OVERVIEW

History And Organization

Prelude Ventures, Inc. (the "Company") was incorporated under the laws of the state of Nevada on May 24, 2000. We have not commenced business operations and we are considered an exploration stage enterprise. To date, our activities have been limited to organizational matters, obtaining a mining engineer's report and the preparation and filing of the registration statement of which this prospectus is a part of. In connection with the organization of our company, the founding shareholder of our company contributed an aggregate of \$25,000 cash in exchange for 1,000,000 shares of common stock (pre-roll forward 6:1). We have no significant assets, and we are totally dependent upon the successful completion of this offering and receipt of the proceeds there from, of which there is no assurance, for the ability to commence our proposed business operations.

Proposed Business

On April 1, 2003, Prelude Ventures, Inc. entered into a definitive agreement to acquire an aggregate of 10,000,000 shares of common stock, being all of the issued and outstanding shares of Pascal Energy Inc. from that company and its shareholders. Prelude has agreed to issue and or exchange following shares: with date of April 01, 2003, 5,000,000 common voting shares, restricted under rule 144 of the Sec. Act, and in such form as requested by the sellers; and at a later date, issue 5,000,000 common voting shares, restricted under rule 144 of the Sec. Act., and in such forma as requested by the sellers, subject to the Prelude paying not less than \$1,000,000 accumulated dividend to its shareholders of record.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

We are a start-up, exploration stage company and have not yet started our business operations or generated or realized any revenues from our business operations.

Our auditors have issued a going concern opinion. This means that our auditors believe there is doubt that we can continue as an on-going business for the next twelve months unless we obtain additional capital to pay our bills.

Limited Operating History; Need for Additional Capital

There is no historical financial information about our company upon which to base an evaluation of our performance. We are an exploration stage company and have not generated any revenues from operations. We cannot guarantee we will be successful in our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources, possible delays in the exploration of our properties, and possible cost overruns due to price and cost increases in services. To become profitable and competitive, we conduct research and exploration of our properties. We are seeking equity financing to provide for the capital required to implement our research and exploration phases.

We have no assurance that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dilution to existing shareholders.

Results of Operations

From Inception on May 24, 2000

We Initially acquired our first interest in lode mining claims. These claims were abandoned during the three months ended March 31, 2003.

During the past quarter our operations focused upon the investigation and acquisition of Pascal Energy Inc.

Pascal Energy Inc. is involved in oilfield infrastructure services mainly in the Province of Alberta Canada.

Plan of Operations

Since inception, we have used our common stock to raise money for our property acquisition, for corporate expenses and to repay outstanding indebtedness. Net cash provided by financing activities from inception on May 24, 2000 to June 30, 2001 was \$5,500 as a result of proceeds received from our president and sole director. On April 11, 2001 we received additional cash financing of \$19,500 as a result of proceeds received from our then president and sole director.

Prelude's plan of operations for the next twelve months is to undertake development of Pascal Energy Inc. including acquisition of additional businesses and expansion of existing operations in Canada and the United States.

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

The Company recognizes a need for additional capital that will be sought through the sale of additional equity by way of Private Placement. Funds generated will be used to fund working capital requirements as well as expansion and acquisitions.

Liquidity and Capital Resources

As of the date of this report, we have yet to generate any revenues from our business operations. Since our inception, the Company's founder paid \$25,000 in cash in exchange for 1,000,000 shares of common stock. We have also issued 1,500,000 shares of stock pursuant to our Form SB-2 registration statement. This money was utilized for organizational and start-up costs and as operating capital. An additional 75,000 was raised through the issue of common shares last year. As of March 31, 2003 we had sustained cumulative operating losses of \$118,922.

The quarter ended March 31, 2003 saw an increase in activity which was due primarily to the investigation of the purchase of Pascal Energy Inc.

Management fees were \$15,000 for the quarter and legal and accounting fees increased to \$5,657 and \$5,321 respectively from \$nil and \$2,167 in the 3 months ended March 31, 2002. These fees increased in connection with the acquisition purchase investigation that resulted in the signing of the agreement noted in the 8K dated April 15, 2003.

As at March 31, 2003 the Company had insufficient funds to continue operations. Funds have been provided by Directors and Shareholders which if not continued could result in the Company curtailing operations.

The company's cash resources amounted to \$18,063 as at March 31, 2003

Should the Company be unsuccessful in its attempts to raise capital it may have to curtail operations.

NOTES TO THE INTERIM FINANCIAL STATEMENTS
March 31, 2003
(Stated in US Dollars)
(Unaudited)

Note 1 Interim Reporting

While information presented in the accompanying interim three months financial statements is unaudited, it includes all adjustments which are, in the opinion of management, necessary to present fairly the financial position, results of operations and cash flows for the interim period presented. All adjustments are of a normal recurring nature. It is suggested that these interim financial statements be read in conjunction with the company's December 31, 2002 financial statements.

Note 2 Continuance of Operations

The financial statements have been prepared using generally accepted accounting principles in the United States of America applicable for a going concern which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. At March 31, 2003, the Company has a working capital deficiency of \$18,922 and has accumulated losses of

Edgar Filing: PRELUDE VENTURES INC - Form 10QSB

\$118,922 since its commencement. Its ability to continue as a going concern is dependent upon the ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due.

Note 3

The term of the lease was for 20 years, with automatic extensions so long as the conditions of the lease are met. The Company was required to pay minimum advance royalty payments totalling \$97,500 on various dates to March 9, 2005 and then \$50,000 every March 9 thereafter. The Company had paid a total of \$7,500 in minimum advance royalty payments.

During the three months ended March 31, 2003, management of the Company abandoned the mining lease. As the Company terminated the lease, it is required to pay all federal and state mining claim maintenance fees for the current year. The Company is required to perform reclamation work in the property as required by federal state and local law for disturbances resulting from the Company's activities on the property.
