Table of Contents

Assurant, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (unaudited)

Six Months Ended June 30, 2008 and 2007

(In thousands, except per share and share amounts)

1. Nature of Operations

Assurant, Inc. (the Company) is a holding company whose subsidiaries provide specialized insurance products and related services in North America and selected international markets.

Assurant, Inc. is traded on the New York Stock Exchange under the symbol AIZ.

Through its operating subsidiaries, the Company provides creditor-placed homeowners insurance, manufactured housing homeowners insurance, debt protection administration, credit insurance, warranties and extended service contracts, individual health and small employer group health insurance, group dental insurance, group disability insurance, group life insurance and pre-funded funeral insurance.

2. Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information. Accordingly, these statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of a normal recurring nature) considered necessary for a fair statement of the consolidated financial statements have been included. The unaudited interim consolidated financial statements include the accounts of the Company and all of its wholly owned subsidiaries. All inter-company transactions and balances are eliminated in consolidation. Certain prior period amounts have been reclassified to conform to the 2008 presentation.

The Company recorded an after-tax cumulative effect of change in accounting principle of \$(2,860) on January 1, 2008, related to the adoption of Statement of Financial Accounting Standards (FAS) No. 157, *Fair Value Measurements* (FAS 157). The amount is reflected in the statement of changes in stockholders' equity as required. See Notes 3 and 5 for further information regarding the adoption of FAS 157.

As part of our ongoing monitoring process, we regularly review our investment portfolio to ensure that investments that may be other-than-temporarily impaired are identified on a timely basis and that any impairment is charged against earnings in the proper period. We have reviewed these securities and recorded \$27,573 and \$70,982 of other-than-temporary impairments for the three and six months ended June 30, 2008. There were no other-than-temporary impairments for the three and six months ended June 30, 2007.

Operating results for the three and six months ended June 30, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008. The accompanying unaudited interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.

3. Recent Accounting Pronouncements

Recent Accounting Pronouncements - Adopted

On January 1, 2008, the Company adopted FAS 157 which defines fair value, addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under GAAP and expands disclosures about fair value measurements. FAS 157 is applied prospectively for financial assets and liabilities measured on a recurring basis as of January 1, 2008 except for certain

Edgar Filing: ASSURANT INC - Form 10-Q

financial assets that were measured at fair value using a transaction price. For these financial instruments, which the Company has, FAS 157

Table of Contents

Assurant, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (unaudited)

Six Months Ended June 30, 2008 and 2007

(In thousands, except per share and share amounts)

requires limited retrospective adoption and thus the difference between the fair values using a transaction price and the fair values using an exit price of the relevant financial instruments will be shown as a cumulative-effect adjustment to the January 1, 2008 retained earnings balance. At adoption, the Company recognized a \$4,400 decrease to other assets, and a corresponding decrease of \$2,860 (after-tax) to retained earnings. See Note 5 for further information regarding FAS 157.

On January 1, 2008, the Company adopted FAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (FAS 159). FAS 159 provides a choice to measure many financial instruments and certain other items at fair value on specified election dates and requires disclosures about the election of the fair value option. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. The Company has chosen not to elect the fair value option for any financial or non-financial instruments as of the adoption date, thus the adoption of FAS 159 did not have an impact on the Company's financial position or results of operations.

On January 1, 2008, the Company adopted Emerging Issues Task Force (EITF) Issue No. 06-10, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Collateral Assignment Split-Dollar Life Insurance Arrangements* (EITF 06-10). EITF 06-10 provides guidance regarding the employer's recognition of the liability and the related compensation costs for collateral assignment split-dollar life insurance arrangements that provide a benefit to an employee that extends into postretirement periods. This consensus concludes that for a collateral assignment split-dollar life insurance arrangement, an employer should recognize a liability for future benefits in accordance with FAS No. 106, *Employers' Accounting For Postretirement Benefits Other Than Pensions*, (if, in substance, a postretirement benefit plan exists) or Accounting Principles Board Opinion No. 12, *Deferred Compensation Contracts*, (APB 12) (if the arrangement is, in substance, an individual deferred compensation contract) based on the substantive agreement with the employee. The Company has been recording its liability for future benefits in accordance with APB 12, thus the adoption of EITF 06-10 did not have an impact on the Company's financial position or results of operations.

Recent Accounting Pronouncements Not Yet Adopted

In December 2007, the Financial Accounting Standards Board (FASB) issued FAS No. 141R, *Business Combinations* (FAS 141R). FAS 141R replaces FAS No. 141, *Business Combinations* (FAS 141). FAS 141R retains the fundamental requirements of FAS 141 that the purchase method of accounting be used for all business combinations, that an acquirer be identified for each business combination and for goodwill to be recognized and measured as a residual. FAS 141R expands the definition of transactions and events that qualify as business combinations to all transactions and other events in which one entity obtains control over one or more other businesses. FAS 141R broadens the fair value measurement and recognition of assets acquired, liabilities assumed, and interests transferred as a result of business combinations. FAS 141R also increases the disclosure requirements for business combinations in the financial statements. FAS 141R is effective for fiscal periods beginning after December 15, 2008. Therefore, the Company is required to adopt FAS 141R on January 1, 2009. The Company is currently evaluating the requirements of FAS 141R and the potential impact on the Company's financial position and results of operations.

In December 2007, the FASB issued FAS No. 160, *Non-Controlling Interest in Consolidated Financial Statements - an amendment of ARB No. 51* (FAS 160). FAS 160 requires that a non-controlling interest in a subsidiary be separately reported within equity and the amount of consolidated net income attributable to the non-controlling interest be presented in the statement of operations. FAS 160 also calls for consistency in reporting changes in the parent's ownership interest in a subsidiary and necessitates fair value measurement of any non-controlling equity investment retained in a deconsolidation. FAS 160 is effective for fiscal periods beginning after December 15, 2008. Therefore, the Company is required to adopt FAS 160 on January 1, 2009. The Company is currently evaluating the requirements of FAS 160 and the potential impact on the Company's financial position and results of operations.

Table of Contents

Assurant, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (unaudited)

Six Months Ended June 30, 2008 and 2007

(In thousands, except per share and share amounts)

In February 2008, the FASB issued Financial Statement of Position FAS 157-2, *Effective Date of FAS 157* (FSP FAS 157-2). FSP FAS 157-2 defers the effective date of FAS 157 for all non-financial assets and non-financial liabilities measured or disclosed at fair value in the financial statements on a non-recurring basis to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years, which for the Company is January 1, 2009. The Company is currently evaluating the requirements of FAS 157 for its non-financial assets and non-financial liabilities measured on a non-recurring basis and the potential impact on the Company's financial position and results of operations.

In June 2008, the FASB issued FSP EITF No. 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*, (FSP EITF 03-6-1). FSP EITF 03-6-1 requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as participating securities. Therefore, these financial instruments need to be included in calculating basic and diluted earnings per share under the two-class method described in FAS No. 128, *Earnings Per Share*. All prior period EPS data presented will be adjusted retrospectively. FSP EITF 03-6-1 will be effective for fiscal years beginning after December 15, 2008. Therefore, the Company is required to adopt FSP EITF 03-6-1 on January 1, 2009. The Company is currently evaluating the requirements of FSP EITF 03-6-1 and the potential impact on the Company's basic and diluted earnings per share calculations.

4. Dispositions

On May 1, 2008, the Company sold a subsidiary, United Family Life Insurance Company (UFLIC), to a third party for proceeds of \$32,715. The Company recognized a pre-tax gain of \$3,175 from the sale. In connection with the sale of UFLIC, the Company also recognized an associated tax benefit of \$24,566, primarily related to capital loss carry backs.

5. Fair Value Measurements

FAS 157 defines fair value, establishes a framework for measuring fair value, creates a fair value hierarchy based on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. FAS 157 defines fair value as the price that would be received to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. In accordance with FAS 157, the Company has categorized its recurring basis financial assets and liabilities based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The FASB has deferred the effective date of FAS 157 until January 1, 2009 for non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a non-recurring basis in accordance with FSP FAS 157-2.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The levels of the fair value hierarchy and its application to the Company's financial assets and liabilities are described below:

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Financial assets and liabilities utilizing Level 1 inputs include certain U.S. mutual funds, money market funds, common stock and certain foreign securities.

Table of Contents**Assurant, Inc. and Subsidiaries****Notes to Consolidated Financial Statements (unaudited)****Six Months Ended June 30, 2008 and 2007****(In thousands, except per share and share amounts)**

Level 2 inputs utilize other than quoted prices included in Level 1 that are observable for the asset, either directly or indirectly, for substantially the full term of the asset. Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active and inputs other than quoted prices that are observable in the marketplace for the asset. The observable inputs are used in valuation models to calculate the fair value for the asset. Financial assets utilizing Level 2 inputs include corporate, municipal, foreign government and public utilities bonds, private placement bonds, U.S. Government and agency securities, mortgage and asset backed securities, preferred stocks and certain U.S. and foreign mutual funds.

Level 3 inputs are unobservable but are significant to the fair value measurement for the asset, and include situations where there is little, if any, market activity for the asset. These inputs reflect management's own assumptions about the assumptions a market participant would use in pricing the asset. Financial assets utilizing Level 3 inputs include certain preferred stocks, corporate bonds and mortgage backed securities that were quoted by brokers and could not be corroborated by Level 2 inputs and derivatives.

A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification of levels for certain securities within the fair value hierarchy.

The following table presents the Company's fair value hierarchy for those recurring basis assets and liabilities as of June 30, 2008.

