RBS Group – Q3 2010 Results

Forward-looking statements

Certain sections in this document contain 'forward-looking statements' as that term is defined in the United States Private Securities Litigation Reform Act of 1995, such as statements that include the words 'expect', 'estimate', 'project', 'anticipate', 'believes', 'should', 'intend', 'plan', 'could', 'probability', 'risk', 'Value-at-Risk (VaR)', 'target', 'goal', 'objective', 'endeavour', 'outlook', 'optimistic', 'prospects' and similar expressions or variations on such expressions.

In particular, this document includes forward-looking statements relating, but not limited to: the Group's restructuring plans, capitalisation, portfolios, net interest margin, capital ratios, liquidity, risk weighted assets, return on equity (ROE), cost:income ratios, leverage and loan:deposit ratios, funding and risk profile; the Group's future financial performance; the level and extent of future impairments and write-downs; the protection provided by the Asset Protection Scheme (APS); and the Group's potential exposures to various types of market risks, such as interest rate risk, foreign exchange rate risk and commodity and equity price risk. These statements are based on current plans, estimates and projections, and are subject to inherent risks, uncertainties and other factors which could cause actual results to differ materially from the future results expressed or implied by such forward-looking statements. For example, certain of the market risk disclosures are dependent on choices about key model characteristics and assumptions and are subject to various limitations. By their nature, certain of the market risk disclosures are only estimates and, as a result, actual future gains and losses could differ materially from those that have been estimated.

Other factors that could cause actual results to differ materially from those estimated by the forward-looking statements contained in this document include, but are not limited to: the full nationalisation of the Group or other resolution procedures under the Banking Act 2009; the global economy and instability in the global financial markets, and their impact on the financial industry in general and on the Group in particular; the financial stability of other financial institutions, and the Group's counterparties and borrowers; the ability to complete restructurings on a timely basis, or at all, including the disposal of certain Non-Core assets and assets and businesses required as part of the EC State Aid restructuring plan; organisational restructuring; the ability to access sufficient funding to meet liquidity needs; cancellation, change or withdrawal of, or failure to renew, governmental support schemes; the extent of future write-downs and impairment charges caused by depressed asset valuations; the inability to hedge certain risks economically; costs or exposures borne by the Group arising out of the origination or sale of mortgages or mortgage-backed securities in the United States; the value and effectiveness of any credit protection purchased by the Group; unanticipated turbulence in interest rates, yield curves, foreign currency exchange rates, credit spreads, bond prices, commodity prices and equity prices; changes in the credit ratings of the Group; ineffective management of capital or changes to capital adequacy or liquidity requirements; changes to the valuation of financial instruments recorded at fair value; competition and consolidation in the banking sector; HM Treasury exercising influence over the operations of the Group; the ability of the Group to attract or retain senior management or other key employees; regulatory change in the United Kingdom, the United States and other countries in which the Group operates or a change in United Kingdom Government policy; changes to regulatory requirements relating to capital and liquidity; changes to the monetary and interest rate policies of the Bank of England, the Board of Governors of the Federal Reserve System and other G7 central banks; impairments of goodwill; pension fund shortfalls; litigation and regulatory investigations; general operational risks; insurance claims; reputational risk; general geopolitical and economic conditions in the UK and in other countries in which the Group has significant business activities or investments, including the United States; the ability to achieve revenue benefits and cost savings from the integration of certain of RBS Holdings N.V.'s (formerly ABN AMRO Holding N.V.) businesses and assets; changes in UK and foreign laws, regulations, accounting standards and taxes, including changes in regulatory capital regulations and liquidity requirements; the participation of the Group in the APS and the effect of the APS on the Group's financial and capital position; the ability to access the contingent capital arrangements with HM Treasury; the conversion of the B Shares in accordance with their terms; limitations on, or additional requirements imposed on, the Group's activities

as a result of HM Treasury's investment in the Group; and the success of the Group in managing the risks involved in the foregoing.

The forward-looking statements contained in this document speak only as of the date of this announcement, and the Group does not undertake to update any forward-looking statement to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

The information, statements and opinions contained in this document do not constitute a public offer under any applicable legislation or an offer to sell or solicitation of any offer to buy any securities or financial instruments or any advice or recommendation with respect to such securities or other financial instruments.

