

LENNAR CORP /NEW/
Form 10-Q
October 10, 2006

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended August 31, 2006

Commission File Number: 1-11749

Lennar Corporation

(Exact name of registrant as specified in its charter)

Delaware (State or other jurisdiction	95-4337490 (I.R.S. Employer
of incorporation or organization)	Identification No.)
700 Northwest 107th Avenue, Miami, Florida 33172	
(Address of principal executive offices) (Zip Code)	
(305) 559-4000	
(Registrant's telephone number, including area code)	

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Edgar Filing: LENNAR CORP /NEW/ - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

Common stock outstanding as of September 30, 2006:

Class A	126,729,519
Class B	31,735,417

Lennar Corporation and Subsidiaries

Notes to Condensed Consolidated Financial Statements

(unaudited)

(1) Basis of Presentation

Basis of Consolidation

The accompanying condensed consolidated financial statements include the accounts of Lennar Corporation and all subsidiaries, partnerships and other entities in which Lennar Corporation has a controlling interest and variable interest entities (see Note 15) in which Lennar Corporation is deemed to be the primary beneficiary (the "Company"). The Company's investments in both unconsolidated entities in which a significant, but less than controlling, interest is held and in variable interest entities in which the Company is not deemed to be the primary beneficiary, are accounted for by the equity method. All significant intercompany transactions and balances have been eliminated in consolidation. The condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the November 30, 2005 consolidated financial statements in the Company's Annual Report on Form 10-K/A for the year then ended. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for the fair presentation of the accompanying condensed consolidated financial statements have been made.

The Company has historically experienced, and expects to continue to experience, variability in quarterly results. The condensed consolidated statements of earnings for the three and nine months ended August 31, 2006 are not necessarily indicative of the results to be expected for the full year.

Reclassifications

Certain prior year amounts in the condensed consolidated financial statements have been reclassified to conform with the 2006 presentation. These reclassifications had no impact on reported net earnings.

Restatement

Subsequent to the issuance of the Company's condensed consolidated financial statements for the quarterly period ended February 28, 2006, the Company expanded its disclosure of reportable segments in accordance with the provisions of Statement of Financial Accounting Standards ("SFAS") No. 131, *Disclosures About Segments of an Enterprise and Related Information*. The Company had historically aggregated its homebuilding operating segments into a single, national reportable segment, but restated its segment disclosure in its 2005 Annual Report on Form 10-K to include three homebuilding reportable segments. Thus, the segment disclosure for the three and nine months ended August 31, 2005 has been restated in order to conform to the segment disclosure in the 2005 Annual Report on Form 10-K/A (see Note 3). The restatement has no impact on the Company's condensed consolidated balance sheets as of November 30, 2005 and August 31, 2005, condensed consolidated statements of earnings and related earnings per share amounts for the three and nine months ended August 31, 2005 or condensed consolidated statement of cash flows for the nine months ended August 31, 2005.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

Share-Based Payment

Prior to December 1, 2005, the Company accounted for stock option awards granted under the Company's share-based payment plans in accordance with the recognition and measurement provisions of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, (APB 25) and related Interpretations, as permitted by SFAS No. 123, *Accounting for Stock-Based Compensation*, (SFAS 123). Share-based employee compensation expense was not recognized in the Company's consolidated statements of earnings prior to December 1, 2005, as all stock option awards granted under the plans had an exercise price equal to or greater than the market value of the common stock on the date of the grant. Effective December 1, 2005, the Company adopted the provisions of SFAS No. 123 (revised 2004), *Share-Based Payment*, (SFAS 123R) using the modified-prospective-transition method. Under this transition method, compensation expense recognized during the three and nine months ended August 31, 2006 included: (a) compensation expense for all share-based awards granted prior to, but not yet vested as of, December 1, 2005, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123, and (b) compensation expense for all share-based awards granted subsequent to December 1, 2005, based on the grant date fair value estimated in accordance with the provisions of SFAS 123R. In accordance with the modified-prospective-transition method, results for prior periods have not been restated. The adoption of SFAS 123R resulted in a charge to net earnings of \$0.03 per diluted share and \$0.08 per diluted share, respectively, for the three and nine months ended August 31, 2006. See Note 13 for further detail on the impact of SFAS 123R to the Company's condensed consolidated financial statements.

(2) Discontinued Operations

In May 2005, the Company sold North America Exchange Company (NAEC), a subsidiary of the Financial Services segment's title company. NAEC's revenues for the nine months ended August 31, 2005 were \$3.3 million.

(3) Operating and Reporting Segments

The Company's operating segments are aggregated into reportable segments in accordance with SFAS 131 based primarily upon similar economic characteristics and product type. The Company's reportable segments consist of:

- (1) Homebuilding East
- (2) Homebuilding Central
- (3) Homebuilding West
- (4) Financial Services

Information about homebuilding activities in states that do not have economic characteristics similar to those in other states in the same geographic area is grouped under Homebuilding Other, which is not considered a reportable segment in accordance with SFAS 131.

The Company had historically aggregated its Homebuilding operating segments into a single, national reportable segment, but has restated its segment disclosure to include three homebuilding reportable segments, as identified above, for the three and nine months ended August 31, 2005.

Operations of the Company's Homebuilding segments primarily include the sale and construction of single-family attached and detached homes, and to a lesser extent, condominiums, as well as the purchase, development and sale of residential land directly and through the Company's unconsolidated entities. The Company's reportable homebuilding segments, and all other homebuilding operations not required to be reported separately, have divisions located in the following states:

East: Florida, Maryland, New Jersey and Virginia

Central: Arizona, Colorado and Texas

West: California and Nevada

Other: Illinois, Minnesota, New York, North Carolina and South Carolina

Operations of the Company's Financial Services segment include income from mortgage financing, title insurance and other ancillary services (including personal lines insurance, high-speed Internet and cable television) for both buyers of the Company's homes and others. Substantially all of the loans it originates are sold in the secondary mortgage market on a servicing released basis; however, the Company remains liable for certain representations and warranties related to loan sales. The Company's Financial Services segment operates generally in the same markets as the Company's homebuilding segments, as well as other states.

Evaluation of segment performance is based on operating earnings from continuing operations before provision for income taxes. Operating earnings for the homebuilding segments consist of revenues generated from the sales of homes and land, equity in earnings from unconsolidated entities and management fees and other income, net, less the cost of homes and land sold, selling, general and administrative expenses and minority interest expense, net. Operating earnings for the Financial Services segment consist of revenues generated from mortgage financing, title insurance and other ancillary services less the cost of such services and certain selling, general and administrative expenses incurred by the Financial Services segment.

Each reportable segment follows the same accounting policies described in Note 1 Summary of Significant Accounting Policies to the consolidated financial statements in the Company's 2005 Annual Report on Form 10-K/A. Operational results are not necessarily indicative of the results that would have occurred had each segment been an independent, stand-alone entity during the periods presented.

Financial information relating to the Company's operations was as follows:

<i>(In thousands)</i>	Three Months Ended		Nine Months Ended	
	August 31,		August 31,

Total assets	\$ 12,501,100	12,541,225

(4) Investments in Unconsolidated Entities

Summarized condensed financial information on a combined 100% basis related to unconsolidated entities in which the Company has investments that are accounted for by the equity method was as follows:

<i>(In thousands)</i>	August 31, 2006	November 30, 2005
Assets:		
Cash	\$ 290,186	334,530
Inventories	9,131,340	7,615,489
Other assets	883,702	875,741
	\$ 10,305,228	8,825,760
Liabilities and equity:		
Accounts payable and other liabilities	\$ 1,202,673	1,004,940
Notes and mortgages payable	5,141,258	4,486,271
Equity of:		
The Company	1,541,104	1,282,686
Others	2,420,193	2,051,863
	\$ 10,305,228	8,825,760

The unconsolidated entities in which the Company has investments usually finance their activities with a combination of partner equity and debt financing. As of August 31, 2006, the Company's equity in these unconsolidated entities represented 39% of the entities' total equity. In some instances, the Company and its partners have guaranteed debt of certain unconsolidated entities. At August 31, 2006, the Company's pro rata portion of these guarantees was \$1.2 billion, of which \$966.0 million were maintenance guarantees and \$250.7 million were repayment guarantees. As of August 31, 2006, the fair market values of the maintenance guarantees and repayment guarantees were not material. In addition, the Company and/or its partners occasionally grant liens on their interest in a joint venture in order to help secure a loan to that joint venture. When the Company and/or its partners provide guarantees, the unconsolidated entity generally receives more favorable terms from its lenders than would otherwise be available to it. In a repayment guarantee, the Company and its venture partners guarantee repayment of a portion or all of the debt in the event of a default before the lender would have to exercise its rights against the collateral. The maintenance guarantees only apply if an unconsolidated entity defaults on its loan arrangements and the value of the collateral (generally land and improvements) is less than a specified percentage of the loan balance. If the Company is required to make a payment under a maintenance guarantee to bring the value of the collateral above the specified percentage of the loan balance, the payment would constitute a capital contribution or loan to the unconsolidated entity and increase the Company's share of any funds the unconsolidated entity distributes. At August 31, 2006, there were no assets held as collateral that, upon the occurrence of any triggering event or condition under a guarantee, the Company could obtain and liquidate to recover all or a portion of the amounts to be paid under a guarantee.

(5) Earnings Per Share

Basic earnings per share is computed by dividing net earnings attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. Basic and diluted earnings per share were calculated as follows:

	Three Months Ended		Nine Months Ended	
	August 31, 2006	August 31, 2005	August 31, 2006	August 31, 2005
<i>(In thousands, except per share amounts)</i>

Options to purchase 4.9 million shares in total of Class A and Class B common stock were outstanding and anti-dilutive for the three months ended August 31, 2006. Options to purchase 2.7 million shares in total of Class A and Class B common stock were outstanding and anti-dilutive for the nine months ended August 31, 2006. Anti-dilutive options outstanding for the three and nine months ended August 31, 2005 were not material.

In 2006, substantially all of the Company's outstanding 5.125% zero-coupon convertible senior subordinated notes due 2021 (the Convertible Notes) were converted by the noteholders into 4.9 million Class A common shares. Convertible Notes not converted by the noteholders were not material and were redeemed by the Company on April 4, 2006. The weighted average amount of shares issued upon conversion is included in the calculation of basic earnings per share from the date of conversion. The calculation of diluted earnings per share included zero shares and 2.0 million shares, respectively, for the three and nine months ended August 31, 2006, compared to 7.1 million shares and 8.4 million shares, respectively, for the three and nine months ended August 31, 2005, related to the dilutive effect of the Convertible Notes prior to conversion.

