Enclosure: Press Release dated July 28, 2004 re: Partner Communications reports strong second quarter 2004 results, attaching full financial report.

PARTNER COMMUNICATIONS REPORTS STRONG SECOND QUARTER 2004 RESULTS

COMPANY POSTS RECORD QUARTERLY REVENUES, EBITDA AND INCOME BEFORE TAXES

INCOME BEFORE TAXES UP 29% FROM Q2 2003

MAALOT RAISES COMPANY'S CREDIT RATING TO AA-

Rosh Ha'ayin, Israel, July 28th, 2004 Partner Communications Company Ltd. (NASDAQ and TASE: PTNR; LSE: PCCD), a leading Israeli mobile communications operator, today announced its results for the second quarter ended June 30th, 2004. For the second quarter 2004, Partner reported net income of NIS 133.4 million (US\$ 29.7 million) and income before taxes of NIS 199.8 million, as compared to net income and income before taxes of NIS 155.1 million in the second quarter 2003. The Company reported second quarter 2004 revenues of NIS 1,254.6 million (US\$ 279.0 million) as compared to NIS 1,077.2 million in the second quarter 2003. Partner reported cash flow from operating activities net of investing activities for the second quarter 2004 of NIS 140.4 million (US\$ 31.2 million), as compared to NIS 130.6 million reported in the second quarter 2003.

Q2 2004 vs. Q2 2003 Comparison					
		Q2 2004	Q2 2003	Change	
Revenues (NIS millions)		1,254.6	1,077.2	16.5%	
EBITDA (NIS millions)		401.7	348.2	15.4%

Average Monthly Revenue per Subscriber (NIS)		171	171	--	
Average Subscriber Acquisition Costs (NIS)		293	452	(35.2%)	
* Q2 2003 did not include a provision for income taxes					

Commenting on the second quarter results, Amikam Cohen, Partner's CEO said: "The second quarter of 2004 was another record quarter for Partner. Partner's excellent financial and operational performance this quarter was fueled by the quality of our network, our undivided focus on customer service and our innovative wire free solutions for the Israeli market. For the second consecutive year, Globes, an Israeli business daily newspaper, chose our brand as the leading telecom brand in Israel, and as the number two overall brand, second to Coca Cola. These factors enabled us to continue to grow our subscriber base and drive value for our shareholders. We expect to continue our momentum and further enhance our network performance and quality of service to our customers when we commercially launch our 3G network later this year."

Financial Review

Partner's Q2 2004 revenues totaled NIS 1,254.6 million (US\$ 279.0 million), up 16.5% from NIS 1,077.2 million in Q2 2003 and 3.0% from NIS 1,218.6 million in Q1 2004. Increased revenues as compared to the second quarter last year were driven primarily by a larger subscriber base and increasing minutes of use. As compared to Q1 2004, the increase was driven by a 3.9% growth in service revenues offset by lower revenues from handset sales. Data and content revenues for Q2 2004 were 7.0% of total revenues, compared to NIS 6.9% of total revenues in Q2 2003 and 6.8% in Q1 2004.

Cost of revenues in Q2 2004 increased by 16.7% to NIS 863.7 million (US\$ 192.1 million), versus NIS 739.8 million in Q2 2003. The increase was driven primarily by variable costs, such as interconnect charges and handset costs, relating to the higher service and equipment revenue

Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

levels. Compared to Q1 2004, cost of revenues increased marginally by 0.9% from NIS 855.7 million. The modest change from Q1 2004 was derived from higher variable costs relating to higher service revenue levels in Q2 offset by lower handset sales in Q2 2004.

Selling and marketing expenses decreased by 5.9% in Q2 2004, totaling NIS 76.5 million (US\$ 17.0 million) versus NIS 81.3 million in Q2 2003. Compared to Q1 2004, selling and marketing expenses decreased by 16.6% from NIS 91.7 million. Q1 2004 expenses included expenses incurred in making changes to our sales distribution network.

