**PARTNER COMMUNICATIONS ANNOUNCES IT  
RECEIVED A LAWSUIT REQUESTING CERTIFICATION  
AS A CLASS ACTION**

**ROSH HA AYIN, Israel, December 20, 2007** Partner Communications Company Ltd. ( Partner ) (NASDAQ and TASE: PTNR; LSE: PCCD), a leading Israeli mobile communications operator, announced that it was served on Monday, December 17, 2007, with a lawsuit for which certification as a class action is sought, filed against Partner and two other mobile communications operators, in the Tel-Aviv District Court. The plaintiffs allege that cell sites were erected near their properties illegally, causing environmental damage. They seek various remedies, including the removal of all allegedly illegal communications devices, including the Company's and the other operators' 3G communication devices (for which relevant building permits have been obtained under National Zoning Plan 36), wireless access devices (which were deployed pursuant to a waiver from obtaining building permits under the Communication Law) and communication devices which have been concealed in another structure.

The plaintiffs estimate the class damages against all 3 cellular operators together at NIS 1 billion, which amount, if awarded, is to be given to a fund managed by environment and communications specialists.

## Edgar Filing: PARTNER COMMUNICATIONS CO LTD - Form 6-K

Some of the plaintiffs' claims have been similarly raised lately by several local planning and building authorities while the validity of the waiver for wireless access devices is pending in an appeals court decision.

The Company believes it has strong legal arguments against those claims and intends to contest this lawsuit vigorously. At this preliminary stage, the Company is unable to assess the lawsuit's chances of success.

### **About Partner Communications**

Partner Communications Company Ltd. ( Partner ) is a leading Israeli mobile communications operator providing GSM / GPRS / UMTS / HSDPA services and wire free applications under the orange brand. The Company provides quality service and a range of features to 2.796 million subscribers in Israel (as of September 30, 2007).