(6) Financial Services

The assets and liabilities related to the Company's Financial Services segment were as follows:

<i>(In thousands)</i>	August 31, 2006	November 30, 2005
Assets:		
Cash	\$ 112,378	149,786
Receivables, net	447,550	675,877
Loans held-for-sale, net	469,850	562,510
Loans held-for-investment, net	215,723	147,459
Investments held-to-maturity	54,508	32,146
Goodwill	61,211	57,988
Other	62,562	75,869
	\$ 1,423,782	1,701,635
Liabilities:		
Notes and other debts payable	\$ 994,898	1,269,782
Other	195,133	167,918
	\$ 1,190,031	1,437,700

At August 31, 2006, the Financial Services segment had warehouse lines of credit totaling \$1.2 billion to fund its mortgage loan activities. Borrowings under the lines of credit were \$965.5 million at August 31, 2006. The warehouse lines of credit mature in October 2006 (\$500 million) and in April 2008 (\$670 million). In September 2006, the warehouse line of credit that matures in October 2006 was increased to \$700 million and now matures in September 2007. At August 31, 2006, Financial Services had advances under a conduit funding agreement amounting to \$5.3 million. Financial Services also had a \$25 million revolving line of credit that matures in November 2006, at which time the Company expects the line of credit to be renewed. Borrowings under the line of credit were \$23.8 million at August 31, 2006.

(7) Cash

Cash as of August 31, 2006 and November 30, 2005 included \$111.2 million and \$193.6 million, respectively, of cash held in escrow for approximately three days.

(8) Restricted Cash

Restricted cash consists of customer deposits on home sales held in restricted accounts until title transfers to the homebuyer, as required by the state and local governments in which the homes were sold.

(9) Debt

In January 2006, the Company increased its unsecured credit facility (the Credit Facility) to \$2.2 billion, by accessing the Credit Facility's accordion feature. In March 2006, the Company amended certain terms of the Credit Facility to provide that proceeds from the Credit Facility may be used to repay amounts outstanding under the Company's commercial paper program, which is described below.

In July 2006, the Company replaced the Credit Facility with a new senior unsecured revolving credit facility (the New Facility). The New Facility consists of a \$2.7 billion revolving credit facility maturing in 2011. The New Facility also includes access to an additional \$485 million of financing through an accordion feature, subject to additional commitments, for a maximum aggregate commitment under the New Facility of \$3.2 billion. The New Facility is guaranteed by substantially all of the Company's subsidiaries other than finance company subsidiaries (which include mortgage and title insurance agency subsidiaries). Interest rates on outstanding borrowings are LIBOR-based, with margins determined based on changes in the Company's credit ratings, or an alternate base rate, as described in the credit agreement. At August 31, 2006, the Company had \$65.0 million outstanding under the New Facility.

The Company has a structured letter of credit facility (the LC Facility) with a financial institution. The purpose of the LC Facility is to facilitate the issuance of up to \$200 million of letters of credit on a senior unsecured basis. In connection with the LC Facility, the financial institution issued \$200 million of their senior notes, which were linked to the Company's performance on the LC Facility. If there is an event of default under the LC Facility, including the Company's failure to reimburse a draw against an issued letter of credit, the financial institution would assign its claim against the Company, to the extent of the amount due and payable by the Company under the LC Facility, to its noteholders in lieu of their principal repayment on their performance-linked notes.

At August 31, 2006, the Company had letters of credit outstanding in the amount of \$1.4 billion, which includes \$190.4 million outstanding under the LC Facility. The majority of these letters of credit are posted with regulatory bodies to guarantee the Company's performance of certain development and construction activities or are posted in lieu of cash deposits on option contracts. Of the Company's total letters of credit outstanding, \$410.9 million were collateralized against certain borrowings available under the New Facility.

In March 2006, the Company initiated a commercial paper program (the Program) under which the Company may, from time-to-time, issue short-term unsecured notes in an aggregate amount not to exceed \$2.0 billion. Issuances under the Program are guaranteed by all of the Company's wholly-owned subsidiaries that are also guarantors of its New Facility. At August 31, 2006, no amounts were outstanding under the Program.

In 2006, substantially all the outstanding Convertible Notes were converted by the noteholders into 4.9 million Class A common shares. The Convertible Notes were convertible at a rate of 14.2 shares of the Company's Class A common stock per \$1,000 principal amount at maturity. Convertible Notes not converted by the noteholders were not material and were redeemed by the Company on April 4, 2006. The redemption price was \$468.10 per \$1,000 principal amount at maturity, which represented the original issue price plus accrued original issue discount to the redemption date.

In April 2006, the Company issued \$250 million of 5.95% senior notes due 2011 and \$250 million of 6.50% senior notes due 2016 (collectively, the Senior Notes) at a price of 99.766% and 99.873%, respectively, in a private placement. Proceeds from the offering of the Senior Notes, after initial purchaser's discount and expenses, were \$248.7 million and \$248.9 million, respectively. The Company added the proceeds to its working capital to be used for general corporate purposes. Interest on the Senior Notes is due semi-annually. The Senior Notes are unsecured and unsubordinated, and substantially all of the Company's subsidiaries other than finance company subsidiaries guarantee the Senior Notes.

In August 2006, the Company commenced an offer to exchange the Senior Notes for notes registered under the Securities Act of 1933 (the Exchange Notes). The Company completed the exchange offer on October 2, 2006, with substantially all of the Senior Notes being exchanged for the Exchange Notes.

(10) Other Liabilities

Income taxes currently payable	60,486	463,588
Other	1,203,713	1,137,622
	\$ 1,537,426	1,997,824

(11) Product Warranty

Warranty and similar reserves for homes are established at an amount estimated to be adequate to cover potential costs for materials and labor with regard to warranty-type claims expected to be incurred subsequent to the delivery of a home. Reserves are determined based on historical data and current trends with respect to similar product types and geographical areas. The Company constantly monitors the warranty reserve and makes adjustments to its pre-existing warranties in order to reflect changes in trends and historical data as information becomes available. Warranty reserves are included in other liabilities in the accompanying condensed consolidated balance sheets. The activity in the Company's warranty reserve was as follows:

	Three Months Ended		Nine Months Ended	
	August 31,		August 31,	
<i>(In thousands)</i>	2006	2005	2006	2005

Payments	(41,858)	(40,216)	(128,288)	(111,594)
Warranty reserve, end of period	\$ 163,815	121,595	163,815	121,595

(12) Stockholders Equity

In June 2001, the Company's Board of Directors authorized a stock repurchase program to permit the purchase of up to 20 million shares of the Company's outstanding common stock. During the three and nine months ended August 31, 2006, the Company repurchased a total of 0.7 million shares and 5.7 million shares, respectively, of its outstanding common stock under the stock repurchase program for an aggregate purchase price including commissions of \$27.5 million, or \$40.93 per share, and \$296.9 million, or \$52.35 per share, respectively, compared to no share repurchases during the three months ended August 31, 2005 and a total of 4.4 million share repurchases of its outstanding common stock at an aggregate purchase price of \$232.2 million, or \$53.26 per share, for the nine months ended August 31, 2005. As of August 31, 2006, 6.8 million shares of common stock can be repurchased in the future under the program.

In addition to the common shares repurchased under the Company's stock repurchase program, during the third quarter of 2006, treasury stock increased 0.1 million common shares in connection with activity related to the Company's equity compensation plans, as well as 0.1 million common shares related to forfeitures of restricted stock.

At August 31, 2006, the Company had shelf registration statements effective under the Securities Act of 1933, as amended, under which the Company could sell to the public up to \$1.0 billion of debt securities, common stock, preferred stock or other securities and could issue up to \$400 million of equity or debt securities in connection with acquisitions of companies or interests in companies, businesses or assets.

(13) Share-Based Payment

The Company has share-based awards outstanding under four different plans which provide for the granting of stock options and stock appreciation rights and awards of restricted common stock (nonvested shares) to key officers, employees and directors. The exercise prices of stock options and stock appreciation rights may not be less than the market value of the common stock on the date of the grant. No options granted under the plans may be exercisable until at least six months after the date of the grant. Thereafter, exercises are permitted in installments determined when options are granted. Each stock option and stock appreciation right will expire on a date determined at the time of the grant, but not more than ten years after the date of the grant.

Prior to December 1, 2005, the Company accounted for stock option awards granted under the plans in accordance with the recognition and measurement provisions of APB 25 and related Interpretations, as permitted by SFAS 123. Share-based employee compensation expense was not recognized in the Company's consolidated statements of earnings prior to December 1, 2005, as all stock option awards granted under the plans had an exercise price equal to or greater than the market value of the common stock on the date of the grant. Effective December 1, 2005, the

Company adopted the provisions of SFAS 123R using the modified-prospective-transition method. Under this transition method, compensation expense recognized during the three and nine months ended August 31, 2006 included: (a) compensation expense for all share-based awards granted prior to, but not yet vested as of, December 1, 2005, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123, and (b) compensation expense for all share-based awards granted subsequent to December 1, 2005, based on the grant date fair value estimated in accordance with the provisions of SFAS 123R. In accordance with the modified-prospective-transition method, results for prior periods have not been restated.

As a result of adopting SFAS 123R, the charges to earnings from continuing operations before provision for income taxes for the three and nine months ended August 31, 2006 were \$6.5 million and \$18.5 million, respectively. The impact of adopting SFAS 123R on net earnings for the three and nine months ended August 31, 2006 was \$4.7 million and \$13.3 million, respectively. The impact of adopting SFAS 123R on both basic and diluted earnings per share for the three and nine months ended August 31, 2006 was \$0.03 per share and \$0.08 per share, respectively.

Prior to the adoption of SFAS 123R, the Company presented all tax benefits related to deductions resulting from the exercise of stock options as cash flows from operating activities in the consolidated statements of cash flows. SFAS 123R requires that cash flows resulting from tax benefits related to tax deductions in excess of the compensation expense recognized for those options (excess tax benefits) be classified as financing cash flows. As a result, the Company classified \$6.0 million of excess tax benefits as financing cash inflows for the nine months ended August 31, 2006.

The following table illustrates the effect on net earnings and earnings per share for the three and nine months ended August 31, 2005, if the Company had applied the fair market value recognition provisions of SFAS 123, as amended by SFAS No. 148, *Accounting for Stock-Based Compensation-Transition and Disclosure*, to stock options awards granted under the Company's share-based payment plans. For purposes of this pro forma disclosure, the value of the stock option awards is estimated using a Black-Scholes option-pricing model and amortized to expense over the options' vesting periods.