Financial Assets	Total	Level 1	Level 2	Level 3
Fixed maturity securities	\$ 9,689,741	\$ 4,996	\$ 9,469,516	\$ 215,229
Equity securities	717,549	5,003 ^a	692,690	19,856
Short-term investments	472,215	356,911	115,304	
Collateral held under securities lending	470,903	65,184	405,719	
Other investments	300,671	95,975 ^b	195,456 ^c	9,240 ^c
Cash equivalents	693,572	693,572		
Other assets	5,003			5,003
Assets held in separate accounts	2,581,005	2,377,711 ^a	203,294	
Total financial assets	\$ 14,930,659	\$ 3,599,352	\$ 11,081,979	\$ 249,328
Financial Liabilities				
Other liabilities	\$ 95,975	\$ 95,975 ^b	\$	\$

^a Mainly includes mutual fund investments

^b Comprised of Assurant Incentive Plan investments and related liability which are invested in mutual funds

^c Consists of invested assets associated with a modified coinsurance arrangement

Table of Contents**Assurant, Inc. and Subsidiaries****Notes to Consolidated Financial Statements (unaudited)****Six Months Ended June 30, 2008 and 2007****(In thousands, except per share and share amounts)**

The following table summarizes the change in balance sheet carrying value associated with Level 3 financial assets carried at fair value during the three months ended June 30, 2008:

	Total Level 3 Assets	Fixed Maturity Securities	Equity Securities	Other Investments	Other Assets
Balance, beginning of quarter	\$ 216,207	\$ 191,280	\$ 11,626	\$ 9,613	\$ 3,688
Total net gains (realized/unrealized) included in earnings	1,552	411		13	1,128
Net unrealized losses included in stockholder's equity	(9,958)	(9,910)	(8)	(40)	
Purchases, issuances, (sales) and (settlements)	22,829	21,048	1,940	(346)	187
Net transfers in	18,698	12,400	6,298		
Balance, end of period	\$ 249,328	\$ 215,229	\$ 19,856	\$ 9,240	\$ 5,003

The following table summarizes the change in balance sheet carrying value associated with Level 3 financial assets carried at fair value during the six months ended June 30, 2008

	Total Level 3 Assets	Fixed Maturity Securities	Equity Securities	Other Investments	Other Assets
Balance, beginning of year	\$ 282,581	\$ 256,937	\$ 12,116	\$ 10,368	\$ 3,160
Total net gains (losses) (realized/unrealized) included in earnings	(91)	(538)		16	431
Net unrealized losses included in stockholder's equity	(15,975)	(14,870)	(654)	(451)	
Purchases, issuances, (sales) and (settlements)	26,560	23,901	1,940	(693)	1,412

Balance, end of period	\$ 249,328	\$ 215,229	\$ 19,856	\$ 9,240	\$ 5,003

FAS 157 describes three different valuation techniques to be used in determining fair value for financial assets and liabilities: the market, income or cost approaches. The three valuation techniques described within FAS 157 are consistent with generally accepted valuation methodologies. The market approach valuation techniques use prices and other relevant information from market transactions involving identical or comparable assets or liabilities. When possible, quoted prices (unadjusted) in active markets are used as of the period-end date. Otherwise, valuation techniques consistent with the market approach including matrix pricing and comparables are used. Matrix pricing is a mathematical technique employed to value certain securities without relying exclusively on quoted prices for those securities but comparing those securities to benchmark or comparable securities. Comparables use market multiples, which might lie in ranges with a different multiple for each comparable.

Income approach valuation techniques convert future amounts, such as cash flows or earnings, to a single present amount, or a discounted amount. These techniques rely on current market expectations of future amounts as of the period-end date. Examples of income approach valuation techniques include present value techniques, option-pricing models, binomial or lattice models that incorporate present value techniques, and the multi-period excess earnings method.

Edgar Filing: ASSURANT INC - Form 10-Q

Cost approach valuation techniques are based upon the amount that would be required to replace the service capacity of an asset at the period-end date, or the current replacement cost. That is, from the perspective of a market participant (seller), the price that would be received for the asset is determined based on the cost to a market participant (buyer) to acquire or construct a substitute asset of comparable utility, adjusted for obsolescence.

While all three approaches are not applicable to all financial assets or liabilities, where appropriate, one or more valuation technique may be used. For all the financial assets and liabilities included in the above hierarchy, excluding derivatives and private placement bonds, the market valuation technique is generally used. For private placement bonds and derivatives, the income valuation technique is generally used. For the period ended June 30, 2008, the application of valuation technique applied to similar assets and liabilities has been consistent.

Level 2 valuations include observable market inputs. FAS 157 defines observable market inputs as the assumptions market participants would use in pricing the asset or liability developed on market data obtained from

Table of Contents

Assurant, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (unaudited)

Six Months Ended June 30, 2008 and 2007

(In thousands, except per share and share amounts)

sources independent of the Company. The extent of the use of each observable market input for a security depends on the type of security and the market conditions at the balance sheet date. Depending on the security, the priority of the use of observable market inputs may change as some observable market inputs may not be relevant or additional inputs may be necessary. The following observable market inputs, listed in the approximate order of priority, are utilized in the pricing evaluation of Level 2 securities: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. Each security is evaluated based on relevant market information including: relevant credit information, perceived market movements and sector news. Valuation models can change period to period, depending on the appropriate observable inputs that are available at the balance sheet date to price a security.

The Company performs a monthly analysis to assess if the evaluated prices represent a reasonable estimate of their fair value. This process involves quantitative and qualitative analysis and is overseen by investment and accounting professionals. Examples of procedures performed include, but are not limited to, initial and on-going review of pricing methodologies, review of the evaluated prices, review of pricing statistics and trends, and comparison of prices for certain securities with two different appropriate price sources for reasonableness. As a result of this analysis, if the Company determines there is a more appropriate fair value based upon available market data, the price of a security is adjusted accordingly.

6. Debt

In February 2004, the Company issued two series of senior notes with an aggregate principal amount of \$975,000. The Company received net proceeds of \$971,537 from this transaction, which represents the principal amount less the discount. The discount of \$3,463 is being amortized over the life of the notes and is included as part of interest expense in the statement of operations.

The interest expense incurred related to the senior notes was \$15,047 for the three months ended June 30, 2008 and 2007, respectively, and \$30,094 for the six months ended June 30, 2008 and 2007 respectively. There was \$22,570 of accrued interest at June 30, 2008 and 2007, respectively. The Company made an interest payment of \$30,094 on February 15, 2008.

In March 2004, the Company established a \$500,000 commercial paper program, which is available for working capital and other general corporate purposes. This program is backed up by a \$500,000 senior revolving credit facility. The Company did not use the commercial paper program during the six months ended June 30, 2008. During 2007, the Company used proceeds from the commercial paper program for general corporate purposes, all of which were repaid during 2007. The Company did not use the revolving credit facility during the six months ended June 30, 2008 or the twelve months ended December 31, 2007.

The revolving credit facility contains restrictive covenants and requires that the Company maintain certain specified minimum ratios and thresholds. The Company is in compliance with all covenants, minimum ratios and thresholds.

**7. Stock Based Compensation
Directors Compensation Plan**

The Company's Amended and Restated Directors Compensation Plan, as amended, permitted the issuance of up to 500,000 shares of the Company's common stock to non-employee Directors. The compensation expense recorded related to these shares was \$625 for the three and six months ended June 30, 2007. Effective May 2008, no new grants will be made under this plan and all future grants issued to directors will be issued from the Assurant, Inc Long-Term Equity Incentive Plan, discussed further below.

Table of Contents

Assurant, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (unaudited)

Six Months Ended June 30, 2008 and 2007

(In thousands, except per share and share amounts)

Long-Term Incentive Plan

The 2004 Long-Term Incentive Plan authorized the granting of up to 10,000,000 new shares of the Company's common stock to employees and officers under the Assurant Long Term Incentive Plan (ALTIP), Business Value Rights Program (BVR) and CEO Equity Grants Program. Under the ALTIP, the Company was authorized to grant restricted stock and Stock Appreciation Rights (SARs). Effective May 2008, no new grants will be made under this plan and all future grants will be issued from the Assurant, Inc. Long-Term Equity Incentive Plan, discussed further below. Unearned compensation, representing the market value of the shares at the date of issuance, is charged to earnings over the vesting period.

Restricted stock granted under the ALTIP vests pro ratably over a three year period. SARs granted prior to 2007 under the ALTIP, cliff vest as of December 31 of the second calendar year following the calendar year in which the right was granted, and have a five year contractual life. SARs granted in 2007 and through May 2008 cliff vest on the third anniversary from the date the award was granted, and have a five year contractual life. SARs granted under the BVR Program have a three year cliff vesting period. Restricted stock granted under the CEO Equity Grants Program have variable vesting schedules.

Long-Term Equity Incentive Plan

In May 2008, the Company adopted the Assurant, Inc. Long-Term Equity Incentive Plan (ALTEIP), which authorizes the granting of up to 3,400,000 shares of the Company's common stock to employees, officers and non-employee Directors. Under the ALTEIP, the Company is authorized to grant various stock awards including but not limited to SARs, restricted stock and restricted stock units, performance shares and performance units. All future share-based grants will be issued under the ALTEIP.

Restricted stock and SARs granted to non-employee Directors in May 2008 vested immediately. SARs granted to non-employee Directors have a five year contractual life.

The Company's CEO is authorized by the Board of Directors to grant common stock and restricted stock to employees other than the executive officers of the Company (as defined in Section 16 of the Securities Exchange Act of 1934, as amended (the Exchange Act)) limited to 100,000 new shares per year. Restricted stock granted under this program have different vesting schedules.

Restricted Stock

The restricted shares granted to employees and to non-employee Directors were 35,846 and 16,796 for the three months ended June 30, 2008 and 2007, respectively, and 120,631 and 83,409 for the six months ended June 30, 2008 and 2007, respectively. The compensation expense recorded related to restricted stock was \$2,248 and \$912 for the three months ended June 30, 2008 and 2007, respectively, and \$3,703 and \$2,080 for the six months ended June 30, 2008 and 2007, respectively. The related total income tax benefit recognized was \$589 and \$319 for the three months ended June 30, 2008 and 2007, respectively, and \$1,098 and \$728 for the six months ended June 30, 2008 and 2007, respectively. The weighted average grant date fair value for restricted stock granted during the six months ended June 30, 2008 and 2007 was \$62.59 and \$53.88, respectively.

As of June 30, 2008, there was \$7,784 of unrecognized compensation cost related to outstanding restricted stock. That cost is expected to be recognized over a weighted-average period of 1.4 years. The total fair value of shares vested during the three months ended June 30, 2008 and 2007 was \$3,717 and \$2,826, respectively, and \$5,455 and \$3,003 for the six months ended June 30, 2008 and 2007, respectively.

Table of Contents

Assurant, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (unaudited)

Six Months Ended June 30, 2008 and 2007

(In thousands, except per share and share amounts)

Stock Appreciation Rights

There were 8,091 and 9,980 SARs granted during the three months ended June 30, 2008 and 2007, respectively, and 1,497,891 and 1,541,505 granted during the six months ended June 30, 2008 and 2007, respectively. The compensation expense recorded related to SARs was \$3,541 and \$3,840 for the three months ended June 30, 2008 and 2007, respectively, and \$6,600 and \$6,005 for the six months ended June 30, 2008 and 2007, respectively. The related total income tax benefit recognized was \$1,199 and \$1,305 for the three months ended June 30, 2008 and 2007, respectively, and \$2,270 and \$2,063 for the six months ended June 30, 2008 and 2007, respectively. The weighted average grant date fair value for SARs granted during the six months ended June 30, 2008 was \$13.77.

The total intrinsic value of SARs exercised during the six months ended June 30, 2008 and 2007 was \$35,963 and \$52,447, respectively. As of June 30, 2008, there was approximately \$24,245 of unrecognized compensation cost related to outstanding SARs. That cost is expected to be recognized over a weighted-average period of 1.7 years.

The fair value of each SAR outstanding was estimated on the date of grant using the Black-Scholes option-pricing model. Expected volatilities for awards issued during the six months ended June 30, 2008 were based on the median historical stock price volatility of insurance guideline companies and implied volatilities from traded options on the Company's stock. The expected term for grants issued during the six months ended June 30, 2008 was assumed to equal the average of the vesting period of the SARs and the full contractual term of the SARs. The risk-free rate for periods within the contractual life of the option was based on the U.S. Treasury yield curve in effect at the time of grant. The dividend yield is based on the current expected annual dividend and share price on the grant date.

