PROXY STATEMENT

TO THE SHAREHOLDERS:

The enclosed proxy is solicited on behalf of the Board of Directors of XOMA Ltd., a company organized under the laws of Bermuda (XOMA or the Company), for use at the annual general meeting of shareholders to be held at The Claremont Hotel, Ashby and Domingo Avenues, Berkeley, California, on May 19, 2005, at 9:00 a.m. local time, or any adjournment or postponement thereof, at which shareholders of record holding Common Shares on April 1, 2005, will be entitled to vote. On April 1, 2005, the Company had issued and outstanding 86,252,640 common shares, par value US\$.0005 per share (Common Shares). Holders of Common Shares are entitled to one vote for each share held.

All registered shareholders can appoint a proxy by paper proxy or by telephone by following the instructions included with their proxy card. Shareholders whose Common Shares are registered in the name of a bank or brokerage firm should follow the instructions provided by their bank or brokerage firm on voting their Common Shares. Shareholders whose Common Shares are registered in the name of a bank or brokerage firm participating in the ADP Investor Communication Services online program may appoint a proxy electronically through the Internet. Instruction forms will be provided to shareholders whose bank or brokerage firm is participating in ADP's program. Signing and returning the proxy card or submitting the proxy by telephone or through the Internet does not affect the right to vote in person at the annual general meeting.

In the case of registered shareholders, a proxy may be revoked at any time prior to its exercise by (a) giving written notice of such revocation to the Secretary of the Company at the Company's principal office, 2910 Seventh Street, Berkeley, California 94710, (b) appearing and voting in person at the annual general meeting, (c) properly completing and executing a later-dated proxy and delivering it to the Company at or before the annual general meeting or (d) retransmitting a subsequent proxy by telephone before the annual general meeting. Presence without voting at the annual general meeting will not automatically revoke a proxy, and any revocation during the meeting will not affect votes previously taken. Shareholders whose Common Shares are registered in the name of a bank or brokerage firm should follow the instructions provided by their bank or brokerage firm on revoking their previously appointed proxies. Abstentions and broker non-votes are each included in the number of Common Shares present and voting for purposes of establishing a quorum but are not counted in tabulations of the votes cast on proposals presented to shareholders.

The Company will bear the entire cost of solicitation, including preparation, assembly, printing, and mailing of this proxy statement, the proxy card, and any additional material furnished to shareholders. Copies of solicitation material will be furnished to brokerage houses, fiduciaries, and custodians holding in their names Common Shares that are beneficially owned by others to forward to such beneficial owners. The solicitation of proxies may be supplemented by one or more of telephone, telegram, or personal solicitation by directors, officers, or employees of the Company for no additional compensation. We have also engaged Georgeson Shareholder Communications Inc. to assist in such solicitation at an estimated fee of \$7,500 plus disbursements. Shareholders appointing a proxy through the Internet should understand that there may be costs associated with electronic access, such as usage charges from Internet access providers and telephone companies, that must be borne by the shareholder.

The Company intends to mail this proxy statement and make it available on the Internet on or about April 12, 2005.

These gains are based on assumed rates of share price appreciation of 0%, 5% and 10% compounded annually from the dates the respective options were granted. Options granted with exercise prices equal to the market price of the underlying Common Shares on the date of grant will have no value unless the Company's share price increases above the exercise prices as a result of actions by the executives that improve the Company's performance and/or other factors affecting such price.

The following table sets forth information with respect to the named executive officers concerning the exercise of options during the last completed fiscal year of the Company and unexercised options held as of the end of the fiscal year. No SARs were exercised during the last fiscal year and none were held at the end of the fiscal year.

Employment Contracts and Termination of Employment and Change-in-Control Arrangements

The Company has entered into an employment agreement with Mr. Castello, dated as of April 29, 1992, that provides for his employment as President and Chief Executive Officer at a salary of \$500,000 per year. Under this agreement, Mr. Castello also receives all standard Company employee benefits and supplemental life insurance for the amount that an annual premium of \$18,000 provides. The agreement also provides for a grant of options for 500,000 Common Shares under the Company's 1981 Share Option Plan (the "Option Plan"), which was made in 1992.

