**Item 8.01 Other Events**

As previously disclosed, during the first quarter of fiscal 2008, the registrant's management and Board of Directors approved plans to sell its Retail Products segment, Specialty Chemicals business within the Pharmaceutical Products segment and its European Incontinence Products business within the Medical Supplies segment. Each respective business met the assets held for sale and discontinued operations criteria, and accordingly, was reclassified to discontinued operations for all periods.

In addition, during the first quarter of fiscal 2008, the registrant changed its segment reporting to reflect changes in how the various businesses would be managed from 2008 onwards. Operations formerly managed by the Medical Devices segment that relate to the sale and production of radiopharmaceuticals and contrast products are now managed by the Imaging Solutions segment. As a result, net sales and operating income for the Medical Devices and the Imaging Solutions segments have been revised for all prior periods; this reclassification has no impact on the results of operations, financial condition or cash flows of the registrant as a whole.

The registrant is filing this Current Report on Form 8-K for the purpose of providing audited consolidated and combined financial statements as of September 28, 2007 and September 29, 2006, and for each of the three fiscal years in the period ended September 28, 2007, recast to reflect the discontinued operations reclassification and operating segment realignment noted above. The registrant is also providing the following relating to these audited financial statements: Management's Discussion and Analysis of Financial Condition and Results of Operations, Selected Consolidated and Combined Financial and Other Data and Schedule II-Valuation and Qualifying Accounts.