Employee Stock Purchase Plan

Under the Employee Stock Purchase Plan (ESPP), the Company is authorized to issue up to 5,000,000 new shares to employees who are participants in the ESPP. Eligible employees can purchase stock at a 10% discount applied to the lower of the closing price of the common stock on the first or last day of the offering period. The compensation expense recorded related to the ESPP was \$330 and \$324 for the three months ended June 30, 2008 and 2007, respectively, and \$851 and \$660 for the six months ended June 30, 2008 and 2007, respectively.

In January 2008, the Company issued 70,646 shares to employees at a discounted price of \$53.45 for the offering period of July 1 through December 31, 2007. In January 2007, the Company issued 80,282 shares to employees at a discounted price of \$43.52 for the offering period of July 1 through December 31, 2006.

In July 2008, the Company issued 65,841 shares to employees at a discounted price of \$59.13 for the offering period of January 1 through June 30, 2008, related to the ESPP. In July 2007, the Company issued 75,468 shares to employees at a discounted price of \$50.26 for the offering period of January 1 through June 30, 2007, related to the ESPP.

The fair value of each award under ESPP was estimated at the beginning of each offering period using the Black-Scholes option-pricing model. Expected volatilities are based on implied volatilities from traded options on the Company's stock and the historical volatility of the Company's stock. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury yield curve in effect at the time of grant.

9. Retirement and Other Employee Benefits

The components of net periodic benefit cost for the Company's qualified pension benefits plan, nonqualified pension benefits plan and retirement health benefits plan for the three and six months ended June 30, 2008 and 2007 were as follows:

	Qualified Pension Benefits For the three months ended June 30,		Nonqualified Pension Benefits (1) For the three months ended June 30,		Retirement Health Benefits For the three months ended June 30,	
	2008	2007	2008	2007	2008	2007
Service cost	\$ 5,300	\$ 5,184	\$ 475	\$ 509	\$ 775	\$ 734
Interest cost	6,575	6,165	1,475	1,429	950	866
Expected return on plan assets	(9,275)	(8,141)			(300)	(314)
Amortization of prior service cost	725	764	200	275	325	336
Amortization of net loss	1,050	1,868	350	385		
Settlement charge under FAS 88			1,748	115		
Net periodic benefit cost	\$ 4,375	\$ 5,840	\$ 4,248	\$ 2,713	\$ 1,750	\$ 1,622

	Qualified Pension Benefits For the six months ended June 30,		Nonqualified Pension Benefits (1) For the six months ended June 30,		Retirement Health Benefits For the six months ended June 30,	
	2008	2007	2008	2007	2008	2007
Service cost	\$ 10,600	\$ 10,234	\$ 950	\$ 1,009	\$ 1,550	\$ 1,484
Interest cost	13,150	12,215	2,950	2,804	1,900	1,766
Expected return on plan assets	(18,550)	(15,941)			(600)	(614)
Amortization of prior service cost	1,450	1,539	400	600	650	661
Amortization of net loss	2,100	3,468	700	1,010		
Settlement charge under FAS 88			1,748	115		
Net periodic benefit cost	\$ 8,750	\$ 11,515	\$ 6,748	\$ 5,538	\$ 3,500	\$ 3,297

(1) The Company's nonqualified plans are unfunded.

During the first six months of 2008, \$10,000 was contributed to the qualified pension benefits plan. An additional \$10,000 is expected to be contributed to the qualified pension benefits plan over the remaining course of 2008.

10. Segment Information

The Company has five reportable segments, which are defined based on the nature of the products and services offered: Assurant Solutions, Assurant Specialty Property, Assurant Health, Assurant Employee Benefits, and Corporate & Other. Assurant Solutions provides credit insurance, including life, disability and unemployment, debt protection administration services, warranties and extended service contracts, life insurance policies and annuity products that provide benefits to fund pre-arranged funerals. Assurant Specialty Property provides creditor-placed homeowners insurance and manufactured housing homeowners insurance. Assurant Health provides individual, short-term and small group health insurance. Assurant Employee Benefits provides employee and employer paid dental, disability, and life insurance products and related services. Corporate & Other includes activities of the holding company, financing and interest expenses, net realized gains (losses) on investments, interest income earned from short-term investments held and additional costs associated with excess of loss reinsurance programs reinsured and ceded to certain subsidiaries in the London market between 1995 and 1997. Corporate & Other also includes the amortization of deferred gains associated with the sales of Fortis Financial Group and Long-Term Care through reinsurance agreements.

The Company evaluates performance of the operating segments based on after-tax segment income (loss) excluding realized gains (losses) on investments. The Company determines reportable segments in a manner consistent with the way the Company organizes for purposes of making operating decisions and assessing performance.

11. Commitments and Contingencies

In the normal course of business, letters of credit are issued primarily to support reinsurance arrangements. These letters of credit are supported by commitments with financial institutions. The Company had \$54,117 and \$31,813 of letters of credit outstanding as of June 30, 2008 and December 31, 2007, respectively.

The Company is involved in litigation in the ordinary course of business, both as a defendant and as a plaintiff. The Company may from time to time be subject to a variety of legal and regulatory actions relating to the Company's current and past business operations. While the Company cannot predict the outcome of any pending or future litigation, examination or investigation and although no assurances can be given, the Company does not believe that any pending matter will have a material adverse effect individually or in the aggregate, on the Company's financial condition, results of operations, or cash flows.

One of the Company's subsidiaries, American Reliable Insurance Company (ARIC), participated in certain excess of loss reinsurance programs in the London market and, as a result, reinsured certain personal accident, ransom and kidnap insurance risks from 1995 to 1997. ARIC and a foreign affiliate ceded a portion of these risks to retrocessionaires. ARIC ceased reinsuring such business in 1997. However, certain risks continued beyond 1997 due to the nature of the reinsurance contracts written. ARIC and some of the other reinsurers involved in the programs are seeking to avoid certain treaties on various grounds, including material misrepresentation and non-disclosure by the ceding companies and intermediaries involved in the programs. Similarly, some of the retrocessionaires are seeking avoidance of certain treaties with ARIC and the other reinsurers and some reinsureds are seeking collection of disputed balances under some of the treaties. The disputes generally involve multiple layers of reinsurance, and allegations that the reinsurance programs involved interrelated claims spirals devised to disproportionately pass claims losses to higher-level reinsurance layers.

Many of the companies involved in these programs, including ARIC, are currently involved in negotiations, arbitrations and/or litigation between multiple layers of retrocessionaires, reinsurers, ceding companies and intermediaries, including brokers, in an effort to resolve these disputes. Many of the disputes involving ARIC and an affiliate, Bankers Insurance Company Limited (BICL), relating to the 1995 and 1997 program years, were resolved by settlement or arbitration in 2005. As a result of the settlements and an arbitration (in which ARIC did not prevail) additional information became available in 2005, and based on management's best estimate, the Company increased its reserves and recorded a total pre-tax charge of \$61,943 for the year ended December 31, 2005. Negotiations, arbitrations and litigation are still ongoing or will be scheduled for the remaining disputes. On February 28, 2006 there was a settlement relating to the 1996 program. In 2007, there were two settlements relating to parts of the 1997 program. Loss accruals previously established relating to the 1996 and 1997 programs were adequate. The Company believes, based on information currently available, that the amounts accrued for currently outstanding disputes are adequate. However, the inherent uncertainty of arbitrations and lawsuits, including the uncertainty of estimating whether any settlements the Company may enter into in the future would be on favorable terms, makes it difficult to predict the outcomes with certainty.

As previously disclosed, the Company and certain of its officers and former employees have received subpoenas and requests from the SEC in connection with its investigation by the SEC staff into certain finite reinsurance contracts entered into by the Company. The Company is cooperating fully and is complying with the requests.

The Company conducted an evaluation of the transactions that could potentially fall within the scope of the subpoenas, as defined by the authorities, and the Company has provided information as requested. On the basis of our investigation, the Company has concluded that there was a verbal side agreement with respect to one of our reinsurers under our catastrophic reinsurance program. The contract to which this verbal agreement applied was accounted for using reinsurance accounting as opposed to deposit accounting. While management believes that the difference resulting from the appropriate alternative accounting treatment would be immaterial to our financial position or results of operations, regulators may reach a different conclusion. In 2004 and 2003, premiums ceded to this reinsurer were \$2,600 and \$1,500, respectively, and losses ceded were \$10,000 and zero, respectively. This contract expired in December 2004 and was not renewed.

Assurant, Inc. and Subsidiaries

Notes to Consolidated Financial Statements (unaudited)

Six Months Ended June 30, 2008 and 2007

(In thousands, except per share and share amounts)

In July 2007, the Company learned that each of the following five individuals, Robert B. Pollock, President and Chief Executive Officer, Philip Bruce Camacho, Executive Vice President and Chief Financial Officer, Adam Lamnin, Executive Vice President and Chief Financial Officer of Assurant Solutions/Assurant Specialty Property, Michael Steinman, Senior Vice President and Chief Actuary of Assurant Solutions/Assurant Specialty Property and Dan Folse, Vice President-Risk Management of Assurant Solutions/Assurant Specialty Property, received Wells notices from the SEC in connection with its ongoing investigation. A Wells notice is an indication that the staff of the SEC is considering recommending that the SEC bring a civil enforcement action against the recipient for violating provisions of the federal securities laws. Under SEC procedures, the recipients have the opportunity to respond to the SEC staff before a formal recommendation is finalized and before the Commissioners themselves consider any recommendations.

On July 17, 2007, the Company announced that the Board of Directors (the "Board") had placed all five employees on administrative leave, pending further review of this matter. The Board's actions were based on the recommendations of its Special Committee of non-management directors which thereafter undertook a thorough investigation of the events that had resulted in the receipt of the Wells notices. The Special Committee has reviewed relevant documents, conducted interviews and worked with outside counsel to investigate these matters and to recommend appropriate actions to the Board with respect to the SEC investigation. On August 9, 2007, Messrs. Steinman and Folse's employment with the Company was terminated.

On the basis of an extensive review of evidence concerning this matter and the work of the Special Committee, the Board unanimously voted to reinstate Mr. Pollock as President and Chief Executive Officer, effective January 28, 2008. The Board's decision to reinstate Mr. Pollock implies no conclusion concerning the outcome of the SEC staff's ongoing investigation, and the SEC staff's Wells notice to him remains in effect. The SEC staff's inquiry continues, and the Company is cooperating fully. We cannot predict the duration or outcome of the investigation.

In the course of its response to SEC staff inquiries, the Company identified certain problems related to our document production process. These production issues have delayed resolution of this matter. The Company believes that it has now completed its response to the SEC staff's document request. Messrs. Camacho and Lamnin remain on administrative leave.

In relation to the SEC investigation discussed above, the SEC may charge the Company and/or the individuals with violations of the federal securities laws, including alleging violations of Sections 10(b), 13(a), and/or 13(b) of the Securities Exchange Act of 1934, and/or Section 17(a) of the Securities Act of 1933, and may seek civil monetary penalties, injunctive relief and other remedies against the Company and individuals, including potentially seeking a bar preventing one or more individuals from serving as an officer or director of a public company. The SEC may also take the position that the Company should restate its consolidated financial statements to address the accounting treatment referred to above. No settlement of any kind can be reached without approval by the SEC and the Company has not accrued for any civil monetary penalties because the Company cannot reasonably estimate the probability or amount of such penalties at this time.

