NOTES:

- (1) Operating cash flow, which is defined as operating income before depreciation, amortization and equity in net income of associated companies, and operating cash flow margin (operating cash flow divided by operating revenue) represent non-GAAP financial measures. A reconciliation of operating cash flow to operating income, the most directly comparable measure under accounting principles generally accepted in the United States (GAAP), is reflected in the tables accompanying this release. The Company believes that operating cash flow and the related margin ratio are useful measures of evaluating its financial performance because of their focus on the Company's results from operations before depreciation and amortization. The Company also believes that these measures are several of the alternative financial measures of performance used by investors, rating agencies and financial analysts to estimate the value of a company and evaluate its ability to meet debt service requirements.
- (2) Certain amounts as previously reported have been reclassified to conform with the current period presentation. The prior period has been restated for comparative purposes, and the reclassifications have no impact on earnings.
- (3) Same property comparisons exclude acquisitions and divestitures made in the current or prior year. Same property revenue also excludes revenue of Madison Newspapers, Inc., (MNI). Lee owns 50% of the capital stock of MNI, which for financial reporting purposes is reported using the equity method of accounting.
- (4) The Company disclaims responsibility for updating information beyond the release date.

The Private Securities Litigation Reform Act of 1995 provides a "Safe Harbor" for forward-looking statements. This release contains information that may be deemed forward-looking and that is based largely on the Company's current expectations and is subject to certain risks, trends and uncertainties that could cause actual results to differ materially from those anticipated. Among such risks, trends and other uncertainties are changes in advertising demand, newsprint prices, interest rates, labor costs, legislative and regulatory rulings and other results of operations or financial conditions, difficulties in integration of acquired businesses or maintaining employee and customer relationships and increased capital and other costs. The words may, will, would, could, believes, expects, anticipates, intends, plans, projects, considers and similar words generally identify forward-looking statements. Readers are cautioned not to place undue reliance on such forward-looking statements, which are made as of the date of this release. The Company does not publicly undertake to update or revise its forward-looking statements.