<i>(In thousands, except per share amounts)</i>	Three Months Ended August 31, 2005	Nine Months Ended August 31, 2005
Net earnings, as reported	\$ 337,253	773,996
Add: Total stock-based employee compensation expense included in reported net earnings, net of tax	1,653	2,637
Deduct: Total stock-based employee compensation expense determined under fair market value based method for all awards, net of tax	(4,992)	(12,230)
Pro forma net earnings	\$ 333,914	764,403
Earnings per share:		
Basic as reported	\$ 2.18	5.00
Basic pro forma	\$ 2.15	4.94
Diluted as reported	\$ 2.06	4.71
Diluted pro forma	\$ 2.04	4.65

Compensation expense related to the Company's share-based awards during the three and nine months ended August 31, 2006 was \$8.9 million and \$26.5 million, respectively, of which \$6.5 million and \$18.5 million, respectively, related to stock options resulting from the adoption

of SFAS 123R and \$2.4 million and \$8.0 million, respectively, related to nonvested shares. During the three and nine months ended August 31, 2005, compensation expense related to the Company's share-based awards was \$2.7 million and \$4.2 million, respectively, which primarily related to nonvested shares. The total income tax benefit recognized in the condensed consolidated statements of earnings for share-based awards during the three and nine months ended August 31, 2006 was \$2.6 million and \$8.1 million, respectively, of which \$1.8 million and \$5.2 million, respectively, related to stock options resulting from the adoption of SFAS 123R and \$0.9 million and \$3.0 million related to nonvested shares. During the three and nine months ended August 31, 2005, the income tax benefit recognized in the condensed consolidated statements of earnings for share-based awards was \$1.0 million and \$1.6 million, respectively, all of which related to nonvested shares.

Cash received from stock options exercised during the three and nine months ended August 31, 2006 was \$1.5 million and \$29.4 million, respectively, compared to \$6.2 million and \$35.3 million, respectively, in the same periods last year. The tax deductions related to stock options exercised during the three and nine months ended August 31, 2006 were \$0.7 million and \$10.6 million, respectively, compared to \$4.6 million and \$21.7 million, respectively, in the same periods last year.

The fair value of each of the Company's stock option awards is estimated on the date of grant using a Black-Scholes option-pricing model that uses the assumptions noted in the table below. The fair value of the Company's stock option awards, which are subject to graded vesting, is expensed on a straight-line basis over the vesting life of the stock options. Expected volatility is based on an average of (1) historical volatility of the Company's stock and (2) implied volatility from traded options on the Company's stock. The risk-free rate for periods within the contractual life of the stock option award is based on the yield curve of a zero-coupon U.S. Treasury bond on the date the stock option award is granted with a maturity equal to the expected term of the stock option award granted. The Company uses historical data to estimate stock option exercises and forfeitures within its valuation model. The expected life of stock option awards granted is derived from historical exercise experience under the Company's share-based payment plans and represents the period of time that stock option awards granted are expected to be outstanding.

The significant weighted average assumptions relating to the valuation of the Company's stock options for the nine months ended August 31, 2006 and 2005 were as follows:

	2006	2005
Dividend yield	1.1%	1.0%
Volatility rate	31% - 34%	27% - 34%
Risk-free interest rate	4.1% - 5.0%	3.8% - 4.6%
Expected option life (years)	2.0 - 5.0	2.0 - 5.0

A summary of the Company's stock option activity for the nine months ended August 31, 2006 was as follows:

	Stock Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life	Aggregate Intrinsic Value (In thousands)
Outstanding at November 30, 2005	7,159,548	\$ 35.92		
Grants	1,769,600	\$ 61.60		
Forfeited or expired	(500,443)	\$ 46.92		
Exercises	(1,053,908)	\$ 27.95		
Outstanding at August 31, 2006	7,374,797	\$ 42.47	2.9 years	\$ 61,650
Vested and expected to vest in the future at August 31, 2006	6,536,704	\$ 41.41	2.8 years	\$ 60,366
Exercisable at August 31, 2006	2,125,036	\$ 29.86	2.5 years	\$ 31,391
Available for grant at August 31, 2006	3,431,639			

The weighted average fair value of options granted during the three and nine months ended August 31, 2006 was \$12.68 and \$17.33, respectively, compared to \$18.58 and \$16.02, respectively, in the same periods last year. The total intrinsic value of options exercised during the three and nine months ended August 31, 2006 was \$1.8 million and \$32.1 million, respectively, compared to \$14.8 million and \$65.2 million, respectively, in the same periods last year.

The fair value of nonvested shares is determined based on the average trading price of the Company's common stock on the grant date. The weighted average fair value of nonvested shares granted during the three and nine months ended August 31, 2006 was \$40.76 and \$57.32, respectively, compared to \$63.41 and \$62.17, respectively, for the three and nine months ended August 31, 2005. A summary of the Company's nonvested shares activity for the nine months ended August 31, 2006 was as follows:

	Weighted Average	
	Grant Date	
	Shares	Fair Value
Nonvested restricted shares at November 30, 2005	724,000	\$ 61.65
Grants	646,328	\$ 57.32
Vested	(64,500)	\$ 62.18
Forfeited	(43,345)	\$ 59.48
Nonvested restricted shares at August 31, 2006	1,262,483	\$ 59.48

At August 31, 2006, there was \$82.9 million of unrecognized compensation expense related to unvested share-based awards granted under the Company's share-based payment plans, of which \$47.2 million relates to stock options and \$35.7 million relates to nonvested shares. That expense is expected to be recognized over a weighted-average period of 3.1 years. There were 55,000 nonvested shares and 64,500 nonvested shares, respectively, that vested during the three and nine months ended August 31, 2006, compared to 444,000 nonvested shares and 462,000 nonvested shares, respectively, that vested during the same periods in 2005. The tax deductions related to nonvested share activity during the three months ended August 31, 2006 and 2005 were \$3.1 million, compared to \$15.6 million in the same period last year. The tax deductions related to nonvested share activity during the nine months ended August 31, 2006 were \$3.7 million, compared to \$16.0 million in the same period last year.

(14) Comprehensive Income

Comprehensive income represents changes in stockholders' equity from non-owner sources. The components of comprehensive income were as follows:

<i>(Dollars in thousands)</i>	Three Months Ended August 31,		Nine Months Ended August 31,	
	2006	2005	2006	2005
Net earnings	\$ 206,675	337,253	789,474	773,996
Unrealized gains arising during period on interest rate swaps, net of 37.00% and 37.75% tax effect, respectively, in 2006 and 2005	350	2,002	2,445	6,629
Unrealized gain (loss) arising during period on available-for-sale investment securities, net of 37.00% and 37.75% tax effect, respectively, in 2006 and 2005		(21)	(238)	168
Comprehensive income	\$ 207,025	339,234	791,681	780,793

(15) Consolidation of Variable Interest Entities

The Company follows Financial Accounting Standards Board (FASB) Interpretation No. 46(R), *Consolidation of Variable Interest Entities* (FIN 46R), which requires the consolidation of certain entities in which an enterprise absorbs a majority of the entity's expected losses, receives a majority of the entity's expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity.

Unconsolidated Entities

At August 31, 2006, the Company had investments in and advances to unconsolidated entities established to acquire and develop land for sale to the Company in connection with its homebuilding operations, for sale to third parties or for the construction of homes for sale to third-party homebuyers. The Company evaluated all agreements under FIN 46R during the nine months ended August 31, 2006 that were entered into or had reconsideration events and it consolidated entities that at August 31, 2006 had total combined assets and liabilities of \$88.6 million and \$91.3 million, respectively.

At August 31, 2006, the Company's recorded investment in unconsolidated entities was \$1.5 billion. The Company's estimated maximum exposure to loss with regard to unconsolidated entities was its recorded investments in these entities and the exposure under the guarantees discussed in Note 4.

Option Contracts

In the Company's homebuilding operations, the Company has access to land through option contracts, which generally enables it to defer acquiring portions of properties owned by third parties (including land funds) and unconsolidated entities until the Company is ready to build homes on them.

At August 31, 2006, the Company had access through option contracts to 209,511 homesites, of which 115,984 were through option contracts with third parties and 93,527 were through option contracts with unconsolidated entities in which the Company has investments.

A majority of the Company's option contracts require a non-refundable cash deposit or irrevocable letter of credit based on a percentage of the purchase price of the land. These options are generally rolling options, in which the Company acquires homesites based on pre-determined takedown schedules. The Company's option contracts often include price escalators, which adjust the purchase price of the land to its approximate fair market value at time of the acquisition. The exercise periods of the Company's option contracts vary on a case-by-case basis, but generally range from one to ten years.

The Company's investments in option contracts are recorded at cost unless those investments are determined to be impaired, in which case the Company's investments are written down to fair market value. The Company reviews option contracts for impairment during each reporting period, and more frequently if indicators of impairment arise in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-lived Assets*. The most significant indicator

of impairment is a decline in the fair market value of the optioned property such that the purchase and development of the optioned property would no longer be economically advantageous to the Company. Such declines could be caused by a variety of factors including increased competition, decreases in demand or changes in local regulations that adversely impact the cost of development. Changes in any of these factors would cause the Company to re-evaluate the likelihood of exercising its land options.

Each option contract contains a predetermined take-down schedule for the optioned land parcels. However, in almost all instances, the Company is not required to purchase land in accordance with those take-down schedules. In substantially all instances, the Company has the right and ability to not exercise its option and forfeit its deposit without further penalty, other than termination of the option and loss of any unapplied portion of its deposit and pre-acquisition costs. Therefore, in substantially all instances, the Company does not consider the take-down price to be a firm contractual obligation. When the Company permits an option to terminate, it writes-off any unapplied deposits and pre-acquisition costs that will be lost. For the three and nine months ended August 31, 2006, the Company wrote-off \$15.8 million and \$41.1 million, respectively, of option deposits and pre-acquisition costs, compared to \$2.9 million and \$10.9 million, respectively, in the same periods last year, related to land under option that it does not intend to purchase.

In very limited cases, the land seller can enforce the take-down schedule by requiring the Company to exercise its option. The Company records the option contract as a financing arrangement when required in accordance with SFAS No. 49, *Accounting for Product Financing Arrangements*, and records the optioned property and related take-down liability in its consolidated financial statements.

The Company evaluated all option contracts for land when entered into or upon a reconsideration event and determined it was the primary beneficiary of certain of these option contracts. Although the Company does not have legal title to the optioned land, under FIN 46R, the Company, if it is deemed to be the primary beneficiary, is required to consolidate the land under option at the purchase price of the optioned land. During the nine months ended August 31, 2006, the effect of the consolidation of these option contracts was an increase of \$361.6 million to consolidated inventory not owned with a corresponding increase to liabilities related to consolidated inventory not owned in the accompanying condensed consolidated balance sheet as of August 31, 2006. This increase was offset primarily by the Company exercising its options to acquire land under certain contracts previously consolidated under FIN 46R, resulting in a net decrease in consolidated inventory not owned of \$76.6 million. To reflect the purchase price of the inventory consolidated under FIN 46R, the Company reclassified \$68.1 million of related option deposits from land under development to consolidated inventory not owned in the accompanying condensed consolidated balance sheet as of August 31, 2006. The liabilities related to consolidated inventory not owned represent the difference between the purchase price of the optioned land and the Company's cash deposits.

