**Table of Contents****FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited)****(1) Description of Business and Basis of Presentation**

**Organization.** Federal Trust Corporation ( Federal Trust ) is the sole shareholder of Federal Trust Bank (the Bank ). Federal Trust operates as a unitary savings and loan holding company. Federal Trust's primary business activity is the operation of the Bank. The Bank is federally-chartered as a stock savings bank. The Bank's deposits are insured up to the applicable limits by the Federal Deposit Insurance Corporation. The Bank provides a wide range of banking services to individual and corporate customers through its six offices located in Orange, Seminole and Volusia Counties, Florida. FTB Financial, Inc., a wholly-owned subsidiary of the Bank, was established in May 1996, to provide investment services to customers of the Bank. FTB Financial, Inc. ceased operations in September 2003, and is currently inactive.

The condensed consolidated financial statements, include the accounts of Federal Trust, the Bank and the Bank's subsidiary (collectively, the Company ). All significant intercompany accounts and transactions have been eliminated in consolidation.

In the opinion of management, the accompanying condensed consolidated financial statements contain all adjustments (principally consisting of normal recurring accruals) necessary to present fairly the financial position as of September 30, 2004, the results of operations for the three- and nine-month periods ended September 30, 2004 and 2003, and cash flows for the nine-month periods ended September 30, 2004 and 2003. The results of operations for the three- and nine-month periods ended September 30, 2004, are not necessarily indicative of the results to be expected for the entire year ended December 31, 2004. These statements should be read in conjunction with the consolidated financial statements included in the Company's Annual Report on Form 10 - KSB for the year ended December 31, 2003.

**(2) Loans**

The components of loans are summarized as follows (in thousands):

	<u>At September 30,</u> <u>2004</u>	<u>At December 31,</u> <u>2003</u>
Mortgage loans:		
Residential <sup>(1)</sup>	\$ 343,866	\$ 302,083
Commercial	109,606	78,209
Construction	11,750	7,079
	<u>465,222</u>	<u>387,371</u>
Total mortgage loans	465,222	387,371
Commercial loans	12,241	12,389
Consumer loans	834	864
	<u>478,297</u>	<u>400,624</u>
Total loans	478,297	400,624
Add (deduct):		

Edgar Filing: FEDERAL TRUST CORP - Form 10QSB

Allowance for loan losses	(3,526)	(2,779)
Net premiums, discounts, deferred fees and costs	3,503	3,346
Undisbursed portion of loans in process	(5,188)	(2,790)
	<u>          </u>	<u>          </u>
Loans, net	\$ 473,086	\$ 398,401
	<u>          </u>	<u>          </u>

(1) Includes \$779,000 and \$679,000 of loans held for sale at September 30, 2004 and December 31, 2003, respectively.

(continued)

**Table of Contents****FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited), Continued****(2) Loans, Continued**

The following is a summary of information regarding nonaccrual and impaired loans (in thousands):

	At			
	September 30,		December 31,	
	2004		2003	
Nonaccrual loans	\$ 4,085		\$ 6,396	
Accruing loans past due ninety days or more	\$		\$	
Recorded investment in impaired loans for which there is a related allowance for loan losses	\$ 4,130		\$ 8,249	
Recorded investment in impaired loans for which there is no related allowance for loan losses	\$		\$	
Allowance for loan losses related to impaired loans	\$ 299		\$ 1,110	
	<b>Three Months Ended</b>		<b>Nine Months Ended</b>	
	<b>September 30,</b>		<b>September 30,</b>	
	<b>2004</b>	<b>2003</b>	<b>2004</b>	<b>2003</b>
Interest income recognized and received on impaired loans	\$ 34	\$ 21	\$ 110	\$ 60
Average net recorded investment in impaired loans	\$ 4,129	\$ 6,845	\$ 4,714	\$ 6,078

The activity in the allowance for loan losses is as follows (in thousands):

Edgar Filing: FEDERAL TRUST CORP - Form 10QSB

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2004	2003	2004	2003
Balance at beginning of period	\$ 3,390	\$ 2,461	\$ 2,779	\$ 2,110
Provision for loan losses	150	70	850	395
Charge-offs	(24)	(13)	(108)	(30)
Recoveries	1	2	5	45
Balance at end of period	\$ 3,526	\$ 2,520	\$ 3,526	\$ 2,520

A provision for loan losses is charged to earnings based upon management's evaluation of the potential losses in its loan portfolio. During the three and nine months ended September 30, 2004, management made provisions of \$150,000 and \$850,000, respectively, based on its evaluation of the loan portfolio, as compared to the provisions of \$70,000 and \$395,000, respectively, made in the comparable periods in 2003. The increase is primarily a result of an increase in total loans outstanding, as well as an increase in the percentage of commercial real estate loans in the Company's portfolio. At September 30, 2004, management believes that the allowance is adequate, primarily as a result of the overall quality and the high percentage of residential single family home loans in the portfolio.