Mr. Castello's employment may be terminated, with or without cause, at the will of either party. If terminated by the Company for any reason other than due cause or by Mr. Castello for good reason, Mr. Castello must be paid his then current base salary and benefits for one year. If terminated for due cause, he is entitled to no further compensation. Good reason includes, in the context of a change of control, the assignment to Mr. Castello of duties inconsistent with his prior duties; his removal from, or failure to re-elect him to, any position he held immediately prior to the change in control; any termination by the Company within three years of the change of control other than for due cause or upon disability or death; a good faith determination by Mr. Castello that changes in circumstances resulting from the change in control leave him substantially unable to perform his duties, after notice; the failure of the Company's successor or the transferee of its assets or business to assume its obligations under the agreement; or, a significant relocation of the Company's executive offices. Good reason also includes any reduction in base pay or benefits or any breach of the agreement by the Company.

The Company has entered into an employment agreement with Dr. Scannon, dated as of March 26, 2005, that provides for his employment as Senior Vice President and Chief Scientific and Medical Officer at a salary of \$350,000 per year. Under this agreement, Dr. Scannon is entitled to participate in any benefit plan for which key executives of the Company are eligible, including the Management Incentive Compensation Plan established effective July 1, 1993 (as amended, the MICP). Upon termination of his employment for any reason other than cause, or upon resignation, Dr. Scannon must be paid his then current base salary and benefits for one year.

The Company has entered into an employment agreement with Mr. Davis dated as of April 1, 1994 that provides for his employment as Chief Financial Officer at an initial salary of \$200,000 per year. Under this agreement, Mr. Davis received a one-time transition allowance in the amount of \$35,000 and is entitled to participate in any benefit plan for which executives of the Company are eligible. In addition, the agreement provides for an initial grant of options for 60,000 Common Shares under the Option Plan, which was made in 1994, as well as participation in the MICP. Mr. Davis' employment agreement provides no additional compensation in the event of a change of control but provides a minimum severance amount equal to six months of base salary at the time of termination.

The Company has entered into an employment agreement with Mr. Margolin, dated as of February 23, 2005, that provides for his employment as Vice President, General Counsel and Secretary at a salary of not less than \$290,000 per year. Under the agreement, Mr. Margolin will be entitled to participate in any benefit plan for which key executives of the Company are eligible, including the MICP. Upon termination of his employment by the Company for any reason other than cause or upon his resignation from the Company for good reason, Mr. Margolin will be entitled to his then current base salary and benefits for nine months. The agreement will continue until February 22, 2006, and will be automatically extended (without further action by the parties) for one year thereafter and again on each subsequent anniversary thereof, unless terminated by mutual written consent of the parties.

Compensation Committee Report on Executive Compensation

The Company's compensation program for officers (including the named executive officers) is administered by the Compensation Committee of the Board of Directors (the Committee), which is composed of two independent directors. Following review and approval by the Committee, all issues pertaining to officer compensation are submitted to the full Board of Directors for approval. The primary objectives of the Company's compensation program are to enable the Company to attract, motivate and retain outstanding individuals and align their success with that of the Company's shareholders through the creation of shareholder value and achievement of strategic corporate objectives.

The level of compensation paid to an officer is determined on the basis of the individual's overall experience, responsibility, performance and compensation level in his or her prior position (for newly hired officers), the individual's overall performance and compensation level at the Company during the prior year (for

current employees), the compensation levels of similarly situated individuals in the pharmaceutical and biotechnology industries (including, but not limited to, the biotechnology companies included in the AMEX Biotechnology Index) and other labor markets in which the Company competes for employees, the performance of the Company's Common Shares during the prior fiscal year and such other factors as may be appropriately considered by the Board of Directors, by the Committee and by management in making its initial proposals to the Committee.

Mr. Castello's compensation for 2004 was determined after considering the general factors described above and the terms of his existing employment contract. In 1992, the Committee approved, and recommended that the Board approve, the terms of Mr. Castello's employment contract, as more fully described under Employment Contracts and Termination of Employment and Change-in-Control Arrangements, because it felt that the terms thereof were necessary in order to attract a candidate of Mr. Castello's experience and reputation in the pharmaceutical industry, which in turn was deemed necessary in order to enable the Company to advance toward its long-range goal of becoming a pharmaceutical company with commercially viable products. In 2004, the Committee, the Board and the shareholders approved the CEO Incentive Compensation Plan (the CICP) in order to make Mr. Castello's compensation more commensurate with that of his peers and because the Committee believed that it was not appropriate to include Mr. Castello in the Management Incentive Compensation Plan given his active role in administering that plan.