At August 31, 2006, the Company's exposure to loss related to its option contracts with third parties and unconsolidated entities consisted of its non-refundable option deposits and advanced costs totaling \$810.4 million. Additionally, the Company posted \$535.7 million of letters of credit in lieu of cash deposits under certain option contracts as of August 31, 2006.

(16) New Accounting Pronouncements

In December 2004, the FASB issued Staff Position 109-1, *Application of FASB Statement No. 109, Accounting for Income Taxes, to the Tax Deduction on Qualified Production Activities Provided by the American Jobs Creation Act of 2004* (FSP 109-1). The American Jobs Creation Act, which was signed into law in October 2004, provides a tax deduction on qualified domestic production activities. When fully phased-in, the deduction will be up to 9% of the lesser of qualified production activities income or taxable income. Based on the guidance provided by FSP 109-1, this deduction should be accounted for as a special deduction under SFAS No. 109, *Accounting for Income Taxes*, (SFAS 109) and will reduce tax expense in the period or periods that the amounts are deductible on the tax return. FSP 109-1 was effective December 21, 2004. The tax benefit resulting from the new deduction was effective beginning in the Company's first quarter of fiscal year 2006 and is reflected in the effective income tax rate of 37.00% for the three and nine months ended August 31, 2006, reduced from 37.75% for the three and nine months ended August 31, 2005. The Company is continuing to evaluate the impact of this law on its future financial statements and currently estimates the fiscal 2006 reduction in its federal income tax rate from fiscal 2005 to be approximately 75 basis points.

In May 2005, the FASB issued SFAS No. 154, *Accounting Changes and Error Corrections-a replacement of APB Opinion No. 20 and FASB Statement No. 3*, (SFAS 154). SFAS 154, which replaces APB Opinion No. 20, *Accounting Changes*, and SFAS No. 3, *Reporting Accounting Changes in Interim Financial Statements*, changes the requirements for the accounting and reporting of a change in an accounting principle. The statement requires retrospective application of changes in an accounting principle to prior periods' financial statements unless it is impracticable to determine the period-specific effects or the cumulative effect of the change. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005 (the Company's fiscal year beginning December 1, 2006). The adoption of SFAS 154 is not expected to have a material impact on the Company's financial position, results of operations or cash flows.

In June 2006, the FASB issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes-an interpretation of SFAS 109*, (FIN 48). FIN 48 provides interpretive guidance for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006 (the Company's fiscal year beginning December 1, 2007). The Company is currently reviewing the effect of this Interpretation on its consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*, (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 (the Company's fiscal year beginning December 1, 2007), and interim periods within those fiscal years. The Company is currently reviewing the effect of this Statement on its consolidated financial statements.

(17) Supplemental Financial Information

The Company's obligations to pay principal, premium, if any, and interest under its New Facility, senior floating-rate notes due 2007, senior floating-rate notes due 2009, 7 5/8% senior notes due 2009, 5.125% senior notes due 2010, 5.95% senior notes due 2011, 5.95% senior notes due 2013, 5.50% senior notes due 2014, 5.60% senior notes due 2015 and 6.50% senior notes due 2016 are guaranteed by substantially all of the Company's subsidiaries other than finance company subsidiaries. The guarantees are full and unconditional and the guarantor subsidiaries are 100% directly or indirectly owned by Lennar Corporation. The guarantees are joint and several, subject to limitations as to each guarantor designed to eliminate fraudulent conveyance concerns. The Company has determined that separate, full financial statements of the guarantors would not be material to investors and, accordingly, supplemental financial information for the guarantors is presented as follows:

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our condensed consolidated financial statements and accompanying notes included under Item 1 of this document and our audited consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K/A for our fiscal year ended November 30, 2005.

As discussed in Note 1 to the condensed consolidated financial statements, subsequent to the issuance of our condensed consolidated financial statements for the quarterly period ended February 28, 2006, we expanded our disclosures of reportable segments in accordance with the provisions of Statements of Financial Accounting Standards (SFAS) No. 131, *Disclosures About Segments of an Enterprise and Related Information*. We had historically aggregated our homebuilding operating segments into a single, national reportable segment, but restated our segment disclosure in our 2005 Annual Report on Form 10-K to include three homebuilding reportable segments. Thus, the segment disclosure for the three and nine months ended August 31, 2005 has been restated in order to conform to the segment disclosure in the 2005 Annual Report on Form 10-K/A (see Note 3 to our condensed consolidated financial statements). The restatement has no impact on our condensed consolidated balance sheets as of November 30, 2005 and August 31, 2005, condensed consolidated statements of earnings and related earnings per share amounts for the three and nine months ended August 31, 2005 or condensed consolidated statement of cash flows for the nine months ended August 31, 2005. The Results of Operations section of Management's Discussion and Analysis of Financial Condition and Results of Operations gives effect to this restatement.

Some of the statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations, and elsewhere in this Quarterly Report on Form 10-Q, are forward-looking statements, as that term is defined in the Private Securities Litigation Reform Act of 1995. These forward-looking statements include statements regarding our business, financial condition, results of operations, cash flows, strategies and prospects. You can identify forward-looking statements by the fact that these statements do not relate strictly to historical or current matters. Rather, forward-looking statements relate to anticipated or expected events, activities, trends or results. Because forward-looking statements relate to matters that have not yet occurred, these statements are inherently subject to risks and uncertainties. Many factors could cause our actual activities or results to differ materially from the activities and results anticipated in forward-looking statements. These factors include those described under the caption *Risk Factors Relating to Our Business* included in Item 1A of our Annual Report on Form 10-K/A for our fiscal year ended November 30, 2005 and in our other filings with the Securities and Exchange Commission. We do not undertake any obligation to update forward-looking statements.

Outlook

During the third quarter and into the fourth quarter of 2006, conditions in the homebuilding industry continue to weaken. This market deterioration is driven primarily by excess supply as speculators reduce purchases and return homes to the market as well as negative customer sentiment surrounding the general homebuilding market. We are experiencing slower sales and higher cancellations (approximately 30% in the third quarter) which have impacted most of our markets and therefore, we are making greater use of sales incentives to generate sales in order to achieve our delivery goals which should result in lower inventory levels.

In order to manage under these difficult conditions, we continue to be a balance sheet-first focused company with an intensified focus on generating strong cash flow. We believe the best way to generate strong cash flow is to deliver inventory priced to market; however, this has resulted in higher sales incentives, leading to lower gross margins on home sales. Concurrently, we will continue to reassess our owned land position, land under option and joint ventures to identify those assets that should be reduced, repositioned, replaced or written-down. Additionally, our strategy is to adjust our cost structure to today's market conditions. This includes renegotiating land pricing, rebidding subcontracts and materials, refining and redefining product offerings, and reducing overhead in line with reduced demand, all in an effort to partially offset our declining margins.

The economic factors that drive our business remain strong and, we believe, point to an eventual recovery and provide for a healthy long-term prognosis for the homebuilding industry. With our strong cash flow and balance sheet, we believe we are well-positioned to withstand the current difficult market and to meet opportunities as they become available.

(1) Results of Operations

Overview

We historically have experienced, and expect to continue to experience, variability in quarterly results. Our results of operations for the three and nine months ended August 31, 2006 are not necessarily indicative of the results to be expected for the full year.

Third quarter 2006 net earnings were \$206.7 million, or \$1.30 per diluted share (\$1.31 per basic share) compared to \$337.3 million, or \$2.06 per diluted share (\$2.18 per basic share), in the third quarter of 2005. For the nine months ended August 31, 2006 earnings from continuing operations were \$789.5 million, or \$4.88 per diluted share (\$4.99 per basic share) compared to \$763.3 million, or \$4.64 per diluted share (4.93 per basic share) in 2005.

Financial information relating to our continuing operations was as follows:

<i>(Dollars in thousands)</i>	Three Months Ended August 31,		Nine Months Ended August 31,	
	2006	2005	2006	2005

Three Months Ended August 31, 2006 versus Three Months Ended August 31, 2005

Revenues from home sales increased 21% in the third quarter of 2006 to \$3.9 billion from \$3.2 billion in 2005. Revenues were higher primarily due to a 17% increase in the number of home deliveries and a 3% increase in the average sales price of homes delivered in 2006. New home deliveries, excluding unconsolidated entities, increased to 12,337 homes in the third quarter of 2006 from 10,503 homes last year. In the three months ended August 31, 2006, new home deliveries were higher in each of our homebuilding segments and homebuilding other, compared to 2005. The average sales price of homes delivered increased to \$316,000 in the third quarter of 2006 from \$306,000 in 2005. New orders during the third quarter of 2006 decreased to 11,056 homes, from 11,614 homes last year; and our backlog as of August 31, 2006 was 16,008 homes with a backlog dollar value of \$5.6 billion, compared to 21,818 homes with a backlog dollar value of \$8.1 billion at August 31, 2005, and 17,990 homes with a backlog dollar value of \$6.5 billion at May 31, 2006.

Gross margins on home sales were \$729.2 million, or 18.7%, in the third quarter of 2006, compared to \$846.4 million, or 26.3%, in the same quarter of 2005. Gross margin percentage on home sales decreased 760 basis points, compared to last year, due to decreases in all of our homebuilding segments and homebuilding other, primarily due to higher sales incentives offered to homebuyers and \$32.0 million of inventory valuation adjustments. Gross margins in the third quarter of 2005 were significantly higher than our historical norms. Gross margin percentage in the third quarter of 2006 was also 480 basis points lower than the 23.5% gross margin percentage in the second quarter of 2006.

During the three months ended August 31, 2006, homebuilding interest expense included in the cost of homes sold was \$54.9 million, compared to \$41.7 million in the same period last year. The increase in homebuilding interest expense was primarily due to an increase in the number of new home deliveries. During the three months ended August 31, 2006, homebuilding interest included in the cost of land sold was \$1.0 million, compared to \$1.9 million in the same period last year. During the three months ended August 31, 2006, all other interest related to homebuilding totaling \$4.9 million, compared to \$0.6 million in the same period last year, was included in management fees and other income, net.

Selling, general and administrative expenses as a percentage of revenues from home sales improved to 10.9% in the third quarter of 2006, from 11.3% in 2005. The 40 basis point improvement was primarily due to lower incentive compensation expenses, partially offset by increases in broker commissions and advertising expenses. Management fees of \$10.3 million received during the third quarter of 2005 from unconsolidated entities in which we have investments, which were previously recorded as a reduction of selling, general and administrative expenses, have been reclassified to management fees and other income, net, in order to conform to the 2006 presentation.

Gross profit (loss) on land sales totaled (\$0.3) million in the third quarter of 2006 (net of \$15.8 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$11.8 million of inventory valuation adjustments), compared to \$46.4 million in 2005. Equity in earnings (loss) from unconsolidated entities was (\$5.9) million in the third quarter of 2006 (which included \$16.5 million of valuation adjustments to our investments in unconsolidated entities), compared to \$16.8 million last year. Management fees and other income, net, totaled \$21.8 million in the third quarter of 2006, compared to \$20.4 million in the third quarter of 2005. Minority interest expense, net was \$1.1 million and \$13.2 million, respectively, in the third quarter of 2006 and 2005. Sales of land, equity in earnings (loss) from unconsolidated entities, management fees and other income, net and minority interest expense, net may vary significantly from period to period depending on the timing of land sales and other transactions entered into by us and by unconsolidated entities in which we have investments.

