting stock options to such persons will continue to provide it with a critical advantage in attracting and retaining qualified candidates. In addition, the Plan is intended to provide the Company with maximum flexibility to compensate plan participants. It is expected that such flexibility will be an integral part of the Company's policy to encourage employees, non-employee directors, consultants, attorneys and advisors to focus on the long-term growth of stockholder value. The board of directors believes that important advantages to the Company are gained by an option program such as the 2002 Plan which includes incentives for motivating employees of the Company, while at the same time promoting a closer identity of interest between employees, non-employee directors, consultants, attorneys and advisors on the one hand, and the stockholders on the other. As of December 31, 2005, no options have been issued.

10. INCOME TAXES

The Company accounts for income taxes under Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes ("SFAS No.109"). SFAS No.109 requires the recognition of deferred tax assets and liabilities for both the expected impact of differences between the financial statements and tax basis of assets and liabilities, and for the expected future tax benefit to be derived from tax loss and tax credit carry-forwards. SFAS No. 109 additionally requires the establishment of a valuation allowance to reflect the likelihood of realization of deferred tax assets. Prior to 2003, the Company and its stockholders elected to be taxed under subchapter S of the Internal Revenue Code. As a result, all income and losses were reported by the Company's stockholders. The following is a reconciliation of income taxes computed using the statutory Federal rate to the income tax expense in the financial statements for December 31, 2005.