General and administrative expenses in Q2 2004 totaled NIS 48.6 million (US\$ 10.8 million) compared to NIS 38.1 million in Q2 2003, an increase of 27.6%. Compared to Q1 2004, general and administrative expenses, increased by 35.4% from NIS 35.9 million. This increase includes approximately NIS 3 million of costs incurred in the Company's attempt to purchase a controlling interest in Matav. These costs were expensed since the Memorandum of Agreement between the parties relating to this transaction expired and negotiations were discontinued. In addition in Q2 2004, deferred charges of approximately NIS 4.8 million comprised primarily of legal and accounting fees incurred in 2001, in preparing and maintaining the Company's shelf registration with the US Securities and Exchange Commission were expensed. According to Mr. Alan Gelman, Partner's Chief Financial Officer: Although we intend to maintain the shelf registration, these deferred charges were expensed since the Company believes that the probability of issuing securities utilizing the shelf registration in the near future is low.

3

Operating profit increased to NIS 265.8 million (US\$ 59.1 million) from NIS 218.0 million in Q2 2003, an increase of 21.9%. Operating profit for Q2 2004 as a percentage of revenues increased to 21.2% from 20.2% in Q2 2003. The Company recorded record quarterly EBITDA of NIS 401.7 million as compared to EBITDA in Q2 2003 of NIS 348.2 million, an increase of 15.4%. Q2 2004 EBITDA was 9.2% higher than Q1 2004 EBITDA of NIS 367.8 million. EBITDA for Q2 2004 as a percentage of revenues decreased slightly to 32.0% from 32.3% in Q2 2003 and increased from 30.2% in Q1 2004.

Financial expenses in Q2 2004 were NIS 66.0 million (US\$ 14.7 million), up 4.9% from NIS 62.9 million in Q2 2003. Financial expenses decreased 24.1% from NIS 87.0 million in Q1 2003. The decrease in financial expenses in Q2 2004 as compared to Q1 2004 were driven primarily by a stronger Shekel, which reduced foreign currency exchange differences related to our US\$ 175 million dollar denominated senior subordinated notes.

In Q2 2004, the Company had net income of NIS 133.4 million (US\$ 29.7 million), or NIS 0.72 (US\$ 0.16) per ADS or per share, compared to NIS 155.1 million, or NIS 0.85 per share or per ADS for Q2 2003 and NIS 91.8 million, or NIS 0.5 per share or per ADS for Q1 2004. Net income for the second quarter of 2004 was lower than the second quarter of 2003 since the second quarter of 2003 did not include a provision for income taxes as the Company did not record income taxes until Q4 2003 when it recorded a deferred tax asset derived from its carryforward tax losses.

We are very pleased with our financial performance for Q2 2004 said Mr. Gelman. We continued to achieve strong results, healthy margins, grow our revenues, generate cash flow, and improve our financial position.

Funding and Investing Review

In Q2 2004, the Company generated free cash flow for the ninth consecutive quarter, and reduced its bank debt by NIS 146.8 million (US\$ 32.6 million). Over the past nine quarters the Company reduced its bank debt by NIS 1,066.8 million. Cash flow from operating activities net of investing activities totaled NIS 140.4 million (US\$ 31.2 million) in Q2 2004, compared to NIS 130.6 million in Q2 2003 and NIS 84.0 million in Q1 2004. As of the end of Q2 2004, the US dollar equivalent of US\$ 348 million had been drawn from total availability on the Company's bank facility of US\$ 583 million.

4

Commenting on the Company's credit position, Mr. Gelman said:

As a result of our strong cash flows and improving credit matrices, we elected, at the end of Q2, to reduce the credit available to us under the facility by US\$100 million. He added that the Company is evaluating a number of alternatives to refinance its US\$ 175 million 13% subordinated notes callable in August 2005. Among the alternatives, we are discussing with the banks their willingness to refinance the notes with additional bank debt. Consequently, we are currently maintaining US\$ 235 million of additional availability in our bank facility.