Operating earnings for the Financial Services segment were \$61.7 million in the third quarter of 2006, compared to \$34.9 million last year. The increase was primarily due to a \$17.7 million pretax gain generated from monetizing the segment's personal lines insurance policies, as well as increased profitability from the segment's mortgage operations as a result of increased volume and profit per loan.

Corporate general and administrative expenses as a percentage of total revenues were 1.2% in the three months ended August 31, 2006, compared to 1.3% in the same period last year.

For the three months ended August 31, 2006 and 2005, our effective income tax rates were 37.00% and 37.75%, respectively. The decrease in the effective tax rate was due primarily to the benefit provided by the American Jobs Creation Act on qualified domestic production activities.

Nine Months Ended August 31, 2006 versus Nine Months Ended August 31, 2005

Revenues from home sales increased 35% in the nine months ended August 31, 2006 to \$10.8 billion from \$8.1 billion in 2005. Revenues were higher primarily due to a 25% increase in the number of home deliveries and an 8% increase in the average sales price of homes delivered in 2006. New home deliveries, excluding unconsolidated entities, increased to 33,747 homes in the nine months ended August 31, 2006 from 27,031 homes last year. In the nine months ended August 31, 2006, new home deliveries were higher in each of our homebuilding segments and homebuilding other, compared to 2005. The average sales price of homes delivered increased to \$321,000 in the nine months ended August 31, 2006 from \$298,000 in 2005. New orders during the nine months ended August 31, 2006 were 32,606 homes, down from 33,169 new orders during the nine months ended August 31, 2005.

Gross margins on home sales were \$2.4 billion, or 22.2%, in the nine months ended August 31, 2006, compared to \$2.0 billion, or 25.4%, in 2005. Gross margin percentage on home sales decreased 320 basis points, compared to last year, due to decreases in all of our homebuilding segments and homebuilding other, primarily due to higher sales incentives offered to homebuyers and \$40.7 million of inventory valuation adjustments. Gross margins in the nine months ended August 31, 2005 were significantly higher than our historical norms.

During the nine months ended August 31, 2006, homebuilding interest expense included in the cost of homes sold was \$152.3 million, compared to \$108.3 million in the same period last year. The increase in homebuilding interest expense was primarily due to an increase in the number of new home deliveries. During the nine months ended August 31, 2006, homebuilding interest expense included in the cost of land sold was \$10.3 million, compared to \$11.7 million in the same period last year. During the nine months ended August 31, 2006, all other interest related to homebuilding totaling \$15.4 million, compared to \$1.7 million, in the same period last year, was included in management fees and other income, net.

Selling, general and administrative expenses as a percentage of revenues from home sales were 11.8% and 11.9%, respectively, for the nine months ended August 31, 2006 and 2005. Management fees of \$25.6 million received during the nine months ended August 31, 2005 from unconsolidated entities in which we have investments, which were previously recorded as a reduction of selling, general and administrative expenses, have been reclassified to management fees and other income, net, in order to conform to the 2006 presentation.

Gross profit on land sales totaled \$89.9 million in the nine months ended August 31, 2006 (net of \$41.1 million of write-offs of deposits and pre-acquisition costs related to land under option that the Company does not intend to purchase and \$35.8 million of inventory valuation adjustments), compared to \$142.6 million in 2005. Equity in earnings from unconsolidated entities was \$47.1 million in the nine months ended August 31, 2006 (which included \$16.7 million of valuation adjustments to our investments in unconsolidated entities), compared to \$54.7 million last year. Management fees and other income, net, totaled \$57.7 million in the nine months ended August 31, 2006, compared to \$61.8 million in 2005. Minority interest expense, net, was \$12.1 million and \$33.9 million, respectively, in the nine months ended August 31, 2006 and 2005. Sales of land, equity in earnings from unconsolidated entities, management fees and other income, net, and minority interest expense, net, may vary significantly from period to period depending on the timing of land sales and other transactions entered into by us and by unconsolidated entities in which we have investments.

Operating earnings from continuing operations for the Financial Services segment were \$106.9 million in the nine months ended August 31, 2006, compared to \$70.2 million last year. The increase was primarily due to a \$17.7 million pretax gain generated from monetizing the segment's personal lines insurance policies, as well as increased profitability from the segment's mortgage operations as a result of increased volume and profit per loan.

Corporate general and administrative expenses as a percentage of total revenues were 1.3% in the nine months ended August 31, 2006, compared to 1.4% in the same period last year.

For the nine months ended August 31, 2006 and 2005, our effective income tax rates were 37.00% and 37.75%, respectively. The decrease in the effective tax rate was primarily due to the benefit provided by the American Jobs Creation Act on qualified domestic production activities.

Homebuilding Segments

We have grouped our homebuilding activities into three reportable segments, which we refer to as Homebuilding East, Homebuilding Central and Homebuilding West. Information about homebuilding activities in states that do not have economic characteristics similar to those in other states in the same geographic area is grouped under Homebuilding Other. References in this Management's Discussion and Analysis of Financial Condition and Results of Operations to homebuilding segments are to those reportable segments.

At August 31, 2006, our reportable homebuilding segments and Homebuilding Other consisted of homebuilding divisions located in the following states: **East:** Florida, Maryland, New Jersey and Virginia. **Central:** Texas, Arizona and Colorado. **West:** California and Nevada. **Other:** Illinois, Minnesota, New York, North Carolina and South Carolina.

The following tables set forth selected financial and operational information related to our homebuilding operations for the periods indicated:

Other	458,463	633,138	
Total	\$ 5,604,055	8,143,152	

Of the total dollar value of homes in backlog listed above, \$577,630 represents the backlog dollar value from unconsolidated entities at August 31, 2006, compared to \$593,238 of backlog dollar value at August 31, 2005.

Edgar Filing: LENNAR CORP /NEW/ - Form 10-Q

Backlog represents the number of homes under sales contracts. Homes are sold using sales contracts, which are generally accompanied by sales deposits. In some instances, purchasers are

permitted to cancel sales contracts if they fail to qualify for financing or under certain other circumstances. We experienced a significant increase in our cancellation rate during the third quarter of 2006. However, we focus on reselling these homes, which, in many instances, would include the use of higher sales incentives (discussed below as a percentage of revenues from home sales) to avoid the build up of excess inventory. We do not recognize revenue on homes under sales contracts until the sales are closed and title passes to the new homeowners, except for our mid-to-high-rise condominiums under construction for which revenue is recognized under percentage-of-completion accounting.

Three Months Ended August 31, 2006 versus Three Months Ended August 31, 2005

Homebuilding East: Homebuilding revenues increased 39% for the three months ended August 31, 2006 to \$1.2 billion from \$883.4 million in 2005. The increase in revenues was primarily due to a 23% increase in the number of home deliveries and a 10% increase in the average sales price of homes delivered. Gross margins on home sales were 21.2% for the three months ended August 31, 2006, compared to 28.6% for the same period in the prior year. Gross margins on home sales decreased for the three months ended August 31, 2006 primarily due to higher sales incentives offered to homebuyers (12.5% in the third quarter of 2006, compared to 1.1% in the same period last year) and \$10.9 million of inventory valuation adjustments in 2006.

Gross profit (loss) on land sales was \$1.2 million for the three months ended August 31, 2006 (net of \$4.0 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$5.1 million of inventory valuation adjustments), compared to (\$0.2) million during the same period last year (net of \$0.7 million of inventory valuation adjustments).

Homebuilding Central: Homebuilding revenues increased 11% for the three months ended August 31, 2006 to \$946.3 million from \$854.0 million in 2005. The increase in revenues was primarily due to a 7% and 42% increase, respectively, in the number of home deliveries in Texas and Arizona. Gross margins on home sales were 17.2% for the three months ended August 31, 2006, compared to 21.2% for the same period in the prior year. Gross margins on home sales decreased for the three months ended August 31, 2006 primarily due to higher sales incentives offered to homebuyers (9.7% in the third quarter of 2006, compared to 4.9% in the same period last year).

Gross profit on land sales was \$2.4 million for the three months ended August 31, 2006 (net of \$2.2 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$0.6 million of inventory valuation adjustments), compared to \$4.9 million during the same period last year (net of \$0.1 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase).

Homebuilding West: Homebuilding revenues increased 9% for the three months ended August 31, 2006 to \$1.4 billion from \$1.3 billion in 2005. The increase in revenues was primarily due to a 15% increase in the number of home deliveries. Gross margins on home sales were 19.2% for the three months ended August 31, 2006, compared to 29.7% for the same period in the prior year. Gross margins on home sales decreased for the three months ended August 31, 2006 primarily due to higher sales incentives offered to homebuyers (8.8% in the third quarter of 2006, compared to 1.6% in the same period last year) and \$19.3 million of inventory valuation adjustments in 2006.

Gross profit on land sales was \$3.0 million for the three months ended August 31, 2006 (net of \$8.5 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase) compared to \$40.7 million during the same period last year (net of \$1.7 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase). Equity in earnings from unconsolidated entities for the three months ended August 31, 2006 included \$14.4 million of valuation adjustments to our investments in unconsolidated entities.

Homebuilding Other: Homebuilding revenues increased 31% for the three months ended August 31, 2006 to \$371.9 million from \$283.1 million in 2005. The increase in revenues was primarily due to a 40% increase in the number of home deliveries. Gross margins on home sales were 12.2% for the three months ended August 31, 2006, compared to 18.5% for the same period in the prior year. Gross margins on home sales decreased for the three months ended August 31, 2006 primarily due to higher sales incentives offered to homebuyers (8.3% in the third quarter of 2006, compared to 4.2% in the same period last year) and \$1.8 million of inventory valuation adjustments in 2006.

Gross profit (loss) on land sales was (\$6.9) million for the three months ended August 31, 2006 (net of \$1.1 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$6.1 million of inventory valuation adjustments), compared to \$1.1 million during the same period last year (net of \$0.3 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$1.6 million of inventory valuation adjustments).

Nine Months Ended August 31, 2006 versus Nine Months Ended August 31, 2005

Homebuilding East: Homebuilding revenues increased 54% for the nine months ended August 31, 2006 to \$3.3 billion from \$2.2 billion in 2005. The increase in revenues was primarily due to a 33% increase in the number of home deliveries and a 14% increase in the average sales price of homes delivered. Gross margins on home sales were 24.8% for the nine months ended August 31, 2006, compared to 26.6% for the same period in the prior year. Gross margins on home sales decreased for the nine months ended August 31, 2006 primarily due to higher sales incentives offered to homebuyers (9.0% during the nine months ended August 31, 2006, compared to 1.3% in the same period last year) and \$18.0 million of inventory valuation adjustments in 2006.