Only the chief executive officer of the Company (CEO) is eligible to participate in the CICP, and depending on his or her performance and that of the Company, earn incentive compensation. The determination of the incentive compensation awarded for each fiscal year is as follows: The target award opportunity for the CEO is set at 50% of his or her base salary. As soon as practicable after the end of each fiscal year (the Plan Period), the Committee will recommend to the Board and the Board will determine whether and to what extent certain Company objectives (Company Objectives) have been met. Company Objectives may be based on financial goals, scientific or commercial progress, profits, return on investments or any other criteria established by the Board. For each Plan Period, unless 70% of the Company Objectives have been met, no incentive compensation will be awarded.

The incentive compensation will be weighted based 70% on meeting Company Objectives and 30% based on discretionary objectives. The award opportunity range for the CEO expressed as a percentage of his or her base salary is as follows: minimum award opportunity 25%; target award opportunity 50%; and maximum award opportunity 75%.

The performance of the CEO will be rated as soon as practicable following the conclusion of the Plan Period. Distribution of incentive compensation will be established by the Board, and will generally be in February or March of the succeeding year after the Plan Period. The incentive awards will be comprised 50% of cash and 50% of common shares (based on the average market value of the common shares for the 10 trading days prior to the date of the award).

For 2004, the Committee and the Board determined that Mr. Castello had met a percentage of the Company Objectives in excess of the 70% minimum required by the CICP in order to make an award thereunder.

The principal methods for long-term incentive compensation are the Option Plan and Restricted Share Plan (the Restricted Plan), and compensation thereunder principally takes the form of incentive and non-qualified option grants. These grants are designed to promote the convergence of long-term interests between the Company's key employees and its shareholders; specifically, the value of options granted will increase or decrease with the value of the Company's Common Shares. In this manner, key individuals are rewarded commensurately with increases in shareholder value. These grants also typically include a 4-year vesting period to encourage continued employment. The size of a particular option grant is determined based on the individual's

position with and contribution to the Company. For grants during 2004, the number of options granted were determined based on the numbers of options granted to such individuals in the previous fiscal year, the aggregate number of options held by each such individual, the number of options granted to similarly situated individuals in the pharmaceutical and biotechnology industries, the price of the Company's Common Shares relative to other companies in such industries and the resulting relative value of such options; no specific measures of corporate performance were considered.

Certain employees are also compensated through the MICP, in which management employees (other than the Chief Executive Officer), as well as certain additional discretionary participants chosen by the Chief Executive Officer, are eligible to participate. Under the MICP, at the beginning of each fiscal year, the Board of Directors (with advice from the Committee) establishes a target incentive compensation pool, which is then adjusted at year-end to reflect the Company's performance in achieving its corporate objectives.

After each fiscal year, the Board of Directors and the Committee make a determination as to the performance of the Company and MICP participants in meeting corporate objectives and individual objectives, which are determined from time to time by the Board of Directors in its sole discretion and which included for 2004: a target level of cash at year end; generation of current income; progress toward collaborations, potential partnerships or financing arrangements; and various objectives tied to development of the Company. Awards to MICP participants vary depending upon the level of achievement of corporate objectives, the size of the incentive compensation pool and the MICP participants' base salaries and performance during the fiscal year as well as their expected ongoing contribution to the Company. The Company must meet a minimum percentage of its corporate objectives (currently 70%) before any awards are made under the MICP.

Awards under the MICP granted on or prior to December 31, 2004 vest over a three-year period with 50% of each award payable during the first quarter of the following fiscal year, and 25% payable on each of the next two annual distribution dates, so long as the participant remains an employee of the Company. The 50% on each distribution date is payable half in cash and half in Common Shares. Awards under the MICP granted after December 31, 2004, including grants made in 2005 for performance in 2004, are made in one payment soon after the end of the relevant fiscal year, rather than three payments over three years, and are payable half in cash and half in Common Shares. All share issuances under the MICP are made pursuant to the Restricted Plan.