RBS Group – Q3 2010 Results

Presentation of information

Pro forma results

Pro forma results have been prepared to include only those business units of ABN AMRO that have been retained by RBS and to reclassify certain non-operating items. The business and strategic update, divisional performance and discussion of risk and capital management in this announcement focus on the pro forma results. The basis of preparation of the pro forma results is detailed on page 63.

Statutory results

RFS Holdings is the entity that acquired ABN AMRO and is jointly owned by the Consortium Members. It is controlled by RBS and is therefore fully consolidated in its financial statements. The interests of Fortis, and its successor the State of the Netherlands, and Santander in RFS Holdings are included in minority interests. Following legal separation on 1 April 2010, the interests of other Consortium Members in RFS Holdings relate only to shared assets. In future years, there will be no significant differences between pro forma and statutory results in respect of ABN AMRO.

Notes:

- (1) Excluding fair value of own debt, gain on redemption of own debt, strategic disposals and Asset Protection Scheme credit default swap – fair value changes.
- (2) Excluding amortisation of purchased intangible assets, integration and restructuring costs, bonus tax and write-down of goodwill and other intangible assets.
- (3) Operating profit/(loss) before tax, amortisation of purchased intangible assets, integration and restructuring costs, gain on redemption of own debt, strategic disposals, bonus tax, Asset Protection Scheme credit default swap – fair value changes and write-down of goodwill and other intangible assets.
- (4) Excluding write-down of goodwill and other intangible assets.
- (5) Cost:income ratio is based on total income and operating expenses as defined in (1) and (2) above.
- (6) Adjusted cost:income ratio is based on total income and operating expenses as defined in (1) and (2) above and after netting insurance claims against income.
- (7) Adjusted (loss)/profit from continuing operations attributable to ordinary and B shareholders divided by weighted average number of ordinary and B shares in issue. Refer to page 69.
- (8) Funded balance sheet represents total assets less derivatives.
- (9) Tier 1 leverage ratio is total tangible assets (after netting derivatives) divided by Tier 1 capital.
- (10) Tangible equity leverage ratio is total tangible equity divided by total tangible assets (after netting derivatives).

Results summary – statutory

Highlights

- Income of £6,086 million for Q3 2010.
- Operating loss before tax of £1,560 million for Q3 2010.
- Core Tier 1 ratio 10.2%.

Notes:

- (1) Refer to notes on page 13.
- (2) Retail & Commercial comprises the UK Retail, UK Corporate, Wealth, Global Transaction Services, Ulster Bank and US Retail & Commercial divisions.

Key points

Q3 2010 compared with Q2 2010

- Group net interest margin (NIM) improved to 2.05%, up 2 basis points from the second quarter.
- NIM in the Retail & Commercial businesses improved by 12 basis points, primarily due to recovering asset margins across a number of markets. Wider asset margins primarily reflect the run-off of older business written at lower margins, with front book margins largely stable. Repricing of retail and corporate assets is well advanced, with retail re-pricing further along than corporate, given the shorter average asset maturity.
- Net interest income of £3,459 million was £108 million lower than in Q2 2010 primarily due to adverse movements in IFRS volatility along with lower average interest earning assets, principally in GBM.
- The Group NIM is affected by increased funding costs as a result of the expansion of its liquidity portfolio as well as the successful terming out of wholesale funding. These costs reduced the NIM by about 4 basis points in Q3 2010.

Q3 2010 compared with Q3 2009

- Compared with the third quarter of 2009, Group NIM widened by 30 basis points.

In Retail & Commercial, NIM increased by 32 basis points to 3.23%, with progressive asset repricing more than offsetting liability margin pressure, as well as the costs of holding a higher liquidity portfolio and terming out wholesale funding.