12. Subsequent Events

During July 2008, the Company entered into a definitive agreement with Signal Holdings LLC ("Signal"), a leading provider of wireless handset protection programs and repair services, to acquire Signal's outstanding capital stock for \$250,000 in an all-cash transaction. The transaction, which is pending regulatory approval, is expected to close in the fourth quarter of 2008.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

(Dollar amounts in thousands)

Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) addresses the financial condition of Assurant, Inc. and its subsidiaries (which we refer to collectively as Assurant) as of June 30, 2008, compared with December 31, 2007, and our results of operations for the three and six months ended June 30, 2008 and 2007. This discussion should be read in conjunction with our MD&A and annual audited consolidated financial statements as of December 31, 2007 included in our Annual Report on Form 10-K for the year ended December 31, 2007 filed with the U.S. Securities and Exchange Commission (SEC) and the June 30, 2008 unaudited consolidated financial statements and related notes included elsewhere in this Form 10-Q.

Some of the statements included in this MD&A and elsewhere in this report, particularly those anticipating future financial performance, business prospects, growth and operating strategies and similar matters, are forward-looking statements that involve a number of risks and uncertainties. You can identify these statements by the fact that they may use words such as will, may, anticipates, expects, estimates, projects, intends, plans, believes, targets, forecasts, potential, approximately, or the negative version of those words and other words and terms with similar meaning. Any forward looking statements contained in this report are based upon our historical performance and on current plans, estimates and expectations. The inclusion of this forward-looking information should not be regarded as a representation by us or any other person that the future plans, estimates or expectations contemplated by us will be achieved. Our actual results might differ materially from those projected in the forward-looking statements. The Company undertakes no obligation to publicly update or review any forward-looking statement, whether as a result of new information, future events or other developments.

In addition to the factors described in the section below entitled Critical Factors Affecting Results, the following risk factors could cause our actual results to differ materially from those currently estimated by management: (i) failure to maintain significant client relationships, distribution sources and contractual arrangements; (ii) failure to attract and retain sales representatives; (iii) general global economic, financial market and political conditions (including fluctuations in interest rates, mortgage rates, monetary policies and inflationary pressure); (iv) inadequacy of reserves established for future claims losses; (v) failure to predict or manage benefits, claims and other costs; (vi) diminished value of invested assets in our investment portfolio (due to, among other things, credit and liquidity risk, environmental liability exposure and inability to target an appropriate overall risk level); (vii) losses due to natural and man-made catastrophes; (viii) unavailability, inadequacy and unaffordable pricing of reinsurance coverage; (ix) inability of reinsurers to meet their obligations; (x) insolvency of third parties to whom we have sold or may sell businesses through reinsurance or modified co-insurance; (xi) credit risk of some of our agents in Assurant Specialty Property and Solutions; (xii) a further decline in the manufactured housing industry; (xiii) a decline in our credit or financial strength ratings; (xiv) failure to effectively maintain and modernize our information systems; (xv) failure to protect client information and privacy; (xvi) failure to find and integrate suitable acquisitions and new insurance ventures; (xvii) inability of our subsidiaries to pay sufficient dividends; (xviii) failure to provide for succession of senior management and key executives; (xix) negative publicity and impact on our business due to unfavorable outcomes in litigation and regulatory investigations (including the potential impact on our reputation and business of a negative outcome in the ongoing SEC investigation); (xx) significant competitive pressures in our businesses and cyclicalities of the insurance industry; (xxi) current or new laws and regulations that could increase our costs or limit our growth. These risk factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this report. For a more detailed discussion of the risk factors that could affect our actual results, please refer to the subsection entitled Risk Factors in our 2007 Annual Report on Form 10-K.

Company Overview

Assurant is a premier provider of specialized insurance products and related services in North America and selected international markets. We have five reportable segments, four of which are operating segments Assurant Solutions; Assurant Specialty Property; Assurant Health; and Assurant Employee Benefits. These operating segments have partnered with clients who are leaders in their industries and have built leadership positions in a number of specialty insurance market segments in the U.S. and selected international markets. The Assurant business segments provide creditor-placed homeowners insurance; manufactured housing homeowners insurance; debt protection administration services; credit insurance including life, disability and unemployment; warranties and

Table of Contents

extended services contracts; individual, short-term and small employer group health insurance; group dental insurance; group disability insurance; group life insurance; and pre-funded funeral insurance. Our remaining segment is Corporate & Other which includes activities of the holding company, financing and interest expenses, net realized gains (losses) on investments, interest income earned from short-term investments held and additional costs associated with excess of loss reinsurance programs reinsured and ceded to certain subsidiaries in the London market between 1995 and 1997. Corporate & Other also includes the amortization of deferred gains associated with the sales of Fortis Financial Group and Long-Term Care through reinsurance agreements.

Critical Factors Affecting Results

Our results depend on the adequacy of our product pricing, underwriting and the accuracy of our methodology for the establishment of reserves for future policyholder benefits and claims, returns on invested assets and our ability to manage our expenses. Therefore, factors affecting these items may have a material adverse effect on our results of operations or financial condition.

Critical Accounting Policies and Estimates

Our 2007 Annual Report on Form 10-K described the accounting policies and estimates that are critical to the understanding of our results of operations, financial condition and liquidity. The accounting policies and estimates described in the 2007 Annual Report on Form 10-K were consistently applied to the unaudited interim consolidated financial statements for the six months ended June 30, 2008.

Recent Accounting Pronouncements - Adopted

On January 1, 2008, the Company adopted FAS 157 which defines fair value, addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under GAAP and expands disclosures about fair value measurements. FAS 157 is applied prospectively for financial assets and liabilities measured on a recurring basis as of January 1, 2008 except for certain financial assets that were measured at fair value using a transaction price. For these financial instruments, which the Company has, FAS 157 requires limited retrospective adoption and thus the difference between the fair values using a transaction price and the fair values using an exit price of the relevant financial instruments will be shown as a cumulative-effect adjustment to the January 1, 2008 retained earnings balance. At adoption, the Company recognized a \$4,400 decrease to other assets, and a corresponding decrease of \$2,860 (after-tax) to retained earnings. See Note 5 for further information regarding FAS 157.

On January 1, 2008, the Company adopted FAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* (FAS 159). FAS 159 provides a choice to measure many financial instruments and certain other items at fair value on specified election dates and requires disclosures about the election of the fair value option. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. The Company has chosen not to elect the fair value option for any financial or non-financial instruments as of the adoption date, thus the adoption of FAS 159 did not have an impact on the Company's financial position or results of operations.

On January 1, 2008, the Company adopted Emerging Issues Task Force (EITF) Issue No. 06-10, *Accounting for Deferred Compensation and Postretirement Benefit Aspects of Collateral Assignment Split-Dollar Life Insurance Arrangements* (EITF 06-10). EITF 06-10 provides guidance regarding the employer's recognition of the liability and the related compensation costs for collateral assignment split-dollar life insurance arrangements that provide a benefit to an employee that extends into postretirement periods. This consensus concludes that for a collateral assignment split-dollar life insurance arrangement, an employer should recognize a liability for future benefits in accordance with FAS No. 106, *Employers' Accounting For Postretirement Benefits Other Than Pensions*, (if, in substance, a postretirement benefit plan exists) or Accounting Principles Board Opinion No. 12, *Deferred Compensation Contracts*, (APB 12) (if the arrangement is, in substance, an individual deferred compensation contract) based on the substantive agreement with the employee. The Company has been recording its liability for future benefits in accordance with APB 12, thus the adoption of EITF 06-10 did not have an impact on the Company's financial position or results of operations.

Table of Contents

Recent Accounting Pronouncements Not Yet Adopted

In December 2007, the Financial Accounting Standards Board (FASB) issued FAS No. 141R, *Business Combinations* (FAS 141R). FAS 141R replaces FAS No. 141, *Business Combinations* (FAS 141). FAS 141R retains the fundamental requirements of FAS 141 that the purchase method of accounting be used for all business combinations, that an acquirer be identified for each business combination and for goodwill to be recognized and measured as a residual. FAS 141R expands the definition of transactions and events that qualify as business combinations to all transactions and other events in which one entity obtains control over one or more other businesses. FAS 141R broadens the fair value measurement and recognition of assets acquired, liabilities assumed, and interests transferred as a result of business combinations. FAS 141R also increases the disclosure requirements for business combinations in the financial statements. FAS 141R is effective for fiscal periods beginning after December 15, 2008. Therefore, the Company is required to adopt FAS 141R on January 1, 2009. The Company is currently evaluating the requirements of FAS 141R and the potential impact on the Company's financial position and results of operations.

In December 2007, the FASB issued FAS No. 160, *Non-Controlling Interest in Consolidated Financial Statements - an amendment of ARB No. 51* (FAS 160). FAS 160 requires that a non-controlling interest in a subsidiary be separately reported within equity and the amount of consolidated net income attributable to the non-controlling interest be presented in the statement of operations. FAS 160 also calls for consistency in reporting changes in the parent's ownership interest in a subsidiary and necessitates fair value measurement of any non-controlling equity investment retained in a deconsolidation. FAS 160 is effective for fiscal periods beginning after December 15, 2008. Therefore, the Company is required to adopt FAS 160 on January 1, 2009. The Company is currently evaluating the requirements of FAS 160 and the potential impact on the Company's financial position and results of operations.

In February 2008, the FASB issued Financial Statement of Position FAS 157-2, *Effective Date of FAS 157* (FSP FAS 157-2). FSP FAS 157-2 defers the effective date of FAS 157 for all non-financial assets and non-financial liabilities measured or disclosed at fair value in the financial statements on a non-recurring basis to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years, which for the Company is January 1, 2009. The Company is currently evaluating the requirements of FAS 157 for its non-financial assets and non-financial liabilities measured on a non-recurring basis and the potential impact on the Company's financial position and results of operations.

In June 2008, the FASB issued FSP EITF No. 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities*, (FSP EITF 03-6-1). FSP EITF 03-6-1 requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as participating securities. Therefore, these financial instruments need to be included in calculating basic and diluted earnings per share under the two-class method described in FAS No. 128, *Earnings Per Share*. All prior period EPS data presented will be adjusted retrospectively. FSP EITF 03-6-1 will be effective for fiscal years beginning after December 15, 2008. Therefore, the Company is required to adopt FSP EITF 03-6-1 on January 1, 2009. The Company is currently evaluating the requirements of FSP EITF 03-6-1 and the potential impact on the Company's basic and diluted earnings per share calculations.

(2) Includes commissions, taxes, licenses and fees.

The following discussion provides a high level analysis of how the consolidated results were affected by our four operating segments and our Corporate and Other segment for the three and six months ended June 30, 2008 (Second Quarter 2008 and Six Months 2008 , respectively) and three and six months ended June 30, 2007 (Second Quarter 2007 and Six Months 2007 , respectively). Please see the discussion that follows, for each of these segments, for a more detailed analysis of the fluctuations.