Gross profit on land sales was \$14.6 million for the nine months ended August 31, 2006 (net of \$7.1 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$8.1 million of inventory valuation adjustments), compared to \$11.9 million during the same period last year (net of \$2.2 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$0.5 million of inventory valuation adjustments).

Homebuilding Central: Homebuilding revenues increased 19% for the nine months ended August 31, 2006 to \$2.7 billion from \$2.3 billion in 2005. The increase in revenues was primarily due to an increase in the number of home deliveries in Texas and Arizona and an increase in the average sales price of homes delivered in Arizona and Colorado. Gross margins on home sales were 19.0% for the nine months ended August 31, 2006, compared to 20.3% for the same period in the prior year. Gross margins on home sales decreased for the nine months ended August 31, 2006 primarily due to higher sales incentives offered to homebuyers (8.2% during the nine months ended August 31, 2006, compared to 5.1% in the same period last year) and \$1.6 million of inventory valuation adjustments in 2006.

Gross profit on land sales was \$4.3 million for the nine months ended August 31, 2006 (net of \$2.8 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$13.3 million of inventory valuation adjustments), compared to \$10.4 million during the same period last year (net of \$0.2 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase).

Homebuilding West: Homebuilding revenues increased 38% for the nine months ended August 31, 2006 to \$4.6 billion from \$3.3 billion in 2005. The increase in revenues was primarily due to a 29% increase in the number of home deliveries and a 4% increase in the average sales price of homes delivered. Gross margins on home sales were 23.9% for the nine months ended August 31, 2006, compared to 29.7% for the same period in the prior year. Gross margins on home sales decreased for the nine months ended August 31, 2006 primarily due to higher sales incentives offered to homebuyers (5.8% during the nine months ended August 31, 2006, compared to 1.5% in the same period last year) and \$19.3 million of inventory valuation adjustments in 2006.

Gross profit on land sales was \$98.2 million for the nine months ended August 31, 2006 (net of \$16.8 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase), compared to \$120.5 million during the same period last year (net of \$7.4 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase). Equity in earnings from unconsolidated entities for the nine months ended August 31, 2006 included \$14.4 million of valuation adjustments to our investments in unconsolidated entities.

Homebuilding Other: Homebuilding revenues increased 29% for the nine months ended August 31, 2006 to \$890.3 million from \$688.4 million in 2005. The increase in revenues was primarily due to a 31% increase in the number of home deliveries. Gross margins on home sales were 14.0% for the nine months ended August 31, 2006, compared to 18.2% for the same period in the prior year. Gross margins on home sales decreased for the nine months ended August 31, 2006 primarily due to higher sales incentives offered to homebuyers (6.8% in the third quarter of 2006, compared to 4.2% in the same period last year) and \$1.8 million of inventory valuation adjustments in 2006.

Gross profit (loss) on land sales was (\$27.3) million for the nine months ended August 31, 2006 (net of \$14.4 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$14.3 million of inventory valuation adjustments), compared to (\$0.2) million during the same period last year (net of \$1.1 million of write-offs of deposits and pre-acquisition costs related to land under option that we do not intend to purchase and \$2.0 million of inventory valuation adjustments).

Edgar Filing: LENNAR CORP /NEW/ - Form 10-Q

The table below indicates the number of homesites owned and homesites to which we have access through option contracts with third parties (optioned) or unconsolidated joint ventures (JVs) in which we have investments (i.e., controlled homesites) at August 31, 2006 and 2005:

August 31, 2006	Controlled			
	Owned	Optioned	JVs	Total
East	39,719	50,443	18,450	108,612
Central	23,873	28,389	28,677	80,939
West	23,151	27,369	43,297	93,817
Other	12,555	9,783	3,103	25,441
Total	99,298	115,984	93,527	308,809

August 31, 2005	Controlled			
	Owned	Optioned	JVs	Total
East	30,479	50,648	20,789	101,916
Central	28,573	31,131	31,324	91,028
West	26,642	20,390	40,974	88,006
Other	12,172	7,621	2,256	22,049
Total	97,866	109,790	95,343	302,999

At August 31, 2006, 13% of the homesites we owned were subject to home purchase contracts. At August 31, 2006 and 2005, our backlog of sales contracts was 16,008 homes (\$5.6 billion) and 21,818 homes (\$8.1 billion), respectively. Although we had higher gross new orders during the third quarter, our net new orders were lower due to higher cancellation rates primarily resulting from speculators exiting the market and negative customer sentiment surrounding the general homebuilding market.

Financial Services Segment

The following table presents selected financial data related to our Financial Services segment for the periods indicated:

(Dollars in thousands)	Three Months Ended		Nine Months Ended	
	August 31,		August 31,	
	2006	2005	2006	2005
Revenues	\$ 185,644	152,324	479,786	399,776
Costs and expenses	123,950	117,385	372,876	329,588
Operating earnings from continuing operations	\$ 61,694	34,939	106,910	70,188
Dollar value of mortgages originated	\$ 2,777,000	2,494,000	7,502,000	6,422,000
Number of mortgages originated	11,100	11,300	30,200	29,900
Mortgage capture rate of Lennar homebuyers	67%	64%	64%	67%
Number of title and closing service transactions	42,500	51,000	120,200	138,500
Number of title policies issued	51,200	43,300	146,200	130,700

(2) Financial Condition and Capital Resources

At August 31, 2006, we had cash related to our homebuilding and financial services operations of \$256.1 million, compared to \$208.7 million at August 31, 2005. We finance our land acquisition and development activities, construction activities, financial services activities and general operating needs primarily with cash generated from our operations and public debt issuances, as well as cash borrowed under our unsecured credit facility (the New Facility), issuances of commercial paper and borrowings under our warehouse lines of credit.

Operating Cash Flow Activities

In the nine months ended August 31, 2006, cash used in operating activities totaled \$153.6 million, compared to \$861.1 million in the same period last year. During the nine months ended August 31, 2006, cash used in operating activities consisted primarily of an increase in inventories, resulting from increased homes under construction and increased land under development, and a decrease in accounts payable and other liabilities, partially offset by net earnings, distributions of earnings from unconsolidated entities, a decrease in receivables and a decrease in financial services loans held-for-sale.

Investing Cash Flow Activities

Cash used in investing activities totaled \$385.7 million in the nine months ended August 31, 2006, compared to \$603.2 million in the same period last year. In the nine months ended August 31, 2006, we contributed \$582.2 million of cash to unconsolidated entities, compared to \$708.9 million in the same period last year. In addition, we used \$33.2 million of cash for acquisitions during the nine months ended August 31, 2006, compared to \$217.6 million during the same period last year. We are always looking at the possibility of acquiring homebuilders and other companies. However, at August 31, 2006, we had no agreements or understandings regarding any significant transactions. The usage of cash was partially offset by \$220.9 million in distributions of capital from unconsolidated entities during the nine months ended August 31, 2006, compared to \$319.9 million in the same period last year.

Financing Cash Flow Activities

Homebuilding debt to total capital is a financial measure commonly used in the homebuilding industry and is presented to assist in understanding the leverage of our homebuilding operations. Management believes providing a measure of leverage of our homebuilding operations enables readers of our financial statements to better understand our financial position and performance. Homebuilding debt to total capital is calculated as follows:

<i>(Dollars in thousands)</i>	August 31,	
	2006	2005
Homebuilding debt	\$ 2,784,074	2,780,331
Stockholders' equity	5,930,798	4,719,312
Total capital	\$ 8,714,872	7,499,643
Homebuilding debt to total capital	31.9%	37.1%

The decrease in the ratio primarily resulted from our accumulated earnings subsequent to August 31, 2005. In addition to the use of capital in our homebuilding and financial services

operations, we actively evaluate various other uses of capital, which fit into our homebuilding and financial services strategies and appear to meet our profitability and return on capital requirements. This may include acquisitions of, or investments in, other entities, the payment of dividends or repurchases of our outstanding common stock or debt. These activities may be funded through any combination of our credit facilities, issuances of commercial paper, cash generated from operations, sales of assets or the issuance of public debt, common stock or preferred stock.

Our average debt outstanding was \$3.2 billion for the nine months ended August 31, 2006, compared to \$2.7 billion during the same period last year. The average rate for interest incurred was 5.6% for both the nine months ended August 31, 2006 and 2005. Interest incurred for the nine months ended August 31, 2006 was \$183.3 million, compared to \$122.9 million last year. The majority of our short-term financing needs, including financing for land acquisition and development activities and general operating needs, are met with cash generated from operations, funds available under our unsecured credit facility (the Credit Facility) and issuances of commercial paper. In January 2006, we increased our Credit Facility to \$2.2 billion, by accessing its accordion feature. In March 2006, we amended certain terms of our Credit Facility to provide that proceeds from our Credit Facility may be used to repay amounts outstanding under our commercial paper program, which is described below.

In July 2006, we replaced the Credit Facility with a new senior unsecured revolving credit facility (the New Facility). The New Facility consists of a \$2.7 billion revolving credit facility maturing in 2011. The New Facility also includes access to an additional \$485 million of financing through an accordion feature, subject to additional commitments, for a maximum aggregate commitment under the New Facility of \$3.2 billion. Our New Facility is guaranteed by substantially all of our subsidiaries other than finance company subsidiaries (which include mortgage and title insurance agency subsidiaries). Interest rates on outstanding borrowings are LIBOR-based, with margins determined based on changes in our credit ratings, or an alternate base rate, as described in the credit agreement. The average daily borrowings under our New Facility during the nine months ended August 31, 2006 were \$581.9 million.

We have a structured letter of credit facility (the LC Facility) with a financial institution. The purpose of the LC Facility is to facilitate the issuance of up to \$200 million of letters of credit on a senior unsecured basis. In connection with the LC Facility, the financial institution issued \$200 million of their senior notes, which were linked to our performance on the LC Facility. If there is an event of default under the LC Facility, including our failure to reimburse a draw against an issued letter of credit, the financial institution would assign its claim against us, to the extent of the amount due and payable by us under the LC Facility, to its noteholders in lieu of their principal repayment on their performance-linked notes.

At August 31, 2006, we had letters of credit outstanding in the amount of \$1.4 billion, which includes \$190.4 million outstanding under the LC Facility. The majority of these letters of credit are posted with regulatory bodies to guarantee our performance of certain development and construction activities or are posted in lieu of cash deposits on option contracts. Of our total letters of credit outstanding, \$410.9 million were collateralized against certain borrowings available under the New Facility.