The Israeli credit rating agency Maalot, an affiliate of Standard & Poor's, announced today that it is raising the investment grade corporate rating of the Company from A+ to AA-.

Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

Mr Gelman added: The rating increase is further evidence of the strengthening of our financial position and credit worthiness, and we expect it to facilitate achieving more advantageous credit terms in the future .

Net capital expenditures totaled NIS 156.2 million (US\$ 34.7 million) in Q2 2004, 12.5% of revenues, up from NIS 61.2 million in Q2 2003, 5.7% of revenues. This resulted mainly from the Company's increased spend on its 3G network. In comparison, net capital expenditures totaled NIS 144.4 million in Q1 2004, 11.8% of revenues. Capital expenditures for the first six months of 2004 include approximately NIS 182 million for its third generation network.

5

Operational Review

The Company added approximately 38 thousand net active subscribers in Q2 2004 as compared to approximately 55 thousand in Q2 2003 and approximately 62 thousand in Q1 2004. The decrease in net subscriber activations in Q2 2004 resulted primarily from lower levels of activations in the post-paid private sector, offset by higher levels of activations in the business sector. The lower level of net activations in the post-paid private sector is primarily a result of a more penetrated market. Net business sector activations accounted for approximately 40% of net activations in Q2 2004 as compared to 17% of the Company's active subscriber base as of June 30, 2004. The Company's active subscriber base as of June 30, 2004 totaled 2,202,000, representing an estimated market share of 32% versus 29% at the end of Q2 2003. It was comprised of 379,000 business subscribers (17% of the base), 1,145,000 post-paid private subscribers (52% of the base) and 678,000 prepaid subscribers (31% of the base).

The quarterly churn rate for Q2 2004 decreased to 3.3%, compared to 3.5% in Q2 2003 and 3.3% in Q1 2004.

ARPU for the second quarter of 2004 was NIS 171 (US\$ 38.0), compared to NIS 171 for Q2 2003 and NIS 168 for Q1 2004. Average MOU for the quarter was 283 minutes compared to 277 minutes per month for Q2 2003 and 280 minutes per month in Q1 2004.

The average cost of acquiring new subscribers (SAC) in Q2 2004 was NIS 293 (US\$ 65.2), compared to NIS 452 in Q2 2003 and NIS 267 in Q1 2004. The Company corrected certain allocations within cost of revenues in Q1 2004 and reduced the reported SAC for Q1 2004 to NIS 267 from NIS 308 originally reported. SAC increased in Q2 2004 relative to Q1 2004 primarily due to the increased proportion of activations in the business sector.

Outlook and Guidance

Commenting on the Company's outlook, Mr. Gelman said: The Company is continuing according to its plan with the build-out of its 3G network towards its expected commercial launch towards year end. Commencing with the commercial launch, the Company will incur additional depreciation and amortization charges on its 3G network and license. In addition, there will be incremental operational, selling and marketing costs associated with the launch of these services. The impact on our financial results will depend on the ultimate timing of the commercial launch.

6

Mr. Gelman added that: We will continue to drive shareholder value by building upon our core drivers - our robust network, our strong brand, and our focus on customer service. In Q3 2004, as compared to Q2 2004, we expect to show further improvement in our operating profit and margins, seasonally higher MOU and ARPU and similar SAC levels. He added that; Year-end subscriber levels should be in line with the guidance given the market of 7-8% annual growth from 2003.

Conference Call Details

Partner Communications will hold a conference call to discuss the company's second-quarter results on Wednesday, July 28, 2004, at 18:00 Israel local time (11AM Eastern time). This conference call will be broadcast live over the Internet and can be accessed by all interested parties through our investor relations web site at <http://www.investors.partner.co.il>.

To listen to the broadcast, please go to the web site at least 15 minutes prior to the start of the call to register, download and install any necessary audio software. For those unable to listen to the live broadcast, an archive of the call will be available via the Internet (at the same location as the live broadcast) shortly after the call ends until midnight on August 5th, 2003.

