Under the terms of the Agreement, UM granted to ChromaDex a worldwide, exclusive non-transferable right and license to use certain patent rights relating to the compound known as Pterostilbene. Pterostilbene, a compound found in blueberries, grapes and other small fruits, as well as the bark of some trees. The Agreement terminates on the earliest of (i) the expiration date of the last to expire patent right, (ii) failure by ChromaDex to meet certain pre-development commercial milestones or a default by ChromaDex under the Agreement or (iii) upon prior written notice given by ChromaDex.

In consideration of the license granted, ChromaDex will make a cash payment to UM. Additionally, ChromaDex will pay to UM earned royalties on net sales of all licensed products, and ChromaDex is subject to certain annual minimum royalty payments to UM between \$15,000 and \$40,000 during the term of the Agreement.

ChromaDex has agreed to develop, commercialize and market licensed products as soon as practicable and is subject to certain milestone events pursuant to a commercialization development plan in accordance with the terms of the Agreement.

The foregoing is a summary of the material terms of the Agreement and does not purport to be complete. You should read the complete Agreement, which shall be attached as an exhibit to ChromaDex Corporation's Quarterly Report on Form 10-Q for the quarter ended April 3, 2010 and, when filed, such Agreement shall be incorporated by reference herein.