(continued)

**Table of Contents****FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited), Continued****(3) Regulatory Capital**

The Bank is subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a direct material effect on the Bank's and the Company's financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and percentages (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets and Tier I capital to average adjusted assets (as defined in the regulations). Management believes, as of September 30, 2004, that the Bank exceeds the minimum capital adequacy requirements to which it is subject.

In addition, as of September 30, 2004, the Bank met the requirements to be categorized as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain total risk-based, Tier I risk-based and Tier I leverage percentages as set forth in the table below. There are no conditions or events since September 30, 2004, that management believes would change the institution's categorization as well capitalized. The following table summarizes the capital thresholds for each prompt corrective action capital category. A financial institution's capital category is based on whether it meets the threshold for all three capital ratios within the category. The Bank's actual capital amounts and percentages are also presented in the table (\$ in thousands).

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	%	Amount	%	Amount	%
<b>At September 30, 2004:</b>						
Total capital (to risk-weighted assets)	\$ 40,776	11.4%	\$ 28,600	8.0%	\$ 35,750	10.0%
Tier I capital (to risk-weighted assets)	37,289	10.4%	14,300	4.0%	21,450	6.0%
Tier I capital (to average adjusted assets)	37,289	6.9%	21,640	4.0%	27,050	5.0%

(continued)

**Table of Contents****FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited), Continued****(4) Earnings Per Share of Common Stock**

The Company follows the provisions of Financial Accounting Standards No. 128, Earnings Per Share ( SFAS No. 128 ). SFAS No. 128 provides accounting and reporting standards for calculating earnings per share. Basic earnings per share of common stock has been computed by dividing the net earnings for the period by the weighted-average number of shares outstanding. Shares of common stock purchased by the Company's Employee Stock Ownership Plan ( ESOP ) are considered outstanding when the shares are allocated to participants. Diluted earnings per share is computed by dividing net earnings by the weighted-average number of shares outstanding including the dilutive effect of stock options computed using the treasury stock method. The following table presents the calculation of basic and diluted earnings per share of common stock (in thousands, except per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2004	2003	2004	2003
Weighted-average shares outstanding before adjustment for unallocated ESOP shares	7,453	6,591	6,929	6,591
Adjustment to reflect the effect of unallocated ESOP shares	(131)		(132)	
Weighted-average shares outstanding for basic earnings per share	7,322	6,591	6,797	6,591
Basic earnings per share	\$ .13	\$ .11	\$ .38	\$ .31
Total weighted-average shares outstanding for basic earnings per share computation	7,322	6,591	6,797	6,591
Additional dilutive shares using the average market value for the period utilizing the treasury stock method regarding stock options	164	179	162	138
Weighted-average shares and equivalents outstanding for diluted earnings per share	7,486	6,770	6,959	6,729
Diluted earnings per share	\$ .13	\$ .11	\$ .37	\$ .31

(continued)

**Table of Contents****FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited), Continued****(5) Stock Compensation Plans**

The Company has two stock options plans. The Key Employee Stock Compensation Program (the Employee Plan) is authorized to issue up to 10% of the issued shares up to a maximum of 1,000,000 shares (after being amended at the 2004 Annual Meeting of Shareholders) through the exercise of incentive stock options, compensatory stock options, stock appreciation rights or performance shares. All awards granted under the Employee Plan have been incentive stock options. These options have ten year terms and vest ratably over various terms up to five years. At September 30, 2004, the Company had 355,323 options available for future grants under the Employee Plan.

The Directors Stock Option Plan (the Director Plan) is authorized to issue up to 140,000 shares. All options granted under the Director Plan have ten year terms, vest immediately and are not exercisable for a period of six months after the grant date. At September 30, 2004, all of the allocated options in the Director Plan had been granted.

During 1998, 350,000 options were granted under both plans at an exercise price less than the then market price. This amount was being expensed over the related vesting periods of options still outstanding. These options were fully vested during the second quarter of 2003, consequently there was no compensation costs relating to these options during the three or nine months ended September 30, 2004. Compensation costs relating to these options was approximately \$10,000 for the nine months ended September 30, 2003.