For 2004, the Committee and the Board of Directors determined that management had met a percentage of the corporate objectives summarized above in excess of the 70% minimum required by the MICP in order to make awards thereunder. For 2004, 84 individuals were determined to be eligible to participate in the MICP, including all of the executive officers named in the Summary Compensation Table above other than Mr. Castello.

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), generally limits the deductible amount of annual compensation paid to certain individual executive officers (i.e., the chief executive officer and the four other most highly compensated executive officers of the Company) to no more than \$1 million. However, qualifying performance-based compensation will be excluded from the \$1 million cap on deductibility, and the Committee believes, based on information currently available, that the Company's options issued to its executive officers qualify for this exclusion. Considering the current structure of executive officer compensation and the availability of deferral opportunities, the Committee believes that the Company will not be denied any significant tax deduction for 2005. The Committee will continue to review tax consequences as well as other relevant considerations in connection with compensation decisions.

Edgar Filing: XOMA LTD /DE/ - Form DEF 14A

Directors who are employees of the Company are neither paid any fees or other remuneration nor awarded options or Common Shares of the Company for services as members of the Board of Directors or its committees.

The Board of Directors has standing compensation, nominating & governance and audit committees.

Compensation Committee

The compensation committee is responsible for recommending and reviewing the compensation, including options and perquisites, of the Company's officers and other employees. This committee, currently consisting of Messrs. Van Ness and Bowes, held two meetings during 2004. The Board of Directors has adopted a written charter for the compensation committee, a copy of which is available on the Company's website at www.xoma.com. See Compensation Committee Report on Executive Compensation.

Nominating & Governance Committee

The nominating & governance committee assists the Board of Directors by identifying individuals qualified to become Board members, recommends to the Board the director nominees for the next annual general meeting of shareholders, recommends to the Board the director nominees for each committee and develops, recommends to the Board and oversees the governance principles applicable to the Company. This committee, currently consisting of Messrs. Bowes, Mendell and Van Ness, held two meetings during 2004. Each member of the nominating & governance committee is independent as defined in the listing standards of The Nasdaq Stock Market. The Board of Directors has adopted a written charter for the nominating & governance committee, a copy of which is available on the Company's website at www.xoma.com.

The nominating & governance committee's charter provides that the committee will, on behalf of the Board, review letters from shareholders regarding the Company's annual general meeting and governance process. Beyond this, the committee has no formal policy regarding consideration of director candidates recommended by shareholders, in large part because the Company has never received from any of its shareholders a recommendation of a director nominee with reasonably adequate qualifications. The need for a more formal policy was considered and determined to be not necessary by the committee. The committee will consider candidates recommended by shareholders, and a shareholder wishing to submit a recommendation should send a letter to the Secretary of the Company at 2910 Seventh Street Berkeley, California 94710. The mailing envelope must contain a clear notation indicating that the enclosed letter is a Director Nominee Recommendation. The letter must identify the author as a shareholder and provide a complete listing of the candidate's qualifications to serve on the Board, the candidate's current principal occupation, most recent five-year employment history and current directorships and a statement that the proposed nominee has consented to the nomination, as well as contact information for both the candidate and the author of the letter. Shareholders may also nominate candidates who are not first recommended to the nominating & governance committee by following procedures set forth in our by-laws.

To be considered by the nominating & governance committee, a director nominee must have experience as a board member or senior officer of a company in the healthcare or other industries, have a strong financial background, be a leading participant in another field relative to the Company's business or have achieved national prominence in a relevant field as a faculty member, professional or government official. In addition to these minimum requirements, the committee seeks director candidates based on a number of qualifications, including their independence, knowledge, judgment, leadership skills, education, experience, financial literacy, standing in the community and ability to foster a diversity of backgrounds and views and complement the Board's existing strengths.

The Board of Directors and the nominating & governance committee begin the process of identifying and evaluating director nominees by seeking recommendations from a wide variety of contacts, including current executive officers and directors and industry, academic and community leaders. The Board or the committee may retain a search firm to identify and screen candidates, conduct reference checks, prepare biographies for review

by the committee and the Board and assist in setting up interviews. The committee and one or more of the Company's other directors interview candidates, and the committee selects nominees that best suit the Company's needs.