For The Three Months Ended June 30, 2008 Compared to The Three Months Ended June 30, 2007.**Net Income**

Net income increased \$23,674, or 14%, to \$189,954 for Second Quarter 2008 from \$166,280 for Second Quarter 2007. The increase was primarily due to the results of the Assurant Specialty Property segment, whose net income increased \$40,835 to \$131,042 for Second Quarter 2008, compared with \$90,207 for Second Quarter 2007 and a \$24,566 tax benefit associated with the sale of a subsidiary, United Family Life Insurance Company (UFLIC). The increase in the Assurant Specialty Property segment is primarily due to higher net earned premiums resulting from creditor placed homeowners insurance, a continued favorable combined ratio and higher net investment income due to increased average

Edgar Filing: ASSURANT INC - Form 10-Q

invested assets. Partially offsetting the strong results of the Assurant Specialty Property segment and the UFLIC related tax benefit were:

net realized losses on investments of \$(22,473) (after-tax) in Second Quarter 2008 compared with net realized losses of \$(2,006) (after-tax) in Second Quarter 2007,

a decrease of \$6,117 in Assurant Health net income to \$27,721 in Second Quarter 2008 from \$33,838 in Second Quarter 2007,

Table of Contents

a decrease of \$2,845 in Assurant Employee Benefits net income to \$18,630 in Second Quarter 2008 from \$21,475 in Second Quarter 2007, and

a decrease of \$14,443 in Assurant Corporate & Other net income, excluding the UFLIC tax benefit and net realized losses on investments, in Second Quarter 2008 from Second Quarter 2007.

The net realized losses on investments in Second Quarter 2008 include \$17,923 (after-tax) of realized losses from the write-down of other-than-temporary declines in our investment portfolio, while Second Quarter 2007 had none. The decrease in Assurant Health's net income is primarily attributable to an increase in the individual medical benefit loss ratio and the continuing decline in small employer group net earned premiums, partially offset by improved claim experience on small employer group business. The decrease in Assurant Employee Benefits net income is primarily attributable to less favorable dental and disability experience, partially offset by a decrease in selling, underwriting and general expenses. The decrease in Assurant Corporate & Other net income is primarily related to increases in costs related to the ongoing SEC investigation regarding certain loss mitigation products, increases in external professional fees and compensation expense and a decrease in net investment income.

For The Six Months Ended June 30, 2008 Compared to The Six Months Ended June 30, 2007.

Net Income

Net income increased \$31,047 or 9%, to \$376,784 for Six Months 2008 from \$345,737 for Six Months 2007. The increase was primarily due to the results of the Assurant Specialty Property segment, whose net income increased \$91,145 to \$255,786 for Six Months 2008, compared with \$164,641 for Six Months 2007 due to higher net earned premiums resulting from creditor placed homeowners insurance, a continued favorable combined ratio and higher net investment income due to increased average invested assets. Also contributing to the increase was a \$24,566 tax benefit associated with the sale of UFLIC.

Partially offsetting the strong results of the Assurant Specialty Property segment and the UFLIC related tax benefit were net realized losses on investments of \$(50,516) (after-tax) in Six Months 2008 compared with net realized gains of \$1,615 (after-tax) in Six Months 2007. The net realized losses on investments in Six Months 2008 include \$46,138 (after-tax) of realized losses from the write-down of other-than-temporary declines in our investment portfolio, while Six Months 2007 had none. In addition, net investment income declined \$5,338 (after-tax) to \$259,340 (after-tax) for Six Months 2008, compared with \$264,678 (after-tax) for Six Months 2007. This decline is primarily due to \$23,733 (after-tax) of real estate joint venture partnership income included in Six Months 2007, while Six Months 2008 had \$2,247 (after-tax) of net investment income from real estate joint venture partnerships. Partially offsetting the effects of the real estate joint venture partnership income is increased net investment income due to increased average invested assets.

(2) Gross written premiums does not necessarily translate to an equal amount of subsequent net earned premiums since Assurant Solutions reinsures a portion of its premiums to insurance subsidiaries of its clients.

(3) The combined ratio is equal to total benefits, losses and expenses divided by net earned premiums and other considerations and fees and other income excluding the preneed business.

(4) Includes amortization of DAC and VOBA.

(5) Includes commissions, taxes, licenses and fees.

For The Three Months Ended June 30, 2008 Compared to The Three Months Ended June 30, 2007.

Net Income

Segment net income increased \$2,145, or 7%, to \$32,355 for Second Quarter 2008 from \$30,210 for Second Quarter 2007. The increase was primarily due to improved underwriting results in our domestic service contract business. Partially offsetting this increase was unfavorable experience with a credit life product in Brazil of \$6,900 (after-tax) in Second Quarter 2008 compared with \$4,400 (after-tax) in Second Quarter 2007 due to additional information received from a client combined with continued investments made to support our strategic international expansion. Second Quarter 2007 included \$8,010 (after-tax) of contract settlement fee income related to the sale of marketing rights for our Independent US Preneed business and income from our completed clients' commission reconciliation project.

Total Revenues

Total revenues increased \$96,306, or 13%, to \$856,722 for Second Quarter 2008 from \$760,416 for Second Quarter 2007. The increase is primarily attributable to an increase in net earned premiums and other considerations of \$81,954, due to growth in our domestic and international service contract business as well as growth in our Preneed life insurance (Preneed) business. Growth in our Preneed business is mainly due to the

Edgar Filing: ASSURANT INC - Form 10-Q

acquisition of Mayflower National Life Insurance Company (Mayflower) in the later part of 2007. These increases were slightly offset by the continued runoff of our domestic credit insurance and domestic independent preneed businesses. Also contributing to the increase in revenues was an increase in fees and other income of \$6,711, or 16%, primarily from various international acquisitions made subsequent to Second Quarter 2007, combined with the continued growth of our service contract business. Net investment income increased \$7,641, or 8%, primarily attributable to higher average invested assets from growth in our international and domestic service contract and preneed businesses.

Table of Contents

We experienced growth in gross written premium from our international and Preneed businesses and a decline in gross written premium from our domestic service contract and credit insurance businesses for Second Quarter 2008 compared with Second Quarter 2007. Gross written premiums from our international credit business increased \$13,054, primarily driven by increased marketing efforts, strong client performance, greater outstanding credit card balances, as well as the favorable impact of foreign exchange rates. Gross written premiums in our international service contract business increased \$23,766 from both new and existing clients, which is consistent with our international expansion strategy. We experienced an increase in our Preneed face sales primarily due to new business generated from former Alderwoods funeral homes and growth from our existing exclusive distribution partnership with Service Corporation International (SCI) funeral homes. Gross written premiums in our domestic service contract business decreased \$51,986 primarily due to the store closings of a client and the impact of lower retail sales from other clients, partially offset by increases in premium from new clients. Gross written premiums from our domestic credit insurance business decreased \$15,008 due to the continued runoff of our domestic credit insurance business.

Total Benefits, Losses and Expenses

Total benefits, losses and expenses increased \$95,579, or 13%, to \$809,246 for Second Quarter 2008 from \$713,667 for Second Quarter 2007. Policyholder benefits increased \$47,646, primarily driven by the growth in net earned premiums from our domestic and international service contract and Preneed businesses, as well as unfavorable loss experience in a credit life product in Brazil. Selling, underwriting, and general expenses increased \$47,933. Commissions, taxes, licenses and fees, of which amortization of DAC is a component, increased \$35,713, primarily due to the overall commission rate increases caused by the change in business mix. This was evidenced by higher earnings in our service contract business, which has higher commission rates, compared to the lower commission rates on the decreasing domestic credit business. Additionally, Second Quarter 2007 included \$6,900 of income from our completed clients commission reconciliation project. Total commission expenses also reflect reduced commission payments related to certain extended service contract clients who have not previously met minimum performance thresholds specified in their contracts. General expenses increased \$12,220, due to higher employment expenses associated with continued investment in international expansion and amortization of other intangibles associated with international acquisitions made subsequent to Second Quarter 2007.

*For The Six Months Ended June 30, 2008 Compared to The Six Months Ended June 30, 2007.**Net Income*

Segment net income increased \$5,633, or 8%, to \$79,912 for Six Months 2008 from \$74,279 for Six Months 2007. The increase is primarily due to \$11,700 (after-tax) of income related to the accrual of contractual receivables established from certain domestic service contract clients in the first quarter of 2008. Partially offsetting this increase was unfavorable experience with a credit life product in Brazil of \$6,900 (after-tax) in Second Quarter 2008 compared with \$4,400 (after-tax) in Second Quarter 2007 due to additional information received from a client. In addition, Second Quarter 2007 included \$8,010 (after-tax) of income related to contract settlement fees received related to the sale of marketing rights for the Independent U.S. Preneed business and \$6,900 of income from our completed clients commission reconciliation project. Net investment income increased \$1,530 (after-tax). This increase is primarily attributable to Six Months 2008 having higher average invested assets compared with Six Months 2007 due to growth in our international and domestic service contract business. This increase is partially offset by net investment income of \$10,070 (after-tax) from real estate joint venture partnerships included in Six Months 2007. Absent these items, net income increased primarily due to improved underwriting results in our domestic and international service contract business offset by continued investments made to support our strategic international expansion.

Total Revenues

Total revenues increased \$197,731, or 13%, to \$1,691,226 for Six Months 2008 from \$1,493,495 for Six Months 2007. The increase is primarily attributable to an increase in net earned premiums and other considerations of \$182,436, due to growth in our domestic and international service contract business as well as growth in our Preneed business. Growth in our Preneed business is mainly due to the acquisition of Mayflower in late 2007. These increases were slightly offset by the continued runoff of our domestic credit insurance and domestic independent preneed businesses. Also contributing to the increase in revenues was an increase in fees and other income of \$12,941, or 16%, primarily from various international acquisitions made subsequent to Second Quarter 2007 combined with the continued growth of our service contract business. Net investment income increased \$2,354, or 1%, despite net investment income of

Table of Contents

\$15,493 recognized in Six Months 2007 from real estate joint venture partnerships compared with \$1,210 in Six Months 2008. Absent this investment income from real estate joint venture partnerships, net investment income increased \$16,637, or 8%, primarily attributable to higher average invested assets from growth in our international and domestic businesses.

We experienced growth in gross written premium from international and Preneed businesses and a decline in gross written premium from our domestic service contract and credit insurance businesses for the Six Months 2008 compared with Six Months 2007. Gross written premiums from our international credit business increased \$40,851, primarily driven by increased marketing efforts, strong client performance, which led to greater outstanding credit card balances, as well as the favorable impact of foreign exchange rates. Gross written premiums in our international service contracts business increased \$45,186 primarily from both new and existing clients, which is consistent with our international expansion strategy. We experienced an increase in our Preneed face sales primarily due to new business generated from former Alderwoods funeral homes and growth from existing SCI funeral homes. Gross written premiums in our domestic service contract business decreased \$112,579 primarily due to the store closings of a client and the impact of lower retail sales from other clients, partially offset by increases in premium from new clients. Gross written premiums from our domestic credit insurance business decreased \$24,510 due to the continued runoff of our domestic credit insurance business.