A summary of stock option transactions follows (\$ in thousands, except per share data):

	<b>Number of Options</b>	<b>Range of Per Share Option Price</b>	<b>Aggregate Option Price</b>

Table of Contents**FEDERAL TRUST CORPORATION AND SUBSIDIARY****Notes to Condensed Consolidated Financial Statements (Unaudited), Continued****(5) Stock Compensation Plans, Continued**

Statement of Financial Accounting Standards ( SFAS No. 123 ) Accounting for Stock-Based Compensation, as amended by SFAS No. 148 Accounting for Stock-Based Compensation Transition and Disclosure, (collectively, SFAS No. 123 ), encourages all entities to adopt a fair value based method of accounting for employee stock compensation plans, whereby compensation cost is measured at the grant date based on the value of the award and is recognized over the service period, which is usually the vesting period. However, it also allows an entity to continue to measure compensation cost for those plans using the intrinsic value based method of accounting prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees ( APB No. 25 ), whereby compensation cost is the excess, if any, of the quoted market price of the stock at the grant date (or other measurement date) over the amount an employee must pay to acquire the stock. The Company accounts for their stock option plans under the recognition and measurement principles of APB No. 25. The following table illustrates the assumptions used in calculating the grant-date fair value and the effect on net earnings and basic and diluted earnings per share as if the Company had applied the fair value recognition provisions of SFAS No. 123 to stock-based employee compensation. For purposes of proforma disclosure, the estimated fair value is included in expense in the period vesting occurs (\$ in thousands, except per share amounts):

**Review by Independent Registered Public Accounting Firm**

Hacker, Johnson & Smith PA, the Company's independent registered public accounting firm, have made a limited review of the financial data as of September 30, 2004, and for the three and nine month periods ended September 30, 2004 and 2003, presented in this document, in accordance with standards established by the Public Company Accounting Oversight Board.

Their report furnished pursuant to Article 10 of Regulation S-X is included herein.

**Table of Contents**

**Report of Independent Registered Public Accounting Firm**

Federal Trust Corporation

Sanford, Florida:

We have reviewed the accompanying interim condensed consolidated balance sheet of Federal Trust Corporation and Subsidiary (the Company) as of September 30, 2004, the related interim condensed consolidated statements of earnings for the three- and nine-month periods ended September 30, 2004 and 2003 and the related interim condensed consolidated statements of stockholders' equity and cash flows for the nine-month periods ended September 30, 2004 and 2003. These interim financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim condensed consolidated financial statements for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board, the consolidated balance sheet as of December 31, 2003, and the related consolidated statements of earnings, stockholders' equity and cash flows for the year then ended (not presented herein); and in our report dated January 30, 2004 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of December 31, 2003, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

**Item 2. Management's Discussion and Analysis of  
Financial Condition and Results of Operations**

**Comparison of September 30, 2004 and December 31, 2003**

**General**

Federal Trust Corporation (Federal Trust) is the sole shareholder of Federal Trust Bank (the Bank). Federal Trust operates as a unitary savings and loan holding company. Federal Trust's business activities primarily include the operation of the Bank. The Bank is federally-chartered as a stock savings bank and the Bank's deposits are insured up to the applicable limits by the Federal Deposit Insurance Corporation. The Bank provides a wide range of banking services to individual and corporate customers through its six offices located in Orange, Seminole and Volusia Counties, Florida. FTB Financial, Inc., a wholly-owned subsidiary of the Bank, was established in May 1996, to provide investment services to customers of the Bank. FTB Financial, Inc. ceased operations in September 2003, and is currently inactive. Federal Trust, the Bank and the Bank's subsidiary are collectively referred to herein as the Company.

**Forward Looking Statements**

Readers should note, in particular, that this document contains forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act), that involve substantial risks and uncertainties. When used in this document, or in the documents incorporated by reference herein, the words anticipate, believe, estimate, may, intend and expect and similar expressions identify certain of such forward-looking statements. Actual results, performance or achievements could differ materially from those contemplated, expressed or implied by the forward-looking statements contained herein. Actual results may differ materially, depending upon a variety of important factors, including competition, inflation, general economic conditions, changes in interest rates and changes in the value of collateral securing loans we have made, among other things.

**Capital Resources**

During the nine months ended September 30, 2004, the Company's primary source of funds consisted of net increases in deposits of \$46.0 million and Federal Home Loan Bank advances of \$21.5 million and net principal repayments and sales of loans of \$49.7 million and securities available for sale of \$12.6 million. The Company also raised \$10.0 million in net proceeds from a public equity offering of its common stock during the nine months ended September 30, 2004. The Company used its capital resources principally to purchase loans of \$119.0 million, originate \$7.9 million of loans held for sale and purchase securities available for sale of \$13.7 million.

