Item 1.01. Conflict Minerals Disclosure and Report

Magal Security Systems Ltd. (“Magal”, “we” or “our”) has evaluated its current product lines and determined that certain products that we manufacture or contract to manufacture contain tin, tungsten, tantalum, or gold (3TG), which are defined as “conflict minerals” by the United States Securities and Exchange Commission that are necessary to the functionality or production of our products. Accordingly, Magal is filing this disclosure along with a Conflict Minerals Report to disclose the measures we have taken to determine the origin of the conflict minerals used in our products.

Conflict Minerals Disclosure

We undertook due diligence measures, including surveying our direct suppliers, to try to determine compliance with the Dodd-Frank Act regarding the sources of these minerals used in their manufactured components which we purchase through a complex supply chain.

Currently, we do not have sufficient information from our suppliers or other sources to determine the country of origin of the conflict minerals used in our products or identify the facilities used to process those conflict minerals. Therefore, we cannot exclude the possibility that some of these conflict minerals may have originated in the Democratic Republic of the Congo or an adjoining country and are not from recycled or scrap sources.

A copy of Magal’s Conflict Minerals Report for the reporting period from January 1, 2015 to December 31, 2015 is filed as Exhibit 1.01 hereto and is publicly available at our website under the heading “Corporate Governance” ([http://www.magal-s3.com/Corporate\\_Governance.html](http://www.magal-s3.com/Corporate_Governance.html)). The content of any website referred to in this Form SD is included for general information only and is not incorporated by reference in this Form SD.

Item 2.01. Exhibits

The following exhibit is filed as part of this report:

Exhibit 1.01 – Conflict Minerals Report as required by Items 1.01 and 1.02 of this Form.