About Partner Communications

Partner Communications Company Ltd. is a leading Israeli mobile communications operator known for its B>GSM/GPRS based services and the development of wirefree applications under the preferred orange brand. The Company commenced full commercial operations in January 1999 and, through its network, provides quality of service and a range of features to more than 2.2 million subscribers in Israel. Partner subscribers can use roaming services in 308 destinations using 140 GSM networks. The Company was awarded a 3G license in 2002. Partner s ADSs are quoted on NASDAQ under the symbol PTNR and on the London Stock Exchange (LSE) under the symbol PCCD. Its shares are quoted on the Tel Aviv Stock Exchange (TASE) under the symbol PTNR. For further information: <http://www.investors.partner.co.il>

Notes: Some of the information in this release contains forward-looking statements that involve risks and uncertainties within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to risks, uncertainties and assumptions about us.

Words such as believe, anticipate, expect, intend, seek, will, plan, could, may, project, goal, target, and similar expressions often identify forward-looking statements but are not the only way we identify these statements. Because such statements involve risks and uncertainties, actual results may differ materially from the results currently expected. Factors that could cause such differences include, but are not limited to:

Uncertainties about the degree of growth in the number of consumers using wireless personal communications services and in the number of residents;

The risks associated with the implementation of a third-generation network and business strategy, including risks relating to the operations of new systems and technologies, substantial expenditures required and potential unanticipated costs, uncertainties regarding the adequacy of suppliers on whom we must rely to provide both network and consumer equipment and consumer acceptance of the products and services to be offered;

The impact of existing and new competitors in the market in which we compete, including competitors that may offer less expensive products and services, desirable or innovative products, technological substitutes, or have extensive resources or better financing;

The introduction or popularity of new products and services, including prepaid phone products, which could increase churn;

The effects of vigorous competition in the market in which we operate and for more valuable customers, which may decrease prices charged, increase churn and change the customer mix, profitability and average revenue per user;

The availability and cost of capital and the consequences of increased leverage;

The risks and costs associated with the need to acquire additional spectrum for current and future services;

The risks associated with technological requirements, technology substitution and changes and other technological developments; Fluctuations in exchange rates;

The results of litigation filed or to be filed against us; and

The possibility of the market in which we compete being impacted by changes in political, economic or other factors, such as monetary policy, legal and regulatory changes or other external factors over which we have no control;

As well as the risk factors specified under the heading Risk Factors in our 2003 annual report on form 20-F filed with the SEC on April 30th, 2004.

8

The attached summary financial statements were prepared in accordance with U.S. GAAP. The attached summary financial statements for Q2 2004 are unaudited.

The convenience translations of the Nominal New Israeli Shekel (NIS) figures into US Dollars were made at the rate of exchange prevailing at June 30th, 2004: US \$1.00 equals NIS 4.497. The translations were made purely for the convenience of the reader.

Earnings before interest, taxes, depreciation, amortization, exceptional items and capitalization of intangible assets (EBITDA) is presented because it is a measure commonly used in the telecommunications industry and is presented solely in order to improve the understanding of the Company s operating results and to provide further perspective on these results. EBITDA, however, should not be considered as an alternative to operating income or income for the year as an indicator of the operating performance of the Company. Similarly, EBITDA should not be considered as an alternative to cash flows from operating activities as a measure of liquidity. EBITDA is not a measure of

financial performance under generally accepted accounting principles and may not be comparable to other similarly titled measures for other companies. EBITDA may not be indicative of the historic operating results of the Company; nor is it meant to be predictive of potential future results.

Reconciliation between our cash flows from operating activities and EBITDA is presented in the attached summary financial statements.