**Off-Balance Sheet Arrangements and Aggregate Contractual Obligations**

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit, unused lines of credit, standby letters of credit and loans in process. These instruments involve, to varying degrees, elements of credit and interest-rate risk in excess of the amounts recognized in the condensed consolidated balance sheet. The contract amounts of those instruments reflect the extent of the Company's involvement in particular classes of financial instruments.

**Table of Contents****FEDERAL TRUST CORPORATION AND SUBSIDIARY****Item 2. Management's Discussion and Analysis****of Financial Condition and Results of Operations, Continued**

The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit, unused lines of credit and loans in process is represented by the contractual amount of those instruments. The Company uses the same credit policies in making commitments as it does for on-balance sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. Since many of the commitments are expected to expire without being drawn upon, the total committed amounts do not necessarily represent future cash requirements. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained, if it is deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the counter party.

Standby letters of credit are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loans to customers.

A summary of the amounts of the Company's financial instruments, with off-balance sheet risk at September 30, 2004, follows (in thousands):

	<b>Contract Amount</b>
Commitments to extend credit	\$ 1,817
Unused lines of credit	\$ 11,436
Standby letters of credit	\$ 3,055
Loans in process	\$ 5,188

Management believes the Company has adequate resources to fund all its commitments. At September 30, 2004, the Company had approximately \$189.7 million in time deposits maturing in one year or less. Management also believes that, if so desired, it can adjust the rates on time deposits to retain or obtain new deposits in a changing interest rate environment.

Management believes the Bank was in compliance with all minimum capital requirements which it was subject to at September 30, 2004. See note 3 to the condensed consolidated financial statements.

Management is not aware of any trends, demands, commitments or uncertainties which are expected to have a material impact on future operating results, liquidity or capital resources.

**Table of Contents**

**FEDERAL TRUST CORPORATION AND SUBSIDIARY**

**Comparison of the Three-Month Periods Ended September 30, 2004 and 2003**

**General.** The Company had net earnings for the three-month period ended September 30, 2004, of \$954,000 or \$.13 per basic and diluted share, compared to \$716,000 or \$.11 per basic and diluted share for the same period in 2003. The increase in net earnings was primarily due to an increase in net interest income and other income, partially offset by an increase in other expenses.

**Interest Income.** Interest income increased by \$1,107,000 or 22.2% to \$6.1 million for the three-month period ended September 30, 2004, from \$5.0 million for the same period in 2003. Interest income on loans increased \$1,031,000 to \$5.7 million in 2004, primarily as a result of an increase in the average amount of loans outstanding from \$367.3 million in 2003 to \$455.7 million in 2004, partially offset by a decrease in the average yield earned on loans from 5.07% for the three-month period ended September 30, 2003, to 4.99% for the comparable period in 2004. Interest income on securities increased by \$51,000 for the three-month period ended September 30, 2004, over the same period in 2003. Management expects the rates earned on the earning asset portfolio to fluctuate with general market conditions.

**Interest Expense.** Interest expense increased by \$507,000 or 23.0% during the three-month period ended September 30, 2004, compared to the same period in 2003. Interest on deposits increased \$315,000 or 19.9% to \$1.9 million in 2004 from \$1.6 million in 2003. The increase in interest on deposits was a result of an increase in average deposits outstanding from \$296.2 million in 2003 to \$360.9 million in 2004, partially offset by a decrease in the average cost of deposits from 2.14% for the three-month period ended September 30, 2003, to 2.11% for the comparable period in 2004. Interest on other borrowings increased to \$812,000 in 2004 from \$620,000 in 2003, primarily as a result of an increase in the average amount of other borrowings outstanding from \$103.6 million to \$132.0 million. Management expects to continue to use FHLB advances and other borrowings as a liability management tool.

**Provision for Loan Losses.** A provision for loan losses is charged to earnings based upon management's evaluation of the losses in its loan portfolio. During the quarter ended September 30, 2004, management recorded a provision for loan losses of \$150,000 based on its evaluation of the loan portfolio, which was an increase of \$80,000 from the same period in 2003. The allowance for loan losses at September 30, 2004, was \$3.5 million or .75% of total loans outstanding, versus \$2.8 million at December 31, 2003, or .69% of total loans outstanding. Management believes the allowance for loan losses at September 30, 2004 is adequate.

**Other Income.** Other income increased \$273,000 or 67.1% from \$407,000 for the three-month period ended September 30, 2003, to \$680,000 for the same period in 2004. The increase in gains on the sale of foreclosed properties was the primary reason for the improvement in other income from 2003 to 2004. The decrease in gain on sale of loans held for sale relates to a decrease in loans originated for sale as the secondary market activity slowed down as interest rates began to rise in 2004.