In March 2006, we initiated a commercial paper program (the Program) under which we may, from time-to-time, issue short-term unsecured notes in an aggregate amount not to exceed \$2.0 billion. We anticipate that this program will allow us to obtain more favorable short-term borrowing rates than we would obtain otherwise. The Program is exempt from the registration requirements of the Securities Act of 1933 pursuant to Section 3(a)(3) of such act. Issuances

under the Program are guaranteed by all of our wholly-owned subsidiaries that are also guarantors of our New Facility. The average daily borrowings under the Program from its inception to August 31, 2006 were \$474.3 million.

In 2006, substantially all the outstanding Convertible Notes were converted by the noteholders into 4.9 million Class A common shares. The Convertible Notes were convertible at a rate of 14.2 shares of our Class A common stock per \$1,000 principal amount at maturity. Convertible Notes not converted by the noteholders were not material and were redeemed by us on April 4, 2006. The redemption price was \$468.10 per \$1,000 principal amount at maturity, which represented the original issue price plus accrued original issue discount to the redemption date.

In April 2006, we issued \$250 million of 5.95% senior notes due 2011 and \$250 million of 6.50% senior notes due 2016 (collectively, the Senior Notes) at a price of 99.766% and 99.873%, respectively, in a private placement. Proceeds from the offering of the Senior Notes, after initial purchaser's discount and expenses, were \$248.7 million and \$248.9 million, respectively. The proceeds of the issuance were added to our working capital to be used for general corporate purposes. Interest on the Senior Notes is due semi-annually. The Senior Notes are unsecured and unsubordinated, and substantially all of our subsidiaries other than finance company subsidiaries guarantee the Senior Notes.

In August 2006, we commenced an offer to exchange the Senior Notes for notes registered under the Securities Act of 1933 (the Exchange Notes). We completed the exchange offer on October 2, 2006, with substantially all of the Senior Notes being exchanged for the Exchange Notes.

At August 31, 2006, our Financial Services segment had warehouse lines of credit totaling \$1.2 billion to fund its mortgage loan activities. Borrowings under the lines of credit were \$965.5 million at August 31, 2006. The warehouse lines of credit mature in October 2006 (\$500 million) and in April 2008 (\$670 million). In September 2006, the warehouse line of credit that matures in October 2006 was increased to \$700 million and now matures in September 2007. At August 31, 2006, we had advances under a conduit funding agreement amounting to \$5.3 million. We also had a \$25 million revolving line of credit that matures in November 2006, at which time we expect the line of credit to be renewed. Borrowings under the line of credit were \$23.8 million at August 31, 2006.

Changes in Capital

In June 2001, our Board of Directors authorized a stock repurchase program to permit the purchase of up to 20 million shares of our outstanding common stock. During the three and nine months ended August 31, 2006, we repurchased a total of 0.7 million shares and 5.7 million shares, respectively, of our outstanding common stock under our stock repurchase program for an aggregate purchase price including commissions of \$27.5 million, or \$40.93 per share, and \$296.9 million, or \$52.35 per share, respectively, compared to no share repurchases of our common stock during the three months ended August 31, 2005 and a total of 4.4 million share repurchases of our outstanding common stock at an aggregate purchase price of \$232.2 million, or \$53.26 per share, for the nine months ended August 31, 2005. As of August 31, 2006, 6.8 million shares of common stock can be repurchased in the future under the program.

In addition to the common shares repurchased under our stock repurchase program, during the third quarter of 2006, our treasury stock increased 0.1 million common shares in connection with activity related to our equity compensation plans, as well as 0.1 million common shares related to forfeitures of restricted stock.

On August 15, 2006, we paid cash dividends of \$0.16 per share for both our Class A and Class B common stock to holders of record at the close of business on August 4, 2006, as declared by our Board of Directors on June 28, 2006. On October 5, 2006, our Board of Directors declared a quarterly cash dividend of \$0.16 per share for both our Class A and Class B common stock payable on November 15, 2006 to holders of record at the close of business on November 3, 2006.

In recent years, we have sold convertible and non-convertible debt into public markets, and at August 31, 2006, we had shelf registration statements effective under the Securities Act of 1933, as amended, under which we could sell to the public up to \$1.0 billion of debt securities, common stock, preferred stock or other securities and could issue up to \$400 million of equity or debt securities in connection with acquisitions of companies or interests in companies, businesses or assets.

Based on our current financial condition and credit relationships, we believe that our operations and borrowing resources will provide for our current and long-term capital requirements at our anticipated levels of growth.

Off-Balance Sheet Arrangements

We strategically invest in unconsolidated entities that acquire and develop land (1) for our homebuilding operations or for sale to third parties or (2) for the construction of homes for sale to third-party homebuyers. Through these entities, we reduce and share our risk by limiting the amount of our capital invested in land, while increasing access to potential future homesites and allowing us to participate in strategic ventures. The use of these entities also, in some instances, enables us to acquire land to which we could not otherwise obtain access, or could not obtain access on as favorable terms, without the participation of a strategic partner. Our partners in these JVs are land sellers, other homebuilders and financial or strategic partners.

At August 31, 2006, we had equity investments in approximately 260 unconsolidated entities. Our investments in unconsolidated entities are generally land development ventures and homebuilding ventures.

Our investments in unconsolidated entities by type of venture were as follows:

<i>(In thousands)</i>	August 31, 2006	November 30, 2005
Land development	\$ 1,263,316	1,082,101
Homebuilding	277,788	200,585
Total investment	\$ 1,541,104	1,282,686

Although the strategic purposes of our ventures and the nature of our venture partners vary, the ventures are generally designed to acquire, develop and/or sell specific assets during a limited life-time. The ventures are typically structured through non-corporate entities in which

control is shared with our venture partners. Each JV is unique in terms of its funding requirements and liquidity needs. We and the other venture participants typically make pro-rata cash contributions to the JV. In many cases, our risk is limited to our equity contribution and we do not assume obligations to provide additional funding. The capital contributions usually coincide in time with the acquisition of properties by the venture. Additionally, most ventures obtain third-party debt to fund the majority of the acquisition, development and construction costs of their communities. The venture agreements usually permit, but do not require, the ventures to make additional capital calls in the future, but only with the consent of all participants.

At August 31, 2006, the unconsolidated entities in which we had investments had total assets of \$10.3 billion and total liabilities of \$6.3 billion, which included \$5.1 billion of notes and mortgages payable. These unconsolidated entities usually finance their activities with a combination of partner equity and debt financing. As of August 31, 2006, our equity in these unconsolidated entities represented 39% of the entities' total equity. In some instances, we and our partners have guaranteed debt of certain unconsolidated entities. At August 31, 2006, our pro-rata portion of these guarantees was \$1.2 billion, of which \$966.0 million were maintenance guarantees and \$250.7 million were repayment guarantees. As of August 31, 2006, the fair market values of the maintenance guarantees and repayment guarantees were not material. In addition, we and/or our partners occasionally grant liens on our respective interests in a joint venture in order to help secure a loan to that joint venture. When we and/or our partners provide guarantees, the unconsolidated entity generally receives more favorable terms from its lenders than would otherwise be available to it. In a repayment guarantee, we and our venture partners guarantee repayment of a portion or all of the debt in the event of a default before the lender would have to exercise its rights against the collateral. The maintenance guarantees only apply if an unconsolidated entity defaults on its loan arrangements and the value of the collateral (generally land and improvements) is less than a specified percentage of the loan balance. If we are required to make a payment under a maintenance guarantee to bring the value of the collateral above the specified percentage of the loan balance, the payment would constitute a capital contribution or loan to the unconsolidated entity and increase our share of any funds the unconsolidated entity distributes. At August 31, 2006, there were no assets held as collateral that, upon the occurrence of any triggering event or condition under a guarantee, we could obtain and liquidate to recover all or a portion of the amounts to be paid under a guarantee.

Under the terms of our venture agreements, we generally have the right to share in earnings and distributions of the entities on a pro-rata basis based on our ownership percentage. Some venture agreements provide for a different allocation of profit and cash distributions if and when the cumulative results of the venture exceed specified targets (such as a specified internal rate of return). We do not include in our equity in earnings from unconsolidated entities our pro-rata share of unconsolidated entities' earnings resulting from land sales to our homebuilding divisions. Instead, we account for those earnings as a reduction of our costs of purchasing the land from the unconsolidated entities. This in effect defers recognition of our share of the unconsolidated entities' earnings related to these sales until we deliver a home and title passes to a homebuyer.

In some instances, we are designated as the manager of the unconsolidated entity and receive fees for such services. In addition, we often enter into option contracts to acquire properties from our JVs for market prices at specified dates in the future. Option contracts generally require us to make deposits using cash or irrevocable letters of credit toward the exercise price. These option deposits are generally between 10% and 15% of the exercise price.

We regularly monitor the results of our unconsolidated JVs and any trends that may affect their future liquidity or results of operations. Unconsolidated entities in which we have investments are subject to a variety of financial and non-financial debt covenants related primarily to equity maintenance, fair value of collateral and minimum homesite takedown or sale requirements. We monitor the performance of unconsolidated entities in which we have investments on a regular basis to assess compliance with debt covenants. For those unconsolidated entities not in compliance with the debt covenants, we evaluate and assess possible impairment of our investment. As of August 31, 2006, substantially all of our unconsolidated JVs were in compliance with their debt covenants in all material respects. As of August 31, 2006, we believe that our investment in unconsolidated entities is fully recoverable and it is unlikely that we will be called to perform on any of our guarantees that would have a material impact on our condensed consolidated financial statements. However, we and other homebuilders continue to experience slowdowns in demand for homes in certain markets and have increased sales incentives to maintain sales volumes. We will continue to monitor our investments and the recoverability of assets owned by the ventures.

Our arrangements with unconsolidated entities generally do not restrict our activities or those of the other participants. However, in certain instances, we agree not to engage in some types of activities that may be viewed as competitive with the activities of these ventures in the localities where the unconsolidated entities do business.

As discussed above, the unconsolidated entities in which we invest generally supplement equity contributions with third-party debt to finance their activities. In many instances, the debt financing is non-recourse, thus neither we nor the other equity partners are a party to the debt instruments. In other cases, we and the other partners agree to provide credit support in the form of repayment or maintenance guarantees.

Material contractual obligations of our unconsolidated JVs primarily relate to the debt obligations described above. The unconsolidated entities generally do not enter into lease commitments because the entities are managed either by us, or another of the venture participants, who supply the necessary facilities and employee services in exchange for market-based management fees. However, they do enter into management contracts with the participants who manage them. Some entities also enter into agreements with developers, which may be us or other venture participants, to develop raw land into finished homesites or to build homes.

The entities often enter into option agreements with buyers, which may include us or other venture participants, to deliver homesites or parcels in the future at market prices. Option deposits are recorded by the entities as liabilities until the exercise dates at which time the deposit and remaining exercise proceeds are recorded as revenue. Any forfeited deposit is recognized as revenue at the time of forfeiture. Our unconsolidated JVs generally do not enter into off balance sheet arrangements.