Total Benefits, Losses and Expenses

Total benefits, losses, and expenses increased \$186,803, or 14%, to \$1,571,459 for Six Months 2008 from \$1,384,656 for Six Months 2007. Policyholder benefits increased \$90,982, primarily driven by growth in net earned premiums from our domestic and international service contract, and Preneed businesses, combined with unfavorable loss experience in a credit life product in Brazil. Selling, underwriting, and general expenses increased \$95,821. Commissions, taxes, licenses and fees, of which amortization of DAC is a component, increased \$66,532, primarily due to the overall commission rate increases caused by the change in business mix. This was evidenced by higher earnings in our service contract business, which has higher commission rates, compared to the lower commission rates on the decreasing domestic credit business. Additionally, Six Months 2007 included \$6,900 of income from our completed clients commission reconciliation project. Total commission expenses also reflect reduced commission payments related to certain extended service contract clients who have not previously met minimum performance thresholds specified in their contracts, as well as an \$18,000 receivable established at March 31, 2008 to reflect payments due from those clients. General expenses increased \$29,289, due to additional costs associated with growth of the domestic service contract business as well as continued investment in international expansion.

For The Three Months Ended June 30, 2008 Compared to The Three Months Ended June 30, 2007.

Net Income

Segment net income increased \$40,835 or 45%, to \$131,042 for Second Quarter 2008 from \$90,207 for Second Quarter 2007. This increase in net income is primarily due to higher net earned premiums from our creditor placed homeowners insurance and continued favorable combined ratios due to a lower loss ratio despite a higher level of weather related losses and our ability to leverage the benefits of scale. Net income also improved due to a \$5,414 (after-tax) increase in net investment income as a result of higher average invested assets resulting from the continued growth of the business.

Total Revenues

Total revenues increased \$147,972, or 35%, to \$577,907 for Second Quarter 2008 from \$429,935 for Second Quarter 2007. The increase in revenues is primarily due to increased net earned premiums of \$140,300, or 36%. The increase is attributable to the growth of creditor placed homeowners insurance which was primarily driven by the increase in average insured values of properties and an increased percentage of policies placed per loans tracked. Also, net investment income increased \$8,330 or 35% in Second Quarter 2008 compared with Second Quarter 2007, due to higher average invested assets.

Total Benefits, Losses and Expenses

Edgar Filing: ASSURANT INC - Form 10-Q

Total benefits, losses and expenses increased \$87,974 or 30%, to \$378,132 for Second Quarter 2008 from \$290,158 for Second Quarter 2007. This increase was due to an increase in policyholder benefits of \$40,927 and higher selling, underwriting, and general expenses of \$47,047. The increase in policyholder benefits is primarily attributable to the corresponding growth in creditor placed homeowners insurance and increased weather related losses. We have historically reported Insurance Services Office (ISO) catastrophe related losses in excess of \$5,000 per event. No single event reached that threshold during Second Quarter 2008 or 2007. However, there was an unusually high frequency of ISO events in Second Quarter 2008 which resulted in \$11,500 (after-tax) of catastrophe related losses compared with \$3,400 (after-tax) in Second Quarter 2007. The combined ratio improved to 69.3% from 71.4%, due to a lower loss ratio despite a higher level of weather related losses, and the benefits of scale. Commissions, taxes, licenses and fees increased \$35,381, primarily due to the associated increase in net earned premiums and a \$8,400 benefit in Second Quarter 2007 from our completed clients commission reconciliation project. General expenses increased \$11,665 primarily due to increases in employment related expenses consistent with business growth.

Table of Contents

For The Six Months Ended June 30, 2008 Compared to The Six Months Ended June 30, 2007.

Net Income

Segment net income increased \$91,145, or 55%, to \$255,786 for Six Months 2008 from \$164,641 for Six Months 2007. This increase in net income is primarily due to higher net earned premium growth resulting from creditor placed homeowners insurance and continued favorable combined ratios due to a lower loss ratio despite a higher level of weather related losses and our ability to leverage the benefits of scale. Net income also improved due to an increase in net investment income of \$10,293 (after-tax) as a result of higher average invested assets resulting from the continued growth of the business.

Total Revenues

Total revenues increased \$270,861, or 33%, to \$1,102,302 for Six Months 2008 from \$831,441 for Six Months 2007. The increase in revenues is primarily due to increased net earned premiums of \$254,686, or 33%. The increase is attributable to the growth of creditor placed homeowners insurance which was primarily driven by an increase in average insured values of properties and an increased percentage of policies placed per loans tracked. Also, net investment income increased \$15,836 or 35%, due to higher average invested assets.

Total Benefits, Losses and Expenses

Total benefits, losses and expenses increased \$134,043, or 23%, to \$711,787 for Six Months 2008 from \$577,744 for Six Months 2007. This increase was due to an increase in policyholder benefits of \$68,953 and higher selling, underwriting, and general expenses of \$65,090. The increase in policyholder benefits is primarily attributable to the corresponding growth in creditor placed homeowners insurance and increased weather related losses. The combined ratio improved to 68.4% from 73.5%, due to a lower loss ratio despite a higher level of weather related losses, and the benefits of scale. Commissions, taxes, licenses and fees increased \$45,269, primarily due to the associated increase in net earned premiums. General expenses increased \$19,820 primarily due to increases in employment related expenses consistent with business growth.

For the Three Months Ended June 30, 2008 Compared to the Three Months Ended June 30, 2007.

Net Income

Segment net income decreased \$6,117, or 18%, to \$27,721 for Second Quarter 2008 from \$33,838 for Second Quarter 2007. The decrease is primarily attributable to an increase in the individual medical benefit loss ratio and the continuing decline in small employer group net earned premiums, partially offset by improved claim experience on small employer group business.

Total Revenues

Total revenues decreased \$28,007, or 5%, to \$512,664 for Second Quarter 2008 from \$540,671 for Second Quarter 2007. Net earned premiums and other considerations from our individual medical business decreased \$2,347, or 1%, primarily due to reduced membership, partially offset by premium rate increases. This market has become increasingly competitive as established players and new regional entrants are more aggressively targeting this growing segment of the health insurance market. Net earned premiums and other considerations from our small employer group business decreased \$24,948, or 15%, due to a decline in members, partially offset by premium rate increases. The decline in the small employer group members is due to increased competition and our adherence to strict underwriting guidelines. Also, net investment income decreased \$988 due to lower average invested assets.

Total Benefits, Losses and Expenses

Total benefits, losses and expenses decreased \$19,107, or 4%, to \$469,308 for Second Quarter 2008 from \$488,415 for Second Quarter 2007. Policyholder benefits decreased \$3,823, or 1%, although the benefit loss ratio increased to 66.7% from 64.1%. The increase in the benefit loss ratio was primarily attributable to higher claims experience on individual medical business coupled with a non-proportionate decline in net earned premiums. Our small employer group business had more favorable loss experience in Second Quarter 2008 compared with Second Quarter 2007. Selling, underwriting and general expenses decreased \$15,284, or 10%, primarily due to lower commission expenses for both individual medical and small employer group business as well as a continued focus on expense management.

For the Six Months Ended June 30, 2008 Compared to the Six Months Ended June 30, 2007.

Net Income

Segment net income decreased \$9,378, or 13%, to \$64,984 for Six Months 2008 from \$74,362 for Six Months 2007. The decrease is primarily attributable to an increase in the individual medical benefit loss ratio and the continuing decline in small employer group net earned premiums, partially offset by improved claim experience on small employer group business.

Total Revenues

Total revenues decreased \$48,635, or 4%, to \$1,033,778 for Six Months 2008 from \$1,082,413 for Six Months 2007. Net earned premiums and other considerations from our individual medical business increased \$2,747, or less than 1%, due to premium rate increases. Net earned premiums and other considerations from our small employer group business decreased \$47,744, or 14%, due to a decline in members, partially offset by premium rate increases. The decline in small employer group business is due to increased competition and our adherence to strict underwriting guidelines. Also, net investment income decreased \$4,610 due to lower investment income from real estate joint venture partnerships and lower average invested assets.

Table of Contents*Total Benefits, Losses and Expenses*

Total benefits, losses and expenses decreased \$34,555, or 4%, to \$933,054 for Six Months 2008 from \$967,609 for Six Months 2007. Policyholder benefits decreased \$15,042, or 2%, although the benefit loss ratio increased to 64.2% from 63.0%. The increase in the benefit loss ratio was due primarily to higher claims experience on individual medical business coupled with a non-proportionate decline in net earned premiums. Our small employer group business had more favorable loss experience in Six Months 2008 compared to Six Months 2007. Selling, underwriting and general expenses decreased \$19,513, or 6%, primarily due to lower commission expenses for both individual medical and small employer group business as well as a continued focus on expense management.

Table of Contents

For The Three Months Ended June 30, 2008 Compared to The Three Months Ended June 30, 2007.

Net Income

Segment net income decreased \$2,845 or 13% to \$18,630 for Second Quarter 2008 from \$21,475 for Second Quarter 2007. The decrease in net income was primarily driven by less favorable dental and disability experience, partially offset by a decrease in selling, underwriting and general expenses.

Total Revenues

Total revenues increased \$1,126 to \$319,375 for Second Quarter 2008 from \$318,249 for Second Quarter 2007. The increase in revenue is primarily driven by an increase of \$786 in net earned premiums and an increase of \$829 in fees and other income, partially offset by decreased net investment income of \$489. We continue to see overall growth in net earned premium, specifically in our small case business.

Total Benefits, Losses and Expenses

Total benefits, losses and expenses increased \$5,573 or 2% to \$290,996 for Second Quarter 2008 from \$285,423 for Second Quarter 2007. The loss ratio increased to 70.9% from 67.3%, as our dental and disability loss experience was less favorable. Our current year disability loss experience is favorable compared with our historical loss experience, due to continued good incidence, and favorable disability recovery rates, which includes claimants who return to work. Group dental loss experience was unfavorable compared to the prior year. Group life loss experience, while less favorable compared to the prior year, is favorable from a historical standpoint. The expense ratio decreased, to 34.7% from 36.6%, driven by a decrease in credited interest rates paid on deposit funds and a focus on expense management.

For The Six Months Ended June 30, 2008 Compared to The Six Months Ended June 30, 2007.

Net Income

Segment net income decreased \$15,470 or 31% to \$34,962 for Six Months 2008 from \$50,432 for Six Months 2007. The decrease in net income was primarily driven by a decrease in net investment income from real estate joint venture partnerships of approximately \$9,096 (after-tax) and less favorable dental experience.

Total Revenues

Total revenues decreased \$28,350 or 4% to \$644,736 for Six Months 2008 from \$673,086 for Six Months 2007. Excluding single premium on closed blocks of business, net earned premiums and other considerations increased \$1,897, as we have begun to see overall growth in net earned premiums, specifically in our small case business. Net investment income decreased \$14,007, primarily because Six Months 2007 included \$15,204 in real estate joint venture partnerships investment income, while Six Months 2008 included \$1,210.