**Other Expenses.** Other expenses increased \$403,000 or 19.6% to \$2.5 million for the three-month period ended September 30, 2004, from \$2.1 million for the same period in 2003. Salaries and employee benefits increased \$286,000 and occupancy expense increased \$12,000 due to the staffing and opening of the branch in Orange City, Florida in the fourth quarter of 2003, and the overall growth of the Company.

**Income Taxes.** Income taxes for the three months ended September 30, 2004, was \$491,000 (an effective rate of 34.0%), compared to \$339,000 (an effective rate of 32.1%) for the same period in 2003.

---

**Table of Contents****FEDERAL TRUST CORPORATION AND SUBSIDIARY****Comparison of the Nine-Month Periods Ended September 30, 2004 and 2003**

**General.** The Company had net earnings for the nine-month period ended September 30, 2004, of \$2.6 million or \$.38 per basic and \$.37 per diluted share, compared to \$2.1 million or \$.31 per basic and diluted share for the same period in 2003. The increase in net earnings was primarily due to increases in net interest income and other income, partially offset by increases in the provision for loan losses and other expense.

**Interest Income.** Interest income increased by \$1,982,000 or 12.8% to \$17.5 million for the nine-month period ended September 30, 2004, from \$15.5 million for the same period in 2003. Interest income on loans increased \$1,876,000 or 13.0% to \$16.4 million in 2004 from \$14.5 million in 2003, primarily as a result of an increase in the average amount of loans outstanding from \$358.3 million in 2003 to \$429.0 million in 2004. This amount was partially offset by a decrease in the average yield earned on loans from 5.39% for the nine-month period ended September 30, 2003, to 5.09% for the comparable period in 2004. Interest income on securities increased by \$75,000 for the nine-month period ended September 30, 2004, over the same period in 2003, primarily as a result of increases in the average balance of securities owned and the average yield. Management expects the rates earned on the portfolio to fluctuate with general market conditions.

**Interest Expense.** Interest expense increased by \$199,000 or 2.7% during the nine-month period ended September 30, 2004, compared to the same period in 2003. Interest on deposits decreased \$156,000 or 2.9% to \$5.3 million in 2004 from \$5.5 million in 2003, as a result of a decrease in the average cost of deposits from 2.48% for the nine-month period ended September 30, 2003, to 2.06% for the comparable period in 2004. The decrease in interest on deposits was partially offset by an increase in average deposits outstanding from \$294.5 million in 2003 to \$344.1 million in 2004. Interest on other borrowings increased to \$2.3 million in 2004 from \$2.0 million in 2003, primarily as a result of the increase in the average balance of other borrowings from \$93.7 million for the nine-month period ended September 30, 2003 to \$125.5 million for the comparable 2004 period, partially offset by a decrease in the average rate paid on other borrowings from 2.78% in 2003 to 2.45% in 2004. Management expects to continue to use FHLB advances and other borrowings as a liability management tool.

**Provision for Loan Losses.** A provision for loan losses is charged to earnings based upon management's evaluation of the losses in its loan portfolio. During the nine months ended September 30, 2004, management recorded a provision for loan losses of \$850,000 based on its evaluation of the loan portfolio, which was an increase of \$455,000 from the same period in 2003, primarily as a result of the increase in total loans outstanding. The allowance for loan losses at September 30, 2004, was \$3.5 million or .75% of total loans outstanding, versus \$2.8 million at December 31, 2003, or .69% of total loans outstanding. Management believes the allowance for loan losses at September 30, 2004, is adequate.

**Other Income.** Other income increased \$288,000 or 17.2% from the nine-month period ended September 30, 2003, to the same period in 2004. The increase in other income was primarily due to an increase of \$583,000 in other income, partially offset by a decrease of \$293,000 in gain on sale of securities available for sale. The increase in other income relates primarily to gains recognized on the sale of foreclosed assets.

**Other Expense.** Other expense increased \$772,000 or 12.2% to \$7.1 million for the nine-month period ended September 30, 2004, from \$6.3 million for the same period in 2003. Salary and employee benefits increased \$470,000 and occupancy expense increased \$123,000 due to the staffing and opening of the branches in Deltona and Orange City, Florida in the second half of 2003 and the overall growth of the Company.

Edgar Filing: FEDERAL TRUST CORP - Form 10QSB

**Income Taxes.** Income taxes for the nine months ended September 30, 2004, was \$1,287,000 (an effective rate of 33.1%), compared to \$989,000 (an effective rate of 32.5%) for the same period in 2003.
