The following information was issued as a Company announcement in London, England and is furnished pursuant to General Instruction B to the General Instructions to Form 6-K

The Royal Bank of Scotland Group plc

Group reporting changes

Following share sales in October 2012 and March 2013, the Group now holds less than 50% of the issued ordinary share capital in DLG and has ceded control. Consequently, in the Group results DLG is treated as a discontinued operation until 12 March 2013 and as an associated undertaking thereafter, with associate income reported in Group Centre from 13 March 2013. DLG is no longer a reportable operating segment of the Group.

In order to assist investors and analysts, this announcement updates the Group's prior period results on a managed basis for this change in treatment of DLG. While these restatements affect the reported results on a managed basis, they have no impact on the Group's statutory income statement, balance sheet or other primary statements.

The restated financial information for prior periods also includes the impact of IAS 19 'Employee Benefits' (revised) and IFRS 10 'Consolidated Financial Statements', which were implemented by the Group on 1 January 2013 and reflected in the Group's Q1 2013 results announced on 3 May 2013.

IAS 19

IAS 19 requires: the immediate recognition of all actuarial gains and losses; interest cost to be calculated on the net pension liability or asset at the long-term bond rate, an expected rate of return will no longer be applied to assets; and all past service costs to be recognised immediately when a scheme is curtailed or amended. Implementation of IAS 19 resulted in an increase in the loss after tax of £84 million and £154 million for the years ended 31 December 2012 and 2011 respectively; £42 million for the half year ended 30 June 2012; and £21 million for the quarter ended 30 June 2012.

IFRS 10

Implementation of IFRS 10 resulted in a reduction in non-controlling interests of £0.5 billion with a corresponding increase in Owners' equity (Paid-in equity) as at 31 December 2012, 30 June 2012 and 31 December 2011. This led to an increase in the loss attributable to non-controlling interests of £13 million for the year ended 31 December 2012; £6 million for the half year ended 30 June 2012; and £6 million for the quarter ended 30 June 2012, with corresponding increases in the profit attributable to paid-in equity holders. There was no impact on the profit/(loss) attributable to ordinary and B shareholders. A capital reconciliation is shown on page 11.

The above restatements have no impact on the Group's regulatory capital.

2013 Interim results

The Group's 2013 Interim results will be announced on Friday 2 August 2013. These results will be reported on the basis described above. A financial supplement showing restated financial information for the last nine quarters will also be available on 2 August at www.rbs.com/ir

- (2) Operating profit as reported in the Interim Results for the half year ended 30 June 2012.
- (3) Adjustments to total income relate to the elimination of DLG income, comprising instalment income of £24 million (Q2 2012 - £31 million), investment income of £27 million (Q2 2012 - £73 million), other income of £12 million (Q2 2012 - £(2) million) and insurance net premium income of £699 million (Q2 2012 - £929 million), offset by net fees and commissions payable of £73 million (Q2 2012 - £113 million).
- (4) Adjustments to operating expenses relate to the elimination of DLG expenses of £445 million (Q2 2012 - £271 million) including certain DLG related activities and charges in Group Centre in Q2 2012. This was partially offset by the increase of £28 million in Q2 2012 in pension costs resulting from the implementation of IAS 19. The previously reported numbers for Q1 2013 already reflected the implementation of IAS 19.
- (5) Cost:income ratio is based on total income and operating expenses, and after netting insurance claims against income.

Non-Core summary consolidated income statement

DLG activities in Non-Core were transferred to DLG operating segment with effect from 1 January 2012. Consequently, for Non-Core, the only period impacted by the change in treatment for DLG was the year ended 31 December 2011.

Capital resources

Implementation of IFRS 10 resulted in certain entities that have trust preferred securities in issue no longer being consolidated in the Group. As a result there was a reduction in non-controlling interests with a corresponding increase in shareholders' equity.