Total Benefits, Losses and Expenses

Total benefits, losses and expenses decreased \$4,685 or 1% to \$591,298 for Six Months 2008 from \$595,983 for Six Months 2007. Disability loss experience was consistent with 2007 results. We continue to see favorable disability experience in the current year, driven by continued good incidence, and favorable disability recovery rates, which includes claimants who return to work. Group dental and group life experience was unfavorable when compared with the same period in prior year. Group life experience still remains favorable from a historical standpoint. The expense ratio increased to 34.9% from 34.6%. Excluding single premiums on closed blocks of business, the expense ratio decreased to 35.3% from 36.0%, driven by a decrease in interest rates paid on deposit funds and continued focus on expense management.

Table of Contents**Assurant Corporate & Other***Overview*

The Corporate and Other segment includes activities of the holding company, financing expenses, net realized (losses) gains on investments, interest income earned from short-term investments held and additional costs associated with excess of loss reinsurance programs reinsured and ceded to certain subsidiaries in the London market between 1995 and 1997. The Corporate and Other segment also includes the amortization of deferred gains associated with the sales of Fortis Financial Group (FFG) (a business we sold via reinsurance in April 2001) and Long Term Care (LTC) (a business we sold via reinsurance in March 2000).

The table below presents information regarding the Corporate & Other segment's results of operations:

For The Three Months Ended June 30, 2008 Compared to The Three Months Ended June 30, 2007.*Net Income*

Segment net loss increased \$10,344, or 109%, to \$(19,794) for Second Quarter 2008 from \$(9,450) for Second Quarter 2007. This increase in net loss is mainly due to additional after-tax net realized losses on investments of \$20,467, increases in costs related to the ongoing SEC investigation regarding certain loss mitigation products, an increase in external professional fees, a decrease in net investment income and \$2,900 of income included in Second Quarter 2007, from the change in certain tax liabilities. These increases to net loss were partially offset by a \$2,064 gain (after-tax) from the sale of UFLIC and an additional associated tax benefit of \$24,566.

Total Revenues

Total revenues decreased \$33,364 or 216%, to \$(17,908) for Second Quarter 2008 from \$15,456 for Second Quarter 2007. Revenues declined mainly due to additional net realized losses of \$31,488 and a decline in net investment income of \$3,585. The increase to net realized losses on investments was primarily driven by the write-down of other-than-temporary declines in our investment portfolio of \$27,573. The decrease in net investment income was driven by a significant decrease in overnight interest rates coupled with lower average invested assets. Partially offsetting these decreases was an increase in fees and other income of \$2,628 driven by the gain of \$3,175 from the sale of UFLIC.

Table of Contents

Total Benefits, Losses and Expenses

Total benefits, losses and expenses increased \$17,074, or 49%, to \$51,664 for Second Quarter 2008 from \$34,590 for Second Quarter 2007. This increase is primarily due to \$4,600 of costs related to the ongoing SEC investigation regarding certain loss mitigation products, \$6,700 of increased compensation expense relating to severance and retirement benefits and \$2,300 of increased externally contracted services for various ongoing projects.

For The Six Months Ended June 30, 2008 Compared to The Six Months Ended June 30, 2007.

Net Income

Segment net loss increased \$40,883, or 227%, to \$(58,860) for Six Months 2008 from \$(17,977) for Six Months 2007. This increase is mainly due to additional net realized losses on investments of \$52,131 (after-tax), increases in costs related to the ongoing SEC investigation regarding certain loss mitigation products, increases in both external professional fees and compensation expense, and a decrease in net investment income. These increases to net loss were partially offset by the gain on the sale of UFLIC and the associated tax benefit of \$24,566 and \$2,866 of expense included in Six Months 2007, from the change in certain tax liabilities.

Total Revenues

Total revenues decreased \$87,512, or 211%, to \$(45,957) for Six Months 2008 from \$41,555 for Six Months 2007. Revenues declined mainly due to additional net realized losses of \$80,201 and a decrease in net investment income of \$7,786. The increase in net realized losses on investments was primarily driven by the write-down of other-than-temporary declines in our investment portfolio of \$70,982. The decrease in net investment income was driven by a significant decrease in overnight interest rates coupled with lower average invested assets. Partially offsetting these decreases was an increase in fees and other income of \$2,364 due to the gain of \$3,175 on the sale of UFLIC.

Total Benefits, Losses and Expenses

Total expenses increased \$17,139, or 26%, to \$83,145 for Six Months 2008 from \$66,006 for Six Months 2007. The increase is primarily due to additional costs of \$7,100 related to the ongoing SEC investigation regarding certain loss mitigation products, \$6,700 of increased compensation expense relating to severance and retirement benefits and \$3,200 of increased external professional fees for various ongoing projects.

Table of Contents**Investments**

The following table shows the carrying value of our investments by type of security as of the dates indicated:

	As of June 30, 2008		As of December 31, 2007	
Fixed maturity securities	\$ 9,689,741	72%	\$ 10,126,415	73%
Equity securities	717,549	5%	636,001	5%
Commercial mortgage loans on real estate	1,486,138	11%	1,433,626	10%
Policy loans	56,220	1%	57,107	1%
Short-term investments	472,215	3%	410,878	3%
Collateral held under securities lending	510,903	4%	541,650	4%
Other investments	594,571	4%	541,474	4%
Total investments	\$ 13,527,337	100%	\$ 13,747,151	100%

Of our fixed maturity securities shown above, 67% and 69% (based on total fair value) were invested in securities rated A or better as of June 30, 2008 and December 31, 2007, respectively.

The following table provides the cumulative net unrealized gains (losses), pre-tax, on fixed maturity securities and equity securities as of the dates indicated:

	As of June 30, 2008	As of December 31, 2007
Fixed maturity securities:		
Amortized cost	\$ 9,870,433	\$ 10,026,355
Net unrealized (losses) gains	(180,692)	100,060
Fair value	\$ 9,689,741	\$ 10,126,415
Equity securities:		
Cost	\$ 800,984	\$ 702,698
Net unrealized (losses)	(83,435)	(66,697)
Fair value	\$ 717,549	\$ 636,001

Net unrealized gains on fixed maturity securities decreased \$280,752 to a net unrealized loss of \$(180,692) as of June 30, 2008 from December 31, 2007. The decrease was primarily due to increases in interest spreads across many sectors during the period, partially offset by a decrease in treasury yields. The A-rated corporate spreads which started the year at 189 basis points over treasury securities increased to 258 basis points over treasury yields in the first half of 2008. The yield on 10-year treasury securities decreased 54 basis points between June 30, 2008 and December 31, 2007. Net unrealized losses on equity securities increased \$16,738 to a net unrealized loss of \$(83,435) as of June 30, 2008 from December 31, 2007. The increase was primarily due to changes in the preferred stock market. The price return of Merrill Lynch Global Bond Index - Preferred Stock, Hybrid index decreased 4.76% between June 30, 2008 and December 31, 2007.

Net investment income increased \$10,909, or 6%, to \$201,211 for Second Quarter 2008 from \$190,302 for Second Quarter 2007. The increase is primarily due to an increase in average invested assets.

Table of Contents

Net investment income decreased \$8,213, or 2%, to \$398,985 for Six Months 2008 from \$407,198 for Six Months 2007. The decrease is primarily due to lower investment income from real estate joint venture partnerships, partially offset by an increase in average invested assets.

The investment category of the Company's gross unrealized losses on fixed maturity securities and equity securities at June 30, 2008 and the length of time the securities have been in an unrealized loss position were as follows:

	Less than 12 months		12 Months or More		Total	
	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses	Fair Value	Gross Unrealized Losses
Fixed maturity securities						
Bonds	\$ 4,389,493	\$ (177,944)	\$ 1,348,867	\$ (131,918)	\$ 5,738,360	\$ (309,862)
Equity securities						
Common stock	374	(4)			374	(4)
Preferred stocks	390,481	(45,681)	222,621	(42,372)	613,102	(88,053)
Total	\$ 4,780,348	\$ (223,629)	\$ 1,571,488	\$ (174,290)	\$ 6,351,836	\$ (397,919)

The total gross unrealized losses represent less than 7% of the aggregate fair value of the related securities. Approximately 56% of these gross unrealized losses have been in a continuous loss position for less than twelve months. The gross total unrealized losses are comprised of 1,566 individual securities with 68% of the individual securities having an unrealized loss of less than \$200. The total gross unrealized losses on securities that were in a continuous unrealized loss position for greater than six months but less than 12 months were approximately \$77,892.

As part of our ongoing monitoring process, we regularly review our investment portfolio to ensure that investments that may be other-than-temporarily impaired are identified on a timely basis and that any impairment is charged against earnings in the proper period. We have reviewed these securities and recorded \$70,982 of other-than-temporary impairments for Six Months 2008. There were no other than-temporary impairments for Six Months 2007. Due to issuers' continued satisfaction of the securities' obligations in accordance with their contractual terms and their continued expectations to do so, as well as our evaluation of the fundamentals of the issuers' financial condition, we believe that the prices of the securities in an unrealized loss position as of June 30, 2008 were temporarily depressed primarily as a result of the prevailing level of interest rates at the time the securities were purchased. We have the ability and intent to hold these assets until the date of recovery.

The aggregate amounts of the Company's current holdings as of June 30, 2008 of Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac) and their related unrealized gain (loss) are as follows:

	Residential		Senior and		Preferred	
	Mortgage-Backed (at fair value)	Unrealized Gain	Subordinated Debt (at fair value)	Unrealized Gain	Stock (at fair value)	Unrealized Loss
Fannie Mae	\$ 445,839	\$ 1,108	\$ 37,820	\$ 900	\$ 45,408	\$ (7,399)
Freddie Mac	176,370	1,834	25,326	493	48,902	(9,627)

As of June 30, 2008, the Company does not own any common stock of Fannie Mae or Freddie Mac.

As of June 30, 2008, the Company owns \$339,568 of securities guaranteed by financial insurance companies. Included in this amount were \$268,731 of municipal securities, whose credit rating was AA with the guarantee, but would have had a rating of A+ without the guarantee.

Table of Contents

The following table represents our exposure to sub-prime and related mortgages within our fixed maturity security portfolio as well as the current net unrealized loss position at June 30, 2008.

	Market Value	Percentage of Portfolio (in thousands)	Net Unrealized Loss
Fixed maturity portfolio:			
Sub-prime first lien mortgages	\$ 40,331	0.42%	\$ (2,374)
Second lien mortgages (including sub-prime second lien mortgages)	14,287	0.15%	(872)
Total exposure to sub-prime collateral	\$ 54,618	0.57%	\$ (3,246)

At June 30, 2008, approximately 6.0% of the mortgage-backed holdings had exposure to the sub-prime mortgage collateral. This represented approximately 0.6% of the total fixed maturity portfolio and 1.1% of the total unrealized loss position. Of the securities with sub-prime exposure, approximately 96% are rated as investment grade. We have no sub-prime exposure to collateralized debt obligations. All mortgage-backed securities, including those with sub-prime exposure, are reviewed as part of the ongoing other-than-temporary impairment monitoring process.