Our investment in unconsolidated entities has grown in recent years primarily due to (1) our participation in a larger number of ventures in order to increase the number of homesites we have access to while minimizing capital requirements and mitigating market risk and (2) the increase in land prices in recent years.

As described above, the liquidity needs of unconsolidated entities in which we have investments vary on an entity-by-entity basis depending on each entity's purpose and the stage in its life cycle. During formation and development activities, the entities generally require cash, which is provided through a combination of equity contributions and debt financing, to fund

acquisition and development of properties. As the properties are completed and sold, cash generated is available to repay debt and for distribution to the entity's members. Thus, the amount of cash available for an entity to distribute at any given time is a function of the scope of the entity's activities and the stage in the entity's life cycle.

We track our share of cumulative earnings and cumulative distributions of our JVs. Cumulative distributions are treated as returns *on* capital to the extent of accumulated earnings. Cumulative distributions in excess of our share of cumulative earnings are treated as returns *of* capital. Returns of capital and returns on capital are separately identified and reported in our condensed consolidated statements of cash flows.

Contractual Obligations and Commercial Commitments

During the nine months ended August 31, 2006, our obligations related to our homebuilding debt changed. In particular, all of our outstanding 5.125% zero-coupon convertible senior subordinated notes due 2021 were converted by noteholders to shares or redeemed, we issued \$250 million of 5.95% senior notes due 2011 and issued \$250 million of 6.50% senior notes due 2016 as discussed under Financing Cash Flow Activities. The following summarizes our contractual debt obligations at August 31, 2006:

Contractual Obligations (In thousands)	Total	Payments Due by Period				
		Three months ending November 30, 2006	December 1, 2006 through November 30, 2007	December 1, 2007 through November 30, 2009	December 1, 2009 through November 30, 2011	Thereafter
Homebuilding Senior notes and other debts payable	\$ 2,784,074	20,408	222,604	582,251	614,155	1,344,656
Financial Services - Notes and other debts payable (including limited-purpose finance subsidiaries)	994,898	994,632	96	153	17	
Interest commitments under interest-bearing debt	924,662	46,629	165,165	276,396	203,948	232,524
Total contractual cash obligations related to debt	\$ 4,703,634	1,061,669	387,865	858,800	818,120	1,577,180

We are subject to the usual obligations associated with entering into contracts (including option contracts) for the purchase, development and sale of real estate in the routine conduct of our business. Option contracts for the purchase of land generally enable us to defer acquiring portions of properties owned by third parties and unconsolidated entities until we are ready to build homes on them. This reduces our financial risk associated with land holdings. At August 31, 2006, we had access to approximately 209,511 homesites through option contracts with third parties and unconsolidated entities in which we have investments. At August 31, 2006, we had \$810.4 million of non-refundable option deposits and advanced costs related to certain of these homesites. Additionally, we posted \$535.7 million of letters of credit in lieu of cash deposits under certain option contracts as of August 31, 2006.

We are committed, under various letters of credit, to perform certain development and construction activities and provide certain guarantees in the normal course of business. Outstanding letters of credit under these arrangements totaled \$1.4 billion at August 31, 2006. Additionally, we had outstanding performance and surety bonds related to site improvements at

various projects with estimated costs to complete of \$1.8 billion. We do not believe there will be any draws upon these letters of credit or bonds, but if there were any, they would not have a material effect on our financial position, results of operations or cash flows.

Our Financial Services segment had a pipeline of loan applications in process of \$3.9 billion at August 31, 2006. To minimize credit risk, we use the same credit policies in the approval of our commitments as are applied to our lending activities. Loans in process for which interest rates were committed to the borrowers totaled approximately \$485.0 million as of August 31, 2006. Substantially all of these commitments were for periods of 60 days or less. Since a portion of these commitments is expected to expire without being exercised by the borrowers, the total commitments do not necessarily represent future cash requirements.

Our Financial Services segment uses mandatory mortgage-backed securities (MBS) forward commitments and MBS option contracts to hedge its interest rate exposure during the period from when it extends an interest rate lock to a loan applicant until the time at which the loan is sold to an investor. These instruments involve, to varying degrees, elements of credit and interest rate risk. Credit risk is managed by entering into MBS forward commitments and MBS option contracts only with investment banks with primary dealer status and loan sales transactions with permanent investors meeting our credit standards. Our risk, in the event of default by the purchaser, is the difference between the contract price and fair market value. At August 31, 2006, we had open commitments amounting to \$401.0 million to sell MBS with varying settlement dates through November 2006.

(3) New Accounting Pronouncements

See Note 16 of our condensed consolidated financial statements included under Item 1 of this document for a discussion of new accounting pronouncements applicable to our company.

(4) Critical Accounting Policies

Prior to December 1, 2005, we accounted for stock option awards granted under our share-based payment plans in accordance with the recognition and measurement provisions of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees*, (APB 25) and related Interpretations, as permitted by SFAS No. 123, *Accounting for Stock-Based Compensation*, (SFAS 123). Share-based employee compensation expense was not recognized in our consolidated statements of earnings prior to December 1, 2005, as all stock option awards granted under the plans had an exercise price equal to or greater than the market value of the common stock on the date of the grant. Effective December 1, 2005, we adopted the provisions of SFAS No. 123 (revised 2004), *Share-Based Payment*, (SFAS 123R) using the modified-prospective-transition method. Under this transition method, compensation expense recognized during the three and nine months ended August 31, 2006 included: (a) compensation expense for all share-based awards granted prior to, but not yet vested as of, December 1, 2005, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123, and (b) compensation expense for all share-based awards granted subsequent to December 1, 2005, based on the grant date fair value estimated in accordance with the provisions of SFAS 123R. In accordance with the modified-prospective-transition method, results for prior periods have not been restated. The adoption of SFAS 123R resulted in a charge to net earnings of \$0.03 per diluted share and \$0.08 per diluted share, respectively, for the three and nine months ended August 31, 2006.

The calculation of share-based employee compensation expense involves estimates that require management's judgments. These estimates include the fair value of each of our stock option awards, which are estimated on the date of grant using a Black-Scholes option-pricing model as discussed in Note 13 of our condensed consolidated financial statements included under Item 1 of this document. The fair value of our stock option awards, which are subject to graded vesting, is expensed on a straight-line basis over the vesting life of the options. Expected volatility is based on an average of (1) historical volatility of our stock and (2) implied volatility from traded options on our stock. The risk-free rate for periods within the contractual life of the stock option award is based on the yield curve of a zero-coupon U.S. Treasury bond on the date the stock option award is granted with a maturity equal to the expected term of the stock option award granted. We use historical data to estimate stock option exercises and forfeitures within our valuation model. The expected life of stock option awards granted is derived from historical exercise experience under our share-based payment plans and represents the period of time that stock option awards granted are expected to be outstanding.

We believe that there have been no other significant changes to our critical accounting policies during the nine months ended August 31, 2006 as compared to those we disclosed in Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K/A for the year ended November 30, 2005.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risks related to fluctuations in interest rates on our investments, debt obligations, loans held-for-sale and loans held-for-investment. We utilize derivative instruments, including interest rate swaps, in conjunction with our overall strategy to manage our financial exposure to changes in interest rates. We also utilize forward commitments and option contracts to mitigate the risks associated with our mortgage loan portfolio.

During the nine months ended August 31, 2006, our market risks related to our homebuilding debt changed. In particular, all of our outstanding 5.125% zero-coupon convertible senior subordinated notes due 2021 were converted by noteholders to shares or redeemed, we issued \$250 million of 5.95% senior notes due 2011 and issued \$250 million of 6.50% senior notes due 2016 as discussed under Financing Cash Flow Activities.

The following table provides information at August 31, 2006 about our significant derivative financial instruments and fixed and variable rate debt instruments that are sensitive to changes in interest rates. For homebuilding and financial services debt, the table presents principal cash flows and related weighted average effective interest rates by contractual maturity dates and estimated fair market values at August 31, 2006. Weighted average variable interest rates are based on the variable interest rates at August 31, 2006. For interest rate swaps, the table presents notional amounts and weighted average interest rates by contractual maturity dates and estimated fair market values at August 31, 2006. Notional amounts are used to calculate the contractual cash flows to be exchanged under the contracts. Our limited-purpose finance subsidiaries have placed mortgages and other receivables as collateral for various long-term financings. These limited-purpose finance subsidiaries pay the principal of, and interest on, these financings almost entirely from the cash flows generated by the related pledged collateral and are excluded from the following table.

Information Regarding Interest Rate Sensitivity

Principal (Notional) Amount by

Expected Maturity and Average Interest Rate

August 31, 2006

(Dollars in millions)	Three months ending November 30,		Years Ending November 30,					Total	Fair Market Value at August 31, 2006

Item 4. Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer participated in an evaluation by our management of the effectiveness of our disclosure controls and procedures as of the end of our fiscal quarter that ended on August 31, 2006. Based on their participation in that evaluation, our CEO and CFO concluded that our disclosure controls and procedures were effective as of August 31, 2006 to ensure that required information is disclosed on a timely basis in our reports filed or furnished under the Securities Exchange Act of 1934.

Our CEO and CFO also participated in an evaluation by our management of any changes in our internal control over financial reporting that occurred during the quarter ended August 31, 2006. That evaluation did not identify any changes that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information**Item 1. Not applicable****Item 1A. Risk Factors**

There have been no material changes in our risk factors from those disclosed in our Annual Report on Form 10-K/A for our fiscal year ended November 30, 2005.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

In June 2001, our Board of Directors authorized a stock repurchase program to permit the purchase of up to 20 million shares of our outstanding common stock. During the three months ended August 31, 2006, we repurchased the following shares of our Class A and Class B common stock, (amounts in thousands, except per share amounts):

Period	Total Number of Shares Purchased Class		Average Price Paid Per Share Class		Total Number of Shares Purchased Under Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased Under the Plans or Programs
	A	B	A	B		
June 1, 2006 to June 30, 2006 (1)	55	23	\$ 44.61	\$ 40.72	23	7,427
July 1, 2006 to July 31, 2006		375		40.01	375	7,052
August 1, 2006 to August 31, 2006 (1)	1	274	47.72	42.20	274	6,778
Total	56	672	\$ 44.62	\$ 40.93	672	

(1) The shares of Class A common stock repurchased in the third quarter of 2006 represent share reacquisitions in connection with activity related to our equity compensation plans and were not repurchased as part of our publicly announced stock repurchase program.

Item 3. Not applicable**Item 4. Not applicable****Item 5. Not applicable****Item 6. Exhibits**

- 31.1. Rule 13a-14(a) certification by Stuart A. Miller, President and Chief Executive Officer.
- 31.2. Rule 13a-14(a) certification by Bruce E. Gross, Vice President and Chief Financial Officer.
32. Section 1350 certifications by Stuart A. Miller, President and Chief Executive Officer, and Bruce E. Gross, Vice President and Chief Financial Officer.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, we have duly caused this report to be signed on our behalf by the undersigned thereunto duly authorized.