The Board of Directors of
Partner Communications Company Ltd

Re: Review of condensed consolidated unaudited interim
financial statements for the periods ended June 30, 2004

At your request, we have reviewed the condensed consolidated interim balance sheet of Partner Communications Company Ltd. (hereafter the Company) at June 30, 2004, the condensed consolidated statements of operations for the 6 and 3 month periods then ended and condensed consolidated statements of changes in shareholders' equity and cash flows for the 6 month period then ended. Our review was performed in accordance with the procedures prescribed by the Institute of Certified Public Accountants in Israel. Inter alia, these procedures, include: reading of the aforementioned financial statements, reading of minutes of meetings of shareholders and the board of directors and making inquiries of Company officers responsible for financial and accounting matters.

Since our review was limited in scope and did not constitute an audit in accordance with generally accepted auditing standards, we do not express an opinion on the above-mentioned condensed consolidated interim financial statements.

During our review, nothing came to our attention that indicated that significant adjustments should be made in the said interim consolidated condensed financial statements in order for them to be considered as having been prepared in accordance with accounting principles generally accepted in United State and in accordance with SEC regulations for interim financial statements (Regulations S-X: Item 210.10-01).

Sincerely yours,

PARTNER COMMUNICATIONS COMPANY LTD.

(An Israeli Corporation)

PARTNER COMMUNICATIONS COMPANY LTD.
(An Israeli Corporation)
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2004
(Unaudited)

1. Nature of operations:

Partner Communications Company Ltd. (the Company) operates a mobile telecommunications network based upon the Global System for Mobile Communications (GSM) Standard in Israel.

2. Basis of presentation:

- a. The condensed consolidated interim financial statements at June 30, 2004 and for the six and three month period then ended (the interim financial statements) have been prepared in condensed form, in accordance with accounting principles generally accepted in the United States for interim financial statements. The generally accepted accounting principles applied in preparation of the interim statements are consistent with those applied in preparation of the annual financial statements; nevertheless, the interim financial statements do not include all the information and notes required for annual financial statements. In management's opinion, interim financial statements reflect all adjustments (consisting only of normal recurring accruals) necessary for a fair presentation of the financial information, in accordance with generally accepted accounting principles in the United States, for the period presented. Results for interim periods are not necessarily indicative of the results to be expected for the entire year.
- b. The financial statements have been prepared on the basis of historical cost of Israeli currency. All figures in the interim financial statements are presented in nominal new Israeli shekels (NIS).

The changes in the exchange rate of the U.S. dollar and the Israeli CPI are:

	Exchange rate of the U.S. dollar	Israeli CPI
	%	%
Six months ended June 30,		
2004	2.7	1.4
2003	(9.0)	(0.5)
Three months ended June 30:		
2004	(0.7)	1.5
2003	(8.0)	(1.3)
Year ended December 31, 2003	(7.6)	(1.9)

The Nominal NIS figures at June 30, 2004 and December 31, 2003 and for the six and three month periods ended at June 30, 2004 have been translated into U.S. dollars using the representative exchange rate of the U.S. dollar at June 30, 2004 (\$ 1 = NIS 4.497). The translation was made solely for convenience. The translated U.S. dollar figures should not be construed as a representation that the Israeli currency amounts actually represent, or could be converted into, U.S. dollars.

3. Stock based compensation

The Company accounts for its employee stock option plans using the treatment prescribed by APB No. 25, Accounting for Stock Issued to Employees and related interpretations. Under APB 25, compensation cost for employee stock option plans is charged to shareholders equity, on the date of grant of the options, under deferred compensation costs and is then amortized over the vesting period using the accelerated method of amortization.

FAS No. 123 Accounting for Stock-Based Compensation, establishes a fair value based method of accounting for employee stock options or similar equity instruments, and encourages adoption of such method for stock compensation plans. However, it also allows companies to continue to account for those plans using the accounting treatment prescribed by APB 25. The Company has elected to continue accounting for employee stock option plans according to APB 25, and accordingly discloses pro forma data assuming the Company had accounted for employee stock option grants using the fair value based method as defined in FAS 123.

No options were granted during the six-months period ended June 30, 2004 and 2003.

