ITEM 1.01 Entry into a Material Definitive Agreement

On May 21, 2008, Myriad Genetics, Inc. ("Myriad") entered into an agreement with H. Lundbeck A/S ("Lundbeck") for European commercialization of its lead Alzheimer's disease therapeutic candidate, Flurizan®. Myriad granted Lundbeck the rights to market and sell Flurizan in the European Union and several associated non-EU countries.

In exchange for these rights, Lundbeck will pay Myriad an initial non-refundable \$100 million and will pay up to \$250 million in connection with regulatory approvals. Furthermore, Lundbeck has agreed to pay commercialization milestones and will purchase bulk pharmaceutical material from Myriad. Lundbeck will also pay escalating royalties of 20-39% on sales, less the amount paid for the bulk drug. Royalties are payable by Lundbeck on a country-by-country basis until the last to occur of the expiration of Myriad's Flurizan patents or a specified number of years from first commercial sale.

Myriad and Lundbeck will establish a series of joint committees which will be responsible for the development and commercialization of Flurizan.

The agreement may be terminated by either party in the event of (i) mutual agreement, (ii) material, uncured breach, or (iii) bankruptcy. Furthermore, the agreement may be terminated by Lundbeck if they determine the results of Myriad's global Phase III clinical trial do not warrant further safe or efficacious development of Flurizan.