As required by FAS 157, the Company has identified and disclosed its financial assets in a fair value hierarchy, which consists of three levels. See the Critical Accounting Policies and estimates section for a further discussion of FAS 157. Level 2 valuations within the fair value hierarchy include observable market inputs. FAS 157 defines observable market inputs as the assumptions market participants would use in pricing the asset or liability developed on market data obtained from sources independent of the Company. The extent of the use of each observable market input for a security depends on the type of security and the market conditions at the balance sheet date. Depending on the security, the priority of the use of observable market inputs may change as some observable market inputs may not be relevant or additional inputs may be necessary. The following observable market inputs, listed in the approximate order of priority, are utilized in the pricing evaluation of Level 2 securities: benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. Each security is evaluated based on relevant market information including: relevant credit information, perceived market movements and sector news. Valuation models can change period to period, depending on the appropriate observable inputs that are available at the balance sheet date to price a security.

The Company performs a monthly analysis to assess if the evaluated prices represent a reasonable estimate of their fair value. This process involves quantitative and qualitative analysis and is overseen by investment and accounting professionals. Examples of procedures performed include, but are not limited to, initial and on-going review of pricing methodologies, review of the evaluated prices, review of pricing statistics and trends, and comparison of prices for certain securities with two different appropriate price sources for reasonableness. As a result of this analysis, if the Company determines there is a more appropriate fair value based upon available market data, the price of a security is adjusted accordingly.

Liquidity and Capital Resources*Regulatory Requirements*

Assurant, Inc. is a holding company, and as such, has limited direct operations of its own. Our holding company assets consist primarily of the capital stock of our subsidiaries. Accordingly, our future cash flows depend upon the availability of dividends and other statutorily permissible payments from our subsidiaries, such as payments under our tax allocation agreement and under management agreements with our subsidiaries. The ability to pay such dividends and to make such other payments will be limited by applicable laws and regulations of the states in which our subsidiaries are domiciled, which subject our subsidiaries to significant regulatory restrictions. The dividend requirements and regulations vary from state to state and by type of insurance provided by the applicable subsidiary. These laws and regulations require, among other things, our insurance subsidiaries to maintain minimum solvency requirements and limit the amount of dividends these subsidiaries can pay to the holding company. Solvency regulations, capital requirements and rating agency requirements are some of the factors used in

Table of Contents

determining the amount of capital used for dividends. For 2008, the maximum amount of distributions our subsidiaries could pay, under applicable laws and regulations without prior regulatory approval for our statutory subsidiaries, is approximately \$445,154.

Liquidity

Dividends paid by our subsidiaries were \$184,303 and \$436,900 for Six Months 2008 and for the year ended December 31, 2007, respectively. We use these cash inflows primarily to pay expenses, to make interest payments on indebtedness, to make dividend payments to our stockholders, and to periodically repurchase our outstanding common stock.

The primary sources of funds for our subsidiaries consist of premiums and fees collected, the proceeds from the sales and maturity of investments and investment income. Cash is primarily used to pay insurance claims, agent commissions, operating expenses and taxes. We generally invest our subsidiaries' excess funds in order to generate income.

Generally, our subsidiaries' premiums, fees and investment income, along with planned asset sales and maturities, provide sufficient cash to pay claims and expenses. However, there are instances where unexpected cash needs arise in excess of that available from usual operating sources. In such instances, we have several options to raise needed funds, including selling assets from the subsidiaries' investment portfolios, using holding company cash (if available), issuing commercial paper and drawing funds from our revolving credit facility. We consider the permanence of the cash need as well as the cost of each source of funds in determining which option to utilize.

We paid dividends of \$0.14 per common share on June 10, 2008 to shareholders of record as of May 27, 2008 and \$0.12 per common share on March 10, 2008 to shareholders of record as of February 25, 2008. Any determination to pay future dividends will be at the discretion of our Board of Directors and will be dependent upon: our subsidiaries' payment of dividends and/or other statutorily permissible payments to us; our results of operations and cash flows; our financial position and capital requirements; general business conditions; any legal, tax, regulatory and contractual restrictions on the payment of dividends; and any other factors our Board of Directors deems relevant.

Retirement and Other Employee Benefits

Our qualified pension benefits plan was \$30,283 over-funded at December 31, 2007. In prior years we established a funding policy in which service cost plus 15% of qualified plan deficit will be contributed annually. During the first six months of 2008, we contributed \$10,000 to the qualified pension benefits plan. We expect to contribute an additional \$10,000 to the qualified pension benefits plan over the remaining course of 2008.

Commercial Paper Program

In March 2004, we established a \$500,000 commercial paper program, which is available for working capital and other general corporate purposes. This program is backed up by a \$500,000 senior revolving credit. We did not use the commercial paper program or the revolving credit facility during the six months ended June 30, 2008.

The revolving credit facility contains restrictive covenants and requires that the Company maintain certain specified minimum ratios and thresholds. We are in compliance with all covenants, minimum ratios and thresholds.

Senior Notes

On February 18, 2004, we issued two series of senior notes in an aggregate principal amount of \$975,000. The first series is \$500,000 in principal amount, bears interest at 5.625% per year and is payable in a single installment due February 15, 2014. The second series is \$475,000 in principal amount, bears interest at 6.750% per year and is payable in a single installment due February 15, 2034. Our senior notes are rated bbb by A.M. Best Company, Baa1 by Moody's Investor Services and BBB+ by Standard & Poors Inc.

Table of Contents

Interest on our senior notes is payable semi-annually on February 15 and August 15 of each year. The senior notes are unsecured obligations and rank equally with all of our other senior unsecured indebtedness. The senior notes are not redeemable prior to maturity.

In management's opinion, our subsidiaries' cash flow from operations together with our income and realizable gains from our investment portfolio will provide sufficient liquidity to meet our needs in the ordinary course of business.

Cash Flows

We monitor cash flows at the consolidated, holding company and subsidiary levels. Cash flow forecasts at the consolidated and subsidiary levels are provided on a monthly basis, and we use trend and variance analyses to project future cash needs making adjustments to the forecasts when needed.

The table below shows our recent net cash flows:

	For The Six Months Ended	
	June 30,	
	2008	2007
	(in thousands)	
Net cash provided by (used in):		
Operating activities (1)	\$ 433,936	\$ 521,021
Investing activities	(216,030)	(551,840)
Financing activities	(66,267)	53,218
Net change in cash	\$ 151,639	\$ 22,399

(1) Includes effect of exchange rate changes on cash and cash equivalents.

Net cash provided by operating activities was \$433,936 and \$521,021 for the six months ended June 30, 2008 and 2007, respectively. The decrease in net cash provided by operating activities is primarily due to decline in gross written premium from our domestic service contract and credit insurance businesses for Six Months 2008 compared with Six Months 2007.

Net cash used in investing activities was \$216,030 and \$551,840 for the six months ended June 30, 2008 and 2007, respectively. The decrease in net cash used in investing activities is primarily due to the change in collateral held under securities lending.

Net cash used in financing activities was \$66,267 and net cash provided by financing activities was \$53,218 for the six months ended June 30, 2008 and 2007, respectively. The change in net cash used in financing activities is primarily due to the change in obligation under securities lending, partially offset by purchases of treasury stock during 2007.

Table of Contents

The table below shows our cash outflows for distributions and dividends for the periods indicated:

Security	For the Six Months Ended	
	June 30,	
	2008	2007
	(in thousands)	
Mandatorily redeemable preferred stock dividends and interest paid	\$ 30,430	\$ 30,550
Common stock dividends	30,740	26,731
Total	\$ 61,170	\$ 57,281

Letters of Credit

In the normal course of business, letters of credit are issued to support reinsurance arrangements. These letters of credit are supported by commitments with financial institutions. We had \$54,117 and \$31,813 of letters of credit outstanding as of June 30, 2008 and December 31, 2007, respectively.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

Our 2007 Annual Report on Form 10-K described our Quantitative and Qualitative Disclosures About Market Risk. There were no material changes to the assumptions or risks during the six months ended June 30, 2008.

Item 4. Controls and Procedures.**Evaluation of Disclosure Controls and Procedures**

The Company's Chief Executive Officer and interim Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as of June 30, 2008. Based on that review, the Company's Chief Executive Officer and interim Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance that information the Company is required to disclose in its reports under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported accurately including, without limitation, ensuring that such information is accumulated and communicated to the Company's management as appropriate to allow timely decisions regarding required disclosure.

Internal Controls over Financial Reporting

During the quarter ending June 30, 2008, we have made no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II****OTHER INFORMATION****Item 1. Legal Proceedings.**

There have been no material developments in the period covered by this report.

Item 1A. Risk Factors.

Our 2007 Annual Report on Form 10-K described our Risk Factors. There have been no material changes to the Risk Factors during the six months ending June 30, 2008.

Item 4. Submission of Matters to Vote of Security Holders.

The Board of Directors of the Company consists of three classes of directors, with the members of each class holding office until their successors are duly elected and qualified. At each Annual Meeting of the Stockholders of the Company (the "Annual Meeting"), the successors to the class of directors whose term expires at such meeting are nominated for election for a term expiring at the Company's Annual Meeting held in the third year following the year of election. At the Company's Annual Meeting held on May 15, 2008, the four nominees listed under (a) below were elected as directors to hold office for terms ending in 2011 or until their respective successors are duly elected and qualified. The following directors, constituting the members of the two classes of directors whose terms did not expire at such annual meeting, continued to serve as directors of the Company: Howard L. Carver, Juan N. Cento, Allen R. Freedman, Charles John Koch, H. Carroll Mackin, and Robert B. Pollock.

In addition, at the 2008 Annual Meeting, the Company's stockholders ratified the appointment of PricewaterhouseCoopers LLP as the Company's independent registered public accounting firm for the 2008 fiscal year; approved the Assurant, Inc. Executive Short Term Incentive Plan, and approved the Assurant, Inc. Long Term Equity Incentive Plan.

The number of votes cast for and against and abstentions as to each of these matters was as follows:

(a) Election of Directors:

Name of Director	Votes For	Votes Withheld
John Michael Palms	99,662,282	3,246,449
Robert J. Blendon	100,868,304	2,040,427
Beth L. Bronner	100,290,897	2,617,834
David B. Kelso	102,007,619	901,112

(b) Ratification of Appointment of Pricewaterhouse Coopers LLP as the Independent Registered Public Accounting Firm of the Company for the 2008 fiscal year:

Votes For	Votes Against	Abstentions
101,055,158	1,124,780	728,793

(c) Approval of the Assurant, Inc. Executive Short Term Incentive Plan:

Edgar Filing: ASSURANT INC - Form 10-Q

Votes For
99,078,434

Votes Against
3,109,854

Abstentions
720,443

(d) Approval of the Assurant, Inc. Long Term Equity Incentive Plan:

Votes For
81,954,276

Votes Against
14,986,002

Abstentions
718,871