The following table illustrates the effect on net income and EPS assuming the Company had applied the fair value recognition provisions of FAS 123 to its stock based employee compensation

	New Israeli shekels				Convenience translation into U.S. dollars (see note 2b)	
	6 month period ended June 30,		3 month period ended June 30,		6 month period ended June 30, 2004	3 month period ended June 30, 2004

4. Recent accounting pronouncement

FAS 132 (revised 2003)

In December 2003, the FASB issued FAS No. 132 (revised 2003), *Employers' Disclosures about Pensions and Other Postretirement Benefits*, an amendment of FASB Statements No. 87, 88 and 106, and a revision of FASB Statement No. 132 (FAS 132 (revised 2003)). This Statement revises employers' disclosures about pension plans and other postretirement benefit plans. It does not change the measurement or recognition of those plans. The new rules require additional disclosures about the assets, obligations, cash flows, and net periodic benefit cost of defined benefit pension plans and other postretirement benefit plans. Part of the new disclosures provisions were effective for 2003 calendar year-end financial statements and accordingly have been applied by the Company in the 2003 annual consolidated financial statements. The rest of the provisions of this Statement, which have a later effective date, are currently being evaluated by the Company.

5. Contingencies:

- a) On October 28, 1999, an Israeli consumer organization lodged a claim against the Company, alleging a variety of consumer complaints and requested that this claim be recognized as a class action.

On March 20, 2002, the Haifa District Court decided to strike the claim, because the consumer organization lost, on December 31, 2001, a special status required under Israeli law for consumer organizations to file class action claims.

Another claim, involving a substantial amount, which was filed by a private consumer who had previously asked to join the above class action, has been brought again before the court. The court had previously frozen the proceedings of the private consumer's claim, until a decision was made in the case filed by the consumer organization.

On May 25, 2003, the private consumer filed a request to amend his motion to file a class action claim and a proposed amended motion and claim. The motion to amend was granted. The Company has submitted its response. According to a procedural agreement between the parties, both the private consumer and the Company have submitted written summations and responses.

While the amount of the claim is substantial, the ultimate liability cannot be determined because of the considerable uncertainties that exist. At this stage, unless and until the claim is certified as class action, the Company and its legal council are unable to evaluate the probability of success of such claim and therefore no provision has been made. In addition, the Company and its legal advisers are of the opinion that in light of the facts known at this early stage, the chances that a material amount would be ordered in favor of the plaintiffs are low.

5. Contingencies (continued):

- b) On July 8, 2001, a claim was filed against the Company for alleged violation of supplier's exclusivity agreement. For filing purposes, the claim was set at NIS 18 million; however, this amount can be increased by the claimant.

At this stage, since preliminary proceedings between the parties are yet to take place, and the parties are holding negotiations and the claim concerns a contract interpretation issue, the Company and its legal counsel are unable to evaluate the probability of success of the said litigation, and therefore no provision has been made.

- c) On April 8, 2002, a claim was filed against the Company, together with a motion to certify this claim as a class action, alleging a variety of consumer complaints. The amount of the claim against the Company is estimated at approximately NIS 545 million plus additional significant amounts relating to other alleged damages. Only preliminary hearings have taken place and the parties await a decision by the court with regards to a preliminary motion to dismiss, which was submitted by the Company.

At this stage, and until the claim is certified as a class action, the Company and its legal council are unable to evaluate the probability of success of such claim, and therefore no provision has been made.

In addition the Company and its legal council are of the opinion that even if the request to approve this claim as a class action is granted, and even if the plaintiff's arguments are accepted, the outcome of the claim will be significantly lower than the abovementioned amount.

- d) On April 13, 2003, a claim was filed against the Company and other cellular telecommunication companies, together with a request to approve this claim as a class action, for alleged violation of antitrust law, alleging that no fee should have been collected for incoming SMS messages or alternatively, that the fee collected is excessive and that it is a result of illegal co-operation between the defendants. The amount of the claim against all the defendants is estimated at approximately NIS 90 million. The Company has filed its response on October 1, 2003.