Average balance sheet – pro forma (continued)

Notes:

- (1) Interest receivable and interest payable on trading assets and liabilities are included in income from trading activities.
- (2) Interest-earning assets and interest-bearing liabilities exclude the Retail bancassurance long-term assets and liabilities, attributable to policyholders, in view of their distinct nature. As a result, net interest income has been increased by £1 million (June 2010 – £2 million).
- (3) Changes in the fair value of interest-bearing financial instruments designated as at fair value through profit or loss are recorded in other operating income in the consolidated income statement. In the average balance sheet above, interest includes increased interest income and interest expense related to these instruments of £41 million (June 2010 – £3 million) and £3 million (June 2010 – £12 million) respectively and the average balances have been adjusted accordingly.
- (4) Interest payable has been decreased by £16 million in respect of non-recurring adjustments (June 2010 – increased by £110 million).

Fair value of own debt	(858)	619	(483)	(408)	(412)

Key points

Q3 2010 compared with Q2 2010

- Income from trading activities, excluding movements in the fair value of own debt, declined by £70 million, with economic uncertainty and the seasonally quieter summer period leading to weaker capital market conditions, reduced volatility and lower client activity. Non-Core income from trading activities was £219 million, compared with £33 million in the second quarter, reflecting credit market write-backs.
- Other operating income, excluding movements in the fair value of own debt, improved to £359 million from £232 million in the second quarter which included a £105 million loss on disposal of sovereign debt securities, including Portugal and Greece.
- The Group's credit spreads narrowed during the quarter, resulting in a loss of £858 million on the fair value of own debt, compared with a gain of £619 million in the second quarter.

Q3 2010 compared with Q3 2009

- Excluding fair value of own debt, GBM trading income was 38% lower than in the third quarter of 2009, which saw greater activity and volatility in capital markets. Non-Core trading income of £219 million compared with a loss of £579 million in the prior year period when losses were incurred on banking book hedges and CDPCs.
- Other operating income, excluding movements in the fair value of own debt, totalled £359 million compared with £344 million in the third quarter of 2009.
- The charge of £858 million on the fair value of own debt compares with a charge of £483 million in the third quarter of 2009, resulting from a sharp improvement in the Group's credit spreads during the quarter.

Staff costs as a % of total income	27%	27%	29%	27%	31%

Key points

Q3 2010 compared with Q2 2010

- Total expenses were flat at £4,096 million. Excluding a £74 million credit in Q2 2010 relating to changes to the US defined benefit pension plan, expenses were down 2% due to good cost control and the benefits of the Group's efficiency programmes. Staff costs were similarly well controlled.
- Insurance claims fell by 14% to £1,142 million, with a reduction during the quarter in prior year-related bodily injury reserving.

Q3 2010 compared with Q3 2009

- Total expenses were down 2% compared with a year ago due to the benefits of the Group's efficiency programmes, particularly in relation to property and purchasing.

Key points

Q3 2010 compared with Q2 2010

Within Core, Retail & Commercial impairments were down 12%, £109 million, compared with the second quarter of 2010 with improvements in both personal and mortgage loans. The exception remains Ulster Bank where impairments remain elevated reflecting a very weak economy and property market. In GBM there was an absence of individual impairments and several minor recoveries.

- Non-Core impairments of £1,171 million were down £219 million compared with the second quarter.

Q3 2010 compared with Q3 2009

- Impairments were lower across most divisions compared with the elevated levels experienced in the prior year, reflecting our risk reduction actions and slightly better economic conditions. Impairment losses in Ulster Bank, however, worsened, reflecting the continuing deterioration in credit metrics across the Irish economy.
- Impairments in the quarter versus a year ago were down 36% in Core and 43% in Non-Core.

Notes:

- (1) Included in 'Income from trading activities', all in Non-Core in Q3 2010.
(2) Credit derivative product companies.

Key points

Q3 2010 compared with Q2 2010

Net gains of £142 million compared with losses of £93 million in Q2 2010, primarily reflect general tightening of credit spreads across a range of asset classes in Q3 2010, compared with widening of spreads in the second quarter, together with a rally in asset prices. These factors more than offset losses on banking book hedges.

Gains on monoline exposures reflect tightening credit spreads and net reductions in exposures, following restructuring; these were partially offset by foreign currency movements. In Q2 2010, credit spread movements more than offset reductions in exposures from restructuring.

Gains on asset-backed products in both quarters resulted from disposals and asset price improvements.

The losses on the banking book hedges in Q3 2010 compared with gains in Q2 2010 reflect tightening credit spreads.