Audit Committee

The audit committee is primarily responsible for approving the services performed by the Company's independent auditors and reviewing the Company's accounting practices and systems of internal accounting controls. This committee, currently consisting of Mr. Mendell, Mr. Andress and Mr. Zenner, held eight meetings during 2004. Each member of the audit committee is independent as defined in the listing standards of The Nasdaq Stock Market. The Board of Directors has determined that each of Messrs. Mendell, Andress and Zenner is an audit committee financial expert as defined by the rules of the Securities and Exchange Commission. The Board of Directors has adopted a written charter for the audit committee, a copy of which is available on the Company's website at www.xoma.com.

In accordance with rules established by the Securities and Exchange Commission, the audit committee has prepared the following report for inclusion in this proxy statement:

As part of its ongoing activities, the audit committee has:

met with management periodically to consider the adequacy of the Company's internal controls and the objectivity of its financial reporting, and discussed these matters with the Company's independent auditors and with appropriate Company financial personnel;

regularly met privately with the independent auditors, who have unrestricted access to the committee;

recommended the appointment of the independent auditors and reviewed periodically their performance and independence from management;

reviewed the Company's financing plans and reported recommendations to the full Board of Directors for approval and to authorize action;

reviewed and discussed with management the Company's audited consolidated financial statements for the fiscal year ended December 31, 2004;

discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61, Communications with Audit Committees, as amended; and

received the written disclosures and the letter from the independent auditors required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and discussed with the independent auditors their independence.

Based on the review and discussions referred to above, the audit committee recommended to the Board of Directors that the audited consolidated financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2004.

ITEM 2 APPOINTMENT OF INDEPENDENT AUDITORS

The Board of Directors, on the recommendation of its audit committee, recommends the appointment of Ernst & Young LLP (Ernst & Young) to serve as the Company s independent auditors for 2005. Ernst & Young has been acting as the Company s independent auditors since fiscal year 1998.

Audit Fees. The aggregate fees billed for each of the 2003 and 2004 fiscal years for professional services rendered by Ernst & Young for the audit of the Company s annual financial statements, review of financial statements included in the Company s Form 10-Q, services that are normally provided by Ernst & Young in connection with statutory and regulatory filings or engagements and, in the case of 2004, for attestation services related to Sarbanes-Oxley compliance for those fiscal years were \$392,000 and \$863,000, respectively.

Audit-Related Fees. The aggregate fees billed in each of the 2003 and 2004 fiscal years for audit related services by Ernst & Young were \$35,000 and \$15,000, respectively. The services comprising the fees disclosed under this category were related to Ernst & Young s audit of the Company s deferred savings plan and accounting consultations regarding and review of internal controls not required by statute or regulation.

Tax Fees. The aggregate fees billed in each of the 2003 and 2004 fiscal years for professional services rendered by Ernst & Young for tax compliance, tax advice and tax planning were \$39,000 and \$13,000, respectively. The services comprising the fees disclosed under this category were preparation of the 2003 foreign tax returns and tax consultations in 2003 and 2004.

All Other Fees. There were no fees billed in each of the 2003 and 2004 fiscal years for products and services provided by Ernst & Young other than the services reported in the three immediately preceding paragraphs.

The audit committee considered whether the provision of the services covered in the four immediately preceding paragraphs of this section is compatible with maintaining Ernst & Young s independence.

The audit committee s policy is to pre-approve all audit and permissible non-audit services provided by the Company s independent accountants. Pre-approval is generally provided for up to one year, is detailed as to the particular service or category of services and is generally subject to a specific budget. The committee may also pre-approve particular services on a case-by-case basis. In assessing requests for services by the independent accountants, the committee considers whether such services are consistent with the auditor s independence, whether the independent accountants are likely to provide the most effective and efficient service based on their familiarity with the Company, and whether the service could enhance the Company s ability to manage or control risk or improve audit quality. The committee has delegated pre-approval authority to its chairman, who must report any decisions to the committee at its next scheduled meeting.