At this stage, no hearings have taken place and unless and until the claim is certified as a class action, the Company and its legal council are unable to evaluate the probability of success of such claim, and therefore no provision has been made.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (continued)

JUNE 30, 2004

(Unaudited)

5. Contingencies (continued):

- e) The Company does not have building permits for many of its cell sites and as a result is involved in numerous legal actions (including criminal proceedings against officers and directors) relating to this issue.

Most of these proceedings have been settled under plea bargain arrangements, whereby the Company has paid fines of insignificant amounts.

Management, based upon current experience and the opinion of legal counsel, does not believe that these legal actions will result in significant costs to the Company. The accounts do not include a provision in respect thereof.

- f) The Company is a party to various claims arising in the ordinary course of its operations. Management, based upon the opinion of its legal counsel, is of the opinion that the ultimate resolution of these claims will not have a material effect on the financial position of the Company. The accounts do not include a provision in respect thereof.

- g) On July 15, 2003, the Ministry of Communications decided to decrease the deduction rate in respect of payments that Bezeq The Israel Communication Corp. Limited fails to collect from its customers for using the Company's network to 1.1% from 2.5%. The decision is effective retroactively for the period from October 2, 2000 and through August 31, 2003. As from September 1, 2003 the deduction rate was cancelled altogether.

Bezeq has lodged an appeal with the Jerusalem District Court against the Minister's decision.

On January 6, 2004, the Supreme Court within the framework of Partner's appeal against the District Court's verdict in respect of previous case between the parties, that related to Bezeq's failure to collect payments from its customers for using the Company's network for calls from fixed lines to mobile lines ruled that the Minister's decision concerning the aforementioned deduction of 1.1% shall also apply to the period from March 1, 2000 to October 2, 2000, and that this deduction rate shall remain in effect or shall be amended in accordance with the outcome of the appeal lodged by Bezeq against the aforesaid decision of the Minister.

At this stage, the Company and its legal counsel are unable to evaluate the probability of success of the appeal, therefore the effect of the Ministry of Communication's decision on the Company's results (income of approximately NIS 19.5 million), was not recognized.

(Unaudited)

6. On March 15, 2004, the Company signed a Memorandum Of Agreement (MOA) with Matav Cable Systems Media Ltd. (Matav) and its shareholders, Dankner Investments Ltd. and Delek Investments Ltd., which are all considered related parties of the Company.

Matav is an Israeli cable television provider and its shares are registered both in the US and Israel.

The MOA has since expired and the Company has discontinued negotiations regarding this transaction.

7. On June 29, 2004, the Israeli Parliament passed the Income Tax Ordinance Amendment (No. 140 and Ad Hoc Provision) Law, 2004 (hereafter the Amendment), which provides for the gradual reduction commencing from January 1, 2004 in the rate of corporate tax from 36% to 30%, in the following manner: the rate for 2004 will be 35%, in 2005 34%, in 2006 32%, and in 2007 and thereafter 30%. The Amendment was signed at the beginning of July 2004 by the officials authorized by the State of Israel to approve it, and was published in the Official Gazette of the Government of Israel on July 11, 2004.

In accordance with FAS 109 (Accounting for income taxes) the measurement of current and deferred tax liabilities and assets is based on provisions of the enacted tax law at balance sheet date. Since, as at June 30, 2004, the Amendment had not yet been enacted, as defined in FAS 109, the measurement of the current and deferred taxes for the three months and six months ended June 30, 2004 is made without taking the aforementioned Amendment into consideration.

The effect of the Amendment will be included in the financial statements for the period of the three months ended September 30, 2004, resulting in an increase in the Company's income tax expenses (current and deferred) for that period by NIS 34.5 million.

8. On July 28, 2004, the Board of Directors of the Company approved the permanent reduction of the long-term bank facility by an aggregate of approximately \$100 million. The reduction shall occur in steps by the end of the year.