Q3 2010 compared with Q3 2009

Gains of £142 million compared with losses of £774 million in Q3 2009 when substantial losses on CDPCs and banking book hedges were incurred due to widening credit spreads.

Monoline-related gains in Q3 2010 reflect tighter credit spreads compared with widening credit spreads in Q3 2009.

In Q3 2009 widening credit spreads resulted in higher CDPC credit valuation adjustment, but it remained broadly flat in Q3 2010 primarily reflecting exchange movements and tighter credit spreads.

Asset-backed product gains in both quarters reflected disposals and price improvements.

Lower losses on banking book hedges in Q3 2010 compared with Q3 2009 reflect lower credit spread movement on a smaller book.

– fair value changes	(825)	500	-	(825)	-
	(1,247)	288	(552)	(1,693)	2,817

Key points

- The Asset Protection Scheme (APS) is structured as a credit derivative, and movements in the fair value of the contract led to a charge of £825 million in the third quarter compared with a credit of £500 million in the second quarter. This largely reflected tightening credit spreads across the portfolio of covered assets, leading to a fall in the fair value of the protection provided by the contract. The minimum fee on the APS policy throughout its life remains £2.5 billion, with the cumulative fees paid for coverage through to the end of 2010 at £1.4 billion.
- The second quarter saw £553 million of liability management gains, partially offset by losses on strategic disposals of £411 million.

Results summary (continued)

	30 September 2010	30 June 2010	31 December 2009
Capital resources and ratios			
Core Tier 1 capital	£48bn	£50bn	£48bn
Tier 1 capital	£59bn	£61bn	£63bn
Total capital	£64bn	£66bn	£71bn
Risk-weighted assets – gross	£592bn	£597bn	£566bn
Benefit of Asset Protection Scheme	(£117bn)	(£123bn)	(£128bn)
Risk-weighted assets	£475bn	£474bn	£438bn
Core Tier 1 ratio*	10.2%	10.5%	11.0%
Tier 1 ratio	12.5%	12.8%	14.4%
Total capital ratio	13.5%	13.9%	16.3%

* Benefit of APS in Core Tier 1 ratio is 1.2% at 30 September 2010, 1.3% at 30 June 2010 and 1.6% at 31 December 2009.

Key points

- The attributable loss and reduced risk-weighted asset (RWA) relief on the Asset Protection Scheme led to a decline of 30 basis points to 10.2% in the Core Tier 1 ratio and to 12.5% in the Tier 1 ratio. The Total Capital ratio declined by 40 basis points to 13.5%.
- Gross RWAs were broadly flat at £592 billion, reflecting successful Non-Core de-leveraging counterbalanced by the roll-off of capital relief trades within GBM.
- RWAs eligible for the Asset Protection Scheme relief declined by £6 billion to £117 billion, reflecting disposals and repayments as well as changes in risk parameters.

Results summary (continued)

	30		31
	September	30 June	December
	2010	2010	2009
Balance sheet			
Total assets	£1,629bn	£1,581bn	£1,522bn
Funded balance sheet	£1,080bn	£1,058bn	£1,084bn
Loans and advances to customers (1)	£528bn	£539bn	£555bn
Customer deposits (2)	£421bn	£421bn	£414bn
Loan:deposit ratio (Core – net of provisions)	101%	102%	104%
Loan:deposit ratio (Group – net of provisions)	126%	128%	135%

Notes:

- (1) Excluding reverse repurchase agreements and stock borrowing.
(2) Excluding repurchase agreements and stock lending.

Key points

- The funded balance sheet increased by £22 billion during the third quarter. This reflects growth in the GBM balance sheet of £21 billion compared with the seasonally low position at the end of the second quarter and growth in our liquidity portfolio, partially offset by further deleveraging in Non-Core, which reduced its balance sheet by £20 billion to £154 billion.
- Loans and advances in Retail & Commercial at constant currency were flat during the quarter at £336 billion, with growth in UK Retail balanced by small reductions elsewhere as loan demand remained subdued.
- At constant exchange rates, Retail & Commercial deposits rose by 1% during the third quarter and by 6% year-on-year. GBM deposits fell by £4.7 billion during the quarter, with excess short term balances continuing to decline.

Further discussion of the Group's funding and liquidity position is included on pages 107 to 112.