The recommendation to appoint Ernst & Young and the authorization of the Board of Directors to agree to Ernst & Young s fee are being submitted to the shareholders at the annual general meeting. If such appointment is not made, the Board of Directors will consider other auditors for appointment. The Board of Directors recommends a vote **FOR** the appointment of Ernst & Young as the Company s independent auditors for the 2005 fiscal year and the authorization of the Board of Directors to agree to Ernst & Young s fee.

A representative of Ernst & Young is expected to be present at the meeting with an opportunity, if desired, to make a statement and to respond to your questions.

ITEM 3 RECEIPT OF AUDITED FINANCIAL STATEMENTS

In accordance with Bermuda company law and practice, the Company's audited financial statements for fiscal year 2004 will be laid before the annual general meeting. No shareholder action is required in connection therewith.

**ITEM 4 INCREASE IN THE NUMBER OF AUTHORIZED
COMMON SHARES AND SHARE CAPITAL**

Background

Currently, the Company is authorized to issue 135,000,000 Common Shares in the aggregate. On February 23, 2005, the Board of Directors unanimously approved a proposal to increase the Company's authorized share capital by the creation of an additional 75,000,000 Common Shares.

On April 1, 2005, the Company had issued and outstanding 86,252,640 Common Shares. As of that date, the Company had reserved approximately 44,689,183 shares for issuance upon exercise of outstanding convertible notes, options, warrants and preference shares and in connection with existing share-based compensation and benefit plans. Consequently, the Company has approximately 4,058,177 shares available for other issuances.

Effects of Adoption of the Proposal

The adoption of this proposal would increase the authorized share capital of the Company from US\$117,500, consisting of 135,000,000 Common Shares and 1,000,000 Preference Shares, to US\$155,000, consisting of 210,000,000 Common Shares (with identical rights and ranking to the existing Common Shares) and 1,000,000 Preference Shares. The additional Common Shares for which authorization is sought would be part of the existing class of Common Shares, and, to the extent issued, would have the same rights and privileges as the Common Shares currently outstanding. No holder of the Common Shares is entitled to any preemptive right to subscribe for or purchase any shares or other securities of the Company. The issuance of a substantial amount of Common Shares or the granting of an option to purchase a substantial amount of Common Shares could have a potential anti-takeover effect with respect to the Company which may make it more difficult to effect a change in control of the Company (for example, by decreasing the percentage of share ownership of those persons seeking to obtain control), although the Board of Directors is not presenting the proposal for that reason and does not anticipate using the newly authorized shares for such a purpose. Under applicable law, the Board of Directors is required to make any determination to issue such shares based on its judgment at the time of such issuance as to the best interest of the Company.

Approval of the proposal would not affect the number of authorized preference shares or the number of shares issuable under any of the Company's existing share-based compensation or benefit plans.

Recommendation

The Company has approximately 4,058,177 Common Shares available for future option grants, issuances of warrants, preferences shares, financings and other issuances. The Board of Directors of the Company considers it necessary and in the best interests of the Company to have a sufficient number of Common Shares available for issuance in order to provide the Company with business and financing flexibility. The Board also believes in the importance of share-based compensation and benefits plans to align employee and shareholder interests and to continue to attract and retain the services of outstanding employees. Common Shares may be issued by the Company in connection with future strategic business collaborations or equity financings, upon conversion or exchange of outstanding securities. The Company is also obligated to reserve shares for issuance to certain existing investors. Except as referred to herein, there are currently no agreements or understandings regarding the issuance of any of the additional Common Shares that would become available if the Company's authorized share capital is increased as proposed. For these reasons, the Board unanimously recommends a vote **FOR** approval. Approval of the increase requires the affirmative vote of the holders of a majority of the votes cast at the annual general meeting on the proposal.

OTHER MATTERS

The Board of Directors does not know of any matters to be presented at this annual general meeting other than those set forth in this proxy statement and in the notice accompanying this proxy statement. If other matters should properly come before the meeting, it is intended that the proxy holders will vote on such matters in accordance with their best judgment.

It is important that your Common Shares be represented at the meeting, regardless of the number of Common Shares which you hold. You are, therefore, urged to promptly execute and return the accompanying proxy in the postage prepaid envelope which has been enclosed for your convenience or appoint a proxy by telephone or through the Internet.
